At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

HOME FOR INDIAN CHILDREN, MALVERN.

Arrangements may may be made for a family. CLERICAL, MEDICAL, and MILITARY referees.

Address—Rev. A. S. RICHARDSON, Castle House, Malvern.

KELLY COLLEGE, Tavistock. — The College will be OPENED in September next. The examination of first candidates for the Foundation will be held August 7th, 1877.—For information and forms of application for admission apply to the Head Master, R. W. Taylor, Esq., Rugby.

EDUCATION.—There are a few Vacancies in the ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY for PUPILS on payment of £80 per annum, which includes all professors' fees and extras. Any further information may be obtained of Mr. G. W. Forster, 22, Cockspur Street, London.

UNITED SERVICES PROPRIETARY COLLEGE, Limited, Westward Ho, N. Devon.—Sons of officers, Naval or Military, have an advantage of terms. A nomination for a Naval Cadetship for November next has been placed at the disposal of the School by Rear-Admiral W. M. Dowell, C.B. (2nd in command of the Channel Squadron). The nominee will be selected late in September by the Head Master after an open competition among boys then in the School. For prospectus, list of pupils, curriculum, &c., apply to the Head Master or Secretary.

AN OXFORD GRADUATE (1st Class Modern History School), experienced in tuition, receives into his house at Oxford TWO PUPILS, to prepare for MATRICULATION or the ARMY. For terms, references, &c., address G. B. D., Union Society, Oxford.

NAVAL CADETS EXAMINATIONS.—A Retired Naval Instructor can prepare young gentlemen for the above. Address, T. S. Crockford, 37, Cranfield Road, Brockley, S.E.

BAUMGARTEN'S INVIGORATIVE NERVINE ESSENCE. A most powerful nutritive cordial, which restores to their normal condition all the secretions on the integrity of which perfect health depends.

Report by Dr. Hassall.—"Having analysed the preparation to which Messrs. Baumgarten and Co. have given the name of 'Invigorative Nervine Essence,' I am of opinion that it is a combination well calculated, from its containing, among other ingredients, Pepsine and Phosphate of Soda, to prove most serviceable to the debilitated, the nervous, and the dyspeptic."

Price 8s. per bottle, or four quantities in one, 22s. Carriage free on receipt of remittance. Sole agents, BRANT and CO 283 Strand, London, W.C.

COLCHESTER, ESSEX, on the outskirts of the town, within 10 minutes walk of St. Botolph's and the Hythe Stations, on the Wivenhoe Branch of the Great Eastern Railway, and only two miles from the main line station, from whence there is an excellent service of quick trains to London.—An exceedingly attractive Freehold Residential Property, known as Scarlett's, situate on the east side of the garrison town of Colchester. It comprises a substantially-built and well-arranged residence, in capital order, including three reception rooms, four principal bed and two dressing rooms, two secondary bed rooms, bath room, and suitable domestic offices, with cellarage in basement. The residence occupies a dry and elevated position, commanding extensive and pleasing views over an undulating country, placed nearly in the centre of about 20 acres of very ornamental land, approached by two carriage sweeps, with entrance gates, surrounded by lawns and pleasure grounds, tastefully studded with choice specimen shrubs, conifers, and other trees of great beauty and luxuriant growth, intersected by shaded and winding walks, leading to productive kitchen gardens, with conservatory, vinery, and forcing pits, well-stocked orchard, and productive closes of pasture land. In the rear is a small farmery, gardener's cottage, and the requisite outbuildings. The whole occupying a charming position, and, with the exception of about two acres, is in hand, and will be sold with possession.

MESSRS. BEADEL are instructed by the Proprietor to offer for SALE by AUCTION, at the Mart, Tokenhouse yard, London, on Thursday, the 7th of June, 1877, at 2 o'clock precisely, in one lot, the above very attractive FREEHOLD PROPERTY. Particulars, with plans and conditions of sale, may be obtained of Horace Philbrick, Esq., Solicitor, 50, Old Broad-street, E.C.; at the Mart; and of Messrs. Beadel, 25, Gresham-street, London, E.C.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London.

£10 REWARD

Will be given to any Gentleman who can wear out a Pair of
FRANK PORTER'S REAL PORPOISE HIDE BOOTS
In six months, every-day wear.
Note the Address—40, LUDGATE HILL.
Lowest price for nett cash, 16s. 6d.

Warranted waterproof, and as soft as a glove. Gentlemen with tender feet have been known to wear these boots for two years without repairing.

THOMAS WHITE'S CELEBRATED CAMPAIGNING KIT,

CONSISTING OF

BEDSTEAD, BEDDING, BLANKET, PILLOW, BATH, WASHSTAND, BASIN, CAMP-STOOL, BUCKET, LANTERN, POLE-STRAP, LOOKING-GLASS, PYJAMAS, AND SLEEPING CAP.

ALL OF WHICH ARE CONTAINED IN HIS

LOCK-UP WATERPROOF BAG.

Which, when packed with the above articles, supplies room for clothing and other necessaries. The chief feature in this Kit is T. White's FOLDING BEDSTEAD (recently improved), weighing 16lbs., price 30s.; or his larger sized ditto, 18lbs., price 35s., intended for officers entitled to carry extra weight. Also his CANTEENS for company messing, to cook for and dine three or more officers, as supplied and thoroughly tested during the Manœuvres of 1871, 1872, 1873, 1874, and 1875. This Canteen was used by Sir Garnet Wolseley, G.C.M.G., K.C.B., his Staff, and the 42nd Highlanders (the Black Watch), and other regiments during the Gold Coast campaign, and is recommended and patronized by the highest military authorities.

The above Campaigning Kit, or Canteens, and in most instances both, have been supplied to his Majesty the Emperor of Germany; H.R.H. the Duke of Cambridge, K.G., &c.; H.R.H. the Duke of Connaught, K.G., &c.; H.S.H. Prince Edward of Saxe-Weimar, C.B.; the late General Sir Hope Grant, G.C.B.; Generals the Right Hon. Sir John Michel, G.C.B.; Sir R. Walpole, K.C.B.; Sir Charles Ellice, K.C.B.; Major-Generals Sir Charles Staveley, K.C.B.; Sir Alfred Horsford, G.C.B., Military Secretary; J. S. Brownrigg, C.B.; Henry Smyth, C.B.; Lord Mark Kerr, C.B.; D. Lysons, C.B., Q.M.G.; Sir Thomas MacMahon, Bart., C.B.; Sir E. Greathed, K.C.B.; G. V. Maxwell, C.B.; Hon. A. Hardinge, C.B.; C. Shute, C.B.; W. Parke, C.B.; A. J. Herbert, C.B.; and Sir Garnet J Wolseley, G.C.M.G., K.C.B., besides some thousands of officers of nearly every branch of and regiment in the Service.

THOMAS WHITE,

CAMP AND BARRACK FURNISHER,

Begs leave to inform Commandants of Corps, Presidents of Messes, and Officers generally, that he

IS PREPARED TO SUPPLY ON HIRE

EVERYTHING NECESSARY FOR OFFICERS' MESSES,
Including
MARQUEES, FURNITURE, BOARDED FLOORS,
PORTABLE KITCHENS,
WHITE'S CELEBRATED FIELD RANGE,
Cooking Utensils, Cutlery, Electro-Plate, Crockery, China, Glass, &c.

The same will be securely packed and forwarded, accompanied by an experienced assistant, if desired, to any part of the United Kingdom.

THOMAS WHITE'S

STANDING CAMP TENT KIT,

As supplied by him for 12 years to the National Rifle Association at Wimbledon, and to Officers at Aldershot when under canvas, consisting of the following articles:—

Wood Folding Camp Bedstead
Hair Mattress
" Pillow
Folding Chair
Sponge Bath
Water Can
Tent Pole Strap
Strip of Matting
Tripod Washstand.
Looking Glass
Basin
Lantern

Can be had on hire, in any number, to meet the requirements of regiments or County Rifle Meetings. The weight of each Kit complete is about 80lbs. The Kit includes everything necessary for camping out, and is looked upon by the large number of officers who have used it in England Ireland, and Scotland as a great convenience, saving them the trouble and annoyance of looking out, packing, and conveying their own goods (which are often unfitted for the purpose) to the camping ground.

P.S.—The Campaigning Kit is for Sale, and not for Hire; the Standing Camp Tent Kit is for Hire only.

Full details, Illustrated Price Lists, and Estimates for Officers' Messes, may be had post free on application to

THOMAS WHITE, CAMP FURNISHER, ALDERSHOT.

THE STAFFORD HOUSE COMMITTEE for the RELIEF of SUFFERING among the TURKISH SOLDIERS.

President, the Duke of SUTHERLAND, K.G.

The Turkish dominions having now been invaded, and hostilities having actually commenced, the suffering among the Turkish soldiers is very greatly increased, and as will be seen from the annexed statement by Captain Burnaby, who has just returned from Asia Minor, they are in the greatest need of clothing, of food for the hospitals, and of medical stores and surgical instruments.

The Committee, therefore, appeal strongly to their countrymen for subscriptions to enable them to mitigate the horrors of the war by sending out to the Turkish soldiers such additional succour as is now most urgently needed.

STATEMENT BY CAPTAIN BURNABY.

"Regent's Park Barracks, April 27, 1877.

"In the course of my recent travels through Asia Minor, I visited several Turkish military hospitals, and conversed with the surgeons in charge. They often complained to me of the great scarcity of drugs, and said the authorities at Constantinople found it impracticable to supply many of the necessary specific medicines and surgical instruments, all of which have to be obtained in Europe.

"If people in this country could only realise to themselves the sufferings which the wounded will undergo when being operated upon without chloroform and with worn-out surgical instruments, I think they would willingly subscribe to the Stafford House Fund.

"The soldiers from the southern parts of Anatolia suffer very much from the change of climate, and are utterly unsupplied with warm underclothing. Many a time I have met battalions of Redifs on the march, the men with bare feet and wading through deep snow while the thermometer stood at zero. Many were frost-bitten on the march to Erzeroum and Kars. A supply of warm stockings and flannel shirts and blankets would save thousands of lives."

Communications to be addressed to T. Gibson Bowles, Esq., 2, Harriet-street, Lowndes Square, S.W., or to H. Wright, Esq., Stafford House, Joint Honorary Secretaries.

Subscriptions will be received by Major-General Sir Henry Green, Hon. Treasurer, Stafford House, S.W.; and will be acknowledged in the published list.

ROYAL SCHOOL FOR DAUGHTERS OF OFFICERS OF THE ARMY.

The daughters of all officers in her Majesty's Army, inclusive of the Royal Marines, on full or half pay, or who may have died in the service, are eligible. The ages of admission are from ten to fifteen.

The next election will take place on June 20, 1877.

Pupils elected by votes of subscribers pay only £12 per annum.

Each donation of £5 5s. entitles to one life vote. Each annual subscription of 10s. 6d. entitles to one vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By order,
G. W. FORSTER, Secretary.

HORSES.—GENTLEMEN PROFESSIONALLY ASSISTED in the SELECTION of HORSES. Examined as to soundness. Tattersall's and other sales attended by WILLIAM SEWELL, M.R.C.V.S., 53, Elizabeth Street, Eaton Square, S.W.

HOLLOWAY'S OINTMENT and PILLS.—Life may be blessed with the enjoyment of health through these curatives. To live is one thing, to enjoy life is a far superior state. What avails all our health when sickness screens our view? Health and poverty are preferable to riches with infirmity. Few men would be so foolish as to barter health for wealth. The poorest can secure the former by a trifling investment in these noble medicaments. Be the mischief external or internal, slight or malignant, the patient may rest assured that the proper use of Holloway's Ointment and Pills will speedily mitigate and expel his malady. The very continuance of life depends on sound and healthy blood, which these remedies secure.

ST. LAWRENCE-ON-SEA, NEAR RAMSGATE.

THE "GRANVILLE" HOTEL.

THE "GRANVILLE" PRIVATE SPECIAL EXPRESS TRAINS to ST. LAWRENCE-ON-SEA, near Ramsgate, in 1 hour and 45 minutes. Departures every Friday, from Charing Cross at 3.45, and Cannon Street at 3.55 p.m. (See bills.)

THE "GRANVILLE."

"The situation of the palatial establishment on a cliff somewhat removed from the town, though conveniently proximate thereto, is an advantage greatly augmented by its superb suite of ozone and various other health-giving baths, its well-constructed rink, its excellent and cheerfully appointed table d'hôte, and all other liberal additions of comfort, luxury, and amusement since the hotel has come into the present enterprising hands."—"Daily Telegraph," March 29.

THE "GRANVILLE" HOTEL.

The "Saturday Review" says:—"The scenery, the air, the accommodation for visitors were described as of the most perfect kind; and we could not help wondering how it was that this place, which had been in existence in a quiet way for several years, had suddenly, like Byron, gone to bed and awoke famous."

THE "GRANVILLE" HOTEL.

"Mayfair" says:—"The proprietor of the hotel, which has carried the name of St. Lawrence-on-Sea to the utmost ends of the earth, has energetically and judiciously lavished a fortune, first in making the 'Granville' Hotel one of the most charming seaside residences in the Kingdom, and next in bringing the fact under the notice of the public."

Address the Manager, Granville Hotel, St. Lawrence-on-Sea, Ramsgate.

"SANITAS."—The only true Antiseptic & Disinfectant Combined. Non-Poisonous, Sanitary, Medicinal, Preservative. For use in Houses, Hospitals, and all Public Institutions, Stables, Warehouses, Factories, and all places where noxious, infectious, or bad smelling emanations exist.

"SANITAS"—Has Sanitary Powers equal to both Carbolic Acid and Ozone, and has no injurious action on clothing, furniture, carpeting, &c. It is the best preservative of Skins, Paste, Albumen, and all Animal matters liable to decomposition, such as Meat, Fish, Poultry, &c.

"SANITAS"—Is strongly recommended against Small-Pox, Typhoid Fever, Scarlet Fever, Hay Fever, Rheumatic Complaints, Foot and Mouth Disease, &c.
NO HOUSE SHOULD BE WITHOUT "SANITAS."

"SANITAS"—"This solution has considerable advantage over most of the substances which have been from time to time proposed as either disinfectants or antiseptics; it is neither corrosive nor poisonous, and, as it leaves no stain on textile fabrics, and does not injure them, it can be directly applied to clothes, carpets, furniture, etc. IT POSSESSES AN AROMATIC ODOUR, AND IS, THEREFORE, IN THAT RESPECT SUPERIOR TO CARBOLIC ACID, now so much employed."
(Signed) ARTHUR HILL HASSALL, M.D.,
Senior Physician to the Royal Free Hospital.
(Signed) OTTO HEHNER, Public Analyst.

"SANITAS"—May be had of all Chemists and Wholesale Druggists.
Prices.—Bottles, first quality only, 1s., 1s. 6d., 2s. 6d.
Per Gallon—First Quality, 20s. Second Quality, 10s.
Special quotations for large Orders.
Odourless "Sanitas" at same prices.

SOVEREIGN LIFE ASSURANCE COMPANY.

EXTRACT FROM REPORT OF THE DIRECTORS, MAY, 1877:—

The Directors have again the pleasure of reporting a material advance in the amount of new business effected by the Company during the past year.

The Policies issued were 474 in number, assuring £249,060, or nearly £50,000 in excess of the preceding year. The average amount of each Policy was £525, and the new premium income represented was £8,295 3s. 10d., or £2,100 more than in 1875. The increase on the Total Revenue from Premiums and Interest was £4,995.

The sum paid for claims by death during the year was not in excess of the amount anticipated; but the aggregate disbursements on account of policies falling due exceeded that of any former statement, owing to an increased number of Endowment Assurances having arrived at maturity. Nevertheless, £23,000 were added to the Funds of the Company.

H. D. DAVENPORT, Secretary.

TAUNUS

NATURAL MINERAL WATER.

WHOLESOME, REFRESHING, AND SPARKLING.

Patronised by Her Gracious Majesty the QUEEN.
Supplied by Special Appointment to His Royal Highness the PRINCE OF WALES.

"TAUNUS NATURAL MINERAL WATER cannot be excelled."—ARMY AND NAVY GAZETTE.

"TAUNUS NATURAL MINERAL WATER—A most agreeable table beverage."—PUBLIC OPINION.

"TAUNUS NATURAL MINERAL WATER is one of the purest Natural Waters."—JOHN BULL.

"TAUNUS NATURAL MINERAL WATER far excels all artificially-produced Aerated Waters."—HOUR.

"TAUNUS NATURAL MINERAL WATER fulfils in every respect the properties required in a wholesome table beverage."—COURT CIRCULAR.

"TAUNUS NATURAL MINERAL WATER has many recommendations, being pure, sparkling, and thirst-quenching."—PUBLIC HEALTH.

"TAUNUS NATURAL MINERAL WATER surpasses any similar table water introduced into this country."—NEWS OF THE WORLD.

"TAUNUS NATURAL MINERAL WATER is decidedly one of the most agreeable Waters procurable."—ILLUSTRATED SPORTING AND DRAMATIC NEWS.

"TAUNUS NATURAL MINERAL WATER has acquired very great popularity."—NAVAL AND MILITARY GAZETTE.

"TAUNUS NATURAL MINERAL WATER—A really refreshing, sparkling table beverage of exceptionally clean taste."—COURT JOURNAL.

"TAUNUS NATURAL MINERAL WATER cannot fail to take a high place amongst the most valued of mineral waters."—CIVILIAN.

"TAUNUS NATURAL MINERAL WATER appears to present excellent qualities, is highly refreshing, and will be found very grateful to the palate."—FINANCIER.

"TAUNUS NATURAL MINERAL WATER has long enjoyed a great reputation as being a fine purifier of the blood, and a most wholesome drink."—BULLIONIST.

"TAUNUS NATURAL MINERAL WATER is indeed the perfection of drinking water, and an undoubted acquisition for every table."—MONETARY GAZETTE.

"TAUNUS NATURAL MINERAL WATER has become very popular, and deservedly so, for it is vastly agreeable to the palate, makes a very pleasant beverage when taken alone, and, when 'dashed' with brandy or claret, is simply delicious."—WHITEHALL REVIEW.

"TAUNUS NATURAL MINERAL WATER is to be recommended as a wholesome beverage."—VIENNA MEDICAL PRESS.

"TAUNUS NATURAL MINERAL WATER is beautifully clear and sparkling; it is clean to the palate, and has a pleasant flavour. It is free from all organic and inorganic impurities and injurious salts. It is highly recommended as a health-preserving beverage and blood purifier."—MEDICAL EXAMINER.

"TAUNUS WATER is a very pure natural mineral water, not medicinal, but a beverage. We should be glad to see such dietetic waters constantly consumed in this country."—DOCTOR.

"TAUNUS NATURAL MINERAL WATER may be classed among the most delicious of our table waters."—MEDICAL PRESS AND CIRCULAR.

"TAUNUS NATURAL MINERAL WATER may be recommended as a pleasant and wholesome drink."—LANCET.

"A large parcel of TAUNUS WATER has arrived per steamer 'Maastroom,' from Rotterdam, for the use of the Queen. The generous patronage bestowed upon this Water is a proof of its excellent quality."—MORNING POST.

In striking contrast to the foregoing highly-favourable Opinions of the Press regarding THE TAUNUS WATER, attention is directed to the following extract from the *Daily News* of 16th May, referring to a report made by Dr. Frankland on the Water delivered from the Thames to the Metropolis and its suburbs:—

"According to a report made by Dr. Frankland, all the water delivered from the Thames to the Metropolis and its suburbs during April, except that supplied by the Middlesex Company, was more or less turbid, and was unfit for dietetic purposes, being much polluted with organic matter. The Southwark Company's water was 'very turbid, repulsive in appearance, and contained fungoid growths and moving organisms.'"

The *Globe*, in an article on the London Water, says:—"Ordinary artificial aërated waters are manufactured in London with the same water that is supplied to householders of all classes, rich or poor. Aëration does not destroy poison germs, nor even render them less deleterious. Safety is only to be gained by exclusively using imported waters of high class."

SPECIAL NOTICE.—Intending Visitors to the Rhine are respectfully informed that on application at THE TAUNUS COMPANY'S OFFICE orders may be obtained to view the Spring at Grosskarben, which can be reached by rail from Frankfort in about half an hour.

SURELY there never was a war in modern times concerning which so many costly lies have been written, and of which so little detail that can be relied on is known as the present! There is an army of Special Correspondents engaged at great expense by papers of the first importance, not only in this, but in every European country. These papers are filled with telegrams and letters, each line of which represents an outlay of many pounds, and we have only just made up our minds as to one matter or event being quite certain to have occurred when there comes an official or unofficial denial, and our hopes and fears—our "strategy"—our anticipations founded on the past—are all scattered to the wind. With "news from Montenegro" we have long since done. Those who purvey it for home seem to select the centres where they are most remote from the scenes of action, and most exposed to the influences of partizan feeling. But any way, it is not of much consequence what we hear, because the great operations on the Danube and in Asia Minor carry with their results the necessary success or failure of Turks and Montenegrins in their limited battle-field. As an example of the inconsecutive manner in which events are presented to the public here from Montenegro, Herzegovina, and Albania, take the case of the Mirdite rising. Who can tell from the accounts in the papers what has become of the Mirdites and their chiefs? At one time it was said they were all up in arms occupying the passes and resisting the Turks most triumphantly, at another that they were starved out and completely crushed. Then, again, we read of negotiations to secure terms, and the next news is that they do not want terms at all. The reports are, in fact, a tissue of absurdities and contradictions. Think of "siege guns transported on men's shoulders"!—of 1,000 Turks killed in the battle of Martinitza on June 5, reported by a correspondent at Ostrog, out of a force of four battalions!—of fifty Montenegrins killed in the same affair, which must have cost the Turks in killed and wounded, at the usual rates, 6,000 men! So much for Ostrog. From Vienna the well-informed though distant Correspondent of the *Times* states that the Turks under Suleiman Pasha occupied the entrance to the Duga Pass, after driving 6,000 Montenegrins from the heights, but that the corps under Ali Saib (Said?) Pasha, marching from the Albanian side, had been repulsed by Petrovics. The objective point is the Turkish position at Niksics, which the Montenegrins are supposed to be investing, but not very closely, as the garrison of a blockhouse commanding the entrance to the plain of Niksics was enabled to retreat to the fort in the afternoon of June 5th. Ali Saib Pasha reports that, so far from having been beaten, his troops had driven the Montenegrins, with very considerable loss, from their positions on the heights which commanded the route to Danilograd. To add to the difficulty of forming any idea of operations so diversely reported, the names of places are spelled in a way that would defy Mr. Pitman and Mr. Lowe to unravel. What is written "Spush" by one appears as Sputz in another account, and Ali Saib spells it "Tchputz"!

Along the line of the Danube the correspondents are all at variance, and cannot agree whether the river is rising or falling. If one of them is on the Turkish side, and reports one of the apparently senseless wastes of ammunition which are called bombardments, he says the place against which it was directed suffered greatly. If he be with the Roumanians or Russians he describes all their shells as bursting with beautiful precision. Every little skirmish across the river is made the subject of a telegram—a senseless waste of money—and "bands of marauders" and "movements" of monitors are made "factors" in the accounts from the seat of war. But there can be no doubt that in a week from the present time there will be something else to write about. As far as we can judge, there is no force at the disposal of the Turks to resist the passage of the river by the Russians, or to prevent their ultimate appearance before Constantinople. It may be that they will march rather on Adrianople in the first instance, but the fixed idea in the mind of every Russian is to get to Constantinople, and he will think nothing has been done until he sees the cross or the dome of St. Sophia, Varna—Pravady—Shumla—Silistria—Widdin. That line must be disposed of by the capture or investment of the positions, and it does not seem possible for the Turks to garrison these strong places with adequate forces, and at the same time provide covering armies in the field and a proper force for the defence of the Balkans. With respect to events in Asia Minor, we have only to remark that if the news telegraphed to the Turkish Ambassador in Paris by the Minister for Foreign Affairs of the Sublime Porte be true, there never was such an extraordinary series of falsehoods placed before the public as have appeared from Erzeroum, Batoum, and the eastern coast of the Black Sea. "It is not true that the situation of our army in Asia is precarious, that Kars is invested, or that Moussa Pasha's Cavalry has been destroyed"! But the importance of the rising in the Caucasus and of the diversion at Soukhoum Kaléh would appear to have been exaggerated, as far as regards its bearings on the field operations in Armenia. The departure of the Grand Duke Michael from Tiflis for Alexandropol on June 5 shows that the operations of the Russian corps in Asia Minor are to be directed from the highest quarter, just as the appearance of the Czar on the banks of the Danube will be the signal for the beginning of the invasion of Bulgaria, and of the direct attack on Constantinople.

Until the time shall arrive for every man to possess the power of rewarding himself according to his own idea of his merits, we presume each distribution of Birthday honours will be followed by a certain amount of discontent on the part of those who deem themselves deserving, but find themselves forgotten. This year we have received an exceptional number of comments on the manner in which the Admiralty have performed their duty of recommending naval officers to her Majesty's most gracious consideration, and we cannot but think that selections have not been quite as carefully made as the Service should have a right to expect they would be. With regard to the flag officers who have been selected there is little need for criticism, and the Service will not be sorry to see that, acting on the adage "better late than never," Admiral George Elliot has been advanced to a K.C.B. without ever having been honoured with the C.B. But when the list of Captains who have been fortunate enough to appear in the Birthday *Gazette* is gone through, there certainly is some cause for surprise. Strangely enough, in a former distribution of honours, an officer who had managed to lose his ship and did not figure too well before the court-martial that tried him, found himself amongst the honoured, as much to his own surprise, be it said, as it was to that of his best friends. This precedent has now been followed, for there are actually two Captains made "Companions" who have been severely reprimanded for stranding their ships. We have no desire to see an error of judgment made to follow an officer throughout his service and to be considered as a permanent black mark against him, especially if his subsequent service is in every way satisfactory; but one of the officers alluded to has done little, if anything, for the country since he stranded his ship. Is this to be accepted as a passport to honours and rewards? It is true that the gallantry of one of these officers in particular is a matter of history, but there are others who have equal claims, and who have not had the misfortune to have so erred as to be dismissed their ships. We could name one who has been in almost every fight in which England has been engaged for the last thirty years; who has been wounded in action and wears a gold medal awarded for service in the field, and who is now filling a most important appointment. And while he is overlooked, there is another as to whose advancement there has been but one remark, "What has he ever done?" It is also to be regretted that there should be so great a tendency to slight officers on the Retired Flag List. Many have left the Active List as C.B.'s, and have reason to anticipate that they shall be advanced in the most honourable order. But the fact of their being out of the groove too often consigns them to forgetfulness. There is now one who has both the military and civil C.B., and who, as Captain, did such a service in proving the practicability of laying a telegraph cable between England and America that should ever be held in remembrance. The papers were full of the matter at the time, and others who were connected with the final accomplishment of the enterprise were duly honoured. This work, together with the war services of the officer to whom we allude, plainly points to the justice of further recognition. As regards the scanty acknowledgment received by the non-executive branches of the Service, that is nothing unusual, and while there are so many claimants amongst the executive the others must be content to go unrewarded. The good fortune of the senior medical officer who is now K.C.B. is beyond dispute, and the other may be said to be nearly as fortunate. Both of them are happy in having friends, and it is perhaps only fair to the Director-General of the Medical Department to say that, we have good reason for believing that the nomination of these two officers was entirely the work of the Naval Lord who controls that branch of the Service. The medical line, as a whole, does not appear too pleased at seeing so many plums go in the same direction, and as they are so scarce it is thought that a little more caution might be observed in selecting the recipients. The other branches of the Service are, as usual, altogether left out in the cold, and it would be idle to suppose that an Admiralty Board, constituted as at present, can entertain any idea of giving away a fair proportion of the honours so coveted by all the servants of her Majesty. It would, we are well aware, be impossible to please all or to accept everyone's claims at the value they put upon them, but from the letters we have received some of this year's selections seem to have been rather unfortunate, for it is not the rich that have been sent empty away.

At last the country has had the benefit of one clear, intelligible principle laid down for its satisfaction, and the world in general knows that anything which "menaces India" is to be treated by the Queen's Government as a question upon which they must abandon their attitude of neutral observation. The "French Ditch" in Egypt is the sacred object which we are to guard with all our might. Lord Derby has written up "Noli me tangere" at Port Said and Suez, which are, after all, but two points on the Isthmus of Suez which mark the shortest route from the Mediterranean to the Red Sea. As the *Times* puts it, the Isthmus is itself the important factor we have to deal with. The leading journal has adopted the principle, which we have all along contended for, that any "occupation" of Egypt, either temporary or permanent, is unnecessary, if not mischievous. If we hold the command of the sea we do not gain anything by occupying Egypt, and we become accomplices in the general spoliation of an ally. We make more enemies, excite more jealousies, and gain no friend or advantage. We will fight if any act which menaces India be perpetrated, and these acts are understood and defined to be an occupation of the Dardanelles and Constantinople, and the interruption of the Suez Canal route. They say that Prince Gortschakoff, like his brother Chancellor, has a fine sense of honour. If so, he must have some quiet chuckles over our ultimatum. Once the Russians are in possession of Armenia they hold the upper waters of the Euphrates and the Tigris, and the easiest routes in the world to the Persian Gulf. They command the routes not only to the Bosphorus and the Dardanelles from Erzeroum—long and devious, we admit—but the shorter and direct roads to Diarbekr—Aleppo—Damascus—Jerusalem—el Avish—Port Said on the west and south-west, and on the east and south they have Mesopotamia and Persia at their feet. The latter country will be quite at the mercy of Russia in a few years, if it be not so now, for it will be surrounded north, west, and east by the territories of the Czar, and on the south by the sea. The Caspian, in fact, enables Russia to dominate the northern provinces. As we write the news comes of the success of the Krasnovodsk column under General Lomakine, and of the submission of the Turcomans in the east and north-east. Well, then, why should Russia not assure us that she will not annex Constantinople—though she does not say so—and that she will not menace the Canal of Suez at present, and has no intention of interfering with its navigation or with Egypt? Why not, indeed?

The answer given by Mr. Egerton in the House of Commons to the question respecting the reported mutiny on board the Alexandra cannot be accepted as satisfactory, though it may have been the best the department he represented was provided with. Had it really been only "a case of insubordination" resulting in "certain small articles" being thrown overboard, that would have been bad enough; but it is plain that for such an offence it would hardly be necessary to threaten to disrate all the petty officers of the ship, such appearing to be the course adopted by Admiral Hornby. This savours too much of the old idea of maintaining discipline by flogging the whole ship's company, so that the guilty one may not escape the punishment he deserves, but nothing tends to raise the spirit of discontent more than indiscriminate punishment. Surely with the experience of one holding so high a position as Admiral Hornby, he cannot fail to recall cases where such injustice has led to open exhibitions of ill-feeling which have brought disgrace upon the Service. Want of tact in wielding the power vested in commanding officers has had sad results in the Service, and the Bristol and Aurora were cases of this kind. But it really seems that it is not for all men to get wiser as they grow older, and there are exceptions to the generally accepted adage, *experientia docet*. "Extra drill" is named as the cause of the insubordination, and we all know how men's lives can be made a burthen to them by everlastingly worrying them to be up and doing unnecessary work, and depriving them of their rest. But we shall know more of the matter yet, for it is freely rumoured at the clubs that the Admiralty has not been content to leave the question where it is, but has called upon the Admiral for an explanation of the origin of such an alarming telegram as has set the whole Press calling for an inquiry. The affair will, we have reason for stating, also be brought before Parliament again.

We remarked last week that a very plain answer to the question of Mr. Playfair as to the precautions to be taken to prevent an outbreak of scurvy in future was not likely to be obtained, and we find that Mr. Playfair is not satisfied, and will return to the charge at a future date. The scurvy agitation seems never-ending.

The Service will look forward with interest to some details of the slight engagement between the Shah and Amethyst and the Peruvian turret-ship Huascar, which was built by Laird. That she got away, though much knocked about, is probably to be explained from the fact of her being an ironclad provided with guns of longer range than our unarmoured ships. We notice that a morning contemporary speaks of this as being "the first occasion upon which any of the modern ironclads of her Majesty's Navy have been in action," but had they been modern ironclads we should have hoped they would have done rather more damage to their enemy. It is rumoured that the Shah was not fortunate enough to come up in time to share the whole of the engagement; but whether that may be correct we cannot say. It is worth remarking that Mr. Reed has called attention to the inadvisability of having a station like the Pacific, in which there are foreign armoured vessels, left without one British ironclad, the substitution of the Shah for the Repulse having put our Pacific Squadron at the disadvantage of being composed solely of unarmoured ships.

Commander Robert St. Aubyn, who was a Lieutenant of 1841, has been selected by the Admiralty for the Greenwich Hospital Pension of £50 per annum, which fell vacant by the death of Commander Seaward.

The troublesome proceedings on board the Repulse, which necessitated the strong measures adopted by her Commander, have been laid at rest by the retirement of her late Captain. Perhaps their Lordships have acted wisely in not taking more decided action, for there have lately been too many public washing days with nautical linen to be at all pleasing to the country or the Navy.

Although the remarks of Mr. Young, R.N., on the existence of slavery in Portuguese possessions on the West Coast of Africa, have not been well received in Portugal and have been spoken of as altogether unreliable, the Free Kirk of Scotland, for whom Mr. Young has been acting, is highly pleased with the result of his labours in Africa.

The name of Captain Sir George Nares, K.C.B.' has been mentioned in connection with the command of the Britannia on Captain Graham completing his term of service in August next, but there is a chance that Captain Tryon, whose time is up in the Raleigh, will receive the appointment, as he is favourably known in high places and is an officer of great tact and ability.

Last week Portsmouth was the scene of a few experimental trials with thin steel plates submitted by a well-known manufacturer of armour. The results are not likely to be made public, for, wonderful to relate, somebody awoke to the idea that it was as well to keep the trials private so far as the Press was concerned. All reporters were prohibited from attending; but should any foreign Government request to be favoured with a statement of the results, we have no hesitation in asserting that they will be furnished at once. An innocent cockney some time since was, it is said, warned by a policeman in one of the yards because he was trying to make a sketch of a ship's figure head, and was made to put his pencil in his pocket, while at the same time drawings of one of our latest ships were being prepared for presentation to a foreign Government. Should Italy ask for the results of our small trials of steel armour after having allowed a representative to attend the great experiments at Spezzia, we could not possibly refuse, and it does appear comical that this wonderful piece of precaution should have been taken at a time when Russian and other foreign officers have the run of our yards under competent guides who explain everything of interest and point out the novelties.

Rear-Admiral Count Gleichen has completed the statue of Alfred the Great which is to be erected at Wantage. The figure stands eight feet in height, and is executed in Sicilian marble.

The Tourmaline may be expected to arrive in England in October, as it is probable that Commodore Sullivan, C.B., will turn over to the Active at St. Vincent. Captain Boxer, who goes out in the Active, will, of course, assume command of the Tourmaline, and bring her home, and the future movements of that ship will depend upon the dockyard report as to the state of her machinery.

Captain R. D. King, who was promoted from the command of the Dryad, arrived in England on Sunday.

Admiral the Hon. Henry Rous is, we regret to hear, seriously indisposed, and for the present rest and quiet are indispensable. His medical advisers speak favourably of his recovery.

Captain Hunt Grubbe, C.B., returned to Malta from leave of absence on May 26, and was to leave almost immediately to relieve Captain Richards of the command of the Devastation.

Their Royal Highnesses Prince Albert Victor Christian and Prince George Frederick Ernest Albert of Wales have received their appointments as supernumerary Naval Cadets on board the Britannia.

Vice-Admiral Ryder was at Yokohama on June 4. He will leave for Hakodadi and the Russian Settlements on June 20.

There was a peculiar feature in the brigade which was formed at Devonport on the Queen's birthday. A body of seamen from the Cambridge, mustering between three and four hundred men, and forming a small battalion of six companies, paraded with the troops. They fell in on the right of the line between the field battery and Royal Engineers, were the first to take up the *feu-de-joie*, and marched past in open and quarter-column in a most creditable manner. The brigade consisted of Royal Artillery, Seamen, Royal Engineers, 36th Regiment, Royal Marines, and 52nd Regiment, under Major-General the Hon. L Smyth, C.B.

Captain H.R.H. the Duke of Edinburgh has been elected Master and Admiral Sir Richard Collinson Deputy-Master of the Trinity House Corporation.

The supersession of Mr. William H. Steil, who has held the position of Chief Engineer at Portsmouth Dockyard since October, 1872, was, we are informed, entirely at his own request. He is temporarily succeeded by Mr. J. Bannister, Engineer-Assistant at the Admiralty.

Commodore Sullivan, C.B., would appear to have met with success in opening negotiations with the King of Dahomey, the blockade being reported as raised and the fine in course of payment. It is a matter for congratulation that in this difference with the tyrant Gelélé we have not come to blows, and none of our men have been sacrificed on account of a trading squabble.

The selections of the Admiralty of officers to fill the Hume and Wilson vacancies on the Captains' List are Commanders Nos. 31 and 91, and Lieutenants Nos. 15 and 40. The intermediate numbers on the respective lists must feel flattered.

The armies are preparing and the Ambassadors are on the move. Lord Odo Russell came over on a week's leave of absence to see his friends, and was immediately surrounded all the way to Balmoral to have the honour of dining with the Queen, and of having some conversation with her Majesty in her Highland retreat. Doubtless there will be an extension of the leave of absence from Berlin to make up for the time spent in so long a journey. Count Schouvaloff was to be seen driving about in an open carriage yesterday, and, if one could judge of events from his looks, all must go well with Holy Russia.

A review of the Ordnance Store Charge, at the Royal Arsenal and Dockyard, Woolwich, was commenced on Wednesday last, under the direction of Mr. Jay, of the War Office.

There is to be a meeting in aid of that excellent establishment the Soldiers' Institute, Portsmouth, at the Mansion House, next Tuesday, at 2.30. The Lord Mayor will preside, and H.S.H. the Duke of Teck, ever ready to aid good works by his presence, has promised to attend. Miss Robinson, to whom the Institute owes so much, will address the meeting, and we trust that there may be enough absentees from Ascot to fill the Egyptian Hall on the occasion.

On appointment to the command of the Artillery at Aldershot, vice Major-General Turner, Colonel C. S. Henry, C.B., is transferred from A to C Brigade Royal Horse Artillery, and will be succeeded on the Staff of A Brigade by Colonel J. G. Petrie, C.B., late Bombay, who has been selected for Horse Artillery on vacating command of the Artillery in the Southern District.

The extension of the railway round the basins at Woolwich Dockyard is being pushed on rapidly. Three steam cranes to travel on the line have already been erected, thus to facilitate the loading or discharging of ships or trucks at any desired point.

A very long, a very interesting, and a very alarming report on the condition, force, economy, and objects of the Russian army so soon to be transferred to the south bank of the Danube, and to be let loose on Turkey in Europe, appeared in the *Daily Telegraph* of Monday last. The leading article in which that journal called attention to the letter of their military correspondent in forcible terms was, in our opinion, thoroughly justified in the anxious and earnest tone which pervaded it, and we do not hesitate to express our opinion that the word "alarming" is scarcely strong enough to indicate the gravity of the situation which the success of the Russian invasion and the occupation of Constantinople must create. There is a stolid, stupid belief in certain circles here that Russia is not a formidable military Power. The same opinion is said to pervade official bureaux in Paris. It may be insidiously or ignorantly spread about, and it may have its origin in Berlin, where Field-Marshal Von Moltke is said to have been giving utterance to depreciatory views of the Czar's armies. We know that from our Military *Attaché* at St. Petersburg there has come a good deal of the same kind of matter. Everything in Russia is supposed, by some people, to be rotten. We shall probably hear in due time of enormous frauds in the Commissariat—of shells filled with bran and cartridges with sawdust, bullets of wood, tin swords, and pewter bayonets, and the like idle stories which fly about in war time when prejudice is at work and the wish is father to the thought. But all these things will not keep the Russians out of Turkey, will not bar the Balkans or defend Adrianople, or save Constantinople if the Russians want it. We are told that the Chief of the Russian Staff has reckoned already on a loss of 30,000 men in forcing the passage of the Danube. That is in effect the strength of the whole of the British contingent; or expeditionary army, or whatever it may be called, which in case of need could be sent out to the East in the traditional "fortnight or three weeks" to recover lost ground under the most unfavourable conditions, and to make head against some 150,000 men, described by the military correspondent of the *Daily Telegraph* as "having no rival," flushed with victory and animated by hate.

The following promotions take place in the Army consequent upon the promotion of Generals Sir W. Rowan, G.C.B., Sir C. Yorke, G.C.B., and Lord Strathnairn, G.C.B., G.C.S.I., to the rank of Field-Marshal, viz.:—Lieutenant-Generals Sir F. Horn, K.C.B., Colonel of the 45th Regiment; Sir E. Green, K.C.B., Bombay Staff Corps; and Sir A. M. Becher, K.C.B., Bengal Staff Corps, to be Generals. Major-Generals Sir W. R. S. Norcott, K.C.B., Lieutenant-Governor of Jersey; Sir D. Lysons, K.C.B., Quartermaster-General at Head-quarters; and the Earl of Longford, K.C.B., to be Lieutenant-Generals. Colonels W. H. Seymour, C.B., half pay, late 2nd Dragoon Guards, commanding the Cavalry in Ireland; Sir W. Russell, Bart., C.B., half pay, late 14th Hussars, and Sir F. W. J. FitzWygram, Bart., half pay, late 15th Hussars, to be Major-Generals. Majors C. J. Mounsey, 71st Highlanders; F. J. Bolton, half pay, late 12th Regiment; and R. W. B. Hunt, Royal Marines, to be Lieutenant-Colonels; and Captains J. H. Walwyn, 23rd Fusiliers; A. W. O. Saunders, 21st Fusiliers; and T. Lloyd, 35th Regiment, to be Majors.

When announcing some months ago the probable abolition of the rank of Sub-Lieutenant, we stated that with the introduction of Second Lieutenants it was thought a system would be adopted similar to that which was in operation in the days of Ensigncies, and that an establishment of Lieutenants and Second Lieutenants would be kept up. We are now able to state definitely that this will be the case. All regiments will in future have an establishment of ten Lieutenants, exclusive of the Adjutant, those on foreign service being allowed eight, and those on home service four Second Lieutenants, who will have to await promotion until vacancies occur in the higher rank. This change will give universal satisfaction, as a break will thus be provided in the subaltern ranks, the want of which was a standing argument against the Sub-Lieutenancy system.

A slight increase has been sanctioned in the subaltern ranks of the Militia, consequent upon the introduction of Second Lieutenants, as in the Line. All regiments are in future to be allowed one and a-half subalterns per company, instead of one per company and two supernumeraries per regiment, as is now the case.

A Madras contemporary gives insertion to a report that Lieutenant-Colonel F. W. Jebb, 67th Regiment, is likely to succeed Brigadier-General Stewart as Adjutant-General of the Madras Army when that officer's time is up in August. A similar report reached us some time ago from another and very reliable source, and the excellent reputation Colonel Jebb bears would seem to render it highly probable that rumour may in this case turn out correct. All are agreed as to the officer's high qualifications, and if his selection were to prove a disappointment to the local officers the British portion of the Madras Army would, we feel certain, wish for no better appoinment; indeed, it would be difficult for a better one to be made.

A departmental officer of high rank in the Chatham Command has had a "wigging" administered to him for most unbecoming conduct towards a junior. The junior, it seems, felt himself compelled to make a formal report to the General commanding the district, who had but one course open to him.

Captain H. M. Moorsom, Rifle Brigade, has obtained a well-paid appointment in connection with the Preston Borough Police.

The Horse Artillery jacket vacant in consequence of Colonel J. E. Michell's appointment to the Brigade Staff in India has been given to Lieutenant-Colonel A. H. Murray, of the 9th Brigade Royal Artillery.

The regiments detailed for duty at Aldershot during the summer drills, in addition to those now at the station, are the 1st Life Guards, from Windsor; 20th Hussars, from Brighton; 3rd Battalion Grenadier Guards, from the Tower; 1st Battalion Coldstream Guards, from Chelsea; 2nd Battalion 25th Regiment, from Shorncliffe; 29th Regiment, from Chatham; and 49th Regiment, from Portsmouth.

It has been decided to allow a number of provisional battalions of Rifle Volunteers to drill at Aldershot this year, but they cannot be accommodated until after the close of the regular season, *i.e.*, after the end of July.

Sir James Longden, K.C.M.G., has nominated Lieutenant A. N. Hayne, 57th Regiment, to proceed to Ceylon with him as Aide-de-Camp.

We would suggest to the Committee of the House of Commons now sitting to enquire into the best means of providing civil employment for soldiers that evidence be taken regarding the system followed in India in respect to the "Unattached List" for soldiers, which, if introduced into the Army at large, and made known to the public, would, we feel confident, be a great inducement to young men of the better class to join the ranks. In India there are men belonging to the Army in appointments with salaries ranging from £8 to £50 a month, with the prospect of good pensions on retirement.

It is, we believe, very much to the advantage of the public service that Major-General Schneider should have a command in India, for in the present state of affairs on the north-western frontier his energy, experience, and diplomatic skill are likely to be of service to us. As Governor of Aden he received the Prince of Wales on his way to and his return from India, and is said to have produced a favourable impression on his Royal Highness. He managed our relations with the Arab chiefs very successfully, and strengthened British influence among them considerably, and his departure from Aden will be generally regretted; and although there were some differences between him and one of his officers as to their powers, he was upheld in his view, and the end was peace. As Governor of Aden he was, perhaps, too much alarmed about "Egyptian aggression." *Voila tout!*

We learn that the German Government, no longer alarmed at the attitude of France, has determined not to increase its garrisons in Alsace-Lorraine to any serious extent. The *Avenir Militaire* compares the forces of France and Germany on the frontier, and shows that in a zone of 100 kilometres Germany has 20 regiments of Infantry, France 10 and four battalions of rifles; Germany, 10 regiments of Cavalry, and France 13; Germany, two regiments of Artillery, and France two. Within a zone of 200 kilometres Germany has 40 regiments of Infantry, and France 25; Germany, one battalion of rifles, and France five; Germany, 20 regiments of Cavalry, and France 18; Germany, eight regiments of Artillery, and France, six. The *Avenir* also reminds us that the effective of German regiments of Horse Artillery is superior to that of the French in time of peace. It is the same with the Infantry, the German being 200 men stronger than the French regiment. Then the German fortresses have their Artillery battalions, and the 15th German Army Corps, unlike the 6th French Corps, has its battalion of Engineers. Then it must be remembered that the Prussian capital is covered from French attack by the neutral States of Holland and Belgium, by the Rhine, the Ems, the Weser, and the Elbe. There are also the Vosges mountains, not to talk of Metz and other places. Paris, on the contrary, is at twelve marches from the frontier, and is not covered by a single river of any importance. However, we cannot suppose that Field-Marshal Von Moltke was insufficiently informed when he made his recent speech in the Reichstag. As we have pointed out before, it is probable that the Chief of the German Staff considers that both the Armies of Lyons and Paris, being within striking distance, must be regarded as on the frontier, as well as the army corps under the command of the Duc d'Aumale and that of General Douai.

It is curious enough that there is no English phrase which seems to convey what we mean by *esprit de corps*. It is a French phrase, but the sentiment is universal, and the idea of it is by no means peculiar to our Army or to our regiments. The Russians are full of the sentiment of *esprit de corps* about their old regiments—the Pavloff, the Preobrajenski, the Kazan, &c.—just as the Prussians are of the representatives of the battalions and squadrons which fought under Frederick and his Generals. The Austrians, in such regiments as the 4th (Hoch-und-deutchmeister) and many more, keep alive the memories of their long and chequered military history, which is, moreover, specially told by regimental chroniclers; and General Susanne has recently traced from the famous regiments of the wars of Lewis XIV. the battalions which now are so strangely *numerotès* in the "Army List."

After a lengthened inquiry, the details of which are given in a Blue-book recently issued, it is officially announced that Suva has been selected as the site of the future capital of Fiji. Suva lies on the south side of Viti-levu, the largest island of the group, and one of the largest in the Pacific, having a circuit of some 300 miles. Its natural capabilities attracted the attention of Colonel Smythe in his mission to Fiji in 1861, as we find in his report to the Duke of Newcastle, the Secretary of State for the Colonies. After pointing out the unsuitableness of Lavuka for the chief settlement, Colonel Smythe goes on to say:—"The locality best adapted is the country round the harbour of Suva, in Viti-levu, the largest of the islands. It is rich, level, and well watered. The harbour is, perhaps, the best in the group. It is easy of access, can be entered and quitted with the prevailing winds, and has communication *within the reef* with a great extent of coast." We may add, as a further recommendation in favour of Suva, its fitness for a halting-place for steamers in the event of the resumption of steam communication between Australia and California.

The correspondent of the *Temps* in Albania writes a long letter to our Paris contemporary upon affairs in Asia. He says that the Russian campaign in Armenia will be watched with special interest by England, which has sent a distinguished officer and diplomatist, General Kemball, to watch the progress of the struggle, for the Russians may be able to turn Constantinople by way of Anatolia, nor will there be much to stop them once they break through the first defences and find their way into the plains of Syria and Mesopotamia. "As far as we know," adds the writer, "General Loris Melikoff, with the main body of the Russian Army, is marching from Alexandropol on Erzeroum, and has partially enveloped Kars. If he has sufficient forces to mask that fortress he may, by way of the defiles of Soghanly, push rapidly on to Erzeroum, which is only about 120 miles from Kars. It is true that Moukhtar Pacha may defend the defiles with vigour, but this General will have to protect his right flank against an attack from a corps marching from Bayazid. I think that on the Batoum side there will be nothing but false attacks. However, the best way of judging possible operations is to refer to what took place in 1854 and 1855. At that epoch the Turks assumed the offensive, and on the night of October 31, 1853, snapped up the Russian post at St. Nicholas. Abdul Pacha penetrated into Russian Georgia and gained a trifling success at Bayandic, of which he made the most. His Bashi-Bazouks took a cart containing ten sacks of biscuits and one old tent, which in Abdi's despatch became 'a convoy of biscuits and 2,000 tents.' The troops suffered for this lie; they were allowed to perish from cold. The War Office naturally said, 'Why send tents to Abdi, since he has captured 2,000 from the enemy?' Abdi was soon driven back across the frontier by General Béboutoff, who overthrew him and captured all his artillery, and then Achmet Pacha reigned in his place. Achmet plundered to such an extent that he allowed 12,000 men to die of cold and hunger; and Lord Stratford de Redcliffe, who had his eye on that quarter, obtained his recall. Achmet was succeeded by Zarif-Mustapha Pacha and several foreign officers; Kmety, the Hungarian General, Guyon, and others were sent to Kars to reorganise the troops and fortify the place. As soon as the snow melted in 1854, General Wrangel, who commanded a small Russian corps, occupied Bayazid, and the road to Erzeroum was open. Wrangel, however, was too weak to push on, and Zarif Pacha sent 10,000 men to Toprak Kalé to cover Erzeroum. On the Kars side, the Russians crossed the Kars-Tchaï and occupied several heights, where Zarif Pacha attacked them on the 5th August. He was completely routed by General Béboutoff, lost 6,000 killed and wounded, 2,000 prisoners, and 18 guns. His superior officers behaved in the most scandalous manner. The Russian General did not take advantage of his victory, but regained his winter quarters on the 17th August. Zarif Pacha was recalled, and Vassif Pacha was appointed to succeed him. At the same time, Lord Stratford de Redcliffe sent a Queen's Commissioner to the army in Asia, an officer of the highest merit and greatest energy, Colonel Williams. This officer was seconded by some foreign Generals and by his compatriots, Lieutenant-Colonels Lake, Cameron, and Teesdale. The Commissioner first exercised his authority in the matter of putting a stop to the system of plundering, which was ruining the Army physically and morally. The officers who had run away when Zarif Pacha came to grief were got rid of, the troops were taught to manœuvre, and the fortifications were strengthened, so as to place them beyond being carried by surprise, as in 1828." Then follows a description of General Mouravieff's operations. He marched straight upon Kars with 46,000 men and eighty guns. Ardahan, ill-protected, was abandoned by the Turks. Colonel Lake and General Swatzenberg tried to oppose the Russian march with 3,000 Bashi-Bazouks and 1,500 regular Cavalry, but at the first shot the whole force turned tail and fled. The Kars garrison, 20,000 strong, was not in a position to deliver battle in the plain, and the place was invested. General Soustoff, marching by Bayazid, had driven in the corps opposed to him, and, advancing by the Araxes, cut off the communications between Kars and Erzeroum. Mouravieff's Cossacks and Georgian Cavalry pushed on to Soghanly and found the defiles unoccupied. They captured a large quantity of stores, which the Turks had not had transport means to get as far as Kars. The garrison of Kars had soon to be placed on half rations. Mouravieff was aware that the fortress must fall in time, but not wishing to pass the winter round the place he assaulted it with 20,000 men. "The attack failed. Great courage was displayed on both sides. When the Turkish battalions wavered they were led back by the foreign officers, more especially by Kmety and Teesdale, who, on that day, saved Kars." Mouravieff then built huts, and his army, well-warmed and well-fed, passed the winter watching Kars. At length the starved-out garrison, on learning that Omar Pacha, whose coming had been anxiously expected, had disembarked at Soukhoum-Kalé, instead of at Batoum or Trebizonde, gave in. On November 27 the reddition of the place was signed. One learns from the above narrative that the Russians during the Crimean war were able to draw supplies regularly from Georgia and in abundance, even in the depth of winter; that the Turks could not keep the field against the Russians; that the existence of the Turkish Army was constantly compromised by the amount of theft which went on;

and that the Russians, but for Williams Pacha, would have conquered the whole country in 1854. The writer in the *Temps* considers that matters will be conducted by the Russians, this year, with much more rapidity than in 1854, though the Turks may hold the defiles. But, he says, the vices of the Administration, which are what they were twenty years ago, must be taken into consideration. This gentleman, we hope and think, will be mistaken. There is no doubt that the Turks are now well armed, and the landing at Soukhoum-Kalé will, in all probability, tend to slacken the operations of General Loris Melikoff, who may, at any moment, find his whole rear in a blaze, and this would be no joke with the Black Sea commanded by the Turks.

REGIMENTAL DINNERS.

Royal Horse Guards dined at the Pall-Mall Restaurant on Wednesday. Present:—Viscount Malden, Field-Marshal Lord Strathnairn, Lord Forester, Lord Methuen, Lord Kilmarnock, Lord W. Lennox, Lord Fitzhardinge, Lord Dalrymple, Hon. C. W. Fitzwilliam, Sir B. Henniker, Sir R. Bulkeley, and Sir J. L. Kaye; Cols. Williams and Ives; Capts. Egerton, Wingfield, Whitmore, Slingsby, Trelawny, and Milne-Home; Messrs. Atherley, Paget, Coventry, Miller, Gascoyne, Taylor, Bloxam, Perceval, Cockburn, Melladew, M'Alpine, Harpley, Sharpley, Baillie, Brocklehurst, Childe-Pemberton, Wickham, and Merry.

5th Dragoon Guards dined at the Pall Mall Restaurant on Monday. Present:—Lieut.-Gen. Parker; Cols. Lord Abinger, Ireland-Blackburne, Hon. S. Calthorpe, Godman, Swinfen, and Marsland; Major Balders; Capts. Benyon, Burkingyoung, Calvert, Entwisle, Gist, Murphy, Rayner-Pritchard, Peters, Robson, Scarlett, Sankey, and Soames; Dr. M'Sheeley; Messrs. Cowley, Charnock, and Cracroft-Amcotts, Duffield, de Burgh, Freeman, Paulet.

7th Dragoon Guards dined at the Albion on Saturday. Present:—Cols. Barton, Harnett, and Clarke; Majors Hamilton and M'Adam; Capts. Biddy, Chichester, Lyte, Molyneux, Murphy, Rees, and Thomas, Hon. L. Stanhope, Messrs. Beckett, Brooke, Chadwick, Knox-Rickards, Scott, Usborne, Williamson, and Wentworth.

4th Hussars dined at the Ship and Turtle on Tuesday. Present:—Lord Howard de Walden, Lord Ernest Vane Tempest; Major Philips; Capts. Benyon, Bibby, Gist, Jones, Nevinson, Sergison, and Wentworth; Drs. Graves, Ligertwood; Messrs. Pocklington, Ramsay, and Winstanley.

13th Hussars dined at the Pall Mall Restaurant on Tuesday. Present:—Gen. Lawrenson, Lord Harlech, Lieut.-Cols. Tremayne, M'Lean, Russell, Anstruther-Thomson, and Madocks; Majors Jervis and Pryce-Hamilton; Capts. Pole, Webb, Peters, Starkey, Ford, King, Milburne, Atkinson, and Hargreaves; Lieuts. Brookfield, Torin, Abdy, Wilson, Spilling, and Moore, and Mr. Allgood.

16th Lancers dined at Willis's Rooms on Monday. Present:—Major-Gens. Sir J. Alexander, Pearson, Foster, and Pattle; Cols. Wilkinson, Mackinnon, White, and Dickson; Majors Gavin, Renshaw, Dashwood, Goldie, Whigham, Francis, and Bailey; Capts. Reynolds, Armstrong, Hon. S. Annesley, Battine, Buttinshaw, Barclay, Maillard, Churchward, Graham, Gooch, Fitzgerald, Hill, Powell, Riddell, Shaw, Grant, Wynter, and Wauchope; Lieuts. Boyce, Barker, Blair, Babington, Beach, Campbell, Chadwick, Hon. R. Erskine, Evetts, Graham, Kennedy, Howard, M'Causland, Stanley, Taafe, and Bovil; Drs. James and Rickards, Sir G. Hamond-Graeme, &c.

7th Fusiliers dined at the Freemasons' Tavern on Wednesday. Present:—Gen. Lord Airey; Major-Gen. the Earl of Longford; Col. Waller; Lieut.-Cols. Campbell, Cooper, Hickie, and Watson; Majors Daubeny, Sandys, and Surman; Capts. Butler, Barton, Harrison, Meares, M'Adam, Maude, Cole, and Keyser; Lieuts. Appleyard, Beckett, Heron-Maxwell, St. Maur, Nicholson, and Rodick; Dr. Mure; Messrs. Buler, Gillilan, Langhorne, Porter, Burnett-Stewart, and Richardson.

9th Regiment dined at Willis's Rooms on the 31st ultimo. Present—Lieut.-Gen. Brownrigg; Major.-Gens. Inglis and Knox; Surgeon-General Carrall; Cols. Hawes and Darling; Majors Probart, Gammell, Daunt, Cardew, Roberts, and Douglas; Capts. Burton, Leighton, Morley, Bruce, Josselyn, Gipps, Hunt Grubbe, Elmhirst, and Bacon; Lieuts. James, Shepherd, Armitage, and Dickinson; Messrs. Mortimer, Jephson, Mellis, Maltby; Rev. J. Carroll and A. Lawrie.

43rd Light Infantry dined at the Criterion on Tuesday. Present:—Gens. Viscount Templetown and Hon. Sir A. Spencer; Lord Albert Seymour, Hon. T. G. Cholmondeley; Lieut.-Gen. Phillips, Hon. R. Monck, Hon. C. H. Lindsay, Sir H. Wilmot, M.P., Sir F. Stapleton; Major-Gen. Tryon, Mr. Benet-Stanford, M.P., Sir Lumley Graham; Cols. Cole, Skipwith, De Morel, and Dawson-Greene; Major Corbett; Capts. Clarke, Sandford, Talbot, Serjeant, Langlands, and Miller; Messrs. Bourne, Cockburne, Carter, Collingsplatt, Elliot, Talbot-Nichol, Lennox, Morley, Young, and Maguire.

60th Rifles dined at the Pall-Mall Restaurant, Regent-street, on Tuesday. Present:—H.R.H. the Duke of Cambridge, Viscount Gormanston, Sir H. Burrard, Sir C. de Crespigny; Lieut.-Gens. Murray and Wood; Cols. Hawley, Gordon, Feilden, Butler, and Pemberton; Lieut.-Cols. Mackenzie, Deedes, Battersby, Montgomery, and Wilmot-Brooke; Majors Northey, Grant, Buller, Sotheby, Henderson, Carleton, and Streatfield; Capts. Chalmer, M'Queen, Morrah, Lindesay, Hope-Johnstone, Baillie, Brownrigg, Farmer, Borrer-Carey, Ward, Davies, Crosbie, Cramer, Bircham, Langford-Brooke, Pepys, Travers, Borrer-Clifford, and Brown; Lieuts. Riddell, Campbell, Fetherstonhaugh, Clarke, Hon. A. Greville, Farmer, Brodie, Astell, Michell, Wilkinson, and Montgomery; Surgs.-Major Longhurst and M'Tavish; Messrs. Rhodes, Moseley, Beauclerk, Cubitt, and Wingfield.

83rd Regt. dined at The Albion on Saturday. Present:—Gen. Anderson; Cols. Ainslie and Labalmondière; Major Wakefield; Capts. Blunt, Browne, Forster, Candy, Montmorency, Metcalfe, Powell, Stewart, Whitehead, and Scott, Dr. Robinson, and Mr. Sandford.

The Executive Committee of the Corps of Commissionaires acknowledge the receipt of the following donations to the Endowment Fund in answer to the appeal of Lord Napier of Magdala, viz.:—The officers, 105th, first instalment, £12 10s.; Major-Gen. Bright, C.B., £1 1s.; Major-Gen. H. R. Courtenay, £10; Lieut.-Col. Vernon, late Coldstream Guards, £5; Major H., £5; Capt. Deedes, late R.B., £10 10s.; Capt. W. Vernon, late 68th, £5; Mr. J. L. D. Stewart, Edinburgh, £10.

The Army.

3rd Dragoon Guards moved to the Curragh on Tuesday from Dublin, and have taken up quarters in Donnelly's Hollow and K Lines. The regiment was under command of Major Murray, and numbered ten officers and 240 men, with 301 horses. The dismounted party proceeded by rail early in the morning, and consisted of 130 non-commissioned officers and men, with 23 families, under Lieut. Cole. The following detachments left Dublin on Monday to await the arrival of the regiment at their respective stations on the termination of the Curragh manœuvres, viz.:—One officer, 52 men, and 23 families to Cahir, forming the depôt; two men and two families to Fethard; two men and five families to Waterford; one man and five families to Clogheen; and two men and two families to Carrick-on-Suir. The young horse party left on the same day, and will arrive at Cahir on the 12th.

4th Hussars. Lieut. Lindsell has been granted leave from India to England from April 14 to Oct. 14, on urgent private affairs.

9th Lancers. Capt. Abadie has taken up duty as interpreter, there being no subaltern qualified for the duties.

10th Hussars. Lieuts. Tuite-Dalton and Inman are candidates for the Indian S.C., and have been appointed to the 15th and 3rd Bengal Cavalry, respectively, on probation

13th Hussars. The nigger troupe gave a miscellaneous entertainment at Lucknow on April 24 and 25, Lady Couper, Major-Gen. Chamberlain, C.S.I., and Staff Col. Miller and the principal officers of the garrison being present.

18th Hussars. Lieut. Möller has been appointed acting adjt., vice Lieut. Knox, promoted to a troop.

19th Hussars. There was a slight omission in our account last week of the regimental steeplechases. The Welter Race was won by Lieut. Kenyon-Stow's "Goldlace" (aged), ridden by the owner.

ROYAL ARTILLERY.

The expected order by the Duke of Cambridge in furtherance of the new scheme for the reorganization of the Royal Artillery was issued on Saturday. It settles many points of detail, and states that the next edition of standing orders will contain such other instructions as are necessary. With reference to colonels commanding brigades and districts, it is directed that they will, as a general rule, be posted to the brigade to which the officer causing the vacancy belonged; but it is to be distinctly understood that his Royal Highness will exercise his discretion in posting officers to the branch of the regiment for which he may consider them best suited. In detailing lieutenant-colonels for foreign service, the senior officers longest at home will be the first to embark. A brigade major is to be appointed to each of the large districts, who will, as part of his duties, carry out those now performed by the district orderly officer, assisted by the adjutant, who in small districts will carry out all such duties himself. The functions of the quartermasters and quartermaster-sergeants are defined, and precise rules are established for the promotion of non-commissioned officers according to a seniority list of sergeants and corporals serving in each district. When the separation of the brigades takes place on July 1, all the old books are to be forwarded to the Record Office at Woolwich. Special provision is made for the regimental commands at Woolwich, where each branch or brigade will be a distinct command under a regimental colonel; thus all the Horse Artillery there serving will form one command, and the Field Artillery two commands, as there will be two field brigade head-quarters at Woolwich. The Garrison Artillery at Woolwich will form part of one of these commands. In Ireland the command of the Artillery is to be divided into three districts—namely, Dublin, the Curragh and Newbridge, and Cork. The assistant adjutant-general of Royal Artillery in Ireland will conduct the Artillery Staff duties of the whole command. After dealing with a variety of subjects the order concludes with an admonition addressed to officers commanding districts, who are reminded that the purpose of the depôt batteries is the instruction and training of recruits, and the efforts of the officer commanding each battery are to be directed to training as many recruits as possible, rather than to bringing up a few men to a high state of efficiency for the sake of appearing on parade in rivalry with the service batteries.

Capt. W. A. Roberts, A Brig. R.H.A., remount agent at the Presidency, has been granted leave from India to England for four months, on private affairs.

The following officers of the late 2nd Brig. arrived home the other day in H.M.S. Himalaya from Ceylon, China, and the Straits, viz.:—Brevet Lieut.-Col. O. H. Nicolls, Major N. H. Harris; Capts. J. Younger, G. C. H. Parlby, W. V. Legge, Lieuts. C. J. Blake, P. E. Monckton, and R. A. G. Harrison, and Qrmr. R. Hall.

Lieut.-Col. R. Oldfield and Qrmr. S. Brown, R.A., have been selected for service on the district Staff at Woolwich.

According to the *Irish Times*, the following will be the movements of the batteries of Artillery now stationed in Ireland:—A Bat. D Brig. R.H.A. has left Ballincollig and arrives in Dublin on the 15th inst.; B Bat. D Brig. R.H.A. will leave Newbridge for Dublin after the summer drills; C Bat. D Brig. R.H.A. left Dublin for the Curragh on Monday, and proceeds thence on the termination of the drills to Newbridge; D Bat. D Brig. R.H.A. proceeds to Ballincollig from Dublin on the 15th, arriving on the 23rd; B Bat. 14th Brig. arrived at the Curragh on Tuesday from Athlone, and on the termination of the drills will return to Athlone; E Bat. 14th Brig. arrives in Dublin on the 15th inst. for gun practice, proceeding to Clonmel afterwards; F. Bat. 14th Brig. left Limerick for Newbridge on Monday, and at the close of the season proceeds to Dublin for gun practice, returning to Newbridge for winter quarters; G Bat. 14th Brig. left Dublin for Athlone on Monday.

E Bat. 1st Brig. at Devonport, and F Bat. 25th Brig. at Exeter exchange stations on Tuesday.

Brevet Col. W. W. Barry, C.B., 2nd Brig., has been appointed to the command of the Artillery at Ahmednuggur.

Lieut. G. R. Hadaway, Aide-de-Camp to the Duke of Buckingham and Chandos, Governor of Madras, has been granted leave from India to England, for four months, on private affairs.

Col. C. S. Henry, C.B., assumed command of the Royal Artillery at Aldershot, on Monday last, in succession to Major-Gen. Turner, C.B.

Col. H. E. L. Thuillier, C.S.I. (late Bengal), has been admitted to colonel's allowances from Feb. 27 last, vice Lieut.-Gen. Sir J. Fordyce, K.C.B., deceased. The *Pioneer*, in noticing this announcement, states that it "can only assume that he will retain his post as Surveyor-General till the end of the summer." The Lahore paper says: "Our information leads us to believe that Col. Thuillier will not remain longer at his post than is necessary to make over efficiently his duties to his successor."

Lieut. F. B. Russell, 1st Brig., has been assigned local rank as capt. in India from Sept. 20, 1876.

ROYAL ENGINEERS.

Major F. A. Marindin, the *Irish Times* says, has been appointed a First-class Inspector of Railways under the Board of Trade, in consequence of the retirement of Capt. Tyler, Chief Inspector. The salary is £800 a-year, rising to £1,000.

Capt. C. J. Fergusson, the *Standard* says, has vacated his appointment as Assistant Surveyor-General in Jamaica, and returns to military duties with his corps in Ireland.

Major-Gen. E. J. Lake, C.S.I., col. on the Retired Full Pay List (late Bengal), died at Princes Buildings, Clifton, on the 7th inst., aged fifty-four years. He served the Sutlej campaign of 1845-46, including the battles of Moodkee (wounded), and Aliwa (medal with clasp), Punjab campaign of 1848-49; commanded the troops of the Nawab of Bhawulpore throughout the siege operations before Mooltan (wounded), and present at the battle of Goojerat and pursuit of the Sikhs and Affghans (medal with two clasps, and brevet of major). He joined the Service June 11, 1840, and retired with the hon. rank of major-gen. Jan. 1, 1870.

Lieut. M. N. Hobday died at Camp Rajunpore, on the march from Roorkee to Quetta, on May 31. He joined the Army Jan. 6, 1872.

Grenadier Guards. Col. Burnaby and the officers of the 3rd Batn. gave a very agreeable entertainment in the Tower yesterday afternoon, to which a distinguished company were invited. The games were excellent, and, combined with the admirable music and the creature comforts suited to the temperature and to the occasion, caused the afternoon to pass so rapidly that there was general regret at the necessity for leaving the place which so many used to enter with similar sentiments in times past. The *Times* gives the following description of a remarkable dessert service which Messrs. T. Goode and Co., of 18 and 19, South Audley-street, have lately made for the officers of the regiment:—"The plates are in sets of six, each six containing the badges of all the companies of the Queen's First Regiment of Foot Guards. The badges are enclosed by little white wreaths in relief, and begin with the twenty-four royal badges borne by the Sovereigns of England from Edward III. and Charles II., and granted to the regiment by Royal Warrant in 1660, together with the six by which the Queen augmented the blazon of the regiment upon its increase to thirty companies in 1854, when the Prince Consort was its colonel. The officers of the Grenadiers will henceforth have before them at dessert a heraldic history of England in fine china. The plates on which the badges are painted are in other respects severely simple. They are in white Minton china."

1st or Royal Scots. Lieut.-Col. Stuart, 2nd Batn., has been granted leave from India to England for five months on urgent private affairs, and Lieut. Money for twelve months, also on private affairs.

8th King's. Lieut. Porter, 1st Batn., is a candidate for the Indian S.C., and has been appointed to the 30th Bengal N.I. on probation.

9th Regiment. The retirement of Col. Hawes upon half pay from command of the 1st Batn., for which we some time since prepared our readers, will appear in an early *Gazette*. Lieut. Murray, 2nd Batn., is a candidate for the Indian S.C., and has been appointed to the 13th Bengal Cavalry on probation. Lieut. Griffin has been appointed assist.-instr. of musketry to the 2nd Batn.

15th Regiment. Lieut. Way, 2nd Batn., has passed the lower standard examination in Hindostanee.

16th Regiment. The depôt companies 1st and 2nd Batns. proceeded last week from Portsmouth to Bedford and joined the Brigade Depôt there.

21st Fusiliers. Qrmr. Browne has been granted leave from India to England for six months, on private affairs.

24th Regiment. There was a report at the Cape when the mail was despatched that the 1st Batn. would remain at Cape Town, and not move, as it was expected it would have done, to Natal.

32nd Light Infantry. The wing lately arrived from the Cape consisted of six officers and 296 non-commissioned officers and men.

33rd Regiment. Lieut. Lyons-Montgomery is a candidate for the Indian S.C., and has been appointed to the 3rd Goorkhas on probation.

34th Regiment. Lieut. Mahon is a candidate for the Indian S.C., and has been appointed to the 43rd Bengal N.I. on probation.

35th Regiment. Major King has been posted to the depôt, vice Lieut.-Col. Glass.

39th Regiment. Lieut. Roberts is a candidate for the Indian S.C., and has been appointed to the 4th Bengal N.I. on probation. Lieut. Luby is appointed instr. of musketry, vice Lieut. Egerton, who resigns an appointment as aide-de-camp to the Lieut.-Governor of the Punjab.

43rd Light Infantry. The depôt companies have been conveyed during the week from Ireland to Jersey with the 53rd Regt. in H.M.S. Assistance.

47th Regiment. The depôt has been formed on the departure of the regiment from Jersey for Ireland, and joins the brigade depôt at Preston.

ROYAL MARINES.

An exchange of division has been sanctioned between the following officers of the R.M.L.I.:—Capt. J. M. Whale, of Plymouth, and Capt. N. W. J. Stephens, of Portsmouth. This exchange to be effected without public expense.

Capt. J. C. Hore, R.M.L.I., has been granted three months' leave of absence, which commences on the 9th inst., and expires on Sept. 8.

Capt. H. A. St. John, of the Plymouth Division of R.M.L.I., will proceed to Gosport head-quarters on the 2nd proximo, for the purpose of undergoing a course of torpedo instruction.

The athletic sports of the Artillery Division will take place on Wednesday, June 20, at Fort Cumberland, under the patronage of Col. H. Adair, commandant. There are no fewer than twenty-six events on the programme arranged by the committee, of which the members are Lieut.-Col. Ansell, Major Brydges, Capt. Roberts, Lieut. Robilliard, Qrmr. Thacker, Sergt.-Major Muir, Qrmr.-Sergt. Field, Staff-Sergt. Dighton, Staff-Sergt. Davis, Sergt. Wall, Sergt. Stevenson.

53rd Regiment proceeded from Birr and out-stations to Kingstown on Monday, and embarked in H.M.S. Assistance for Jersey.

60th Rifles. Lieut. Mends, 2nd Batn., is a candidate for the Indian S.C., and has been appointed to the 9th Bengal N.I. on probation. Lieut. Walker has been appointed as sist.-instr. of musketry to the 4th Batn.

66th Regiment. Lieut. Hassard has applied for leave to England from India.

68th Light Infantry. A correspondent writes:—"Having seen two letters in your paper from the pens of old officers of the 68th, I should like to add my mite of information as regards that excellent regiment, in which I spent my youthful and many happy days. It affords me great pleasure to learn that the old 'Durhams' still maintain that character for discipline and efficiency—I might almost say perfection—which they first won under Lieut.-Col. Cross, who commanded them from April, 1831, until May, 1841, without ever being absent from duty for one single day. I think we should give honour to whom honour is due, and a better officer than Col. Cross never drew sword. Gens. Lord William Paulet and Smyth will testify to the truth of what I say, for both of these officers served most of the time under Col. Cross's command."

70th Regiment. Lieut. Montanaro is a candidate for the Indian S.C., and has been appointed to the 35th Bengal N.I. on probation.

71st Highlanders. At the regimental dinner it was proposed by Sir Thomas Erskine, and seconded by Sir Hew Dalrymple, with the approval of Lieut.-Gen. Sir G. Cadogan and Major-Gen. Hope, that a sum of £100, part of the balance at the credit of the committee, should be appropriated in sums of £25 to each of the following:—The Royal School, Cambridge Asylum, Soldiers' Daughters Home, and Corps of Commissionaires.

73rd Regiment. Lieut. Schooles has been appointed assist.-instr. of musketry.

81st Regiment. The depôt has not accompanied the 47th Regt. to Ireland, it having been decided to form the Preston Brigade Depôt, to which it is attached.

88th Connaught Rangers. On arrival in South Africa, the regiment will, it is believed, go on to Natal. Capt. Nolan asked the Secretary of State for War in the House of Commons last night if he could state how many applications for one pound reward for the apprehensions of men of the 88th Regt. had been made by the police stationed at Ballinasloe within the last three months, how many of these applications had been granted, and in how many cases the commanding officer of the regiment in question considered that the soldiers apprehended intended to desert? Mr. Hardy—There have been twelve such applications on the recommendations of the captains. They have been granted with the exception of one, in which, with the consent of the magistrates, the sum named was reduced to 10s. The commanding officer made no report on desertions, but I find in eleven cases out of the twelve the soldiers said they did not intend to desert.

89th Princess Victoria's. Lieut. Gordon has been appointed aide-de-camp to the Duke of Buckingham and Chandos, Governor of Madras, during the absence in England of Lieut. G. R. Hadaway, R.A.

92nd Highlanders. Qrmr. Bignell has been granted leave from India to England, on private affairs.

94th Regiment. Mr. Edmund Jenkins has postponed his notice respecting the court-martial on Capt. Roberts until the 8th prox.

96th Regiment. Capt. Grant has been appointed to the depôt for duty.

99th Regiment. 150 non-commissioned officers and men, and the depôt 62nd Regt., arrived at Templemore on the 7th inst. from head-quarters at Kilkenny, and the detachment at Dungarvan. Capt. Fitzsimon, 62nd, Capt. Greenham, Lieut. Cotton (instr. of musketry), and Lieut. Turner (assist.-instr. of musketry), accompanied the party. Lieut. Rowden has been appointed to act as instr. of musketry to the Kilkenny Fusiliers during the training.

103rd Fusiliers. Lieut. Coningham has joined the depôt at Naas, in relief of Lieut. Gray.

104th Fusiliers have been conveyed from Guernsey to Kingstown in H.M.S. Assistance, and have taken over quarters at the Curragh.

109th Regiment. Lieut. Lay is a candidate for the Indian S.C., and has been appointed to the 38th Bengal N.I. on probation.

Rifle Brigade. Capt. Hon. C. E. Edwardes, 4th Batn., has been granted an extension of leave from India to remain in England from Aug. 1 to Oct. 22, on very urgent private affairs.

Ordnance Store Department. Depty. Commy. R. Nichols, commanding C Company, A.S.C., has been ordered to Halifax, there to take over the Ordnance Store charge.

Medical Department. The death is announced of Surg.-Gen. T. Moorshed, M.D., deputy surg.-gen. on the Half-Pay List. Dr. Moorshed served in the Crimean campaign from Nov. 4, 1854, and was surg. of the 7th Fusiliers at the capture of the quarries on June 7, and assaults of the Redan on June 18 and Sept. 8 (medal with clasp and Turkish medal). Served as sanitary officer to the British troops in Abyssinia during the campaign of 1868 (medal). He entered the Army Oct. 24, 1845; became surg., Nov. 3, 1854; surg.-major, Oct. 24, 1865; deputy surg.-gen., Jan. 5, 1875; and retired upon half pay, July 2, 1876.

THE AUXILIARY FORCES.

MILITIA.

Royal Cornwall Rangers. The annual inspection was made at Bodmin on the 31st ult., and Col. Trelawny expressed to the officers and men the great gratification he felt at having from two inspecting officers such a satisfactory report of their efficiency.

Devon Artillery, having completed its training, was dismissed on Saturday. Lieut.-Col. Heberden, R.A., inspected the regiment, and found it in a most creditable state.

Durham Fusiliers. The recruits, to the number of 200, have assembled for preliminary drill.

West Kent. Small-pox having entirely disappeared from the district in which the regiment is recruited, it is likely to be assembled for training at Maidstone.

2nd Royal Middlesex, strength about 20 officers and 650 men, proceed from Barnet to Aldershot on Monday and Tuesday for training.

4th Royal Middlesex, consisting of about 26 officers and 600 men, proceeded from Hounslow to Aldershot on Tuesday for training.

Royal Monmouth Engineers. The regiment was inspected at Monmouth last week, previous to dismissal, by Lieut.-Col. W. C. Phillpotts, R.E., who expressed himself exceedingly pleased with its appearance and efficiency in the field. The *Monmouthshire Beacon* says that "owing to the unavoidable absence of the necessary appliances and implements for military engineering, a good deal of the work performed during this training has been decidedly more theoretical than practical. No practising ground having been yet provided by the Government, the men had perforce to be put through the various motions and manœuvres with tracing tapes, which were supposed to indicate and define imaginary trenches, batteries, glacis, and various other engineering operations. Notwithstanding all these many disadvantages, the men, although so recently converted from the comparatively easy duties devolving upon Light Infantry regiments to the more difficult and important operations carried out by Engineer corps, acquitted themselves, on the whole, in the most creditable manner." The challenge cup, presented by Major Rolls, has now been competed for eleven years without having been secured for three years successively by any competitor, as required to enable the winner to become the absolute possessor. Won by Lieut. Steward, 1867; Capt. Zamoiski, 1868; Capt. Allaway, 1869; Lieut. Buchanan, 1870; Lieut. Bannerman, 1871; Lieut. Metcalfe, 1872; Lieut. Oakley, 1873; Assist.-Surg. Norman, 1874; Lieut. Bannerman. 1875; Lieut. Bannerman, 1876; Lieut. Curre, 1877.

2nd Tower Hamlets assembled on Monday, strength about 20 officers and 610 men. The regiment proceeded to Aldershot on Tuesday, there to undergo its training.

Clare. The following officers are doing duty during the training, viz.:—Lieut.-Col. MacDonnell; Hon. Lieut.-Cols. Paterson and O'Callaghan; Hon. Majors Smyth, Westropp, Studdert, and Walton; Capts. Hon. T. F. Butler, MacMahon, Fitzgerald, and Crowe; Lieuts. Paterson and Scott; Sub-Lieuts. Cahill, Parkinson, Westropp, Molony, Butler, and FitzGerald; Capt. and Adjt. O'Brien, Qrmr. Davies, Surg.-Major Green, M.D., and Surg. Cullinan.

Royal North Down assembled at Newtownards on Monday. The officers present are Col. Craig; Majors Hamilton and Hall; Capts. Gracey, M'Cance, Cowan, Gordon, and Morrison; Lieuts. Thompson and Coleman; Sub-Lieuts. Sankey, Kirkpatrick, Law, Leslie, Keown, Moore, and Johnson-Smyth; Capt. and Adjt. Hamilton, and Surg.-Major Cross. Lieut. Cookson, 91st Highlanders, has been appointed musketry instr. during the training.

Kilkenny Fusiliers assembled at Kilkenny for training on Monday. The officers present are Col. H. St. George; Lieut.-Cols. Sir J. Langrishe, Bart., and Hunt; Capts. Morris-Wall, Hely, Shore, Cahill, Thacker, Stannard, and Davoren; Lieuts. Sutherland, Butler, and Hon. G. L. Bellew; Sub-Lieuts. Thacker, Browne, Adamthwaite, and Neville; Capt. and Adjt. Dawson, Surg.-Major Lyster, M.D., and Surg. Magee. Capt. Neville has obtained leave from training. Sub-Lieuts. Warburton, Shine, and Delany have resigned their commissions.

Waterford Artillery, occupying Duncannon Fort, musters 3 field officers, 5 capts., 8 subalterns, the adjt., qrmr., surg., and 423 men.

A return has been issued giving for each of the counties in Great Britain the number of the Militia, Yeomanry, and Volunteers for 1876, and a comparative statement of all these services combined, compared with the population around them. The total number of men enrolled in these forces was 263,909, distributed as follows:—Militia, 78,713; Yeomany, 11,012; and Volunteers, 174,184. Lancashire stands at the head of the list with a total of all arms of 30,205, in a total male population between 15 and 35 years of age of 472,260. Middlesex comes next, supplying a force of 25.054 men of all arms in a male population as above of 420,375. The total male population of the country between 15 and 35 years of age is given at 4,150,789; and of these 6·36 per cent. are enrolled in the Auxiliary Forces.

The following regiments assembled on Monday last for training, viz.:—1st Devon, at Exeter; 2nd Royal Middlesex, at Barnet; 4th Royal Middlesex, at Hounslow; 1st Somerset, at Taunton; 2nd Tower Hamlets, at Victoria Park-square; 3rd West York, at Doncaster; Royal Aberdeen, at Aberdeen; Edinburgh, at Dalkeith; Haddington Artillery, at Dunbar; Cavan, at Cavan; Clare, at Ennis; Donegal, at Lifford; Royal North Down, at Newtownards; Royal South Down, at Downpatrick; Kilkenny, at Kilkenny; Royal Limerick, at Limerick; North Mayo, at Bellina; Sligo, at Sligo; Mid-Ulster Artillery, at Dungannon; and Wexford, at Wexford.

The following regiments assemble on Monday next, viz.:—1st and 3rd Royal Surrey, at Kingston; and 3rd Argyll Artillery, at Campbelltown.

The following regiments complete their training to-day, viz.:—The Hereford, at Hereford; Royal Montgomery, at Welchpool; Norfolk Artillery, at Great Yarmouth; and Suffolk Artillery, at Harwich.

The following officers obtained certificates at the school at Wellington Barracks. last month, viz.:—Captains certificates—Capt. Sir J. Maitland, Highland Borderers; Lieut. Bowles, Royal Berks; and Sub-Lieuts. Baker, Northumberland; Buchanan, Highland Borderers; Broadwood, Royal Sussex; Campbell, 1st Stafford; Maclachlan and Mackie, Scottish Borderers; Sedgwick, 2nd Royal Middlesex; Staveley, Ros. common; and Winn, West Kent.

VOLUNTEERS.

15th Middlesex (London Scottish) Rifles. It is with deep regret we announce the death of Major Sir H. C. Pelly, Bart., which took place suddenly on Monday at the age of thirty-three. The late baronet was son of the late Sir John Henry Pelly. He married in 1872 the Hon. Lilian Harriet, second daughter of Lord Elcho. After having served in the 2nd Dragoons and 2nd Life Guards from 1862, he retired in 1873, and accepted a majority in the regiment May 12, 1875.

40th Middlesex Rifles. The officers entertained Major Cowper at dinner on Tuesday, in their mess-room, at the Gaiety Restaurant, on his retirement from the adjutancy. Col. Vincent, in proposing the major's health, referred to his long connection with the regiment, and testified to the zeal he had displayed, and the many excellent qualities he had given evidence of, both as a soldier and a comrade.

The following officers obtained certificates of proficiency at the Wellington Barracks school last month, viz.:—Field officers certificates—Lieut.-Col. Campbell, 1st Adm. Batn. Dumbarton Rifles; and Major Forster, 1st Norfolk Rifles. Capts. certificates—Sub-Lieuts. Banbury, Edinburgh Rifles; Chubb, 7th Surrey Rifles; Ford, 23rd Middlesex Rifles; Johnson, 1st Nottingham Rifles; Longmore, 4th Essex Rifles; Thaney, 1st East York Rifles; Rudd, 7th Tower Hamlets Rifles; Saunders, 3rd Somerset Rifles; Slater, 39th Middlesex Rifles; and Thimm, 2nd London Rifles.

THE INDIAN ARMY.

3rd Bengal Cavalry. Lieut. E. M. L. Inman, 10th Hussars, a candidate for the Staff Corps, has been appointed officiating squadron officer on probation, vice Lieut. C. M. FitzGerald, transferred to 3rd N.I.

5th Bengal Cavalry. Lieut. L. A. C. Cook is about to return to duty from leave in England.

8th Bengal Cavalry. Lieut. J. F. D. Fordyce has resigned his appointment as aide-de-camp to Major-Gen. Maude, C.B., V.C., commanding the Rawul Pindee Division, from May 1.

13th Bengal Cavalry. Lieut. A. R. Murray, 9th Foot, a candidate for the Bengal S.C., has been appointed officiating squadron officer on probation.

15th Bengal Cavalry. Lieut. R. Tuite-Dalton, 10th Hussars, a candidate for the Staff Corps, has been appointed officiating squadron officer on probation.

17th Bengal Cavalry. Lieut.-Col. F. W. Graham becomes brevet col. from April 3.

1st Bengal N.I. Lieut. G. H. More-Molyneux, adjt., has been confirmed in his appointment as adjt., vice Lieut. Miley, appointed to the Pay Department.

4th Bengal N.I. Lieut. S. W. T. Roberts, 39th Foot, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

7th Bengal N.I. Lieut. J. Abercrombie has qualified for promotion, and will be gazetted on an early date.

8th Bengal N.I. Col. F. A. Carey has arrived home from India on furlough.

9th Bengal N.I. Capt. H. L. Young, Bengal Infantry, General List, officiates as wing commander, vice Major Toke, officiating as second in command. Lieut. H. R. Mends, 60th Rifles, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

12th Bengal N.I. Lieut. A. F. Barrow, wing officer and qrmr., has been appointed adjt., vice Capt. Oldham, whose service in the appointment has expired.

15th Bengal N.I. Lieut.-Col. R. Barter becomes brevet col. from April 28.

16th Bengal N.I Capt. W. C. Rutherford has arrived home on furlough.

26th Bengal N.I. Lieut. L. Dening has arrived home on furlough.

38th Bengal N.I. Lieut. C. B. Porter, 8th Foot, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

35th Bengal N.I. Lieut. A. Montanaro, 70th Foot, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

38th Bengal N.I. Lieut. T. Lay, 109th Foot, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

39th Bengal N.I. Col. G. W. Fraser has arrived home on leave from India.

43rd Bengal N.I. Lieut. C. E. Mahon, 34th Foot, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

1st Goorkhas. Lieut.-Col. P. Story has arrived home on furlough.

3rd Goorkhas. Major G. C. Gregory has arrived home on furlough. Lieut. H. F. Lyons-Montgomery, 33rd Foot, a candidate for the Staff Corps, has been appointed officiating wing officer on probation.

1st Central India Horse. Lieut. H. A. Vincent has arrived home on furlough.

3rd Hyderabad Cavalry. Capt. T. Cummins has been appointed officiating second in command of 3rd Cavalry, vice Major C. J. O. FitzGerald, officiating commandant 4th Cavalry.

5th Hyderabad Infantry. Col. T. T. Turton has arrived in England on furlough.

28th Madras N.I. Capt. E. M. Stevenson has arrived home on furlough.

35th Madras N.I. Capt. S. L. Bagshawe has arrived home from India on furlough.

7th Bombay N.I. Capt. W. C. Morris has been confirmed in his appointment as qrmr.

11th Bombay N.I. Major R. R. Wodehouse has been granted six months' leave in India.

12th Bombay N.I. Capt. C. M. Browne has been confirmed in his appointment as adjt., vice Capt. Scott, whose five years have expired, Lieut. E. Balfe, Bombay S.C., being appointed wing officer and qrmr.

16th Bombay N.I. Col. Cahusac has arrived home on furlough.

22nd Bombay N.I. Major W. Jacob, Bombay S.C., officiating second in command, has been appointed wing officer, vice Major J. G. Watts, appointed a brigade-major on the establishment for five years.

Philadelphia International Exhibition of 1876.—The Lord President of the Council has presented, through Sir Herbert Sandford, to the directors of the Anglo-American Telegraph Company, on the part of her Majesty's Government, a silver inkstand, specially designed and manufactured by Messrs. Elkington, as a mark of appreciation of the exceptional facilities afforded by the company to the British Executive Commission in the transmission of messages throughout the whole term of the exhibition work.—*Times.*

The Army Gazette.

WAR OFFICE, PALL-MALL, JUNE 5, 1877.

Where not otherwise specified, the following commissions and announcements bear date June 6, 1877:—

Royal Engineers—Major C. E. Harvey to be Lieut.-Col., vice H. T. Siborne, placed upon the temporary Reserve List; Major R. W. Duff to be Lieut.-Col., vice J. P. Cox, placed upon the temporary Reserve List; Capt. C. E. Luard to be Major, vice C. E. Harvey; Capt. B. Brine to be Major, vice R. W. Duff; Lieut. H. H. Cole to be Capt., vice C. E. Luard; Lieut. H. C. Reynolds to be Capt., vice B. Brine; Lieut. H. P. Knocker to be Capt., vice J. H. Satterthwaite, placed upon the temporary Reserve List; Lieut. H. P. Lee to be Capt., vice J. D. Bowly, placed upon the temporary Reserve List; Lieut. K. R. Todd to be Capt., vice A. A. Jopp, placed upon the temporary Reserve List; Lieut. F. Q. Edmondes to be Capts., vice A. H. Hime, placed upon the temporary Reserve List.

WAR OFFICE, PALL MALL, JUNE 8, 1877.

Where not otherwise specified the following commissions and announcements bear date June 9, 1877:—

1st Dragoon Guards—Vet.-Surg. of the First Class Luke Byrne retires on half pay.

7th Dragoon Guards—Capt. E. M. Lyte retires from the Service, receiving the value of his commission.

2nd Dragoons—The undermentioned officers resign their commissions:—Lieuts. J. W. McC. Bunbury and D. S. Porteous.

12th Lancers—Capt. and Brevet Major the Hon. H. J. L. Wood to be Supy., on being appointed Adjt., Oxford Yeomanry Cavalry; April 25, 1877. Capt. J. B. Hayes, from Supy. List, to be Capt., vice L. Martin, retired; May 23, 1877.

14th Hussars—Capt. W. R. Wynter, from the 16th Lancers, to be Capt., vice H. L'E. Malone, who exchanges.

15th Hussars—Qrmr. S. H. Staniland, from the 40th Brigade Depôt, to be Qrmr., vice W. Hodgkinson, retired on half pay.

16th Lancers—Capt. R. Rintoul, from half pay, late 4th Dragoon Guards, to be Capt., vice W. E. Shaw, retired on temporary half pay. Capt. H. L'E. Malone, from the 14th Hussars, to be Capt., vice W. R. Wynter, who exchanges. Capt. and Brevet Major R. Rintoul, appointed to the Militia, retires upon half pay.

18th Hussars—Capt. J. Groves retires on temporary half pay.

20th Hussars—Lieut. W. J. Irwin to be Adjt., vice Lieut. H. H. Perkin, promoted into the 1st Dragoons; May 10th, 1877.

Grenadier Guards—Lieut. R. L. Pemberton resigns commission.

8th Foot—Capt. J. M. Batten, from the Supy. List, to be Capt., vice M. C. M. Dixon, made Supy. from 20th April, 1877, on being appointed Adjt., 2nd Royal Lancashire Militia; April 23, 1877.

17th Foot—Lieut. S. Moores, from the 108th Foot, to be Lieut., vice S. B. Beatson, a Probationer for the Indian S.C.

22nd Foot—Lieut. I. St. J. Hartford to be Capt., vice E. A. Carey, made Supy. on being appointed Adjt., 2nd Cheshire Militia; Jan. 1, 1877.

By a telegram dated Cape Town, May 8, we learn that Lieut.-Gen. Sir Arthur Cunynghame, K.C.B., and Depty. Comy.-Gen. Strickland, C.B., had gone to the Transvaal to make arrangements for the quartering of troops. A subsequent telegram, dated the 15th, says:—"The British troops have arrived at Pretoria, the capital of the Transvaal, and have been cordially received by the population." The General will soon be coming home to the regret of his command and of the colony.

THE DRILLS AT THE CURRAGH CAMP.

The following General Order has been promulgated in Ireland:—

Adjutant-General's Office, Dublin,
1st June, 1877.

General Order No. 920.

1. Under instructions from H.R.H. the Field-Marshal Commanding-in-Chief, the troops concentrated at the Curragh and Newbridge for the summer drills will be formed into and organised as a division upon Saturday, the 9th of June, 1877.

2. The divisional organisation will continue from the 9th of June, 1877, to the 9th of August, 1877, both days inclusive.

3. The troops will be arranged and the divisional and brigade Staffs constituted as follows:—

Divisional Staff.

Major-General Commanding, Major-Gen. Herbert, C.B. Aide-de-Camp, Capt. J. Crosbie, 60th Royal Rifles. Extra Aide-de-Camp, Lieut. Lord Clanmorris. Rifle Brigade. Assist. Adjt.-Gen. Col. Young, half pay, 80th Regiment. Depty. Assist.-Adjt., Capt. Middleton, 4th Regiment. Qrmr.-Gen., Capt. Kitchener, 46th Regiment. Commanding R.A., Col. Lukin, R.A. Brigade-Major R.A., Capt. Harness. R.A. Adjt. R.H.A., Lieut. Turnbull, R.H.A. Adjt. Field Batteries, Capt. Blackwood, R.A. Commanding R.E., Lieut.-Col. Barry, R.A. Depty. Comy.-Gen. (Com.), Assist. Comy.-Gen. C. D. O'Connor. Assist. Comy.-Gen. (Ord.), Depty. Comy. P. Flynn. P. M. O., Surg.-Major Armstrong.

Cavalry Brigade.

Brigdr.-Gen. Commanding, Brigdr. Gen. Seymour, C.B. Aide-de-Camp, Capt. W. Hanning-Lee, 2nd Dragoon Guards. Brigade-Major, Capt. P. H. S. Barrow, 19th Hussars. 5th Dragoon Guards, 7th Dragoon Guards, and 19th Hussars.

1st Infantry Brigade.

Commanding, Brevet Col. Prevost, 1st Batn. 23rd Fusiliers. Aide-de-Camp, Lieut. Mainwaring, 1st Batn. 23rd Fusiliers. Brigade-Major, Capt. Deane, the Royal Scots. 1st Batn. 1st Regiment, 2nd Batn 14th Regiment, 1st Batn. Rifle Brigade.

2nd Infantry Brigade.

Commanding, Col. Thompson, 14th Regiment. Aide-de-Camp, Lieut. P. Crosbie, 14th Regiment. Brigade-Major, Capt. Yorke, 4th Regiment. 2nd Batn. 18th Regiment, 93rd Highlanders, and 104th Fusiliers.

Regiments of Militia which may be in camp will be attached for discipline by the General Officer Commanding to one of the Infantry brigades.

Divisional Troops.

One Cavalry regiment, commencing with the 3rd Dragoon Guards. The B and C Batteries D Brig. R.H.A. The A, B, D, and F Batteries 14th Brig. R.A. 17th Comp. R.E.

4. Major-Gen. Herbert, C.B., having been selected to command the division, will proceed to the Curragh to assume the command there upon the 9th June.

5. Whilst in command of the division he will continue to command the Dublin District. During his absence from Dublin, Col. Sarsfield Greene, C.B., R.H.A., will assume command of the Dublin garrison as senior officer therein.

6. All brigadiers and Staff officers included in the foregoing organisation, and not already at the Curragh, will report themselves to the general officer commanding there on the morning of the 9th June.

By command of the Major-General commanding,
(Signed) C. W. Robinson, D.A.A.G., for D.A.G.

H.R.H. the Field-Marshal Commanding-in-Chief, attended by the Horse Guards Staff, visited Aldershot on Monday and witnessed some field operations. The division represented a force advancing by Frimley and North Camp Station in pursuit of an enemy retiring over Aldershot Common and Beacon-hill. The skeleton force representing the enemy was commanded by Col. Davis, 20th Regt. It acted as the rear-guard of a retreating force, consisting of two Infantry brigades, two Cavalry regiments, and three batteries. The troops were under arms about three hours.

Col. Fenelon, who served with distinction in the campaigns of 1814-15 and was present at the battle of Waterloo, died last week at Newport, Isle of Wight.

Two boards of officers assembled at Aldershot on Monday, for the purpose of holding the special Army examination and examination of sub-lieuts. The following officers were examined:—Sub-Lieuts. C. Stevens, C. M. Grenfell, F. R. H. Chapman, S. W. Richmond, attached to 1st Dragoons; J. Weyland, W. B. Mynors, E. Hegan, A. E. Caldecott, attached to 8th Hussars; D. de la M. du Boulay, Hon. L. H. D. Fortescue. S. Furlonger, T. A. Steele, C. J. Taylor, attached to 17th Lancers; H. D. Robson, attached to 2nd Batn. 2nd; W. H. Biggs, 18th Hussars; C. G. Robertson, attached to 2nd Batn. 8th; A. R. Heneage, attached to 2nd Batn. 13th; H. G. Beauchamp, F. Hammersley, attached to 2nd Batn. 20th; R. H. W. Dunn, attached to 58th; C. Baines, attached to 61st; M. H. S. Grover, attached to 64th; A. J. Taylor, attached to 96th; F. C. Palmer, attached to 100th; Lieut. A. Montgomery, 20th Foot.

The Lieut.-Gen. commanding at Aldershot having examined the reconnaissance reports and sketches of the officers and non-commissioned officers of the Cavalry brigade, executed during the past winter, has published the names of those whose work has met with his approbation. The following officers furnished good sketches and reports:—5th Lancers—Lieut. Spencer. 8th Hussars—Capt. Chaplin, V.C., and Lieut. Crofton. 17th Lancers—Lieut. Wood. The sketches and reports of the non-commissioned officers and men are classified (I.) very good, (II.) good. 1. 5th Lancers—Sergt. Osmand and Lance-Corpl. Winship. 17th Lancers—Troop Sergt.-Major Scarfe, Sergt. Davidson, and Private Edwards. 2. 5th Lancers—Sergt.-Major Donald, Troop Sergt.-Majors McNamara, Martin, Evans, and Waterman, Sergts. Magee, Murray, Scott, and Hall, Corpl. Muldowney, Lance-Corpl. Brown, and Private Barnes. 8th Hussars—Troop Sergt.-Majors Hughes and Andrews. 17th Lancers—Troop Sergt.-Majors Bond, Akers, and Hickling, Sergts. Paul, Beaumont, and Mantill, Corpls. Style, and Whitehead, and Lance-Corpl. Richardson.

The members of the Royal Naval Club of 1765 had their annual dinner in celebration of the Queen's birthday on Saturday evening at Willis's Rooms, King-street, St. James's. Admiral Hon. Sir Henry Keppel, G.C.B., presided, and there were present—Mr. G. Bentinck, M.P., guest; Admirals Robertson, Oliver, C. B. Hamilton, Sir Charles Shadwell, and Erskine; Capts. H. Maitland, G. R. Hope, Hawker, R. C. Mayne, Cleveland, Stephenson, C.B., Nelson, Edward Nares, Boxer, Murray-Aynsley, Ruxton, Bruce, Simpson, Bateman, Fenwick, Wilson, Dyke, Coomber, Blomfield, and Moore; Coms. Fairman, Gassiot, Brownlow, Blackett, Spratt, and Mr. H. J. Kelly, R.N., secretary. It is the oldest naval club in London, and for a long period of years has commemorated the Sovereign's birthday on the day of its celebration.

INDIA.

The Hyderabad Arsenal is to be moved to Kurrachee. This arrangement will involve the removal of the second-class ordnance depot at Kurrachee to Hyderabad, where it will be placed on the ordnance list as a third class depot.

Col. J. Watson, V.C., C.B., Bombay S.C., officiates temporarily as Resident at Gwalior, upon Col. Hutchinson's retirement, in addition to his duties as Officiating Governor-General's Agent at Indor.

Lieut.-Col. Jebb, 67th Regt., is mentioned by the Madras *Times* as likely to get the Madras Adjutant-Generalship, in succession to Brigdr.-Gen. Stewart, whose time will be up in two or three months.

Major-Gen. R. Hamilton, C.B., Madras S.C., has been granted permission to reside and draw his pay in England.

The following important General Order has been published:—"Adjutant-General's Department—Simla, April 27.—With the sanction of the Right Hon. the Secretary of State for India, the Governor-General is pleased to direct the following alterations in the constitution of the Adjutant-General's Department:—1. All appointments to the grades of assist. or depty.-assist. adjt.-gen. will be made on the establishment of the Department; the stations of the officers so appointed and their departmental duties being assigned to them from time to time under the orders of his Excellency the Commander-in-Chief. 2. Officers performing the duties of brigade-major in district commands will hereafter be designated depty.-assist. adjt.-gen. This change of designation, or the transfer of a brigade-major to a district, will not involve a fresh tenure of Staff employment. 3. The Staff salary of depty.-assist. adjt.-gen. will be Rs. 400 per mensem with the office allowance now sanctioned for brigade-majors; the depty.-assist. adjt.-gen. at Army head-quarters receiving the addition to the above sum, a special extra allowance of Rs. 100 per mensem payable to the officer actually performing the duties, whether in a permanent or officiating capacity."

Col. A. G. Forsyth, Bengal S.C., assist. adjt.-gen., Sirhind Division, has arrived home on furlough.

The new levies at Cabul are said by an Indian paper to number 60,000 drilled men. They will take garrison duty, relieving the older troops for the field. Orders have been issued to the Commander-in-Chief to detach Gen. Gulam Hyder Khan with five regiments of Infantry and four of Cavalry to reinforce the Governor of Candahar, and a picked force to that extent, after having been reviewed by the Ameer, and told that they were destined for the conquest of Beloochistan, have marched for Candahar.—[This news, if true, merits attention.—Ed. A. and N. G.]

The Indian papers say that the Commander-in-Chief, in order to reduce the present very heavy expenses of regimental messes, has prohibited the continuance of the system of inter-regimental dinners. It would be well if some measure could be devised to put an end to the tremendous Indian lotteries. The Simla Derby lottery this year gave £15,000 to the first horse, and we have heard that a hapless lord sent out to buy "Chamant" from the drawer for £1,000, and got his fancy, though not his prize.

The period of appointment of brigade-majors, which was some time since reduced to three years, has been extended to the original term—five years.

"Sphinx," in the *Times of India*, says:—"Promotion ought to be very brisk in the Bombay Army this year. Beside the twenty retirements under the commutation scheme, the following officers will succeed to the off-reckonings in the course of 1877:—Cols. Sandwith, 8th N.I.; Champion, 12th N.I.; Wood, V.C., 14th N.I.; Pogson, 17th N.I.; Price, 19th N.I.; and Moyle, commandant of Asseergurh. Here there are five regiments, and there can be little doubt that Col. Wahab will get the 8th, Col. Hogg the 12th, and Col. Hill the 14th. The seconds-in-command of the 17th and 19th are rather junior, as matters go in these days, for pucka commands, but they have a good chance. As for the commandantship of Asseergurh, there are sure to be plenty of applications for that comfortable sinecure. Col. Moyle, the present genial and kindly incumbent, will be much missed when he turns his back on the old fort."

India invariably discusses our North-West frontier relations with the instinctive belief that Russia is at the bottom of every complication. The belief that war between Russia and Turkey must result in a prolonged European struggle is firmly held at Bombay. Sooner or later it is felt England must be drawn in. "The conflict may not arise for some time yet," says a Bombay paper, "though Russia has matured her plans so carefully that we shall not be surprised if she speedily overcomes the resistance of Turkey, and forces the British Ministry to make up its mind sooner than it will wish to do whether it will fight for Constantinople or not." With these impressions the rupture with Cabul, indicated by the departure of the Ameer's second Envoy, and the return home temporarily of Sir Lewis Pelly, wears a suspicious look. Indeed, without exception the Indian journals refuse to accept the semi-official telegram from Simla, which declares that there is no change in the relations between India and Afghanistan, and that the frontier is quiet. This message is the less acceptable because it conveys a censure in the following words:—"A fanatical feeling has been stirred up in Cabul, arising probably from European events; otherwise there is no groundwork for the disquieting rumours which have been spread by irresponsible people."

"A Retired Indian Colonel" writes to the *Homeward Mail* with a happy suggestion to set on foot annual "Indian Army Dinners." "It is now twenty years," he writes, "since the Indian mutiny, and sixteen since the so-called amalgamation, and the good old John Company's landmarks are gradually disappearing in the misty past. I should, therefore, like to suggest through your columns the desirability of keeping up some of the good-fellowship of olden times. The regimental dinner months are now beginning, and why should we not have our Indian Army dinners? Many of us come up to town for a few weeks in the year, and would be glad to meet as many of our old friends as possible; and I do not know a better way of doing so than by having an Army dinner. My proposal is that there should be three dinners for the different presidency armies, to which all pre-amalgamation officers should be eligible; and I hope some of the seniors will form themselves into a committee for the purpose of collecting names and making arrangements. Being myself a Bombay man, I am able to suggest the names of three ex-adjutants-general—Wyllie, Green, and Stock—now in London, who for this good work would command the confidence of all their old comrades in the Army of the Western Presidency."

MAGAZINES.

Blackwood.

Blackwood for this month contains two articles which deserve attentive perusal, one entitled "Lord Derby's Despatch and the Debate," the other "The Storm in the East." Both subjects are carefully considered and treated in a masterly manner. Among the other articles are a continuation of that very charming tale "Pauline," "Twenty Years of American Travel," and a good quota of poetry. It is altogether a capital number.

Cornhill.

There is not much new matter in the June number of *Cornhill*. Readers fond of astronomy will be attracted by an article with the curious title, "Is the Moon Dead?" But the gem of the number is "Ave Maria," a Breton legend, by Alfred Austin.

London Society.

A capital number of this monthly improving magazine of light literature. The Editor does not aspire to treat grave political and scientific subjects, but always serves up to his readers a delectable dish of freshly-written stories. Mr. Jules Verne's "Russian Courier" is brought to a conclusion. It is a powerfully-written story, its only fault being want of condensation.

Colburn's Magazine. (Hurst and Blackett.)

Several subjects of interest are considered in the June number of *Colburn*, which opens with an instructive article on "The Officers of the Royal Marines." The writer observes that although the intention of the Admiralty has been to do something which will give a spur to promotion in the Marines, nothing has been done. He considers that any proposition leading to an increase in the number of officers employed would be absurd and injurious, and that a too free promotion to the higher ranks would defeat its own object in the cheapening of titles. Surgeon-Major Gore's "Historical Sketch of Military Punishment" is concluded in this number. "The Report of the Committee on Naval Engineers" has, owing to want of space, been deferred till next month, when it will be concluded.

Fraser.

Mr. McCoan's article on the war in Asia, embracing his recollections of the last campaign, appears at a very opportune moment. Having reviewed the rapid advance of Russia in Asia and pointed out the great extension of that country's dominion that must take place in case her victorious career is unchecked, he concludes with the following suggestion:—"I have not seen the suggestion yet offered, and there may, therefore, be nothing in it, that, while not necessarily committing us to an active share in the struggle, the despatch of a Sikh army corps from Bombay to Bagdad would be a sound measure of precaution likely to wholesomely limit the area of this Armenian campaign and legitimately gratify thirty millions of our Indian fellow-subjects, who reverence the Caliph quite as much as Irish Catholics venerate the Pope. At any rate, whether we be drawn into the war or not, this is the only side from which we could effectively operate by land, as it is also the only one in which our interests are directly or seriously imperilled."

Baily.

There are some amusing articles in *Baily* for this month, but none requiring particular notice.

St. James's Magazine.

There is an abundance of pleasant reading in the June number of *St. James's Magazine*. Mr. Bowie's sketch of "Wagner in London" will suit those with a musical taste, while Mr. Harwood's story showing the important consequences that may arise from one of the most unpleasant events we are liable to, namely, "A Seizure for Queen's Taxes," is adapted for every taste.

Charing Cross Magazine.

An original article, by the author of "Clytie," is sufficient of itself to attract readers. The present number of the *Charing Cross Magazine*, in which it commences, under the title of "The Queen of Bohemia," has, however, additional matter to recommend it.

The Kettle of Fish (Chifferiel & Co., Cursitor-street).

This amateur quarterly is rapidly gaining character. Although entirely the handy-work of amateurs, it seems likely to rival some of the more pretentious monthlies.

A board of officers assembled at Aldershot on Tuesday to draw up a code of Infantry signals.

Col. J. W. Cox, C.B., half pay, late 13th Foot, commanding the forces at Jamaica, whose term of Staff service expires in August, has left for England, *viâ* New York, on two months leave of absence, and the command of the troops has devolved on Lieut.-Col. Hackett, 35th Regt.

A special examination of officers for promotion took place in the several districts in the United Kingdom on Monday.

Captain Pim asked the First Lord of the Admiralty last night whether officers who had commuted their retired pay could be compelled to serve. Mr. Egerton, in the absence of Mr. Hunt, said that they could, and if they did not serve they would be liable to be struck off the list.

OUTFITS FOR INDIA AND THE COLONIES.

DETAILED LISTS of the necessary Outfit, with prices, &c., for every Climate and Appointment will be forwarded on application to

THRESHER AND GLENNY,
OUTFITTERS,
NEXT DOOR TO SOMERSET HOUSE, STRAND.

THRESHER'S KASHMIR SHIRTS. Especially adapted for Tropical Climates, being Light and Durable.

THRESHER'S JUNGRA SHOOTING SUITS. Made expressly for India. Impervious to spear grass.

TO THE NOBILITY AND GENTRY.

WM. PUGH (many years coat cutter at Messrs. Poole's, Savillerow), having succeeded to the old-established first-class business of Jackson and Co., 5, CORK STREET, BOND STREET, W., solicits the patronage of the nobility and gentry.

Best trade only at fixed fair prices, and 10 per cent. allowed for prompt cash.

N.B.—All first-class tailors give credit, and it is only by the discount system noblemen and gentlemen who pay cash get the full value ready money entitles them to.

WM. PUGH (from Poole's), 5, CORK STREET, BOND STREET, W.

SCHWEITZER'S COCOATINA

Anti-Dyspeptic Cocoa or Chocolate Powder

Guaranteed Pure Soluble Cocoa, Without Sugar, Spice or any Admixture.

Specially adapted for Ships, Camps, Sportsmen, &c., being in a concentrated form, made with BOILING Water. Keeps in all climates, and palatable without milk.

Being all Cocoa, it is four times the strength of preparations mixed and therefore *weakened* with arrowroot, &c., and is in reality cheaper a Tea-spoonful to a Breakfast Cup costing less than a halfpenny.

The Faculty pronounce it "The most nutritious, perfectly digestible Beverage for Breakfast, Luncheon, or Supper," and invaluable for Invalids and Children.

Highly commended by the entire Medical Press.
In air-tight canisters at 1s. 6d., 3s., &c., by Chemists and Grocers.

MR. R. WILLSON,

ARMY, FINANCE, AND COMMISSION AGENT,
3, CRAVEN STREET, CHARING CROSS, LONDON, W.C.
(From 33, St. James's Square, S.W.)

SPECIALITE.
Turtle and Glass of Madeira, 3s. 6d.

G. C. MICHELS, Manager.

COLT'S NEW GOVERNMENT ARMY REVOLVER,

After a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is made to take the 45-cal. regulation Service cartridge, and AMMUNITION FOR THEM MAY BE OBTAINED FROM THE STORES OF AN ARMY IN THE FIELD.—See General Orders, May, 1877.

Length of barrel 5½ inches and 7½ inches.

In the competitive trial at the Royal Arsenal, Woolwich, in 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

COLT'S 41-CAL. DERINGER REVOLVER
COLT'S DERINGER FOR THE VEST POCKET.
Price List Free.

COLT'S FIREARMS COMPANY, 14, PALL MALL, LONDON, S.W.
Depot at Messrs. REILLY & CO., 2, Rue Scribe, Paris.

ADAMS'S

NEW PATENT DOUBLE-ACTION, CENTRAL-FIRE, BREECH-LOADING

SCALE OF CHARGES FOR ADVERTISING.

The Scale of Charges for Advertising in the ARMY AND NAVY GAZETTE is as follows:—

NARROW COLUMNS.

Eight lines or under ...	£0	5	0
Per line additional ...	0	0	6
Column ...	4	4	0
Page ...	16	16	0
Announcements of Births, Marriages, or Deaths ...	0	5	0

A line averages eight words

Across two columns, One Shilling and Sixpence per line, but no such Advertisement inserted under ...	1	1	0

TARRY AND CO., WINE MERCHANTS.

CONTRACTORS TO THE ARMY, NAVY, AND HER MAJESTY'S GOVERNMENT
22½, BUCKINGHAM STREET, STRAND, LONDON, W.C.

United Service Sherry	21s. per doz.	Amontillado	32s. per doz.
Golden Sherry	30s. " "	United Service Port	24s. " "

The above Wines are constantly supplied to HER MAJESTY'S GOVERNMENT, REGIMENTAL MESSES, and to OFFICERS OF THE HIGHEST RANK in both Services.

NOTICES TO CORRESPONDENTS.

No communications can be published which are not accompanied by the name of the writer, given in confidence to the EDITOR.

Letters cannot be received in answer to Advertisements.

Remittances should be made payable to Mr. RICHARD JAMES WOOD, to whom all business communications should be addressed.

R. N.—Certainly not, unless there is some standing order prohibiting such absence. But it is always better to obtain a pass on such occasions, to avoid any suspicion of improper absence.

A CIVIL ENGINEER.—Allusion has been made to your criticism elsewhere.

C. W., Uxbridge.—You will find your remarks embodied in an article on the subject.

K. C. B.—If you read the sketch of the services given elsewhere, you will admit that the junior has served well, and is deserving of the distinction conferred upon him.

GUNNER.—The point is in that limbo called "under consideration." The general rule in the case you specify is that the soldier only earns deferred pay on such days as he draws full pay up to the first 21 years.

"Audi Alteram Partem," "V. R.," "Another Poverty-stricken Sub," "Left at Own Request," "R. A.," and "J. H." are in type, and shall appear as soon as possible.

Army & Navy Gazette.

LONDON, SATURDAY, JUNE 9, 1877.

There can be no more invidious task than that which falls to the happily anonymous "they" who settle the amount and direction of the stream which shall flow from the "Fountain of Honour" on the Queen's Birthday. It would be invidious to an unbearable degree if the "they" were known, but in their doubtful identity the specific indignation of the multitude is diverted they know not where, or is received in the proper quarter with the stolid indifference which is the happy characteristic of a corporate body. When the *Gazette Extraordinary* appeared on Saturday last, there was great surprise and some anger. In the clubs and in the streets "they" came in for their usual amount of praise or censure—rather more than less. "Do you see 'they' have made old Dimple Darling a K.C.B.? What the deuce did he ever do to deserve it?" "What a confounded shame 'they' haven't made Jack Arrowson a C.B., at all events. It would have pleased all the Light Cavalry men, who would have felt it as a compliment to themselves, and he really deserves it! Didn't he command a brigade during the last action of the war? We can't understand it at all." "Why, 'they' have passed Lord George Paget over, and given it to Dollop!" And so on. But, after all, "they" (who may be traced up to its first great cause in the occult but comfortable seclusion of some permanent official jealously guarding his records and sitting *couchant* in his den over the honours which he will never wear, for that much must be said—if the Dragon watches the golden apples in the gardens of the Hesperides of the *Gazette*, he does not hope to keep them for his own use)—"they," we say, may have greater difficulties than can be imagined, and at best "they" have, perchance, but a choice of evils in making their selections, not as far as the officers go, but as regards the pain which must be caused to many, in its relation to the pleasure to be caused to others. It is unquestionable that there should be no intimation made beforehand to those who are to be honoured. The reward comes all the more agreeably when it is unexpected. It ought never to be solicited. If the selection be made known beforehand, there may be the inconvenience of refusal, though we admit the rareness of such an event. Still, it occurs. Sir W. Codrington, being still conscious, we suppose, of full vitality, refused the *Bâton* last week. Sir W. Rowan certainly—we say it with regret—cannot be said to *take* it. Sir C. Yorke, however, can thoroughly appreciate the value of the honour; and the third, Lord Strathnairn, could, on emergency, exercise the control of which the Marshal's staff should be the symbol. But, seriously and truly, is not such an exercise of Royal favour as that which was announced in the *Gazette* a *reductio ad absurdum?* If the highest honours of the Service are to be regarded as the prizes in a tontine, then, and then only, the mode of procedure is intelligible. On any other ground the recent selection of officers for promotion to the rank of Field-Marshal must excite wonder and sympathy. Is the *Bâton* to be regarded as the significant present which in Oriental countries is taken to be a polite intimation that the recipient is to prepare for death? For more than fifty years Sir W. Rowan has lived a most pacific and graceful life, dear to his friends, honoured and respected by all. Sir C. Yorke's career was one of great merit, but his later existence has not been vexed with strife. So far as we know, these gallant officers have done nothing whatever deserving of a Marshal's *Bâton* for the last half century, except that they have lived. Their living has been so far rewarded that they have drawn pay and had increase of honours. But that is not considered a fitting reward for their great longevity, and so they are "*rude donati*"—provided with a truncheon—when they are so advanced in years that the memory of their early deeds has quite died out. That is not their fault, perhaps, but it is for reflection, that at the time of the Crimean war, now twenty-three years ago, no one thought of giving command to two of these officers. As to Lord Strathnairn the case is different. His service has been long, varied, brilliant, and comparatively recent. He commanded a victorious army in the field in 1858, was Commander-in-Chief in India, and had military charge in Ireland during a dangerous and exciting moment. The two former officers belong to the old Red Sandstone period. They are Waterloo men, and, having had the happiness to endure to the end, they are Field-Marshals. Sir Hugh Rose belongs to the stratified formation of the later period, which finds its limits between service subsequent to Waterloo and service in the Crimea and India. But if Sir Hugh Rose was at the head of an army in the field in India, he was at the time subordinate to the officer who was commanding another army in the field, and at the time he was in the Crimea he had no command whatever. Sir W. Codrington saw little service before he landed at Old Fort, but ere he left the shores of the Crimea he had distinguished himself in successive commands—at the Alma with a Brigade—we had almost written *the* Brigade of the Light Division; at Inkerman as the watchful chief who was first to meet the Russian storm; finally, on the ridge before Sebastopol, where, as Commander-in-Chief of the Army, he signed the conditions for the evacuation of the conquered territory after the fall of the place and the destruction of the stronghold, having seen the war brought to a glorious termination whilst he was at the head of the largest force of British troops ever set in the field. "They" selected him. He refused. "They" urged it, and he—whether under the impression that if he ought to have the *Bâton* at all he should have had it long ago, or acting under the influence of finer feelings, and conscious of the force of the faith that was in him—declined the mark of Royal favour, much to the astonishment of his friends.

The War Office surely try the patience and long suffering of the officers to the utmost. It would appear as if the department supposes officers have no feelings, no plans, no future. Here are at least three officers in command of Cavalry regiments who have been told that they are to be put on half pay when their five years are up, and who are still kept on unable to go away on leave, or to make any arrangements whatever, because of the state of uncertainty they are in as to their fate; and there are, of course, three more officers who are looking to succeed to command in a state of still more embarrassing uncertainty. We hear, indeed, that the Treasury would gladly defer the issue of the new Warrant for another year, and meantime officers are told, if they apply at the Horse Guards, that "nothing has been done." Has the Army no friends in Parliament to force the Government to state what their intentions are on a point of vital importance? Mr. Hardy fences like a *maitre d'armes* with any question which is not thrust home again and again on the subject. But the matter should be pressed in both Houses.

We regret that there is no marked improvement to report in the condition of Admiral Rous, although there is no reason to think the favourable opinion of his medical advisers will not, ultimately, be realized. The Admiral has seen Mr. G. Payn and one or two friends only out of the hundreds who have been calling daily to inquire.

General Grant wore the uniform of his rank in the American Army at the banquet given at Apsley House on the Queen's birthday by the Duke of Wellington, at which the guests were in full uniform, official, or Court dress. The Prime Minister sent General Grant an invitation to the State dinner in Downing-street as soon as he arrived in London, but the Duke of Wellington had dispatched a request to General Grant to honour him with his company by telegraph, and it had been accepted before Lord Beaconsfield's wishes were made known. General Grant was the guest of Lord Houghton, who is the genial "Lord Protector of the American Commonwealth in England," on Thursday night, and he must have witnessed a tremendous "squash" in that hospitable mansion, of all that is rich and rare in the British metropolis. He not only saw the *crême de la crême*, but the *gelée* of the *beau monde.* On such an occasion the convenience of these delightful long trains, once more in vogue, must have solicited the General's notice, especially when he trod on the outlying appendages of one of the myriads who flowed past him in a glittering stream. It was observed with wonder that General Grant and General Badeau were "decorated." The latter wore an especially striking riband and badge round his neck—of the Order of Cincinnatus it could not have been, for that died young.

On Friday week the *Echo* announced, as it stated, on the faith of a telegram said to have come from a special correspondent in the East, that a military convention had been concluded between the Shah and the Czar. It seems to have been "a lie with" more than "a circumstance." Not only has there been not the least confirmation of it, but there have been specific announcements in respectable and trustworthy papers that the Shah has quite satisfied the Sultan respecting his friendly disposition. "But," said the *Echo*, "the Russian General Frankini and thirty-seven Russian officers have started to take command of the Russian troops!" It is true that Echo is but the reflex of a sound or series of them; but we should really like to hear the original notes on which our contemporary performed such an extraordinary fantasia.

The Royal Engineer gold medal for the best essay on the "Duties and Organization of the Royal Engineers in Time of War" has been awarded to Lieutenant-Colonel Harrison, commanding the pontoon train at Aldershot. We understand that this officer, who passed the final Staff College Examination in 1875, has in the press, and will shortly publish, a small military *aide memoire* in the shape of an officer's memorandum book. In these days of scientific war, when so much has to be known and remembered, a book of this nature should be of great use, and ought to form part of the kit of every officer.

The American Government does not seem to take note of the sale of warlike material to the belligerents. Russia, being represented in American ports just now, has the best of the situation, and is doing a good stroke of business in buying up torpedoes to use against the Turkish Navy.

There appears to be some misapprehension as to the scope of the inquiry which is being conducted by the Committee presided over by Earl Cadogan. The Committee was, we believe, appointed to consider certain principles involved in a proposed modification in the organization of the Commissariat and Ordnance Store Departments. The Committee has not been called upon to report upon the alleged grievances of the existing officers of these departments, and has, therefore, not taken any evidence on that subject.

On return from Bermuda, from which station we announced lately he had been invalided, Assistant-Commissary-General A. D. Burnaby is to be appointed to the ordnance charge of a home district.

One would think from the paragraphs in the papers that Mr. Layard is "a power," and that he is making, or is about to make, war on his own account, for we are informed that General Sir C. Dickson is acting as his "military adviser." He is merely on detached service, *pro tem.*, at Constantinople. We trust Sir Arnold Kemball is looking out after his communications, and that his rear is well guarded. It would be awkward if he were to be included in a general sweep of Turkish captives; although, no doubt, he would soon be set at liberty, and be treated with all respect by the Russians as soon as they knew who he was. Colonel Lennox, who is acting as Military *Attaché* to our Embassy at the Turkish capital, is the right man in the right place if he stays there. He knows his business and the country well, and Colonel W. Porter, of the same branch of the Service as Colonel Lennox, is an officer of ability and experience. The permission accorded to Lieutenant-Colonel Wellesley, the Military *Attaché* at St. Petersburg, to join the Russian Head-quarters in Europe, which was not granted at first on the grounds we stated at the time, must be received as a rebuff to the anti-English party, and as a mark of a conciliatory disposition for which it is right to be grateful. We trust he will see at least as much as the correspondents, although, except for the delectation of a very select few, his despatches will have no utility. We fancy that in the fulness of time, say 2000 A.D., the reports of Military *Attachés* will be examined with great interest, and afford curious reading to the explorers of War Office and Foreign Office records—a veritable Simancas for the historian.

The Navy.

GAZETTE.

ADMIRALTY, June 1, 1877.

In accordance with the provisions of H.M.'s Order in Council of Feb. 22, 1870, and Aug. 5, 1875, Capt. Frederick William Wilson has been this day placed on the Retired List of his rank.

June 5.

The following promotions have been made this day:—Coms. William Edward Saxton Brome, Harry Holdsworth Rawson, to be Capts. in H.M.'s Fleet, with seniority of June 4, 1877; Lieuts. Evelyn William Shirley, William Henry Jocelyn, to be Coms. in H.M.'s Fleet, with seniority of June 4, 1877.

In accordance with the provisions of her Majesty's Order in Council of Feb. 22, 1870, and April 30, 1877, the under-mentioned Chief Engineers have been placed on the Retired List from the 1st inst.:—William H. Hooper, Benjamin Barber.

In accordance with the provisions of her Majesty's Order in Council of April 30, 1877, Engineer Edward J. Huysmans has been placed on the Retired List from May 30 last.

APPOINTMENTS.

Captain—N. Bowden-Smith, to the Undaunted, vice Brent.

Commander—W. H. Hall, to the Flamingo, when commissioned.

Lieutenants—William J. Moore, to the Undaunted; C. W. Dickenson, to the Vernon; A. E. C. Kennedy, Hon. M. A. Bourke, and H. B. C. Wynyard, to the Cambridge, additional for Foudroyant; R. R. Hall, to the Aurora; Robert C. Grant, Charles H. Warren, Francis R. Pelly, and George A. Callaghan, to the Ruby, when commissioned.

Navigating-Lieutenants—Thomas J. H. Rapson, to the Enchantress; Edmund E. Greaves to the Simoom.

Fleet-Surgeon—John W. S. Meiklejohn, to the Warrior.

Staff Surgeon—Dr. Martin Magill, to the Orontes.

COASTGUARD APPOINTMENT.

Mr. James Good, chief officer, to Oyster Haven Station, Kingstown District.

ACHILLES, Capt. Sir W. N. W. Hewett, K.C.B., V.C., did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts.

ALEXANDRA, Capt. R. O'B. FitzRoy, flagship of Vice-Admiral G. T. P. Hornby, was at Phalerum Bay, Piræus, May 29. Alluding to the reported mutiny, the *Western Morning News* remarks that the news has occasioned more regret than surprise at Devonport, for the Alexandra had, before she left, already earned the reputation of being an "uncomfortable" ship, and adds that Capt. Fitzroy is well known in Devonport. He was commander of the Bristol some years since, when a mysterious fire occurred on board. It should not be too readily assumed that the men of the Alexandra, who have displayed their discontent by the only means in their power, are altogether and solely to blame. If the circumstances which took place while the Alexandra was last in the Sound had been made the subject of an official inquiry, it is very unlikely that the more serious émeute now announced would have occurred. The *Hants Telegraph*, commenting on the subject, says:—"Anxious as the Admiralty naturally is to allay the uneasy feeling created by the reported 'mutiny' on board the Alexandra, the official denial of such an outbreak as has been telegraphed home will not deceive the majority. It is nonsense to attempt to make believe that the discontent is attributable to leave being curtailed. Our men are not unreasoning creatures, and did not the same fleet, of which the Alexandra is now the flagship, spend dreary months in Besika Bay with hardly a murmur? Besides, it is only in the flagship that the feeling of insubordination has shown itself, and, consequently, it must be traced to the ship herself. It is no secret that in selecting the senior officers for that ship the Admiralty scarcely provided for the happiness of her crew. A former commission in which more than one had served was a most troublesome one, and discontent ran high on the lower deck." A private letter received at Cork from one of the crew states that they left Port Said on May 19, and reached the Piræus on the 24th, and the reputation which had preceded Admiral Hornby as a strict disciplinarian was fully maintained by their experience on the voyage, so much so that the writer expected mutiny would break out on the passage. One morning it was found that a number of the sights of the heavy guns had disappeared with other articles. Blue-jackets were put as sentries on all the guns, and what with this duty in addition to their watch below, they had very little rest. "In fact," says the writer, "there was drill night and day." All the ship's company were turned up, and a list of the articles missing was read by the Admiral himself, who said that if the mischief was not stopped at once he would disrate every petty officer in the ship. The discipline of the ship was very rigid, and the officers and men alike had to share the discomfort of the position. Another private letter says:—"There is a good deal of insubordinate feeling existing on board the Alexandra, owing to the alleged over-smartness of the new Commander-in-Chief, Admiral Hornby, and the fact that his flag-captain, commander, and first lieutenant are all 'tarred with the same brush.' The other day, says the writer, there was almost a mutiny on board at Port Said, owing to the admiral stopping some of the men's privileges in the way of fresh bread or something of that sort, and the crew, by way of revenge, pitched a quantity of the admiral's live stock overboard, in consequence of which several men were put under arrest. One day, when the vessels of the squadron were at sail drill, the Alexandra happened to be the last ship at reefing topsails, and, although there was not much to be ashamed of in this, considering the short time she has been in commission, the poor men were doomed to remain aloft ever so many hours without dinner. Of course, all this may be an exaggerated report, but it shows that there is not a very happy feeling on board the new flagship."

ANTELOPE, Lieut.-Com. E. Wingfield, is at Therapia.

ARAB, Com. F. S. Broughton, has been taking in stores at Bombay for six months with a view to proceeding to the Persian Gulf.

ARGUS, Com. R. Harris, was paid off at Bermuda on May 17, and recommissioned the following day. She was to leave on the 19th for Halifax, to bring the mail due about the 25th.

ASSISTANCE, Capt. Prattent, disembarked the 104th Regt. at Kingstown on the 4th inst. She goes to Liverpool for drafts for Kingstown on her return from Jersey.

AVON, Com. L. C. Keppel, was at St. Helena on May 14.

BELLEROPHON, Capt. J. A. Fisher, flagship of Vice-Admiral Sir A. C. Key, was at Bermuda on May 19.

BITTERN, Com. G. J. Anstruther, was out of dock at Malta and completing for sea on June 1.

BLACK PRINCE, Capt. E. H. Howard, bearing the flag of Rear-Admiral W. M. Dowell, C.B., did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts.

COCKATRICE, Com. A. J. Musgrave, is at Sulina.

CONTEST, Lieut.-Com. G. W. Allen, was at St. Helena on May 14.

CRUISER, Com. J. Hext, which left Malta on May 21 for a cruise of instruction, returned on the 25th, and sailed again on the 28th for the Piræus.

CYGNET, Lieut.-Com. R. F. Hammick, was off Jackin on May 2.

DANAE, Capt. J. C. Purvis, was daily expected at Whydah early in May.

DAPHNE, Com. G. B. Evans, has been ordered to Bussorah.

DEFENCE, Capt. R. P. Cator, did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts.

ECLIPSE, Capt. G. E. Erskine, sailed from Bermuda for St. John's, Newfoundland, on fishery service on May 9.

FAWN, Com. W. J. L. Wharton, arrived at Aden on April 26; she would survey the Hamish Islands, which are suspected to be wrongly placed on the chart, before proceeding to Zanzibar.

FOX, Staff-Com. J. G. Dathan, arrived at Chatham on the 6th inst.

HELICON, Lieut.-Com. R. W. Stopford, is at Constantinople.

HIMALAYA, Capt. E. White, was placed in the entrance lock at Keyham on Tuesday.

LORD WARDEN, Capt. the Hon. E. R. Fremantle, C.B., C.M.G., did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts. "G. R. G." writes to the *Daily News*:—"Having observed in your columns of the 30th and 31st ult. reports of the disaster on board H.M.S. Lord Warden, through the adverse action of the capstan, I write to say that, if I am rightly informed, such accidents may be easily averted by the adoption of a simple buffing arrangement in conjunction with chain cables, known to many of our naval officers, and for some time in use on board merchant ships. This means of safety to life and property has been for some years known at the Admiralty, to the Board of Trade, and to Lloyd's Committee. I have seen this machine, and know that it has been commended by many who have practically used it for some years. My object, therefore, in calling attention to its utility for preventing sudden adverse strains on ships' cables, when working the same by windlass or capstan, or when riding at anchor, is to inquire why such a valuable invention has not been adopted in all her Majesty's ships. The buffing arrangement alluded to by me is the most simple and useful invention, and it is a wonder why they have not been more extensively used."

MALLARD, Lieut.-Com. Warry, was about to go to Quittah early in May.

MINOTAUR, Capt. Lord W. T. Kerr, flagship of Vice-Admiral Sir Beauchamp Seymour, K.C.B., did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts.

MONARCH, Capt. M. Culme-Seymour, sailed from Malta on May 30 for Gibraltar and England.

NORTHUMBERLAND is ordered to be proceeded with as rapidly as possible. It is proposed to reduce her number of guns from twenty-eight to seventeen, to increase their weight and calibre from 6½ tons and nine tons (7in. and 8in.) to nine tons and twelve tons (8in. and 9in.), fit her with bow and stern chasers, and to carry Whitehead torpedoes, apply the new steam-steering and electric firing machinery on her bridge, build fore and aft companion platforms from the bridge to the poop to facilitate communication, erect bullet-proof covering towers at each extremity of the bridge, thoroughly overhaul and repair her engines, and to supply her with a set of new boilers, at a total expenditure of £80,400.

OSBORNE, Com. H. L. Pearson, arrived at Gibraltar, all well, on the 6th inst., and was to leave for England the same evening.

PERT, Com. H. C. Aitchison, sailed from Bermuda on May 15 for St. John's, Newfoundland, on fishery service.

PIONEER, Lieut.-Com. E. Hotham, has been ordered to Cape Coast Castle to meet the Commodore.

PEARL, Capt. L. Brine, was paid off at Portsmouth on the 5th inst. She left England on June 11, 1873, and in September arrived at Freemantle, Western Australia. The South Sea Islands were made for in November, and the Commodore interviewed the King, and collected the information on the proposed annexation of the islands. She proceeded to Tasmania, but was recalled to Sydney, where she embarked the Governor of New South Wales, and left to complete the annexation of the Fiji Islands. On Oct. 10, 1874, the Royal standard was hoisted at Fiji. Sydney was reached again by Oct. 25. At Wallaroo the Commodore and officers inspected a number of its famous copper mines. Sydney was left again on April 10, 1875, for the South Sea Islands. The Island of Aneitom, in the New Hebrides group, was reached on the 22nd, and the Commodore and several officers landed, the Commodore communicating with the local missionary. Leaving Aneitom on the evening of the same day, Port Resolution was arrived at on the 23rd. This port had been visited 101 years previously by Capt. Cook, and derived its name from the title of his vessel. The natives were friendly to the Commodore and the officers, and further communications were held with the missionary living there. On leaving Montague Island the Pearl made for Pentecost Island, and on May 6 arrived at Port Patteson. On the 10th she anchored in Dillon Bay, and the Commodore went ashore, interchanged greetings with the missionary, and visited the graves of Messrs. Williams and Harris, missionaries, who were killed by natives some thirty or forty years ago. The Pearl arrived in Baryon Bay, Santa Cruz, on Aug. 12. After anchoring there for an hour or two it was deemed advisable to go round the small bay of Carlisle. It was here that the Commodore received his fatal wounds. He and several officers had landed, and were negociating with the natives, who appeared peaceably inclined, when, without provocation, the English party were fired on by the natives and had to retreat to the ship. The Commodore was wounded on the left side and on the head, and five men were also wounded. The vessel at once proceeded north to get cold weather, but tetanus set in, and the Commodore and two of the injured seamen died. The Commodore was buried at Sydney, New Zealand, on Aug. 24, 1875, amidst manifestations of respect from the highest to the lowest at that port. Captain Chapman succeeded Com. Goodenough in the command of the vessel on Dec. 15. The vessel left Sydney to meet Com. Hoskins at Melbourne. A return to Sydney was made on the 26th. That port was not again left until March 16, 1876, when the Pearl went on a cruise to New Zealand, putting in at Lord Howe Island on the way. Samoa was visited with the object of inquiring into disagreement that had arisen with the Barracouta. The remainder of the commission was mostly spent at Sydney, and on Jan. 5 of the present year the Wolverene relieved the Pearl on the Australian station. The return home was commenced on Jan. 17. Auckland was visited on the 29th, and here a hearty and general farewell was bid to the old ship, which had been a universal favourite. On Feb. 1 Auckland was left. Having caught the south-east trading winds the South Seas were soon left behind and the North Seas reached, and the Pearl arrived at Spithead on the 18th. Excepting the fatalities from the attack by the natives, comparatively few deaths have happened, although three men have, during the commission, been washed overboard.

RAPID, Com. E. C. Drummond, is at Kustendje.

RESISTANCE, Capt. S. Douglas, did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts.

ROVER, Capt. T. Barnardiston. Very poor accounts of the boilers of the Rover came home by the last mail. Although she was docked at Bermuda, and the cost of endeavouring to patch her up was tolerably heavy for a new ship, yet the boilers still leak considerably, and it is said that nothing short of having them out and re-rivetting them in many places will cure this defect. Caulking the boilers is the constant employment of the engine-room staff. She has started on a visit to Cuba, but expects to be back at Port Royal about the 10th inst.—*Hampshire Telegraph.*

RUPERT, Capt. W. E. Gordon, C.B., was at Malta on June 1.

SEAFLOWER, Lieut.-Com. R. H. Eyre, arrived at Plymouth on the 6th inst.

SEAGULL, Com. Maxwell Heron, was reported in the Gambia since the middle of March, but no letters had been received from her.

SEALARK, Lieut. F. H. Haygarth, arrived at Devonport on Tuesday from a cruise in the Channel.

SIMOOM, Capt. R. G. Pasley, which left Portsmouth on Oct. 23, last year, on a round of transport service, arrived at Spithead on Sunday night, and came into harbour on Monday morning. She left Cape Coast Castle on Feb. 24, Cape Verd on March 11, Barbadoes on March 22, Jamaica on March 31, Belize on April 5, Nassau on April 10, Jamaica (second time) on April 21, Demerara on April 30, Tobago on May 2, Barbadoes (second time) on May 6, and Bermuda May 19. She brought 100 details, time-expired men, and invalids, twenty-three women, fifty-five children, and the following officers:—From Jamaica—Surg.-Majors Haystead and Prescott, A.M.D.; Capt. Osmar, 35th Regt.; Paymr. Smith and Capt. Brock, 1st West India Regt.; Capt. Talbot, 2nd West India Regt. From Barbadoes—Lieut.-Col. Sargent, General Staff; Surg.-Major Henry, A.M.D.; Lieut. Courtnay, 35th Regt.; Lieut. Apthorpe, 1st West India Regt. From Bermuda—Capt. Lockhart, R.A., General Staff; Assist.-Comy. Wilson; Paymrs. Addis and Dawson; Surg.-Major Hensman, A.M.D. The Simoom also brought Capt. King, of the Dryad; Lieut. Cuddy, of the Zephyr; Sub-Lieut. Murphy, of the Bellerophon; and the Rev. J. Shepherd, late of the Aboukir. She has again left Portsmouth, and arrived at Plymouth on Thursday.

SIRIUS, Capt. G. L. Sulivan, was at Whydah on May 2.

SPARTAN, Capt. R. E. Tracey, arrived at Trincomalee on April 27.

SPITEFUL, Com. A. T. Powlett, had left for Sierra Leone and England on May 2.

SQUIRREL, Lieut.-Com. R. N. Hamond, sailed from Devonport on Tuesday on a cruise.

SUPPLY, Staff Com. F. Inglis, from the Cape of Good Hope and West Coast of Africa, arrived at Chatham Dockyard on Wednesday evening, and on Thursday morning was floated into the repairing basin, to be paid off.

SWALLOW, Com. John B. Warren, arrived at Madeira on the 6th inst., all well.

TEAZER, Com. C. Wodehouse, is being got ready at Bombay for service in the Persian Gulf.

THETIS, Capt. T. Le Hunte Ward, will be ready to pay off at Plymouth on the 12th inst.

THUNDERER, Capt. J. C. Wilson, made a lengthened and satisfactory trial of her machinery after having had the fractured eccentric rod repaired. The late breakdown was, says the *Times*, purely accidental, and in no way affects the contractors. Indeed, the rod was of first-class material and workmanship, as was proved by the immense strain which it resisted before breaking. The trial, which was of a crucial character, was successful in every respect. The ship was under way for eight hours, during six of which she was driven under a full head of steam. For a couple of hours the revolutions were maintained at the rate of 77 per minute; the mean of the six hours being 72. The horse-power indicated was 5,400 horses, or only about 300 below the power developed at the contractors' trial. There was neither priming nor heating of bearings, nor anything to detract from the perfect success of the run. The Thunderer arrived at Plymouth on Wednesday.

TORCH, Com. Anstruther, was taken out of dock at Malta on May 26, and left for the Piræus on Monday last.

UNDAUNTED, Capt. Colomb, flagship of Vice-Admiral Sir R. Macdonald, K.C.S.I., was at Bombay on May 14.

VALIANT, Capt. W. S. Brown, did not leave Plymouth on Saturday, as previously ordered, on a cruise round the British and Irish coasts.

WARRIOR, Capt. W. H. Whyte, having had defects made good, steamed out of Portsmouth Harbour and anchored at Spithead on Monday afternoon. She sailed for Portland on Thursday.

WYE, Staff-Com. W. W. Vine, arrived at Madeira on the 4th inst., all well. She was to leave at daylight on the 5th inst. for Plymouth.

THE NAVY AND THE BATH.

Admiral George Elliot, K.C.B., is the eldest son of the late Admiral the Hon. Sir George Elliot, K.C.B., and cousin of the Earl of Minto. He entered the Navy in Nov., 1827, and obtained the rank of lieut. Nov. 12, 1834. As lieut. he served upwards of three years in South America in the Astrea, and was advanced to the rank of commander Jan. 15, 1838. After serving at the Cape of Good Hope and in India, he obtained post rank June 3, 1840, and returned to England as acting captain of the Volage in 1841. He commanded the Eurydice on the North American Station from June, 1843, to 1846; commanded the Ocean from May, 1848, to Dec., 1849, when he was appointed to the command of the Phæton, and served in the Mediterranean until the spring of 1853. He commanded the James Watt, in the Baltic Fleet, from Jan., 1854, until the close of the Russian war; was aide-de-camp to the Queen from Feb., 1856, until promoted to flag rank, Feb. 24, 1858. He was captain of the Fleet under Sir C. H. Fremantle in the Royal Albert with the Channel Squadron from Aug., 1859, to June, 1860; was appointed Admiral-Superintendent at Portsmouth Dockyard in Feb., 1863; became vice-admiral in Sept., 1865; and admiral, April 1. 1870. He was returned as M.P. for Chatham Feb, 1874, but resigned on being appointed commander-in-chief at Portsmouth, March 1, 1875.

Vice-Admiral F. B. P. Seymour, K.C.B., entered the Navy in Jan., 1834, and after serving in the Mediterranean as mate on board the Britannia was promoted to lieut. in March, 1842. From 1842 until promoted to commander in June, 1847, he was attached to the force in the Pacific, two years and a-half of which he officiated as flag-lieut. to his uncle, Sir G. F. Seymour. From the close of 1848 to 1850 he commanded the Harlequin in the Mediterranean; from May, 1853, until 1856, the Brisk and Meteor, in the White Sea and Mediterranean; and held the command of the Pelorus on the East India and China Station from July, 1857, to March, 1860. He was afterwards commodore in the same ship on the Australian Station until the close of 1862, and was badly wounded in a desperate fight with the Maories. He was appointed to the Royal Adelaide at Devonport in Feb., 1854, where he remained until the close of 1866. He commanded the victory at Portsmouth from August, 1867, to the close of 1868, and for a short time in 1870 was employed at Whitehall; he commanded the Detached Squadron from December, 1870, until May, 1872, when he was appointed one of the Lords Commissioners of the Admiralty, and remained until 1874. He has been in command of the Channel Squadron since October 1, 1874.

Rear-Admiral Wm. Houston Stewart, K.C.B., entered the Navy in April, 1835, on board the Tweed, Captain Thomas Maitland, from which vessel, after visiting the coast of Africa, and serving during the civil war on the north coast of Spain, where he frequently landed as aide-de-camp to his captain, he removed in 1837 to the Carysfort, Captain Henry Byam Martin. In that ship he took part, except in the capture of Sidon, in all the operations of 1840 on the coast of Syria, where he commanded a boat, and was mentioned by Captain Horatio Austin for his judgment and gallantry at the bombardment of the strong castle of Gebail. In the attack upon Tortosa, he again had charge of a boat, and was twice grazed and severely contused by musket balls. Towards the end of 1841 he joined the Illustrious, 72, flagship on the North American and West India Station of Vice-Admiral Sir Charles Adam, by whom he was promoted June, 1842, to a death vacancy in the Volage, and was for six months her *senior lieutenant* in the West Indies. In March, 1843, he went back to the Illustrious, and in Feb., 1844, was appointed first of the Ringdove, and subsequently proceeded to the Coast of Africa, where he volunteered to serve as a supernumerary in the Penelope. This he continued to do until a severe attack of fever induced him to yield to the friendly solicitation of his chief, and he returned home in an Indiaman, carrying with him a letter so laudatory of his zeal and merits that the Admiralty allowed him full pay until the period of his arrival. On Jan. 8, 1845, he was appointed to the Superb, fitting at Portsmouth, and shortly afterwards while at Plymouth jumped overboard, an ebb tide running at the time, and nearly at the cost of his own life saved that of a Marine, and for this act received the thanks of the Royal Humane Society on vellum. In Nov., 1845, his former captain (Martin) having obtained command of the Grampus, he was permitted to join him, and in the early part of the ensuing year he sailed for the Pacific. He came home at the commencement of 1847, and in December of the same year was nominated flag-lieut. to Sir Edward King, commander-in-chief at Sheerness. He was advanced to the rank of commander May 19, 1848, and on Aug. 5, 1851, obtained command of the Virago. In October, 1853, he was transferred to the command of the Modeste in the Mediterranean, and in July, 1854, became captain of the Firebrand; and for his services at the attack of Sebastopol was spoken of by Vice-Admiral Dundas in his despatch for assisting in getting an Austrian vessel to sea from under the batteries in a very successful and creditable manner. The Firebrand had four shots in her hull, but fortunately no casualties. On Feb. 2, 1855, he was appointed to the command of the Dragon, in the Baltic, and on Feb. 3, 1857, to the Indus, flagship on the North American Station, during the temporary absence through illness of Capt. Dalrymple Hay. On May 4 following he obtained command of the Impregnable, flagship at Devonport of Vice-Admiral Sir Barrington Reynolds, K.C.B., where he remained until appointed, May 3, 1860, to the Marlborough, flagship in the Mediterranean of Vice-Admiral W. Fanshawe Martin, and remained until May, 1863. He was Captain Superintendent at Chatham Dockyard from Nov., 1863, to Nov., 1868; Superintendent at Devonport Dockyard from July, 1870, to Nov., 1871; at Portsmouth Dockyard from Nov., 1871, to May, 1872; since which time he has been Controller of the Navy.

Sir George Rodney Mundy, G.C.B., born April 19, 1805, is son of the late Gen. Godfrey Mundy, by the Hon. Sarah Rodney, daughter of the celebrated Lord Rodney. This officer entered the Royal Naval College Feb. 5, 1818, passed out Dec. 19, 1819, with medal and two years' service allotted, and embarked as volunteer on board the Phaeton, 46, Capt. Montagu, attached to the North American Station. In April, 1824, after two years passed in the Mediterranean as midshipman of the Euryalus, Capt. Augustus Clifford, and Rochfort, 80, Capt. Schomberg, he joined the Blanche, frigate, Capt. Mends, stationed in South America, where he continued to serve in the Wellesley, 74, Jasseur, 18, and Cambridge, 82, until promoted to lieut., Feb. 4, 1826, into the Eclair, 18, Capt. Bourchier. On Aug. 28, 1828, after serving as junior lieut. in the Pyramus, 42, Capt. Sartorius, he was promoted to the rank of commander. Obtaining command of the Favorite, 18, on Aug. 29, 1833, he proceeded to the Mediterranean, and continued on that station until 1837, when the sloop was paid off, and he was promoted to post rank. He was next (Oct. 4, 1842) appointed to the Iris, 42, in which vessel he served on the West Coast of Africa, East India, and China Stations until finally put out of commission in Aug., 1847. In 1846 Capt. Mundy was constantly employed under the orders of Sir Thomas Cochrane in extensive expeditions against the pirates of Borneo, and commanded the gunboats and division of seamen and Marines at the capture of the capital city of Brunė. He subsequently obtained the Sultan's signature to the cession of the island of Labuan. From 1851 to 1857, when he was promoted to rear-admiral, he served as captain in the London, 91, and Nile, 91, and, for war services during the Russian war in the Baltic, was nominated C.B. From 1859 to 1862 he served as second in command in the Mediterranean in the Hannibal, 91; and it was in that ship, after the capture of Palermo by Garibaldi, that an armistice was concluded between the Viceroy of Sicily and the revolutionary general, which terminated the struggle in the island. In 1862 he was made a K.C.B. From 1867 to 1870 he held the post of Commander-in-Chief on the North American and West Indian Station, and in March, 1872, as a reward for his long services in every quarter of the globe, was nominated Commander-in-Chief at Portsmouth. This appointment Admiral Sir Rodney Mundy held until March, 1875, when, having reached the age of seventy, he was placed on the Retired List.

Inspector-General of Hospitals and Fleets William Richard Edwin Smart, C.B., M.D., was employed as assistant-surgeon in the Trafalgar, 120, Captain Charles Hare, in the Mediterranean, from April 1846, until 1848, and afterwards served from May, 1851, until 1853 as surgeon in Spitfire, surveying vessel, Commander A. B. Spratt, in the Mediterranean. He served in the Diamond, 27, Captain C. B. Hamilton, also in the Mediterranean, from October, 1853, till 1856, and in 1857 and 1858 was Staff surgeon in the Minden, storeship at Hong Kong. On November 5, 1859, he was appointed deputy inspector-general of the Royal Naval Medical Establishment at Bermuda, and on March 26, 1864, was transferred to the Royal Hospital at Greenwich as Deputy Inspector-General of Hospitals and Fleets, and remained until 1869. He has been Inspector-General at the Royal Hospital at Haslar since April, 1873.

The services of those officers who have been appointed Companions of the Order are unavoidably held over until next week.

RIVER SERVICE GUNBOATS.

A correspondent writing to the *Times* says:—"The Admiralty Office has had assigned to it the credit of the design of the river service gunboats of the Medina class, built on the Tyne, and now completing at Portsmouth Yard. But so far as the proportions of length to breadth and the external form are concerned, the credit appears to be due to a Brazilian naval architect—Capt. Trajano de Carvalho. He had had considerable experience in designing small vessels for his own Government, and during his recent stay in England, employed on work for Brazil, he made a model which so commended itself to the judgment of the Director of Naval Construction and to that of the Controller of the Navy, that they recommended it for adoption. Before doing so it was subjected to experiment by Mr. Froude with very satisfactory results. The proportions were, indeed, very much what he would have recommended, although they differed considerably from previous practice. The actual trials have confirmed in a very remarkable manner Mr. Froude's forecasts and the views of Capt. de Carvalho. They were limited strictly to a draught of 6ft., and a speed of nine knots was all that was hoped for. Some of the vessels engined by John Penn and Sons have realized a speed of ten knots. Those engined on the Tyne have not hitherto done quite so well. Comparative statement of steam performances of the Medway and the best of the vessels of the Snake class:—The Medway.—Length between perpendiculars, 110ft.; extreme breadth, 34ft.; draught, 5ft. 7in., 5ft. 9in.—5ft. 8in.; area, middle section, 164 square feet; displacement, 331 tons; indicated horse-power, 315; speed, 9·518; S. 3 by middle section, indicated horse-power, 450; S. by D. 2-3, indicated horse-power, 131·3. The Snake Class.—The Blazer.—Length between perpendiculars, 85ft.; extreme breadth, 26ft. $1\frac{3}{8}$in.; draught, 5ft. 9in., 6ft. 3in.—6ft.; area, middle section, 140 square feet; displacement, 241 tons; indicated horse-power, 266; speed, 8·741; S. 3 by middle section, indicated horse-power, 350-9; S. 3 by D. 2-3, indicated horse-power, 97·1. The Arrow.—Length between perpendiculars, 85ft.; extreme breadth, 26ft. $1\frac{3}{8}$in.; draught, 5ft. 9in., 6ft. 3 in.—6ft.; area, middle section, 140 square feet; displacement, 241 tons; indicated horse-power, 264; speed, 8·716; S. 3 by middle section, indicated horse-power, 351·5; S. 3 by D. 2-3, indicated horse-power, 97·2. The Pickle.—Length between perpendiculars, 85ft.; extreme breath, 26ft. $1\frac{3}{8}$in.; draught, 6ft., 6ft. 6in.—6ft. 3in.; area, middle section, 146 square feet; displacement, 254 tons; indicated horse-power, 268; speed 8·693; S. 3 by middle section, indicated horse-power, 357·5; S. 3 by D. 2-3, indicated horse-power, 98·2.

The whole of the large Admiralty annual contract for bass brushes and brooms, for use in her Majesty's ships and naval establishments, has again been given to Messrs. Horsey and Co., of London, patentees of steel-fastened brooms. The advantage of this method of fastening is that they are not affected by heat, the stock being solid and no pitch being used in manufacture, and they are consequently of a more lasting nature. It is worth remarking that, had the old system of long-standing contracts still existed at the Admiralty, the Department would in all probability have been unable to avail itself of the Horsey patent, and would have been still purchasing less durable, and therefore less economical, stores.

FURNISH ON THE NEW HIRE SYSTEM.—The "New Hire System" is quite distinct from anything yet attempted. Houses, &c., furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea. —"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9, Southampton-street, Strand

TORPEDO EXPERIMENTS.

On Tuesday afternoon a number of interesting torpedo experiments took place in Portsmouth Harbour in the presence of a large number of officers. The experiments were conducted by the staff of the Vernon Torpedo School. The proceedings commenced with the dropping of two countermines at the will of the operator, stationed on board the Nettle, by means of a steam pinnace, which was steered by electricity. A cask was next blown to atoms by a hand grenade, consisting of an eight ounce disc of detonated gun-cotton, fired by an instantaneous fuse. To illustrate the deadly effects of these small charges when thrown into enemy's boats, about 15lbs. of wet gun-cotton, contained in a net, were next hauled away from the side of the Nettle and exploded by electricity, the object of this experiment being to show that gun-cotton, when detonating, has the same explosive power whether wet or dry. The force of the explosion of the drifting countermine, containing 300lbs. of gunpowder, supplied a remarkable proof of the ease with which a passage might be effected through an enemy's line of torpedoes. The chain cable, nearly two inches in thickness, was also severed with $2\frac{1}{2}$lb. of gun-cotton. Two outrigger torpedoes were exploded from a pinnace, which remained within 17 feet of the charges. Four mines, each consisting of 300lbs. of gunpowder, were next exploded by means of circuit closers or buoys containing a small and simple apparatus for completing the electric current, by which the spark is communicated. The proceedings closed with the simultaneous explosion by electricity of twelve countermines of guncotton. The whole of the experiments were regarded as satisfactory.

SCURVY AND THE LATE ARCTIC EXPEDITION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The stress laid on the ills arising from the issue or non-issue of lime-juice for the prevention and cure of scurvy is, I am convinced, not only over-estimated, but liable to be fraught with the most dangerous consequences. For so universal is the conviction that lime-juice is the one great infallible preventive of this affection, and so strong is the belief that this disease cannot be generated where its issue is strictly enforced, that, when an outbreak of scurvy occurs, the consideration of all else save lime-juice sinks into insignificance, and the real causes of the evil are but lightly enquired into, and likely to be overlooked. Though the most stringent legislative measures, and other means, therefore, have been in force for many years to ensure the careful testing and issue of this article, still scurvy exists, and will continue to prevail on almost all occasions that the crews of vessels are exposed to voyages extending over three or four months, and have not during that period been supplied with fresh meat and vegetables, some act of bodily fatigue or exposure only being sufficient to fan into full flame the spark of this disease, which has been long kindling in their tissues, and that not from a want of lime-juice, but from a lack of far more necessary elements of nourishment in the food supplied to them. It is absurd to think for a moment that the temporary suspension of the issue of lime-juice was fatal to the men who died of scurvy in the late Arctic Expedition. On the contrary, I feel confident that this occurrence could have been averted without its intervention, and can only with reason be ascribed to *those men being called* upon to undergo severe and prolonged bodily exertion when their systems were in a state of serious mal-nutrition *consequent* on protracted subsistence on preserved meats and vegetables and salt food. And it is an unquestionable certainty that, *if in lieu* of such food, a supply of live stock had been shipped to the Arctic Regions, and there slaughtered and preserved in a *frozen* condition for use, lime-juice would have been unneeded and scurvy unknown. With the exception, perhaps, of compressed *meats*, and such other preserved meats as do not require a second cooking, most—or, indeed, I might say all—preserved meats and vegetables of the present day, whose act of preservation needs excessive heat, possess but little nutrient anti-scorbutic properties, for the repeated acts of boiling to which they are subjected, first in the process of preservation, and, subsequently, in recooking for use, render *completely* inert and non-nutrient those very elements in their composition, viz., the protein compounds, which may be said to be the very essence of the blood, brain, and muscle of the human being, and a deficiency in which, in my opinion, constitutes the disease known as scurvy. The scorbutic action of salt meat on the human tissues is almost wholly due to this same cause, viz., its failing to supply them with albumenous (protein) products. The salting of meat does not produce scurvy directly by the introduction of saline particles into the system (as is generally supposed), but indirectly by dissolving out, and removing from meat all its protein materials, which pass away, the greater portion of them into the brine and the fluid in which the meat is soaked or *cooked*. And if men on board ship, instead of soaking the meat in order to get rid of the brine, could be induced to consume the brine in their soups, &c.; or, better still, could be supplied with the albumenous products it contains (and which could be easily separated from its saline particles by dialysis), they would, in my opinion, be making use of the best anti-scorbutic there is at the surgeon's disposal. It is owing to its retention of these constituents that pemmican is so highly nutritive, and that the raw potatoe is the backwoodsman's best and surest anti-scorbutic; and if, as I before mentioned, live stock had been shipped to frozen regions, and there preserved in a frozen state for use, and issued even twice a week, valuable lives and much expense would have been saved on the late expedition, and an outbreak of scurvy on that occasion would have been rendered impossible.—I am, &c.,

W. S. OLIVER, Surg.-Major.

The following has been promulgated in Ireland:—"Adjutant-General's Office, Dublin, May 31, 1877.—General Order No. 919.—H.R.H. the Field-Marshal Commanding-in-Chief has been pleased to appoint Lieut.-Col. the Hon. P. Methuen, Scots Guards, to the personal Staff of the commander of the forces in Ireland as military secretary, vice Lieut.-Col. Wynne Finch, of the same corps, who resigns the appointment.—By command of the major-general commanding (Signed), C. W. ROBINSON, D.A.A.G."

The new fort at Shornmeade, below Gravesend, is to be used mainly as a torpedo station, and will consequently mount a much lighter armament than the other forts on the Thames.

PROTECTION AGAINST TORPEDO BOATS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—The fate of the Turkish "monitor" recently destroyed on the Danube by Lieutenant Dubuscheff with a torpedo has given us a very clear and practical warning of the great dangers that our ships would be liable to in time of war, provided only that the enemy possessed sufficient pluck. Of course, it is to be hoped that no such lamentable apathy and neglect as that of which the Turks were victims would obtain on board any English ship; but, nevertheless, the danger is great. To meet this danger, naval officers have suggested various means, but I think, as yet, none effective. I would suggest, at any rate, that ships be supplied with one-pounder swivel guns, which could be mounted on the netting (or, in fact, anywhere), where they could be worked by one man. I maintain that if two or three of these guns were mounted on the netting, with a sharp look-out it would be exceedingly difficult for any torpedo boat to reach the ship. To meet the difficulty of darkness—which would of course favour the attacking boat—I would further suggest that ships be supplied with a lamp fitted with a powerful converging lens of very long focus. If this lamp was fitted at one extremity of the ship, it could throw a narrow pencil of light slightly inclined to the length of the ship, and all boats or objects approaching the broadside of the ship must cross the pencil, and thereby render themselves visible. The approach to the end of the ship could be illuminated by a lamp having a small diverging lens. My ideas may not be worth much, but the subject is all-important, and I think it is incumbent on naval officers to think seriously of the warning the recent Turkish disaster has given us.—I am, &c.,

May 29th, 1877. N.

ASSISTANT-PAYMASTERS, R.N.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—Although I have not a single friend on the list of assistant-paymasters, and the question in no way affects me personally, I must say that I have read with much pleasure and sympathy your paragraph in the ARMY AND NAVY GAZETTE commencing with the question, "What has become of the scheme for improving the position of assistant-paymasters?" It really is lamentable to think that, in this enlightened age, a high-minded set of men, such as the officers of the executive class for the most part are, should, on becoming Lords of the Admiralty, seem deadened to all sense of justice in catering for the efficiency and contentment of their own class by a fair bestowal of promotion, retirement, honours and rewards, whilst they systematically ignore as far as they dare the claims of the non-executive branches. I say "as far as they dare," because the medical officers are able to bring such pressure to bear on the Admiralty that they obtain a measure of the justice to which they are entitled. Through the influence of Mr. Reed and their own combination the engineers are likely to follow in the same path; but alas for the assistant-paymasters, for they have not influential friends except the professional Press, and are, therefore, left out in the cold under circumstances of injustice from which, I should think, a Lord of the Admiralty, in his individual capacity, would recoil.—I am, &c.,

May 19, 1877. SENEX.

A telegram from Hong Kong announces the arrival of the gunboats Gamma and Delta, lately constructed by Sir W. G. Armstrong and Co. for the Chinese Government. Reports of their voyage show them to have been safe, speedy, and comfortable.

The First Lord of the Admiralty gave a full-dress dinner on Saturday night, at his official residence, in honour of her Majesty's birthday. The guests included—Admiral of the Fleet Sir George Sartorius, K.C.B., Admiral of the Fleet Sir Henry Codrington, K.C.B., Rear-Admiral A. Hood, C.B., Admiral the Hon. Sir F. Grey, G.C.B., Admiral Sir Rodney Mundy, G.C.B., Rear-Admiral Lord Gilford, C.B., the Hon. A. Egerton, M.P., Admiral Sir A. Milne, Bart., G.C.B., Admiral Sir C. Eden, K.C.B., Sir M. Lopes, Bart., M.P., Mr. V. Lushington, Q.C., Admiral Wellesley, C.B., Admiral the Hon. Sir J. Drummond, K.C.B., Rear-Admiral Sir W. H. Stewart, K.C.B., Vice-Admiral Sir W. Tarleton, K.C.B., Vice-Admiral Sir W. King Hall, K.C.B., Admiral Fanshawe, C.B., Vice-Admiral Sir W. Mends, K.C.B., Vice-Admiral Inglefield, C.B., Vice-Admiral R. Coote, C.B., Rear-Admiral Boys, Rear-Admiral Phillimore, Vice-Admiral the Hon. A. Cochrane, C.B., Rear-Admiral Sir L. M'Clintock, Kt., Mr. Staveley Hill, Q.C., M.P., Rear-Admiral R. Lambert, C.B., Rear-Admiral W. G. Luard, C.B., Sir A. Armstrong, K.C.B., Capt. Evans, C.B., Col. Rodney, R.M.L.I., C.B., Col. Pasley, R.E., Mr. Barnaby, C.B., Mr. Walker, Mr. Rowsell, Mr. M'Hardy, Capt. Codrington, R.N., and Mr. James G. Noel.

A meeting of the Royal National Lifeboat Institution was held on Thursday at its house, John-street, Adelphi, Thomas Chapman, Esq., F.R.S. and V.P., in the chair. The secretary having read the minutes of the previous meeting, the silver medal of the institution and its thanks inscribed on vellum were ordered to be presented to Hiram Linaker, one of the crew of the New Brighton lifeboats, in acknowledgment of his long and gallant services in the boats since the first formation of the station. Rewards amounting to £180 were also granted to the crews of other lifeboats for recent services in saving life from shipwreck. Altogether the institution has contributed, during the present year, to the saving of 574 lives from wrecks, besides assisting to save seventeen vessels from destruction. Further payments amounting to £2,630 were ordered to be made on some of the 266 lifeboat establishments of the institution. The receipt of various contributions was announced, amongst which were £10 10s. from the Skinners' Company; £11 9s. 9d., moiety of collection in Trinity Church, Weston-super-Mare, per Rev. W. Hunt; and £2 4s. 6d. from the officers and crew of the ship Benan, on her late voyage from San Francisco, per Capt. Ross. The late Edward Jefferson, Esq., of Pontefract, had left the institution a legacy of £400; the late Mrs. Roe, of Nutley, county Dublin, £400; the late James Mitchell, Esq. of Edinburgh, £500; and the late Miss Millott, of Pendleton, £100. Several new lifeboat stations were ordered to be formed on different parts of the coast of Scotland. A new lifeboat, on the plan of the institution, had recently been built for Count Batthyany by Messrs. Woolfe and Son. It was to be stationed at Naples. Reports were read from inspectors of lifeboats to the institution on their recent visits to the coast. The proceedings then terminated.

THE DESTRUCTION OF TURKISH MONITORS.

The following interesting particulars of the destruction of a Turkish monitor by torpedoes are gathered from an account furnished by a correspondent of the *Daily News*, who obtained them from the officers engaged in the exploit. It appears that "two steam launches, with a handful of men, placed two torpedoes under the monitor, and succeeded in completely destroying it without the loss of a single man. The little expedition was composed of four steam launches, two of which were to make the attack and the two others to hold themselves in readiness to render assistance in case of an accident to either of the attacking ones. The launches which were to make the attack were commanded by Lieuts. Dubasoff and Shestakoff, and manned, one by fourteen, the other by nine men. The crews were protected by an iron screen or awning, which covered the boat completely over from stem to stern, and which was sufficiently thick to stop a bullet. The crews embarked in the boats a little after twelve o'clock at night, at a distance of about seven miles from where the Turkish monitors were lying. The night was dark and rainy, and clouds completely obscured the moon, which nevertheless prevented the night from being one of complete pitchy darkness. There was just enough light to enable them to distinguish the dark masses of the Turkish gunboats without themselves being easily seen. After an hour's steaming they came within the immediate neighbourhood of the enemy's flotilla. The engines of the launches were so constructed as to make very little noise, and when they were slowed down all the sound they made was a low, dull kind of throbbing noise that was almost drowned by the continual croaking of the frogs, which are very large and very numerous along the marshes of the Danube. Nevertheless, the quick ear of a Turkish sentinel caught the unusual sound and cried out, 'Who goes there?' in Turkish. The boats advanced without replying. The sentinel again called out, and again remained without an answer. He called out the third time, and as it was becoming evident that the ship would be alarmed, Lieutenant Dubasoff replied in Turkish, 'Friends!' and continued to advance. The sentinel was by no means satisfied, and after calling out again fired. Then the Russians, who were by that time very near the doomed monitor, heard a noise in the ship. There was a rushing about of sailors, cries and shouts, and the voice of an officer commanding them to prepare for action. They heard the order given for the gun in the bow to be fired, and a shell went whistling over their heads. One of the boats, that of Shestakoff, now drew off, while that of Dubasoff continued to advance. Each boat was armed with two spar torpedoes. These spars were arranged to move on pivots, and could be swung round so as to describe a half circle. The torpedoes could be detached from the spars at any moment, and, in addition to this, long light chains were attached to them by which they were to be attached to any projecting part of the attacked ship, and they were connected with the boat by a fine flexible wire about 100 yards long. The officer in command carried a small electric battery. A lively fusillade had now been opened upon the boat by the Turks, but, in spite of this, the launch of Dubasoff shot under the bow of the monitor, the chain which was fastened to the torpedo was flung round a chain or rope that was hanging from the bow of the ship, the torpedo was dropped from the spar, and the current of the river carried it against the bottom of the ship. The launch then shot away again until the full length of the electric wire had been reached. The officer applied it to the battery, and at the same instant a volume of water rose into the air, which nearly swamped Dubasoff's launch. In the meantime the other monitors became alarmed, and fired at random. They not only fired on the Russian launches, that still kept dodging about like mosquitos, but in their confusion fired into each other. The bullets rattled over the iron awnings of the launches, but did them no harm. They were not once struck, although the bow of one was pierced by a piece of a shell that exploded near it. The two launches were now on opposite sides of the doomed ship. Dubasoff perceived that she was sinking, but very slowly; while the Turks continued to fire away blindly, but incessantly, both with small arms and cannon. Dubasoff cried out to Shestakoff to try and place another torpedo in order to make sure of the ship, and the latter slipped in under the stern and put down another torpedo in the same manner as the previous one. He then shot off until he was at a safe distance, applied the electric battery in the same manner, and an explosion followed. Parts of the ship were blown into the air, as they very soon perceived by a large plank which, a few seconds later, came down endways, driving its way through the iron screen into the boat between two of the sailors. Then the monitor sank rapidly, and after a few moments nothing but her masts were visible above water. The crew had all either been drowned or had escaped by swimming. Day now began to break, and the position of the two little launches within the near range of two other Turkish monitors became very critical. To add to the danger of the situation, the screw of one of them got fouled, and the boat became unmanageable; while they perceived a Turkish launch from one of the other monitors bearing down on them. They opened a fire of small arms on the Turkish launch, which veered off and showed no disposition to come any closer. One of the sailors succeeded in clearing the screw, and the two launches, having accomplished their mission of destruction, darted off, passed under the fire of the two other Turkish gunboats, escaped unharmed, and, rejoining their two consorts, returned in triumph to their place of starting. The Grand Duke received the news within two or three hours after, and the rejoicing among the Russians was very great. The two officers and the crews of the two boats have all received the Cross of St. George.

With regard to the explosion on board the first Turkish monitor that was lost, the "Naval Correspondent" of the *Telegraph* gives quite a different account to any which have previously appeared. He says:—"I begin in a state of indignation with regard to a paragraph I have just read in an English journal, quoting a telegram from Bucharest, in which it is stated that a Turkish monitor had been blown up by a Russian shell from the batteries at Ibraila. This report is utterly untrue. The vessel unhappily blown up was not at the moment in action at all. She had retired out of range of the Russian guns to make some change in the quantity of powder put into the cartridges, when, by some unfortunate mismanagement, her magazine caught fire and she was destroyed, her captain and eight men only being saved."

THE VOLUNTEERS IN WAR.

Col. Fletcher, C.M.G., Scots Guards, lectured before a large audience at the Royal United Service Institution on Monday week upon the subject of "A Volunteer Force, British and Colonial, in the event of War." Gen. Sir William Codrington, G.C.B., presided. Col. Fletcher, in his introductory remarks, said that the scheme which he proposed to bring under notice was one for subsidizing an expeditionary force of Regular troops, supposing such a force should ever be necessary, by representative bodies from Volunteers, drawn not only from the mother country, but from her great colonies. In case of war all means would be tried to swell the ranks of the Army and Navy; but there could be no competition with the net of conscription unless we utilized the middle classes, and availed ourselves of at least a small portion of the vast organization which had placed so many of them under arms. The liking for display had given place among the Volunteers to a sense of the reality of the work, and the more this was brought home to them the greater would be their zeal and the higher their standard of efficiency. He urged that it was desirable to give them opportunities of facing danger, and said that this feeling existed among the middle classes was evidenced by the increased impetus which even a vague prospect of service gave to the recruiting of Volunteer corps, and the additional and self-imposed work which many of the officers and men undertook, when war on the Continent showed even a slight chance of military employment. What was termed the "baptism of fire" applied to even a small portion of the force would do more to increase the popularity and raise the standard of the Volunteers than years of drill, and preparation for this would increase their *prestige*, would create traditions of danger faced and glory won, and would stamp on them a reality which subsequent years of peace would fail to efface. (Cheers.) In the details of his scheme he said that two per cent. of the 165,000 Volunteers would give a force of 3,500, or nearly a brigade, and this force might be prepared by forming in each corps a roll of the members who would be willing to serve abroad in case of war. In the second part of his paper—that dealing with the military forces of the Colonies—he spoke in full appreciation of the loyalty of the colonists, and, speaking specially of the North American colonies, dwelt upon the high spirit shown by the Canadians when tried by the Fenians. He urged that the Canadians, if offering to supply a body of troops for the Imperial service, ought to be treated on an equality, and, if sufficiently advanced, the new Military School at Kingston should be utilized to furnish at least a portion of the necessary staff. The colony, he insisted, should be encouraged to organize, equip, and officer its own troops. The Australasians were too far removed to subsidize our Army for European war, but an Australian fleet in the Pacific, or Australian troops in some of our important garrisons, would relieve our ships and soldiers from distant duty and permit of their utilization nearer home. Col. Fletcher resumed his seat amid warm applause. Gen. M'Murdo said that if Col. Fletcher's scheme would only work out as well as the new movements through which Col. Fletcher put the "Grey Brigade" of Volunteers a Saturday or two before, it would indeed be perfect. Col. Fletcher showed his confidence in the Volunteers when he put them to the test of trying them in a new movement, and his paper still further evidenced this; but when it was proposed that they should take foreign service it was time to fall back upon the first principles of the force and remind Col. Fletcher that those principles were "For Defence of Home and not for Defiance." Gen. M'Murdo would not desire to see the Volunteers leave the shores of this country, and as to those who were better than their comrades, they should be kept to officer the increased corps which would arise in case of threatened danger. He urged that attention should now be turned to the proper equipment of the Volunteers. Gen. Sir James Alexander, speaking of the feelings of the Canadians, mentioned that in the time of the Crimean war the services of 2,000 sober and strong lumbermen were offered to the Government and refused. The spirit of their fathers, he said, was in these people still. Lord Elcho, M.P., who was warmly received, said the balance of opinion was certainly in favour of Col. Fletcher's proposal to have a portion of the force ready for service; but, first of all, before the Volunteers were thus called for, it would be necessary thoroughly to organize the military system, for at present that system existed only on paper. He dwelt upon the fact that the constitutional way of raising the Militia—by ballot—was kept in abeyance, and other points which, he urged, needed amendment in our system in order to make the foundation secure. He pointed to the position which Russia was now occupying, with one foot on the Himalayan Mountains and the other on the shores of the North Pacific, and he urged that this fact showed the necessity for England to consolidate her power; and this was desirable for the security of our country and in the interests of the world. After several other speeches, the proceedings closed with votes of thanks to Col. Fletcher and Gen. Codrington.

The usual "trooping the colours," in celebration of her Majesty's birthday, took place on the parade in St. James's Park on Saturday last. The troops—a squadron of the 2nd Life Guards, the flank companies of the Grenadier, Coldstream, and Scots Guards—assembled at 9 o'clock. The Prince of Wales, attended by Major-Gen. Sir D. Probyn, Col. Kingscote, Lieut.-Col. Loyd-Lindsay, and Major Russell, rode on the ground at 10.30 with the Duke of Cambridge and Horse Guards' Staff. The "inspection" over, the colours were trooped, the several battalions marching past. The brigade afterwards wheeled into line and gave a Royal salute. Col. Lyon Fremantle was in command of the brigade.

EPPS'S COCOA — GRATEFUL AND COMFORTING. — "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made Simply with Boiling Water or Milk.—Sold only in Packets labelled—"JAMES EPPS & Co., Homœopathic Chemists, London.'

NEW INFANTRY DRILL.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—You will oblige me by inserting the following remarks, and I hope that some of the readers of the ARMY AND NAVY GAZETTE will answer my questions. In Part I., "General Principles," I see that the troops are to reach the field of battle in masses of battalion column, so as to admit of the other arms passing through. What other arms? The Artillery (which is at the head of the column on the march) is supposed to be engaged with the enemy's Artillery, whilst the Infantry is, part of it, forming for attack, and the remainder still on the march, and the Cavalry is on the flanks of the Artillery and Infantry. In Part I., para. 5, the second line is to support the first one. Will there not be a great deal of confusion when not only the companies of a regiment are mixed, but when the second line gets mixed with the first? And what will be the result if, after the reserve has also been brought up, the whole should be obliged to retire? In Prussian drill not only are battalions not allowed to be mixed, but companies; when a company is brought up to support skirmishers, the latter close to a flank. In Part III., para. 5, the battalion is to fix bayonets when within 200 yards of the position to be attacked. Might not the bayonets be fixed long before? Whilst the battalion is lying on the ground half a minute at least will be required to fix bayonets, and during that time not a round can be fired. The defenders, on their side, can burn thousands of cartridges. I see no mention made of volley firing, which is strongly recommended by German writers. The small bodies brought up in compact formation (Part I., para. 5) might have some practise in that drill. In Part VI. there is no rule given for retirements when the attacking force has been supported by the second line. How is it to be done?—I am, &c., INQUIRER.

THEATRES.

HER MAJESTY'S OPERA.—Mdlle. Chiomi appeared for the second time on Thursday evening in *Lucia di Lammermoor*, and succeeded in accomplishing a much greater success than was anticipated. On her first appearance she evidently felt nervous in the extreme, and was thus incapacitated from doing full justice to herself. On this occasion it was, however, quite different, and the result was the unanimous approval of a critical audience. *Faust* has been repeated at Her Majesty's Opera during the week with the same incomparable cast.

GAIETY.—At last the famous Theresa has made her appearance on the English boards, and has met with the reception which might have been expected. As an actress she does not possess much merit, and it must be said in her favour that she is evidently conscious of this fact from the slightness of the piece in which she appears. The gist of *Les Chansons de Suzon* is that the pretty waiting-maid of a country inn receives proffers of love from scores of admirers, rebuffs them one after another with a song or a jest, and, in the end, settles down to marry the *sapeur*, to whom, as she sings, nothing is sacred. This trifle enables Mdlle. Theresa to give a selection from the series of songs she has made so popular in Paris, and, having fulfilled such a duty, it may be dismissed to its natural limbo of worthlessness. It is as a vocalist that the lady must be chiefly considered, and here she is strangely disappointing. Gifted by nature with a clear and even good voice, she seems to have wilfully spoiled it, and every now and then, after the delivery of a really charming phrase in exquisite fashion, the hearers are disgusted by a passage agreeable neither in sound or sense. However, her admirers seem to appreciate these bits of vulgarity very highly, and it must be put upon record that the applause is loudest in certain quarters of the house when the coarseness is most apparent. As to her surroundings, Mdlle. Theresa has every right to complain; the support accorded her in her special piece is none of the best, and as for the company, who represent two little French pieces earlier in the evening, they are by no means calculated to raise the Parisian stage and its professors in the eyes of the English.

QUEEN'S.—One of the most agreeable resorts of the summer season in London is the theatre in Long-acre, now that it has been decorated in real summer fashion, and become the home of the promenade concerts associated with the name of M. Riviére. The orchestra is well selected by the popular conductor, and contains many well-known names, while a tower of strength has been found in the appointment of Mr. Alfred Cellier, the composer of "The Sultan of Mocha," as M. Riviére's assistant. Such vocalists as Mdlle. Rosetti, Miss Cora Stuart, Mdlle. Ida Servais, Mr. Pearson, and Signor Campobello have appeared, and Miss Rose Hersee is promised.

HAYMARKET.—The regular season here, which has not been very successful, terminated on Friday last, as usual, with Mr. Buckstone's benefit. In the few words which the veteran comedian addressed to his audience, he intimated that the theatre would now pass into the hands of Mr. John S. Clarke, who had engaged Mr. Jefferson to appear in two farces, and that he (Mr. Buckstone) hoped to see his friends again in the autumn.

VAUDEVILLE.—Although verging upon its 800th night, *Our Boys* is as popular as ever. It is a remarkable feature about the performance of this play that there is no trace of exaggeration to be found in any of the characters more than on the first night. Such an experience is rare in cases of long runs, and is absolutely phenomenal when it is remembered to what an extraordinary length the career of Mr. Byron's comedy has been extended. There are rumours that in about a year's time a new comedy by the same author will take its place.

FOLLY.—The last nights of the season are announced here, in consequence of the approaching departure of Miss Lydia Thompson for America. The programme is light and amusing, and it would be hard to find a more agreeable evening's enjoyment than in witnessing the drollery of this delightful actress and her colleagues. It is understood that Mr. W. Edouin goes to the States with the troupe, but that Mr. Lionel Brough remains in England.

BIRTHS.

FREMANTLE.—June 7, at 15, Longridge Road, South Kensington, the wife of Capt. the *Hon.* E. R. Fremantle, R.N., C.B., C.M.G., H.M.S. Lord Warden, of a son.

HARE.—June 1, at Folkestone, the wife of Commander the Hon. Richard Hare, of a son.

MARRIAGES.

MACCALL.—KINCAID.—June 7, at Orchard Hall, Falkirk, N.B., by the Rev. William Regg, Alexander Vernon Maccall, Esq., Paymaster R.N., Royal Naval Barracks, Sheerness, to Jane, eldest surviving daughter of the late James Kincaid, Esq., of Orchard Hall.

THE STAFFORD HOUSE COMMITTEE *for the* RELIEF *of* SUFFERING among the TURKISH SOLDIERS.

President, the Duke of SUTHERLAND, K.G.

The Turkish dominions having now been invaded, and hostilities being in progress, the suffering among the Turkish soldiers is very greatly increased, and they are in the greatest need of clothing, of food for the hospitals, and of medical stores and surgical instruments.

The Committee, therefore, appeal strongly to their countrymen for subscriptions to enable them to mitigate the horrors of the war by sending out to the Turkish soldiers such additional succour as is now most urgently needed.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London.

DROITWICH BRINE BATHS, Worcestershire, consisting of hot and cold baths, sprays, douches, Turkish and swimming baths, and containing the most powerful water yet discovered. These Baths are crowded with sufferers of all classes, from the nobility to the poorest peasant. They relieve gout, rheumatism, neuralgia, all cases of general derangement, and extreme cases of debility, by restoring the tone of the digestive functions without the necessity of specific medicine. Private residence of the medical proprietor adjoining the Baths for first-class invalids, and all descriptions of lodgings can be obtained. For further information apply to Mr. Roe, Secretary,

---

THOMAS WHITE'S CELEBRATED CAMPAIGNING KIT,

CONSISTING OF

BEDSTEAD, BEDDING, BLANKET, PILLOW, BATH, WASHSTAND, BASIN, CAMP-STOOL, BUCKET, LANTERN, POLE-STRAP, LOOKING-GLASS, PYJAMAS, AND SLEEPING CAP.

ALL OF WHICH ARE CONTAINED IN HIS

LOCK-UP WATERPROOF BAG.

Which, when packed with the above articles, supplies room for clothing and other necessaries. The chief feature in this Kit is T. White's FOLDING BEDSTEAD (recently improved), weighing 16lbs., price 30s.; or his larger sized ditto, 18lbs., price 35s., intended for officers entitled to carry extra weight. Also his CANTEENS for company messing, to cook for and dine three or more officers, as supplied and thoroughly tested during the Manœuvres of 1871, 1872, 1873, 1874, and 1875. This Canteen was used by Sir Garnet Wolseley, G.C.M.G., K.C.B., his Staff, and the 42nd Highlanders (the Black Watch), and other regiments during the Gold Coast campaign, and is recommended and patronized by the highest military authorities.

The above Campaigning Kit, or Canteens, and in most instances both, have been supplied to his Majesty the Emperor of Germany; H.R.H. the Duke of Cambridge, K.G., &c.; H.R.H. the Duke of Connaught, K.G., &c.; H.S.H. Prince Edward of Saxe-Weimar, C.B.; the late General Sir Hope Grant, G.C.B.; Generals the Right Hon. Sir John Michel, G.C.B.; Sir R. Walpole, K.C.B.; Sir Charles Ellice, K.C.B.; Major-Generals Sir Charles Staveley, K.C.B.; Sir Alfred Horsford, G.C.B., Military Secretary; J. S. Brownrigg, C.B.; Henry Smyth, C.B.; Lord Mark Kerr, C.B.; D. Lysons, C.B., Q.M.G.; Sir Thomas MacMahon, Bart., C.B.; Sir E. Greathed, K.C.B.; G. V. Maxwell, C.B.; Hon. A. Hardinge, C.B.; C. Shute, C.B.; W. Parke, C.B.; A. J. Herbert, C.B.; and Sir Garnet J. Wolseley, G.C.M.G., K.C.B., besides some thousands of officers of nearly every branch of and regiment in the Service.

THOMAS WHITE,

CAMP AND BARRACK FURNISHER,

Begs leave to inform Commandants of Corps, Presidents of Messes, and Officers generally, that he

IS PREPARED TO SUPPLY ON HIRE

EVERYTHING NECESSARY FOR OFFICERS' MESSES,

Including

MARQUEES, FURNITURE, BOARDED FLOORS,
PORTABLE KITCHENS,
WHITE'S CELEBRATED FIELD RANGE,
Cooking Utensils, Cutlery, Electro-Plate, Crockery, China, Glass, &c.

The same will be securely packed and forwarded, accompanied by an experienced assistant, if desired, to any part of the United Kingdom.

THOMAS WHITE'S STANDING CAMP TENT KIT,

As supplied by him for 12 years to the National Rifle Association at Wimbledon, and to Officers at Aldershot when under canvas, consisting of the following articles:—

Wood Folding Camp Bedstead
Hair Mattress
„ Pillow
Folding Chair
Sponge Bath
Water Can
Tent Pole Strap
Strip of Matting
Tripod Washstand.
Looking Glass
Basin
Lantern

Can be had on hire, in any number, to meet the requirements of regiments or County Rifle Meetings. The weight of each Kit complete is about 80lbs. The Kit includes everything necessary for camping out, and is looked upon by the large number of officers who have used it in England Ireland, and Scotland as a great convenience, saving them the trouble and annoyance of looking out, packing, and conveying their own goods (which are often unfitted for the purpose) to the camping ground.

P.S.—The Campaigning Kit is for Sale, and not for Hire; the Standing Camp Tent Kit is for Hire only.

Full details, Illustrated Price Lists, and Estimates for Officers' Messes, may be had post free on application to

THOMAS WHITE, CAMP FURNISHER, ALDERSHOT.

HOLLOWAY'S OINTMENT and PILLS.—Ever Useful.—The afflicted by illness should look their diseases fully in the face and at once seek a remedy for them. A short search will convince the most sceptical that these noble medicaments have afforded ease, comfort, and oftentimes complete recovery, to the most tortured sufferers. The Ointment will cure all descriptions of sores, wounds, bad legs, sprains, eruptions, erysipelas, rheumatism, gout, and skin affections. The Pills never fail in correcting and strengthening the stomach, and in restoring a deranged liver to a wholesome condition, in rousing torpid kidneys to increase their secretion, and in re-establishing the natural healthy activity of the bowels. Holloway's are *the* remedies for complaints of all classes of society.

BAUMGARTEN'S INVIGORATIVE NERVINE ESSENCE. A most powerful nutritive cordial, which restores to their normal condition all the secretions on the integrity of which perfect health depends.

Report by Dr. Hassall.—"Having analysed the preparation to which Messrs. Baumgarten and Co. have given the name of 'Invigorative Nervine Essence,' I am of opinion that it is a combination well calculated, from its containing, among other ingredients, Pepsine and Phosphate of Soda, to prove most serviceable to the debilitated, the nervous, and the dyspeptic."

Price 8s. per bottle, or four quantities in one, 22s. Carriage free on receipt of remittance. Sole agents, BRANT and CO 283 Strand, London, W.C.

For children it is invaluable, as it forms the basis of a magnificent head of hair, prevents baldness in mature age, and obviates the use of dyes and poisonous restoratives.

ST. LAWRENCE-ON-SEA, NEAR RAMSGATE.

THE "GRANVILLE" HOTEL.

THE "GRANVILLE" PRIVATE SPECIAL EXPRESS TRAINS to ST. LAWRENCE-ON SEA, near Ramsgate, in 1 hour and 45 minutes. Departures every Friday, from Charing Cross at 3.45, and Cannon Street at 3.55 p.m. (See bills.)

THE "GRANVILLE." "The situation of the palatial establishment on a cliff somewhat removed from the town, though conveniently proximate thereto, is an advantage greatly augmented by its superb suite of ozone and various other health-giving baths, its well-constructed rink, its excellent and cheerfully appointed table d'hôte, and all other liberal additions of comfort, luxury, and amusement since the hotel has come into the present enterprising hands."—"Daily Telegraph," March 29.

THE "GRANVILLE" HOTEL. The "Saturday Review" says:—"The scenery, the air, the accommodation for visitors were described as of the most perfect kind; and we could not help wondering how it was that this place, which had been in existence in a quiet way for several years, had suddenly, like Byron, gone to bed and awoke famous."

THE "GRANVILLE" HOTEL. "Mayfair" says:—"The proprietor of the hotel, which has carried the name of St. Lawrence-on-Sea to the utmost ends of the earth, has energetically and judiciously lavished a fortune, first in making the 'Granville' Hotel one of the most charming seaside residences in the Kingdom, and next in bringing the fact under the notice of the public."

Address the Manager, Granville Hotel, St. Lawrence-on-Sea, Ramsgate.

"SANITAS."—The only true Antiseptic & Disinfectant Combined. Non-Poisonous, Sanitary, Medicinal, Preservative. For use in Houses, Hospitals, and all Public Institutions, Stables, Warehouses, Factories, and all places where noxious, infectious, or bad smelling emanations exist.

"SANITAS"—Has Sanitary Powers equal to both Carbolic Acid and Ozone, and has no injurious action on clothing, furniture, carpeting, &c. It is the best preservative of Skins, Paste, Albumen, and all Animal matters liable to decomposition, such as Meat, Fish, Poultry, &c.

"SANITAS"—Is strongly recommended against Small-Pox, Typhoid Fever, Scarlet Fever, Hay Fever, Rheumatic Complaints, Foot and Mouth Disease, &c.
NO HOUSE SHOULD BE WITHOUT "SANITAS."

"SANITAS"—"This solution has considerable advantage over most of the substances which have been from time to time proposed as either disinfectants or antiseptics; it is neither corrosive nor poisonous, and, as it leaves no stain on textile fabrics, and does not injure them, it can be directly applied to clothes, carpets, furniture, etc. IT POSSESSES AN AROMATIC ODOUR, AND IS, THEREFORE, IN THAT RESPECT SUPERIOR TO CARBOLIC ACID, now so much employed."

(Signed) ARTHUR HILL HASSALL, M.D.,
Senior Physician to the Royal Free Hospital.
(Signed) OTTO HEHNER, Public Analyst.

"SANITAS"—May be had of all Chemists and Wholesale Druggists.
Prices.—Bottles, first quality only, 1s., 1s. 6d., 2s. 6d.
Per Gallon—First Quality, 20s. Second Quality, 10s.
Special quotations for large Orders.
Odourless "Sanitas" at same prices.
For Pamphlet and full particulars enclose stamp to the "SANITAS" COMPANY, 57, Moorgate-st., London, E.C.

SOVEREIGN LIFE ASSURANCE COMPANY.

EXTRACT FROM REPORT OF THE DIRECTORS, MAY, 1877:—

The Directors have again the pleasure of reporting a material advance in the amount of new business effected by the Company during the past year.

The Policies issued were 474 in number, assuring £249,060, or nearly £50,000 in excess of the preceding year. The average amount of each Policy was £525, and the new premium income represented was £8,295 3s. 10d., or £2,100 more than in 1875. The increase on the Total Revenue from Premiums and Interest was £4,995.

The sum paid for claims by death during the year was not in excess of the amount anticipated; but the aggregate disbursements on account of policies falling due exceeded that of any former statement, owing to an increased number of Endowment Assurances having arrived at maturity. Nevertheless, £23,000 were added to the Funds of the Company.

ADMIRALTY.—MEDICAL DEPARTMENT of the NAVY, 9, New Street, Spring Gardens, S.W., May 18, 1877.

NOTICE is hereby given, that an Examination of Candidates for Commissions in the Medical Service of the Royal Navy will be held at the UNIVERSITY of LONDON, Burlington Gardens, on MONDAY, 13th August, 1877, and following days at 10 o'clock. Candidates must present themselves at this Department at 11 o'clock on Thursday, 9th August, 1877, when, should they be found in all respects eligible, they will be permitted to appear for examination. The necessary forms to be filled up by Candidates will be supplied on application to this Department, and should be returned as early as possible.

A. ARMSTRONG,
Director-General

ROYAL SCHOOL FOR DAUGHTERS OF OFFICERS OF THE ARMY.

The daughters of all officers in her Majesty's Army, inclusive of the Royal Marines, on full or half pay, or who may have died in the service, are eligible. The ages of admission are from ten to fifteen.

The next election will take place on June 20, 1877.

Pupils elected by votes of subscribers pay only £12 per annum.

Each donation of £5 5s. entitles to one life vote. Each annual subscription of 10s. 6d. entitles to one vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By order,
G. W. FORSTER, Secretary.
No. 22, Cockspur Street, London.

THE SOLDIERS' DAUGHTERS' HOME, Hampstead.

Instituted 8th March, 1855.

Chairman—
Major-General J. T. Boileau, R.E., F.R.S.

Number of Children in the Home, 171; Vacancies, 29; Candidates awaiting Admission, 124.

Owing to the loss, by death, of several of the largest annual subscribers, and to the great falling off in donations, the funds are at present unequal to support the increased number of girls (26) who have been added to the Foundation during the last two years.

Further aid is earnestly solicited to meet the increased call upon the funds. Remittances to be made to C. R. Low, Esq., Secretary, No. 7, Whitehall, London, S.W. A guinea yearly gives 1 vote; five guineas, 2 votes for life.

SOLDIERS' DAUGHTERS' HOME, Hampstead.—The Twenty-second Anniversary General Meeting will be held at the Home at Hampstead on Wednesday, the 20th June, 1877, at 3 o'clock p.m., Gen. Sir William J. Codrington, G.C.B., President of the Home, in the Chair. Cards of admission to be presented at the gate. Application for cards to be made to the Secretary at the Office, 7, Whitehall, S.W.

By order,
C. R. LOW, Secretary.

ROYAL UNITED SERVICE INSTITUTION, Whitehall Yard. 1877.

EVENING MEETING, Monday, June 11th.
The Chair will be taken at half-past Eight precisely.
Mr. LATIMER CLARK, C.E.,

On "The Employment of Clark and Standfield's Floating Docks at Naval Stations, and the means they afford for Transporting large Ironclads through the Suez Canal."

By order of the Council,
B. BURGESS, Capt., Secretary.
2nd June, 1877.

CHELTONIAN SOCIETY.—The ANNUAL MEETING will be held at the PALL MALL, Waterloo Place, London, on SATURDAY, the 30th of June, at Seven o'clock p.m. The *OLD CHELTONIAN DINNER* will take place at 7.30 on the same evening and at the same place. Old Collegians intending to be present at the dinner are requested to send in their names to Mr. Harcourt Turner, at No. 22, Sackville Street, Piccadilly, on or before Monday, the 25th of June instant.

ROYAL NAVAL SCRIPTURE READERS' SOCIETY.

The ANNUAL GENERAL MEETING will be held at the COMMITTEE ROOM, 4, Trafalgar Square, Charing Cross, on WEDNESDAY next, the 13th inst., at 2 p.m., when the Chair will be taken by Admiral Leopold McClintock, F.R.S.

PORTSMOUTH SOLDIERS' INSTITUTE.—The Right Hon. the Lord Mayor, supported by his Serene Highness the Duke of Teck, will preside at a Public Meeting to be held in the Egyptian Hall, Mansion House, on Tuesday, June 19th, at 2.30 p.m., when an address will be given by Miss Robinson, "The Soldiers' Friend," in support of the Institute for Soldiers and Sailors.

THE REGENT UNITED SERVICE STORES, Limited,

142 to 144, REGENT-STREET, LONDON, W.

This Company is founded on the business of the
PROVIDENT AND PUBLIC SUPPLY ASSOCIATIONS,
all the
SHAREHOLDERS AND TICKETHOLDERS
of which are now respectively members of the
REGENT UNITED SERVICE STORES.

The Stores are in full operation, nearly every department being largely stocked.

£1 Shares, Preference and Ordinary, are now being issued, entitling to free carriage.

ARMY AND NAVY CO-OPERATIVE SOCIETY, LIMITED.

Established for the advantageous supply of
PROVISIONS AND GOODS OF ALL KINDS
TO ITS MEMBERS,
Comprising
Officers and Non-Commissioned Officers serving, or who have served,
The Widows, Sons, and Daughters of Officers, and Friends introduced by the above;
Also, the Secretaries of Naval and Military Clubs, and the Representatives of Regimental and Naval Messes and Canteens.

For further particulars address the Secretary, 117, Victoria-street, Westminster, S.W.

ENTRY OF ENGINEER STUDENTS IN HER MAJESTY'S DOCKYARDS.

My Lords Commissioners of the Admiralty having decided to offer 45 vacancies to be competed for, NOTICE is HEREBY GIVEN that a Competitive Examination for these vacancies will be held on TUESDAY, the 11th September, 1877, and following days, in London, Edinburgh, Glasgow, Aberdeen, Dublin, Belfast, Cork, Leeds, Bristol, Liverpool, Newcastle-on-Tyne, Chatham, Sheerness, Portsmouth, and Devonport.

The age of Candidates must be not less than 14 nor more than 16 on 1st May, 1877.

The parents or guardians of all engineer students will be required to pay each year in advance the sum of £25 during the first three years of the student's training. The engineer students this year and next year will be entered at Portsmouth Dockyard only, and board and lodging will be provided for them in the Dockyard, where they will be required to reside.

A small weekly rate of pay (annually increasing) will be given to each engineer student during his six years' training. The engineer students will be under the supervision of the Captain of the Steam Reserve and a staff of competent officers, and subject to such rules and regulations as their Lordships may deem necessary.

Parents or guardians will be required to enter into a bond to the amount of £300 that the students, after completing their training, will enter the Naval Service.

References as to respectability and good conduct will be absolutely necessary.

The Lords of the Admiralty having, by recent changes, very materially raised and improved the position of the Engineer Officers of the Royal Navy, desire, by early publication of the above regulations, to encourage more general competition for these appointments.

For further particulars apply, by letter only, to the Secretary of the Admiralty, Whitehall, London.

Application to be permitted to compete will not be entertained after 31st July, 1877.

By command of their Lordships,
ROBERT HALL.
Admiralty, S.W., 16th May, 1877.

NAVAL CADETSHIPS, &c.

"EASTMAN'S" ROYAL NAVAL ACADEMY, BURGOYNE HOUSE, SOUTHSEA.

Principal, since 1860, G. EASTCOTT SPICKERNELL.

At the last two Naval Cadet Examinations pupils took the *First* Place. More than 1,000 pupils have entered her Majesty's Service.

The House is situated close to and directly facing the sea. Pupils have good Bathing and Boating, under careful superintendence.

Pupils are received from Nine years of age and upwards. To make the School specially adapted for Junior Pupils intended for the Royal Navy and the Public Schools, Senior Pupils are not now received.

NAVAL CADETS, ASSISTANT CLERKS, HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.

Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

ARMY EXAMINATIONS.

MR. MULCASTER'S MILITARY SCHOOL,
36 and 37, Woolwich Common, S.E.

Candidates prepared for the various Military Examinations.

During the past few years over 120 gentlemen have passed into the Service direct from this establishment, taking first places for Cooper's Hill College, Woolwich, and the Line respectively.

Of Militia candidates 12 have been successful out of 13 sent up for examination.

June 7th, 1877.

MILITARY EDUCATION in GERMANY.—For Candidates for Woolwich, Sandhurst, and commissions through the Militia. Colonel Berdoe A. Wilkinson (retired full-pay), Royal Engineers, receives pupils to prepare for the Army at his residence in Hesse Darmstadt. They have the advantage of preparing for the competitive examinations under the superintendence of an officer of long service, assisted by a staff of competent masters, and, at the same time, of acquiring a colloquial knowledge of German and French. Address Colonel B. A. Wilkinson, late R.E., care of Messrs. Cox and Co., Craig's Court, London, S.W., or Heinrichs Strasse, 108, Darmstadt.

EDUCATION.—There are a few Vacancies in the ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY for PUPILS on payment of £80 per annum, which includes all professors' fees and extras. Any further information may be obtained of Mr. G. W. Forster, 22, Cockspur Street, London.

AN OXFORD GRADUATE (1st Class Modern History School), experienced in tuition, receives into his house at Oxford TWO PUPILS, to prepare for MATRICULATION or the ARMY. For terms, references, &c., address G. B. D., Union Society, Oxford.

HAMBURGER, ROGERS, AND CO., GOLD AND SILVER LACE MANUFACTURERS by Appointment to her Majesty the Queen, and to H.R.H. the Prince of Wales. MILITARY CLOTHIERS, CAP, HELMET, SHABRACQUE, and CAVALRY ACCOUTREMENT MANUFACTURERS, with every description of UNIFORM, and Appointments for the Army and Navy, Yeomanry, Militia, &c., 30, KING STREET, COVENT GARDEN, LONDON. W.C

ACCIDENTS BY FLOOD AND FIELD.

ACCIDENTS OF ALL KINDS
May be provided against by a Policy of the
RAILWAY PASSENGERS' ASSURANCE COMPANY,
HON. A. KINNAIRD, M.P., Chairman.
SUBSCRIBED CAPITAL, £1,000,000.
ANNUAL INCOME, £205,000.
£1,120,000 have been paid as COMPENSATION.

A fixed sum in case of Death by Accident, and a Weekly Allowance in the event of Injury, may be secured at moderate Premiums.

Bonus Allowed to Insurers of Five Years' Standing.

Apply to the Clerks at the Railway Stations, the Local Agents, or
64, CORNHILL, LONDON.
WILLIAM J. VIAN, Secretary.

THE NATIONAL BANK OF NEW ZEALAND, Limited.

Incorporated under the Companies' Acts 1862 and 1867, and the New Zealand Act l. 1873.

HEAD OFFICE—37, LOMBARD-STREET, LONDON, E.C.

Capital, £2,000,000. First issue, £1,000,000. Paid up, £350,000.

DIRECTORS.

Chairman—Charles Magniac, Esq.
Deputy-Chairman—Dudley Robert Smith, Esq.
Col. Sir Thos. Gore, Browne, K.C.M.G.
Sir Chas. Clifford.
Alexander Grant Dallas, Esq.
William Smellie Grahame, Esq.
Edward Brodie Hoare, Esq.
John Morrison, Esq.

Bankers — Bank of England; Messrs. Barnetts, Hoares, and Co.: The Royal Bank of Scotland.

The Directors receive deposits of £50 and upwards for periods of One, Two, and Three years at a fixed rate of 5 per cent. per annum, grant drafts on the Branches throughout New Zealand, negotiate and collect bills, act as agents for constituents, opening current accounts for their convenience, undertake the purchase, sale, and custody of securities, and the collection of interest or dividends thereon, and conduct every description of banking business between London and the Colony.

W. J. STEELE, Manager.
37, Lombard-street, London.

THE AGRA BANK (LIMITED)

Estblished in 1833.—Capital £1,000,000.

HEAD OFFICE.

Nicholas-lane Lombard-street, London.
Branches in Edinburgh, Calcutta, Bombay, Madras Kurrachee, Agra, Lahore, Shanghai, Hong Kong.

CURRENT ACCOUNTS are kept at the Head Office on the terms customary with London bankers, and interest allowed when the credit balance does not fall below £100.

DEPOSITS received for fixed periods on the following terms, viz.:—

At 5 per cent. per annum, subject to 12 month's notice of withdrawal.

For shorter periods Deposits will be received on terms to be agreed upon.

BILLS issued at the current exchange of the day on any of the Branches of the Bank free of extra charge; and approved Bills purchased or sent for collection.

SALES and PURCHASES effected in British and Foreign Securities, in East India Stock and Loans, and the safe custody of the same undertaken.

Interest drawn, and Army, Navy, and Civil Pay and Pensions realised.

Every other description of Banking Business and Money Agency, British and Indian, transacted.

J. THOMSON, Chairman.

PELICAN LIFE INSURANCE COMPANY.

Established in 1797.

70, Lombard Street, City, and 57, Charing Cross, Westminster.

DIRECTORS.

Henry R. Brand, Esq.
Octavius E. Coope, Esq., M.P.
John Coope Davis, Esq.
Henry Farquhar, Esq.
Arthur Clargess Loraine Fuller, Esq.
Chas. Emanuel Goodhart, Esq.
Kirkman D. Hodgson, Esq., M.P.
Henry Lancelot Holland, Esq.
Sir John Lubbock, Bart. M.P., F.R.S.
John Stewart Oxley, Esq.
Dudley Robert Smith Esq.
Marmaduke Wyvill, Esq.

This Company offers complete security.

Moderate rates of premium with participation in four-fifths *or eighty* per cent. of the profits, such profits being either added to the policy, applied in reduction of premium, or paid in cash, at the option of insured.

Low rates without participation in profits.

Loans in connection with Life Assurance, on approved security, in sums of not less than £300.

TONTINE INSURANCE.

Policies payable in the lifetime of the assured are granted with participation in profits on the tontine principle.

For prospectuses and forms of proposal apply to
ROBERT C. TUCKER, Secretary.

CIVILIANS and MILITARY OFFICERS proceeding abroad can effect Assurances and Loans in connection therewith, on moderate Terms, with the

STANDARD LIFE ASSURANCE COMPANY,

by applying at the Offices of the Company in London, Edinburgh, and Dublin.

H. J. WILLIAMS, Gen. Sec. for England, 82, King William Street.
JOHN O'HAGAN, Res. Sec., 3, Pall Mall East.
Edinburgh, 3 and 5, George Street.
Dublin, 66, Upper Sackville Street.
JOHN O'HAGAN, Res. Sec.

POSITIVE LIFE ASSURANCE COMPANY.

Head Office—34, Cannon Street, London.

CHAIRMAN.

M. H. Chaytor, Esq., Chairman of Alliance Bank.

TRUSTEES OF CENTRAL LIFE AND GUARANTEE FUNDS.

The Rt. Hon. Sir Richard Couch (late Chief Justice of Bengal).
Thomas Hughes, Esq., Q.C.
William Macandrew, Esq., J.P.

GROWTH OF THE LIFE FUNDS,

Consisting of the Net Premiums received and invested, at compound interest, in Trust for Policy-holders :—

To 31st December, 1872...	£4,293	14	8
" 31st December, 1873...	27,324	4	8
" 31st December, 1874...	57,820	5	0
" 31st December, 1875...	85,224	9	5
" 31st December, 1876...	108,886	8	11

GUARANTEE FUND FOR POLICY-HOLDERS—
(In addition to the above)
Consols ... ... £51,080 2s. 11d.

Perfect Security to Policy-holders is afforded under the Positive System of Assurance.

The Rates of Premium for Short Term Policies have been reduced.

THE DIRECTORS of the BRIGHTON LIVERY STABLES COMPANY, Limited, give notice that Prospectuses inviting application for the portion of unallotted Shares may be obtained from the Secretary at the Offices of the Company, to whom an early application should be made.

HER Majesty's Government have announced that they are prepared to go to war with Russia if Constantinople, the Dardanelles, or the Suez Canal be subjected to occupation by the forces of the Czar. That is the clear, plain English of the guarded statements which have been made in Parliament, and which have been conveyed in substance to the Russian Government. The versatile soldier-politician who represents the Czar at the Court of St. James has been charged with assurances that Egypt and the Suez Canal are beyond the scope of the hostile operations of the Russian forces, but he has been instructed to point out that Egypt, as a part of Turkey, might be very legitimately attacked. It is want of means, as well as the dislike of bringing England into active participation in the war, which prompts that resolution. Be it so. Similar reasons may induce Russia to promise that her fleets and armies shall not obstruct or occupy the passage of the Dardanelles. There remains then only the question of the occupation of Constantinople as between Russia and England, if it is to be accepted that any arrangement Russia may propose to herself in Bulgaria and on the Danube, as well as in Asia Minor, are not to be considered by this country as causes of war. The Turks are said to have 250,000 men on the Danube and in European Turkey in support of the strong places which form their first line of defence on the river. It may be so, but we own to strong doubts that they have anything like that force of disciplined troops. The fortune of war is not like the fortune of cards, or of horse racing, or of games of chance, but still there is a very considerable amount of uncertainty in warlike operations. An unexpectedly stout resistance here, the sudden failure of the defence or of the attack there, may frustrate the whole plans of a campaign and render all calculations abortive. But, on the other hand, the probabilities are strongly in favour of the success of the army which is most numerous, best disciplined, armed, and equipped, acting under officers of military experience in pursuance of fixed strategical methods, above all when that army is on the offensive. What is to be done if, instead of offering vigorous and protracted combinations of defence all along their line, the Turks on the Danube give way at once and leave Bulgaria and the Balkans open to the march of the Russians? We do not say it is likely they will do so. We do not think it probable. We believe they will fight with energy and devotion, and present to the Russians a much bolder and more formidable front than the latter expect or admire. But what if, against the probabilities, they do not behave as they ought, and if the example set by the defenders of Ardahan be largely followed in Europe? Let it be supposed that by the end of next month, the Russians, having passed the Danube and driven the outlying corps of Turks under the walls of Varna and Silistria, and into their entrenched positions at Pravady and Shumla, are in full march for the Balkans, leaving adequate forces to come and invest the corps in those places, and having sufficient strength to deal with the enemy in the open. What shall we do? It is preposterous to imagine for one moment that any amount of hard words alone will deter the Russians from marching on Constantinople, if it were only to enable them to say they had occupied it. What would this Government do as soon as such an occupation became likely of accomplishment? Their own declarations say they would go to war; but in order to do so they should have the means in hand to carry out the object of the war, and to do it at once. Have they those means, and, if they have, could they use them with sufficient promptitude? The answer to that question is one which we are not in a position to give. We know that all the details of the medical organization and of the transport of an army of 40,000 or 50,000 men may be ready, and we learn that, with a proper regard for eventualities, which cannot be considered in the least menacing or offensive, the Government have looked into the subject of sending forth such an army as complete as it can be made. The divisions are all ready. To quote the words of a braggart song—which is certainly not composed in the sense of "defence, not defiance"—"We've got the ships and the money and the men." It is true we have *not* got the horses, that the ships are not fitted out, that the stores are not on board, and that if the supreme moment comes there will be, as we think, much more time taken in preparing the expedition than is calculated in high places. Still, let it be granted that at the end of this month affairs in Turkey in Europe have come to such a pass that England must go to war with or without allies, and we ask, in the name of Heaven, how we could get our 40,000 or 50,000 men into such a position as to enable them to save Constantinople before the Russians could take it, or occupy the high ground commanding the city? As yet not one penny has been asked from Parliament to prepare for contingent action, the Government relying, of course, on indemnity for any expenditure which may be forced on them hereafter, and being driven to timid courses by the violence of Mr. Gladstone and his Philo-Muscovite followers. The money! the ships! the men! Well, what if, having all these, we are too late to make use of them? Nay, more, what if, being able to get our army to Constantinople itself, in the actual occupation of the capital and of the works defending it, we find ourselves, without allies, forced to accept the tremendous responsibility of resisting the whole force of Russia? Forty thousand British troops with the British Fleet at their back can do a great deal, it is true, but they cannot perform that which is in its nature impossible. The defence of Constantinople by British troops, backed by the Fleet and aided by the population and the *débris* of the Turkish armies, is not impossible. But it is still very difficult, and the result of such a situation as we have indicated would, very probably, be not the salvation, but the destruction of Constantinople.

Lengthy as has been the discussion on the position of the Engineer officers and the necessity for maintaining an efficient engineering staff, so far as the higher grades are concerned, not a word has been said on behalf of that most useful subordinate, the stoker. The dependence of ships of the latest type upon their engines, and consequently upon their being able to keep up steam, is so great that the stoker class has now become as important as those who form the fighting crew. Yet in all the efforts that have been made to form reserves of seamen by the establishment of the Royal Naval Reserve, little or no thought has been given to the question of manning the stoke-holes of our Fleet if we were called upon to suddenly add to its strength. We believe stokers are not debarred from entering the Naval Reserve or the Seamen Pensioners' Reserve, but as a matter of fact they do not join the former force in any numbers, and when men of this class become pensioners the wearing nature of their calling has been such that there is little work left in them, and few can hope that a reserve of stokers will ever be obtained from amongst pensioners of that class. If we could count upon the firemen engaged in our numerous mercantile steamers to strengthen the stoking complements of our men-of-war in time of need, there would be less cause for troubling about the matter; but there is no reason to suppose that our steam shipping would remain idle in war time, and we cannot therefore expect to receive much voluntary help from that direction. To fall back upon deck-hands for stoking is by no means satisfactory, for it takes some training to accustom a man to stand fire such as he would be subjected to in the stoke-hole of one of her Majesty's ships when steaming hard. Indeed, it is no uncommon thing for those who have passed the examination and have been entered as stokers to break down owing either to their youth or want of stamina when put to the test, and our accounts from vessels recently commissioned increase our apprehensions as to the deficiency of the best class of men. Numbers of stokers now in the Navy are almost too young to undertake the work required of them, and we cannot expect seamen, unaccustomed to being half roasted before the furnace doors, to stoke with that amount of skill required to enable a ship to keep steam well. To improve the class of stokers offering themselves for the Service their pay should be increased, for though it may now be said to be in advance of that given to the seamen, their expenses are far greater as the nature of their work necessitates their keeping a better mess than that provided by the ship's rations and consequently their extra pay goes in private stock, so that they may keep body and soul together and be equal to the duties they are called upon to perform. Better pay would induce men of more mature years to come forward, and if they were allowed to take short service pensions some proportion of them might find their way into a stoker reserve while they really had some work left in them. Marines and seamen might also be permitted to volunteer for occasional stoking, and those that showed themselves apt at the work and capable of standing the heat should be granted a penny a-day extra and be noted as trained stokers. We should then have a certain number of men in each ship who could be relied upon to do the work efficiently if it were requisite to call upon them to lend a hand, instead of continuing the present system of allowing young fellows to volunteer for a turn of duty in the stoke-hole and to half kill themselves in the endeavour to earn a little extra pay. We have known such measures resorted to on occasion, such as the Prince of Wales' voyage in the Serapis and others, but in war time such an expedient could not be adopted without detriment. That some reserve of stokers is an absolute necessity, that we have no such reserve at this time are undeniable facts, and it behoves the Admiralty to lose no time in finding a remedy for what is in reality a very weak point in the *personnel* of the Fleet. The time has gone by for falling back on the press-gang.

A good deal of indignation was expressed in France after the last Autumn Manœuvres when it was known that the maps served out by the Staff were most defective; that numbers of canals, forests, railways, and towns were wanting, and this in spite of the fact that the creation of railways has changed the conditions of warfare. After the lamentable blunders committed during the German war, it seems strange that the French should be still without reliable maps. One of the democratic journals of Paris, making some observations on this subject, seizes the opportunity of flinging a stone at those two tyrants, Napoleon I. and Napoleon III., who "showed themselves hostile to the creation of a typographical Cabinet." It is almost unnecessary to refute this absurd accusation, especially as regards Napoleon I. It is well known with what care he stored up in his marvellous brain the slightest peculiarities of every country he visited, and the importance he attached to the formation of ground. As a proof of this we have only to turn to his military correspondence. In Volume VI. we find the following orders dated from the Imperial camp of Schonbrunn, August 9, 1809:—"1st. The Corps of Geographical Engineers will only receive orders from Adjutant Bacler d'Albe. The Engineers will correspond with him. 2nd. All the Geographical Engineers attached to the Marshals will at once rejoin head-quarters. 3rd. Every evening a report must be made to me of the work of the Engineers. 4th. I am not satisfied with the work done during the campaign. The position of Enns, though well coloured, is badly defined in a military point of view. . . The road from Znaym to Nikolsburg is badly traced; there are near Znaym a stream, marshes, and a bridge, which are not marked. The Engineer has not marked all the villages nor noted the population. . . The word *enemy* should not be pronounced by an Engineer, who should study the nature of the roads, slopes, heights, passes, and obstacles, and abstain from sending in plans of campaign. . . . I desire to know the Danube from this place to Raab, the Raab to its source, and the chief rivers which fall into it, &c., &c. I wish to know the course of the Taya and that of the March, with their bridges and *débouchés* at the Carpathian mountains, &c. I desire to know the country comprised between the road of Vienna at Znaym and the Danube, &c. I desire to know the country from this to St. Polten, and from thence to the Danube, &c. . . . The Geographical Engineers will never wander from the subject. Their reports should always be written in a simple and purely descriptive style. A precise method is the only one which suits the Emperor. They will point out the length of the roads, their breadth, their qualities, and will sketch their windings exactly. Rivers should be traced and measured with care, and bridges and fords marked," &c. *Apropos* of rivers, we heard a French officer relate the other day how a certain General who filled an important command in Paris during the siege mistook the Marne for the Seine. This happened on the occasion of General Ducrot's attempt to break through the German lines at Champigny. General X., who was bringing up his division, suddenly found himself on the banks of the Marne. "Oh!" he exclaimed, "I thought the Seine was wider than that." An Aide-de-Camp said—"My General, that is the Marne." Shortly afterwards they reached another river. "Ah! here is the Seine," cried General X. And the same Aide-de-Camp replied—"No, my General, it is again the Marne," which certainly does wind about in a bewildering fashion to the east of Paris. But, still, its sinuosities should have been studied by General X. before he marched on Campigny.

Although the Navy is a seniority Service, yet the oldest naval medical officer on the list, and one who may, we believe, claim to have longer service than any, is about to be retired without reaching the senior grade. His having reached the limit of age allowed by the retirement scheme is the cause of the Service losing an officer so well known and highly respected as Deputy Inspector-General Loney, now employed at Haslar Hospital, and if his were a mere routine retirement there would be little need for complaint because the hand of time had not spared him. But there is one point in connection with his case which does call for special comment and which their Lordships may well take into consideration. It is that when the age for compulsory retirement was reduced from sixty-five to sixty years this officer was the only one on his list who was affected by the new scheme, and therefore the good and just rule of not introducing regulations which have a harmful retrospective effect may be said to have been broken. All who were on the list with him on the scheme being framed had age to spare, and all but he will reach the rank of Inspector-General before the time for retirement arrives. But it is something more than mere rank that this officer will lose, for it makes a vast difference in the rate of retired pay whether an officer goes with substantive rank or only obtains that step on being actually retired; and, taking into consideration the services of Deputy-Inspector Loney and the injury he has experienced by the unexpected reduction in the age to which a medical officer is permitted to continue to serve, it would appear that he has a claim for some mark of consideration at the hands of the Admiralty. Even taking the saving he effected to the Service by the establishment of the hospital at Hong Kong and the abolition of the hospital-ship—an undertaking which he recommended in the face of some opposition and carried out to a most successful issue—as his sole recommendation, it should be sufficient to entitle him to the highest rate of retired pay on being compulsorily shelved. By the sale of the hospital-ship the cost of the building on shore was defrayed, and the maintenance of the expensive establishment afloat has been saved to the country since that day. Haulbowline Hospital and the sick quarters at Trincomalee also came under his beneficial rule, and were greatly improved during his term of office; and, to come down to a later date, the greater part of the arrangements made for the sudden influx of patients suffering from scalding owing to the accident on board the Thunderer, arrangements which called for general commendation, were carried out by this officer. On more than one occasion have his services been alluded to in these columns, and our interest is naturally awakened on learning that one whose zeal and energy on behalf of the Service have been brought so prominently forward by such officers as Admiral Sir Charles Shadwell, should be about to be compelled to leave the Navy under such a disadvantage as now appears imminent unless the Admiralty sees fit to take some special steps to reward his merit.

The French War Minister goes on steadily with the work of reorganization, and we may say organization, seeing the novelties which have been introduced into the composition of the military Service. We see, for example, that General Berthau, in a circular, has now determined to what duties, and in what proportion, the men of the Auxiliary Service shall be employed in the event of a mobilization. So many men (12 per cent.) are to be told off to fabricate and repair military materials, so many are to be employed on fortifications and other military constructions, so many in the hospitals, so many on the railways and in telegraph offices, so many in making harness, baking bread, &c. We may point out that the Auxiliary Service is composed of men who are not of regulation height, or who suffer from slight deformity which may incapacitate them from service in the field, but not from the duties above mentioned. Taking the annual number of conscripts at 300,000, it may be estimated that 28,000 of these lads will be drafted into the Auxiliary Service. The employment of these men in military duties will necessarily set free a large number of able-bodied soldiers. A lad with one eye, a club foot, or only 5 feet high in his stockings is quite equal to serving in a hospital, kneading dough, or sending off a despatch by wire. We do not perceive, however, that any steps have been taken to initiate the men of the Auxiliary Service into the duties they will have to perform in the event of war, for the War Minister does not contemplate calling them out for an annual or any other training. However, the War Minister has already a plethora of able-bodied men to deal with, and his estimates rather exceed £28,000,000.

The recent accident on board the Lord Warden, resulting in maiming and loss of life, unfortunately does not stand alone in the annals of our naval history. From time to time we hear the same old story of a capstan taking charge. Few unacquainted with the nautical profession can understand the serious meaning to those standing around that "the capstan has taken charge." At first, there is a slight backward movement, then, as the strain on the bars becomes less, the reverse motion quickens until all control is lost. Down go the men on the deck, and if they can lie there with the bars whirling over them they are safe; but as the whirring of the capstan gains in velocity, the centrifugal force often breaks the rope with which the points of the bars are connected, when out they fly one after another, clearing the deck and crashing into everything, killing and maiming right and left. No culpability rests with anyone connected with the arrangements on board the Lord Warden; but as what has happened may well happen again, it is surprising that no means have yet been found effectually to secure the bars, that in the event of the capstan "taking charge" they shall remain in their sockets. The heel of the bar enters some distance into the capstan head, but with the exception of the rope that binds the outer ends of the bars together there is nothing to keep them fixtures. It has been objected to that if a stout iron bolt were dropped through the capstan head and bar it would so weaken the latter that it would assist in splitting it when the strongest outward tendency was attained during the highest period of centrifugal force; but if the bar was fitted with an iron socket to receive the bolt, and an iron band round the part perforated, it certainly would remove this difficulty, and is an experiment well worth trying where life and limb are concerned. A second rope rove tightly round the centre of the bars also would add to their security.

The model of the bust of the late Commodore Goodenough, to be placed in the Painted Hall at Greenwich, may be seen by any of that officer's friends and admirers, with Count Gleichen's permission, at his studio, St. James's Palace, daily, between 4 and 6 p.m.

It has been decided to extend to all Warrant officers serving in Coastguard ships and the flag-ship at Queenstown and their tenders, the higher scale of pay as provided for by Order in Council of August, 1875.

We are glad to see it stated in a contemporary that the action taken by Commander Vander-Meulen with regard to the late Captain of the Repulse has met with the full approval of the Admiralty, for it was undoubtedly a delicate position in which to be placed, and one that would not admit of any hesitation if the good of the Service were to be considered. For some months Commander Vander-Meulen has been acting Captain of the Repulse, and on Tuesday last paid her off in excellent order. He had previously been acting Captain of the Tenedos, and has shown himself to possess those requisites in one who has to command, tact and temper in difficult situations, and we hope that the Admiralty will note him for advancement at an early date.

To keep a movement fully alive there is nothing like airing it on opportune occasions, and we presume it must have been with that motive that Lord Ashley and the promoter of the movement, Mr. Brassey, took the Naval Volunteers to Westminster Abbey on Sunday last.

The statement which has been circulated, that Admiral Popoff, of the Russian Navy, has paid a visit of inspection to Chatham Dockyard, is incorrect. The officer to whom permission has been granted, as we stated on the 2nd inst., was Lieutenant Radazoff. There is reason to believe that in this instance the usual freedom to inspect every part of the ships under construction was somewhat curtailed.

The grant of an additional twopence a-day to all seamen who re-engage for a second term of ten years has been made retrospective, and men who have already re-engaged will be allowed the additional pay, equally with those who re-engage hereafter; but in no case will it be payable prior to April 1, 1877. Coastguard men are excluded from this privilege.

The Lapwing court-martial has been held and has resulted in reprimands being delivered to Commander Sir William Wiseman, Navigating-Lieutenant Henry Backler, and the Gunner, Mr. Henwood, who was on watch at the time of the stranding. On the other hand, we are pleased to be able to state that the Lords of the Admiralty have expressed their admiration of the energy and perseverance of all concerned in saving the ship, a task which seemed almost hopeless.

Such an act as that performed by Captain the Hon. E. R. Fremantle, C.B., in being the first overboard after a boy who had fallen from aloft, goes far to strengthen that respect and good feeling with which our Bluejackets are wont to regard their officers, while it shows them that, though there is a wide line between the quarter and the lower decks in matters of discipline, yet the highest is ready to help the lowest in a moment of distress. It was owing to the Captain's promptness that the lad was brought to the surface, for, being stunned, he was going down like a stone.

An order has been issued by the Admiralty that seamen who desire to wear some mark of mourning for deceased relatives may be permitted to place a band of black silk or crape, two and a-half inches wide, on the left arm, above their distinctive badges.

Captain Henry M'Killop, C.B. (M'Killop Pasha), will, we understand, be called upon to accept the same alternative as that put to Hobart Pasha; either to leave the Service of Egypt or to be removed from the list of officers of the Navy.

It is hoped that the First Lord of the Admiralty will be sufficiently recovered from his recent illness to be able to take his seat in the House of Commons on Monday night, when the Navy Estimates will be brought forward.

The death is reported of Captain Charles Inglis—one of an old naval family—who entered the Service in 1807, on board the Queen, which was then commanded by his father, with whom he continued to serve as Midshipman until promoted to the rank of Lieutenant, July 1, 1814. He was stationed for a long time off Sicily and Lisbon, and was on board the Canopus at the pursuit and destruction in October, 1809, of the French ships of the Line Robuste and Lion. In September, 1814, Lieutenant Inglis took charge of a frigate-rigged boat named the Frederick William, and was sent with her as a present from the Prince Regent to the King of Prussia. He afterwards joined the Chesapeake frigate at the Cape of Good Hope, and in 1815 the Queen Charlotte, in which ship and the Boyne, bearing the flag of Sir Edward Thornbrough, he served at Portsmouth until May, 1818. In 1827 he was appointed to the Royal Charlotte yacht. He attained Commander's rank April 23, 1829, and became retired Captain in 1856.

Acting Sub-Lieutenant Horace Armytage, whose name was restored to the "Navy List" a few months since after having been removed by the Admiralty, has now withdrawn himself from the Service.

We called attention, some weeks since, to the peculiar behaviour of a Chaplain serving on a foreign station, in publishing offensive letters concerning the authorities, and we now hear that this proceeding has not been allowed to pass without comment from the Admiralty, and the Chaplain has been reprimanded for his unbecoming conduct.

The appointment of Lieutenant Arthur Galloway to the Alexandra as additional, is for one year only.

Commander Charles Shaw has been selected by the Admiralty for advancement to the "1816 List," in the vacancy caused by the death of Commander Timothy Carew. Commander Shaw obtained his commission as a Lieutenant rather over half a century ago.

The new valve-gear for the Opal, which, it is hoped, may have the effect of making that ship efficient as a steamer, will be despatched to Esquimalt in the course of the present month. The builders of the engines, Messrs. Napier, have undertaken to send a foreman from their works to assist in fitting this gear on board, and will bear the expense of these rather extensive repairs.

The Admiralty has been pleased to express to the Coast-guard stationed at Ambreck its approval of the measures adopted and the success which attended their efforts to save the passengers and crew of the Dacota. The chief boatman is especially mentioned.

As it has been found on survey that the Myrmidon is still capable of a little more work, she is to be repaired for two years' service.

The Flamingo has been ordered to be ready for commission next week, the date of completion for sea service having been deferred from May 31.

We are glad to hear that an act of gallantry on the part of Lieutenant Hill, of the Warrior, has been under the consideration of the Royal Humane Society, and we do not doubt that the Society will bestow upon him a fitting mark of appreciation.

The Cormorant, composite sloop, now building at Chatham, is in a forward state, and will probably be launched about the beginning of August.

It is gratifying to be able to state that a considerable change for the better has taken place in the illness of Admiral Rous. Sir William Gull, Dr. Hawkesley, and Mr. S. Sibley met on Thursday afternoon, and the following bulletin was issued by them:—"Admiral Rous has passed a good night. All the more serious symptoms are subsiding, and the strength satisfactorily improves."

We recently gave the particulars of the gallantry displayed by Sub-Lieutenant Robert Montgomerie, of the Immortalité, in his endeavours to save the life of a seaman who fell overboard on April 6, 1877, and expressed a hope that it might meet with recognition, and we are glad to find that the Albert medal of the 2nd Class has been bestowed upon him by her Majesty.

The promotions recently made in the Commissariat and Transport Department have not passed unnoticed by the Committees which have been sitting at the War Office, which have asked for explanations.

The vexed question as to how far Sir George Nares' orders for the non-provision of lime-juice to the sledge parties of the late Arctic Expedition may be held to have led to the outbreak of scurvy has been settled by the Lords of the Admiralty. In November last they hesitated to blame Sir George, and informed him "that they refrained at present from expressing any opinion on the cause of the outbreak of scurvy in the Arctic Expedition under your command." But Sir George Nares has now been told that after the receipt of the report of the Director-General of the Medical Department on the outbreak of scurvy, and his letters of November 30 and of December 14 last, their Lordships thought it desirable that the questions discussed therein should be referred to the judgment of a Committee, and now they accept the conclusions at which the Committee have arrived after a careful investigation of the matter. In this official communication it is, however, stated that their Lordships make full allowance for the great practical difficulties that Sir George Nares had to contend with in deciding upon the best scheme for provisioning the sledge parties, and that they appreciate the reasons which guided his action in the matter, but at the same time their Lordships must express their regret that he did not attach due weight to the recommendations of the Director-General of the Medical Department upon the subject.

What a pity it is those who make the superabundance, or supposed superabundance, of officers in British regiments a constant subject of complaint, do not acquaint themselves with the true facts, instead of relying implicitly upon figures they meet with on the pages of the Estimates. The King's Dragoon Guards have at this moment six subalterns to do the duty of eight troops. Surely this cannot be viewed as an excessive number, as it gives a wonderfully thin margin for "leaves," and those other contingencies arising out of the anomalies of our system? Nor is the case of the "K. D. G.'s" an isolated one. It is the same complaint that is met with everywhere; there are few subalterns for duty, and those who are available are continually being withdrawn for lengthened periods for this or the other instruction. These reductions from the effective strength are never satisfactorily explained in Parliament; if they were, many of those who object most strongly would, we feel sure, rest satisfied. It is out of respect for the feelings of the economical that the present most unjust arrangement with regard to officers absent on Staff employ has continued all these years unremedied and yet they do not appreciate the attempt thus made; to keep down expenses—we question if very many of them would believe it if they were told what the practice has been.

The following is a list of the survivors of the Duke of Wellington's Army who participated in the battle of Waterloo on June 18, sixty-two years ago, who are still drawing full or half pay, viz.:—Field-Marshals Sir W. Rowan, G.C.B., Colonel of the 52nd Foot (served as Brevet Major 52nd Foot); and Sir C. Yorke, G.C.B., Colonel-Commandant Rifle Brigade (Captain 52nd Foot). Generals Sir T. Reed, G.C.B., Colonel 44th Foot (Lieutenant 12th Light Dragoons); Lord Rokeby, G.C.B., Colonel Scots Guards (Lieutenant 3rd Foot (Scots) Guards); G. Macdonald, Colonel 16th Foot (Lieutenant 27th Foot); G. Whichcote, Major half pay, unattached (Lieutenant 52nd Foot); J. A. Butler, Major, half pay, unattached (Lieutenant Grenadier Guards); G. T., Earl of Albemarle, Major, half pay, unattached (Ensign 14th Foot); and Sir J. Bloomfield, G.C.B., Colonel-Commandant R.H.A. (First Lieutenant R.A.). Lieutenant-Generals Sir F. Warde, K.C.B., Colonel-Commandant R.A. (First Lieutenant R.A); Sir W. B. Ingilby, K.C.B., Colonel-Commandant R.A. (First Lieutenant R.A.); T. C. Smith, Major, half pay, unattached (Ensign 27th Regiment); and E. Trevor, Captain retired full pay, R.A. (First Lieutenant R.A.). Colonels J. N. Harty, K.H., Lieutenant-Colonel, retired full pay, late 33rd Foot (Captain 33rd Foot); and W. Burney, K.H., Major, retired full pay, late Cape Mounted Riflemen (Captain 44th Foot). Captains R. C. Elliott, half pay, unattached (Lieutenant 30th Foot) and W. Harris, half pay, unattached (Lieutenant 16th Light Dragoons). Lieutenants J. Orr, retired full pay, 8th Veteran Battalion (Lieutenant 42nd Foot); J. Bramwell, half pay, late 92nd Foot (Ensign 92nd Foot); W. Butler, half pay, late Grenadier Guards (Lieutenant 3rd Foot Guards); A. Gardner, half pay, late 28th Foot (Lieutenant 27th Foot); J. Robinson, half pay, late 50th Foot (Lieutenant 32nd Foot); A. Watson, half pay, late 24th Foot (Ensign 33rd Foot). Quartermaster L. Hardy, New Brunswick Fencibles (in the ranks of Grenadier Guards). Surgeon W. H. Young, half pay, and Assistant-Surgeon E. Evers, half pay. The deaths since last year have been Lieutenant-General Sir Burke Cuppage, K.C.B., R.A.; Major-General R. G. B. Wilson, retired full pay, R.A.; Captain G. Foot, half pay, R.A.; Lieutenants J. Parry, half pay, 28th Foot, and W. Wright, half pay, Rifle Brigade; and Paymaster F. Feneran, half pay, Depôt Battalion. Only five deaths were announced in 1875-76.

The Committee of the Royal School for Officers' Daughters have recently adopted a plan which is well worthy the attention of the subscribers. Formerly when sending round voting papers, to be filled in previous to each election, they used to specify those particular candidates whose cases were considered deserving of notice, and place remarks to this effect against the names of those thus distinguished. Finding, probably, that this system did not work well, it has been discontinued, and instead of it the Committee now give a slight detail of the circumstances of each candidate, showing which parents (if any) are living, the number of children in the family, the total income from all sources, and, lastly, whether any of the family are already enjoying the benefits of the school. The voter, by reading over these particulars, has now the opportunity of judging personally the merits of each case, and of giving votes to those really most deserving. Taking, as we do, a deep interest in the success of this noble institution (it being the only one of the kind in existence), we think it not out of place to call attention thus prominently to the alteration above noticed. Many of our readers are doubtless subscribers to the school, and, as such, they will probably be aware of the annoyance experienced by the frequent application for their votes. Under the former system the expense and labour of canvassing must often have deterred parents in reduced circumstances from seeking the benefits of the school, whereas those in a better condition (pecuniarily) have been enabled to carry out a canvass successfully and to obtain the admission of a candidate whose [illegible] probably scarcely warranted their availing themselves of the low rate of payment fixed by the Committee for charitable purposes. The real object of the institution has thus been often defeated. Subscribers are now placed in a position to judge for themselves, and we strongly advise them to defer giving any promises on personal application before they have read over the particulars noted in the voting paper. By so doing the real object of the school would be materially maintained, and the subscribers themselves would be saved a considerable amount of trouble and correspondence.

REVIEW.

Seonee. By R. A. Sterndale, F.R.G.S. (Sampson Low and Co.)

Mr. Sterndale's tale of Indian adventure, and his experiences of camp life on the Statpura Range, form a volume highly attractive, not only to the youthful reader, but to the veteran sportsman. As he states in his preface, his aim throughout has been "to inculcate a love of nature, and to make secondary to it the mere destroying of wild beasts." Although the European characters have been necessarily created for the work, the natives are real beings, and, doubtless, will be recognised by many an old shikaree. Its merits are that it unfolds a pleasantly written tale of startling adventure, and contains valuable information especially interesting to the ornithologist, accompanied by a carefully-prepared glossary of Indian terms. It would be easy, if space admitted of it, to occupy several columns in quoting the strange adventures described by the author. We must, however, be content with extracting some particulars relative to that first-class tiger shikaree named "the Lalla":—

> He was a little, wee man, so insignificant and so dried and shrivelled up, that, as he used to say, "no tiger would ever think of eating me." His early training had made him extremely keen of eyesight, and in reading the signs of the forest. Miserable as he looked, he could walk about all day, and every day for a week, in a broiling sun, hunting up tracks, and would fearlessly penetrate into the very lair of a tiger perfectly unarmed. He had a particularly beaming look when he had "salaamed" to a tiger comfortably disposed of for the day. He fell a victim in the end to contempt of tigers, bred of undue familiarity. One night he came on the tracks of a tiger, and, contrary to all orders, tied out a calf at night as a bait, and sat over it in a tree with a gun. The tigress came and received a bullet in the thigh, going off wounded into a very thick cover in the bed of a river. The plucky but foolish Lalla followed her in there next morning by the blood. Before he had gone a dozen paces she was upon him, his unfired gun dashed from his hand, his turban cuffed from his head by a stroke of her paw, and himself down below the furious beast, and being slowly chewed from shoulder to ankle. He was brought in by some men when the tigress left him. The fire of delirium was then in his eye, and he raved of the tiger's form passing before him, red and bloody. He recognised me, and conjured me to go out forthwith and bring in her body next day if I wished to see him alive. I knew that the natives have a superstition to this effect; and, though I was then in a high fever, I sent off my elephant at midnight to a village near the spot, following on horseback at daybreak. After hunting for some time in the wrong direction, I came on a fresh trail, with one hind foot dragging in the sand, and then I knew I was near the savage brute. We ran it up to a dense jáman cover in the river bed, and I had barely time to get the people on foot safely up the trees when the tigress came at me in the most determined manner. She looked just like a huge cat that had been hunted by dogs—her fur all bedraggled and standing on end, eyes glaring with fury, and emitting the hoarse, coughing roar of a charging tiger, that no one hears without a certain quickening of the blood. The first two shots hit fair, but did not stop her, and she was not more than a few yards from the elephant's trunk when the third ball caught her clean in the mouth, knocking out one of her canine teeth, and passing down the throat into the chest. The "Lalla" was avenged, but the poor fellow was beyond any help that the sight of his enemy might have afforded him. No one regretted his death more than I did, for I was in some measure responsible for having given him a turn for the shikaree's life by taking him away from the peaceful avocation of a Bengal bird-catcher.

This very interesting work is illustrated with many well-executed engravings and maps, while the appendix contains a brief topographical and historical account of the district of Seonee, in the central provinces of India.

Mr. Kavanagh asked the Secretary for War on Thursday whether he had any intention of making any change in the rule which compels the lieutenant-colonel of a regiment to retire after having held the command of it for five years. Mr. Hardy said the rule referred to, which had been laid down by his predecessor, had been recently acted upon, and there was no intention of relaxing it.

The Ashantee dinner was held at the Pall-Mall Restaurant on the 8th inst., when there were present—Major-Gen. Sir Garnet Wolseley, Cols. Sir F. W. Festing, W. W. Johnston, Baker-Russell, Wood, F. Home, Greaves, T. D. Baker, and H. Brackenbury; Majors Hon. H. L. Wood, Bromhead, R. W. T. Gordon, Buller, Butler, and Jones; Capts. Maurice, Hare, and Hart; Qrmr. Kelly; Drs. Mackinnon, McNalty, Fegan, Atkins, Faught, and Gore; Messrs. Maltby, R.N., E. Rolfe, S. Rowe, Irvine, Crosbie, Cooper, Scobie, and Aylmer.

The following officers have been examined in Ireland as to their qualifications for promotion, viz.:—Lieuts. Lee-Barber, 3rd Dragoon Guards; Aylmer and Sands, 4th Dragoon Guards; Capt. Lawrence and Lieut. Yorke, 4th Regt.; Lieuts. Elliott and Saltmarsh, 90th; Middlemass and Fowler, 91st; and Christie, 99th.

The Army.

GUARDS. Capt. Campbell, from the Supernumerary List, will be placed on the establishment, vice Capt. Lyte, retired.

6th Dragoons leave Dublin for Scotland about the 3rd proximo. Two troops will be stationed at Hamilton and the others with head-quarters, at Piers-hill Barracks, Edinburgh. No troops will be stationed at Glasgow, as anticipated, the barracks at that station not being ready for occupation by Cavalry.

7th Hussars will leave Edinburgh about the 3rd proximo for Dublin, and take up quarters at Island Bridge Barracks.

9th Lancers. Major Hardy has been granted an extension of leave from India to England from July 1 to Oct. 15.

15th Hussars. Capt. Langtry, having passed the prescribed examination, has been confirmed in his appointment as aide-de-camp to Major-Gen. the Hon. A. E. Hardinge, C.B., commanding the Meerut Division.

18th Hussars. There is a talk of the regiment being deprived of the troop Capt. Groves' retirement leaves to be filled.

Royal Artillery.

According to the Woolwich correspondent of the *Morning Post* "certain of the Royal Artillery quartermasters, rendered supernumerary by the reduction in the number of brigades, will be absorbed in the Coast Brigade on the coming retirement of the senior majors and captains. The number to be so absorbed has not yet been decided."

The annual gold medal of the Royal Artillery Institution has been awarded to Major W. Kemmis, Assist.-Supdt., Royal Gun-carriage Department, for his essay on "The Composition and strength of a Siege Train required for the Attack of a Modern Fortress."

Col. J. Worgan (late Bombay), Inspr.-Gen. of Ordnance and Magazines in India, has been granted leave to England for six months, on medical certificate, and in his absence Col. W. S. Hatch (late Bombay) officiates.

Capt. H. C. Magenis, A Brig. R.H.A., has been granted leave from India to England, on medical certificate.

The following Brigade Order has been published by Lieut.-Col. A. C. Johnson, 21st Brig.:—"Morar, Gwalior, May 8, 1877.—Capt. and Adjt. T. H. Ouchterlony having been promoted major, I cannot allow him to leave the 21st Brig., of which he has been adjt. for ten years, without placing on record my high appreciation of the very able manner in which he has always conducted the duties pertaining to that office. His tact and universal courtesy will, I am sure, make his departure a matter of regret to all ranks, high and low; more especially to those with whom his duties as adjt. have brought him into daily contact. I therefore wish him, in the name of the brigade, a hearty farewell, and that success and prosperity may always attend him in his future career."

Lieut. G. S. Jones, 6th Brig., has been appointed aide-de-camp to Major-Gen. Macintire, C.B., commanding the Hyderabad Subsidiary Force.

Capt. R. H. Grant, D.A.Q.M.G. in India, has been granted leave to England, for six months, on medical certificate.

Capt. R. D. E. Lockhart is about to return to duty with a battery from the Staff in Bermuda.

Capt. S. C. Halliday, 1st Brig., has been granted leave from India to England, for six months, on urgent private affairs.

Vet.-Surg. M. Anderson, 1st Brig., has been granted leave to sea from India, for three months, on medical certificate.

The Woolwich correspondent of the *Morning Post* announces the following appointments in connection with the new organization:—Col. W. C. F. Gosling to command A Brig., Woolwich; Col. G. Colclough to B Brig., Dublin; Col. C. S. Henry, C.B., to C Brig., Aldershot; Col. S. A. Williams, C.B., to 1st Brig., Woolwich; Col. A. Thompson to 2nd Brig., Sheffield; Col. G. Leslie to 3rd Brig., Newbridge; Col. H. Francis to 4th Brig., Leith; Col. G. T. Field to 5th Brig., Woolwich; Col. S. Stallard to 6th Brig., Colchester; Col. H. A. Smyth to 7th Brig., Portsmouth; Col. H. P. Newton to 8th Brig., Devonport; Col. J. R. Gibbon, C.B., to 9th Brig., Dover; Col. P. W. Phillips-Treby to 10th Brig., Queenstown; Col. F. W. C. Ord to 11th Brig., Sheerness.

Col. H. E. L. Thuillier, C.S.I. (late Bengal), Surveyor-General of India, will retain his post until Dec. 31.

Col. F. R. Glanville, says the *Irish Times*, is about to retire upon pension.

C and D Bats. 16th Brig. arrive at Aldershot on Friday next from Newcastle and Weedon, and encamp on Jersey-hill.

The head-quarters 1st Brig. left Aldershot on Thursday for Woolwich.

The following officers are appointed district captains under the reorganization scheme:—Capts. H. W. Isacke, Devonport; A. Warry, Portsmouth; G. A. Noyes, Dublin; J. W. Bernard, Queenstown; A. E. Turner, Dover; F. H. W. Milner, Manchester; H. A. Douglas, Malta; and H. M. J. Feilden, Gibraltar.

Driver W. Carthy having been tried by court-martial for maliciously cutting and destroying the harness of his battery, and found guilty, has been sentenced to be imprisoned for twelve months with hard labour, and to be dismissed her Majesty's Service with ignominy.

Royal Engineers.

Col. C. V. Wilkieson (late Madras) has been granted leave from India to England, for two years, on private affairs.

Lieut.-Col. J. R. Maunsell (late Bombay) has been granted leave from India to England, for two years, on medical certificate.

Grenadier Guards. The *Morning Post* says, "Lieut.-Col. Manningham-Buller purposes to leave England almost immediately for Paris in charge of a number of young officers of the Guards. They propose visiting the fortifications and being present at the forthcoming review by Marshal M'Mahon. Ve understand that this trip is but the precursor to an tended tour comprising the several Continental capitals, ich, doubtless, under such guidance, will prove very ructive."

Queen's. The 2nd Batn. will leave Aldershot at the July.

Buffs. Capt. Lynch will be placed on the Supernumerary List on appointment as garrison-instructor, and there is a probability of Lieut. Maclear obtaining his company in the 1st Batn.

5th Fusiliers. Capt. Beamish, 1st Batn., has been granted leave from India to England to appear before a medical board.

9th Regiment. The *Times of India* says:—"Capt. Burnaby is not the only British officer who has lately visited Khiva, or, at all events, its neighbourhood. There is an officer now in the 9th Regt. at Rawul Pindee (Capt. Butler) who, when on involuntary half pay last year, wandered all over Central Asia in the disguise of a Chinese merchant, accompanied by a Chinaman as guide and companion. Strange to say, Capt. Butler is totally unacquainted with any Eastern language, yet he managed to make a survey of over 200 miles of the Attrek River without exciting any particular suspicion; and the result of his observations are now before Government. Capt. Butler has been summoned to Simla to give a full, true, and particular account of his adventures to the Foreign Secretariat, and his information will, doubtless, prove of great value at the present moment." Lieut. Townshend, 2nd Batn., is recommended for the instructorship of musketry, vice Lieut. Lovell, joining the depôt.

14th Regiment. Col. Hawley will shortly be placed upon half pay from command of the 1st Batn. under the five years' rule.

17th Regiment. We learn from India that "Col. Brice had proceeded on privilege leave for two months to Murree. Capt. Smythe joined the head-quarters of the 2nd Batn. in India on the 12th ult. at Mhow. Capt. Brind, 1st Brig., late brigade-major at Peshawar, has been attached to the office of the adjt.-gen. at Simla, for the purpose of preparing a revised edition of the General Orders of the Indian Army. The duty could not well have been entrusted to better hands. Lieuts. Gregg, Short, and Stacpole have passed the required examination for promotion. Major Grant has had his leave extended to May 31, on medical certificate. It is expected that Lieut. Gamble will get the vacant company. Lieut. Stacpole has been appointed interpreter to the 2nd Batn."

19th Regiment. The 1st Batn., according to present arrangements, will take its departure from Aldershot at the end of next month. Brevet-Major Morgan, on appointment as garrison-instructor at Manchester, will be placed on the Supernumerary List, when Lieut. Oakes will probably be promoted. Lieut. A. Roche, 2nd Batn., died at the Rectory, Alcester, on the 10th inst., aged thirty-two years. He entered the Army, May 16, 1865; and became lieut., April 18, 1868. When the mail left India a court-martial was about to sit on Sergt.-Major Miller, qrmr.-sergt. of the Deolalee Depôt, who is accused of having written a letter to the London *Standard*, in which the tyrannical conduct of Col. Chippendale, C.B., 2nd Batn., was described in strong terms.

20th Regiment. The 2nd Batn. is expected to leave Aldershot at the end of next month.

21st Fusiliers. Capt. Croker, 1st Batn., has been granted leave from India to England, on urgent private affairs.

23rd Fusiliers. Col. Prevost has proceeded from Dublin to the Curragh and assumed command of the 1st Infantry Brigade there for the drill season, Lieut. Mainwaring having joined his Staff as aide-de-camp. Brevet Lieut.-Col. Elgee has assumed command of the battalion during Col. Prevost's absence.

24th Regiment. Major Degacher obtains the lieut.-colonelcy of the 1st Batn., vice Col. Watson, retired upon half pay, Capt. Logan being promoted major, and Capt. Tongue, from the Supernumerary List, joins the establishment, vice Capt. Logan.

25th Regiment. Capts. Higgins, 1st Batn., and Collis, 2nd Batn., are candidates for appointment to the Auxiliary Forces as adjts. The latter has been appointed, provisionally, to the 7th Surrey R.V.

26th Cameronians will, it is believed, proceed at the end of July from Glasgow to Aldershot.

31st Regiment. It is generally understood that the regiment will proceed at the end of July from Portland to Aldershot.

47th Regiment arrived at Kingstown on Wednesday in H.M.S. Assistance from Jersey, and has disembarked and taken up quarters at Athlone, three companies having gone temporarily to the Curragh, whence, after the drill season, they move to Castlebar.

Royal Marines.

Col. Wright, commanding the Plymouth Division, having been reported sick, the command of the division has devolved on Brevet Col. Gwyn, Lieut.-Col. De Courcy, C.B., performing the duties of second commandant.

The General Order of March 1, 1877, which refers to the Army, and which lays down that fines for drunkenness will not for the future carry with them an entry in the Regimental Defaulters Book unless accompanied by some other punishment, has been made applicable to the Royal Marines.

51st Light Infantry. Lieut. Spragge has been appointed to officiate as adjt., qrmr., and paymr. of the left half-battalion.

53rd Regiment, and depôt 43rd, which left Kingstown in H.M.S. Assistance on the 6th inst., arrived at Jersey on the 8th, and went into quarters at Fort Regent, Elizabeth Castle, and St. Peter's Barracks.

54th Regiment. Capt. Hodnett, D.A.A.G. for musketry in India, has been granted leave to England for four months, on private affairs. Lieuts. Timbrell and Tidy obtain the companies vacant by the appointment of Capts. Newbolt and Phibbs to adjutancies of Auxiliary Forces.

56th Regiment. The retirement of Major Clutterbuck is being unavoidably delayed.

58th Regiment leaves Aldershot after the drill season.

59th Regiment. Capt. Griffiths, from the Supernumerary List, is to be placed on the establishment, vice Capt. Dane, retired.

61st Regiment is expected to leave Aldershot after the drill season.

63rd Regiment. Lieut. Burne, a probationer, attached to the 11th Bengal Cavalry, is about to be admitted to the Bengal S.C., with effect from April 26, 1876.

68th Light Infantry. Lieuts. Stanley and Tickell are named for early promotion—the former in succession to Capt. Bolden, deceased, and the latter vice Capt. Crawford, appointed adjutant of Auxiliary Forces.

71st Highlanders. The regiment, it is thought, will be robbed of both the companies now vacant.

72nd Highlanders. It is known now for certain that Lieut.-Col. Beresford, who recently arrived home from India, will vacate his command shortly under the five years' rule.

83rd Regiment. Lieut. Gibbs is expected to be promoted, vice Capt. Stewart, retired.

88th Connaught Rangers. The head-quarters and service companies were to have proceeded yesterday from Athlone to Kingstown, and embark in H.M.S. Orontes for conveyance to the Cape. The following is an extract from Brigade Depôt Orders:—"Galway, June 7, 1877.—Major F. Hall has proceeded on leave of absence preparatory to retirement from the 88th Connaught Rangers. The Service will lose in him an admirable officer, zealous, earnest, and upright, an honourable gentleman, and an able soldier. He possessed the qualities that command respect and esteem. Col. Bagot feels Major Hall's loss very much, and wishes publicly to tender his best thanks for the support and assistance always so cheerfully rendered. He feels assured that he conveys the feelings of all in this Brigade Depôt in wishing Major Hall all prosperity and happiness in his future career.—True copy. (Signed) Mark Singleton, lieut. 87th Fusiliers, acting adjt. 68th Brigade Depôt." Brevet Major Fry obtains the majority.

89th Princess Victoria's. Capt. Murray, on appointment as garrison instructor at Dublin, will be placed on the Supernumerary List, when Lieut. Brereton will doubtless obtain promotion.

93rd Highlanders. The retirement of Lieut.-Col. M'Bean, V.C., may be looked forward to in the autumn, as he becomes disqualified for further service in August under the sixty years' rule. Brevet Major Alexander, adjt. of the Aberdeenshire Militia, has been appointed acting Staff Officer of Pensioners at Aberdeen.

94th Regiment. Mr. E. Jenkins asked the Secretary for War on Monday whether his attention had been called to a statement in the *Belfast Morning News* stating that "it would appear as if certain officers of the 94th Regt. have connived at the escape from justice of a man said to have been guilty of a crime. The question presented itself—How was it that the officer alluded to was an absconder? Accused of a crime he was placed under arrest, and he broke his arrest, for, leaving the officers' quarters in broad day, he quitted by the barrack gate and fled. But how was it he was able to do so?" and whether, if the statement was well founded, any inquiry had been instituted in the matter, and with what result. Mr. Secretary Hardy—My attention was called to this paragraph about the same time by the hon. member's question and by an anonymous letter in which it was enclosed to me. It is perfectly well known that an officer of the 94th Regt. was charged with an offence. He escaped, but there is no reason whatever, as I am informed, to suspect any connivance on the part of any of the officers or soldiers in the regiment. There was nothing so extraordinary in the case as to make the arrest different from that which is usual in the case of an officer. He was placed upon parole, and he broke his parole and escaped from barracks. There was nobody in charge of him. He was trusted on his word, and he broke it.

96th Regiment is expected to leave Aldershot at the end of July.

100th Royal Canadians expect to be moved from Aldershot at the end of July, when they will probably proceed to Portsmouth.

102nd Fusiliers. Capt. Faber's retirement will, it is feared, give no promotion.

Rifle Brigade. It is believed the Brigade will be deprived of the company vacant in consequence of Capt. Moorsom's retirement. Capt. Anstruther will be placed on the Supernumerary List on appointment to the Staff at Dover as garrison instructor, a step going for the benefit of the subalterns.

THE AUXILIARY FORCES.

MILITIA.

West Kent. A clergyman resident in the county writes: "I see it is mooted that the West Kent Militia may be called out at this late season of the year. Surely the authorities have forgotten that nearly the whole regiment have entered into various employments in consequence of the postponement, and is it not a question of doubt whether the men, now that the hop season is coming on, can be got together, except for permanent embodiment?"

1st Royal Middlesex. Brevet Major Dyson-Laurie, 34th Regt., has completed his five years' service as adjt.

4th Royal Middlesex. The regiment is to be reduced by two companies.

5th Royal Middlesex. It has been decided to reduce the regiment from ten to eight companies.

Royal Montgomery is being increased by a couple of companies.

Nottingham. The training terminates to-day.

1st Warwick. The regiment is being reduced from ten to eight companies.

2nd Warwick. It has been decided to reduce the establishment by a couple of companies.

5th West York. The officers and late officers dined at the Criterion on Thursday. Present:—Col. Gunter (in the chair); Major Cadman; Capts. W. Hoole, Seymour, De Burgh, J. Hoole, Outhwaite, Sir H. Miller, Bart.; Messrs. Scarlett, Montague, Lodge, Maudsley, W. Newton, and Tyrrell.

Highland Rifles. The adjutancy is vacant, Capt. Mackenzie, 78th Highlanders, having completed his five years' Staff service.

Royal South Down. Capt. Barrett has applied to resign his commission.

Dublin City Artillery. Hon. Major Magill is recommended for the majority, vice Major O'Meara, retired.

Galway assembles at Loughrea on Monday for training.

King's County Rifles. Capt. Cox is recommended for the majority vacant by the retirement of Major Urquhart. Lieut. West obtains transfer to the Galway Militia.

Leitrim. Major Wyse has resigned his commission.

Queen's County is ordered to assemble for training on Monday next at Maryborough.

Wexford, assembled for training at Wexford, musters on parade 4 field officers, 5 capts., 4 subalterns, the adjt., surg., assist.-surg., 34 sergts., 8 drummers, and 690 rank and file.

The subject of uniform for medical officers of the Auxiliary Forces is said by the *Irish Times* to be under consideration.

YEOMANRY.

West Somerset, 400 strong, under command of Lieut.-Col. the Hon. A. N. Hood, M.P., was disbanded on Saturday last, having undergone a most successful training.

VOLUNTEERS.

Argyll Artillery. Lieut.-Col. the Marquis of Lorne is undergoing a course of gunnery instruction at Woolwich.

3rd Cambridge Rifles. A detachment of about forty-five of all ranks proceeded to Aldershot on Saturday last for seven days' training, and has been encamped in the enclosure and attached to the 90th Regt.

7th Surrey Rifles. Capt. Collis, 25th Regt., has been recommended for the adjutancy.

The encampment for the instruction of men of Engineer Volunteer corps is to be formed at Upnor, on the Medway, during the second week in July.

"A Volunteer" writes:—"'A Chaplain of Twenty-two Years' Standing' is evidently very ignorant of the duties of his Volunteer brethren. He alleged in his first letter that his only wish was 'to prevent these gentlemen making geese of themselves' by wearing a uniform which he himself pretended to despise; but his communication in your paper of May 19 conveys quite a different idea. He now objects 'to their assuming, according to individual caprice, the captain's, major's, or colonel's uniform of the chaplains of the Regular Army.' But what has this to do with the question whether Volunteer chaplains are not entitled to have a distinctive dress of their own?"

The following is the result of the two days' open competition for admission into the Scotch Eight for the year, and the honour of representing Scotland in the annual contest at Wimbledon for the Elcho Challenge Shield. Conditions—Fifteen shots each at 800, 900, and 1,000 yards. The weather was extremely unfavourable:—Major Young, 39th Middlesex (Metford), 386 points; Sergt. Ferguson, Inverness (Rigby), 385; Sergt. M'Isaac, 1st Bute (Ingram), 384; Martin Boyd, 1st Ayrshire (Ingram), 376; Capt. Phillipps, 26th Cameronians (Metford), 373; Lieut. Totter, 5th Leicester (Metford), 373; Private Luke, Queen's Edinburgh (Ingram), 369; Lieut. Johnstone, 105th Lanark (Ingram), 362; Lieut. Mitchell, 1st Cumberland (Metford), 360; and Capt. Thorburn, 1st Peebles (Rigby), 350. Major Young, who heads the list, being an Irishman, is, of course, not included in the Scotch Eight, and Capt. Phillipps is ineligible, being an Englishman. Lieut. Totter, also. The remaining seven have won places in the Scotch team for 1877, and the eighth place will probably be filled by Mr. Edward Ross.

THE INDIAN ARMY.

40th Bengal N.I. Surg.-Major H. F. Williams, M.D., has leave in India for twelve months.

3rd Goorkhas. Lieut. H. R. Mends, 60th Rifles, is transferred to the regiment as officiating wing officer, on probation, from the 9th Bengal N.I.

3rd Punjab Cavalry. Capt. R. B. Lockwood has been appointed an officiating depty.-assist. qrmr.-gen. on the Bengal establishment, and Surg. J. Duke, officiating in medical charge of the 2nd Infantry, has been appointed medical officer, vice Surg. O. T. Duke, M.B.

5th Punjab Infantry. Capt. C. Young is about to leave England for India, to rejoin from furlough.

5th Hyderabad Infantry. Major C. V. Conway-Gordon, Assist. Adjt.-Gen. Hyderabad Contingent, has been selected to officiate as commandant, vice Lieut.-Col. T. T. Turton, on furlough. Capt. J. J. Kennedy, officiating wing commander, officiates as assist. adjt.-gen. of the Hyderabad Contingent in his absence.

2nd Madras N.I. Col. W. Serres has been granted furlough to Europe for two years.

4th Madras N.I. Capt. J. H. M. Barnett is returning to India to resume duty from leave.

5th Madras N.I. Lieut.-Col. O. Morgan has arrived home on furlough.

9th Madras N.I. Lieut. M. E. H. O. Welch has been granted leave to Australia on medical certificate.

23rd Madras N.I. Capt. H. Porteous has been granted leave to England for one year and nineteen days.

34th Madras N.I. Major Q. S. A. Jamieson has arrived home on furlough. Capt. W. L. Ranking has applied for furlough to Europe.

4th Bombay N.I. Col. A. P. Chesshyre has arrived home on furlough.

6th Bombay N.I. Capt. E. R. Reay has arrived home on furlough.

9th Bombay N.I. Lieut.-Col. W. G. Hanson has arrived home on furlough.

18th Bombay N.I. Surg.-Major A. N. E. Riddell has been confirmed in his appointment as medical officer, vice Surg.-Major Blomfield, appointed civil surg., Rajkote.

24th Bombay N.I. Lieut. W. J. Morse has qualified for promotion, and his name will appear in an early *Gazette*.

COMMAND ALLOWANCES IN INDIA.

The following remarks on a subject constantly referred to by officers of the Indian Army are taken from the *Civil and Military Gazette*:—

Among the various anomalies that one meets with in comparing the work which officers are called upon to perform and the remuneration they receive for it there is perhaps none greater or which bears more unequally than the way in which officers are paid for commanding stations. If any foreigner, told that command allowance was given for some of our stations only, was asked to guess which of all our Indian stations he supposed were the ones selected, he would surely pitch upon those most exposed and requiring the greatest amount of vigilance and intelligence in its officer commanding, but he would be completely wrong; he would find that while officers commanding such stations as Dinapore, Benares, and Jhelum receive command allowance, those commanding the exposed and trying positions on the North-West Frontier receive nothing. If we look at the regulations on the subject we find that para. 61c of Volume I. of the Pay Code for India lays down four classes of stations for command allowances—1st Class, Rs. 400; 2nd, Rs. 300; 3rd, Rs. 250; and 4th, Rs. 200; and, on turning to para. 212 of the same book, we find such stations as Delhi and Cawnpore classified as 1st Class, Fyzabad as 2nd, Ferozepore, Hyderabad, some stations in Burmah, &c., as 3rd, and Benares, Dinapore, Nowshera, and Jhelum as the 4th. The whole of the Punjab and Sind Frontier stations are omitted, and yet surely the responsibilities of officers commanding them are infinitely greater than those of the officers commanding the favoured stations. On the North-West Frontier not only has the officer commanding one of these stations got the ordinary work to perform which would appertain to the officer commanding at such a station as Jhelum, but he has the control of a long line of frontier guarded by outposts, garrisoned by his troops, and conterminous with the territories of an enemy ever ready to seize the opportunity of anything like slackness to make his presence felt by raid, rapine, and murder. The duties this state of affairs entails are by no means light, even when our relations with the border tribes are *quasi* peaceful, but when the frontier requires to be altered and our neighbours grow excited, or when a rupture with them takes place, the responsibilities of the officers in command are enormously increased. An instance of the former contingency occurred on the Dera Ismail Khan Frontier in the winters of 1870-71 and 1871-72. It was considered necessary to push forward our line of defence with the view of better checking the raids of the Mahsud Waziris, and the officer commanding the station had to take his whole garrison, consisting of two Infantry regiments, one Cavalry regiment, and a battery of Artillery, into camp at the foot of the hills, and to remain there for nearly the whole of two winters, covering the erection of three new outposts, continually exposed to the probability of attack, and aware that Government would hold him culpable if a single life, whether soldier or camp follower, were lost. At the same time, at the neighbouring station of Edwardesabad, an instance of an actual rupture was taking place, and the Mohammad Khél, sub-section of the Ahmadzai Waziris, kept the troops at that station and the officer commanding them in a state of unceasing watchfulness from June, 1870, to Sept., 1871. Another case of rupture, extending over a year, has just come to an end at Kohat, with the Pass Afridis. The responsibilities and anxieties of the officers commanding these stations on occasions such as the two last mentioned are very great. The policy which forces upon them a passive defence, which utterly debars them from any retaliation in the country of the enemy, and yet deems it disgraceful to suffer the loss of a single life, makes their position more than unenviable, for these stations lie so near the hills that the enemy can with perfect impunity come down any night and commit any one of the numberless devilries which are open to him. And not only is it in the station itself that the commandant must exercise watchfulness—he has the outposts to relieve, provision, and support—every officer, man, or baggage animal sent away has to be escorted and protected, and the responsibility for all this lies on the shoulders of the officer commanding the station; and he is the one to be blamed if any harm occurs. And yet, for all his extra routine work, for all his anxiety, and for all his responsibility he absolutely receives nothing.

The Army Gazette.

WAR OFFICE, PALL-MALL, June 12, 1877.

Royal Artillery—For Lieut.-Gen. Sir G. Balfour, K.C.B. (late Madras), to be Col.-Com., vice Lieut.-Gen. J. W. Croggan (late Madras), deceased, dated May 4, 1877, as stated in the *Gazette* of May 29, 1877, read Major-Gen. G. W. Y. Simpson, (late Madras) to be Col.-Com., vice Lieut.-Gen. J. W. Croggan (late Madras), deceased; May 4, 1877. Capt. T. W. Roberts (late Madras) to be Major, vice M. H. C. B. Steinman (late Madras), who retires upon temporary half pay; May 24, 1877. Lieut. P. H. Bowen to be Capt., vice T. M. Hitchins, placed upon the Supy. List; April 26, 1877. Lieut. A. B. A. Cooper to be Capt., vice C. F. Dixon, placed upon the Supy. List; May 1, 1877. Lieut. H. Vaughan to be Capt., vice T. W. Roberts (late Madras), promoted; May 24, 1877. Lieut. A. Keene to be Lieut. upon the Supy. List; June 13, 1877.

INDIA OFFICE, June 11, 1877.

Her Majesty has been pleased to approve of the following promotions, alterations of rank, &c., among the officers of the Staff Corps and her Majesty's Indian Military Forces made by the Governments in India:—

BREVET.

To be Lieut.-Col.—Major B. R. Branfill, Bengal Cavalry, in succession to Gen. R. Hawkes, Bengal Cavalry, deceased; Dec. 19, 1876.

To be Majors—Capt. D. C. S. L. Carnegie, Bengal Cavalry, in succession to Gen. W. Prescott, Madras Infantry, deceased; Dec. 3, 1876. Capt. R. Morris, Bengal Cavalry, in succession to Major-Gen. D. Hodson, C.B., Madras S.C., deceased; Dec. 16, 1876. Capt. A. R. Kenney-Herbert, Madras Cavalry, in succession to Col. (borne as Major-Gen. on the Indian List) P. W. Luard, Bengal S.C., deceased; Dec. 22, 1876. Capt. W. Campbell, Bengal Infantry; March 4, 1877.

To be Capt.—Lieut. C. W. Walker, Madras S.C.; Jan. 31, 1877.

Lieut.-Col. G. A. Arbuthnot, Madras Cavalry, to rank from March 30, 1874, in succession to Col. (borne as Major-Gen. on the Indian List) A. Wyndham, Madras S.C., deceased.

Lieut.-Col. H. P. Sykes, Bombay Cavalry, to rank from April 3, 1874.

Lieut.-Col. W. J. Morris, Madras Cavalry, to rank from Nov. 26, 1875, in succession to Gen. A. Dick, Bengal Infantry, deceased.

Substantive Promotions.

BENGAL STAFF CORPS.

To be Lieut.-Col.—Major T. J. Watson; Feb. 20, 1877.

To be Majors—Capts. C. H. Ewart, W. E. Chambers, A. P. Palmer, and E. Beddy, Feb. 20, 1877; A. Ollivant, March 4, 1877; and L. C. de L. Daniell and H. I. Wheler, March 6, 1877.

To be Capts.—Lieuts. C. Egan and J. S. Biscoe; March 24, 1877.

BENGAL ARMY.

Infantry.

To be Cols.—Lieut.-Cols. (Brevet Cols.) D. S. Dodgson, C.B., and F. W. Baugh; March 12, 1877.

To be Lieut.-Cols.—Majors W. F. Bartleman and R. H. Inglis; March 12, 1877.

MADRAS STAFF CORPS.

To be Lieut.-Cols.—Majors T. Wakefield, Jan. 11, 1877; S. F. M. T. Grant, Jan. 20, 1877; H. S. Robinson, Jan. 20, 1877; W. M. Lane, Jan. 20, 1877; T. B. E. Tennant, Jan. 20, 1877; H. C. B. Barnett, Feb. 10, 1877; W. G. Ward, Feb. 10, 1877; and G. C. Hodding, Feb. 10, 1877.

To be Majors—Capts. M. Furlong, Jan. 4, 1877; G. A. Strover, Jan. 20, 1877; W. Vertue, Jan. 20, 1877; E. G. V. Holloway, Feb. 20, 1877; and W. O. Foord, Feb. 20, 1877.

BOMBAY STAFF CORPS.

To be Lieut.-Col.—Major P. H. Le Geyt; Feb. 20, 1877.

To be Majors—Capts. W. F. F. Waller, V.C., Feb. 20, 1877; C. P. Newport, March 4, 1877; C. Wodehouse, March 4, 1877, and W. H. Yates, March 4, 1877.

The names of the undermentioned officers should be as follows, and not as stated in the *London Gazettes* named:—*London Gazette*, May 18, 1875—Col. C. R. Blair, Bombay Infantry, should be Charles Renny Blair. *London Gazette*, Dec. 22, 1876—Capt. A. de C. Rennick, Bengal S.C., should be Albert de Claney Rennick. *London Gazette*, Dec. 22, 1876—Major A. K. J. C. Mackenzie, Bengal Cavalry, should be Alexander Kincaid Johnson Canning Mackenzie. *London Gazette*, Dec. 22, 1876—Lieut.-Col. G. V. Law, Madras S.C., should be George Vambrugh Law.

The date of the commission of the undermentioned officer should be as follows, and not as stated in the *London Gazette* named:—*London Gazette*, Dec. 22, 1876—Major H. P. Peacock; July 23, 1876.

REGIMENTAL DINNERS.

2nd Dragoon Guards dined at Willis's Rooms on the 6th inst. Present:—Major-Gen. Low, C.B., Col. Mansergh, Lieut.-Col. Steward; Majors Sneyd, Ruck-Keene, and Hull; Capts. Doyle, French, Greatorex, M'Cann, Ormsby, and O'Beirne; Messrs. Gould, Hoey, Egerton-Leigh, Spencer, Wollaston, Mackenzie, and Wiseman.

2nd Dragoons dined at Willis's Rooms on Thursday. Present:—Lieut.-Gen. Griffith; Major-Gen. Clarke; Cols. Nugent, Buchanan, Hibbert, and Sulivan; Majors Prendergast. and Miller; Capts. Welby, Sanderson, Scott, Sutherland, Prentis, Hozier, Farquhar, Donnithorne, and Black; Messrs. Arbuthnot, Doherty, Firmstone, Henry, Jex, Leader, Philips, Porteous, and Dr. Mullins.

Scots Guards dined on the 8th inst. at Willis's Rooms. Present:—H.R.H. the Duke of Cambridge, Col. Tyrwhitt, Earl of Dunmore, Gen. Sir W. Knollys, the Duke of Athole, the Earl of Listowel, Viscount Bridport, Viscount Coke, Col. Lord Abinger, Viscount Bury, Lord Churston; Gens. Sir W. Walker, Stephenson, and Dalrymple; Sir William Peel, Hon. E. Coke, Col. Hon. W. Coke, Gen. Hepburn, C.B., Gen. Sir F. Seymour; Cols. Hon. S. Jocelyn, Hon. C. Hay, Haygarth, Scott, Kingscote, Meyrick, Romilly, Jelf, Sharp, Clitheroe, Beresford, Barrington-Campbell, Campbell, Smith, Rous, and Francis Baring; Lieut.-Cols. Moncrieff, Peel, Mostyn, Gascoigne, Shelley, Green, Wilkinson, Wynne-Finch, Dugmore, Bagot, Hon. H. T. Fraser, and Tottenham; Major Cooper; Capts. Vivian, Fortescue, Montgomery, Scarlett, Hon. S. Jolliffe, Phipps, Drummond-Moray, and Elwes; Messrs. Wynne, Garden-Campbell, and Palk; and Drs. Bostock and Perry.

Coldstream Guards dined at the Pall-Mall Restaurant on Saturday. Present:—Col. Hon. P. Feilding, C.B.; the Marquis of Ailsa, Lord Dorchester, Lord Kensington, Hon. E. Digby, Hon. C. Cavendish, Sir W. Forbes, Sir G. Warrender; Gens. Lord Templetown and Sir W. Codrington; Cols. Goodlake, Armytage, Baring, Campbell, Lyon-Fremantle, Fitzroy, Blackett, Fremantle, Hon. E. Acheson, Burnand, Burdett, Buller, Bentinck, Clive, Lambton, Greenhill-Gardyne, Hall, Forbes, Reeve, Ramsden, Lord W. Seymour, Hon. E. Legge, and Smyth; Major Egerton, Capts. Hon. G. Bertie, Hon. E. Boscawen, Hon. H. Legge, Hon. N. Stapleton, Hon. H. Corry, Hon. R. Campbell, Hon. F. C. Howard, Herbert, Fortescue, Follett, Turquand, Moreton, Murray, Montgomery, and Wigram; Mr. S. Hall; Drs. Farquharson and Myers.

8th King's dined at Willis's Room's on Tuesday. Present:—Gen. Sir E. Greathed, K.C.B.; Cols. Malet, Webb, Robertson, and Drew; Majors M'Crea and Whitting; Capts. Williams, Crawley, Lowry, Liddon, Handy, Short, Fawkes, de Robeck, Batten, Stebbing, Jones, Bannatyne, Baillie, Palmer, Simkins, Skinner, Atcherley, Page, Bradford, Garnett, Ford; Messrs. Mellor, Garnett, Dr. Annesley; Messrs. Jocelyn, Ruck, Russell, Granger, Whalley, L. S. Mellor, Fletcher, Schletter, Banning, Ward, Harrison, Brereton, Maisey, Balfour, Taylor; Qrmr. Chadwick and Dr. Anderson. The string band of the regiment (2nd Batn.) was in attendance, and played during the dinner.

17th Regiment dined at the Albion on Monday. Present:—Gen. Gordon; Col. Earle; Majors King and Heighman; Capts. Watson, Braddle, Rolph, Buss, Gamble, Burr, Dwyer, Kerr, Crickett, and Gilbert.

19th Regiment dined at Willis's Rooms on Thursday. Present:—Sir L. Graham and Sir G. Clay; Major-Gen. Bright; Cols. Chippendall, Deane, Bates, Knight, Cooper, and Grimston; Majors Moffatt, Kirke, Hereford, Vigors, and Openshaw; Capts. Bennett, Biscoe, Kindersley, Macdonald, Hunt, Hackett, Uniacke, and Handley; Lieuts. Parkinson, Cameron, and Elrington; Messrs. Mathieson, Rogers, Spottiswoode, Vincent, Sharpe, Lair, Eden, McClintock, Charrington, Jameson, Bourton, and Phayre.

25th Regiment dined at Willis's Rooms on Wednesday. Present:—Cols. Priestley, Fane, Everett, Pultimore, and Hallowes; Majors Flazel, Scriven, and Dixon; Capts. Coulson, Coleridge, Collis, Coke, Lees, Hayward, Shirley, Konarski, Morgan, Vincent, Still, Burns, Battue, and Dick; and Surg.-Major Mackey.

31st Regiment dined at Willis's Rooms on Wednesday. Present:—Gen. Sir E. Lugard; Major-Gen. Spence; Cols. Noel, Serace-Dickins, Swettenham, and Hutton; Major Forbes; Capts. Bateman, Jebb, Crozier, and Lambert; Lieuts. Martin and Ward; Messrs. Gould, Stanier, Ward, and Martin.

35th Regiment dined at the Criterion on Monday. Present:—Gen. Renny; Col. Sir C. Russell, Bart.; Majors Vandeleur, Tedlie, and Browne; Capts. Grant, Pohle, Trimen, Caldecott, Parsons, and Addison; Lieuts. Stone, Cary, Courtenay, Hawthorn, and Oelrichs; and Surg.-Major N. Alcock.

36th Regiment dined at the Pall-Mall on Wednesday. Present:—Gens. Sir J. Hort, Haliday, and Jopp; Col.

Hunter; Majors Carr, Palmer, and Nugent; Capts. Ruddle, Biddle, Munro, Carew, Smart, Price, Lloyd, Webb, and Parsons; Lieuts. Smail, Harford, Rose, Telfer, and Clarke; Messrs. Ashton and Roberts.

54th Regiment dined at the Pall Mall Restaurant on Tuesday. Present—Gens. Michel, Moore, Smith, and Sir J. Floyd; Cols. Fane; Majors Floyd, Gammell, and Probart; Capts. Smart, Ibbetson, Loveridge, O'Brien, Everard, and Gosset; and Mr. Wingfield.

67th Regiment dined at Willis's Rooms on Monday. Present—Cols. Thomas, Pratt, Yonge, Miller, and Hague; Majors Morgan and Thompson; Capts. Cardew, Price, Poole, Jones, and Garfit; Messrs. Ramsay, White, and Dr. Blatherwick.

68th Light Infantry dined at Willis's Rooms on Wednesday. Present:—Gens. Lord W. Paulett, Hill, and Seymour; Cols. Morant, Lewis, and Shuttleworth; Majors Mason, Fitzroy, Grace, and Tucker; Capts. Vernon, Covey, Saunderson, Stevenson, Hood, Clayton, Cox, Harrison, Woolland, and Marx; Hon. H. Tollemache; Lieut. Tickell; Drs. Best and Codrington, and Mr. Maguire.

72nd Highlanders dined at Willis's Rooms on the 7th inst. Present:—Major-Gen. Payn; Cols. Sir A. Alison, Bart., Beresford, Burney, Feilden, Roche, Campbell, and Thellusson; Majors Cameron, Crombie, and Vesey; Capts. Vansittart, Adam, Baron, Basset, Campion, Irvine, Montague, Price, Fraser, and Pardoe; and Messrs. Barstow, Fergusson, Kane, Spens, Brown, Pakenham-Mahon, T. Winslow, and Dr. Mure.

85th Light Infantry dined at the Pall-Mall Restaurant on the 7th inst. Present:—Cols. Thompson and Gubbings; Major Rooper; Capts. Oldfield, Noyes, Wilson, Taylor, Ravenhill, Hon. E. A. H. A'Court, and Archdale; Messrs. Garnett, Hodgson, Avery Jebb, and Mytton; and Lieuts. Smythe and Spens.

88th Regiment dined at the Pall-Mall Restaurant on Tuesday. Present—Gens. Sir H. Shirley and Jeffreys; Cols. Henning, Stevens, and de Carteret; Major Macdonnell; Capts. Baynes, Belfield, Ernst, Gilby-King, Townshend, and Dew; Mr. Woodard and Dr. Jeffreys.

91st Highlanders dined at the Pall-Mall Restaurant on Wednesday. Present:—The Marquis of Lorne (in the chair), Gens. Crawford and Alison; Cols. Patteson and Kirk; Majors Grant and Battiscombe; Capts. Chater, Burke and Singcombe; Lieuts. Macdonald, Robbins, Wymer, Bishop-Culpeper, Draltby.

95th Regiment dined at Willis's Rooms on Wednesday. Present:—Gens. Brownrigg, Raines, and the Hon. F. A. Thesiger; Cols. Carmichael, Sargent, Hume, Vialls, and Wilkinson; Majors Crealock, Pearson, and Smythe; Capts. Thompson, Nicholas, Vallance, F. J. Taylor, G. C. Taylor, Morgan, Brooke, and Minchin; Lieuts. Bowles, St. John, and Thompson.

101st Fusiliers dined at the St. James' Restaurant on Friday last. Present:—Major-Gen. Salusbury; Cols. St. George, Battye, Morland, Wheeler, de Longueville, and Hunter; Majors Butler, Lambert, and Money; Capts. Daniel, Warner, Miles, Fortescue, and Pakenham; Messrs. Pope, Allen, Drewitt, and Jermyn, and Dr. Patori.

THE ORDNANCE STORE DEPARTMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—In your issue of February 17 I observed a statement headed "The Commissariat Department."

1. Thinking that notice would be taken of the inaccuracies therein by one of your many correspondents, I have hesitated until the present time to offer any observations thereon, and I only do so now lest it might be assumed by the committee sitting at the War Office that the correctness is tacitly acquiesced in by the Ordnance officers.

2. In the first place I deprecate the idea of stone-throwing in return. One object of this letter is to point out how unadvisable it is to draw comparison between the Commissariat and Ordnance Departments. The Ordnance officers had plenty of grievances of their own, besides those applicable to the officers of both departments. Such a "statement" as the one referred to is calculated to cause strife, and to defeat those objects which a union of feeling would secure.

3. This statement (see para. 1) seems to date the commencement of the Commissariat misfortunes from the abrogation of the '58 Warrant, *i.e.*, from the formation of the Control Department; let that, therefore, be the starting-point.

4. The Control emanated from the Strathnairn Committee, respecting which the Marquis of Hartington remarked in the House of Commons that "it carried the traces and the mind of one and the same man throughout." The correctness of this observation will be apparent by a letter at page 250 of the Strathnairn Report, from Sir W. Power to Capt. Galton, as follows:—"I am afraid if the heads of departments concerned were formed into a committee at the War Office, it would lead only to contention, as each one would naturally, and to a certain extent properly, feel himself the champion of his own department, and bound to do battle in its interest. The one Department of Control would swallow up all the rest."

5. Now couple this letter with Question 1,852 to Comy.-Gen. Drake:—"Do you think it would be a beneficial arrangement if the Commissariat could not only be enlarged and strengthened in itself, but could control other departments?" Then add the fact of a Commissariat officer for secretary, and, I think, it will be apparent what Control was intended to be—viz., the Commissariat was to be strengthened by absorbing, or rather by taking command of the Purveyor, Barrack, and Military Store Departments, also the Military Train Regiment.

6. You will thus see that if ever it was intended to create an Aaron's rod the Commissariat was to be one, to consume every other department.

7. It may not, therefore, be surprising that the Purveyor (an offshoot in duty from the Commissariat) did not think they should submissively be annihilated, while the Ordnance were of too ancient an origin to entertain the idea of quietly surrendering their prestige to a comparatively modern department.

8. The Barrack Department (an offshoot from the Ordnance) also, and naturally, expressed some ideas on the subject.

9. But in spite of all remonstrances Control was launched. A few prizes were given in the upper ranks, and then the channels for representing the grievances of the many were closed.

10. In my observations I desire to restrain myself to the detriment which accrued to my own department, and shall show you that the M. S. O., who were transferred to the Sub-Department of the Control, suffered loss and humiliation by the disadvantageous and unjust conditions forced upon them in their transfer.

11. The acceptance or otherwise of the '61 Warrant was optional with each Military Store officer (see circular letter from Sir Geo. Lewis, dated October 2, 1861). The acceptance, therefore, unquestionably conveyed a vested right—if such a right can be said to exist.

12. In a short time the working of the Military Store Warrant was found to be most unfavourable to the officers; and, worse still, even the vacancies in the respective ranks were not filled up (compare "Army Lists" March and Dec., 1869). But apart from the preceding, it became so apparent to the Medical Store officers at a much earlier stage that unless they were placed on a proper footing their then status would press most detrimentally on them at the amalgamation, that their case was brought before the House of Commons on June 6, 1867, when Sir John Pakington, after admitting that the Military Store officers had just cause for complaining of their grievances, so much so that their case had already been submitted to the Treasury, concluded with this observation—"I will promise that their grievances shall be fairly considered before they are amalgamated" (see the *Standard*, June 7, 1867).

13. To this promise I would append a remark of the present Secretary of State for War, when speaking of officers' grievances generally—"Keeping faith is better than anything else" (see ARMY AND NAVY GAZETTE, March 3, 1877).

14. Was the above promise fulfilled? Was one iota done to alleviate the grievances prior to the amalgamation? If not, let us see how the matter stood at the union of the departments.

15. How was this amalgamation made—by length of service, by experience, or by rate of pay? No. All these were ignored, and relative rank was the standard; this very relative rank being one of the grievances which had already been submitted to the Treasury for redress.

16. Was relative rank the basis, when the junction of the Military Store and Field Train Departments took place? Certainly not; but pay was. Then why should not the rate of pay or relative departmental position have been the basis whereby to assign the position on the Control? Your number of March 3, 1877, says:—"Taking the date of first commission for departmental standing (*i.e.*, length of service)." "Had that course been followed throughout the whole department, when it was formed in 1870, it is possible that the Control Department might have succeeded."

17. Look at the "Army Lists" prior to Control, and you will find the Field Train officers serving in positions junior to those they would be entitled to by their relative rank.

18. Now, let us see the justice of taking the relative rank of the Military Store officer as the standard for amalgamation.

19. A deputy assistant commissary-general just commissioned at 10s. per diem is posted as a deputy-commissary, and rises to 14s., or 1s. 6d. more than he could ever have attained as a deputy assistant commissary-general.

20. Now turn to the deputy-assistant superintendent of stores of, say, fifteen to twenty years' service (alas! there were many), with 10s. 6d. and 2s. 6d. charge. He is posted as an assistant-commissary, the rate of pay of which is 9s. It is true his actual pay was not immediately reduced, but a special regulation was made to take away the charge pay within five years (see Army Circular, 1870, clause 138, section 5).

21. To ascend the scale and take a case of a deputy-assistant commissary-general of five years' service and an assistant-superintendent with twenty to thirty years' service. The pay of the former is 12s. 6d., of the latter 16s. 6d., and in most cases 3s. 6d. charge pay. How did they relatively fare at the amalgamation? Why, the pay of the former was increased to 14s., while the latter was placed in the same rank, *i.e.*, a rate of pay 2s. 6d. less than he was actually receiving, irrespective of charge pay—the regulation to abolish which equally applied as in the former sentence.

22. The charge pay was abolished, but there devolved afterwards (see Control Warrant 42) a special extra pay for the senior officers of the sub-department in each command, and thus one who in reality had no charge took the pay, solely on account of relative rank, while another with a *responsibility of £100,000* or more (and who was of far longer service) received nothing, because he happened to be the junior in relative rank.

23. The following is a comparative statement of the pay according to relative rank under the old Warrants and the Control:—

Relative rank.		On appointment.	After five years' service.	Charge pay.	Total pay after five years.	Half pay.	Retired pay.	Compulsory retirement at the age of
		s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	Yrs.
Major	Military Store	20 0	24 0	5 0	29 0	12 0	18 0	60
	Commissariat	15 0	20 0	*5 0	20 0	10 0	15 0	55
	Control	18 6	22 0	*3 0	22 0	10 0	16 8	55
Captain	Military Store	13 6	16 6	3 6	20 0	8 3	12 3	60
	Commissariat	10 0	12 6	*2 6	12 6	6 3	9 4	55
	Control	11 6	14 0	*2 0	14 0	7 0	11 8	55

* In rare cases the officers had charge pay. The issue of charge pay to the Commissariat was exceptional, whereas to the Military Store it was almost universal, as the latter had the direct responsible charge of the department at stations.

24. In every instance the one department gained and the other lost.

25. With such a consolidation as the preceding, was it possible to expect any other than that a bitterly jealous feeling should prevail in the sub-department? But beyond this, when it came to the practicability of working a department so composed, is it to be supposed that the deputy-commissary, perhaps of very short service, would have the experience to enable him to control and direct the old Ordnance officer of fifteen to twenty years' service?

26. The Control Department was, in fact, "a house divided against itself."

27. I have pointed out that which is a decided gain in the pay of the Commissariat officers, but possibly they reaped some other advantages from Control.

28. By a Warrant of Oct. 24, 1858, Circ. 339 (conventionally known as the 1858 Warrant) commissaries-general did not retire until 65 years of age. This formerly long official life is now cancelled, and thus the opportunity of rising to the highest rank is open to many officers who could never but for the Control Warrant have attained to that rank.

29. But even pay and promotion are not the solitary advantages that have fallen to the Commissariat of late years. Let us look at the relative number of home and foreign stations.

The first "Army List," on the introduction of the 1858 Warrant, was,

	April, 1859.		By "Army List," March, 1877.
There were then ranking as captains and seniors.	At Home,	25	112
	Abroad,	123	42
	Not posted,	8	2
		156	156

30. It will thus be seen that as foreign stations have been abolished home stations have been inaugurated; otherwise, it is apparent that 112 officers are now required at home to perform the duties that were formerly done (in 1859) by twenty-five officers. But I might go to an anterior date, and ask how many Commissariat officers were there in England prior to the Crimean war?

31. About the year 1858, when the cash duties were transferred from the Ordnance to the Commissariat, there were certain Ordnance officers transferred to the latter department. I have never heard it alleged that the selection was made on account of special ability; in fact, the transfer was rather against the grain with those officers. Their former regrets must long since have vanished at being in a department where there is not a constant study to keep pace with the ever-changing *matériel* of war.

32. To put this in a telling light, would anyone of those officers like to return to his old department and the position that would have fallen to his lot had he remained therein?

33. I will now turn more particularly to a few paragraphs in the statement:—

34. No. 2.—"The superior grades of the Commissariat . . were converted into control appointments . . and thrown open . . to officers of the Military Store Department," thus implying, in the first place, that the Military Store officers had *no* superior grades; and, secondly, they had no right to incorporation in Control. How utterly incorrect that paragraph is needs not one word of comment.

35. No. 3, 4, 5, 6, 7.—I concur with, and they apply equally to the Ordnance as to the Commissariat, but to speak more in detail of Nos. 5 and 6.

36. No. 5. Titles.—This is a grievance because it is an insult. Why an officer in charge of hospital orderlies and nurses should be termed captain, or why a cash clerk, converted into a paymaster, should have a military title, and an officer commanding a company of soldiers should be designated a deputy commissary appears unintelligible. The latter title does not convey the signification of the position held.

37. Again take, for instance, a departmental officer whose breast is pretty well covered with medals and a regimental officer who has never seen service.

38. The former, it is apparent to anyone, is an officer who has served his country, but he is dubbed with the euphonious title of Mr., the appellation of any officer ranging in rank from a sub assistant-commissary up to a commissary-general. The absence of titular rank is injurious to the status of the officers, brought as they are into immediate contact with all branches of the Army and Navy. This absence of titular rank is alike unintelligible to the public.

39. The wording of Circular 825, May 1, 1863, is—"Such relative rank shall carry with it all precedence and advantages attaching to the military rank with which it corresponds." If, therefore, a departmental officer considers that titular rank is an advantage, has he not (in pursuance of this Circular) a right to use it?

40. Para. 6.—As regards the "strict educational test" for admission to the Service, if you compare Circular 689, of April 23, 1861, par. 9, and General Orders June 15, 1860, No. 754, you will find that admission to the Military Store Department was the more difficult of the two. Why, then, should the officers with the higher standard of education have been dealt with so unjustly? But on the subject of "test examinations," I might ask what was the standard required in pursuance of Circular 374, Jan. 10, 1859?

41. Respecting No. 8, though not any provision is made in the Commissariat Warrant for a commissary-general-in-chief to be at the War Office, thus far that has not made any difference to the department, as the late commissary-general has been appointed director of transports and supplies, and he is supported by an assistant-director of transports and supplies, an ex-Commissariat officer, also a deputy commissary-general.

42. Now, there is a like absence in the Ordnance Warrant as to the provision of a commissary-general-in-chief, but this is the difference of administering the two departments. Instead of making a commissary-general director of stores, actually a commissary-general who had been at the War Office for years (an officer of great experience and intimate knowledge of every officer and part of the Service) has been removed and replaced by a solitary assistant commissary-general, whose experience has been mainly gained at the Antipodes.

PAY AND PROMOTION.

43. Para. 1.—The first appearance of the Commissariat in the "Army List" after the promulgation of the 1858 Warrant is in April, 1859, and the numbers in the relative ranks are very different from those in the statement:—

Per Statement.	"Army List," April, 1859.	Estimates, 1859-60.
C.G., 3	3	3
D.C.G., 15	12	12
A.C.G., 60	58	58
D.A.C.G., 120	73	73

44. Every Commissariat officer must be perfectly aware that, consequent on the abolition of the department at numerous foreign stations, a large reduction of the numbers in all ranks must have taken place.

45. Paras. 5 and 6.—I have already dealt with this point. One question here might not be inappropriate:—Who agitated for Control? The Commissariat. Then why do they complain of it?

46. Para. 8.—The late Purveyors, Barrackmasters, and Military Train officers are now an integral part of the Commissariat, to which department it will be seen that, with 277 officers, only two ex-regimental officers are posted, whereas to the Ordnance, with 160 officers, four ex-Royal Artillery officers are appointed. This seems to be the rule in arithmetic termed "proportion inverse," and when it is

added that these four officers are younger than the majority of even the deputy-commissaries, it will be manifest that the former will absorb the four senior appointments, and thus effectually block promotion to the highest grade for many years—until 1895. All the ex-regimental officers should be made supernumerary.

47. But the undoubted reason that the ex-Royal Artillery officers were appointed to the Ordnance is that it was their proper department of the two—viz., the scientific officers to the scientific department. This proceeding is, however, a loss of £30,000 or more to the junior officers of the department.

48. Para. 10.—After the extracts I have quoted in paras. 12 and 13, I presume no Commissariat officer would assert that the M. S. O. received justice, much less favour, prior to, at, or subsequent to the formation of Control, and thus all the percentages as to their chances of promotion are founded on that which it must be admitted is a false basis.

49. A short summary of the difference of treatment meted out to the two departments is as follows:—The Commissariat gained increased rates of pay, according to relative rank (see para. 23); increased length of official life and allowances by five years to many officers (see para. 28); increased retired pay (see para. 23); more home stations. Formerly there were five officers abroad to one at home; now there are three at home to one abroad (see para. 29). The supernumerary officers are kept on full pay, although above the admitted wants of the department. The vacancies in the Supernumerary List are filled up (see "Army List," Dec., 1876).

50. On the other hand, what have the Ordnance officers suffered? Loss of pay according to relative rank, loss of charge pay, loss of official life and allowances for five years, and reduced retired pay (see para. 23). Vacancies in the Supernumerary List have been filled up. For example, see "Army List" for October, 1876. And last, though not least, the non-fulfilment of the promises made by Sir John Pakington in 1867, that their admitted grievances should be rectified (see para. 12).

51. It may be said that the Military Store Warrant of '61 is better than that of '57, also that the Control is better than that of '57. It may be so, or it may not. Under the '57 Warrant many officers would have risen to £850 per annum and allowances, with a retirement according to length of service. The officers of the sub-department, who have a like prospect under the present Warrant, are very, very few.

52. If Commissariat officers have a vested right to the provisions of the '58 Warrant, surely the Military Store officers also have a vested right (by a written agreement, see para. 11) in the '61 Warrant.

53. I must apologise for the length of this letter, but it would have been useless to attempt to point out inaccuracies without giving chapter and verse.

54. If any of the extracts are erroneous I am sure they will be observed. Should they be correct, the acknowledgment thereof might be noted at the same time. I have not dealt with the administrative ranks, but I am prepared to prove that the Commissariat officers thereof are, in many respects, in a better position than they were under the '58 Warrant.

55. Control has broken down. Why? Through internal dissatisfaction, mainly caused by the unjust mode of the amalgamation. Had the officers been dealt with in an equitable manner there would have been a strong, unanimous department.

56. The Commissariat complain of their grievances. Pray imagine what must be the feeling of depression caused by the grievances of ORDNANCE.

June 12, 1877.

INDIA.

The following officers were to have joined the classes for garrison instruction which were formed at Poona and Mhow yesterday, viz.:—The Poona class—Lieut. Adams, 2nd Foot; Lieut. Porter, 7th Foot; Capt. Karslake and Lieut. Mansfield, 83rd Foot; Lieuts. Hogg and Smith, 3rd Sind Horse; Brevet Major Beville, 5th Bombay N.I.; Capt. Hume, 11th Bombay N.I.; Capt. Becke, 21st Bombay N.I.; Capt. Stewart, 22nd Bombay N.I.; Capt. J. M. Heath, 26th Bombay N.I. The Mhow class—Lieut. Peyton, 3rd Hussars; Sub-Lieut. Mayne, 17th Foot; Capt. Spencer, 56th Foot; Lieut. Mayne, 3rd Bombay L.C.; Capt. Beville, 25th Bombay N.I.

Major C. R. Cock, Bengal S.C., has been appointed a brigade-major on the Bengal establishment, vice Major A. D. Butter, Bengal S.C.

Lieut. J. T. Bury, Royal Artillery, has been appointed aide-de-camp to Major-Gen. C. S. Primrose, C.S.I., commanding the Poona Division, with effect from April 14.

The *Ootacamund* paper says:—"All our military readers, and the numerous friends of our Commander-in-Chief, Sir N. Chamberlain, who are at present toiling in the plains amidst heat, dust, starvation, and pestilence, will be glad to learn that his Excellency's health is slowly and gradually but surely being restored by the delightful breezes and bracing air of the fine climate."

Among reports in India of the part Indian regiments might be called upon to take in the event of further war complications, it is said that full and detailed instructions had been received by the Government to send a force from India to occupy Egypt in the event of certain contingencies arising. It was thought that an army made up of picked regiments from each Presidency, under the command of Sir Neville Chamberlain, would be the most probable force.

The arrival in Bombay of Major-Gen. Schneider, C.B., Bombay Infantry, late Political Resident at Aden, is reported. He proceeded at once to Mhow to succeed Major-Gen. Montgomery, C.S.I., in charge of the division. A farewell address has been presented to Gen. Montgomery by the Parsee and other inhabitants of Mhow, and in reply the general spoke in highly eulogistic terms of Parsee loyalty.

The war between Russia and Turkey is said to have excited the Akhoond of Swat to preach the cause of Islam. A portion of the Afghan force at Lalpura has been moved nearer to the Khyber. The Ameer has been solicited by the Sultan to lend him help against Russia. The English would not approve of this step, as it might be made a pretext for the occupation of Cabul by Russia. The Ameer is represented as very uneasy, and massing troops in Candahar in apparent preparation for a British attack. Major Sandeman, however, who was on his way to Simla, contradicts this latter statement.

Col. J. Watson, V.C., C.B., Bombay S.C., succeeds permanently to the Political Agency at Gwalior, vacant by Col. Hutchinson's retirement.

THE NAVY AND THE BATH.

Rear-Admiral the Right Hon. Richard James, Lord Gilford, C.B., entered the Navy in 1845. In August, 1848, he was appointed midshipman to the Raleigh, Commodore Sir T. Herbert, on the South-East Coast of America, and in June, 1852, became mate in the Victoria and Albert, Capt. the Right Hon. Lord Adolphus FitzClarence, and in September following was promoted to the rank of lieut. On Dec. 17 of the same year he was appointed to the Imperieuse for service with the Channel Squadron, and was afterwards employed with the Western Squadron in the Baltic. In Sept., 1856, he was appointed to his old ship, the Raleigh, Commodore the Hon. Henry Keppel, C.B., and in Aug., 1857, was transferred as additional of the Calcutta, flagship of Rear-Admiral Sir Michael Seymour, K.C.B., on the same station. He was promoted to the rank of commander Feb. 26, 1858, and in the following month obtained command of the Hornet in the East Indies, and unfortunately lost the use of his left arm from a wound received at the taking of Canton, for which he received a pension. During the operations in China one of her crew was killed, and three officers and two men wounded. The Hornet returned to England and was paid off in July, 1859, and on the 22nd of that month Lord Gilford obtained post rank. His next appointment was in March, 1862, to the command of the Tribune, fitting for the Pacific, and returned with her to England, and was paid off in May, 1866. On June 24, 1868, he was appointed to the Hercules for service with the Channel Squadron, and remained until Dec., 1871, when he was appointed to the Asia, flagship at Portsmouth, where he continued until selected, early in 1874, to be one of the Lords Commissioners of the Admiralty, which post he still holds.

Captain John Bythesea, V.C., C.B, entered the Navy in 1841. He obtained his commission as lieutenant in 1849, and after serving in the East Indies, joined the Arrogant, and was employed in that ship from July, 1850, until March, 1855, when he obtained command of the Locust. On May 19, 1854, while engaged in examining the Channel near Feverminne, in the vicinity of Flango, the Arrogant and Hecla, which vessel was in company with her, were fired upon by a strong force of the enemy's troops posted behind a sandbank, whom a few broadsides, however, dispersed. On August 9, having ascertained that an aide-de-camp of the Emperor of Russia had landed on the Island of Wardo in charge of a mail and despatches for the Russian general, Lieutenant Bythesea obtained permission for himself and William Johnstone, a stoker, to proceed on shore with the view to intercept them, and, being disguised and well armed, they concealed themselves till the night of the 12th, when the mail bags were landed close to the spot where they lay secreted in the bushes. The mails were accompanied by a military escort, which passed close to them, and which, as soon as it was ascertained that the road was clear, took its departure. Availing themselves of this opportunity, Lieutenant Bythesea and the stoker attacked the five men in charge of the mail, took three of them prisoners, and brought them in their own boat on board the Arrogant. The despatches were carried to Gen. Baraguay D'Hilliers, who expressed himself in the highest terms of approval. Capt. Bythesea, who was afterwards at the fall of Bomarsund, and commanded the Locust at the bombardment of Sweaborg in Aug., 1855, was made commander May 10, 1856. He commanded the Cruiser on the East India and China, and on the South-East Coast of America Stations from March, 1858, until posted, May 15, 1861; from Feb. to Dec., 1862, was attached to Fisgard for special service; from April, 1863, to April, 1864, commanded the Archer, West Coast of Africa; from May, 1867, to May, 1871, commanded the Phœbe; and from Sept., 1871, to] May, 1872, commanded the Lord Clyde, which ship got on the rocks of Pantellaria. In April, 1874, he was appointed inspector of her Majesty's ships on the Indian Station. In the following July he was engaged in making an inspection of Bombay Harbour and naval works, and afterwards visited Poona, &c. Capt. Bythesea, who stands second on the list for promotion to flag rank, was awarded the Good Service Pension in Aug., 1876.

Capt. Arthur Wilmshurst, C.B., entered the Navy in 1832, and was mate of the Spartan on the North American and West India Station from 1841 to 1845, and on his return to England served successively at Portsmouth, Plymouth, and in the Channel, and was promoted to lieut. Dec. 30, 1845. He was lieut. of the Albatros in the East Indies from Nov., 1846, to the close of 1850, and of the Trafalgar in the Mediterranean and Black Sea Fleet from Aug., 1851, until advanced to commander, Nov., 1854. He commanded the Racehorse on the East India and China Station from May, 1857, to the spring of 1858, and was commander of the London in the Mediterranean from May, 1859, until promoted to post rank, July 9, 1861. In March, 1864, he was appointed to the Research, which he commanded until Sept., 1865, when he was appointed to the Prince Albert, where he remained until Dec., 1866. He commanded the Flora at Ascension as governor of the island, and was brought to court-martial in consequence of his proceedings after the wreck of the Bremencis, but was fully and honourably acquitted. He commanded the Valiant, Coastguard ship in the river Shannon, from May, 1870, until retired, Jan. 1, 1872. Capt. Wilmshurst has received a medal and two clasps and the Order of the Medjidie of the fifth class.

Captain William Gore Jones, C.B., entered the Navy in 1841, and on Dec. 8, 1847, was appointed mate in the Excellent at Portsmouth. On Nov. 13, 1848, he was appointed lieut. to the St. Vincent flagship by Rear-Admiral Sir C. Napier, K.C.B., and remained until paid off, April 19, 1849. On Sept. 28 following he was appointed to the Leander, Capt. S. C. Dacres, fitting for service at Lisbon. In Dec. following he was transferred to the Firebrand as her senior lieut., and on the death of that gallant and much-lamented officer, who fell while leading his men, took command, and was engaged in the attack and destruction of the stockaded battery at the Sulina mouth of the Danube, in July, 1854. Capt. Jones received his commission as commander Nov. 13, 1854, from the Firebrand, and on Oct. 9, 1856, was appointed an inspecting officer in the Coastguard, where he remained until Dec. 13, 1859, when he was appointed to the Scourge, in the Mediterranean, from which ship he was promoted to post rank, August 20, 1861. His next appointment was on Feb. 12, 1864, to the Princess Royal, fitting for the flag of Admiral George St. V. King, C.B., on the East India and China Station, and returned with her to England, and was paid off in August, 1867. He commanded the Impregnable, training ship for boys, from March 28, 1868, to Dec. 22, 1871. Captain Jones, who was awarded the Good Service Pension 6th September, 1871, has been employed as Naval *Attaché* to the British Embassy at Washington since July, 1873.

Captain George Augustus Brooker, C.B., entered the Navy in May, 1846, and served on particular service and in the Mediterranean previous to his promotion, June 11, 1852, to the rank of lieut., and on Aug. 21 of the last-named year was appointed to the Bittern, fitting for the East India and China Station. In Sept., 1855, he assisted at the capture or destruction in the Gulf of Leotung of twenty piratical junks, and on different occasions during the operations which resulted in this success he had charge of the Bittern's boats, and obtained especial mention for his gallant behaviour. He was further present on the 18th of the following month in a dashing affair in the harbour of Sheipoo, where another fleet of twenty-two vessels was annihilated by the Bittern. After the action, in which the latter vessel had her master mortally, and many severely, wounded, Lieut. Brooker landed with the Marines and small-arm men in pursuit of the enemy, who had retreated in great force a few miles over the hills into and around a joss-house, which was taken possession of, although situated in a well-defended position among trees and brushwood on the summit of an eminence which commanded all the approaches, and for his conduct was advanced to the rank of commander Jan. 9, 1856. He obtained command, Aug. 15, 1857, of the Inflexible, sloop, attached to the force on the Coast of China, and in Aug., 1858, again signalised himself by his conduct in partial command of the boats of a squadron at the destruction of a horde of pirates near the Island of Linting. He put the Inflexible out of commission in the spring of 1861, and in 1862 was for a short time agent on board a contract steam-vessel. He was posted April 15, 1862, and commanded the Wivern on particular service from Oct. 22, 1867, to Aug. 27, 1868, when he was transferred to the Scorpion, fitting for service at Bermuda, and was paid off early in 1870. On July 25, 1871, he obtained command of the Egmont, receiving-ship, at Rio de Janeiro, and was senior officer on the South-East Coast of America from July, 1871, to March, 1875.

Capt. William Horton, C.B., entered the Navy in 1832 and served as mate in the Talbot, and was present at the bombardment of St. Jean d'Acre in 1840. He was made lieut. in March, 1842, and served next in the Gorgon on the South American Station. In July, 1846, he was appointed to the Queen, and in October following was appointed to the Thetis in the Mediterranean and at Lisbon, and remained until 1850. On August, 9, 1851, he obtained command of the Shearwater, then fitting for the Mediterranean, and served with the Black Sea Fleet during the Russian war, and on Oct. 1, 1854, was transferred to the command of the Ardent, and on Aug. 18, 1855, was promoted to commander. He commanded the Curlew in the Mediterranean from Feb. 1, 1856, until paid off in 1858, and on April 15, 1862, was posted. Capt. Horton, who retired April 1, 1870, has received four medals and two clasps, is a Knight of the Legion of Honour and the Order of the Medjidie of the fifth class.

Capt. Henry William Hire, C.B., entered the Navy in 1830, passed his examination in 1836, and obtained his commission as lieutenant Sept. 15, 1841, when he was appointed to the Racehorse, on the North American Station, and returned home at the close of 1842. On Jan. 21, 1843, he was appointed to the Snake, in the Mediterranean. On Oct. 25, 1844, was transferred to the Bonetta, and on the 16th of the following month removed into the Hecla. On March 13, 1847, he was appointed, and on September following was transferred, to the Asia, fitting for the flag in the Pacific of Rear-Admiral Phipps Hornby. In 1847 he received the silver medal of the Royal Humane Society. On Dec. 16, 1851, he was appointed to the Fury, in the Mediterranean, and on Feb. 2, 1855, was promoted to the command of the Niger, also in the Mediterranean, and his commission was dated back to Nov. 27, 1854. His next appointment was March 31, 1859, to the command of the Urgent, on particular service, and shortly afterwards proceeded to the East India and China Station, and in Aug., 1860, had command of rocket-boats in the capture of the forts at the entrance of the Peiho. He continued in command of the Urgent until posted, June 23, 1862, and from April 20, 1863, until Jan. 4, 1867, commanded the Orontes. He became retired capt. Oct. 18, 1867, and granted a naval pension Feb. 5, 1869. He has received three medals and two clasps and the Order of the Medjidie of the fifth class.

Capt. Joseph Henry Marryat, C.B., entered the Navy in 1842, passed his examination in 1849, and was made lieut. in 1852. On March 1, 1853, he was appointed to the Phœnix, fitting for service with the Arctic Expedition, and on Sept. 13 following was transferred to the President, fitting for the flag of Rear-Admiral D. Price in the Pacific. On May 11, 1855, he was appointed to the command of the Cracker in the Mediterranean, and on Nov. 5, 1855, was promoted to commander. He commanded the Wrangler in the Mediterranean from May, 1856, until paid off in the spring of 1857, and on May 4, 1859, obtained command of the Intrepid, and was present at the landing of an armed force at Marsala on May 11, 1860, and returned to England and was paid off in the spring of 1862. He was posted on June 23 of the last-named year, and retired April 1, 1870. He has a medal, and is a Knight of the Legion of Honour of the Order of the Medjidie of the fifth class.

[The services of the remaining officers who were nominated to Companionship will appear next week.]

An Admiralty order has been issued for the machinery of ships in the First Division of the Reserve to be examined every three months. This order will necessitate the employment of a large number of artizans.

Sir John Hay gave notice that on Monday next he would ask the First Lord of the Admiralty whether he had received any information as to the reported attack by her Majesty's ship Shah on a Peruvian ironclad; and whether, in consequence, it was his intention to revert to the practice of stationing an ironclad in the Pacific.

THROAT IRRITATION.—The throat and windpipe are especially liable to inflammation, causing soreness and dryness, tickling and irritation, inducing cough and affecting the voice. For these symptoms use glycerine in the form of jujubes. Glycerine, in these agreeable confections, being in proximity to the glands at the moment they are excited by the act of sucking, becomes actively healing. Sold only in 6d. and 1s. boxes (by post for 14 stamps), labelled "JAMES EPPS and Co., Homœopathic Chemists, 48, Threadneedle Street, and 170 Piccadilly London."

OUTFITS FOR INDIA AND THE COLONIES.

DETAILED LISTS of the necessary Outfit, with prices, &c., for every Climate and Appointment will be forwarded on application to

COLT'S NEW GOVERNMENT ARMY REVOLVER.

After a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is made to take the 45-cal. regulation Service cartridge, and AMMUNITION FOR THEM MAY BE OBTAINED FROM THE STORES OF AN ARMY IN THE FIELD.—See General Orders, May, 1877.

Length of barrel 5½ inches and 7½ inches.

In the competitive trial at the Royal Arsenal, Woolwich, in 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

Army & Navy Gazette.

LONDON, SATURDAY, JUNE 16, 1877.

The interest which the telegraphic dispatches direct to the war in Asia Minor may soon revert to Europe. It is plain that the Russians are not going to lose time by starving out Kars if they can take it by force, and that the Grand Duke Michael is under orders to attack the works by the regular course of siege and assault, instead of following the example of Mouravieff. That excellent and humane officer, after the bloody and unsuccessful attacks on the place with which he began his operations, withdrew his troops and invested Kars so closely that the garrison and people were obliged to capitulate. The Grand Duke Michael may be forced to follow the precedent, whether he likes it or not. There is no probability of any diversion being made in sufficient strength to force the Russians to raise the siege if they begin to open regular approaches, and the fate of Kars is sealed unless Mukhtar Pasha can break through the investing army. We know nothing positive of the strength of the garrison, or of the efficiency of the defences and of the ordnance, of the nature and extent of the supplies, and of similar important matters, which would guide us in forming a judgment as to the time the place can hold out; but it is plain that if the Russians do not succeed in taking Kars in ninety days, they must abandon their attempt, as they can not maintain their troops in the field once the winter sets in. There is a great probability, however, that they will be in possession of the place before the middle of next month, because they have a very fine and efficient artillery, and the rifled field ordnance of to-day is more powerful than the siege trains of 1854-55. It is true that the Turks have rifled ordnance of the best construction, but we are told their stores of fixed ammunition are not very ample, and wild firing will soon exhaust their magazines. Still, one great repulse may affect the spirits of the belligerents so far as to render the issue of further assaults rather doubtful. Should the Russians gain Talmaz, their chances will be much bettered. Meantime Ahmed Mukhtar Pasha has entrenched himself in a position which is "believed to be unassailable." There can be no such position, for an army in position can always be attacked either by flank movements or by operations in its rear, no matter how strongly it may be entrenched, and it may be forced to fight by skilful combinations. The Turks outside Kars are described as facing the Russians in the open district of Alash Kird, and "an engagement was considered imminent." If it be so, the defeat of either party will produce immense results on the campaign of Asia Minor, and we are not disposed to think that the bravery of the Turks will suffice to atone for their many deficiencies. The march of Colonel Komaroff's column from Ardahan on June 1 to Penniek and Olti afforded another instance of the extraordinary powers possessed by the Russians of accomplishing great distances. The Cavalry covered 115 versts in thirty-six hours, and the Infantry were only twelve hours longer in doing the same march. Taking the verst roughly as six-tenths of a mile, the distance was sixty-nine miles. Erzeroum is still open, for yesterday's papers contained telegraphic news, dated June 13, addressed to Constantinople. The news from the Danube relates to very small operations, which mark the great movements on the left bank. We believe that when all is ready the Russian batteries will open a general fire from all their positions, and that they will cross wherever they succeed in silencing the Turkish batteries sufficiently to permit their Engineers to lay the pontoons. The Turks are compelled to waste a great deal of ammunition in firing on the enemy's working parties and works, and therefore we read of bombardments of Kalafat and Giurgevo. The Emperor, when last heard of, was at Plojesti fired with holy ardour for war—not for peace—and increase of appetite may grow by what it feeds on. It is very likely, indeed, that his Majesty will soon become as keen as old Suwaroff himself. Meanwhile, there are continual combats in Montenegro, where the Turks advance over their own dead, and the Montenegrins fight and lie with equal skill and energy. The Duga Pass is not taken, but it is plain that Prince Nicolas is nearly at the end of his tether, and that without some diversion or intervention Montenegro must surrender. It is, in fact, a great citadel with many outworks and a shifting garrison, but as the Turks advance they occupy posts and hem in the defenders, relieve the points which are attacked, and gradually approach the last stronghold. However, any success there will not compensate for losses in Bulgaria or Armenia.

H.R.H. the Field-Marshal Commanding-in-Chief will hold a levée at 1 o'clock on Tuesday next at the Horse Guards, Whitehall, the number being limited to 150.

Captain E. J. Lynch, 3rd Buffs, who passed from the Staff College in December last, has been selected as successor to Captain MacGregor, 29th Regiment, as Garrison Instructor of the Home District. He joined the Army August 5, 1864, and was promoted Captain May 13, 1874.

Deputy Surgeon-General S. Fasson, on the Half-Pay List, is about to be restored to full pay, and has been appointed to succeed Surgeon-General Macbeth, M.D., in medical charge at the Curragh Camp.

Major L. A. Hale, Royal Engineers, Instructor in Military History, Strategy, and Law at the School of Military Engineering, is likely to proceed to Turkey to watch the progress of the war. Major Hale is an officer eminently fitted for this special duty.

The Aldershot Division will be formed into an army corps for field operations on Monday week, as follows:—Cavalry Brigade—1st Life Guards (from Windsor), 1st Dragoons, 18th Hussars. 1st Division—1st Brigade, 3rd Battalion Grenadier Guards (from the Tower), 1st Battalion Coldstream Guards (from Chelsea), 90th Foot; 2nd Brigade 1st Battalion, 19th Foot, 61st Foot, 100th Foot; divisional troops, 20th Hussars, three battalions of Royal Artillery, one company of Royal Engineers, and 3rd Battalion 60th Rifles. 2nd Division—1st Brigade, 2nd Battalion 20th Foot, 58th Foot, 64th Foot; 2nd Brigade, 29th Foot (from Chatham), 86th Foot, 3rd Royal Middlesex Militia; divisional troops, 8th Hussars, three batteries of Royal Artillery, one company Royal Engineers, and 96th Foot. 3rd Division—1st Brigade, 2nd Battalion 2nd Foot, 2nd Battalion 8th Foot, 2nd Battalion 13th Foot. 2nd Brigade, 2nd Battalion 25th Foot (from Shorncliffe), 49th Foot (from Portsmouth), Royal Berks Militia; divisional troops, 17th Lancers, three batteries of Royal Artillery, one company Royal Engineers, and 86th Foot.

After the Aldershot drill season the regiments to quit the station will be, in addition to the Household troops, the 8th Hussars, 20th Hussars, 2nd Battalion 2nd Foot, 2nd Battalion 8th Foot, 2nd Battalion 13th Foot, 1st Battalion 19th Foot, 2nd Battalion 20th Foot, 58th Foot, 61st Foot, 64th Foot, 96th Foot, and 100th Foot. Among the regiments detached for service at the station through the winter may be named the 2nd Battalion 25th Foot, 26th Foot, 29th Foot, 31st Foot, 49th Foot, 3rd Battalion 60th Rifles, 76th Foot, 86th Foot, and 90th Foot.

Brevet Major A. B. Morgan, 19th Regiment, joins the Staff of the Manchester District as Garrison Instructor, vice Major J. H. Fawcett, half pay, late of the Royal Scots. Major Morgan, who passed out of the Staff College last December, served in the Hazara campaign in 1868, including the expedition against the Turks on the Black Mountains (medal with clasp). He entered the Army April 6, 1855, was promoted Captain January 9, 1863, and Brevet Major on April 15 last.

Major A. R. Lempriere, Royal Engineers, has been appointed Assistant Military Secretary to General Lord Napier of Magdala, G.C.B., G.C.S.I., at Gibraltar.

A Staff officer writing to us from Malta says:—"I saw lately in the columns of a contemporary a paragraph to the effect that a brigade from this station, consisting of the 42nd Highlanders, 71st Highland Light Infantry, and 101st Fusiliers, had been placed under orders of readiness to proceed to Constantinople, and that Colonel Macdonell, of the 71st, had been directed to embark in command. Let me assure you there never has been the slightest foundation for the statement. Even had a brigade been required for service in Turkey, the command would not have devolved upon Colonel Macdonell, who is a comparatively junior Colonel, though an excellent soldier."

Captain R. H. L. Anstruther, Rifle Brigade, has been appointed to succeed Captain A. R. Savile, 18th Royal Irish, as Garrison Instructor at Dover. Captain Anstruther served in the Indian mutiny (medal). He joined the Army June 25, 1858; passed from the Staff College in December, 1870; became Captain, August 3, 1872; and held the Adjutancy of the 2nd Administrative Battalion Suffolk Rifle Volunteers from October 4, 1871, until the beginning of the present year.

Lord Eustace Cecil, Surveyor-General of the Ordnance, visited Woolwich Arsenal and Dockyard on Wednesday. Major-General Campbell, the Director of Artillery and Stores, and Commissary-General Gordon were in attendance.

That a portion of the standard of the 8th Cuirassiers should, after a lapse of seven years and singular vicissitudes, have returned to the regiment, despite that *coquin* who actually wore it as a neckerchief, is almost miraculous. The heroes of Frœschwiller are to be congratulated. So, also, is the Mademoiselle Dodu, Directress of the Telegraph Department at Enghien, who, we are told, succeeded in bewitching the telegraph entirely out of German control in November, 1870, and who, after a period of seven years, has at length been decorated by the Republic with the military medal. Some may remark on the singularity of the discovery and of the decoration at this critical period.

Captain K. D. Murray, 89th Regiment, has been appointed Garrison Instructor at Dublin, vice Major Duncan, 102nd Fusiliers, who has vacated the appointment on promotion. He entered the Army September 4, 1860; became Captain, June 30, 1869; and passed from the Staff College on December 18 last.

Fifty years ago one of his Majesty's Cavalry regiments was on the march in the West of England, and its route lay through the ancient city of Bristol. The band, as is usual on such occasions, began to play, and led off with what was then a very popular air, "Buy a Broom"; but its strains appeared to produce a singular effect on the populace, who saluted the regiment with a shower of brickbats, its commander getting his men out of the precincts of the city as fast as he could. This somewhat striking incident was afterwards explained: the inhabitants of Bristol had taken, or rather mistaken, the plaintive air as referring to the cleanliness, or want of cleanliness, of their city.

Assistant Commissary-General H. H. R. Hewett, lately in charge of the Ordnance Store Service in the Cork District, was to have embarked on Tuesday last for Halifax, N.S., but was unable to leave England in consequence of illness.

Captain F. N. Woodall, 74th Highlanders, has been appointed Local Inspector of Army Schools at Malta, vice Captain C. H. Boileau, 61st Regiment, vacated his appointment on return to regimental duty from the Staff of the district.

The fiat will shortly go forth for further reductions to be made in the establishment of Militia regiments, the 4th and 5th Royal Middlesex and 1st and 2nd Warwick being noted for reduction by two companies a-piece—from ten to eight. As a slight set-off, the Royal Montgomery Rifles are getting two additional companies.

There seems to be an impression that the scheme for the formation of a Department of Army Accountants meets with disfavour at the Horse Guards, but there is not and never has been the slightest reason for such impression, the military authorities rather favouring than otherwise the idea, they being only too anxious to find some definite understanding arrived at and some permanent system established.

The head-quarters of the Veterinary Department, hitherto at Woolwich, have been removed to London and established at 109, Victoria-street, where the Principal Veterinary-Surgeon will in future conduct his official business. The growth of the Veterinary Service has rendered the change most necessary, and much of the inconvenience so long complained of by Veterinary officers will now be averted.

The officers of the new Line regiments are at length taking steps for forcing their grievances upon the attention of the War and India Offices, for they see that if the present opportunity is allowed to pass they will stand a very poor chance of being heard. The recent Royal Commission was unable to take notice of their case, and they are in the anomalous position of a body without a head, for they seem to have no one at all to plead their cause in Parliament, though it is known that the highest military authority is fully mindful of the gloomy nature of their prospects, and would help them if he could.

The Navy.

GAZETTE.

Admiralty, June 8, 1877.

In accordance with the provisions of H.M.'s Order in Council of April 30, 1877, Engineer Robert Bruce Nicolson has been placed on the Retired List of his rank from the 30th ult.

June 8.

In accordance with the provisions of her Majesty's Order in Council of April 30, 1877,—Engineer William Todner has been placed on the Retired List of his rank from April 27 last.

June 12.

In accordance with the provisions of her Majesty's Order in Council of April 30, 1877,—Engineer James Hindley has been placed on the Retired List of his rank from the 13th ultimo.

June 13.

In accordance with the provisions of her Majesty's Order in Council of April 30, 1877, the undermentioned Engineers have been placed on the Retired List from the 8th instant:—Mr. James McGlashan and Mr. John James White.

June 14.

In accordance with the provisions of her Majesty's Order in Council of Feb. 22, 1870, Nav.-Lieut. Thomas Henry Flood has been placed on the Retired List of his rank from the 12th instant.

APPOINTMENTS.

Commander—William M. Lang, to the Magpie, vice Charles V. Anson, invalided.

Lieutenants—Edmund G. Festing, to the Coquette, vice Evelyn Shirley, promoted; W. R. Clutterbuck, to the Royal Adelaide; Arthur A. C. Galloway, to the Alexandra; and George Langford, to the Black Prince; James W. Burder, to the Teazer; Charles J. Barlow and Lionel H. Morris, to the Flamingo; Harry F. J. Wyatt, to the Orontes; George Izat, to the Asia; H. N. Alleyne, to the Iron Duke; Claud Harding, to the Active; H. T. J. Robilliard, to the Lord Warden, additional, for service in the Tyrian.

Staff-Commander—John Palmer, to the Asia, additional.

Navigating-Lieutenant—James Henderson, to the Ruby, when commissioned.

Navigating Sub-Lieutenant—Arthur R. P. Bowden, to the Ruby, when commissioned.

Staff Surgeons—Dr. Henry C. Woods, to the Research; Dr. Thomas Browne, to the Royal Adelaide; Stephen Sweetman, to the Ruby.

Surgeons—Miles O'C. M'Swiney, to the Ruby; John Jennings, to the Pembroke, additional.

Paymaster—Henry J. Ray, to the Ruby.

Chief Engineer—Edward Eckersley, to the Ruby.

Engineers—R. Phillips, to the Thunderer; George White, to the Asia, additional; Richard Irwin and William Broad, to the Ruby; and George Whitting, to the Indus, additional.

COASTGUARD PROMOTION.

Mr. George Perry to be Chief Officer at West Mersey Station, Harwich District.

Achilles, Capt. Sir W. N. W. Hewett, K.C.B., V.C., left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday.

Amethyst, Capt. A. J. Chatfield, was at Coquimbo on April 22. She will proceed shortly to Callao.

Argus, Com. R. Harris, left Bermuda on May 19 for Halifax.

Bellerophon, Capt. J. A. Fisher, flagship of Vice-Admiral Sir A. C. Key, was at Bermuda up to May 26. The Admiral would leave Bermuda about June 5 in the Bellerophon for Halifax.

Bittern, Com. G. J. Anstruther, at Malta, was to be ready for sea to-day.

Black Prince, Capt. E. H. Howard, flagship of Rear-Admiral W. M. Dowell, C.B., left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday.

Boxer, Com. A. H. Alington, was to leave the Dahomey Coast about May 15 for Cape Coast, the blockade having been raised.

Cygnet, Lieut.-Com. R. F. Hammick, was to leave the Dahomey Coast about May 15 for Cape Coast, the blockade having been raised.

Daring, Lieut.-Com. J. E. Miller, was at Mazatlan on March 14.

Defence, Capt. R. P. Cator, left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday.

Dryad, Com. J. E. Stokes, was to leave Bermuda about May 30 for Jamaica, under sail.

Egeria, Com. A. L. Douglas, was to leave Yokohama on April 14 for Petropaulovski, the Modeste being required at Hong Kong by May 6 to meet the Tamar.

Elk, Com. A. Tupman, arrived at Lisbon on June 4, on her way to Madeira and Brazil.

Fantome, Com. T. M. Maquay, is to be ordered to Esquimalt.

Growler, Com. C. E. D. Wilcox, was at Singapore on April 27.

Iron Duke, Capt. C. J. Rowley, arrived in Plymouth Sound on Monday morning. Her stores, &c., are to be got out preparatory to her proceeding to Messrs Laird's, at Birkenhead, to receive new boilers and undergo general repairs to engines. As soon as she is ready the Shannon, now fitting out at Keyham, will take the Iron Duke's place at Kingstown.

Juno, Capt. A. J. Poland, was at Singapore on April 27.

Kestrel, Com. C. B. Theobald, was off Sunday Island on March 23.

Lapwing, Com. Sir W. Wiseman, Bart., left Nagasaki on April 9 for Tientsin. The court-martial with reference to the stranding of the Lapwing has been held on board the Audacious at Nagasaki. The court was composed of Capts. Buller, of the Modeste; Colomb, of the Audacious; Com. Douglas, of the Egeria; Acting-Com. Castle, and Lieut. Garbett. The court severely reprimanded the navigating-lieut., and reprimanded the gunner whose watch it was.

Lord Warden, Capt. the Hon. E. R. Fremantle, C.B., left Plymouth on Saturday afternoon for Queenstown. A serious accident occurred on Friday, the 8th inst., on board the Lord Warden, a boy named Henry Adams falling from the mizzen-top to the lower rigging, and thence overboard. The occurrence was observed by Capt. the Hon. E. R. Freemantle, who was on deck, and who at once jumped overboard to the rescue. A boat was lowered, and when Adams was picked up it was found that his left arm was broken, and that he had received severe contusions on both thighs and on his head. In heaving up her anchor in Plymouth Sound on Saturday, it broke just under under the stock. On Monday the portion that remained in the ground was recovered by a party of riggers and a diver from Devonport Dockyard.

Mallard, Lieut.-Com. Warry, was to leave the Dahomey Coast about May 15 for Cape Coast, the blockade having been raised.

Minotaur, Capt. Lord W. T. Kerr, flagship of Vice-Admiral Sir Beauchamp Seymour, K.C.B., left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday.

Monarch, Capt. M. Culme-Seymour, arrived at Spithead on Wednesday evening from the Mediterranean Station. She proceeds to Sheerness to be paid off.

Narcissus has been thoroughly examined internally, and had boilers surveyed and tested, and has been reported as unfit for active service, but with slight repair would be capable of several years' Coastguard service. She will therefore be ordered to relieve an ironclad vessel now doing Coastguard duty.

Nymphe, Capt. S. P. Townshend, was at Northampton, Western Australia, on March 23, on which day she embarked the Governor of the colony, and left for Freemantle. She was to leave Freemantle on April 5 for the Lacepede Islands, whence she would proceed to Port Adelaide direct.

Orontes, Capt. Edward H. Seymour, was taken out of dock at Portsmouth on Monday, and placed alongside the Watering Island jetty. She proceeded to Kingstown on Thursday to embark troops for the Cape.

Orwell, Lieut.-Com. R. H. Cornwall, left Sheerness on the 9th inst. for Queenstown.

Osborne, Com. H. L. Pearson, arrived at Portsmouth on Monday from the Mediterranean, and went into harbour. He has forwarded a report to the Admiralty respecting a sea monster encountered during the homeward voyage. According to published accounts, it was about 5 o'clock in the afternoon of the 2nd inst., when the sea was very calm, the yacht was proceeding round the north coast of Sicily, towards Cape Vito, that the officer on watch observed a long ridge of fins, each about six feet in length, moving slowly along. He called for a telescope, and was at once joined by other officers. The Osborne was steaming westward at 10½ knots an hour, and, having a long passage before her, he did not stay to make minute observations. The fins were progressing in an eastwardly direction, and, as the vessel more nearly approached them, they were replaced by the foremost part of a gigantic sea monster. Its skin was, as far as could be seen, altogether devoid of scales, appearing rather to resemble, in sleekness, that of a seal. The head was bullet-shaped, with an elongated termination, was somewhat smaller in form than that of a seal and was about six feet in diameter. Its features were seen by only one officer, who described them as like those of an alligator. The neck was comparatively narrow, but so much of the body as could be seen developed in form like that of a gigantic turtle, and from each side extended two fins, about fifteen feet in length, by which it paddled itself along, after the fashion of a turtle. The appearance of the monster is accounted for by a sub-marine volcano which occurred north of Galata, in the Gulf of Tunis, about the middle of May, and was reported at the time by a steamer, which was struck by a detached fragment of submarine rock. The disturbance below water might, it is thought probable, have driven up the monster, as the site of the eruption is only 100 miles from where it was reported to have been seen.

Porcupine, Staff-Com. John Parsons, arrived at Sheerness on the 12th inst.

Repulse, Acting-Capt. F. S. Vander Meulen, was paid off at Portsmouth on the 12th inst.,

Resistance, Capt. S. Douglas, left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday.

Rover, Capt. T. Barnardiston, was at St. Jago on May 14.

Ruby, Capt. Molyneux, was commissioned at Sheerness on Thursday.

Seagull, Com. Maxwell Heron, was to leave the Dahomey Coast about May 15 for Cape Coast, the blackade having been raised.

Shannon is to take the place of the Iron Duke at Kingstown. The leak in the bow of this ship having "taken up," it has been decided not to dock her for further examination until she is commissioned, when she will be docked for the usual official survey.

Shah, Capt. F. G. D. Bedford, flagship of Rear-Admiral de Horsey, was at Callao on May 13. The Admiral arrived at Callao from Caldera on May 7.

Simoom, Capt. R. G. S. Pasley, was taken into the north basin at Keyham on Monday to have defects made good. Should there be sufficient time, she will be docked for the purpose of having the bottom cleaned and recoated.

Sirius, Capt. G. L. Sulivan, was to leave the Dahomey Coast about May 15 for Cape Coast, the blockade having been raised.

Sultan, Capt. H.R.H. the Duke of Edinburgh. On May 25 Mr. W. Rees, gunner, was sitting in the mess berth alone when he called the servant to fetch him a cup of cocoa, who on returning almost immediately found Mr. Rees in a sitting posture with his body stretched over the table quite dead. A post-mortem examination proved the cause of death to be diseased heart. He was buried at Athens with full naval honours, Capt. H.R.H. the Duke of Edinburgh and all the officers being in attendance. Mr. Rees was much respected on board the ship.

Tamar, Capt. W. H. Liddell, arrived at Singapore on April 27, and would leave next day for Hong Kong.

Thetis, Capt. T. Le Hunte Ward, was paid off at Devonport on Thursday.

Thunderer, Capt. J. C. Wilson, left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday. The Thunderer has had the new "director" fitted to her turrets. Capt. Richards, of the Devastation, perceived the necessity of a contrivance as a guide to the lieutenant inside the turret when laying the guns, and Mr. F. J. Newton, the late chief engineer of the ship, designed and applied the new director, which will be fitted to all our turret vessels. The director, which is placed inside the turret, facing the officer in charge, consists of a fixed dial, upon which a revolving pointer indicates the angle between the centre line of the turret and the middle line of the ship. By these means not only is the laying of the gun facilitated, but, as the danger points are marked on the dial, the officer in charge, on receiving an order to lay the turret, can immediately rotate it into the required position without being under the necessity of consulting the outside director. Before Mr. Newton's invention the latter was the only guide, and the order had to be passed through a voice pipe in the turret to a man watching the fixed pointer on the lower outside base of the same. As little or nothing could be ascertained from the inside, the gunner was obliged to trust to the vigilance of the blue-jacket outside to report by the word "stop" the moment the turret had been turned to the required angle; and it not unfrequently happened that by the time the word had been passed the turret had travelled ten or twelve degrees in advance of the position required, and had to be moved back. The adoption of the new director gives the officer in charge of the guns increased confidence, for while using the lever he sees the turret slowly advancing to the position wanted, and can stop or rotate it as he wishes.

Tourmaline, Commodore F. W. Sullivan, C.B., was to leave the Dahomey Coast about May 15 for Cape Coast, the blockade having been raised.

Tyrian, Lieut. J. L. Heane, arrived at Sheerness on the 10th inst.

Urgent, Com. R. H. Boyle, arrived at Madeira on the 11th inst., all well.

Valiant, Capt. W. S. Brown, left Plymouth on Saturday afternoon for Queenstown, where she arrived on Thursday.

Vigilant, Lieut.-Com. Ryder, flying the flag of Vice-Admiral Ryder, was at Yokohama up to April 10.

Volage, Capt. H. Fairfax, was to leave Monte Video on June 11 for Rio Janeiro.

Wye, Staff-Com. W. W. Vine, arrived at Plymouth on the 11th inst.

Zephyr, Lieut.-Com. W. G. Le Cocq, left Nassau on May 10, and arrived at Bermuda on May 22; she would sail for St. John's, Newfoundland, on fishery duties, to be employed under the captain of the Eclipse.

SIR WILLIAM SMART.

We regret that our efforts last week to record the services of the above-named officer failed to give satisfaction, and we therefore readily comply with that officer's request to insert the following statement with which he has kindly furnished us:—

Inspector-General Sir William Smart, K.C.B., entered the Navy in 1841, on an appointment as supernumerary to the flagship in the first China war; and, being sent to H.M.S. Cruiser, served in her from 1841 to 1843. Next in H.M.S. Sappho, he served on the Cape and East African Station, 1843, and returning home from her in 1846, was appointed to H.M.S. Trafalgar on Channel and Mediterranean service, and was selected from her to join the flagship of Sir William Parker, where he received promotion to the rank of surgeon in 1850 for services during a severe visitation of cholera. From 1851 to 1853 he was surgeon of the Spitfire, surveying-vessel in the Levant, and from 1853 to 1857 of the Diamond frigate, in which he had charge of the hospital of the Naval Brigade in the Crimea throughout the siege of Sebastopol. On the Diamond being paid off he was sent, as Staff-surgeon, to take charge of the wounded in the second China war, on board the hospital-ships Hercules and Melville, commanded by Deputy Inspector-General Burns, and, both receiving promotion for their services, Deputy Inspector-General Smart was placed in charge of the hospital. Between 1860 and 1864 he was Chief of the Naval Hospital at Bermuda, the head-quarters of a large fleet during the United States' civil war and the combined French and English expedition to Mexico. After this important service he was removed to Greenwich Hospital, in which he served as Deputy Inspector-General and Inspector-General from 1864 to 1869, when that naval establishment was abolished. In 1873 he received his present appointment as Superintending Inspector-General of Haslar. Promoted successively to ranks of Surgeon, Staff-Surgeon, and Deputy Inspector-General, for special services, Sir William Smart has also received the following marks of approval:—In 1856 Sir Gilbert Blane Medal; 1857, Knight of the Legion of Honour; 1864, Testimonial from French Government; 1867, Companionship of the Bath; 1876, Honorary Physician to the Queen; 1877, K.C.B.

At the seventeenth annual general meeting of the subscribers and friends of the Royal Naval Scripture Readers' Society, held at the committee-room, 4, Trafalgar-square, W.C., on Wednesday, June 13, 1877, Admiral Sir Leopold M'Clintock, F.R.S., in the chair, it was stated that the committee commenced last year with an addition of two readers to their staff, hoping that by increased exertions on the part of the friends of the society their income would be increased in proportion to the additional expenditure; but it has proved otherwise, and although the subscription list shows a small increase, they will have to fall back upon the reserve fund. With their present staff of readers, an increase of nearly £500 a-year is required; and the committee earnestly appeal to the nation at large to contribute that small sum to enable them to bring the glorious tidings of the blessed Gospel to those who ere long may be called upon to meet death face to face for the honour of the nation and the safety of those who live quietly at home. Surely the committee are not asking much when they appeal to English merchants, who look to the Royal Navy to protect their commerce, as well as to those who have it in their power to give, to raise the income of the society to £2,000 a-year for the laudable purpose of providing a sufficient staff of readers for her Majesty's Navy. Valuable and most gratifying testimony has been received from chaplains and seamen and Marines as to the work done.

The industrial ship Mount Edgcumbe, Capt. Knevitt, R.N., originally H.M.S. Winchester, then the Conway training-ship at Liverpool for the Mercantile Marine, and since transferred by the Admiralty to Devonport to be fitted as an industrial ship for boys for the counties of Devon and Cornwall, having been completed in the Devonport Dockyard, was towed to her moorings above the Royal Albert Bridge at Saltash on the 13th inst. The ship is to be supported by subscriptions and worked by a committee, of which the Earl of Mount Edgcumbe is the chairman. His lordship and a large party, including the Hon. George Edgcumbe, Admiral Willes, C.B., Capt. Edge, R.N., Sir Samuel Baker, and others, were on board; and congratulatory speeches were made by the Earl, the Mayors of Plymouth and Devonport, and Sir S. Baker, on the success of the undertaking.

ENGINEERS, R.N.

We have received for publication the following Fleet Circular, No. 18, of June 4, 1877, respecting the alteration made as to pay, &c., of Engineer officers of the Royal Navy :—

Her Majesty, by her Orders in Council of April 30, 1877, having authorised certain alterations as regards the Engineer officers of the Royal Navy, my Lords Commissioners of the Admiralty, in pursuance of the above authority, have been pleased to sanction the following changes.

I.—As Relates to Chief Inspectors of Machinery.

Number to remain as at present, but their full pay to be increased from £1 5s. to £1 12s. a-day, their half pay from 16s. to 18s. a-day, and the maximum of their retired pay to be also increased from £450 as at present to £500 a-year. All confirmed junior service from the age of twenty to count for retired pay according to the scale given in your Majesty's Order in Council of Feb. 22, 1870.

II.—As Relates to Inspectors of Machinery.

1. Number of inspectors of machinery to be increased from five to seven. Their full pay to be increased from £1 5s. to £1 8s. a-day. (The three officers holding the appointments of inspectors of machinery in the reserves to receive as heretofore an additional 3s. a-day, whether they be chief inspectors or inspectors of machinery.) 2. Their half pay to be increased from 16s. to 17s. a-day, and all confirmed junior service from the age of twenty to count for retired pay according to the scale given in your Majesty's Order in Council of Feb. 22, 1870.

III.—As Relates to Chief Engineers.

1. Number to be increased from 170 to 220. Their full pay to be increased according to the following scale :—Under 5 years' service (including junior service allowed) from 12s. to 13s. a-day.; under 8 ditto, from 13s. to 14s. a-day; under 11 ditto, from 14s. to 15s. a-day; under 14 ditto, from 15s. to 16s. a-day; under 17 ditto, from 16s. to 17s. a-day; under 20 ditto, from 17s. to 18s. a-day; above 20 ditto, from 18s. to 19s. a-day; and for each additional year of service of 1s. a-day more until the maximum £1 2s. is reached. Their half pay to be the same as heretofore, with the exception of officers under five years' service, whose half pay will be increased from 6s. to 6s. 6d. a-day.

2. No chief engineer to receive less retired pay than he would have been entitled to if he had continued to be engineer up to the date of his retirement.

3. Chief engineers who retire after thirty years' meritorious service on full pay may, at the discretion of the Admiralty, be granted the rank of inspector of machinery.

4. Chief engineers to be allowed to count all confirmed junior service from the age of twenty for retired pay, and for full pay and half pay according to the scale given in your Majesty's Order in Council of Feb. 22, 1870.

IV.—As Relates to Engineers.

1. Their full pay to be increased after three years' service as engineer from 9s. to 10s. a-day, and after six years' service as engineer from 10s. to 11s. a-day.

2. The senior engineer in ships with engines of 3,000 indicated horse power and upwards to have an additional 1s. a-day.

3. Their half pay to be increased by 6d. a-day after three years' service.

4. To be retired at the age of 45, or at any age if they have not served for five years or have been found physically unfit for service. To be granted retired pay on the following scale :—Engineers qualified for promotion—For each year's service on full pay, £7 10s.; for each year's service on half pay, £3 15s.; maximum to be £150. Engineers not qualified for promotion—For each year's service on full pay, £6 10s.; for each year's service on half pay, £3 5s.; maximum to be £130.

5. Time of assistant-engineers on probation not covered by commission not to count for retired pay.

6. Engineers with a total of 20 years' service on full pay may, at the discretion of the Admiralty, be granted upon retiring the rank of chief engineer, provided they are qualified for promotion and have served creditably.

V.—As Relates to Assistant-Engineers.

1. The present ranks of first and second class assistant-engineers to be merged and styled assistant-engineers.

2. After four years' service to be allowed to pass for the rank of engineer, and after five years' service to be eligible for promotion.

3. Their full pay is to be increased after one year's service from 6s. to 7s. 6d. a-day.

4. Their half pay under three years' service to be increased from 3s. 6d. to 4s. a-day; over three years' service to be 4s. 6d. a-day.

5. To be retired at the age of forty, and at any age if they have not served for five years, or have been found physically unfit for service, and to be granted retired pay on the following scale :—Under three years' service, £20 a-year; above three years' service, £25; and for each year's additional service on full pay, £5; for each year's additional service on half pay, £2 10s.; maximum to be £50.

6. Time of assistant-engineers on probation not covered by commission not to count for retired pay.

7. All additional time granted for first and second class certificates gained at the Royal Naval College to count in all respects as service as assistant-engineer.

8. The number of engineers and assistant-engineers to be reduced so as eventually not to exceed 600, and the reduction to be effected as soon as practicable.

9. That the provisions relating to engineers and assistant-engineers in your Majesty's Order in Council of Feb. 22, 1870, be cancelled.

10. That in the 16th Clause of the Pensions Regulations established by your Majesty's Order in Council of Feb. 12, 1876, the words "engineers and assistant-engineers" be cancelled, and that the whole of Clause 18 with the exception of the last paragraph be also cancelled.

VI.—As Relates to Relative Rank.

1. Chief engineers of more than ten years' seniority to rank with commanders according to seniority; the seniority of the chief engineer to date from attaining ten years seniority in that rank.

2. Chief engineers of less than ten years' seniority to rank with but after lieutenants of over eight years' seniority.

3. Engineers over eight years' seniority to rank with but after lieutenants of less than eight years' seniority.

4. Engineers of less than eight years' seniority to rank with sub-lieutenants, according to date of commission.

5. Assistant-Engineers to rank with but after sub-lieutenants.

VII.—As Relates to Charge Pay.

In consideration of the increased responsibilities attaching to engineer officers in charge of engines in the larger ships of modern construction, rates of charge pay from 3s.a-day to 7s. a-day will be granted to the engineer officers in charge of engines of 3,000 indicated horse-power and upwards, according to the special circumstances of each case, which circumstances will in each case be decided by their Lordships. In ships having engines of under 3,000 indicated horse power, the rates of charge pay will continue as fixed by her Majesty's Order in Council of Oct. 26, 1875.

VIII.

1. My Lords are also pleased to direct that engineer officers now holding, or who may in future obtain first class professional certificates from the Royal Naval College, and officers who have taken the first place in each year amongst those who now held, or may in future obtain second class professional certificates, shall be advanced to the rank of chief-engineer after ten and thirteen years' service respectively, provided the officers have conducted themselves satisfactorily in every respect, and proved themselves thoroughly efficient in the performance of their duties.

2. The foregoing regulation shall apply to engineer officers who hold diplomas of the first class, and those who obtained the first place in each year amongst the second class fellows of the Royal School of Naval Architecture.

3. The senior engineer in any ship, if over eight years' seniority in that rank, shall be allowed to mess in the wardroom should he be desirous of doing so.

4. A cabin shall be provided wherever it is practicable for the two senior engineers to sleep in.—By command of their Lordships, Robert Hall.

MODERN WAR FLEETS.

The adjourned discussion on the paper prepared by Mr. J. Scott Russell, F.R.S., on "The development of our modern war fleet," read before the Council of the Royal United Service Institution last Friday, was resumed on Tuesday afternoon. The main arguments of the paper had been that our ironclads were, as a rule, badly built for the work required of them, having regard to the destructive engines in use in warfare. Mr. Scott Russell approved the building of vessels in water-tight compartments, and urged that they should also be built in casemates, with one or two guns in each, so as to localise all damages. He advocated guns of an uniform calibre, and more of them in a ship. He further pressed the necessity of building a great number of gunboats, to be stationed in our colonies, and said that modern war fleets required small ships to accompany the fighting vessels and carry extra stores, &c. Mr. Reed, late Chief Constructor of the Navy, expressed his dissent from the conclusions of the lecturer, and the adjournment of the debate had been moved with a view of affording Mr. Reed an opportunity of dealing critically with the matter, but Mr. Reed was not now present. There was an animated discussion, however, Major Baylis, Mr. Welch (of the Colonial Office), Sir Stirling Lacon, Capt. Gardener, R.N., Capt. Colomb, R.M.A., &c., taking part. Admiral Sir Spencer Robinson regretted the absence of Mr. Reed, as he himself had not been present at the reading of the paper on Friday last. He did not, therefore, feel able to enter into a criticism of it, but agreed that Great Britain, to carry on a maritime war, wanted not only single ships to fight, but a fleet of ships, and the construction of such a fleet was a great object which the Naval Administration of the country should have in view. Any single ship could not represent the class which a commander would want for purposes of attack or defence. All were agreed that what was wanted was that the fleet should be composed of ships of various classes. A large ship would be the unit round which other ships must work; a fighting ship, large or small, would be but an unit to be attended by other units, her satellites. When those were got we could say we had a fleet calculated to meet and destroy anything sent against it. The satellites would have to meet the torpedo ships and guard the big ship while the big ship did the work for which she was constructed. Ironclads were necessary to meet the fleet of an enemy sent against any of our dependencies in warfare. But the simple axiom of not putting all our eggs into one basket led him to say that we must gather up all our strength to get ships of all classes. Capt. Scott, R.N., thought that sufficient attention had not been paid to our ocean fleet. England's commerce was her vital point. He thought her insular position unassailable, if only some organization existed for utilising our coasters and fishing population. We had helped forward the development of the torpedo, and we had an instrument in our hands which, properly instructed, our fishermen would make invaluable in coast defence. But there was no organization, and even a telegraph around the coast was not yet in existence. After some further discussion, Mr. Scott Russell replied, repeating that what he had sought was to know the opinion of naval men as to the best vessels for the work they would have to do, and adding his opinion that naval architects could supply all that naval men required.

Convocation seems desirous of obtaining for seamen admission to seaport churches. If seamen are conspicuous by their absence from the parish churches nearest the Sailors' Homes at, say, Portsmouth, Plymouth, Devonport, Bristol, Liverpool, Hull, &c., there are other churches near to their more permanent homes in which they constitute a fair proportion of the congregation, and even assist as Sunday-school teachers, &c. Archdeacon Trollope, the son of the distinguished frigate captain, is chairman of the Convocation Committee, and asks the seaport friends of seamen to inform him, Does any system of parochial visitation of non-resident seamen in their ships and boarding-houses exist? what steps are taken to bring the non-resident seamen to church? and what arrangements are made to receive and welcome them there? How can any extraneous aid best supplement the parochial machinery, in providing spiritual sustenance for seamen during the intervals of their voyages? Nor does the son of the great sailor forget the life on shipboard, for he enquires if any steps are taken to induce the owners and officers to have Divine service performed on board their ships, as is customary in the Royal Navy? The Archdeadon asks that communications may be addressed to him at Leasingham, Sleaford, during the recess of Convocation.

ENGINEER STUDENTS FOR THE NAVY.

The following new regulations for the entry of engineer students, have just been issued. Appointments are to be open to public competition; candidates must be between 14 and 16 years, and able to pass a medical examination. The examination by the Civil Service Commissioners will commence the first Tuesday in May in each year in London, Liverpool, Portsmouth, Devonport, Bristol, Leeds, Newcastle-upon-Tyne, Edinburgh, Glasgow, Aberdeen, Dublin, Belfast, and Cork. This year the examination will be held in September, and will take place at Chatham and Sheerness, as well as the other places mentioned. The scholastic examination will consist of arithmetic, writing from dictation, composition, grammar, geography, algebra, up to and including quadratic equations; geometry, the first six books of Euclid's elements, translation of French, and French grammar. Candidates who fail to pass in arithmetic, writing, and composition will be disqualified. Successful candidates must join with their parents in giving a bond of £300 to enter the Service as assistant-engineers if, at the expiration of their training they should obtain certificates of good conduct and efficiency for entry in that capacity. This has been done as large numbers of students have left after finishing their training, and have then entered private firms. In the first three years students will have to pay £25 per year, and in the case of failure of payment the student will be discharged. Board and lodging will be provided for them, and they will be required to reside in one of the dockyards. Their term will extend over six years, and in the first year they will receive 1s. per week; second, 2s.; third, 3s.; fourth, 5s.; fifth, 8s.; sixth, 10s. In addition to their practical training they are to receive instruction in iron shipbuilding. On the completion of the sixth year a student is eligible for admission to the Royal Naval College as acting assistant-engineer, provided he can pass the examination, where he will go through a course of higher instruction. They will be provided with quarters at the College, and will receive 6s. a day and 1s. 6d. towards mess expenses; but if they remain more than one term they will receive full pay as acting assistant-engineer and 1s. 6d. a day for messing. The two who pass the best examination at the College each term will be allowed to remain two more terms for a further course of scientific instruction; on the completion of this they will be sent to sea for one year, and will then be considered eligible to fill official positions at the dockyards and at the Admiralty. No assistant-engineer who has passed three terms at Greenwich will be allowed to leave the Service within seven years of the completion of his term, unless he shall pay the sum of £500, and defray the charges of his education; such resignation in each case to be subject to the approval of the Admiralty. The examination this year for entering as students will commence on the 11th September, and applications to compete may be addressed to the Secretary to the Admiralty up to the 31st July, and such application should state the place at which the candidate desires to be examined. Candidates for the September examination must be not less than fourteen nor more than sixteen on the 1st of May last. The above instructions will confine the profession to a better class than that from which the engineers have hitherto been drawn.

The Minister of Marine at Constantinople has issued a despatch giving details of the recent attack upon Turkish monitors by six torpedo-boats. Four of the latter came from Sebastopol, and two from Odessa, having been brought by the steamer Constantine. Five of them succeeded in reaching the monitor Idjaliah, but the explosion they produced did no damage, thanks to the able manœuvring of the monitor. Six men belonging to the crews of the torpedo-boats were made prisoners, and one of them was an Englishman. A reward of 80,000 francs had been promised them if they succeeded in fixing the torpedoes underneath the Ottoman ships. It appears that the Turks, obeying Hobart Pasha's precautionary instructions, had their vessels encircled by boats, which were connected by chains, thus completely surrounding their ironclads and gunboats. The first Russian launch, checked by the connecting chain, succeeded in sending out only one torpedo, which struck the foremost ironclad, doing little damage. The alarm having been given by the enemy's launches coming into collision with the boat chains, the Turkish gunners had sufficient time to open on the assailants a destructive fire, the range being easily ascertained by the distance at which the chained boats were moored. The Russians sought safety in retreat, which they ultimately effected with the loss of three launches. Hobart Pasha has now devised a means of protecting the Sulina Harbour; also the ironclads when under steam. The following official despatch has been received at St. Petersburg from Odessa, dated 11th inst. :—"Yesterday the steamers Constantine and Vladimir returned to Odessa with the torpedo boats, except the one commanded by Lieut. Puschtschin, in search of which the steamer Argonaut has been despatched. The report upon the expedition states that the steamer Constantine, commanded by Lieut. Marakoff, approached within five miles of Sulina, and discovered during the night three Turkish monitors, against which the commander sent out some torpedo boats. One of the latter, under Lieut. Roschdestwensky, boldly attacked the nearest monitor, and exploded her torpedo, with what result is not known. Other explosions were heard, probably proceeding from the boat commanded by Lieut. Puschtschin. The Turks opened a heavy fire of guns and musketry, the effects of which were visible upon Lieut. Roschdestwensky's boat. There were no killed on the Russian side. Lieut. Marakoff was in charge of the expedition, and brought back the torpedo boats safely to Odessa."

The general parade and inspection of the Corps of Commissionaires will take place in Westminster Hall to-morrow at 10.15. After the parade the members of the corps will march to St. Michael's Church, Burleigh-street, Strand, where a sermon will be preached by the incumbent, the Rev. G. F. Townsend, D.D. In case of wet weather the men will be mustered inside Westminster Hall.

The Queen's Cup to the Aberdeenshire Volunteers.—Captain Crombie, of the Aberdeenshire Volunteers, has received from her Majesty the Queen a handsome and costly cup, elegantly chased in silver, to be competed for at the Wapinschaw, to be held at Aberdeen in the beginning of July. The cup is an elaborate work of art, especially designed and manufactured for her Majesty by Messrs. Elkington and Co. It bears the Royal arms, with Queen Victoria's monogram, and is inscribed as follows :—"Presented to the Aberdeenshire Volunteer Rifle and Artillery Association."—*Post.*

Furnish on the New Hire System.—The "New Hire System" is quite distinct from anything yet attempted. Houses, &c., furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea. —"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company — Offices, 9, Southampton-street, Strand

THEATRES.

Her Majesty's Opera.—On Thursday evening Rossini's grand opera *Otello* was given at Her Majesty's Opera, supported by a cast which could not be surpassed, with Madame Nilsson as Desdemona and M. Faure as Iago. It might be that a moderate Otello would have attracted a critical audience, but Mr. Mapleson perfected the cast by the reappearance of Signor Tamberlik. For years this splendid artist has, we believe, been absorbed in St. Petersburg, but few frequenters of Her Majesty's Opera can fail to remember his impersonation of John of Leyden in *The Prophete.* He, of course, received an enthusiastic welcome, and although his voice does not retain its pristine power, and does retain some of its pristine faults, he, on this occasion, sang magnificently. Madame Nilsson achieved another marked success in the *rôle* of Desdemona by the purity of her vocalisation and her dramatic power. The Iago of M. Faure was what might be expected from such an accomplished artist. Mdlle. Robiati, Signor Carrion, Signor Foli, and Signor Brocolini aided by their efforts to complete the excellence of the performance. The opera will be repeated on Friday evening. In the earlier part of the week Herr Wachtell reappeared as Manrico in the *Trovatore.* His voice, essentially a robusto tenore, retains all its original power, and elicited warm plaudits. Madame Trebelli-Bettini was as excellent as usual in the *rôle* she essayed.

Haymarket.—The only notable event of the week has been the advent of Mr. Joseph Jefferson at this theatre. It is something like twelve years since the popular actor first paid us a professional visit, and his success at the Adelphi at that time was so great as to make his return a matter of desire. Then he played the bibulous hero of Washington Irving's story—*Rip van Winkle*—and nothing else. Last year he came to the Princess's and repeated Rip. Just as people had begun to despair of seeing Jefferson in any other part, the Compton benefit took place at Drury Lane, and one of the most important features of the programme was the appearance of the distinguished American in a part closely associated with Mr. Buckstone—Mr. Golightly, in *Lend Me Five Shillings.* The farce on that occasion was the success of the day, and it is a matter easily to be understood why it holds a place in the Haymarket bill at the time when Mr. Jefferson has come to establish his fame as a comedian by playing in two farces. His Mr. Golightly is undoubtedly funny. The facial expression is something wonderful, with its constant changes and indications of cloudiness, and the actor fully interprets the material provided for him; but far more than this is expected from the creator of the immortal Rip; and, after seeing Mr. Joseph Jefferson in these two farces, no one will be likely to accuse him of churlishness in giving the world for so long nothing beyond the picture of the easy-going Dutchman. Rip proved that the actor was a man of genius, a fact which could not be discovered from witnessing the representation of *Lend Me Five Shillings.* And the falling off was still more evident when *A Regular Fix* was placed upon the stage, with Mr. Jefferson as Hugh de Brass. Here comparisons were immediately invited—it need not be said with Robson, who is dead, but with Sothern—and the comparison will not tell in favour of the former. In future when Hugh de Brass is spoken of in connection with his present representative, he must be registered as one of the weaknesses of a great man. Far pleasanter is it to turn to the opening piece, from which little is expected. *Charles XII.* is one of the freshest, brightest, and most compact of the many dramas which Mr. Planché gave the world years ago, and, as represented at the Haymarket, it should be the most attractive item of the programme—at all events, to the critical auditor. Mr. Howe's rendering of the King is remarkable for its bluntness and force, while the Adam Brock of Mr. W. Hargreaves is equally worthy of praise. Very pleasant, too, is the Ulrica of Miss Marion Terry, and even if the Eudiga of Miss A. Lafontaine is a little coarse, it is not sufficiently prominent to mar the general effect.

INFANTRY ATTACK FORMATIONS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—I would be glad if you would insert a few remarks in answer to the letter of your correspondent "Inquirer." I allude only to the latter part of his letter. In this it is stated that "in Prussian drill not only are battalions not allowed to be mixed, but companies." Now, the inference to be drawn from this is, that such a system would in battle prevent companies, or at least battalions, from getting mingled. Such an inference cannot be supported from German writings. In the "Tactical Deductions," it is stated that the mingling in battle of battalions, brigades, even corps, "cannot be prevented or avoided." This is also allowed by Von Scherff, in his "Studies in Tactics." The remedy proposed is, in peace time to organize order in disorder, *i.e.*, to make the men of even different corps manœuvre together when mixed up as in war. The sooner we recognize this fact, and give up the Utopian schemes for skirmishing, the better for the English Army. Again, surely the following sentence in the letter of "Inquirer" is a grave mistake: "I see no mention made of volley firing, which is strongly recommended by the German writers"? By what German writers? Many of the old school are but too fond of this antiquated mode of firing. I read the following in a German work, which I mentioned above: "One often hears people say, 'Volley firing, though not natural, does, at any rate, no harm.' Whether or not it does harm may be seen in our field manœuvres, when you see supports standing and firing volleys in easy range of the hostile skirmishers." In the same work we find that "as the impossibility of this manœuvre was apparent to our generals, it was never attempted on the offensive, and, when tried on the defensive, generally failed. Infantry officers, who have struggled for days in the bloody *melée*, are the only witnesses to be trusted in this. We, of the English Army, are moving slowly on, but still we have far too much of the barrack-square drill, too little of the field manœuvres. Surely it is time for us to discard such relics of a dead and vanished past as volley firing, especially as such things do positive harm by giving a false picture of battle.—I am, &c.,

June 11, 1877. Vorwarts.

Sir,—In the review of the new formation of attack, which appeared in the *Times* a few days ago, objection was made to it on several grounds, and among others the weakness and number of our companies composing a battalion was pointed out as likely to occasion confusion on service. Would it not be practicable to overcome this? It could be obviated as follows:—1. By absorbing one company in each battalion. 2. By making the five senior captains in each battalion "first captains," so that there should be only four service companies and one depot company in each. 3. By dividing the pay of the reduced captain amongst these five senior captains, so as to bring their pay up to 13s. 10d. a-day, that of the remaining four to be as at present, viz., 11s. 7d., they of course serving under the four seniors, and to be called "second captains." This change would not in any way alter the new system of attack, for the majors would still command half a battalion, the colonel having supreme command. A battalion would be more compact, and all movements much simplified; in fact, it is simply making the unit double what it is at present, viz., 200 instead of only 100. If you think this suggestion feasible perhaps you will kindly publish this letter.—I am, &c.

Progress.

Sir,—In reading over the new attack formation, it struck me the following would be a good method of meeting a flank attack, say from the right:—A battalion moving in column on the right of a brigade might be instantaneously thrown into a fighting attitude, thus—For attack, line to the right on the right half companies, right half companies' right form into line. On which command the right half companies form to the right in single rank (thus filling up the company intervals), the rear rank men moving up on their front rank's left. The right-hand man, easing off a little, would prevent crowding. The left half companies could be used as supports, or to prolong the line, being brought into position as in Sec. 27, Part III. Field Exercise, except that they would form single rank as they moved up. From the latter formation the battalion could easily be reformed by retiring in a double column of half companies from both flanks in rear of the centre, or advancing in a double column of half companies from the centre.—I am, &c.,

Seaport.

NON-COMBATANTS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—While the question is under consideration as to who are non-combatants, I hope that a more accurate line will be drawn than has been hitherto the case, and that the designation will be confined to those who never by any possibility go under fire. It is scarcely applicable to military surgeons, who have not only to combat death in the hospital, but in the field. Sixty-five of our number were buried in the Crimea, side by side with eighty-six French surgeons who died from typhus alone contracted in the hospitals. In every one of the long roll of brilliant victories which have shed a lustre upon the British arms, we have stood by our brother officers and men under fire. Several of our number are decorated with the Victoria Cross for conspicuous bravery in the performance of their special duties. Under these circumstances I think that we at least might be removed from among the civil to the military and scientific branches of the Army.—I am, &c., X.

Errata.—By a printer's error in the article on the war last week the word "or" was put in place of "on" in the sentence "He will think nothing has been done till he sees the cross on the dome of St. Sophia." Also in p. 361, "Russian officers have started to take command of Russian troops" should have been "Persian" troops.

SENIOR LIEUTENANTS, R.N.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—As it seems probable that the average length of service of a lieutenant in that rank will be at least fourteen years before he can hope to be advanced to the commanders' list, it seems not unreasonable to suggest that there should be an intermediate rank established of—say lieutenant-commander to be given to lieutenants of eight years' standing provided they have a certain amount of full pay or sea time. An addition of 2s. 6d. a day to their pay, which could hardly be regarded as excessive, and a little distinction in their uniform would be all that it is necessary. At the present moment lieutenants of eight years have relative rank with majors in the Army, but there is nothing in their uniform, with the exception of a slight difference in the epaulettes they wear, to distinguish them from a lieutenant just promoted. Considering that very few officers get on the lieutenants' list before they are twenty-four, the average age of the officers of the intermediate rank would be thirty-two. I feel sure a change of this description would be very popular, and would raise the spirits of a number of officers who, after bearing the heat and burden of an arduous service, find themselves after a number of years no better off than they were at the commencement.—I am, &c.,

A Lieutenant of Seven Years' Standing.

BIRTH.

Phillips.—May 6, at Retreat, Blue Mountains, Jamaica, the wife of Edward Charles Dubois Phillips, Staff-Commander R.N., H.M.S. Aboukir, of a son.

MARRIAGE.

Roberts—Olliver.—June 6, at the British Embassy, Paris, by the Rev. Dr. Forbes, Lieutenant William H. Roberts, Royal Navy, to Mary Gertrude, second daughter of the late George Olliver, of Kingston, near Arundel, Deputy-Lieutenant for county of Sussex.

DEATHS.

Dobson.—June 13, at 32, Pulteney-street, Bath, Admiral George Dobson, aged 81.

Phillipps.—June 12, at Manor House, Sproughton, Lieut.-Col. Henry Phillipps, formerly Captain 3rd King's Own Light Dragoons, J.P. and D.L. for the County of Suffolk, aged 71.

Advertisements.

ROYAL ITALIAN OPERA, COVENT GARDEN.

Mdlle. Albani.—This evening, June 16, will be produced Wagner's opera, IL VASCELLO FANTASMA (The Flying Dutchman). Senta, Mdlle. Albani; Mary, Mdlle. Ghiotti; Erich, Sgnr. Carpi; Dalando, Sgnr. Bagagiolo; Il Pilota, Sgnr. Rosario; and L'Olandese, M. Maurel. Conductor, Sgnr. Vianesi.

NEXT WEEK THERE WILL BE FIVE PERFORMANCES.

Monday, June 18, UN BALLO IN MASCHERA. Amelia, Mdlle. D'Angeri; and Il Duca, Sgnr. Gayarre.

Mdlle. Albani.—Tuesday, June 19, IL VASCELLO FANTASMA (The Flying Dutchman). (The cast as before).

Wednesday next, JUNE 20, No Performance.

Madame Adelina Patti.—Thursday June 21 (in lieu of the subscription for Saturday, July 28), IL TROVATORE. Leonora, Madame Adelina Patti; Conte di Luna, Sgnr. Graziani; and Manrico, Sgnr. Nicolini.

Visit of General Grant.—On Friday next, June 22, a Special Performance in honour of the VISIT of GENERAL GRANT to the OPERA. Full particulars will be duly announced.

Madame Adelina Patti.—Saturday, June 23, AIDA. Aida, Madame Adelina Patti.

The Opera commences at half-past 8. The Box-office is open from 10 till 5.

Pit tickets, 7s; amphitheatre stalls, 10s. 6d. and 5s.; amphitheatre, 2s. 6d.

ROYAL POLYTECHNIC.—RUSSIA AND TURKEY, a Lecture by Mr. B. J. Malden, illustrated by Dissolving Views of St. Petersburg, Moscow, Constantinople, the Bosphorus, Black Sea, and the Danube.—The TYNEWIDD COLLIERY INUNDATION, a Scientific lecture, by Mr. J. L. King, demonstrated by Dissolving Views and Philosophical Apparatus.—HOUSEHOLD SCIENCE, by Prof. Gardner.—MAGIC AND MYSTERY, Mr. J. Matthews.—Concluding daily, at 4.5 and 9.15 with WHYTTYNGTON AND HYS CATTE, by Mr. Seymour Smith.—Admission to the whole, 1s. Open from 12 till 5, and 7 till 10.

CRYSTAL PALACE GREAT HANDEL FESTIVAL.

FRIDAY, June 22, GRAND FULL REHEARSAL.
MONDAY, June 25, MESSIAH.
WEDNESDAY, June 27, SELECTION.
FRIDAY, June 29, ISRAEL IN EGYPT.

Principal Vocalists.

Madame Adelina Patti and Mdlle. Albani, Madame Lemmens-Sherrington and Madame Edith Wynne, Madame Suter, Madame Patey, Mr. Vernon Rigby, Mr. Edward Lloyd, Mr. Cummings, Signor Foli, Herr Henschel, Mr. Santley.

Solo Organ, Mr. W. T. Best; Organist, Mr. Willing; Conductor, Sir Michael Costa.

Prices of Seats (including admission), Central Area, Three Guineas and Two and a-half Guineas; Galleries, Two and a-half Guineas and Two Guineas. Tickets for the Rehearsal Day, Stalls (exclusive of admission), 7s. 6d. and 5s.; Admission Tickets, Half-a-Crown. Single Stall Tickets may be had, 25s., 21s., and 15s.

STAFF COLLEGE DINNER.

The ANNUAL STAFF COLLEGE DINNER will take place at the PALL MALL RESTAURANT on THURSDAY, June 28th, at Eight o'clock. H.R.H. the Field-Marshal Commanding-in-Chief will preside.

Officers wishing to attend are requested to send their names, as early as convenient, to Captain Clayton, R.A., Royal Military Academy, Woolwich.

ENTRY OF ENGINEER STUDENTS IN HER MAJESTY'S DOCKYARDS.

My Lords Commissioners of the Admiralty having decided to offer 45 vacancies to be competed for, NOTICE is HEREBY GIVEN that a Competitive Examination for these vacancies will be held on TUESDAY, the 11th September, 1877, and following days, in London, Edinburgh, Glasgow, Aberdeen, Dublin, Belfast, Cork, Leeds, Bristol, Liverpool, Newcastle-on-Tyne, Chatham, Sheerness, Portsmouth, and Devonport.

The age of Candidates must be not less than 14 nor more than 16 on 1st May, 1877.

The parents or guardians of all engineer students will be required to pay each year in advance the sum of £25 during the first three years of the student's training. The engineer students this year and next year will be entered at Portsmouth Dockyard only, and board and lodging will be provided for them in the Dockyard, where they will be required to reside.

A small weekly rate of pay (annually increasing) will be given to each engineer student during his six years' training. The engineer students will be under the supervision of the Captain of the Steam Reserve and a staff of competent officers, and subject to such rules and regulations as their Lordships may deem necessary.

Parents or guardians will be required to enter into a bond to the amount of £300 that the students, after completing their training, will enter the Naval Service.

References as to respectability and good conduct will be absolutely necessary.

The Lords of the Admiralty having, by recent changes, very materially raised and improved the position of the Engineer Officers of the Royal Navy, desire, by early publication of the above regulations, to encourage more general competition for these appointments.

For further particulars apply, by letter only, to the Secretary of the Admiralty, Whitehall, London.

Application to be permitted to compete will not be entertained after 31st July, 1877.

By command of their Lordships,
ROBERT HALL.
Admiralty, S.W., 16th May, 1877.

MIDLAND RAILWAY.

TOURIST ARRANGEMENTS, 1877.

FIRST AND THIRD CLASS TOURIST TICKETS,
AVAILABLE FOR TWO MONTHS,
Will be issued from May 14th to the 31st October, 1877.

For particulars, see Time Tables and Programmes issued by the Company.

JAMES ALLPORT, General Manager.
Derby May, 1877.

LAWRANCE D. PHILLIPS
AND CO.,
MILITARY, COURT, AND GENERAL
TAILORS AND OUTFITTERS,
13, GEORGE STREET, HANOVER SQUARE, LONDON, W

Established for upwards of half a century on the Credit System, but now conducted exclusively for Ready-Money Payment and supplying

UNIFORMS AND MUFTI

Of precisely the same high-class quality as heretofore

AT GREATLY REDUCED PRICES.

ESTIMATES ON APPLICATION.

INCREASE OF INCOME.—Gentlemen having extensive connections may add considerably (£100 to £500 per annum) to their incomes, without publicity or obligation, by introducing business to a professional firm. For interview write to A. G., Kelly's Library, 2, Vigo Street, W.

GENERAL or PERSONAL STAFF.—FOR SALE, a FULL-DRESS TUNIC, medium size; almost perfectly new; worn only four times; £10 10s. Can be seen at Mr. J. B. Johnstone's, 34, Sackville Street, Piccadilly, W.

RETIRED OFFICERS and GENTLEMEN seeking INVESTMENT and OCCUPATION can secure freehold manufacturing premises in the West of England in full working order, paying good interest. Address "Purchase," care of Willing, jun., Advertising Offices, 301, Strand, W.C.

REQUIRED, for the OFFICERS' MESS, 3rd Battalion Rifle Brigade, a man who will undertake the duties of CATERER and COOK. Apply to President, Officers' Mess, 3rd Battalion Rifle Brigade, Woolwich. State terms.

REQUIRED, a RETIRED OFFICER (unmarried), not exceeding 30 years of age, to INSTRUCT in MATHEMATICS or SCIENCE and to assist in the discipline of a college. Apply to the Governor's Secretary, Military College, Cowley, Oxford.

MESSMAN WANTED for the Officers' Mess Inniskilling Dragoons on arrival of the Regiment in Edinburgh. Apply, by letter only, to the P.M.C., Inniskilling Dragoons, stating terms, &c., enclosing copies of testimonials.

AN OFFICER'S WIDOW, with two children, desires the charge of some children, or a family, Indian or otherwise. Careful education and training; liberal diet; good resident governess; references exchanged; terms according to age and requirements. Address "Officer," "Army and Navy" Office, 16, Wellington Street, Strand, W.C.

ROYAL MILITARY ASYLUM, Chelsea.—COOK WANTED who has obtained a certificate of capability from the School of Instruction, Aldershot. Applicants must be either discharged soldiers or about to be discharged. Apply to the Commandant by letter, giving references as to character.

EMANUEL,
3, THE HARD, PORTSEA,

By appointment to H.R.H. the Duke of Clarence 1827; H.R.H. the Duke of Edinburgh, 1872.

New Designs in High Class Jewellery at Moderate Prices.
Bridesmaids' Lockets from Three Guineas.
Bracelets from Five Guineas.
English and Foreign Watches and Clocks.
Regimental, Presentation, and Prize Plate.
Old Plate, Jewels, Epaulets, &c., bought.
Foreign Money exchanged.
Miniature Copies of all Medals and Decorations.
Field, Race, and Opera Glasses, and Nautical Instruments.
Rare China, Bronze and Curios.
Collections Valued and Purchased.
Cheques payable to EMANUEL EMANUEL

SOLE ADDRESS, 3, THE HARD, PORTSEA

OVERLAND ROUTE and SUEZ CANAL. Under Contract for the conveyance of the Mails to the Mediterranean, India, China, Japan, and Australia. The Peninsular and Oriental Steam Navigation Company dispatch their Steamers from Southampton, *via* the Suez Canal, every Thursday from Venice every Friday; and from Brindisi with the Overland Mails, every Monday.

Offices—122, Leadenhall-street, E.C., and
25, Cockspur-street, S.W.

HALL LINE.—STEAM from LIVERPOOL to BOMBAY, via SUEZ CANAL.— Average passage, 26 days, including all detentions. Sail punctually as advertised.

Passengers booked at through rates from London, via Genoa, Naples, and Alexandria (Rubathino Line), joining the "Hall" steamer at Suez. Full particulars on application.

The magnificent fast steamship BRANKSOME HALL, 2,100 tons, 300 horse-power nominal, sailing 5th July. This steamer has been specially adapted for the East India trade. Her saloon an l state-rooms are spacious and well-ventilated. The accommodation is unsurpassed. Only first class passengers taken. Fare from Liverpool, 45 guineas. Surgeon and stewardess carried.

Succeeding steamers:—
City of Baltimore .... 21st July.
Childwall Hall .... To follow.
Trentham Hall............ To follow.

For passage apply in London to Henry S. King and Co., 65, Cornhill, and 45A, Pall Mall; for freight, to J. H. Wackerbath, 18, Cullum Street, E.C.; or for freight and passage to
ALEXANDER and RADCLIFFE, 8B, Liverpool and London Chambers, Exchange, Liverpool.

H.M. TROOPSHIPS, PORTSMOUTH DOCKYARD

OFFICERS' BAGGAGE cleared through Customs, Warehoused, Shipped or Forwarded, by CURTISS and SONS, Railway and Shipping Agents, 88 to 94, Broad Street, Portsmouth.

Letters and telegrams for passengers promptly delivered free of charge.

CURTISS and SONS' rates for Warehousing or removing Furniture, &c., are exceedingly low.

OFFICERS' BAGGAGE, &c.—Officers are respectfully informed that Baggage, Luggage, and all kinds of Personal Property are stored at most moderate charges at the
STORE WAREHOUSES, BAKER STREET BAZAAR, W.

The warehouses having been built expressly for the safe keeping of goods, are peculiarly convenient, and are kept warm at an even temperature during the winter. Removals effected.

Separate lock-up rooms for large or small quantities.

JOHN HANES, Manager.
Store Warehouses Baker Street Bazaar, W.

ROYAL SCHOOL FOR DAUGHTERS OF OFFICERS OF THE ARMY.

The daughters of all officers in her Majesty's Army, inclusive of the Royal Marines, on full or half pay, or who may have died in the service, are eligible. The ages of admission are from ten to fifteen.

The next election will take place on June 20, 1877.

Pupils elected by votes of subscribers pay only £12 per annum.

Each donation of £5 5s. entitles to one life vote. Each annual subscription of 10s. 6d. entitles to one vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By order,
G. W. FORSTER, Secretary.
No. 22, Cockspur Street, London.

London: LONGMANS and Co.

THE JOURNAL FOR THE MESS ROOM.

MILITARY INTELLIGENCE.

Exclusive and authentic Military Information appears every week in "THE WHITEHALL REVIEW." The progress of the war is also noted, and the probable movements of both Armies are anticipated. The Military Articles are written by specialists in the Service, the accuracy of whose war forecasts, from the outbreak of hostilities, has been almost invariably verified by actual results. The WHITEHALL REVIEW is a chronicle of social affairs (English and Continental), and the best Books, the Operas, the Theatres, and the Money Market are criticised by able and impartial pens. Original Crayon Portraits of ladies every week, with Memoirs. Very flattering criticisms of the Whitehall Portraits have recently appeared in the *Times*, the *Morning Post*, the *Graphic*, and other leading journals. Price of Paper and Portrait, Sixpence; post free, 6½d.; Annual Subscription, £1 8s.

"An unparalleled success in journalism."—*Morning Post.*

Published at 6, York Street, Covent Garden, London, and sold everywhere.

⁂ Now ready, price Five Guineas, the LARGE ALBUM, containing twenty-six original Crayon Portraits of the Queen, the Princess of Wales, the Duchesses of Westminster, Sutherland, Marlborough, and Cleveland; the Princess Beatrice, the Duchess of Teck, the Marchionesses of Ormonde, Camden, and Waterford; the Countess Grosvenor, the Countess of Charlemont, Lady Howard of Glossop, &c., &c.

NAVAL CADETSHIPS, &c.

"EASTMAN'S" ROYAL NAVAL ACADEMY, BURGOYNE HOUSE, SOUTHSEA.
Principal, since 1860, G. EASTCOTT SPICKERNELL.

At the last two Naval Cadet Examinations pupils took the *First* Place. More than 1,000 pupils have entered her Majesty's Service.

The House is situated close to and directly facing the sea. Pupils have good Bathing and Boating, under careful superintendence.

Pupils are received from Nine years of age and upwards. To make the School specially adapted for Junior Pupils intended for the Royal Navy and the Public Schools, Senior Pupils are not now received.

NAVAL CADETS, ASSISTANT CLERKS,
HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.
Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

NAVAL CADETS EXAMINATIONS.— A Retired Naval Instructor can prepare young gentlemen for the above. Address, T. S. Crockford, 37, Cranfield Road, Brockley, S.E.

ARMY EXAMINATIONS.

MR. MULCASTER'S MILITARY SCHOOL,
36 and 37, Woolwich Common, S.E.

Candidates prepared for the various Military Examinations.

During the past few years over 120 gentlemen have passed into the Service direct from this establishment, taking first places for Cooper's Hill College, Woolwich, and the Line respectively.

Of Militia candidates 12 have been successful out of 13 sent up for examination.

June 7th, 1877.

MILITARY EDUCATION in GERMANY.—For Candidates for Woolwich, Sandhurst, and commissions through the Militia. Colonel Berdoe A. Wilkinson (*retired full-pay*), Royal Engineers, receives pupils to prepare for the Army at his residence in Hesse Darmstadt. They have the advantage of preparing for the competitive examinations under the superintendence of an officer of long service, assisted by a staff of competent masters, and, at the same time, of acquiring a colloquial knowledge of German and French. Address Colonel B. A. Wilkinson, late R.E., care of Messrs. Cox and Co., Craig's Court, London, S.W., or Heinrichs Strasse, 108, Darmstadt.

EDUCATION.—There are a few Vacancies in the ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY for PUPILS on payment of £80 per annum, which includes all professors' fees and extras. Any further information may be obtained of Mr. G. W. Forster, 22, Cockspur Street, London.

AN OXFORD GRADUATE (1st Class Modern History School), experienced in tuition, receives into his house at Oxford TWO PUPILS, to prepare for MATRICULATION or the ARMY. For terms, references, &c., address G. B. D., Union Society, Oxford.

SWITZERLAND.—FRENCH, GERMAN, MATHEMATICS, &c., for Army, Navy, and Mercantile life. Gentlemen are received into the family of an Oxford Graduate on very moderate terms. Excellent boating. Mountain excursions. Address "D. C. L.," care of Rev. G. Cavill, St. Pancras Rectory, Chichester.

PARIS.—Unusual advantages are offered to a limited number of gentlemen's sons to advance their education physically, intellectually, and morally. Prepared for the Army, Universities, Civil Service, &c., specially in French, German, and Mathematics; liberal table; Protestant church close by; highly recommended; terms moderate. Address Dr. Hertting, 27, Rue Vital, Passy, who intends being in London in July.

TO OFFICERS from Abroad and Others. —Victoria Road, Kensington.—TO BE LET, handsomely FURNISHED, a very choice VILLA RESIDENCE, situate close to Kensington Gardens and the Park. It contains 3 reception and 8 bed and dressing-rooms. Pretty garden and greenhouse. Rent, £250 a-year. Open to an offer. The lease of about 13 years, together with the handsome furniture, may be purchased on advantageous terms. Apply to Messrs. Elwes and Co., 23, High Street, Kensington.

THE DIRECTORS of the BRIGHTON LIVERY STABLES COMPANY, Limited, give notice that Prospectuses inviting application for the portion of unallotted Shares may be obtained from the Secretary at the Offices of the Company, to whom an early application should be made.

A. J. BODDINGTON, Secretary.
17 Prince Albert Street, Brighton.

THE NEW REGULATION MILITARY BUCKLE now ready in all sizes.

N.B. Jewellery of every description kept in stock.

CAUTION.—WAR IN THE EAST.

Military Officers and others proceeding to the Seat of War are respectfully cautioned against useless imitations of the well-known ELLWOOD HELMET, the *only* effectual protection against sun-stroke.

FURNISH YOUR HOUSE or APARTMENTS THROUGHOUT on MOEDER'S HIRE SYSTEM. The original, best, and most liberal. Cash prices; no extra charge for time given. Large useful stock to select from. Illustrated price Catalogue, with terms, post free. 248, 249, 250 and 251, Tottenham Court Road.

DROITWICH BRINE BATHS, Worcestershire, consisting of hot and cold baths, sprays, douches, Turkish and swimming baths, and containing the most powerful water yet discovered. These Baths are crowded with sufferers of all classes, from the nobility to the poorest peasant. They relieve gout, rheumatism, neuralgia, all cases of general derangement, and extreme cases of debility, by restoring the tone of the digestive functions without the necessity of specific medicine. Private residence of the medical proprietor adjoining the Baths for first-class invalids, and all descriptions of lodgings can be obtained. For further information apply to Mr. Roe, Secretary.

CHLORODYNE.—FREEMAN'S is the original and only true.—Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish decided in favour of R. Freeman and against J. C. Browne and J. T. Davenport; see "Times" of July 24, 1873. Thousands of medical practitioners testify that there is no substitute for it in the treatment and cure of asthma, bronchitis, coughs, and other chest affections, neuralgia, fevers, cholera, dysentery, spasms, and all nerve pains. Bottles 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 20s. Sold by patent medicine dealers in all parts of the world. See that "Freeman's Original Chlorodyne" is engraved on the Government stamp.

HOLLOWAY'S PILLS.—Excellent Pills.—The resources of medicine and chemistry were long and fruitlessly tried before they yielded a remedy which could overcome disorders of the stomach and nerves till Professor Holloway discovered his purifying and tonic Pills. They are the safest and surest correctives of indigestion, heartburn, flatulency, torpidity of the liver, twitchings, nervous fancies, despondency, low spirits, and declining strength. Holloway's Pills supersede all irregular action in the body, and so strengthen and support the system that disease departs, and leaves the patient not at all shaken. This is the grand aim and object of medical art, to regulate disordered functions without damaging the constitution by the remedy; and admirably is this end attained by Holloway's Pills.

THOMAS WHITE'S CELEBRATED CAMPAIGNING KIT,

CONSISTING OF

BEDSTEAD, BEDDING, BLANKET, PILLOW, BATH, WASHSTAND, BASIN, CAMP-STOOL, BUCKET, LANTERN, POLE-STRAP, LOOKING-GLASS, PYJAMAS, AND SLEEPING CAP.

ALL OF WHICH ARE CONTAINED IN HIS

LOCK-UP WATERPROOF BAG.

Which, when packed with the above articles, supplies room for clothing and other necessaries. The chief feature in this Kit is T. White's FOLDING BEDSTEAD (recently improved), weighing 16lbs., price 30s.; or his larger sized ditto, 18lbs., price 35s., intended for officers entitled to carry extra weight. Also his CANTEENS for company messing, to cook for and dine three or more officers, as supplied and thoroughly tested during the Manœuvres of 1871, 1872, 1873, 1874, and 1875. This Canteen was used by Sir Garnet Wolseley, G.C.M.G., K.C.B., his Staff, and the 42nd Highlanders (the Black Watch), and other regiments during the Gold Coast campaign, and is recommended and patronized by the highest military authorities.

The above Campaigning Kit, or Canteens, and in most instances both, have been supplied to his Majesty the Emperor of Germany; H.R.H. the Duke of Cambridge, K.G., &c.; H.R.H. the Duke of Connaught, K.G., &c.; H.S.H. Prince Edward of Saxe-Weimar, C.B.; the late General Sir Hope Grant, G.C.B.; Generals the Right Hon. Sir John Michel, G.C.B.; Sir R. Walpole, K.C.B.; Sir Charles Ellice, K.C.B.; Major-Generals Sir Charles Staveley, K.C.B.; Sir Alfred Horsford, G.C.B., Military Secretary; J. S. Brownrigg, C.B.; Henry Smyth, C.B.; Lord Mark Kerr, C.B.; D. Lysons, C.B., Q.M.G.; Sir Thomas MacMahon, Bart., C.B.; Sir E. Greathed, K.C.B.; G. V. Maxwell, C.B.; Hon. A. Hardinge, C.B.; C. Shute, C.B.; W. Parke, C.B.; A. J. Herbert, C.B.; and Sir Garnet J. Wolseley, G.C.M.G., K.C.B., besides some thousands of officers of nearly every branch of and regiment in the Service.

THOMAS WHITE,

CAMP AND BARRACK FURNISHER,

Begs leave to inform Commandants of Corps, Presidents of Messes, and Officers generally, that he

IS PREPARED TO SUPPLY ON HIRE
EVERYTHING NECESSARY FOR OFFICERS' MESSES,
Including
MARQUEES, FURNITURE, BOARDED FLOORS, PORTABLE KITCHENS,
WHITE'S CELEBRATED FIELD RANGE,
Cooking Utensils, Cutlery, Electro-Plate, Crockery, China, Glass, &c.

The same will be securely packed and forwarded, accompanied by an experienced assistant, if desired, to any part of the United Kingdom.

THOMAS WHITE'S

STANDING CAMP TENT KIT,

As supplied by him for 12 years to the National Rifle Association at Wimbledon, and to Officers at Aldershot when under canvas, consisting of the following articles:—

Wood Folding Camp Bedstead
Hair Mattress
„ Pillow
Folding Chair
Sponge Bath
Water Can
Tent Pole Strap
Strip of Matting
Tripod Washstand.
Looking Glass
Basin
Lantern

Can be had on hire, in any number, to meet the requirements of regiments or County Rifle Meetings. The weight of each Kit complete is about 80lbs. The Kit includes everything necessary for camping out, and is looked upon by the large number of officers who have used it in England Ireland, and Scotland as a great convenience, saving them the trouble and annoyance of looking out, packing, and conveying their own goods (which are often unfitted for the purpose) to the camping ground.

P.S.—The Campaigning Kit is for Sale, and not for Hire; the Standing Camp Tent Kit is for Hire only.

Full details, Illustrated Price Lists, and Estimates for Officers' Messes, may be had post free on application to

THOMAS WHITE, CAMP FURNISHER, ALDERSHOT.

BAUMGARTEN'S INVIGORATIVE NERVINE ESSENCE. A most powerful nutritive cordial, which restores to their normal condition all the secretions on the integrity of which perfect health depends.

Report by Dr. Hassall.—"Having analysed the preparation to which Messrs. Baumgarten and Co. have given the name of 'Invigorative Nervine Essence,' I am of opinion that it is a combination well calculated, from its containing, among other ingredients, Pepsine and Phosphate of Soda, to prove most serviceable to the debilitated, the nervous, and the dyspeptic."

Price 8s. per bottle, or four quantities in one, 22s. Carriage free on receipt of remittance. Sole agents, BRANT and CO 283 Strand, London, W.C.

ST. LAWRENCE-ON-SEA, NEAR RAMSGATE.

THE "GRANVILLE" HOTEL.

THE "GRANVILLE" PRIVATE SPECIAL EXPRESS TRAINS to ST. LAWRENCE-ON SEA, near Ramsgate, in 1 hour and 45 minutes. Departures every Friday, from Charing Cross at 3.45, and Cannon Street at 3.55 p.m. (See bills.)

THE "GRANVILLE."
"The situation of the palatial establishment on a cliff somewhat removed from the town, though conveniently proximate thereto, is an advantage greatly augmented by its superb suite of ozone and various other health-giving baths, its well-constructed rink, its excellent and cheerfully appointed table d'hôte, and all other liberal additions of comfort, luxury, and amusement since the hotel has come into the present enterprising hands."—"Daily Telegraph," March 29.

THE "GRANVILLE" HOTEL.
The "Saturday Review" says:—"The scenery, the air, the accommodation for visitors were described as of the most perfect kind; and we could not help wondering how it was that this place, which had been in existence in a quiet way for several years, had suddenly, like Byron, gone to bed and awoke famous."

THE "GRANVILLE" HOTEL.
"Mayfair" says:—"The proprietor of the hotel, which has carried the name of St. Lawrence-on-Sea to the utmost ends of the earth, has energetically and judiciously lavished a fortune, first in making the 'Granville' Hotel one of the most charming seaside residences in the Kingdom, and next in bringing the fact under the notice of the public."

Address the Manager, Granville Hotel, St. Lawrence-on-Sea, Ramsgate.

SOVEREIGN LIFE ASSURANCE COMPANY.
EXTRACT FROM REPORT OF THE DIRECTORS, MAY, 1877:—

The Directors have again the pleasure of reporting a material advance in the amount of new business effected by the Company during the past year.

The Policies issued were 474 in number, assuring £249,060, or nearly £50,000 in excess of the preceding year. The average amount of each Policy was £525, and the new premium income represented was £8,295 3s. 10d., or £2,100 more than in 1875. The increase on the Total Revenue from Premiums and Interest was £4,995.

The sum paid for claims by death during the year was not in excess of the amount anticipated; but the aggregate disbursements on account of policies falling due exceeded that of any former statement, owing to an increased number of Endowment Assurances having arrived at maturity. Nevertheless, £23,000 were added to the Funds of the Company.

H. D. DAVENPORT, Secretary.

☛ *It is particularly requested that applications for copies of the* Army and Navy Gazette, *and Advertisements, shall* not *be sent to the Editor, but to* Mr. Richard James Wood, AT THE OFFICE, 16, WELLINGTON STREET, STRAND, W.C., *to whom all business communications shall be addressed and remittances made payable.*

The subscription to the paper is 7s. per quarter, or 28s. per annum Payable in advance, *inclusive of postage to any part of the United Kingdom; to India, £1 10s. 4d. per annum;* viâ *Brindisi, £1 14s. 8d.*

FROM many points of view the paper which was read by Mr. Scott Russell at the Royal United Service Institution deserves more than a mere passing notice, but the magnitude of the subject, "The Development of our Modern War Fleet" and the topics presented for our consideration by the author and by those who took part in the discussion to which it gave rise, preclude the possibility of our doing more than to refer to some of the salient features of this most interesting lecture and debate. Mr. Scott Russell and several of the speakers who followed him insist, rightly, upon the importance of our being provided with a number of *bonâ fide* line-of-battle ships; and in this class of vessel it will be admitted that it is at present peculiarly deficient. There is no reason to believe that in any great naval war in the future occasion will not arise for fleets as well as single ships to be engaged in hot controversy, as in times past; on the contrary, there are many circumstances which seem to point to the probability, not to say the certainty, that such engagements as those of the Nile and Trafalgar are as much events of the future as of the past, and by far the majority of our most powerful ironclads are almost as ill-adapted for fighting in line of battle as the forts at Spithead. They are admirable for coast and harbour defence, ship for ship and gun for gun they are more than a match for almost any vessels that can be brought to bear against them, but they are unwieldy and cumbrous; they have from want of sufficient handiness, an inconvenient habit of getting in each other's way. In fact, they want sea-room. Mr. Scott Russell proposes a type of ship which is far better adapted for fighting in a general engagement than anything at present afloat. Keeping ever in view the important part which the ram must play in all future naval battles, he pays special attention to the strength of the bow and the shape of the ram, which he argues, with great reason, should be rather chisel-shaped than spur-shaped. He insists also on great speed and handiness, and on gun-carrying capacity. The principle of mounting only two or three of the largest guns on each ship Mr. Scott Russell abandons in favour of a return to the old broadside system, and advocates for the first-class man-of-war an armament of twenty big-bore guns on each broadside, each enclosed in a water-tight casemate, which he shows will have the effect not only of decreasing the liability to serious damage in the event of his ship being struck by the enemy's ram or penetrated by his shells, by confining the area of injury, but will add considerably to the structural strength of the vessel. But while Mr. Scott Russell urges a large increase in the number of line-of-battle ships, he is not unmindful of the necessity that exists for ships of other classes, and particularly we would call attention to his gunboats, carrying one large gun. It is the more important that this very useful class of small vessels should not be overlooked, as the discussion which followed the lecture showed how far in advance of us other nations are. Mr. Welch, who is well known as the former Superintendent of Coastguard cruisers, and is now the Naval Architect and Surveyor of the Crown Agents for the Colonies, did good service in laying before the Institution a recapitulation of what had been already done in this direction by foreign Governments. He pointed out that as long ago as 1875 two twin-screw gunboats were built for the Chinese Government of 253 tons B.M., drawing less than six feet of water when fully loaded, each carrying a 16-ton steel gun of 10-inch bore, throwing the same weight of projectile as the 18-ton gun mounted in the gunboats of the Staunch class in our own Navy. The most remarkable feature of these boats is, perhaps, their seaworthiness, for both of them were navigated to their destination in China under sail and steam. It is noteworthy that these were the first vessels of small size which made a long sea voyage. The next small heavily-armed gunboats which made a successful voyage were built for the Argentine Government, and sent across the Atlantic in January, 1876. These were, in all respects, more powerful than those constructed the year before for China, carrying a 26½-ton gun, and were distinguished as being the first small vessels to be fitted with steam steering gear and hydraulic loading apparatus. Both these classes of gunboat were remarkable for their extreme handiness, which practical men will recognise from the fact, stated by Mr. Welch, that they succeeded in completing the half circle at their trial in less than a minute. The gun which Mr. Scott Russell recommends for these small boats and desires to see adopted as the standard gun for the Royal Navy is a 15-inch gun 15 feet in length, and the experience we have gained in the gunboats described by Mr. Welch, of 10-inch and 11-inch guns, goes far to show the practicability of Mr. Scott Russell's suggestion. The structural strength of the bow in these boats, which fits them for ramming anything but an ironclad, is secured by double beams and a deep iron girder, and carries out by anticipation another of Mr. Scott Russell's principles. The method of mounting the guns advocated by Mr. Scott Russell, not only for small gunboats, but even for his line-of-battle ships, is one which will give rise to very considerable discussion. It consists of laying the chase guns parallel to the keel and the broadside guns right athwart the beam, allowing for no divergence. Mr. Scott Russell's laudable desire is to get rid of the complex machinery now in use for training guns, and to do away with the necessity for moveable gun-carriages and slides, making the ship itself the gun-carriage, and manœuvring the guns by the steering of the vessel. How far this may be successful in actual warfare experience alone can decide; but the principle, as Mr. Welch pointed out, is not a new one, having been adopted in the boats built for the Argentine Republic. There is yet another class of gunboats which Mr. Russell wishes to see introduced into the Navy, one that shall carry a similar gun to that described by him both in the bow and in the stern, and shall be able to steam with equal speed ahead or astern. The difficulty in accomplishing this lies, as Mr. Welch pointed out, in finding a serviceable propeller. With a screw it would be impossible, and, if it is proposed to use the ordinary paddle-wheel, the danger of disablement, from exposure to the enemy's fire, would be so great as to render the advantage more than doubtful. Mr. Scott Russell's proposal is to build hundreds of these small gunboats, and to send them in time of peace to all our colonies and dependencies to be ready in case of emergency. At present our colonies are practically undefended, or at best protected only by a squadron which is required to cruise on a station covering many hundreds, in some cases thousands, of miles. On the first outbreak of hostilities it is possible that an enemy might make one of our distant possessions the object of attack, and, if he met with a successful resistance there, he would have it in his power to do material damage to our commercial interests, and very seriously to cripple our trade before any adequate force could be sent to repel the attack. The late Mr. Graves, M.P. for Liverpool, it will be remembered, on more than one occasion called the attention of the House of Commons to the defenceless state of our home ports, and it was mainly owing to his representations that the gunboats of the Staunch class, now numbering some thirty vessels, were constructed; but if the danger to our home ports was great, how much greater must be the peril in which the colonies are placed, lying as they do far removed from our dockyards and arsenals and dependent for defence upon a cruising squadron. There can be little doubt but that Mr. Scott Russell has taken the right view of the requirements of the Service, and now, as he says, in a "time of profound peace" for this country, is the opportunity to make good our deficiencies. We want a fleet of line-of-battle ships, speedy, handy, and of great power, a localised fleet of small gunboats which shall be a development of those Argentine and Chinese boats, and a number of lightly-armed frigates of the Inconstant class, for which Sir Spencer Robinson fought so manfully when at the Admiralty, capable of developing a speed equal, if possible, to the fastest merchant ships, and until we have such a fleet we may boast in vain of the unwieldy monsters which are best fitted for coast defence and afford an admirable target for an enemy. One thing is clear, and to this Mr. E. J. Reed has called attention, if these monster ironclads by mischance become disabled at a distance from home, disabled they must remain. We have no docks abroad where they can be repaired, and in time of war it would be, to say the least, inconvenient to have to tow them home to refit. In conclusion, we commend Mr. Russell's important paper and the no less instructive discussion which it raised to the attention of all who are interested in the greatest of national questions.

If the Treasury has any sense of humour, even of the grim kind, it must enjoy very much the amusement provided for it by both Houses of Parliament and by the members of her Majesty's Government. We use the word "it" in writing of the mysterious body which, being part of the Government, is yet greater than the whole, and checks and regulates all the movements of that which is supposed to direct its functions. When some noble lord or honourable member gets up in his place and asks why something or other is not done which ought to be done, and to the performance of which the Government is pledged, he is probably told in so many words that the matter is before the Treasury, or that the consent of the Treasury had not been obtained, or that the Treasury is in some way or other responsible for the delay and obstruction, the abstract being put for the concrete "Lord," who does not take the least notice of the offence laid to his charge as he hears his colleague lay the blame on his shoulders. No one seems at all inclined to ask the Treasury, as represented in Parliament, for any explanation of its conduct, and Ministers find it a ready way of meeting troublesome interrogations as to delay to allege that the delay arises from the usual cause. Within the week we have read the report of the answer made by Mr. Hardy to the demand of an honourable member whether the Promotion and Retirement scheme would be soon brought forward, and the words sounded exactly like the echo of those used by the right hon. gentleman four months ago in reference to the same subject. Let it be remembered that it is now more than ten months since the Government was in possession of the Report of the Royal Commission. It was in August, 1876, that the papers were laid before Parliament, and it was believed that Mr. Hardy would devote some of his well-earned leisure in the recess to the preparation of a scheme to be brought forward when both Houses reassembled in the spring It was not an unreasonable expectation, but it certainly was not justified by the action of the War Office and of the War Minister, if we are to judge by the present state of the question. Let us see what occurred and consider how hardly the officers of the Army have been dealt with as regards their feelings and other more substantial matters. In the Report of the Commissioners changes of a very large and comprehensive nature were recommended affecting the future and the fortunes of hundreds of officers, and it was only natural that time should be taken to consider them. After a time, then there came an announcement that the Government in general terms accepted the scheme, and intended to carry it out, but an allusion to certain modifications in the plan introduced an element of uncertainty which was very perplexing to those officers who wanted to know exactly where they stood. On February 15, soon after the meeting of Parliament, Mr. Hardy, in answer to Mr. O. Lewis, having observed "that he was not surprised the Royal Commissioners had taken a long time in coming to their Report," stated that he had been since carefully considering the whole question connected with retirement and promotion. "Great progress has been made with a plan on the subject," continued the right hon. gentleman, "but I have not yet been able to submit it to the Treasury or the Government. The plan would proceed generally on the lines recommended by the Commission." In reply to another question, as to when the Government measure would be brought forward, Mr. Hardy said that "was exactly his difficulty." "It will soon be in a shape to put before the Treasury, but I can not say how long it will remain there." On March 5 Mr. Hardy, in moving the Supplementary Estimates, again adverted to the delay of the Commissioners, and made a *quasi* defence of it, but he stated that "the object to be accomplished (a difficult one as far as the War Office was concerned) was near its completion." "I am quite sure," he said, "that while promotion is stagnant, and officers grow old without it, you are keeping the Army in a state which will render it unfit for the purposes it may be called on to serve." That was a very remarkable and weighty expression of opinion for a Secretary for War to utter in the House of Commons. One would have thought that a Cabinet Minister responsible to the country for the efficiency of the Army would, under the influence of such a sense of the vital importance of removing such a source of evil, have never ceased, in the Cabinet and out of it, his attempts to overcome the obstacles to the accomplishment of the object which in March last was "near its completion." But, as far as may be judged by the words used this week, Mr. Hardy's object is as far from completion as ever, and the Army is kept in a state which, according to him, renders it "unfit for the purposes for which it may be called to serve." We hear that in a very short time the Government measure will be introduced, and that the Treasury has at last given its consent that some effectual steps may be taken to secure the flow of promotion, the cessation of which Mr. Hardy thought so destructive; but there are only five or six weeks to run before the time at which Parliament generally rises, and it is running it very fine indeed to introduce so great a question at the end of the Session. However, in the interests of the Army, we eagerly hail the assurance that an end will soon be put to torturing expense and unjust anxieties. Let us hear of "the Treasury" no more "in this connection," we pray.

Our Paris contemporaries are rather at loggerheads as regards the celebrated compensatory measures of Field-Marshal von Moltke. Some declare that the garrisons in Alsace-Lorraine have already been reinforced; others that nothing will be done until after the Autumn Manœuvres. Our neighbours learn with some uneasiness that it has been recently decided at Berlin that the 7th, 8th, and 14th Army Corps and a Cavalry division shall manœuvre from September 3 to 25. The 14th Army Corps will be concentrated between Rastadt and Carlsruhe. The *Avenir Militaire* writes:—"Is it known what these three corps are? They are the corps along the Rhine from Wesel to Bale. Together with the Cavalry of the Grand Duchy of Hesse and the 15th Army Corps in Alsace-Lorraine, it may be estimated that the Germans will have four army corps half mobilized or prepared to form a complete army. In France, on the contrary, the 6th Corps alone will manœuvre with Cavalry. The other French army corps designed for manœuvring—the 13th and 10th—are too far from the frontier to have any influence on this mobilization. The precautions of our neighbours are well taken, and reflect the highest credit upon the Staff." Our information from Germany leads us to believe that another war with France, unless wantonly provoked would be exceedingly unpopular. The Emperor, too, seems to have had fighting enough to be firmly opposed to a warlike policy. Unfortunately there is so little stability in France that a crisis may be produced at any moment. More than once the clerical proclivities of the Duc de Broglie and his friends have irritated both Germany and Italy to a most dangerous pitch, and there are other politicians who could sacrifice every other interest to secure a Russian alliance, with the view of attacking Germany. It must also be remembered that no pretender to the French Crown who did not restore Alsace and Lorraine would be able to hold his own for any length of time. Henri V. would be expected to win back the provinces his ancestors annexed, and Napoleon IV. to recover what his father lost.

A statement made in the *Times* of Monday in the course of a long article on the Inflexible is one which cannot be allowed to pass unchallenged by those concerned in the question. If proved to be substantially correct, the public will have to thank that journal for having disclosed so startling a fact, while by its proof all faith in the ability of the Constructors Department at the Admiralty will be greatly shaken. The *Times* states that facts have recently come to its knowledge respecting these vessels which lead to the belief either that a very grave error has been allowed to creep into the designs of ships of the Inflexible and Agamemnon type, or that the public has been strangely misled as to what these ships were intended to be. It is pointed out that the extent to which the central citadel principle could be applied with safety in the construction of ships of war was seen from the first to be limited by the condition that the armoured central portion of the ship should be of such dimensions and proportions as to provide sufficient buoyancy and stability in all possible circumstances of the admission of water into the unprotected ends. It was, moveover, seen that to make the ship safe in the event of these ends being so far injured in action as to be unable to add to the stability given by the citadel it was necessary to make the latter so large as not absolutely to require any aid from them. In considering the matter, the Committee—as shown by their Report—appear to have seen that this would involve a greater extent of armour than would be required for affording sufficient protection to the vital elements of the ship—in other words, her guns, magazines, engines, boilers, and the like. They therefore turned their attention in the direction of still further reducing the proportions of the citadel, and providing the necessary reserve of buoyancy and stability by means of cork cellular compartments, or some similar device which would offer no material resistance to the passage of projectiles, and which at the same time would not be deprived of its buoyancy by being penetrated. The conclusion at which the Committee ultimately arrived was that, "in the absence of any practical experience of the effect of large shells or torpedoes upon such a structure as that we have in view, it is impossible to say with confidence that the object aimed at would be thus attained; but, if it were, consequences of so much importance and value would follow that we think it right to indicate this line of inquiry as worthy of experimental investigation." But it appears now that there are doubts whether the central citadel of the Inflexible provides her with buoyancy and stability independently of the unarmoured ends, and the *Times* asserts that, notwithstanding the consideration which has been given to this point and the importance it has been seen to have in the efficient working of the central citadel principle, it has either been lost sight of or misapplied at our own Admiralty. The leading journal declares that recommendations of the Naval Committee have either been overlooked or set aside, and the Inflexible and other ships of her type have been designed and are being built so as to have no stability whatever, independent of the unarmoured ends. In other words, we are told if the ends were to be so far injured by torpedoes or by shell fire as to be unable to retain any buoyancy or stability, any one of these ships would inevitably capsize. This is indeed a serious matter if true, and it would go far to render these ships dreaded by our seamen, who have not yet forgotten the fate of the Captain. We fully agree with the *Times* in the importance of an authoritative decision on the question, and join it in urging that experiments should at once be made to show whether the Inflexible, Ajax, and Agamemnon are absolutely safe in respect of stability as they are being built, or whether an alteration in the distribution of armour is necessary in order to render them so. If the Admiralty authorities are satisfied that, notwithstanding the deficiency of stability in the armoured citadels of these ships, they are safe, it can do no harm to disclose the grounds upon which this satisfaction is based. The discussion to which this statement has given rise in Parliament unfortunately leaves the matter just where it was, for no less an authority than Mr. E. J. Reed has not hesitated to declare to the House that should the unarmoured ends of the Inflexible be destroyed she would, he believed, inevitably capsize. This statement was made by Mr. Reed after the First Lord had declared that the Admiralty was satisfied with the construction of the ship and of her being free from the most serious defect complained of, and we may rest assured that a naval architect with such a reputation as has been won by Mr. Reed would not hold that opinion in the face of the authorities without having some reason for the faith that is in him. But Mr. Reed is liable, like inferior men, to error. He has been mistaken more than once. Mr. Barnaby denies the conclusions of his non-official brother-in-law with great earnestness, and we do not see how the Admiralty can throw their own officers overboard. It is plain that some decisive investigation and test are demanded to settle the question in dispute.

In the course of next month Admiral Sir George King, K.C.B., will complete his tenth year of non-service, and will consequently be placed upon the Retired List. Sir W. H. Stewart, K.C.B., will then be promoted and take his position on the Vice-Admirals' List above the Hon. A. C. Cochrane, his commission being antedated to November 12, 1876.

Mr. Shaw Lefevre's annual motion respecting the entry of Naval Cadets has now taken a more definite form, and by the discussion to which it gave rise on Monday, it is plain that the question has been narrowed into one of age *versus* competition. Mr. Hunt has declared that he is in no way averse to competition as a principle, but maintains that the age at which cadets are entered renders such a course unadvisable. Then comes the question of extending the age for entry, and if it can be shown that the gain by the introduction of competitive examination is greater than that of entry at an early age, there is little doubt that an alteration will be made in the present system of nomination and entry.

We understand that the Admiralty has decided that in future all acting time served by officers in any rank shall be allowed to count for time and pay as service in the senior grade.

The Flamingo, composite gun-vessel, will be commissioned at Devonport on the 26th instant with a complement of one hundred officers and men.

Some of the river service gunboats which are now in course of construction will be fitted with poops, to increase their accommodation and make them more suitable for service in hot climates.

Boys under training at the home ports are to be sent to the gunnery-ships for a course of gunnery on being rated first class and before being sent into any seagoing ship.

The report that the men of the French Army were ready for the late war even to the last button of their gaiters is a matter of history, and it appears that our authorities have not been overlooking minor details in preparing for the possible embarkation of troops. In looking over every article that might be required we believe that some official discovered that if any large number had to be embarked there would not be spoons enough to supply every mess. The idea of two men using the same spoon was not to be entertained, so, on the chance of their being required, some fifteen thousand extra spoons of the approved pattern were ordered to be delivered by the contractor. It is gratifying to know that we are ready, even to our spoons.

The midsummer vacation of the Naval Cadets on board the Britannia will commence on July 28, and will terminate on September 8.

Vice-Admiral Sir Reginald Macdonald hauled down his flag in the Undaunted at Bombay on May 28, and Admiral Corbett assumed charge of the East Indies Station.

The officers who were employed by the Celestial Government to navigate two gunboats out to China, and who obtained six months' leave for the purpose, have been appropriated by the Admiralty, and will have to relinquish their foreign commands. Lieutenant Hopkins has probably by this time found himself required to take up his appointment "forthwith" on board the Thistle, while Lieutenant Yonge is expected on board the Fly. No doubt these officers will be very pleased to find themselves on full pay and not put to the expense of finding their way home to England on the expiration of their leave, while the Admiralty has been saved the cost of providing them with passage out to a foreign station where their services are required.

Three months after date of issue the Admiralty have found it necessary to amend the programme of shipbuilding and repairs as issued with the Navy Estimates. The principal changes are the increase of the item of £430,455 for steam machinery for her Majesty's ships to £487,233; the decrease of the sum of £394,295 for ships building by contract to £302,517; and the increase in the cost of repairs of ships at other than her Majesty's dockyards from £30,000 to £65,000. The new composite sloops of the Wild Swan class, the new composite gun-vessels of the

Kestrel class, the new gunboats of the Mallard class, and the twelve torpedo lighters, are all to be abandoned; while two new fast torpedo vessels, of 175-horse power, each weighing only six tons, are to be built by contract. In addition to work provided for in the Estimates, the engines of the Hercules, Triumph, Invincible, Monarch, and Lively are to be repaired by contract.

Commander Leicester Keppel, of the Avon, has, we are pleased to hear, received the full approval of the Government for the steps taken by him a few months since to punish the natives of villages in the Congo who pillaged the American schooner John Nickerson. It will be remembered that the Commander of the Avon landed some boats' crews and destroyed the huts of the offenders, being fortunate in carrying out this service without loss, although the boats were fired upon.

There is a strong feeling amongst naval men that Sir George Nares does not deserve even the mild rebuke he received from the Admiralty, to which we alluded last week. Of course, if the Admiralty accepted the Report of the Committee, nothing was left but to let Sir George Nares know it, and in accepting that report they had to put him in the wrong. But all do not side with the doctors, and in a pamphlet, "The Arctic Expedition of 1875-76: a Reply to its Critics," Admiral Richards has taken up his pen to some purpose, and we feel sure the Service, as a whole, will go with him in his remarks. Mr. Clements Markham has also come forward with "A Refutation of the Report of the Scurvy Committee," and when the members have read both these works we can quite believe that some of them will wish they had not been induced to sit in judgment upon Sir George Nares, or had, at least, been more temperate in their condemnation.

Some dockyards appear to be rather more "unfortunate" than others in handling ships going in or coming out of dock. Take Keyham, for example. It was there that the Industry was nearly allowed to turn turtle, and now the Agincourt has "unfortunately" damaged the Admiral-Superintendent's flagship, and knocked to pieces much of that work for the completion of which she has been so long in the hands of the yard. We are told that it was owing to the force of the wind and tide, but as it is only reasonable to suppose that wind and tide are thought of before a ship is sent out into the stream, we cannot hold that the force of them was an excuse for such a bungle. The Agincourt was not built yesterday, and everyone knows how difficult it is to manage such a long and cumbersome vessel, and that ought to have been enough to have ensured additional precautions against accident. She has been in the Reserve for ten years, and it would have been better to have kept her there another day than to have sent her out under dangerous circumstances and have done damage that will take a fortnight and much costly labour and material to put right again. The Admiralty ought to inquire into the causes of such "misfortunes."

A few weeks since it was stated that it had been decided to discontinue the employment of Marines at Chatham yard, and it was added that the dockyard hands were very much pleased to hear it. Yet the employment of Marines on public works appears to be nothing new, for in the reign of Queen Anne there were regulations "for rendering such parts of the Marine regiments as should be on shore more useful," and her Majesty directed that "since there might be occasion for labourers to dispatch necessary works in the several dockyards, she empowered her High Admiral, or the Commissioners for executing that office, to cause to be employed in the foresaid dockyards so many of the Marine soldiers as might be judged fitting, and to make them such daily allowance for the same, besides their ordinary pay, as to him or them should seem reasonable." But these orders were issued before trades unionism had been heard of, and the servants of the country could then be employed to the country's greatest advantage.

We regret to learn that the Bombay Marine Artillery Volunteers, who showed themselves so ready a few months ago to learn how to defend the harbour by manning the turret ships, have now collapsed under the weight of official indifference. According to present arrangements, Artillery from Colaba generally go through some drill on board. But as soon as the men of one battery have attained a certain proficiency in working the guns they are ordered elsewhere, and the new men have to begin with turret-ship drill. Probably some better system of providing crews capable of fighting these costly ships will soon be adopted.

It appears from the particulars of the raising of the Dahomey blockade, which will be found under the name of the Sirius, that the credit of having obtained the payment of the fine by King Gelélé rests with Captain G. L. Sulivan, of the Sirius, Commodore Sullivan not having arrived until negotiations had been brought to a successful termination. The advance was made by the King, who tried hard to induce Captain Sulivan to let him off with a reduced fine; but the officer was firm, and was resolved to "strike ile." We can not say that the account of the operation of counting hogsheads and embarking them struck us as being indicative of a very dignified ceremony, or worthy of a British fleet. But, perhaps, one must do at Dahomey as Dahomey does. Let us have no more of such blockades. They make the Navy rather ridiculous.

We believe the services of Captain Tupman, R.M.A., in connection with working out the results of the observations taken during the transit of Venus, will remain at the disposal of the Astronomer Royal until September next.

There is a society that is quietly and unostentatiously doing its work among our seamen, soldiers, and Marines—a society comparatively little known, but of considerable value to the men among whom its agents are sent. It is the Royal Naval Scripture Readers' Society, which was instituted sixteen years ago by a few naval and Marine officers, who formed a committee at Devonport, raised subscriptions, and commenced a work that was destined to extend itself beyond the hopes of those who inaugurated it. It has been for many years an acknowledged fact that lay help is a necessity to a clergyman in a parish, and if that be the case it becomes an equal necessity to the Chaplain of a Marine division, or to Chaplains of harbour ships, where the men become scattered among their connections on shore. The Readers are employed chiefly at the home ports, but also from time to time, as the funds will admit, at Malta, Bermuda, Hong, Kong, &c., where they visit the ships of war, and work either under the Chaplain, or alone in smaller vessels where no Chaplain is borne. At Portsmouth, Plymouth, Chatham, Deal, and Sheerness they are constantly employed, not only among the men themselves, but among their families also, and the amount of good they are doing is fully acknowledged. The Chaplains, as a rule, are glad to accept the assistance of the Readers, and the men with whom they mix receive them with cordiality; that is, they do so now, but there was a time when the Reader was looked upon as a *rara avis,* and received the cold shoulder. That time, however, is past; the Reader has made his way, and he now finds his knot of friends in whatever ship or barrack he enters. Nor is the known value of the Readers confined alone to those among whom they are thrown. There are many officers high in the Service who have to do with the executive of the Navy who readily admit their worth, and are glad to welcome them to their ships, for after a time they see the result in a diminished black list. It is no disparagement to the Chaplains thus to speak of the Readers, for each work in their own sphere, and there doubtless are times when a Reader can do among men what a Chaplain could not. A Reader mixes among them in their messes and on the forecastle, meets them at the landing-place and on paying off, and often induces them to spend some portion of their time at the Sailors' Home instead of in the potshops and haunts of vice. There is no spirit of cant in this, for a Reader is not permitted to preach; he can only read portions of Scripture and give good wholesome advice, and this he honestly does in time of need. The General Committee, which boasts the names of many distinguished officers, with Vice-Admiral Sir Astley Cooper Key, K.C.B., at their head as permanent chairman, has been transferred to London, but there are branch committees at the other ports, as well as at Liverpool, Glasgow, Edinburgh, and other towns where sufficient interest in the welfare of the Royal Navy can be raised. The Society, however, requires to be still more widely known, for it is supported solely by subscriptions, which at present only enable the Committee to employ fourteen Readers. There is plenty of room for more, seeing there are many home ports as well as foreign stations where our vessels of war are constantly assembled that could be supplied with advantage.

Laloux and Co., Paris, have published for the *Réunion des Officiers* a very neat and ingenious little hand-book to the uniforms of the German Army, containing a series of coloured plates with explanatory text. It appears to us to be a translation from a German work; but, at all events, it is complete, and it shows the reader all the marks in the best dressed Army, taking it all round and for work, in the world, down to the last button of the coat, and it is calculated to give great delectation to the military tailor.

Dr. Humphry Sandwith, C.B., has been good enough to ask "the working men of Great Britain," whom he describes as "his fellow countrymen"—none but "working men," we suppose, being entitled to that privilege—whether they shall fight Russia or not, and we should not take the least notice of the words of such a furious partizan were it not necessary to stigmatise his scandalous statement "that the Tory and Conservative party again calls on the country to go to war for the integrity and independence of the Ottoman Empire." That is a shameless untruth, and Dr. Humphry Sandwith, who certainly would never have written C.B. after his name but for the services he rendered the Turks in fighting against the Russians when he was shut up in Kars, must, we think, be scarcely aware of what he has written. If Dr. Humphry Sandwith were the paid agent of the Omladina, or a Panslavist emissary, he could not write more violent, pernicious stuff than he has condensed into his pamphlet. He describes the well-thought-out and argumentative articles of the *Telegraph, Standard,* and *Pall Mall Gazette* as "absurd twaddle," and in his blind fury against the Turk, for which there appears to be some personal motive, he touches on a subject—*haud inter Christianos nominandum*—which those who know what occurred in the Russian Army on the Danube in 1854, and readers of Captain Burnaby's account of the manners and customs of the Russians in Khiva to-day, may tell him he had better have omitted. A more intemperate, illogical, and utterly foolish writing was never penned.

The "tremendous lying" of the Montenegrins is quite Homeric. It has hitherto done them some service, but they can not "lie" the Turks out of Montenegro, and Mr. Gladstone must prepare another article for the *Contemporary Review* in the nature of an obituary notice if the work of destruction goes on. It is quite true that by the time the Montenegrins are killed by the Turks there will be very few of the latter left either; for, according to the veracious chroniclers who write from Cettinje, whenever a Montenegrin is killed fifty Turks fall, and the same proportions are observed as to the wounded. A curious illustration of the faith reposed by the correspondents in the truth of the stories of Montenegrin victories is afforded by the fact that they all stick to the seaboard, and date from Ragusa, Cettinje, Trebinje, and the like.

General Grant went to the Derby, but did not visit Ascot. However, he has been since very much about, and he has become, like John Gilpin, a citizen of famous London town. The Field-Marshal Commanding-in-Chief has caused intimation to be made to the American General that he will be happy to see him at Aldershot and to have the division out for a field-day, and it is believed that the ex-President appreciates the attention as a soldier would. The banquet given by the Prince and Princess of Wales at Marlborough House on Tuesday last was on a scale of great splendour and magnificence. The Emperor of Brazil had a long conversation with General Grant, and the Empress was very amiable to the wife of the distinguished soldier. The Prince of Wales, with his customary grace and tact, managed to evade any difficulty as to precedence, which is one created by American institutions, inasmuch as an ex-President has no more rank than any other man, and the citizen who has been so highly honoured here, according to our notions, is only a General in the Army of the United States.

There has been a proposal to bring nineteen more battalions of Infantry up to a war strength; not that there is any intention yet of organising an expedition for field service, but as a sort of safeguard against any sudden surprise—to show Europe, in fact, that we are not standing by with our eyes closed, but mean to strike a blow if intervention becomes necessary, or if our interests are assailed. We are sorry to say, though, that some of those whose opinions are called for fear the result of a "war scare," the inevitable result of the war-like paragraphs which would emanate from those who do the "sensational" for the more largely circulating of the cheap dailies. The Government has to take all these things into consideration, and is very much hampered in consequence.

Major-General Stephenson, in his report on the Easter Monday Volunteer Review, has very wisely called attention to the inefficiency of the larger proportion of Volunteer officers, and to the absurdity of the present system, by which the field officers are nearly all "Volunteers," or, what is equally as bad, drawn from the subaltern ranks of the Army. The Volunteers are not, of course, themselves entirely to blame in the matter; but now that General Stephenson has had the manliness to speak his mind, it is to be hoped something may be done to check the evil, which we have over and over again pointed to, but, hitherto, without effect. The War Office could, we believe, if it chose, find a plentiful supply of really zealous officers, who have sold out of the Army as field officers, to accept commissions as Majors and Lieutenant-Colonels, and it ought not to allow General Stephenson's report to pass unnoticed. There are difficulties in the way, we admit; but it must be evident that the Volunteer Service never can be in a state of efficiency whilst men are allowed to jump straightway into Majorities and commands because they have at disposal the sum they are required to put down as an "entrance fee," or by reason of their having passed a few years in the Regulars as subalterns. Yet this is what it comes to as matters stand at present; and we scarcely know which arrangement is the worst, for both of them have the effect of lowering Volunteer rank in the eyes of Service men, and thus keeping out the class of officers General Stephenson would desire to find accepting commissions.

The "Army List" makes it appear that Captain A. H. Hyslop, 98th Regiment, has been appointed Aide-de-Camp to Sir A. Musgrave, K.C.M.G., the new Governor of Jamaica. Captain Hyslop was on Sir William Grey's Staff, but returned to England months ago, and does not resume duty at Jamaica. Another error will be found under the Australian

Staff. Lieutenant Hardtman-Berkeley, 107th Regiment, is on the Staff of Mr. W. W. Cairns, C.M.G., Governor of South Australia, not on that of Sir Arthur E. Kennedy, K.C.M.G., C.B., in Queensland. And, again, Captain A. Collins, 57th Regiment, is Aide-de-Camp to the acting Governor of Ceylon, the Hon. A. Birch, not to Sir James Longden, as one would suppose.

If it is really imperative that the troops at Aldershot should now and again be under arms in the scorching sun, is there any reason at all why the "Be calm" should not occasionally be sounded? A few minutes' rest judiciously given would save many men from falling out, and, perhaps, save some few lives, too. The strain of a field-day is too great for the young lads who constitute the bulk of the rank and file of the regiments.

The appointment of Lieutenant-Colonel commanding the companies of Royal Engineers at Aldershot, held lately by Lieutenant-Colonel C. E. Cumberland, R.E., is not to be filled, and the companies will, with the troops of Royal Engineer Train, be under command of Lieutenant-Colonel Sir Howard Elphinstone, K.C.M.G., in future. The idea of having a Lieutenant-Colonel in charge of two companies—200 men, at the outside—was indeed ridiculous, and had the effect of lowering both the rank and the corps in the eyes of the public.

Colonel the Hon. A. G. C. Chichester, on promotion to Major-General, will be placed on the establishment junior to Major-General A. Fytche, C.S.I., Bengal Staff Corps, Colonels W. A. Stratton, W. H. Seymour, C.B., and Sir W. Russell, Bart., C.B., standing between him and Major-General D. M. Stewart, C.B., Bengal Staff Corps, to whom Colonel Sir Frederick FitzWygram, Bart., will be placed junior; Colonels J. C. Guise, V.C., C.B., and J. W. Cox, C.B., will be placed next after Sir F. FitzWygram, and then will come the name of Major-General Sir H. W. Norman, K.C.B., Bengal Staff Corps.

Have the Volunteers no friends in high quarters? For years past they have been asking in vain to be allowed a few mounted policemen to keep the ground for them on occasions when they are assembled in large bodies for brigade drill. This modest request, however, has met with no response, and the Brigadiers who have been deputed by the Horse Guards to superintend the manœuvres have had, after vainly attempting to get the men clear of the mob, to give up their task in utter hopelessness. This season, it is true, Colonel Henderson has seen his way clear to granting the services of three or four mounted policemen. But what are three or four men, to keep in order a London mob of as many thousands? We know of a no more pitiable sight than to witness the praiseworthy endeavours the officers of the Guards make to "drill" brigades on a Saturday evening under the trying circumstances to which we refer. Nor are the Volunteers less deserving of sympathy. But it is time that the War Office took some notice of the matter. Better would it be to dispense with the services of the Volunteers altogether than to subject them to the indignities they are made to suffer week after week in the parks. It was only the other evening the commanding officer of one regiment was pulled from his horse because he gave offence to a number of cricketers who had had the audacity to pitch their wickets directly in the centre of the ground set apart for the movements, whilst a company of another regiment was stoned, the policemen having "made themselves scarce," after doing all in their power to keep the roughs in order. It is not creditable that the War Office should have found no means of putting an end to such disgraceful scenes, which have been enacted week by week for years past, and for which it, and it alone, is responsible. The Volunteers are told distinctly that unless they assemble in sufficient numbers for instruction in brigade drill their capitation grant for the year will be forfeited. Yet having obeyed orders, no steps at all are taken to ensure their being instructed; indeed, they, the Brigadiers, and their Staffs are made laughing-stocks of. When omnibus drivers and cabmen have been summoned for driving into regiments marching through the streets, the magistrates before whom they have appeared have shown no mercy. Is there no law by which the blackguards who muster in the parks, only to render themselves objectionable, can be punished? If so, the Chief Commissioner of Police ought to adopt such measures as would allow of the law being carried into execution.

The number of "special annuities" the Government of India offers this year are ninety, and so eagerly have they been snatched at that by April nearly the whole of them had been bespoken. It is three years since this means was hit upon for thinning the senior ranks of the local Army and Staff Corps, and the benefits which have resulted are so questionable that already there are indications that those who are anticipating retirement next year may be grievously disappointed at finding the liberal terms now offered have been withdrawn. What was really wanted was a scheme which would have had the effect of getting rid of the more elderly field officers coming forward for their Colonel's allowance. But this is just what the arrangement introduced in 1874 has not done. It has offered to younger and junior officers a favourable opportunity of retiring, whilst the very men whose cases it was hoped it might have met remain enjoying their idleness, and receiving full pay for doing nothing. Such a result, it is evident, was never anticipated by those who voted the funds. Altogether the Staff Corps system is proving a severe tax upon the resources of India, and whatever may be the military view with regard to it, the tax-paying portion of the community has good reason for the belief, so often expressed, that it does not get anything like its full money's worth for its money.

A very large number of officers who have long determined to quit the Army are only holding on to see whether the recent consideration of their grievances by Lord Penzance's Royal Commission will result in their being offered better and more equitable terms. In one double-battalion regiment we know of a Lieutenant-Colonel, a Major, and four Captains will at once send in their papers when they know for certain what the new arrangements are.

A Distinguished Service Reward of £100 per annum for the Royal Artillery recently fell vacant by the appointment of Lieutenant-General W. H. Askwith to a Colonel-Commandantship of the Royal Artillery; one of £100 for the Royal Engineers becomes disposable by Lieutenant-General Sir Henry Harness' promotion; one of £50, for the non-combatant ranks, is vacant by the death of Lieutenant-Colonel F. Feneran, Paymaster on the Half-Pay List; and one of £100, for the Indian Army, by the succession of Colonel H. E. L. Thuillier, C.S.I., Royal (late Bengal) Artillery, to Colonel's allowances.

During his sojourn at Aldershot, where he will reside during a portion of the drill season, H.R.H. the Duke of Cambridge will, it is understood, occupy the Queen's Pavilion, his own quarters being reserved for the Adjutant-General, Lieutenant-General Sir Charles Ellice.

The full-dress uniform of the new Army Accountants' Department will be of scarlet with, it is believed, blue velvet facings. The undress uniform is to be a frock-coat of "Staff pattern" with "frogs."

It is rumoured that the dual office of Director of Artillery and Stores is likely to revert to two separate appointments, viz.—a Director of Artillery and a Director of Stores. The former would have the control of the manufacturing departments, while to the latter will fall the administration of all *munitions de guerre*. Commissary-General Gordon, C.B., would doubtless be the Director of Stores. Considering that his years are verging towards the range of his official tether, and that the country can ill afford to lose his abilities, the policy of the appointment will be approved on all sides.

Mr. J. O'Neil, of the War Office, is to be the Chief of the new Paymasters' Department, which is to be shortly organized. Mr. O'Neil entered the Ordnance Department in November, 1853, was promoted to second class in the Consolidated War Office June, 1861, and subsequently became senior clerk of the Finance Department.

Mr. T. D. Piggott, a clerk in the War Office, has been appointed Controller of her Majesty's Stationery Office. Mr. Piggott's service dates from May, 1859, as a temporary clerk. He was made an established clerk in April, 1860. The Opposition seem to have taken exception to the appointment. The fact of his having acted as Private Secretary to two Liberal Under-Secretaries would scarcely of itself have been viewed as a recommendation of Mr. Piggott.

Captain B. G. Hall, Royal Marine Artillery, Military Instructor to the Corps of Royal Marines, has been appointed an Instructor in Tactics, Military Administration, and Law, at the Royal Military College, Sandhurst, vice Captain F. H. W. Milner, R.A., who leaves the College on appointment as District Captain under the new organization of the Royal Artillery. Captain Hall joined the Service July 1, 1861; became First Lieutenant, August 3, 1867; Captain, April 1, 1876; passed through the Staff College, December, 1872; and was appointed Military Instructor, January 10, 1874.

Colonel P. S. Thompson, C.B., commanding the Brigade Depôt at Sunderland, is transferred to Beverley, vice Colonel the Hon. A. G. C. Chichester, promoted, and Colonel P. Robertson-Ross, C.B., at Halifax, to Perth, vice Colonel W. A. Stratton, promoted.

More than a year ago a Committee—composed of Mr. Ralph Knox, of the War Office; Mr. A. C. Haliburton, Assistant-Director of Transport and Supplies; and Major Buller, C.B., Deputy-Assistant Adjutant-General—was appointed to inquire into the establishment of the War Office, with the view to reduce the numbers on the permanent staff. As a result of this inquiry, it is understood to be in contemplation to retire about 130 of the present clerks. Some years since, when a similar large reduction had to be made, inducements to retire were held out by adding a percentage to the actual service, so as to increase the superannuation, this concession being granted on the plea of abolition of office. By the previous arrangement, many who had the ability, or the opportunity, to enter new spheres of life, took their retirement; while others, who lacked this, naturally clung to the old ship. As further volunteers for retirement on this scale are not forthcoming, and as Mr. Hardy would doubtless find much opposition in carrying out the contemplated further reductions, it becomes necessary to put forward some greater inducements than those already existing. It is, therefore, purposed to introduce a bill during the present Session to authorise the grant of special allowances to those who will now be compelled to retire. One point naturally suggests itself—the ease with which ways and means of a beneficial nature are found when the matters at issue affect the interest of those at head-quarters. When we proceed further afield, how many considerations have to be weighed, regulations to be framed, and so on, before grievances can be equitably, if ever redressed. Take, for instance, the case of the Royal Marines. Goodness knows when their case will be settled. The House must be sick of hearing that it is still "under consideration," and now another Committee has been assembled to further delay the issue. Then there is the Army Promotion and Retirement Scheme. The mode of redress, amount of compensation, &c., have all been duly determined by a Royal Commission, whose Report has gone the round, times without number, of the Triumvirate, the Secretary of State for War, Horse Guards, and Treasury; but as to real progress to a final settlement, that seems to be adjourned, waiting for the toast—"A sanguinary war or a sickly season"—to be fulfilled, so as to thin out the upper ranks, and thus give a flow of promotion without incurring expenses.

His many friends will be sorry to learn that Mr. H. A. Greene, the Director of Contracts at the War Office, has been absent from duty for about two months, owing to illness of a painful character. Sir William Drake, Director of Supplies and Transport, is also absent from illness.

But two deaths have occurred on the establishment of Line General officers since the beginning of the year, and but one Colonelcy has had to be filled in the whole six months. Rarely does it happen that promotion is so slow as it has been these last six months. The fates would seem to be against the Army in every way.

The following promotions take place in consequence of the death of Lieutenant-General Sir Henry James, Royal Engineers, which occurred on the 15th instant:—Major-General Sir H. D. Harness, K.C.B., to be Lieutenant-General; Colonel S. Westmacott, Royal Engineers, to be Major-General; Major T. P. Tuberville, half pay, late Royal Artillery, to be Lieutenant-Colonel; Captain F. C. Ruxton, 29th Regiment, to be Major.

The eight District Captains appointed under the provisions of the scheme for the reorganization of the Royal Artillery are to be made supernumerary, which will allow of seven of the supernumerary Adjutants being taken on the establishment of the Royal Artillery. One of the officers, Captain F. H. W. Milner, is already supernumerary, having been removed from the establishment when he took up the appointment of Instructor of Tactics at the Royal Military College, he and Captain G. A. Noyes being in possession of certificates from the Staff College, and Captain H. M. J. Feilden of one from the Advanced Class. The "District Captains" enter upon their duties from July 1.

To cast an event by straws is, as a rule, not wholly profitable; but it may be recollected that cotemporal with the declaration of war in 1854 authority was busily engaged on head-dresses and Cavalry overalls. The Guards took the forage cap, the result of much Minervian wisdom, with them to the Crimea. It certainly was a forage cap, and it must be admitted, as matter of congratulation to the Army, that it never returned to England. The Cavalry overalls, which were also sanctioned at that period, were most decidedly over and beyond anything which has ever passed into regulation. A muddy grey colour, with chrome yellow stripes, they were also decently interred, unwept, before Sebastopol. Authority is now very busy on head-dresses and Cavalry uniform, and we are all very anxiously watching the straws of sartorial policy.

The following officers of the Indian Army have succeeded to Colonel's allowances from the 18th instant, viz.:—Colonels A. Maclean, Bengal Staff Corps; and E. J. Lawder and G. R. Phillips, Madras Staff Corps.

Major-General Sir H. D. Harness, K.C.B., becomes a Colonel-Commandant of the Royal Engineers, vice Lieutenant-General Sir Henry James, deceased. He served in the Indian Mutiny campaign (of 1857-59 as commanding Royal Engineer, including the operations at Cawnpore against the Gwalior Contingent, from November 25 to 29, and battle of December 6, 1857 (mentioned in dispatches), siege and capture of Lucknow (mentioned in dispatches, and thanked by the Governor-General in Council), and subsequent operations in Rohilcund and Oude (C.B., medal and clasp). He joined the Army May 24, 1827, and became Major-General November 23, 1870.

Surgeon-Major Carden Roe has left Ireland for the Cape of Good Hope in H.M.S. Orontes, in medical charge of the 88th Connaught Rangers. The regiment having landed, Mr. Roe is directed to hand over his charge to an officer on the medical staff at the Cape, and to make his way back home again by the most convenient route. We wonder how much the little trip made by this medical officer will cost the public?

REVIEWS.

The Science of Language. By Abel Hevelacque. Translated by A. Keane, B.A. (Chapman and Hall.)

Messrs. Chapman and Hall have undertaken a task which is calculated to render the greatest assistance to the student and general reader in the study of technical science. A comprehensive project has been set on foot for the publication of an exhaustive series of works on each and all of the sciences of the day by MM. Reinwald et Cie. Similar arrangements have been made with the best writers and recognized authorities here, which will enable the publishers to present the series in an English dress. This series is introduced by the present admirable volume on the "Science of Language." When the series is finished it will form a complete collection of standard works of reference on all physical and mental sciences—in short, a library of contemporary science.

Subtle Brains and Lissom Fingers. By Andrew Wynter. (Hardwicke and Bogue.)

A new edition of the late Dr. Andrew Wynter's popular work, by Mr. Andrew Steinmetz. This is an exceedingly instructive volume, and will be found useful by readers of every class. In the article on the "*Times* Newspaper in 1798" the author says:—"The nature of the advertisements of the last century differed but very little from those of the present day. 'Elegant villas' were advertised to let in much the same style as at present. There was 'Garraway's' in the City and 'Christie's' in Pall-Mall. We find that at the former a live male elephant and 1,095 elephants' teeth are to be sold 'by the candle.'" The custom of selling "by the candle" dates from the reign of Queen Anne. A small piece of candle was lit, and the biddings proceeded till it went out, the last bidder claiming the lot.

Cook's Tourist Handbook: Holland, Belgium, and the Rhine.

This compilation is not only a complete guide for Holland, Belgium, and the Rhine, but it also contains practical information that will be found useful by tourists generally.

The Competitive Elementary Geopraphy. By R. Johnston, F.R.C.S. (Longmans and Co.)

A very useful little book, intended for public and private schools, and useful for all classes.

The History and Legal Effects of Brevets. By James Fry. (Trübner and Co.)

The author of this work, which deals with the origin and history of brevets in a very exhaustive manner, observes in his preface that commissions by brevet in the United States have lost much of their value, having been deprived by recent legislation of the powers and privileges which by the common military law attached to them. In England it is a different matter, where they form a very important ingredient in military organization and "largely affect the whole system of promotion." The author claims credit, very justly, for collecting facts and finding authorities, many of which were not easily accessible. The work will prove valuable as a book of reference to those interested in the question.

The Children's Own Book of French Composition. By M. Emile D'Auquier. (Hachette and Cie.)

This little work seems well adapted for affording to young pupils a grammatical knowledge of the French language, particularly when the author's "Directions for Use" are properly observed. M. Bué, who introduces it to the public, considers it to be a book of exercises within the reach of even young pupils, and calculated to enlighten children as to the mechanism of the language and as to the most essential principles of grammar.

Hearths and Watchfires. By Colonel Colomb, F.S.A. (Routledge and Son.)

This tale of the Crimean war, written by a well-known *raconteur*, is worth reading.

Major O'Gorman asked the Secretary of State for War on Monday whether the Royal Warrant on Army Promotion and Retirement would be issued before the Parliamentary Session of 1877 concluded. Mr. Hardy repeated what he had said on a former occasion, that every means had been taken to urge the parties concerned in it to get through their business as soon as possible, for his sincere desire was, having in view the interests of the officers, to bring the Government scheme on the subject before the House without any unnecessary delay.

The Army.

1st Life Guards moves to-day from Windsor to Aldershot for the drill season.

6th Dragoon Guards (Carabiniers) has moved from York to Colchester, where it remains until its departure for India during the winter.

2nd Dragoons (Scots Greys). The regiment has proceeded from Leeds to York, where it will winter.

6th Dragoons. Previous to their departure from Dublin, the regiment gives a grand assault of arms at the Rotunda. The Gymnastic Club gained great encomiums at the assault held in the Riding School, Royal Barracks, a few weeks ago. The regiment, during its stay in Dublin, has contributed in many ways to the amusement of the inhabitants.

9th Lancers. Paymr. (Capt.) M'Farlane has leave to Abbottabad from the 15th inst. to Nov. 15.

15th Hussars. Lieut. Holland has been appointed instr. of musketry, vice Lieut. Sewell, relieved.

16th Lancers are expected to proceed at the end of August to Aldershot from Shorncliffe, to relieve the 17th Lancers.

17th Lancers move from Aldershot on the close of the drill season, and will not winter at the Camp, as was at one time proposed.

20th Hussars has marched from Brighton to Aldershot for the drill season, and returns to its former quarters at the end of July.

21st Hussars will commence their march from Hounslow at the end of July.

Royal Artillery.

Col. W. E. M. Reilly, C.B., is to continue in his appointment as commandant of the batteries of Royal Horse Artillery at Aldershot, on the reorganization of the Royal Artillery on the 1st proximo.

Capts. A. K. Seacome, 5th Brig. (late Madras), and S. C. Halliday, 1st Brig., have been granted leave from India to England, the former on medical certificate, the latter for six months, on private affairs.

Lieut. A. Broadfoot, C Brig. R.H.A., has been assigned local rank as captain in India.

Major M. F. Downes, 5th Brig., the *Times* says, has been appointed to the command of the local forces in South Australia.

Capt. G. J. Gillies has passed the lower standard examination in Hindostanee.

Capt. S. Parry, 1st Batn., has been assigned local rank as major in India from the 15th ult.

Capt. R. Wace, whose term of service as Assist.-Inspr. of Factories in Bombay expired on the 12th ultimo, has been reappointed for a further period of two years.

The adjutancy of the 2nd Brig., at Sheffield, is vacant by the appointment of Capt. A. Warry to the brigade majority-ship at Portsmouth; that of the 9th Brig., at Dover, by Capt. H. W. Isaacke's appointment as brigade-major at Devonport; and that of the 10th Brig. by Capt. J. W. Bernard's appointment as brigade-major at Queenstown.

Paymr. (Major) J. C. Mansergh has been appointed paymr. to the Artillery of the Dublin District under the new organization from July 1.

Royal Engineers.

Lieut.-Gen. Sir H. James, late Director of Ordnance Surveys, died at his residence in Southampton, on the 15th inst., after a protracted illness. Sir Henry was the fifth son of Mr. John James, of Truro, and was born at Rosewall, near St. Agnes, in 1803. He was educated at the Exeter Grammar School and the Royal Military Academy, Woolwich, and entered the Army in 1826. Sir Henry was appointed Director of the Ordnance Survey of Great Britain in 1854, a post which he held until 1874. He was also the head of the Topographical and Statistical Department of the War Office until its disseverance from the Ordnance Survey, in May, 1870. Sir Henry was the author of several scientific works, and had published others of a more popular character on antiquities, among the best known being "Notes on the Pyramids," "Essay on Stonehenge and other Similar Structures," "The Tin Trade of the Phœnicians with Cornwall," &c. Almost at the outset of his career, as Director of the Ordnance Surveys, he proposed and carried out the determination of the mean density of the earth by observations on Arthur's Seat, Edinburgh. He brought, in 1860, the art of photo-zincography into practical utility, by which facsimiles of Doomsday-book and many other important national records have been produced. He received during his directorship gold, silver, and bronze medals from various Governments where his productions have been produced. His commissions bore date as follows, viz.:—Second lieut., Sept. 22, 1826; first lieut., July 22, 1831; capt., June 28, 1842; brevet major, June 20, 1854; lieut.-col., Dec. 16, 1854; brevet col., Dec. 16, 1857; col., Sept. 9, 1862; major-gen., April 20, 1870; lieut.-gen., Nov. 21, 1874; and col.-com., Nov. 21, 1876.

Grenadier Guards. Col. Burnaby, commanding the 3rd Batn., entertained at dinner, on Sunday evening, at the Tower, the following officers who served in the Crimea:—Of those who left England with the 3rd Batn.—Lieut.-Gens. Sir F. W. Hamilton, K.C.B., Hon. Sir G. Cadogan, K.C.B., and Brownrigg, C.B.; Major-Gen. Prince Edward of Saxe-Weimar, C.B.; Cols. Higginson, C.B., de Horsey, Sturt, and Sir C. Russell, V.C.; Lieut.-Cols. Sir J. Burgoyne, Sir J. Fergusson, and Bathurst, and Capt. Munro. Of those going out subsequently—Major-Gen. M. Bruce; Cols. Alexander, Lloyd Wyn, Clive, Viscount Stormont, Stuart, M.P., Cooper, Gascoigne, Davie, Hon. J. Stanley, Malet, Hon. C. Lindsay, R. W. Hamilton, and Reeve; Capts. Digby, Collins, Mr. H. J. Lawrence, and Mr. C. R. Nicoll. There were also present—Gen. Sir H. Ferguson Davie, formerly commanding the 3rd Batn.; Lieut.-Gen. Hon. Sir A. Gordon, K.C.B., and Lieut.-Cols. Johnston (former adjt.), Millman, C.B. (major of the Tower), Loyd-Lindsay, V.C., and Lowe. Of the officers now serving in the 3rd Batn. there were present Col. Earle, C.S.I.; Lieut.-Cols. Blundell, Hon. W. Carington, M.P., and Hubbard; Capts. Goddard, the Master of Saltoun, and Bonham; Lieuts. Lord Algernon Percy, Viscount Newark, Lloyd, Elwes, and Hon. Tyrwhitt Wilson; Mr. A. L. Fernandez and Mr. Leeding. Col. Burnaby proposed the following toast, which was drunk in silence—"To the memory of the officers of the Grenadier Guards who fell in the Crimea, or are since dead." They comprise Field-Marshal Lord Raglan, Gen. Sir J. Simpson, Major-Gen. Sir H. Burnard; and Major-Gen. Sir A. Wellesley Torrens, and the following officers of the 3rd Batn.:—Cols. T. Wood, Hon. F. G. Hood, C. Ridley (successive commanders of the battalion), and C. G. Ellison; Lieut.-Cols. A. Cox, E. Packenham, and C. Hogge; Capts. Hon. H. Neville, Sir R. Newman, Viscount Balgonie, H. W. Quin, C. Turner, F. Davies, A. Mitchell, A. Ponsonby, and the Hon. A. F. Egerton; Lieut. Hon. A. Poulett, and Messrs. Huthwaite, Wardrop, Lilley, and Hamilton.

3rd Buffs. Capt. Graham has been appointed to act as paymr. to the 1st Batn. during the absence of Capt. Kerr on leave in England. Lieut. Ferguson, 1st Batn., has passed the lower standard examination in Hindostanee.

4th King's Own. The 2nd Batn., on removal from Ireland in the autumn, proceeds to Aldershot.

5th Fusiliers. Capt. Beamish, 1st Batn., has applied for leave from India to England. Lieut. Collins, 1st Batn., a probationer for the Indian S.C., has passed the higher standard examination in Hindostanee.

6th Regiment. Lieut. Meredith, 1st Batn., has been assigned local rank as capt. in India, with effect from the 9th ultimo.

9th Regiment. Capt. Kane, 1st Batn., is about to retire on temporary half pay.

12th Regiment. Sub-Lieut. Onslow, 1st Batn., has passed the lower standard examination in Hindostanee.

14th Regiment. Lieut. Morris, 1st Batn., a probationer for the Indian S.C., has passed the examination in Persian, and Lieut. Marrett, also a probationer, the higher standard in Hindostanee.

17th Regiment. Lieut. Harris, a probationer, wing officer, 20th Bengal N.I., is about to be admitted to the Bengal S.C., from May 2, 1876. Sub-Lieut. Brownlow, 1st Batn., a probationer for the Indian S.C., has passed the lower standard examination in Hindostanee.

18th Royal Irish. Sub-Lieut. Downes, 1st Batn., has passed the lower standard examination in Hindostanee.

22nd Regiment. Capt. Davies, 2nd Batn., has been granted leave from India to England, on medical certificate.

24th Regiment. The 2nd Batn. moved from Dover to Chatham on Thursday, and took over the quarters vacated by the 29th.

25th Regiment. The 2nd Batn., and depôt 1st Batn. attached, moved on Thursday from Dover to Aldershot, and are encamped on Rushmoor.

29th Regiment proceeded on Thursday from Chatham to Aldershot.

30th Regiment. Lieut. Evans takes up duty as Superintendent of Gymnastics at Devonport on the 1st prox., for two years.

39th Regiment. Lieut. Francis, a probationer, officiating squadron officer 1st Sind Horse, is about to be admitted to the Bombay S.C. from May 11, 1876.

41st Regiment will winter at Aldershot when it moves from Pembroke Dock at the end of July.

Royal Marines.

Capt. C. C. Suther, R.M.A., has been appointed military instructor, vice Capt. B. G. Hall, appointed an instructor in tactics, at the Royal Military College, Sandhurst.

Capt. B. G. Hall, R.M.A., on appointment to an instructorship at the Royal Military College, will be placed on the Supernumerary List, Lieut. J. Le C. Robilliard being promoted to the vacancy.

Capts. E. W. G. Byam, G. A. Haseltine, and R. H. Dwyer, and Lieuts. J. F. Luxmoore, C. G. B. Dick, and W. T. Adair proceed to India for duty during the meeting of the National Rifle Association.

49th Regiment moved on Wednesday from Gosport to Aldershot.

60th Rifles. Lieut.-Col. Hinxman, 4th Batn., has been granted leave from India to England, on medical certificate.

62nd Regiment. Sub-Lieut. Wallace has passed the lower standard examination in Hindostanee.

66th Regiment moved on Wednesday from Gosport to Aldershot with the 49th Regt.

70th Regiment. Lieut. Hamilton, a probationer for the Indian S.C., has passed the higher standard examination in Hindostanee.

88th Connaught Rangers embarked at Kingstown on Saturday for the Cape. Referring to the departure of the regiment, the *Irish Times* says:—"It seems to us a rather strange system which for many years past has obtained—that of excluding the national regiments from doing duty in the capital of Ireland. The departure of the detachment from Castlebar was marked by a most enthusiastic display of good feeling on the part of the inhabitants. Large crowds assembled and cheered, with real Hibernian spirit, the gallant Rangers, for the most cordial sentiments towards them always predominated. The band of the South Mayo Rifles attended from Westport specially. On Friday the colour-sergeants, on the part of the detachment, presented the Very Rev. Canon Magee with a suitable address and testimonial in recognition of his attention to their spiritual welfare. The rev. gentleman replied to the address in language couched in the most glowing terms."

99th Regiment. The party, under Lieut. Lang, which proceeded to Cahir on the 21st ultimo, to take charge of the barracks at that station until the arrival of the 3rd Dragoon Guards, rejoined their detachment at Clonmel on the 12th inst. Lieut. Christie has joined the detachment at Templemore on completion of a four months' course of garrison instruction at the Curragh.

104th Fusiliers. The period of Staff service of Lieut. Sherwill, Superintendant of Gymnastics at Devonport, expires on the 1st prox.

Rifle Brigade. An incised brass has just been placed in one of the perpendicular panels of the wall of the north aisle of Winchester Cathedral to the memory of the late Capt. the Hon. E. C. Vaughan. The following is the inscription:—"In memory of the Hon. Edward Courtenay Vaughan, captain, 4th Battalion Rifle Brigade, third son of the fourth Earl of Lisburne, who died at Umballa, India, on Oct. 4, 1876, aged twenty-four years. This brass is erected by friends in the regiment." Lieut.-Col. Stephens is expected to join the 1st

Batn. at the Curragh in a few days, on promotion from the 2nd Batn.

Medical Department. Surg.-Major Carden Roe embarked in H.M.S. Orontes on Saturday in medical charge of the 88th Regt. for the Cape of Good Hope, and on completion of that service will return to England and report himself at the Horse Guards. Surg. B. L. Ward has passed the lower standard examination in Hindostanee.

THE AUXILIARY FORCES.

MILITIA.

Northumberland. Capt. and Hon. Major W. Adamson has compiled a very interesting and laborious record of the career of the regiment, which is perfectly well described in its title, "Notices of the Services of the 27th Northumberland Light Infantry Militia, with a Brief Account of Several Local Corps of Volunteers which were Enrolled in the Town and County of Newcastle-on-Tyne during the War with France towards the close of the last and the commencement of the present Century," and which gives a good deal of curious information, some of which makes us think that "Merry England" and "Old Ireland" have no reason to regret "the good old times." There is one extract which is taken, oddly enough, from a sermon by the Vicar of Newcastle:—"On Monday, March 9, 1761, the deputy-lieutenants and justices' of the peace, acting for Tindal Ward, in the county of Northumberland, met at Hexham to receive lists from the constables of the persons in that ward liable to serve in the Militia; and having been previously informed that a great number of persons were determined to assemble, in a riotous manner, to prevent such lists being delivered, a detachment of six companies from the two battalions of Yorkshire Militia quartered at Newcastle was, at the request of the deputy-lieutenants and justices, ordered by Col. Duncombe from Newcastle to Hexham, under the command of Major Crowe. On the day of meeting they were drawn up in the Market Place, and formed three sides of a hollow square, the Town Hall forming the fourth. Notice was sent round the town by the bellman, desiring the inhabitants to keep within doors, as it was feared there would be a necessity of repelling force by force. From 10 till about 11 o'clock in the forenoon the rioters came in to the number of at least five thousand, armed with pistols, clubs, and other weapons. They surrounded the Militia, who were in number about two hundred and forty, and although the deputy-lieutenants and justices received and heard petitions from several of them (all tending to have the Militia Laws suspended, and not put into execution), and did all that was in their power to convince them of their error, and induce them and their associates to disperse, yet they contemptuously continued together, in the most daring and insolent manner, repeatedly declaring that if their request was not granted they would murder the magistrates, offering large bribes to the Militia if they would lay down their arms, and by turns insulting and threatening them in the most audacious manner. Notwithstanding which the greatest leniency was shown them, and the Militia continued under arms until after 1 o'clock. The rioters still continuing obstinate, and pressing on all sides, up to the very bayonets of the men, with the most desperate threats of destruction, under an imagined security of their not daring to fire, the proclamation in the Riot Act was read. Soon after this the rioters attempted to force the ranks of the Militia, that they might come at the deputy-lieutenants and justices; one of them killed Ensign Hart, with a shot from a pistol, before the Militia gave their fire. A party of the rioters then broke into the ranks, on which the magistrates, seeing themselves and the Militia on the point of destruction, ordered the fire to be given. This was accordingly done, and a considerable number of the rioters were killed and wounded. This giving a check to the fury of the rioters, they fled and were dispersed. The officers immediately gave orders for the firing to cease, which order was obeyed without delay, though not without reluctance, the private men being greatly exasperated at the repeated insults which they had received. Had the fire been given much sooner, the justices and deputy-lieutenants might have been accused of a want of tenderness to their fellow subjects. Had it been deferred a few minutes longer, a general massacre must have ensued." For this offence Paterson, one of the rioters, was executed according to his sentence:—"To be drawn upon a hurdle to the place of execution on Wednesday, Sept. 30 next, and then and there severally hanged by the neck, to be severally cut down, and have their entrails taken out and burnt before their faces; to have their heads severed from their bodies, and their bodies afterwards severally divided into four quarters, and their heads and quarters disposed of at his Majesty's pleasure." In 1813 there appears the following curious entry:—"The Northumberland Militia, at present quartered at Kilkenny, have subscribed a day's pay to the Russian sufferers.—Newcastle Paper." Major Adamson deserves the thanks of the county and of the regiment for his researches, and for the creditable result of his labours.

Fermanagh. Capt. Hort has been granted leave of absence from this year's training, on the recommendation of a medical board.

Sir H. Havelock asked the Secretary for War on Monday why brevet majors were deprived of their brevet pay of 2s. a-day while serving as adjutants of Militia and Volunteers, that brevet rank and pay being granted either for long service or for service in the field. Mr. Hardy was understood to say he had recently decided that adjutants of the class described, who had been appointed since Feb. 2, 1871, should receive the pay in question, dating from April 1 this year.

VOLUNTEERS.

Hampshire Mounted Rifles. In answer to a question by Mr. C. Garnier on Thursday, Mr. Hardy said that the corps having been a very small one, he could not recommend that the resignation of Lieut.-Col. Bower, who was sixty-seven years of age, should be cancelled, in consequence of the difficulty experienced in finding an officer to succeed him. Mr. C. Garnier said he would call attention to the subject on going into committee of supply.

Huntingdon Light Horse, which had been attending troop and squadron drill at Huntingdon, Bedford, Cambridge, Higham-Ferrers, and elsewhere during the month of May, assembled for regimental drill and inspection at Northampton on Monday, the 4th inst., for three days, Col. Oakes, C.B., the inspecting officer of the Auxiliary Cavalry of the district, being present the whole time. It is understood that Col. Oakes was satisfied with all he saw of the corps. The following prizes for proficiency in Cavalry equitation and swordsmanship were presented by her Grace the Duchess of Manchester to the successful competitors in these exercises, her Grace honouring the corps with her presence during the whole of its training:—Corpl. L. Willson, regimental distinguishing badge and Duke of Manchester's prize (an equestrian statuette of a light horseman, in silver); Private T. W. Graves, Duchess of Manchester's prize (a diamond pin), for being best recruit of the year; Sergt. C. C. Mellor, troop distinguishing badge; Private S. Holmes, troop prize, given by Capt. Duberly; Private T. H. Smith, troop prize, given by Capt. Gaskell; Private T. W. Graves, troop distinguishing badge and Capt. Solhill-Turner's cup; Corpl. W. Harris, troop distinguishing badge and Capt. Arkwright's cup for best horse in troop; Private Thomas Smith, troop distinguishing badge and Capt. Stanley's 1st prize (a cup); Private T. Hall, Capt. Stanley's 2nd prize (a cup); and Private Oscar J. Triplow, Dr. Robinson's cup, being second best recruit of the year.

THE INDIAN ARMY.

11th Bengal Cavalry. Brevet Major A. H. Prinsep, commandant, has been granted six months' furlough to Europe.

1st Bengal N.I. Lieut. A. J. F. Reid, Bengal S.C., has been appointed wing officer, vice Miley, appointed to Pay Department.

25th Bengal N.I. Lieut. G. H. B. Coats has been confirmed in his appointment as wing officer, vice Thornton.

26th Bengal N.I. The death is announced of Col. J. Williamson, commandant, as having occurred at Mean Meer on the 16th ult., aged forty-nine years. Col. Williamson served with the field force against the rebel Rajah of Ungool in 1847-48, was brigade-major to the Punjab Irregular Force, and Staff officer of the field force under Brig.-Gen. Chamberlain, employed in the Meranzaie Valley in 1855, and present at the engagement at Dursummund (medal with clasp). Commanded the 26th, then the 18th Punjab Infantry, throughout the operations in the Eusofzaie Hills in April and May, 1858, under Sir Sydney Cotton, and led the attack on the fanatic stronghold on the heights above Sittana. Commanded the regiment throughout the final operations against the rebels of the force under Brigdr. Holdich on the Nepaul frontier in Nov. and Dec., 1859. Again commanded the regiment in Bhootan from Dec., 1865, to March, 1866, including the advance into the interior, resulting in the capture of Suleeka and recovery of the British guns which fell into the enemy's hands at Dewangiri (clasp). He joined the Army Jan. 20, 1845; became lieut.-col., Jan. 20, 1871; and col., Jan. 20, 1876. Lieut. L. Dening, wing officer, has obtained eighteen months' leave to England on medical certificate.

36th Bengal N.I. Lieut. E. M. Nedham has been confirmed in his appointment as wing officer, vice Molyneux, transferred to 1st N.I.

4th Punjab Infantry. Lieut.-Col. H. P. Close, commandant, has arrived home on leave.

4th Sikh Infantry. Lieut. C. Dempster has been granted furlough to England for two years on private affairs.

10th Madras N.I. Col. W. Ramsay, second in command, has arrived home on leave.

11th Madras N.I. Surg. C. A. Harvey, in medical charge, has applied for sick leave to England.

2nd Bombay N.I. We (*Bombay Gazette*) regret to notice the sudden death at Belgaum of Capt. C. C. Y. Butler, which was followed almost immediately by that of his wife. A correspondent, writing from Belgaum on May 23, says:—"Capt. Butler was all right on Saturday evening, but while sitting in the mess verandah when rain was falling he caught cold. After returning to his house he was seized with diarrhœa during the night, but went to mess again on Sunday morning. He became worse during the day. So late as 6 p.m. the medical officers did not consider his case a serious one, but at 11 he died in a fit. Two medical men were in attendance. The news was broken to his wife, to whom the shock proved fatal, as she was too weak at the time to bear the news." Capt. Butler joined the Army July 16, 1858; became lieut., May 31, 1863; brevet capt., July 16, 1870; and capt., July 3, 1871.

4th Bombay N.I. Capt. S. Carter, adjt., has arrived home on leave.

6th Bombay N.I. Lieut. J. A. P. Nuthall has resumed duty as wing officer on return to India.

9th Bombay N.I. Capt. H. C. Mase, qrmr., has arrived home on leave.

28th Bombay N.I. Col. R. Baigre, C.B., commandant, has been appointed to officiate as Depty. Qrmr.-Gen. of the Bombay Army in the absence of Major A. G. F. Hogg, Bombay S.C., on leave in England.

29th Bombay N.I. Capt. A. Hogg, qrmr., has qualified for promotion, and his name will appear in an early *Gazette*.

The death is announced of Lieut.-Col. F. Feneran, paymr. on the Half-Pay List. The deceased enlisted at the time of the Peninsular war, and served in the ranks during the campaign in Holland in 1814, and at Waterloo in the following year. He received his commission as qrmr. when the 95th was raised for service in 1823, and was subsequently paymr. to the regiment from 1837 to 1854, when he was appointed to the Depôt Battalion at Parkhurst. He retired upon half pay when the Depôt Battalions were reduced in 1870, and was given a Good Service Pension four years ago.

The following arrivals at the Curragh for the drill season are reported by the correspondent of the *Irish Times*:—Col. Sir Archibald Alison, Bart, K.C.B., Depty. Adjt.-Gen.; Lieut.-Col. the Hon. Paul Methuen, Assist. Military Secretary; Col. G. S. Young, half pay, late of the 80th Regt., Assist. Adjt.-Gen.; Capt. P. Yorke, 4th King's, Brigade-Major of the 2nd Infantry; Capt. T. Crosbie, 60th Rifles, aide-de-camp to Major-Gen. Herbert.

An assault of arms was given in the Gymnasium, at Aldershot, on Monday last by the Staff Instructors, assisted by the following officers:—Capt. Ruxton, 29th; Lieuts. Prior, 100th; Barton, 19th; Allen, 98th; and Young, 81st. Among the company were Major-Gens. Sir T. M'Mahon, Bart., C.B., and the Hon. F. A. Thesiger, C.B., and Col. Hammersley.

The Militia Gazette.

WAR OFFICE, June 19, 1877.

Where not otherwise specified the following commissions and announcements bear date June 20, 1877:—

Artillery.

Royal Carmarthen—Sub-Lieut. J. B. Brady to be Lieut.; Oct. 16, 1875.

West Cork—William James Stoyte, gent., to be Sub-Lieut.; May 31, 1877.

Royal Cornwall and Devon Miners—Sub-Lieut. P. T. Clark to be Lieut.; Feb. 2, 1876.

Infantry.

Royal Berks—Lancelot Shute Barrington Tristram, gent., to be Sub-Lieut. (Supy.).

Royal Carnarvon—Charles Warren Roberts, gent., to be Sub-Lieut.

1st Royal Cheshire—Sub-Lieut. C. F. de L. Eardley-Wilmot to be Lieut.; March 3, 1877, with date in the General Militia Service of Feb. 19, 1876.

1st Derby—The undermentioned Sub-Lieuts. to be Lieuts.: A. L. Salmond, April 28, 1875; R. C. Newton, Jan. 19, 1876; A. L. Ussher, April 4, 1877; with date in General Militia Service of May 8, 1876.

West Kent—Capt. T. D. Blake to be Major. Capt. B. Byrne, from the East York Militia, to be Capt. Sub-Lieut. the Hon. H. C. Hardinge to be Lieut.; Jan. 29, 1876.

5th Royal Lancashire—Sub-Lieut. J. H. Connolly to be Lieut.; Nov. 13, 1875. Harold Basil Septimus Critchly Salomonson, gent., to be Sub-Lieut. Harry Forster Thursby, gent., to be Sub-Lieut. (Supy.).

6th Royal Lancashire—For, Qrmr. Loftus Lovick Reade resigns commission, and is placed on a retired allowance, dated April 1, 1877, notified in the *London Gazette* of April 6, 1877, read, Qrmr. Lovick Loftus Reade resigns commission, and is placed on a retired allowance; April 1, 1877.

Royal London—The first Christian name of Major Mackenzie is Waller, and not Walter, as stated in the *London Gazette* of May 8, 1877. Charles Edmund Ralph William Mortimer, Esq., late Lieut. 9th Foot, to be Capt.

1st Royal Surrey—Capt. A. W. Churchward resigns commission.

1st West York—Capt. W. S. Waithman resigns commission.

3rd West York—Percy Tatham Armitage, gent., to be Sub-Lieut. (Supy.); June 4, 1877.

4th West York—Lieut. R. G. O'Hara resigns commission.

Royal Perth—Alexander Anderson, gent., to be Sub-Lieut. (Supy.); June 1, 1877.

Antrim—John Joshua Rowan, Esq., late Lieut. 62nd Foot, to be Capt.

Carlow—Capt. G. A. Warden resigns commission.

Galway—John James Bodkin, jun., gent., to be Sub-Lieut. (Supy.).

Queen's County—The Hon. Crosby Godolphin Trench, late Capt. 1st Dragoons, to be Capt.; June 1, 1877.

YEOMANRY CAVALRY.

Lanarkshire (Queen's Own Royal Glasgow and Lower Ward of Lanarkshire)—Sub-Lieut. A. Ewing resigns commission.

Middlesex—John Edward Chapman Mathews, gent., to be Sub-Lieut. (Supy.).

Nottinghamshire (Southern Nottinghamshire)—Sub-Lieut. P. H. Cooper resigns commission.

Staffordshire—Lieut. J. Y. Buller, Lord Churston, resigns commission.

Westmoreland and Cumberland—Edward Hugh Wilson, gent., to be Sub-Lieut. (Supy.); June 5, 1877.

WAR OFFICE, June 22, 1877.

Where not otherwise specified, the following commissions and announcements bear date June 23, 1877:—

Artillery.

Dublin City—Capt. and Hon. Major W. J. N. Magill to be Major.

Hampshire—Sub-Lieut. W. W. Portal to be Lieut.; July 4, 1874.

Kent—The undermentioned Sub-Lieuts. to be Lieuts.:—J. W. Crooks; March 10, 1875. W. G. Renton; July 17, 1875.

The Prince of Wales' Own Norfolk—Lieut. H. J. Nevill, from the East Kent Militia, to be Lieut. (Supy.).

1st Tipperary—Lieut. T. E. Price resigns commission.

Yorkshire—Sub-Lieut. S. F. Biddulph to be Lieut.; Feb. 9, 1876.

Infantry.

1st Royal Cheshire—The undermentioned Sub-Lieuts. to be Lieuts.:—J. A. Howard; Aug. 1, 1874. H. H. France-Hayhurst; Feb. 9., 1876.

2nd Royal Cheshire—Sub-Lieut. E. Ashton Ogle to be Lieut.; Nov. 13, 1875.

The Royal Cornwall Rangers—The undermentioned Sub-Lieuts. to be Lieuts.:—H. Trelawny; July 10, 1875. H. B. H. Lethbridge; Feb. 23, 1876. J. H. Aspinwall; Feb. 23, 1876.

Royal Cumberland—Capt. J. G. Sharp resigns commission; June 23, 1877.

2nd Derby—The undermentioned Sub-Lieuts. to be Lieuts.:—W. G. Turbutt; May 16, 1874. A. W. Byron; April 14, 1875.

2nd, or North Durham—The undermentioned gentlemen to be Sub-Lieuts.:—Lancelot Baillie; June 2, 1877. Percy Knight Hale Coke; June 2, 1877. Edward Richmond; June 13, 1877.

Royal North Gloucester—Sub-Lieut. G. H. W. C. Rogers to be Lieut.; Oct. 9, 1875.

Hampshire—The undermentioned Sub-Lieuts. to be Lieuts.:—A. Miller; June 23, 1875. H. R. Linzee; July 7, 1875. A. J. H., Earl of Wiltshire; July 31, 1875. F. C. Baring; April 19, 1876.

1st Royal Lancashire—The undermentioned gentlemen to be Sub-Lieuts.:—William Stafford Joseph Barry, William Henry Wyndham Quin, and Gilbert Legh.

2nd Royal Lancashire—The undermentiond Sub-Lieuts. to be Lieuts.:—R. C. de Trafford; June 30, 1875. R. T. S. Wolfe; Sept. 22, 1875. G. C. de Trafford; Dec. 11, 1875.

3rd Royal Lancashire—The undermentioned Sub-Lieuts. to be Lieuts.:—H. J. A. Davidson; Oct. 9, 1875. J. Bayly; April 13, 1877, with date in the General Militia Service of Dec. 4, 1875.

4th Royal Lancashire—The undermentioned Sub-Lieuts. to be Lieuts.:—F. A. Kay; May 5, 1875. H. St. L. Wood;

7th Royal Lancashire—D. H. Doherty-Waterhouse, Esq., late Capt. 3rd Hussars, to be Capt. The undermentioned Sub-Lieuts. to be Lieuts.:—A. S. Vesey; May 12, 1875, with date in the General Militia Service of Feb. 3, 1875. P. G. Parkinson; Aug. 14, 1875.

1st Royal Middlesex—Sub-Lieut. H. G. S. R. Pattinson resigns commission.

Royal Montgomery—Lieut. A. A. Gardner to be Capt.

1st Norfolk—Lieut. A. Mellor to be Capt.

Northumberland—Walter Charles Burrell, gent., to be Sub-Lieut. (Supy.).

Oxford—The undermentioned Sub-Lieuts. to be Lieuts.:—A. C. Baskerville-Mynors; July 31, 1875. G. C. T. W. Fiennes; March 22, 1876. F. C. S. Dodsworth; May 13, 1876.

Shropshire—Sub-Lieut. E. P. Salusbury to be Lieut.; March 29, 1876.

Royal Sussex—Lieut. A. H. Prime resigns commission. The undermentioned gentlemen to be Sub-Lieuts. (Supy.):—Herbert Bethune Patton and Joseph Godman.

2nd Warwick—Lieut. C. M. Beech to be Capt.

East York—James Bargrave Wyborn Wilson, gent., to be Sub-Lieut. (Supy.); June 8, 1877.

2nd West York—The undermentioned Sub-Lieuts. to be Lieuts:—R. L. Allgood; Nov. 13, 1875. A. G. G. Elton; March 20, 1876.

2nd Royal Lanark—Major and Hon. Lieut.-Col. F. W. Johnstone resigns his commission, also is permitted to retain his rank, and to continue to wear the uniform of the regiment on his retirement. Arthur William Addison Carey, gent., to be Sub-Lieut.; June 6, 1877.

Armagh—Sub-Lieut. C. J. S. G., Lord Garvagh, resigns commission.

Royal South Down—Capt. S. Barrett resigns commission.

Royal Dublin City—Charles Stuart James Stephens, gent., to be Sub-Lieut.; June 6, 1877.

Galway—Lieut. H. S. West, from the King's County Militia, to be Lieut. (Supy.).

Kerry—Lieut. R. J. Rice to be Capt. Lieut. R. J. La T. Fitzgerald resigns commission.

King's County—Major D. D. Urquhart resigns commission, also is permitted to retain his rank, and to continue to wear the uniform of the regiment on his retirement. Capt. A. C. W. Cox to be Major, vice D. D. Urquhart, who resigns.

YEOMANRY CAVALRY.

Berks—Sub-Lieut. H. B. Blagrave to be Lieut.; Jan. 23, 1875.

Derbyshire—Frederick William Wright, gent., to be Surg.

Royal 1st Devon—Capt. E. Trood resigns commission, also is permitted to retain his rank, and to continue to wear the uniform of the regiment on his retirement.

Royal North Devon—Capt. A. B. Wren to be Major, vice A. R. Hole, resigned. Lieut. De B. E. Hodge, to be Capt., vice A. B. Wren, promoted.

Northumberland—Capt. T. S. Bramwell resigns commission.

Oxfordshire—Capt. J. B. Hayes, 12th Lancers, to be Lieut. (Supy.).

SURGEON-GENERAL MUNRO.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—So many inaccuracies have appeared in the papers with regard to the black-balling of an officer at this club, I will feel much obliged by your inserting a true account of the facts, more especially as some most erroneous statements appeared in two paragraphs inserted in a weekly paper of the 6th inst., statements which, I think, should not be left uncontradicted, as they appear in my opinion to reflect injuriously upon the medical members of this club. In the first paragraph it is stated that "the members of a large military club have shown their marked sense of such conduct by black-balling one of the most prominent and unpopular officials in Whitehall Yard." Now under the system adopted at the balloting for members it is quite impossible to say who puts in a white ball or who deposits a black one, therefore it is most unfair to say that this officer was rejected by his own department, as some of the black balls were, without the east doubt, put in by members not belonging to the medical branch of the Service; at least, this is the opinion of many members of the club. In the second paragraph it is said—"And as the extraordinary number of black-balls cast on this occasion suggests the impression that the prejudice is against Dr. Munro's connection with the unpopular Director-General of the Medical Department," &c. The suggestion made in this paragraph is not only illogical and absurd, but it is also most erroneous and exaggerated, as there were only eleven black balls deposited in the ballot box against Dr. Munro's name, and as there are about 150 medical officers in the club, it at once conclusively proves that a very small fraction of the department had sufficient bad taste to vote against a distinguished and decorated *confrère;* indeed, so close was the election that one white ball more would have made this officer a member of the club, and to many a most welcome one. It is scarcely worth while to dilate upon the absurd and illogical idea of voting against Dr. Munro because he happens to be in the same office with Sir William Muir, but I merely allude to this in order to point out the animus which is always displayed by the paper in which these paragraphs appeared against the latter most able and distinguished officer. Hoping you will find space in your paper for these few lines, for the truth and accuracy of which I pledge my word—I am &c.,

AUDI ALTERAM PARTEM.

Junior United Service Club, May 31, 1877.

[This letter was held over by accident.—ED. A. & N. G.]

In answer to Mr. J. Talbot on Thursday, Mr. Hardy was understood to say that the examinations of candidates for first appointments in the Army were in the hands of the Civil Service Commissioners. He had applied to them on the subject of reducing the time now occupied (fourteen days) by these examinations, and they reported that that time was necessary, because the candidates were allowed to choose from a considerable number of subjects; but it might be possible to shorten that time by two days if the preliminary examinations which immediately preceded it were taken at another period of the year.

Gen. the Right Hon. Sir J. Michel, G.C.B., commanding the Forces in Ireland, proceeded to the Curragh on Thursday, and remains there during the summer drills.

HOUSE OF COMMONS—FRIDAY.

COL. DAWKINS AND THE DUKE OF CAMBRIDGE.

Lord Claude Hamilton had the following question on the notice paper for this day:—To ask the Secretary of State for War if his attention had been called to a pamphlet circulated by Lieutenant-Colonel Dawkins, late Coldstream Guards, on the Half-Pay List, entitled "The Duke of Cambridge," and containing charges of the gravest and most unwarrantable character against his Royal Highness, as well as against other distinguished officers, his military superiors; and whether, having regard to the whole circumstances of Lieutenant-Colonel Dawkin's case, he is prepared to recommend her Majesty to dispense with that officer's further services. But when his lordship's name was called, he said that in consequence of a communication which he had with the Secretary for War, he would defer putting the question for a few days.

ARMY PROMOTION AND RETIREMENT.

Sir Patrick O'Brien asked the Secretary for War whether, in the event of the recommendations of the Army Promotion and Retirement Commission being carried out in their entirety, the promotion of the officers of the Royal Artillery and Royal Engineers would in a short time be from four to six years behind that of the Line; and, if so, would he take steps for such a revision of the scheme as may prevent this injustice being done to the scientific corps?

Mr. Hardy stated, in reply, that he had prepared a statement founded upon the recommendations alluded to, which would be laid on the table immediately, and the hon. baronet would find by such document that the case of the officers of the Royal Artillery and Royal Engineers would not be overlooked.

THE HUASCAR AND SHAH.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—In the correspondence now going on in the *Times*, relative to the action between H.M.S. Shah and the Peruvian ironclad ram Huascar, I think the Editor of *Iron* has lost sight of the real object in view, which was the capture, not the destruction, of the Huascar. Having fitted out H.M.S. Shah at Portsmouth, and also having had the opportunity of inspecting the Huascar at Callao, I am perhaps in a position to compare the relative force of these two ships. The Huascar, armed with 300-pounder Armstrongs in her turrets, ought to have been, and probably with an efficient captain and crew would have been, more than a match for the Shah but for the greater speed of the latter and the fact of her carrying Whitehead torpedoes. These deadly weapons turn the scale in favour of the Shah, and I have not a doubt that had Admiral de Horsey chosen, he could have sent the Huascar to the bottom; but the probability is, he abstained from using them for the reason above mentioned.—I am, &c.,

M. R. KENNEDY, Capt. R.N.

REGIMENTAL SENIORITY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—I should feel much obliged if you could give me any information in the following case, as it may prove of interest to all whose names appear in the "Army List," and who do not care to have their positions therein altered at any moment:—A lieutenant in the 80th Regiment, of thirteen years' service, on exchanging from the 15th Regiment five and a-half years ago, is assigned a place as junior lieutenant. He goes abroad with the regiment—serves in China, the Straits Settlements, and the Perak campaign; but on his joining the depôt at Manchester, after eleven months' active service in Perak, he is rewarded by being placed two places lower down in the April "Army List" than he has hitherto occupied. In other words, two lieutenants, to whom he has been senior for five and a-half years, were placed over his head. On his making inquiries about it, he is informed that it was only a mistake made five and a-half years ago, at the time of his exchange. Perhaps you can inform me whether the "Army List" is an official document or not, and if the alteration of an officer's position in it is not an unusual course, except as a punishment? Surely if the War Office make a mistake of such importance to an officer they should abide by it. Has there been any precedent to the position of an officer's name being altered in the "Army List?" And is not such a course contrary to the rules of the Service? It appears to me that a grave injustice has been done to this officer, and that his case is worthy of reconsideration. Any information you can give on this subject would be most acceptable.—I remain, &c.,

J. H.

May 17, 1877.

NAVAL AGENTS AFLOAT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—Will you permit me to point out the urgent necessity of the appointment of naval agents on board Government contract and transport vessels, who would act as agents of the Government in the protection of the interests of the country and the Government in the cases of necessity which are likely to arise during the present war in the East, which would not only perhaps save another "Trent" affair, but keep the Government posted with reliable information, which would doubtless be of the utmost importance? There are numbers of retired naval officers who could be employed in this service, which would leave the Active List as it is.—I am, &c.,

R. N.

The following, according to the *Times*, will be the composition of the Army Corps to be formed at Aldershot under the command of Lieut.-Gen. Sir Thomas Steele, K.C.B., for the summer manœuvres:—Cavalry Brigade.—Col. Drury-Lowe, 17th Lancers, commanding—1st Life Guards, 1st Dragoons, and 18th Hussars, with C and E. Bats. E. Brig. R.H.A. 1st Division.—Major-Gen. Stephenson, C.B., commanding—1st Brig.—3rd Batn. Grenadier Guards, 1st Batn. Coldstream Guards, and 90th Foot, under Col. the Hon. P. Feilding, Coldstream Guards. 2nd Brig.—1st Batn. 19th, 61st, and 100th Foot, under Major-Gen. Anderson. Divisional Troops.—20th Hussars, B, C, and D Bats. 1st Brig. R.A., and 3rd Batn. 60th Rifles. 2nd Division.—Major-Gen. Wardlaw, C.B., commanding. 1st Brig.—2nd Batn. 20th, 58th, and 64th Foot, under Major-Gen. the Hon. F. Thesiger, C.B. 2nd Brigade—29th and 86th Foot, and 3rd Middlesex Militia, under Col. Davis, 20th. Divisional Troops.—8th Hussars, B and G Bats. 1st Brig.; F Bat. 16th Brig. R.A., and 96th Foot. 3rd Division.—Major-Gen. the Hon. L. Smyth, C.B., commanding. 1st Brig.—2nd Batn. 2nd, 2nd Batn. 8th, and 2nd Batn. 13th Foot, under Major-Gen. Shipley, C.B. 2nd Brig.—2nd Batn. 25th, 49th and Foot, and Berks Militia, under Col. Bray, 96th. Divisional Troops.—17th Lancers, D, F, and G Bats. 1st Brig. R.A., and 76th Foot.

The following officers were to have commenced the long course at Poona, viz.:—Sub-Lieuts. Burrell, 2nd Foot; Chase, and Cowran, 15th Foot; Justice, Gordon, Roberts, and Carleton, 17th Foot; and Goad and Seymour, 68th Foot.

INDIA.

A grand shuffling of the military cards in the higher appointments of the Bombay Army is, says the *Times of India*, now taking place. First, it was attempted to re-appoint Brig.-Gen. Aitchison to the post of Adjt.-Gen. of the Army for a couple of years; but H.R.H. the Duke of Cambridge at once vetoed that suggestion. Pending his Royal Highness's decision, Brig.-Gen. Aitchison was given the first-class brigade at Bombay, going over the head of Brig.-Gen. Phayre, commanding second class brigade at Nusseerabad. Gen. Aitchison takes command in Bombay on June 7. The wheel of fortune takes another turn, and it is said now that Brig.-Gen. Burrows, the Qrmr.-Gen. of the Army since Sept. 27, 1874, before that Depty. Qrmr.-Gen. of the Army, &c., is the Adjt.-Gen. designate. It settled that Gen. Burrows is to be the new Adjt.-Gen. of the Bombay Army. Col. R. Baigrie, C.B., will succeed Gen. Burrows as Qrmr.-Gen. It is also probable that Major Pottinger will be appointed to act as Depty. Qrmr.-Gen. during the absence on leave of Major Hogg.

Col. Sir Andrew Clarke, K.C.M.G., R.E., is understood to be engaged on a comprehensive scheme for the revision of the entire executive engineering establishment of the Public Works Department.

Col. J. O. Mayne, R.E., is mentioned as likely to succeed the late Mr. Armstrong as Chief Engineer of the Central Provinces.

In answer to a question put by Mr. Stacpoole, on Thursday, Lord G. Hamilton said the reasons for the examination of medical officers for promotion to the rank of surgeon-major in the Indian Army still held good, but the whole of the Indian medical service was about to come under the notice of the Secretary of State, who no doubt would consider whether it was desirable to abolish the examination.

We are informed that a portrait of the late Col. W. H. Sykes, M.P. for Aberdeen, who so successfully defended in Parliament the rights of the officers of the Indian Army on their transfer to the direct Government of the Crown, has been presented by his widow to the East India United Service Club.

The *Globe* announces that one of the bands of Foot Guards will play in Hyde-park on Mondays and Thursdays, between one and two o'clock, during the remainder of the season, in the vicinity of the Serpentine.

The *Englishman* would fix the standing European Army at fifty thousand men of all arms. This is certainly a reduction, but as we would have only efficient men comprised in this number the diminution would not be felt. Fifty thousand really good men would be far better than sixty or seventy thousand, of which there would probably be above twelve thousand mere boys, always on the sick list, or incapable of standing the hardships of a campaign.

The annual parade of the Corps of Commissionaires was held on Sunday in Palace-yard, when the corps was inspected by Lieut.-Gen. Lord Mark Kerr. Among the other officers present were—Gens. Sir W. Codrington, Sir E. C. Hodge, Lord W. Paulet, Wingfield, Shute, Sir J. Alexander, Renny, Whitmore, and Wardlaw. The corps at present numbers 717 men in twelve divisions, of which the Navy and Marines form two, consisting of 57 men; the Artillery and Engineers two, consisting of 102 men; the Cavalry number 119, and the Infantry 439. Of all these divisions there were present on Sunday 530 on the parade. After the inspection the men were marched into Westminster Hall, where they formed up near the steps, from which Lord Mark Kerr briefly addressed them. He would not say anything of their commanding officer, for, like other good men, he did not like to be praised, but he was glad to see such a corps, which was an ornament to the country, and he hoped to live to see divisions established not only in London, but in Dublin, Edinburgh, and elsewhere; to see, in fact, the body increased to a *corps d'armée,* doing service throughout the kingdom. Capt. Walter said he begged to thank the officers who had attended. The tie between British officers and their men was such as did not exist in the service of other countries. It was now twenty years since, on the first parade of the corps, he had marched into Westminster Abbey with seven men, and he hoped the corps would continue to increase and extend itself where, no doubt, there was abundant room. The corps then proceeded to St. Michael's Church, Burleigh-street, Strand, where the sermon was preached by the Rev. G. F. Townsend, D.D.

According to the Pera correspondent of the *Daily Telegraph*, there is no Englishman or American amongst the prisoners captured while attacking the Turkish ships at Soulina. Lieut. Puschin, a young Russian officer, commanding the torpedo expedition, has been taken to Constantinople He has been an officer in the Russian Navy sixteen years. The following is the narrative he gives of the venturesome expedition of which he undertook the conduct. The preparations having been all complete, under the cover of night the torpedo boats started from Odessa, their destination having been kept a profound secret until clear of the land. It was then made known that they were to proceed to the Soulina mouth of the Danube, and they were towed thither by steamboats. When near Soulina, they cast the torpedo boats off, so as not to give an alarm to the Turks. Soon the latter came in view, as they lay at anchor, and there seemed every probability of the success of the expedition. Seven boats advanced to the attack. Nearing the Turkish gunboats, and when making preparations to launch the torpedoes, they (the Russians) suddenly felt a jolt. Not knowing what was the matter, they still tried to push on, and became entangled in chains and ropes (which the Turks had designedly prepared for the purpose of guarding their ships). The lieutenant stated that almost instantly the seven boats were completely overwhelmed by a terrible fire from the gunboats. Still his men persisted in their efforts. While trying to launch a torpedo, a Turkish shell struck it, causing it to explode, and sinking the boat in which he was. He saw the poor fellows struggling in the water with him for an instant, but he knew no more until he was picked up by the Turks. He states that the Russians have seventeen steam torpedo launches, and that they may resume the attack any day. Puschin considers the Turkish system of defence, consisting of a circle of boats round their ironclads, connected by chains, quite perfect. He speaks English and French.

OUTFITS FOR INDIA
AND THE COLONIES.

DETAILED LISTS of the necessary Outfit, with prices, &c., for every Climate and Appointment will be forwarded on application to

THRESHER AND GLENNY,
OUTFITTERS,
NEXT DOOR TO SOMERSET HOUSE, STRAND.

THRESHER'S KASHMIR SHIRTS. Especially adapted for Tropical Climates, being Light and Durable.

THRESHER'S JUNGRA SHOOTING SUITS. Made expressly for India. Impervious to spear grass.

THRESHER'S MILITARY SHIRTS. Made for wearing under uniform.

THRESHER'S INDIA TWEED SUITS. Manufactured entirely of Wool. Very light, strong, and elastic.

THRESHER'S CABIN TRUNKS. Manufactured for use on board H.M. Troopships and P. and O. Company's Steamers.

THRESHER'S INDIA GAUZE WAISTCOATS. Strongly recommended by medical men for wear in warm climates.

THRESHER AND GLENNY,
NEXT DOOR TO SOMERSET HOUSE, STRAND.
By Appointment to H.R.H. the Prince of Wales.

N.B.—Articles manufactured by THRESHER and GLENNY can only be procured at the above address.

COLT'S NEW GOVERNMENT
ARMY REVOLVER.

After a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is made to take the 45-cal. regulation Service cartridge, and AMMUNITION FOR THEM MAY BE OBTAINED FROM THE STORES OF AN ARMY IN THE FIELD.—See General Orders, May, 1877.

Length of barrel 5½ inches and 7½ inches.

In the competitive trial at the Royal Arsenal, Woolwich, in 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

COLT'S 41-CAL. DERINGER REVOLVER
COLT'S DERINGER FOR THE VEST POCKET.
Price List Free.

COLT'S FIREARMS COMPANY, 14, PALL MALL LONDON, S.W.
Depot at Messrs. REILLY & CO., 2, Rue Scribe, Paris.

ADAMS'S

NEW PATENT DOUBLE-ACTION, CENTRAL-FIRE, BREECH-LOADING

REVOLVER.

Reviews of the "Autobiography of a Seaman."

War Maps from E. Stanford.

Army & Navy Gazette.

LONDON, SATURDAY, JUNE 23, 1877.

"Major David, of the Indian Army," has arisen up and girded himself to slay the great ogre which is frightening certain of us, and has hurled a smooth little stone at the Russian Goliah in the shape of a small pamphlet entitled "Is a Russian Invasion of India Feasible?" as to which we intend to say a few words. It—or rather the subject of which the pamphlet treats—deserves much more attention than we can here give to it, for, as we have said before in this journal, the whole of what we call British interests involved in this Eastern Question are conveyed in the one word—"India." The only Power we now know of which menaces India is Russia. Internally there are causes of danger and reasons for watchfulness, but these are properly matters of administration, not of policy. There are two distinct and opposing views in this country and in India on the main question, "Is the progress of Russia in the East dangerous to our interests?" Those who maintain it is not, are those who, naturally enough, are her allies in her attacks on Turkey, and they include in their ranks the remarkable class who, in spite of all evidence, assert that Mahomedans in India do not care what happens to Mahomedans in Roumelia and in Asia Minor. These politicians declare that it would be a consummation devoutly to be wished if Russia and Great Britain became conterminous Powers in the East, and they appear to us to go quite far enough when they stop there. Another school of politicians think that the advance of Russia towards India is dangerous, but they differ as to the way in which the danger should be averted or met. Some are for advancing to meet the advance. Some are for maintaining the *status quo*, and strengthening it by the outposts of alliances. Major David not only says to the Russians "Come on!" but holds that if they accept his challenge and subjugate Turkestan, Persia, Turkish Arabia, and the north-east portion of Syria, they, nevertheless, can not invade India! Why? We may well ask, for without Major David's aid we could not answer the question. He states his reasons for the strange conclusion that Russia should be the only Power that could not succeed if she tried to invade India. We are bound to say that his reasons appear to us not worth much. There are two postulates which he starts with that have a good deal to do with his theorem—he, indeed, assumes them to be necessary for his argument. The first is that England's naval strength should remain unimpaired; the second, that Indian finance and Indian loyalty should remain secure. Major David, having laid down his "ifs," proceeds with charming *naïveté* to adduce the statements, and assertions, and assurances of the Emperor of Russia, of Mr. Wallace, and of Mr. Schuyler as evidence that Russia has no idea of invading India at all! Admitting, however, that "some day" her railways may extend to Tashkend, and that Balkh may be connected by rail or road with Cabool—that Russia may create an Asiatic Servia on the British frontier, and that "the neighbourhood of a great military Power within striking distance of the frontier must (unless British rule has secured a solid hold of the affections of the people, a very difficult and hopeless task for a race of foreigners) be always a lever to the hopes and aspirations of the multitude"—that "reflections of the possibility of invasion, of the number of times India has been subdued by an invader, and of some coming change, may continue in men's minds until, when an attempt to pass the frontier is made, public feeling may perhaps be prepared for the event"—Major David undertakes to show that "under the worst that could happen for British interests, to undertake an invasion with any chance of success would, if the Indian people were even neutral, be a most hopeless task. The "ifs" in the writer's thesis are potential indeed. He assumes that the only road to India is from Herat, because that through Samarcand and Badakshan (though the most direct) presents engineering difficulties, "and is, moreover, very little known," and he enters upon a careful analysis of the routes and distances to India from Herat on the supposition that one army tried the Khyber whilst the other forced the Bolan Pass. It is quite enough, in reference to routes and distances, to observe that India has been successfully invaded several times by way of the north-west frontier, and that the Persians were able to sack Delhi in the last century. To give force to the arguments resting in the number and difficulty of marches, it must be shown either that they are too great to be overcome, or that, having been overcome by an enemy in past times, he was one who had superior means to those possessed by the Russians, or that the force which would resist the Russians possesses advantages which were not enjoyed by the defenders of India in former days. Here is Major David's great difficulty—the thing has been done—not once or twice merely, but—several times. He takes it for granted that the Russians must try the Bolan Pass, which was not used by Mahomed of Guznee, Zenghis Khan, or Tamerlane, or Akhbar. Baber used the Khyber Pass, so did Akhbar. "Other routes" were followed by the latter and by Nadir Shah, the base being generally Cabool, which Sir H. Rawlinson, however, now considers out of the question. But, in point of fact, there are other passes not in the north-west, and there are other ways of getting at India which Major David has not indicated. The difficulties of an invasion of India are very great, but they are not insuperable. The difficulties of holding India whilst an enemy is knocking at its gates, and an excited population is behind the British Army, would at least be as great. If our supremacy at sea were challenged by such a combination of Powers as rendered it necessary to keep the bulk of our Fleet nearer home—above all, if the loyalty of the people and princes of India was strained to the breaking point, Major David's arguments could not save us.

The *Whitehall Review*, which seems to be ambitious of distinction as a Service paper, and to aim at a position which we sincerely hope it may attain, publishes a very positive and precise account of the composition of the corps which, according to our contemporary, is to be sent to Egypt—we presume at once. The orders for its dispatch have, perhaps, been sent from the office of the *Whitehall Review;* but Sir T. Steele, who is to command the expedition, has not yet stirred in the matter, and the preparations and warning are so "secret" that there is nothing known of the arrangement in the best-informed quarters. Nubar Pasha has returned to London, and it is notorious that he is very desirous of a British protectorate being established in Egypt, just as he is averse to a British occupation, which, as Egypt is not menaced by Russia, would be an act of war against Turkey. The arrangements our contemporary has indicated would very probably be those which would be carried out were the Government to dispatch an expedition to the East, for the Aldershot Division is certainly that which would be first for service, and the natural mode of proceeding would be to send the regiments from Malta on first to the scene, and then to fill up their places; but this drawing of a bow at a venture is almost as bad as drawing the long bow. How we are to save Constantinople by occupying Egypt it would puzzle the most subtle logician to demonstrate.

The appearance of the Svetland in Kiel, where, it is said, she will be followed by other ships of the Russian squadron recently in American waters, would indicate that the Russians do not intend to try their fortune in the Mediterranean. There is no confirmation as yet of the report that the German and Italian Fleets have joined, and that they are cruising to the number of thirteen sail near Malta.

Major-General Sir H. P. de Bathe, Bart., commanding the Northern District, has sent up road sketches for the inspection of his Royal Highness the Duke of Cambridge from the following officers under his command:—Captain Branston, 55th Foot, 2nd Brigade Depôt; Captain Boggs, 34th Foot, 2nd Brigade Depôt; Lieutenant d'Aguilar, 96th Foot, 16th Brigade Depôt; Captain Ruxton, Depôt, 2nd Battalion 18th Foot; Lieutenant Young, 1st Battalion 15th Foot; Sergeant Johnston, 1st Battalion 15th Foot; Lieutenant White, Sergeant Heddick, and Lance-Sergeant Fitzpatrick, 1st Battalion 22nd Foot; Captain Alexander and Lieutenant Bent, 38th Foot; Captain Bromhead, Lieutenant Ford, Sergeant Burke, and Sergeant Wallace, 84th Foot.

A Paris contemporary gives us the following information concerning the proposed autumn manœuvres of the 1st and 4th Cavalry Divisions, which consist of 48 squadrons and six batteries of Horse Artillery:—The 4th Division, commanded by General Thornton, whose head-quarters are at Melun, and the six regiments lying at Versailles, Fontainebleau, Provius, Meaux, and Melun, will represent the enemy marching between Arcis-sur-Aube and Troyes, in order to reach Paris as the advanced guard of an army. The 1st Division, under the orders of General Bonnemains, consisting of six regiments, will march to Provius to meet the enemy, and will fall back along the Mulhouse Railway to the neighbourhood of Nangis, where a battle will be delivered—fifteen leagues from Paris.

Captain Williams, the brave, high-principled soldier who died in a workhouse, has found a host of friends now that he is no more. But he has left a widow and children, and we hope those who sigh over his sad fate will show they would have averted it had they been acquainted with his misery by timely help' now, to those he has left behind him.

The Stafford House Committee sat yesterday. We understand that their funds have been run very low by the dispatch of quinine, medical comforts, and the furnishing of medical assistance to the sick and wounded Turks.

We learn that Deputy-Commissary J. S. Young, who was on duty with the British ambulance at St. Germains during the Franco-German war, where he gained credit for his energy and zeal, has received the permission of the War Office to go to the East as agent of the Red Cross Society on board a steamer which they have chartered for the purpose of carrying out a valuable cargo of stores and medical comforts, to be distributed impartially to sick and wounded on both sides. Mr. Young's promotion has been slow, and it is seldom such work as he does is recognized, but we hope that he will not lose by being out of the regular running whilst he is engaged in such beneficent work.

Major-General his Serene Highness Prince Edward of Saxe-Weimar, C.B., has been appointed Chairman of Committee of the Royal Cambridge Asylum for Soldiers' Widows, and it is the intention of his Serene Highness to make an early appeal for help for this most deserving charity from regimental canteen funds, an appeal which, we feel sure, will not be made in vain.

A correspondent, whose position in the Army entitles his opinions to respect, writes to express a hope that we will call attention to the disobedience, almost systematic, of regiments to the wishes and orders of the Field-Marshal Commanding-in-Chief respecting the practice of dinner invitations. At one large station the practice flourishes, and there is scarcely any movement which is not made an excuse for "giving a dinner"—the expenses being exceedingly heavy, and the consequences being very serious to the poorer officers. If the seniors set their faces against the practice, relying on the letter and spirit of the Horse Guards' directions, they would promote a better feeling, and show a more proper regard for discipline and good order, for reform must come in this case from above. What would happen if there was a graduated scale of payments for mess dinners to regiments, and the Colonel and senior officers were mulcted in the proportion of their pay, so that the junior officers paid the fourth or fifth of the share of their seniors?

And so the sign of "the Doyle Arms" is to be taken down in High-street, Portsmouth, and the respected "landlord" is to hand over the premises on a *short lease to a new tenant!* With the exception of a slight tumult, in which the police, the civilians, and the military differed concerning the best way of maintaining the peace of our sovereign lady the Queen, the rule of Sir Hastings Doyle has been marked by uninterrupted order and by many wholesome improvements. Even on the occasion referred to the chief offender, who is said to have been a visitor from London, and whose hat paid the penalty of his turbulent meddling in local troubles, is believed not to have been animated by any settled purpose to raise an *émeute* or to upset the Administration, and on all other occasions the relations between Government House and the borough authorities were most friendly and cordial. The "Doyle Arms" was the scene of an elegant and liberal hospitality, and the demand on the resources of every kind which are incidental to the Portsmouth Command were met with the utmost willingness by the gallant General who is retiring with great κύδος from the post he filled for a very interesting term, distinguished by the arrival of many illustrious personages and by the presence of an unusual number of strangers of rank.

A report has reached the Horse Guards of some most extraordinary proceedings on the part of the Principal Commissariat Officer at Aldershot, who, it appears, put his next junior, an officer holding the relative rank of Lieutenant-Colonel, under arrest on a most trivial charge, and in other ways has caused his name to be referred to in the several ante-rooms with anything but the respect due to one of his standing in the Service. It is, indeed, to be regretted that seniors will occasionally act with such little discretion, as the discipline of the Service unfortunately suffers from their want of tact.

It is to be hoped that our foreign friends know something about the nature of our London guilds and liveries. The readers of our respected contemporary *L'Italia Militare* may otherwise be surprised to hear that Lord Derby has been making declarations respecting English policy to a banquet, *dei negozianti sarti*, under which style we can scarce recognize our old friends "the Merchant Taylors."

The Navy.

GAZETTE.

Admiralty, June 20, 1877.

In accordance with the provisions of her Majesty's Order in Council of Feb. 22, 1870, Lieut. the Hon. Frederick Canning Lascelles has been this day placed on the Retired List, with permission to assume the rank and title of Retired Commander. Staff Surg. Thomas Kipling has been placed on the Retired List of his rank from the 14th inst.

In accordance with the provisions of her Majesty's Order in Council of April 30, 1877, the undermentioned Engineers have been placed on the Retired List from this date:—George T. Blundal, Isaac B. Liddell, Amos Prichard, William H. Lowman, Mark Lambert, John Leeson, Robert H. Dobney.

APPOINTMENTS.

Fleet-Surgeons—James Long, M.D., to the Swiftsure, armour-plated ship, in the Mediterranean; Lowry J. Monteith, to the Trincomalee.

Staff Surgeons—Donald MacIver, M.D., to the Duke of Wellington, additional.

Chief Engineer—George Deans, to the Asia, additional.

Engineer—John M'Carthy, to the Indus, additional.

Coastguard Promotions.

W. Sherlock to be second mate of the Seamew, tender to Warrior; and J. Sandwell to be chief boatman in charge at Colemouth Creek, in Harwich Division.

Agincourt, which has been in Keyham Basin for two years under repair and extensive alteration, and which will replace the Aurora, was on Friday last week taken out into the stream. Unfortunately the ponderous ship swung across the bow of the Indus, Steam Reserve ship, carring away the latter's figurehead, and injuring her bow, at the same time sweeping away her own newly-fitted poop platform and doing other damage which will take some time to repair. She was afterwards moored in safety.

Alexandra, Capt. R. O'B. FitzRoy, flagship of Vice-Admiral G. T. P. Hornby, went to sea on June 2 to do her "Black List," the admiral in command shifting his flag temporarily to the Swiftsure. Since the date of the outbreak there has been no further disturbance as far as is known, and a report of the original cause of the *émeute* may soon be looked for. In answer to Mr. P. Taylor, Mr. A. Egerton stated in the House on Thursday that the only Report received from the Commander-in-Chief of the Mediterranean Fleet in reference to the insubordination on board the Alexandra was the one of which he had given the substance in an answer to an hon. member some weeks ago. If the hon. gentleman wished to have that Report *in extenso*, and moved for it, there would be objection whatever to laying it upon the table.

Arab, Com. F. S. Broughton, was at Bombay on May 28.

Assistance, Capt. Prattent, arrived at Portsmouth on the 18th inst.

Beacon, Com. H. Dunlop, was at Buenos Ayres by last accounts.

Bittern, Com. G. J. Anstruther, would leave Malta on June 17, to join the flag at the Piræus.

Cracker, Lieut.-Com. C. H. Hawkins, was at Monte Video by last accounts.

Daphne, Com. G. B. Evans, is at present looking after British interests at Bussorah.

Diamond, Capt. G. S. Bosanquet, arrived at Zanzibar on April 14. She was to sail on May 5 for Majunga, where she would relieve the Philomel, and cruise in the Mozambique.

Fawn, Com. W. J. L. Wharton, arrived at Aden on May 7, and after completing survey near Socotra she would leave for the Seychelles and Zanzibar.

Flying Fish, Com. H. F. Croban, was to have been at Tamatave by May 20, and would proceed to Mauritius to be docked.

Foam, Lieut.-Com. R. W. Hope, was at Nuevo Gulf on May 7, having brought a mail from Monte Video, and would return there on May 8.

Goshawk, Lieut. A. T. Bagge, arrived at Plymouth in the night of the 15th inst., and sailed on the 17th inst. She arrived at Sheerness on the 19th inst.

Harpy was commissioned at Plymouth on the 19th inst., as tender to the Royal Adelaide.

Hibernia, Com. A. E. Stephens, flagship of Rear-Admiral Rice, was at Malta on June 15.

Himalaya, Capt. E. White. The new crank shaft prepared for the Himalaya has been officially surveyed, and cracks in the bearings have been discovered that are believed to indicate serious defects. The defects in the screw shaft now in the ship are also reported as increasing. Should the new one, therefore, be condemned, the ship will be detained on home service for some months.

Iron Duke, Capt. C. J. Rowley. The crew is to be turned over to a hulk till the Shannon is ready, which will be about the middle of next month, when she will replace the Iron Duke as Coastguard ship at Kingstown. The Iron Duke will be taken in tow of the Valorous to Birkenhead to undergo extensive refitting and repairs by Messrs. Laird Brothers.

Liberty, Lieut. Reginald A. Brock. An inquiry has been opened at the Royal Naval Hospital, Plymouth, relative to the death of George Dyer, a boy serving on board the Liberty. On the afternoon of May 29 the Liberty returned from a cruise in Channel, and in order to take up her moorings outside Drake's Island the cutter was manned by boys, who were directed to take the hawser from the bow of the vessel and secure it to the buoy. In doing so, however, the boat came in contact with the brig's bows, the consequence being that the former was capsized, and all on board, including the deceased, were thrown into the water. All the other lads were rescued, but Dyer disappeared directly afterwards.

Lynx, Com. F. M. Ommanney, was expected at Zanzibar early in May.

Monarch, Capt. M. Culme-Seymour, arrived at Sheerness on the 15th inst., and will pay off into the 4th Division of the Reserve.

Orontes, Capt. Edward H. Seymour, has been directed to call at St. Helena to make some exchanges, and on arrival at the Cape she may be probably detained for some time, in order to embark the 1st Batn. of the 13th Regt. on being relieved at Natal. Before starting from Portsmouth Capt. Seymour applied to the Admiralty to be supplied with one of Kelway's patent electric logs, which provide for the registration on board at regular intervals of the work done in the water by the ordinary patent log, without the necessity of hauling it in. The application was granted, and the inventor took passage to Kingstown to superintend its working. This is the first occasion of the electric log being adopted on board her Majesty's ships.

Osborne, Com. H. L. Pearson. With reference to the discovery of the sea serpent by the Osborne, Mr. Anden Wilson, lecturer in Zoology and Comparative Anatomy at the Edinburgh Medical School, writes:—"About a year ago I ventilated, in the columns of several journals, the idea that the 'sea serpents' so frequently seen were, in reality, giant tape fishes or riband fishes. While not meaning by this statement to exclude the idea that other animals—such as giant sea snakes themselves—may occasionally personate the 'sea serpent,' I am, as a zoologist, fully convinced that very many of the reported appearances of 'sea serpents' are explicable on the supposition that giant tape fishes—of the existence of which no reasonable doubt can be entertained—have been seen. The report of Capt. Pearson, of the Royal yacht Osborne, appears, as far as zoological characters are concerned, to be fully explained on the 'riband fish' theory. The long back fins, the scaleless skin, the rounded head, and, lastly, the two great side (or pectoral) fins, each measuring many feet in length, all form so many details corresponding exactly to the appearance of a great tape fish. I offer these observations with the view of showing that, given a recital founded, as I believe the present narrative to be, on fact, we possess in the lists of living and of well-known animals adequate representatives of the 'great unknown.'"

Prince Albert, turret-ship, in the Reserve at Devonport. On Friday afternoon a fire was discovered behind the starboard boilers of the Prince Albert, turret-ship, now lying in Keyham Basin—some felt and wood, which had been ripped from the boilers, having been ignited and burst into flames. The fire was extinguished by some workmen before any damage was done to the ship, and before the arrival of the captain of the Steam Reserve and other officials.

Research, Capt. H. Earle, arrived at Malta on June 13, and was refitting.

Rifleman, Com. F. S. Clayton, was in the Persian Gulf by last accounts.

Rupert, Capt. W. E. Gordon, C.B., at Malta, will probably be ready for sea on June 26.

Shah, Capt. F. G. D. Bedford, flagship of Rear-Admiral de Horsey. "Mariner" writes:—"With reference to a note in the *Times* of Friday, headed 'The Huascar,' please allow me to correct the statement made by *Iron* as to the Shah not having been provided with the latest inventions in torpedoes up to her departure from England, and to say that she was fitted with all the Whitehead apparatus, by means of which she was quite a match for the Huascar, which is not, as described, a gunboat, but something more resembling a second-class turret ship, the capture of which would have been most creditable to the ship's company of the Shah. As to the reason of her not falling to the Shah's lot, we must await details."

Seamew arrived at Plymouth on the 19th inst.

Sirius, Capt. G. L. Sulivan. The following particulars relative to the raising of the blockade of Dahomey is taken from the *Times*:—"On May 4 a boat from the beach came alongside her Majesty's ship Sirius, bringing a letter written in Portuguese and signed by two of the Whydah chiefs as delegates for the King of Dahomey, offering to pay a certain quantity of oil (less than the fine demanded) and begging the officer in command of the fleet to come on shore and hold a 'palaver.' To this letter Capt. Sulivan replied that owing to the manner in which her Majesty's officers had been insulted previously when on shore he would not meet them on shore unless they paid 200 puncheons of oil at once, and guaranteed another 200 to be paid in one year from then. That, on the shipment of the last puncheon of the first instalment, the blockade would be raised by firing a gun and the fleet hoisting white ensigns at the foremast. Next day another letter came off, written in French, begging Capt. Sulivan to accept a smaller quantity, and stating they had suffered so much from the length of time the blockade had been carried on that they would have to borrow 100 puncheons to pay even that quantity. They also expressed their sorrow that her Majesty's officers had been insulted when on shore, and promised that it should not occur again; and that, if Capt. Sulivan would come on shore, boats would be at his disposal to bring himself and a body-guard on shore if he wished it. To this letter Capt. Sulivan replied that he would not alter the terms in his first letter. On the following day a letter came off stating that his terms were agreed to, and that 200 puncheons of oil were on the beach ready to be put on board any vessel he might appoint to receive it. On the morning of May 10 the steamer Gambia arrived off Whydah, and the Dahomians at once commenced shipping the oil on board of her, one naval officer being on board the steamer to receive it, and to signal the quantity on board at stated intervals to the fleet. The surf was not at all favourable for shipping, and one of the boats got capsized early in the day, losing one canoeman, another man being severely injured. This put rather a damper on the men, who now refused to go through the surf any more, but the Whydah chiefs sent some armed men to the beach with orders to cut the head off any man who refused to work, and on the arrival of these men the canoemen had to resume work. There were only three boats at work, and they got capsized so often—though, luckily, without loss of more lives—that it took to 4 p.m. on the 12th before the last cask was on board. The steam launch of her Majesty's ship Sirius assisted the boats by towing them to the steamer after they got through the surf. During the forenoon of the 12th her Majesty's ship Cygnet came close in shore and anchored ahead of the Gambia, bringing Capt. Sulivan (Sirius), Coms. Heron (Seagull) and Arlington (Cygnet), Staff Surg. Strickland (Sirius), Sub-Lieut. Braithwaite (Sirius), and Assist.-Paymr. Gill (Sirius), who were to form the deputation to meet the Whydah chiefs. Immediately on anchoring they signalled to the shore for boats, and one boat went alongside at once, into which the whole party got and came alongside the Gambia on their way to shore. It was then thought advisable that only two officers should go in one boat in case of accidents, and owing to the scarcity of boats Dr. Strickland and Sub-Lieut. Braithwaite could not land, so that only four officers went ashore to the conference. On their arrival on shore they were met by a number of chiefs, who conveyed them to Whydah, about two miles distant from the beach. Each officer was carried in a hammock, over which was held an enormous many-coloured umbrella. At 4 p.m. the procession had returned to the beach, a signal was made to the fleet, and immediately the Sirius fired a gun, and all the fleet hoisted white ensigns at the foremast, thereby raising the blockade of the Dahomian ports. Her Majesty's vessels in the roads at the time were the Sirius, the Seagull, the Boxer, and the Cygnet; the French war vessel Hamelin was also there."

Spartan, Capt. R. E. Tracey, arrived at Trincomalee on April 27.

Spiteful, Com. A. T. Powlett, arrived at Portsmouth on the 19th inst.

Supply, Staff Com. F. Inglis, will be ready to pay off at Chatham on the 29th inst.

Teazer, Com. C. Wodehouse, left Bombay Harbour for the Persian Gulf on May 24, and although at present her services are said to be required only in Muscat and Jask, it is probable that the movement has a good deal to do with the assemblage of the Persian Army on the Karoun River, near Mohumerah.—*Bombay Gazette.*

Tourmaline, Commodore F. W. Sullivan, C.B., will, upon arrival at Devonport from the Cape, under command of Capt. Boxer, be placed in the hands of the steam factory to have defects made good. Messrs. Hawthorn and Co. have received orders to supply necessary machinery for the ship, to replace that which is defective.

Undaunted, Capt. Bowden-Smith, flagship of Vice-Admiral Sir R. Macdonald, K.C.S.I., was to haul down his flag on May 28, and Admiral Corbett, who had arrived at Bombay by mail, was to assume formal command of the East Indies Station the day following.

Valorous, Capt. L. F. Jones, has received orders to tow the Iron Duke to Liverpool. An accident occurred on Friday on board. An ordinary seaman named George H. Primmer was standing on the hammock netting, when a wooden mallet fell from the foretop and struck him on the head, causing concussion of the brain. He soon rallied, however, and is doing well.

Vestal, Com. W. H. Selby, was at Aden by last accounts.

Vivid, Staff-Com. E. Wise, returned to Plymouth, with the Commander-in-Chief on board, on the 19th inst.

Volage, Capt. H. Fairfax, was at Nuevo Gulf on May 7, having visited the Falkland Islands, Chupat, &c. She would leave on May 15 for Maldonado and Monte Video.

Vulture, Com. H. H. Washington, left Aden for Zanzibar on April 20.

Wye, Staff-Com. W. W. Vine, arrived at Sheerness on the 15th inst., and left at 11 a.m. for Deptford, where she arrived in the afternoon.

ADMIRAL ROUS.

We regret to announce the death, on Tuesday night, of this veteran sportsman, at his house in Berkeley-square. For some days, notwithstanding his advanced age, hopes were entertained that he would rally from the illness which had prostrated him. On Tuesday morning, however, the physicians reported an unfavourable change in the symptoms, with increasing weakness and exhaustion, and at half-past 10 at night the end came. Admiral the Hon. Henry John Rous was the second son of the late Earl of Stradbroke, and was born in Jan., 1795. In 1808 he entered the Navy, and served as a midshipman in the expedition to Flushing. He afterwards was appointed to the Bacchante, under Sir W. Hoste, and received a medal for bravery in various boat actions and land expeditions. In 1823 he was made capt., and in command of the Rainbow served on the Indian and New Holland Stations between 1825 and 1829. Some years afterwards he performed a feat of seamanship of which he was justly proud. While in command of the Pique, she struck on a reef of rocks on the Labrador coast, and was much damaged. Capt. Rous, however, brought her across the Atlantic with a sprung foremast and without a keel, forefoot, or rudder, though the ship was making 23 inches of water an hour. This feat has often been cited as an instance of the resources and skill, to say nothing of the courage, of seamen of the old school; and the Admiral himself often expressed in the columns of the *Times* his fears that the introduction of steam had weakened the self-reliance of naval officers, and deteriorated their seamanship. In 1841 Admiral Rous was returned for Westminster in the Conservative interest, but was rejected in 1846. Notwithstanding his defeat, Sir Robert Peel appointed him a Lord of the Admiralty. It was as a sportsman, however, and not as a politician, or even as a sailor, that Admiral Rous will best be remembered. For close upon 40 years he may be said to have been almost supreme as an authority upon the Turf; and it was a supremacy marked by the most perfect fairness and good sense. He has been a steward of the Jockey Club almost uninterruptedly, we believe, since 1838, and his work on "The Laws and Practice of Horse Racing" procured for him the title of the "Blackstone of the Turf." Few men have been more prominent in London society, and few will be more missed.

Much excitement is still felt at Keyham Factory respecting the discharges that are being made, especially on the circulation of a statement that 120 men are to be dismissed. On the other hand, it is affirmed that what is taking place is only an ordinary weeding out of indifferent workmen and men who have lost time, a course that is adopted just now because the expenditure in wages this year so far exceeds the due proportion of money voted. There is no doubt that the contracts now being made with private firms puzzle the *employés* and increase their anxiety. One of the latest instances of the kind is afforded by the Invincible. The engines and boilers of this vessel are to be repaired, and, although the Invincible is lying in the north basin at Keyham, the work is to be done by the Messrs. Rennie, who have to send men to Devonport to do it.—*Western Morning News.*

It having been represented to the Marine Department of the Board of Trade that a large number of boys would enter the third class of the Reserve on leaving the mercantile training ships if the term of training on board those ships was reduced, it has been decided that in future boys who have passed eighteen months under training, instead of two years, as formerly, shall be eligible for entry in the Reserve.—*Standard.*

NEW HUSSAR BOOT.—Officers of Hussars should not give their orders before seeing the Boot now making by STOKES, 28 and 29, Coventry Street, Haymarket, the only recognised Cavalry Boot-maker in the Kingdom. Jack Boot maker to the 1st Life Guards, 4th, 7th, 11th, 13th, 14th, and 18th Hussars, 3rd Dragoons, 9th, 12th, and 16th Lancers, and Royal Artillery. Contracts taken for men's boots at Government rate, or regimental boot-makers supplied with legs.

THE PRINCE OF WALES AND THE WARSPITE.

The Prince and Princess of Wales, with their sons, Prince Albert Victor and Prince George, went down by water on Thursday to the Warspite to open this new training ship of the Marine Society, and to present the prizes won by the boys. The Warspite is an old line-of-battle ship, a two-decker, once called the Conqueror, and has been fitted up to replace the former Warspite, which was destroyed by fire two winters ago. She lies off Charlton Pier, at the westernmost end of Woolwich Dockyard. The Prince and Princess left Whitehall Stairs soon after noon in a fast boat of the London Steamboat Company, preceded by the Thames Conservancy boat. Lady Suffield, the Marquis of Hamilton, Lord Colville of Culross, Capt. the Hon. Carr Glyn, R-N., Major Russell, and the Rev. J. Dalton were in attendance. Admiral Sir R. Collinson, Deputy Master of the Trinity-House; Admiral Sir F. Nicholson, Deputy Chairman of the Thames Conservancy Board; and Capt. Pelly, R.N., Chairman of the Steamboat Company, accompanied the Royal party. The steamer Victoria followed as an escort. A guard of honour of the boys, with drawn cutlasses, and their blue flag won by competition in drill of the Society of Arts, were arrayed at the gangway on the vessel, and the Prince and Princess as they stepped on deck were received by the President of the Society, the Earl of Romney, by Lady Romney, and the members of the committee. They proceeded to the raised poop and witnessed thence the exercises of the boys. At the sound of the trumpet, followed by the shrill whistle of the boatswain, the lads ran aft with the halyards to make sail. They shortened and furled sail at the command of Capt. Phipps, and then marched round the ship, 230 strong, to the music of their own drum and fife band, playing "The British Grenadier." After this there was play with single-stick, and then the boys gathered aft, and while three of them held the flags drooping forward the rest sang the late Admiral Davie's hymn, "In darkness, and in danger, on life's rough, troubled sea." The prize-winners were called up by Mr. Sadler, R.N., the secretary, and received their gifts, books of travel and adventure, knives, or warm monkey-jackets for winter from the gracious hands of the Princess of Wales. When the distribution was over, all the boys came up to the quarter-deck and were addressed by the Prince of Wales.

"My lads," his Royal Highness said, "it has given the Princess and myself the very greatest pleasure and satisfaction to be present here to-day, and to see how admirably well you went through the drill. We sincerely wish you every possible success in the career which is before you, and trust that the obedience and the discipline which have now been inculcated into you, and which you seem so thoroughly to understand, will be your guiding point in the career which is before you. Once more we wish you, the Princess and myself, all success, and tell you how pleased we have been with what we have seen to-day."

Luncheon was served on the main deck.

The Prince of Wales, said, in reply to the toast of his and the Princess's health, proposed by Lord Romney:—Lord Romney, Ladies, and Gentlemen,—Allow me to return you all, in the name of the Princess and myself, our most sincere thanks for the kind way in which this toast has been proposed and received. It is almost needless for me to say with what great pleasure we have come here to-day on board the Warspite and the interest we take in so excellent an institution as the Marine Society. An institution of this kind, which was founded abomt 121 years ago, has for its object to take out of the streets of London poor miserable children who have no means of gaining their livelihood, who can there learn no good, but would be certain to learn much evil, and who by the help of this excellent society are put on board its ship for the purpose of training them for the Royal and Mercantile Navy. This work commends itself most thoroughly and entirely to the interest of the public in general, and from the large assembly which I see here to-day it is evident that they also take a great interest in the welfare of this society. (Applause.) But in order to show their sympathy in a real and practical form, I must ask them if they will contribute to the best of their endeavours to maintain this institution. As most people here no doubt are aware, last year the ship was destroyed by fire. It was a smaller vessel than the present, and the Admiralty have given the Royal Marine Society this large vessel, in which there is room for upwards of 100 more boys than in the old ship. Money is necessarily required to send out those boys thoroughly prepared for sea. The sum required is no doubt a large one, but even a smaller amount that could be collected on this occasion would be most gratifying and pleasing to the noble President on my left, who has taken so warm an interest in this Society, and you who give will be gratified when you go home to know that you have done a good, charitable, and useful work. (Applause.) I may mention that the Queen has always taken the greatest interest in this institution (hear, hear), and is an annual subscriber of one hundred guineas. I must call your attention to some yellow papers which have been placed before you (a laugh), which are, I think, for the purpose of being filled up with subscriptions. I shall end now by proposing a toast which I know you will all drink most cordially. It is 'The Health of the Earl of Romney, the President of the Marine Society.' He is the fifth Lord Romney who has been president of the Marine Society, the first one having been elected when this institution was first started. And in proposing his health I drink most cordially success to this Society. I can only hope that it will continue to flourish more and more from year to year."

Major-Gen. H.S.H. Prince Edward of Saxe-Weimar, C.B., has accepted the post of Chairman of the Committee of the Royal Cambridge Asylum for Soldiers' Widows, vice Gen. the Hon. Sir Edward Cust, Bart., resigned. We understand that his Serene Highness is about to appeal to the different regiments to assist the funds of the institution by subscriptions from their canteen profits; and the asylum being established for the benefit of the families of soldiers, we trust his appeal will meet with the success it deserves.

Major P. Geraghty, late 20th Foot, whose appointment we some time ago announced, has been installed a Military Knight on the Lower Foundation.

A return from the War Office, laid before the House of Commons, has just been printed, showing the number of colonels and lieutenant-colonels of the Army, according to the "Army List," on the 1st of January last, specifying, by arms of service, the number on full pay and half pay. Including Royal Marines, the total number of colonels on full pay was 796, and lieutenant-colonels 733. On half pay, colonels, 103; lieutenant-colonels, substantive rank, 142; making a total number of 899 colonels on full pay and half pay, and of 875 lieutenant-colonels on full and half pay.

The annual inspection of the Yeomen of the Guard was held on Tuesday, in the garden of St. James's Palace. The corps was inspected by the Capt., Lord Skelmersdale. The following officers were present:—Lieut.-Col. Need, the Lieut.; Col. the Hon. W. J. Colville, the Ensign; Lieut.-Col. Todd, Capt. Morley, and Col. Hume, C.B., the Exons; and Lieut.-Col. Sutton, the Adjt. and Clerk of the Check.

REGIMENTAL DINNERS.

2nd Life Guards dined at the Pall-Mall Restaurant on Thursday. Present:—Gen. Viscount Templetown, Marquis of Stafford, Lord Cochrane, Lord Sandys, Lord Henry Vane-Tempest, Viscount Downe, Hon. R. Lawley, Hon. C. S. Hanbury-Lennox, Lord Ernest Vane-Tempest, Hon. W. Hanbury, Hon. W. C. Gerard, Sir T. Hare, Sir S. Hayes, Sir R. Palmer, Sir G. Prescott; Cols. Tottenham, Howard, Vyse, Stewart, and Ewart; Major Ferguson; Capts. Berkeley, Conroy, Cockburn, Congreve, W. M'Mahon, Curzon, Townshend, Hozier, Perceval, Hanning Lee, Lumley, Stephens, Scarrisbrick, Ward, Young, and Jameson; Messrs. Buckland, Daniel, Lane, Langley, Toler, Johnstone, Neeld, Ames, Cuinghame, Houston French, Hume-Spry, Hensman, Wake, Marshall, Haines, and Hamilton. Covers were laid for fifty.

4th Dragoon Guards dined at Willis's Rooms on Saturday. Present:—Gens. Sir E. C. Hodge, Lawrenson, Shute, and Forrest; Cols. Chaplain, Burrell, Forster, R. Gunter, and J. Gunter; Majors Brodhurst, M'Donnell, M'Creagh, and Peploe; Capts. Bragge, Brodie, Ibbetson, Morgan, Murphy, Pope, and Tait; Messrs. Wilson, Pix, Hawkins, Gooden, Dalton, Arkwright, Vansittart, and Wright.

6th Dragoon Guards dined at Willis's Rooms on Friday. Present:—Gen. Jones; Cols. Napier, Sawyer, Bickerstaffe, Pryse, Fryer, Battye, and Bruce; Majors Sewell, Salis-Schwabe, J. D. Drummond, and Godman; Dr. Wakefield; Capts. Rickards, Graham, Hamilton, Cunliffe, Doering, Saurin, Montgomery, Hewitt, Hall, Marriott, Williamson; and Messrs. Sadlier, Burnley, Rostron, Baird, Massey, Scott, Anderton, Byrom, Porter, Sprot, Hallowes, Hammond, Sandeman, Gaskell, M'George, and Hall.

1st (Royal) Dragoons dined at Willis's Rooms on Saturday. Present:—Major-Gen. Wardlaw, Sir R. Glyn; Lieut.-Cols. Graham and Sir Walter Barttelot; Major Dixon; Capts. Fitzgerald, Robertson, Thornton, Tidswell, Gwyther, Benyon, Mesham, Tennant, and Dickson; Messrs. Egerton-Leigh, Entwisle, Ames, Nicholls, Towers, Clark, Henley, Caldwell, Ker, Gwynne, Owen, and Hamilton-Stubber.

7th Hussars dined at Willis's Rooms on Friday. Present:—Lieut.-Gen. Hagart, the Duke of Beaufort, Lord M. Beresford, Sir A. Chichester, Bart.; Cols. Hon. H. A. Cole, Fraser, C.B., V.C., Steele, and Hale; Majors Wilkinson, Wilkin, and Preston; Capts. Palliser, Wombwell, Buchanan, Hunt, Reid, Shuttleworth, and Metcalfe; Messrs. Jervis, Roper, Morris, Hon. T. Ashburnham, Hope Johnstone, Lawley, Atherley, and Seymour.

18th Hussars dined at the Pall-Mall Restaurant on Saturday. Present:—Major-Gen. Sir T. W. MacMahon, Bart.; Col. Barton; Major Stewart; Capts. Davies, Malet, Peyton, Pulleyne, Chapman, Mannock, Burn, and Knox; Lieuts. Gould, Miles, Pole, Slade, Butler, Frisby, Warner, &c.

4th Brig. Royal Artillery dined at the Ship and Turtle on Friday. Present:—Cols. Radcliffe, Pipon, Williams, Smyth, Brendon, FitzHugh, Byrne, Simpson, Turner, Arbuthnot, and Gore; Majors Duncan, Talbot, Ward, Ashton, Cuming, Sandham, Phipps, and Kyle; Capts. Tollner, Pipon, Walker, Hare, Tyler, Browne, Donald, Clayton, FitzRoy, Younger, and Ford; Lieuts. Bigge, Skinner, Walker, Legard, Pretyman, Bingham, Trollope, and Hanson.

6th Regiment dined at the Ship and Turtle on the 13th inst. Present:—Cols. Warrington, Unwin, Twyford, and Fielden; Majors Tewart, Austin, Black, O'Connor, and Coulthurst; Capts. Armytage, Goodwin, Hall, Cockburn, Mahoney, and White; Lieuts. Ball, Stevenson, O'Beirne, Haines, Jones, Scott, Mansergh, and Hollingsworth, and Dr. Morgan.

20th Regiment dined at the St. James's Restaurant on the 13th inst. Present:—Gens. Lord Mark Kerr, Sir E. A. Holdich, and Radcliffe; Cols. Davis and Sir A. R. Warren; Majors Vaughan, Blount, and Nunn; Capts. Dashwood, Wahab, Lindesay, Lutyens, Johnstone, Smyth, and Webster; Lieuts. Mack and Bland.

32nd Light Infantry dined at Willis's Rooms on Friday. Present:—Lieut.-Gen. Sir W. Jones, Major-Gen. Lowe; Cols. Chippendall and Colls; Major Stabb; Capts. Alexander, Clery, Lenthall, and Foll; Messrs. Iremonger, Studdy, Turnbull, Saunders, and Heath.

47th Regiment dined at the Criterion on Friday. Present:—Major-Gen. Fordyce; Cols. Lowry and Davenport; Major Waddilove; Capts. Boyd and Arkwright; Messrs. Harry Cooper, De Houghton, Percival, Lawson, Lascelles, and Baird.

53rd Regiment dined at Willis's Rooms on Friday. Present:—Major-Gen. Payn; Cols. Fendall, Noel, Wade, Fellowes, and Dyott; Majors Ball and Truell; Capts. Elmhirst and Scott; Sir Galbraith Logan, K.C.B., and Messrs. J. G. Scott, A. Fife, G. Arbuthnot, and Hungerford.

THE ALBERT MEDAL.

Board of Trade, Whitehall-gardens, June 15.

The Queen has been graciously pleased to confer the Albert Medal of the Second Class on Acting Sub-Lieut. Robert James Archibald Montgomerie, R.N., of her Majesty's ship Immortalité. The following is an account of the act in respect of which the decoration had been conferred:—"At 3.10 on the morning of April 6th, 1877, the Immortalité being under all plain sail, moving 4½ knots with the wind two points abaft the starboard beam, the port gangway look-out reported a man overboard, who proved to be Thomas Hocken. Mr. Montgomerie, who was on the bridge working a star meridian altitude at the chart table, on hearing the cry ran over to the lee side, saw the man in the water, and jumped after him. He made for Hocken, asking if he could swim, to which Hocken answered, 'Yes, sir,' but did not seem to be moving vigorously. Mr. Montgomerie then got hold of him, hauled him on his back, and towed him to where he (Montgomerie) supposed the life-buoy would be; but seeing no relief he told Hocken to keep himself afloat while he took his clothes off. While he was in the act of doing so Hocken, evidently sinking, caught hold of him by the legs, and dragged him down a considerable depth. Mr. Montgomerie, however, succeeded in getting clear, and swam to the surface, bringing the drowning man with him. Hocken was now insensible, and too great a weight to support any longer; and finding that his only chance of saving himself was to leave Hocken, Mr. Montgomerie reluctantly gave up the hope of saving him, and struck out for the ship. In the meantime the ship's course was stopped, and two boats were lowered, by one of which Mr. Montgomerie was picked up. The latitudes in which the occurrence took place abound with sharks; and though there was a half moon the sea was sufficiently disturbed to render small objects, even boats, difficult to discern. Had not Mr. Montgomerie been a most powerful swimmer he would have had little chance of life."

THE RUSSIAN FIELD ARTILLERY.

Considering the important *rôle* which Artillery is destined to play in all wars of the future, the following summary from a recent article by a Continental military writer on the Field Artillery of Russia will be read with especial interest. The subject becomes of greater importance just now from the fact that that Artillery has already been actively employed both on the European and Asiatic seats of war. The writer, in subjecting the Russian Field Artillery to a closer examination, makes special reference to its distribution among army corps. In the first place, with regard to its armament, the Russian Artillery has in the selection of its weapon in so far been favoured by fortune, as the French muzzle-loading guns which were first adopted after the events of 1859 were soon abandoned again to make room, about 1865, for the Prussian system of breech-loading. The Russian Army, consequently, has entered on the campaign with a gun in all respects equal, if not superior, to that used by the German Army in the Franco-German war, using an arm with which the Service, after more than ten years' practice, is perfectly acquainted. The Russian field guns are breech-loaders, throwing projectiles of medium velocity. The material of the barrel is either steel or bronze. At first a great number of steel barrels were ordered direct from Krupp. When later experiments with bronze barrels gave favourable results, the latter were exclusively made, so that now the uniform arm is a bronze gun, the steel guns being kept in reserve. The calibres of the field guns are 8·69 and 10·67 centimetres (3·4 and 4·2 inches); their designation is the old one—4-pounders and 9-pounders. The light gun is supplied to the Horse and half the Foot Artillery, the heavy arm to the other half of the Foot Artillery. The projectiles thrown by the light gun weigh 12·2lbs., by the heavy gun 24·25lbs. The Russian 9-pounder, which forms 45 per cent. of the whole armament, may consequently be considered as a gun of position. Those brigades of Artillery destined solely for the seat of war in Asia are armed with 3-pounder mountain guns (instead of 4-pounders), the weight of the barrel being as nearly as possible 2cwt. The breech-piece of the bronze barrel is closed by the simple flat wedge, that of the steel barrels by the round wedge. The 4-pounder barrel, with breech-piece, weighs a little over 6cwt., the 9-pounder nearly 12¼cwt. The carriages of both guns are of wrought iron. The guns of the foot batteries are provided with arrangements for the transport of the men. The projectiles are of the latest pattern—shells with percussion fuzes, shrapnels with time fuzes, carcasses, and case shot; but shrapnels with percussion fuzes are also used. The guns carry only a limited supply of ammunition (4-pounders eighteen, 9-pounders twelve rounds), but the batteries are well supplied with ammunition-carts, or, recently, waggons, of which there are two per 4-pounder gun, and three per 9-pounder gun. All guns in time of war are drawn by six horses. The batteries attached to Infantry divisions are foot batteries, consisting half of 4-pounders and half of 9-pounders. Each of these batteries numbers eight guns, with sixteen ammunition-waggons for the 4-pounders, twenty-four waggons for the 9-pounder batteries, and three and four supply waggons respectively. Each battery has two reserve caissons, one field smithy, one waggon for tools, two waggons for carrying utensils, and one for baggage. Altogether the light foot battery has thirty-four, the heavy forty-three carriages. This large number, however (excepting the guns), are constructed for carrying lighter weights than is usually the case in the Artillery of other nations; they are drawn, moreover, by only three horses. A Russian light foot battery has a march length of 460 paces, a heavy one 570 paces. The batteries attached to Cavalry divisions are horse batteries. They number only six guns and twelve ammunition waggons, and the same number of carriages as the 4-pounder foot batteries. The war complement of a 9-pounder foot battery consists of one Staff officer commanding, five other officers, 317 men, 223 horses; of a 4-pounder battery, one Staff officer, five other officers, 256 men, 169 horses; of a horse battery, one Staff officer, five other officers, 253 men, 241 horses. The whole Foot Artillery is formed into brigades, a brigade numbering six batteries, three light, three heavy. On a war footing a brigade of foot Artillery is attached to each division of Infantry. The Horse Artillery was formerly also divided into brigades, but this division has been abandoned (with the exception of the batteries of the Guard). There exist now during peace five horse batteries of the Guard, twenty-one of the Line, eight Cossack batteries (one Guard), altogether thirty-four horse batteries, so that two batteries are attached to each of the seventeen Cavalry divisions (of four regiments each) in the European theatre of war. During war, fourteen more horse batteries of the Don Cossacks are established, which, together with the Cossack regiments (altogether six, four of which are united into the division of Don Cossacks) not attached to the above divisions of the first line, and a part of the forty regiments of the second and third lines, remain at disposal in the case of further formations of Cavalry divisions. To the majority of the army corps (consisting of eight regiments of Infantry and four of Cavalry) 108 guns are attached, of which ninety-six are foot, twelve horse, or four and three guns to each 1,000 men, according as the regiments consist on a war footing of three or four battalions (the latter in the case of the Guard and the Caucasian regiments). The author of the article concludes it by expressing his belief that the above statement will show that the Russians, with respect to their Field Artillery, both as regards numbers and fitness for service, may look confidently into the future. The mode of its employment alone will decide whether signal successes will be obtained with it.

The set of plate for the Holy Communion to be issued to ships entitled to bear chaplains, and having complements of four hundred men and upwards, and to all flagships, is in future to consist of a chalice, a paten, and a flagon, and to vessels entitled to bear a chaplain, and having complements of less than four hundred men, of a chalice, a paten, but without a flagon.

Sir H. Havelock asked the Secretary for War on Monday whether any arrangement had yet been arrived at with the India Office by which the system of short service necessary for forming a reserve had been made compatible with the demands of Indian military service. Mr. Hardy replied that last year he sent propositions to the India Office, which were afterwards submitted to the authorities in India, and that these authorities subsequently made other propositions, which he believed would in no long time lead to a solution of the question.

"ENGLISH SURVIVORS OF WATERLOO."

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—A short time ago a friend of mine handed me the ARMY AND NAVY GAZETTE—headed as above—giving a list of the survivors of the Duke of Wellington's Army who participated in the battle of Waterloo, on June 18, sixty-one years ago. I will not withhold from you my surprise at the assumed pre-eminence indicated by the heading. I am not an Englishman, nor did I ever serve in the English Army, and I repudiate all pre-eminence, come from whence it may. The veneration with which I have ever regarded my dignified, beloved country, and the respect I bear towards my kindred, will ever justify my carrying this repudiation with me to the grave, free from all disparity. I was born in the highlands of Perthshire on June 6, 1790. I, therefore, feel assured of your clemency towards an old man while he relates part of his history as briefly as possible. In 1811 I was gazetted to a second lieutenancy in the 1st Batn. old 95th Highlanders Light Infantry Rifle Corps, now Rifle Brigade, a title conferred for its intrepid services in the Peninsula, South of France, and at Waterloo. My commission was bestowed through the influence of a relative of my mother's, the late Sir John Anstruther, who commanded a brigade in the retreat to Corunna. I joined the depôt at Braybourne Lees, in Kent, and in June, 1812, we marched to Shorncliffe. In 1813 an army was raised to assist the Dutch against Napoleon, commanded by Gen. ·Grahame; the late Lord Lyndock-Perthire and our depôt furnished four companies of the old 95th Rifle Corps, commanded by Col. Cameron, the late Sir Alexander Cameron; Capt. Glass' company, 1st Batn., in which I was; Capt. J. McCulloch's company, 2nd Batn., brevet major; Capt. B. Travers' company, 3nd Batn., brevet major; and Capt. Wm. Eals' company, 3rd Batn.—in all, 400 men. Part of this army, under Gen. McKenzie, was appointed to bombard Antwerp; and Carnot, who commanded, made a sortie to Merxem, whence he was driven back with considerable loss in men and prisoners. In March, 1814, this army got possession of Antwerp, on the overthrew of Napoleon; and after this our little battalion was quartered all over Flanders, commanded by Capt. Glass, of whose company I got the command, and Second Lieut. William Wright, on half pay in your list, was my subaltern. In May and June we were quartered in Brussels. In July we marched to Antwerp, and about the middle of August we got the route for Ghent, where we acted as guard of honour during the ratification of peace between Great Britain and the United States, concluded Dec. 24, 1814. Early in Jan., 1815, we got the route for Dixmude, where we wintered, commanded by Col. Ross, the late Sir John Ross, of Balgershow, Perthshire, whose father was my father's intimate friend. In the first week of April Lord Wellington arrived from Vienna, and ordered all detached companies to join their respective regiments forthwith. Col. Ross sent for me, and said that if I chose to remain with him he would arrange with Sir Andrew Barnard, colonel of the 1st Batn., and give me the command of the company on the right; to this I cheerfully acceded, and led the company out of Waterloo. This company was commanded by my friend, Capt. Boyle Travers, at Merxem, who on the first proclamation of peace went home on leave, got married, and soon afterwards retired from the Service. His eldest son is now in Wellington, and one of our ablest barristers in New Zealand. I was thus attached to the 3rd Light Brigade, Sir Harry Clinton's 2nd Division, Lord Hill's 2nd Corps, commanded by Sir Frederick Adam, an old Peninsular brigadier of a renowned Peninsular brigade, and one who stood high in Lord Wellington's esteem. The 71st Highlanders Light Infantry formed our right, commanded by Col. Reynel. On their left were two companies of the 3rd Batn Rifle Brigade, commanded by Col. Ross. On their left was the 52nd Oxfordshire Light Infantry, a noble regiment commanded by Sir John Colborne, the late Lord Seaton, a talented, experienced, and gallant soldier, who with his regiment in the Peninsula and the South of France had secured Lord Wellington's entire confidence. On its left was the 2nd Batn. Rifle Brigade, commanded by the late Sir Amos Norcott, a dashing, dauntless son of our noble, chivalrous Emerald Isle. Our position in the field was the right centre of the Britith Army, on a sloping bank between Hougomont and La Haye Sainte, in squares of battalions, exposed for over six hours to the enemy's round shot, shell, and grape, and having to repel a dozen charges of his Cuirassiers and Lancers. About half-past seven o'clock in the evening Lord Wellington galloped up to Sir Frederick Adam, and after a moment's interview we were ordered immediately to form line in crescent, with our flanks well in advance. Soon after we got into position Marshal Ney, the most renowned soldier in France, came direct upon us, at the head of seven battalions of the old Imperial Guard, that had not fired a shot until then, reserved evidently to break through our centre and open out in our rear—Napoleon's favourite mode of securing victory. They fought three deep in their companies, and in close columns in rear of their grenadiers, with a frontage of only thirty men. Our flank battalions were formed two deep, and the 52nd in our centre was obliged to form four deep for want of room. Our strength, at this time, was about 2,400 men, thus occupying a frontage of about 300 yards; while Ney's seven battalions had only 100 yards' frontage, with wide intervals between each phalanx. They charged, drums beating, and cheering "Vive l'Empereur!" and when within about 150 yards we were ordered to commence a steady fire by volleys of companies, and after seven or eight rounds of those well-directed volleys the whole of the enemy were in utter confusion. Ney's horse was shot under him; he lost his cap, and on foot, sword in hand, he endeavoured to rally his men. This was impossible, they were treading each other down. We were ordered to charge with the bayonet, and in a moment about 3,000 of the enemy threw down their arms and rushed in the greatest confusion to the rear. At this moment we were over a hundred yards in front of the British line pursuing this routed multitude with Napoleon's favourite marshal in their midst, and perfect masters of everything in our front. The left of the 2nd Batn. Rifle Brigade had now reached the high road a little below La Belle Alliance, and shooting the horses in the enemy's artillery flying to the rear blocked up the road, and thus secured about eighty guns of Count Reille and Count d'Erlon's corps. About 2,000 of the enemy under General Cambronne were posted in front of La Belle Alliance to cover the retreat; they got panicstricken, and, adding disaster to confusion, fled with the Old Guard. Cambronne was taken prisoner by Lieut.-Col. Hugh Halkett, and we drove this routed mass a short distance beyond La Belle Alliance, when the Prussians took up the pursuit. It was now getting dark; we were halted, and ordered to take ground to our right, and slept upon the field where Count d'Erlon's men had bivouacked the night before. Early in the morning of the 19th we got the following order:—"Head-quarters, Waterloo, June 19.—Officers commanding companies will, with the least delay, send in a list of their killed, wounded, and missing in yesterday's action with the enemy." And I, with the assistance of my non-commissioned officers and men, made out the required list, which I signed with my name in full and rank on the back of my colour-sergeant, and which must be now on record at the Horse Guards. Our brigade, with the advance of the British Army, drove the scattered enemy on to Paris, and on the evening of July 4 we bivouacked in the Bois de Boulogne, where we waited for Lord Wellington's final arrangements with the authorities in Paris, and on the evening of the 6th we received the following instructions—"The army will hold itself in readiness to enter Paris to-morrow morning." And on the morning of July 7, 1815, we received the following order:—"The two companies 3rd Batn. 95th Highlanders Light Infantry Rifle Corps, under the command of Capt. William Eals, will proceed, as advance picket, through the Barrier de l'Etoile to their encampment in the Champs Elysées, where they will pitch their tents." Two field pieces attached to our brigade marched the usual war distance in advance, and, passing through the barrier, posted a gun on each side of the road about twenty yards in front of the gate, with their matches burning. I shall never forget the kindness of my friend Sir John Ross, who placed me in this position. The company which I had the honour to lead out of Waterloo I now had the greater satisfaction of leading through the Barrier de l'Etoile, and to our encampment in the Champs Elysées, the first British troops that ever entered Paris, or ever occupied such an advanced position. On the morning of July 8 our first parade mustered 150 rifles, out of about 200 with which we went into action at Waterloo, and here our advance picket remained quietly in a rural shady wood, within rifle range of the front entry to the Tuileries, until the army went into their several cantonments for the occupation of France. Lieut.-Col. T. Smith, C.B., who was adjutant to our 2nd Batn. Rifle Brigade at Waterloo, and who is now in or near London, will affirm all that I have written. His house in Chatham Barracks was the last that my family and I were in before leaving for New Zealand in Aug., 1850. I had lost my father and only brother, and, being left with a mother and six sisters, I was urged by their executors, while with the army of occupation in France, to retire upon half pay to attend to pressing family matters, and I effected an exchange with a lieutenant of the 68th Light Infantry, and before leaving for New Zealand I commuted my half pay, which I have ever regretted. I would feel pleased to have some mention made of me in your gazette, yet more pleased and thankful were my country to award me retired captain's rank and pay during the rest of my life, and continue the widow's pension to my wife should she outlive me.—I am, &c.,

DUGALD MACFARLANE.

Christchurch, Canterbury, New Zealand.

[We trust that in printing this letter as it was sent to us, details and all, we are not in any way contravening the wishes of the gallant writer. The request at the close is one we would grant if we had the power.—ED. A. AND N. G.]

A meeting was held in the Egyptian Hall, Mansion House, on Tuesday, on behalf of the Portsmouth Soldiers' Institute. Sir Garnet Wolseley presided, in the absence of the Lord Mayor. The Chairman, in opening the proceedings, read a letter from Major-Gen. the Hon. J. Macdonald, who said that he had been desired by his Royal Highness the Duke of Cambridge to bear testimony to the admirable way in which the Portsmouth Soldiers' Institute had been conducted, and which he had great satisfaction in inspecting some short time ago. The Chairman observed that the paucity of charities for soldiers and sailors, as compared with charities for relieving the civil population, had often struck him. He believed that that fact only required to be known to be remedied. Perhaps the fact was that soldiers and sailors were "bad beggars," and did not "tout" as they ought to do among the wealthy populations of the country. The officers of the Army and Navy were poor, but they not only had to support their own charities, but were called upon to subscribe to the general charities of the country. As the charities of the Army and Navy became known, they would come in for a fair share of the liberality of the wealthy classes of the country. If other towns would follow the example set by the Lord Mayor, the professions would have no cause to complain of the subject not being well ventilated. Although not speaking from personal knowledge, yet he was aware of the great good which Miss Robinson had done among our soldiers and sailors. Miss Robinson then addressed the meeting in an interesting discourse, referring to the temptations which were thrown in the way of soldiers and sailors at Portsmouth, which was a point of embarkation and disembarkation. The working of her plan was tried upon a regiment at Aldershot, and where the fines had been £57 per month for drunkenness, they were reduced within one month to only £10. At Portsmouth, military crime ran high, and it was calculated that in the public-houses and gin-shops of the town more than half a million of money was annually spent by our soldiers and sailors. The "Home" was fitted up comfortably, amusements of all rational kinds were provided, and since September, 1874, over 13,000 nights' lodgings had been given at the Home. In conclusion, Miss Robinson read a letter from Miss Florence Nightingale, who wrote:—"May I from my sick-bed cry for help from England for her soldiers and her institute at Portsmouth, the great port for embarking and disembarking? If you knew as I do (or once did) the difference between our soldiers cared for in body, mind, and morals, and our soldiers uncared for; if we knew how troops immediately on landing are beset with invitations to bad of all kinds, we should hasten to supply them with invitations to means for good of all kinds, remembering that the soldier is of all men the man whose life is made for him by the necessities of the Service; he cannot go seeking work, better places, and proper recreations for himself, still less for his wife or family; if you knew these things as I do, you would forgive me for asking you if my poor name may still be that of the soldiers' ever faithful servant, to support Miss Robinson's work in making men of them at Portsmouth." The letter was loudly cheered. Bishop Claughton, Sir Henry Wilmot, Sir Henry Havelock, and Gen. Clark subsequently addressed the meeting, and the proceedings then terminated with a cordial vote of thanks to the chairman, and to the Lord Mayor for granting the use of the Egyptian Hall.

The *Monetary Gazette* of the 6th inst. contains a portrait of Mr. Feltoe, the proprietor of the "Spécialité" sherry.

THE EASTER VOLUNTEER REVIEW.

The following letter has been addressed by the General officer commanding the Home District to the Adjutant-General of the Forces:—

Home District Office, Horse Guards, April 13, 1877.

SIR,—I have the honour to report, for the information of his Royal Highness the Field-Marshal Commanding-in-Chief, that the Volunteers, to the number of about 10,823 of all ranks, assembled this year for the usual Easter Monday Review in the immediate neighbourhood of Dunstable, and manœuvred on ground which I have already indicated in my letter of the 1st ultimo.

The facilities for conveyance of troops offered by three different railways connected by a branch line suggested the division of the force taking part in the manœuvres into two opposing bodies, one of which, the 1st Division, was to concentrate at Dunstable, by the Great Northern Railway; the other, the 2nd Division, at Stanbridge Ford Station, by the North-Western Railway, on the branch line connecting these two railways; the distance between the two points of assembly being about four miles.

The general idea for the manœuvres was as follows:—

"An army concentrated at Cambridge marches on Bedford to sever the direct lines of railway connecting London with the north, detaching a division to the neighbourhood of Dunstable for the protection of its left flank.

"This division, on approaching Dunstable, receives information that the advanced guard of an opposing force, advancing from the direction of Leighton, has occupied the Castle of Totternhoe. The action commences with an attempt to dislodge it."

The whole force was to be assembled for the march past at the foot of some high ground, well suited for the collection of the spectators.

Annexed is a copy of the orders issued for the occasion, together with a statement showing the strength and distribution of the force, a plan of the grounds, and the reports of commanders of divisions.

The manœuvres were, upon the whole, conducted to my satisfaction, and would have been still more so had it not been for the crowd of spectators, who at times became so intermixed with the Volunteers as considerably to hamper their movements, and render it difficult for the opposing forces to distinguish their adversaries from the crowd.

I remarked a general improvement in the Volunteers, both in their steadiness in the field and in their discipline generally. They maintained silence and very good order in the ranks; there was little or no hurry and confusion, and the firing was more regular and kept under better control.

There is no want of intelligence among the men; they showed great aptitude for instruction, and quickly and readily conformed to the orders they *from time to time* received.

In spite, however, of the improvement I have alluded to, the progress made by the Volunteers is but slow, and is not likely to reach real efficiency in the field so long as certain impediments stand in their way, which are almost inherent in the Volunteer system. One is absence of continuous drill, and another the difficulty of imparting adequate instruction to officers and non-commissioned officers, without which they can exercise little or no moral control over their men, and there is no doubt that the gradual improvement of the men is in a higher ratio to that of the officers and non-commissioned officers. In one or two instances battalions were extremely well handled by commanding officers who had had no previous Army training, but these instances are not of frequent occurrence. The Volunteers feel very keenly being inefficiently commanded, and it would, therefore, almost seem to be an indispensable qualification for the command of a battalion that the officer appointed to it should have previously served in the Army.

Much has been done towards efficiency by the appointment of adjutants and captains of companies who have done Army service, but it is of still greater importance that this practice should be carried out in the higher ranks.

In order to introduce habits of order and regularity amongst Volunteers proceeding by march route to Dunstable, orders were issued for their guidance on the occasion, which appear in many instances to have been carefully attended to, and have, I trust, been productive of some good.

The order and regularity with which the Volunteers conducted themselves on embarking and re-embarking at the different railway stations have been reported upon in the most satisfactory manner by the officers appointed to the different stations to superintend that duty.

An instance of irregularity was brought to my notice of a Volunteer discharging his rifle in a return railway train; this matter is being inquired into, as well as the reason for the neglect of the order for examining arms and collecting ammunition at the close of the field day, which, if properly carried out, would have prevented this occurrence.

The arrangements made by the railway authorities of the North-Western and Great Northern Railways were excellent, and the experience gained on these occasions by both military and railway authorities in the important duty of transporting large bodies of troops is of very great value.

No casualty of any kind occurred, nor has any complaint, civil or military (with two exceptions of no very great importance), against the Volunteers been brought to my notice; their conduct throughout has been orderly and soldierlike, and enables me to close my report by bringing it to the favourable notice of his Royal Highness.—I have the honour to be, Sir, your obedient servant,

FREDERICK STEPHENSON, Major-General,
Commanding Home District.

The following men have been awarded the medal for long service and good conduct:—Tom Smith, gunner's mate, and Henry Orley, ship's steward of the Antelope; Henry Stewart, qrmr. of the Cruiser; James Shoebridge, leading stoker of the Raleigh; William Martin, leading stoker of the Sultan; and William Johnson, chief yeoman of signals of the Alexandra.

FURNISH ON THE NEW HIRE SYSTEM.—The "New Hire System" is quite distinct from anything yet attempted. Houses, &c., furnished throughout. 20 Wholesale Houses to select goods from. "An excellent idea. —"Army and Navy Gazette." Prospectus, with Press opinions, post-free. General Furnishing Company—Offices, 9 Southampton-street, Strand

THEATRES.

Her Majesty's Opera.—The production of Meyerbeer's grand opera *Les Huguenots* for the first time during the present season attracted a distinguished audience to her Majesty's Opera on Tuesday evening. The *rôle* of Valentina is scarcely within the scope of Mdlle. Sala, but it must be remembered that she has but partially recovered from indisposition, and, therefore, made her essay under exceptional difficulties. Mdlle. Valleria was a graceful Margherita di Valois, but the principal attraction of the evening was the Urbano of Madame Trebelli-Bettini. It is true that she has but two songs to sing, but they were sufficient to mark the accomplished vocalist, while her admirable acting was most fully appreciated. Herr Wachtel sang occasionally with wonderful effect, but he is not, nor never can be, such a Raoul de Nargis as the subscribers to her Majesty's Opera have, till within the last half-dozen years, been wont to welcome. On this occasion the grand part of Marcello was fairly performed by Herr Rokitansky, while Signor Rota gave every satisfaction as St. Bris. Signor Galapi is not a dignified Di Nevers. In *Martha* on Thursday evening Mdlle. Chiomi achieved a decided success in the leading character, and was effectively supported by Madame Trebelli as Nancy. Although in almost every respect a weak opera, Flotow's music has sufficient charms to render *Martha* highly popular.

Gaiety.—Whatever complaint Mr. Hollingshead's patrons may have to make about the series of French plays now proceeding under his rule, they certainly cannot accuse him of neglecting the charm of variety. In rapid succession he has brought forward Fèbvre, Theresa, and Chaumont. The last-named lady, who is already well known to Londoners, made her appearance on Monday in the songs for which she is celebrated, and, also, in the terribly suggestive little piece *Toto chez Tata*, the granting of a license to represent which on the London boards is one of the inscrutable mysteries to be cleared up by some future historian of the Lord Chamberlain's department. Why so prudish an official should permit the representation of a dramatic piece whose only object is to place before an audience in the warmest colours the rhapsodies of a school-boy about a woman of the very lowest character, while at the same time he positively forbids such a piece as *Le Supplice d'une Femme*, is, to say the least of it, surprising, particularly at the time when two people have been found guilty of printing and publishing a well-known medical book, and when even the manual of the ritualistic clergy has been denounced in high places. However, setting the immoral tendency of *Toto chez Tata* on one side, there is nothing but praise to be given to the clever and *piquante* Frenchwoman who plays the part of the schoolboy. Every look, every action, every motion, every inflection of voice and turn of sentence, all are full of meaning, and the whole performance is so instinct with life and suggestiveness that the piece will be as intelligible to the deaf man, or to the man ignorant of French, as to him who has all his wits and senses about him. The famous songs which precede it are given with all the old grace and point. Of course *La Première Feuille* is included, and in compliment to her English admirers Madame Chaumont has added a novelty in the shape of *Les Leçons Anglais*, which is admirably delivered. The programme also includes two little pieces, *Le Bouquet* and *L'Autographe*, but these do not call for any comment.

Globe.—It is seldom that we see a more meaningless burlesque than that just produced as an after-piece here, and styled *The Lion's Tail, and the Naughty Boy who "wagged" it.* The title is not even suggestive, for though there is a deserted public-house called "The Lion's Tail" placed upon the stage, it has nothing to do with the plot there is in Mr. Robert Reece's latest work. Purporting to parody the popular melodrama at the Lyceum, the new piece consists of three scenes of school life with the moral adjuncts of flogging, bullying, stealing, and skulking—or "wagging." An itinerant vendor of pastry is robbed by one Master Dubosc, and the innocent and goody-goody Lesurques is convicted of the crime. This is the basis of a worthless trifle, which contains some smart dialogue written to no purpose. It is all but too evident that the writer had in his head, at the time of producing this rubbish, the notion that Mr. Righton—a clever comedian, albeit a trifle corpulent—wanted to play a dual part; first the goody boy with his pinafore and skipping-rope, and next the villanous youth who delights in disguises and brigands' hats, and that to this end most of his ability has been sacrificed, for Mr. Righton does not shine to advantage in the piece. His efforts at humour are clumsy, and his attempts at imitating Mr. Irving are decided failures. And yet there is no actor more easy of caricature than the Lyceum favourite. For the rest of the cast, it may be recorded that Mr. George Barrett does his best to cause laughter, in which he is earnestly assisted by a multitude of pupils, a host of pretty girls, and the vendor of pastry is most humorously interpreted by a new-comer, Mr. Bradbury. *After Dark* still forms the main attraction here.

Princess's.—There is nothing specially noticeable in the revival of *After Dark* at the theatre where it made its first appearance, if we except the remarkable performance of Mr. James Fernandez in the *rôle* of Old Tom. This is a piece of acting which should be seen by everyone, and is in itself good enough to renew the lease of life of Mr. Boucicault's drama, now being played at two houses.

BIRTHS.

Mackay.—June 11, at Malta, the wife of George W. Mackay, Secretary Royal Navy, of a son.

Stirling.—June 18, at the Priory, Waterloo, the wife of Captain Francis Stirling, R.N., of a daughter.

Hanbury.—June 17, at Collingham Place, S.W., the wife of Captain Charles Hanbury of a daughter.

Fitz-George.—June 11, at Gorey, Jersey, the wife of Commander A. A. F. Fitz-George, R.N., H.M.S. Dasher, of a daughter.

MARRIAGES.

Germon.—Young.—June 2, at the Parish Church, Hove, Brighton, by the father of the bridegroom, assisted by the Rev. A. Currie and Rev. C. B. Young, uncle and cousin of the bride, R. C. H. Germon, Esq., Brevet Major 9th Regiment, son of the Rev. N. Germon, of Eden Bridge, Kent, to Edith Marie, youngest daughter of the late Henry Young, Esq., Chief Secretary to the Bombay Government.

Andrews.—Allfrey.—June 21, at St. James's, Paddington, by the Rev. Walter Abbott, James W. Andrews, Lieutenant 11th Regiment, eldest son of Thomas Andrews, LL.D., F.R.S., Vice-President of Queen's College, Belfast, to Emily, daughter of Frederick W. Allfrey, Esq., of Stanbury, Reading, and granddaughter of the late Sir Robert Moubray, of Cockairnie, N.B.

CHARLES FREDERIC RYDER Esquire, deceased.—Pursuant to the Act of Parliament 22nd and 23rd Victoria, Chapter 35, NOTICE IS HEREBY GIVEN that all persons having any claims against the estate of Charles Frederic Ryder, late of the Close, Lichfield, Staffordshire, a Lieutenant in the Royal Navy, deceased (who died on the 2nd day of May, 1864, and Letters of Administration with the Will annexed of whose estate and effects were granted on the 22nd day of May, 1877, by the Principal Registry of the Probate Division of the High Court of Justice to Thomas Dudley Ryder, of 7, St. James's Square, Manchester, in the County of Lancaster, Esquire, and Richard Calthorpe Whitmore Ryder, of 40, Pall Mall, in the County of Middlesex, Esquire, the executors of the Will of the Reverend Henry Dudley Ryder, Clerk, late a Canon of Lichfield Cathedral, deceased, the father of the said Charles Frederic Ryder, the universal legatee named in his Will) are requested to send in particulars of their debts, claims, or demands to the Administrators, at the offices of the undersigned, their Solicitors, on or before the Sixth day of July next, after which time the said Administrators will distribute the assets of the said Charles Frederic Ryder, having regard to the claims only of which they shall then have had notice.

Dated this 12th day of June, 1877.

M. and F. DAVIDSON and BURCH,
35, Spring Gardens, London,
Solicitors for the Administrators.

ENTRY OF ENGINEER STUDENTS IN HER MAJESTY'S DOCKYARDS.

My Lords Commissioners of the Admiralty having decided to offer 45 vacancies to be competed for, NOTICE is HEREBY GIVEN that a Competitive Examination for these vacancies will be held on TUESDAY, the 11th September, 1877, and following days, in London, Edinburgh, Glasgow, Aberdeen, Dublin, Belfast, Cork, Leeds, Bristol, Liverpool, Newcastle-on-Tyne, Chatham, Sheerness, Portsmouth, and Devonport.

The age of Candidates must be not less than 14 nor more than 16 on 1st May, 1877.

The parents or guardians of all engineer students will be required to pay each year in advance the sum of £25 during the first three years of the student's training. The engineer students this year and next year will be entered at Portsmouth Dockyard only, and board and lodging will be provided for them in the Dockyard, where they will be required to reside.

A small weekly rate of pay (annually increasing) will be given to each engineer student during his six years' training. The engineer students will be under the supervision of the Captain of the Steam Reserve and a staff of competent officers, and subject to such rules and regulations as their Lordships may deem necessary.

Parents or guardians will be required to enter into a bond to the amount of £300 that the students, after completing their training, will enter the Naval Service.

References as to respectability and good conduct will be absolutely necessary.

The Lords of the Admiralty having, by recent changes, very materially raised and improved the position of the Engineer Officers of the Royal Navy, desire, by early publication of the above regulations, to encourage more general competition for these appointments.

For further particulars apply, by letter only, to the Secretary of the Admiralty, Whitehall, London.

Application to be permitted to compete will not be entertained after 31st July, 1877.

By command of their Lordships,
ROBERT HALL.

Admiralty, S.W., 16th May, 1877.

THE REGENT UNITED SERVICE STORES, Limited,
142 to 144, REGENT-STREET, LONDON, W.

This Company is founded on the business of the PROVIDENT AND PUBLIC SUPPLY ASSOCIATIONS, all the SHAREHOLDERS AND TICKETHOLDERS of which are now respectively members of the REGENT UNITED SERVICE STORES.

The Stores are in full operation, nearly every department being largely stocked.

£1 Shares, Preference and Ordinary, are now being issued, entitling to free carriage.

INCREASE OF INCOME.—Gentlemen having extensive connections may add considerably (£100 to £500 per annum) to their incomes, without publicity or obligation, by introducing business to a professional firm. For interview write to A. G., Kelly's Library, 2, Vigo Street, W.

TO GENTLEMEN.—A SYNDICATE is being formed for an INVESTMENT of a most safe character. Considerable profits from large quantities of a material in constant demand. Only gentlemen of capital and respectability treated with. Highest references. Address, "C. C. C.," care of Deloitte, Dever, Griffiths and Co., Public Accountants, 4, Lothbury, E.C.

RETIRED OFFICERS and GENTLEMEN seeking INVESTMENT and OCCUPATION can secure freehold manufacturing premises in the West of England in full working order, paying good interest. Address "Purchase," care of Willing, jun., Advertising Offices, 301, Strand, W.C.

TO BE LET, at Petersham, Surrey, for a year or shorter period, a comfortable, old-fashioned, FURNISHED HOUSE (with garden), containing 4 sitting-rooms, 10 bed-rooms, and 2 dressing-rooms, housekeeper's room, and usual offices; coach house and stables; gas and water laid on; a quarter of an hour's drive from Richmond Station; within five minutes' walk of the river and Ham avenues, and close to Richmond Park; sandy soil, and very dry and healthy. For further particulars apply to A. F., Post Office, Petersham, Surrey.

TUNBRIDGE.—A FURNISHED HOUSE TO BE LET, from the end of July, for a year or two. Close to the Grammar School. Three sitting and five bed-rooms. Detached with garden. Pleasant situation. Apply, by letter, A. C., Miss Hewett, Stationer, Albany Street, Regent's Park.

ROYAL MILITARY ASYLUM, Chelsea.—COOK WANTED who has obtained a certificate of capability from the School of Instruction, Aldershot. Applicants must be either discharged soldiers or about to be discharged. Apply to the Commandant by letter, giving references as to character.

THE STAFFORD HOUSE COMMITTEE for the RELIEF of SUFFERING among the TURKISH SOLDIERS.

President, the Duke of SUTHERLAND, K.G.

The Turkish dominions having now been invaded, and hostilities being in progress, the suffering among the Turkish soldiers is very greatly increased; and, as will be seen from the annexed statement by Captain Burnaby, who has just returned from Asia Minor, they are in the greatest need of clothing, of food for the hospitals, and of medical stores and surgical instruments.

The Committee, therefore, appeal strongly to their countrymen for subscriptions to enable them to mitigate the horrors of the war by sending out to the Turkish soldiers such additional succour as is now most urgently needed.

STATEMENT BY CAPTAIN BURNABY.

"Regent's Park Barracks, April 27, 1877.

"In the course of my recent travels through Asia Minor, I visited several Turkish military hospitals, and conversed with the surgeons in charge. They often complained to me of the great scarcity of drugs, and said the authorities at Constantinople found it impracticable to supply many of the necessary specific medicines and surgical instruments, all of which have to be obtained in Europe.

"If people in this country could only realise to themselves the sufferings which the wounded will undergo when being operated upon without chloroform and with worn-out surgical instruments, I think they would willingly subscribe to the Stafford House Fund.

"The soldiers from the southern parts of Anatolia suffer very much from the change of climate, and are utterly unsupplied with warm underclothing. Many a time I have met battalions of Redifs on the march, the men with bare feet and wading through deep snow while the thermometer stood at zero. Many were frost-bitten on the march to Erzeroum and Kars. A supply of warm stockings and flannel shirts and blankets would save thousands of lives."

Communications to be addressed to T. Gibson Bowles, Esq., 2, Harriet-street, Lowndes Square, S.W., or to H. Wright, Esq., Stafford House, Joint Honorary Secretaries.

Subscriptions will be received by Major-General Sir Henry Green, Hon. Treasurer, Stafford House, S.W.; and will be acknowledged in the published list.

THE WANDERERS' CLUB, PALL MALL.

The ANNUAL GENERAL MEETING of the Members was held on the 29th May, and the Report stated that the number of members who had paid their subscriptions for the year ending May 12th, 1877, was 1,378, constituted as follows:—

402 Town Members.
636 Country ditto.
203 Members Resident Abroad.
137 Officers on Foreign Service.

The Entrance Fee remains at present at Ten Guineas. The Annual Subscription is—Town Members, Eight Guineas; Country Members, Four Guieeas; Members resident abroad, Two Guineas; Officers on foreign service, One Guinea.

For further information apply to
Major T. H. P. KENNAN, Secretary.
Pall Mall.

UNITED MILITARY AND NAVAL CLUB. Secretary's Office, for prospectus, &c., 86, REGENT STREET, W.—For gentlemen who hold, or have held her Majesty's Commission in the Army, Navy, Royal Marines, and Auxiliary Forces. Members are Honorary Members of a leading West-end Club. No Entrance Fee at present. Subscription: Town Members, £4 4s.; Country, £3 3s.; Abroad, £1 1s.

OTTOMAN CLUB, 29, King Street, St. James's.—Members are hereby informed that the Club is NOW OPEN.

R. J. A. WEBB, Secretary.

THE CLEDDAU VALLEY SLATE QUARRIES COMPANY (Limited).—Issue of 1,500 Debentures of £10 each, bearing interest at 10 per cent., payable quarterly, and redeemable at £11 per Debenture by 30 half-yearly drawings. Each Debenture-holder will have one fully paid-up share of £5 assigned to him for each Debenture he holds as a Bonus.

These Quarries contain unlimited supplies of both Green and Blue Slates of the highest qualities, and their situation is convenient to supply the best markets in the kingdom.

While nearly all other trades have been in a most depressed state, the slate Trade has been most flourishing, the price of slates having risen about 50 per cent. within two years.

Prospectuses, containing full reports on the Quarries and every detailed information, can be obtained from the Company, 78, Coleman Street, London, E.C.

MIDSUMMER HOLIDAY Trip to France for Sons of Gentlemen, under the care of a French gentleman, a Paris University Graduate, Master in one of the London Public Schools, and of his wife, an English lady. For particulars, apply by letter to Monsieur M., 2, Victoria Terrace, Clapham Junction.

OLDRIDGE'S BALM OF COLUMBIA

(Established 50 years)

The best and only certain remedy ever discovered for preserving, strengthening, beautifying, or restoring the

HAIR, WHISKERS, or MOUSTACHES,

And preventing them turning grey.

Price 3s. 6d., 6s., and 11s.

C. & A. OLDRIDGE,
22, WELLINGTON STREET, STRAND,
LONDON, W.C.,
AND ALL CHEMISTS AND PERFUMERS.

For children it is invaluable, as it forms the basis of a magnificent head of hair, prevents baldness in mature age, and obviates the use of dyes and poisonous restoratives.

WILLIAM S. BURTON,
39, OXFORD STREET, W.

THE PERFECT SUBSTITUTE FOR SILVER.—The REAL NICKEL SILVER introduced more than thirty years ago by WILLIAM S. BURTON, when plated by the patent process of Messrs. Elkington and Co., is the best article next to silver that can be used as such, either usefully or ornamentally, as by no test can it be distinguished from real silver.

Patterns.	Fiddle or Old Silver	Bead or Thread	King's or Shell.
	£ s. d.	£ s. d.	£ s. d.
Table Forks or Spoons, per doz.	1 10 .	2 1 .	2 5 .
Dessert do., per doz.	1 2 .	1 9 .	1 11 .
Tea Spoons ,,	. 14 .	1 . .	1 2 .

These are as strongly plated, and are in every respect at least equal to what other houses are selling as their first quality at very much higher prices.

A second quality of Fiddle Pattern:—Table Spoons and Forks, 23s. per doz.; Dessert, 17s. per doz.; Tea Spoons, 12s. per doz.

All kinds of re-plating done by the patent process.

DROITWICH BRINE BATHS, Worcestershire, consisting of hot and cold baths, sprays, douches, Turkish and swimming baths, and containing the most powerful water yet discovered. These Baths are crowded with sufferers of all classes, from the nobility to the poorest peasant. They relieve gout, rheumatism, neuralgia, all cases of general derangement, and extreme cases of debility, by restoring the tone of the digestive functions without the necessity of specific medicine. Private residence of the medical proprietor adjoining the Baths for first-class invalids, and all descriptions of lodgings can be obtained. For further information apply to Mr. Roe, Secretary.

RUPTURES (BY ROYAL LETTERS PATENT)

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer,

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London,

ROYAL CAMBRIDGE ASYLUM FOR SOLDIERS' WIDOWS, KINGSTON, SURREY.

OFFICE: 40, CHARING CROSS, S.W.

SUPPORTED BY VOLUNTARY CONTRIBUTIONS.

PRESIDENT.
H.R.H. THE DUKE OF CAMBRIDGE, K.G.

CHAIRMAN OF COMMITTEE.
Major-General H.S.H. PRINCE EDWARD OF SAXE-WEIMAR, C.B.

This Asylum was opened in February, 1854, to provide a Home for the Widows of Non-Commissioned Officers and Privates of the Army.

There are 57 Widows in the Asylum. Each widow has a furnished room and receives six shillings weekly, besides a monthly allowance of two shillings and sixpence for coals.

The funded income of the charity yields only £558, with an additional £50 from the Princess Mary's Fund for Nurses, to meet an estimated expenditure of £2,100 per annum.

An Annual Subscription of Half-a-Guinea, or a Donation of Five Guineas, entitles to one vote at each election, with the right of nominating a candidate.

J. A. STEWART, Colonel, Secretary.

THOMAS WHITE'S CELEBRATED CAMPAIGNING KIT,

CONSISTING OF

BEDSTEAD, BEDDING, BLANKET, PILLOW, BATH, WASHSTAND, BASIN, CAMP-STOOL, BUCKET, LANTERN, POLE-STRAP, LOOKING-GLASS, PYJAMAS, AND SLEEPING CAP.

ALL OF WHICH ARE CONTAINED IN HIS

LOCK-UP WATERPROOF BAG.

Which, when packed with the above articles, supplies room for clothing and other necessaries. The chief feature in this Kit is T. White's FOLDING BEDSTEAD (recently improved), weighing 16lbs., price 30s.; or his larger sized ditto, 18lbs., price 35s., intended for officers entitled to carry extra weight. Also his CANTEENS for company messing, to cook for and dine three or more officers, as supplied and thoroughly tested during the Manœuvres of 1871, 1872, 1873, 1874, and 1875. This Canteen was used by Sir Garnet Wolseley, G.C.M.G., K.C.B., his Staff, and the 42nd Highlanders (the Black Watch), and other regiments during the Gold Coast campaign, and is recommended and patronized by the highest military authorities.

The above Campaigning Kit, or Canteens, and in most instances both, have been supplied to his Majesty the Emperor of Germany; H.R.H. the Duke of Cambridge, K.G., &c.; H.R.H. the Duke of Connaught, K.G., &c.; H.S.H. Prince Edward of Saxe-Weimar, C.B.; the late General Sir Hope Grant, G.C.B.; Generals the Right Hon. Sir John Michel, G.C.B.; Sir R. Walpole, K.C.B.; Sir Charles Ellice, K.C.B.; Major-Generals Sir Charles Staveley, K.C.B.; Sir Alfred Horsford, G.C.B., Military Secretary; J. S. Brownrigg, C.B.; Henry Smyth, C.B.; Lord Mark Kerr, C.B.; D. Lysons, C.B., Q.M.G.; Sir Thomas MacMahon, Bart., C.B.; Sir E. Greathed, K.C.B.; G. V. Maxwell, C.B.; Hon. A. Hardinge, C.B.; C. Shute, C.B.; W. Parke, C.B.; A. J. Herbert, C.B.; and Sir Garnet J. Wolseley, G.C.M.G., K.C.B., besides some thousands of officers of nearly every branch of and regiment in the Service.

THOMAS WHITE,
CAMP AND BARRACK FURNISHER,

Begs leave to inform Commandants of Corps, Presidents of Messes, and Officers generally, that he

IS PREPARED TO SUPPLY ON HIRE

EVERYTHING NECESSARY FOR OFFICERS' MESSES,
Including
MARQUEES, FURNITURE, BOARDED FLOORS,
PORTABLE KITCHENS,
WHITE'S CELEBRATED FIELD RANGE,
Cooking Utensils, Cutlery, Electro-Plate, Crockery, China, Glass, &c.

The same will be securely packed and forwarded, accompanied by an experienced assistant, if desired, to any part of the United Kingdom.

THOMAS WHITE'S
STANDING CAMP TENT KIT,

As supplied by him for 12 years to the National Rifle Association at Wimbledon, and to Officers at Aldershot when under canvas, consisting of the following articles:—

Wood Folding Camp Bedstead
Hair Mattress
,, Pillow
Folding Chair
Sponge Bath
Water Can
Tent Pole Strap
Strip of Matting
Tripod Washstand.
Looking Glass
Basin
Lantern

Can be had on hire, in any number, to meet the requirements of regiments or County Rifle Meetings. The weight of each Kit complete is about 80lbs. The Kit includes everything necessary for camping out, and is looked upon by the large number of officers who have used it in England Ireland, and Scotland as a great convenience, saving them the trouble and annoyance of looking out, packing, and conveying their own goods (which are often unfitted for the purpose) to the camping ground.

P.S.—The Campaigning Kit is for Sale, and not for Hire; the Standing Camp Tent Kit is for Hire only.

Full details, Illustrated Price Lists, and Estimates for Officers' Messes, may be had post free on application to

HOLLOWAY'S PILLS. — Nothing preserves the health so well as an occasional alterative in changes of weather, or when the nerves are unstrung. These Pills act admirably on the stomach, liver, and kidneys, and so thoroughly purify the blood that they are the most efficient remedy in warding off derangements of the stomach, fever, diarrhœa, dysentery, and other maladies, and giving tone and energy to debilitated constitutions. All who have the natural and laudable desire of maintaining their own and their family's health cannot do better than trust to Holloway's Pills, which cool, regulate, and strengthen. These purifying Pills are suitable for all ages, seasons, climates, and constitutions, when all other means fail, and are the female's best friend.

BAUMGARTEN'S INVIGORATIVE NERVINE ESSENCE. A most powerful nutritive cordial, which restores to their normal condition all the secretions on the integrity of which perfect health depends.

Report by Dr. Hassall.—"Having analysed the preparation to which Messrs. Baumgarten and Co. have given the name of 'Invigorative Nervine Essence,' I am of opinion that it is a combination well calculated, from its containing, among other ingredients, Pepsine and Phosphate of Soda, to prove most serviceable to the debilitated, the nervous, and the dyspeptic."

Price 8s. per bottle, or four quantities in one, 22s. Carriage free on receipt of remittance. Sole agents, BRANT and CO 283 Strand, London, W.C.

ST. LAWRENCE-ON-SEA, NEAR RAMSGATE.

THE "GRANVILLE" HOTEL.

THE "GRANVILLE" PRIVATE SPECIAL EXPRESS TRAINS to ST. LAWRENCE-ON SEA, near Ramsgate, in 1 hour and 45 minutes. Departures every Friday, from Charing Cross at 3.45, and Cannon Street at 3.55 p.m. (See bills.)

THE "GRANVILLE."
"The situation of the palatial establishment on a cliff somewhat removed from the town, though conveniently proximate thereto, is an advantage greatly augmented by its superb suite of ozone and various other health-giving baths, its well-constructed rink, its excellent and cheerfully appointed table d'hôte, and all other liberal additions of comfort, luxury, and amusement since the hotel has come into the present enterprising hands."—"Daily Telegraph," March 29.

THE "GRANVILLE" HOTEL.
The "Saturday Review" says:—"The scenery, the air, the accommodation for visitors were described as of the most perfect kind; and we could not help wondering how it was that this place, which had been in existence in a quiet way for several years, had suddenly, like Byron, gone to bed and awoke famous."

THE "GRANVILLE" HOTEL.
"Mayfair" says:—"The proprietor of the hotel, which has carried the name of St. Lawrence-on-Sea to the utmost ends of the earth, has energetically and judiciously lavished a fortune, first in making the 'Granville' Hotel one of the most charming seaside residences in the Kingdom, and next in bringing the fact under the notice of the public."

Address the Manager, Granville Hotel, St. Lawrence-on-Sea, Ramsgate.

SOVEREIGN LIFE ASSURANCE COMPANY.

EXTRACT FROM REPORT OF THE DIRECTORS, MAY, 1877:—

The Directors have again the pleasure of reporting a material advance in the amount of new business effected by the Company during the past year.

The Policies issued were 474 in number, assuring £249,060, or nearly £50,000 in excess of the preceding year. The average amount of each Policy was £525, and the new premium income represented was £8,295 3s. 10d., or £2,100 more than in 1875. The increase on the Total Revenue from Premiums and Interest was £4,995.

The sum paid for claims by death during the year was not in excess of the amount anticipated; but the aggregate disbursements on account of policies falling due exceeded that of any former statement, owing to an increased number of Endowment Assurances having arrived at maturity. Nevertheless, £23,000 were added to the Funds of the Company.

H. D. DAVENPORT, Secretary.

THE JOURNAL FOR THE MESS ROOM.

MILITARY INTELLIGENCE.

Exclusive and authentic Military Information appears every week in "THE WHITEHALL REVIEW." The progress of the war is also noted, and the probable movements of both Armies are anticipated. The Military Articles are written by specialists in the Service, the accuracy of whose war forecasts, from the outbreak of hostilities, has been almost invariably verified by actual results. The WHITEHALL REVIEW is a chronicle of social affairs (English and Continental), and the best Books, the Operas, the Theatres, and the Money Market are criticised by able and impartial pens. Original Crayon Portraits of ladies every week, with Memoirs. Very flattering criticisms of the Whitehall Portraits have recently appeared in the *Times*, the *Morning Post*, the *Graphic*, and other leading journals. Price of Paper and Portrait, Sixpence; post free, 6½d.; Annual Subscription, £1 8s.

"An unparalleled success in journalism."—*Morning Post.*

REVELATIONS OF QUACKS AND QUACKERY.

"'Detector' has done his work well. We advise the public to purchase these 'Revelations,' and see how the disgusting tribe of sham doctors are pilloried and their doings related."—Public Opinion.

London: BAILLIERE, TINDALL, and Co., King William Street, Strand.

ROYAL SCHOOL for the DAUGHTERS OF OFFICERS OF THE ARMY.

At an election of four pupils, held on 20th June, the following was the order of the poll.

SUCCESSFUL CANDIDATES.

Miss C. D. Nicholas	4,730	Miss E. M. Barr ...	3,695
„ B. O'Donoghue	4,291	„ J. A. M. Farnall	3,200

UNSUCCESSFUL CANDIDATES.

Miss G. Morland ...	2,183	Miss H. E. D. Mackenzie	927
„ M. Chartres ...	2,169	„ A. E. E. Rogers	827
„ M. H. Fenwick	1,751	„ A. M. Johnston	595
„ B. G. Clayton	1,571	„ A. M. M. Scott	564
„ W. N. Lawless	1,477	„ S. M. Burns ...	500
„ M. C. C. Jardine	1,425	„ M. F. E. Hobbs	450
„ J. K. Davies...	1,349	„ A. Alleyne	361
„ E. E. Barker..	1,296	„ F. L. M. P. C. Hall	146
„ M. E. Wolfe...	1,260	„ J. S. Wood......	139
„ B. L. Hobbs ...	1,125		
„ R. A. Gordon	998		

The first four candidates were elected. The votes polled for the unsuccessful candidates are carried forward, unless they are withdrawn, or are over age. The next election will take place in December. With a view to afford the advantages of a good education to the daughters of officers of competent means at a moderate cost, and, at the same time, to aid the primary object of the Institution, a limited number of pupils are admitted on payment of £80 per annum, which includes all extras. Each donation of £5 5s. entitles to one life vote. Each annual subscription of 10s. 6d. entitles to one vote at all elections during the current year. Further contributions, to meet the current expenses, are earnestly solicited by the Committee.

By order,
G. W. FORSTER, Secretary.
No. 22, Cockspur Street, London,
June, 1877.

ROYAL SCHOOL FOR DAUGHTERS OF OFFICERS OF THE ARMY.

The daughters of all officers in her Majesty's Army, inclusive of the Royal Marines, on full or half pay, or who may have died in the service, are eligible. The ages of admission are from ten to fifteen.

The next election will take place on June 20, 1877.

Pupils elected by votes of subscribers pay only £12 per annum.

Each donation of £5 5s. entitles to one life vote. Each annual subscription of 10s. 6d. entitles to one vote at all elections during the current year.

Further contributions to meet the current expenses are earnestly solicited by the Committee.

By order,
G. W. FORSTER, Secretary.
No. 22, Cockspur Street, London.

THE SOLDIERS' DAUGHTERS' HOME,

Hampstead. Instituted 8th March, 1855.
Chairman—
Major-General J. T. Boileau, R.E., F.R.S.

Number of Children in the Home, 171; Vacancies, 29; Candidates awaiting Admission, 124.

Owing to the loss, by death, of several of the largest annual subscribers, and to the great falling off in donations, the funds are at present unequal to support the increased number of girls (26) who have been added to the Foundation during the last two years.

Further aid is earnestly solicited to meet the increased call upon the funds. Remittances to be made to C. R. Low, Esq., Secretary, No. 7, Whitehall, London, S.W. A guinea yearly gives 1 vote; five guineas, 2 votes for life.

ROYAL UNITED SERVICE INSTITUTION, Whitehall Yard. 1877.

LECTURE, FRIDAY (Three p.m.) 29th June.
Captain F. CHEVENIX TRENCH,
20th Hussars,
On "The Progress that has been made during recent years to Develop the Capabilities of Cavalry."
To be followed by a discussion.
By order of the Council,
B. BURGESS, Captain, Secretary.

ESTIMATES ON APPLICATION.

NAVAL CADETSHIPS, &c.

"EASTMAN'S" ROYAL NAVAL ACADEMY,
BURGOYNE HOUSE, SOUTHSEA.
Principal, since 1860, G. EASTCOTT SPICKERNELL.

At the last two Naval Cadet Examinations pupils took the *First* Place. More than 1,000 pupils have entered her Majesty's Service.

The House is situated close to and directly facing the sea. Pupils have good Bathing and Boating, under careful superintendence.

Pupils are received from Nine years of age and upwards. To make the School specially adapted for Junior Pupils intended for the Royal Navy and the Public Schools, Senior Pupils are not now received.

NAVAL CADETS, ASSISTANT CLERKS,

HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.
Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

ARMY EXAMINATIONS.

MR. MULCASTER'S MILITARY SCHOOL,
36 and 37, Woolwich Common, S.E.

Candidates prepared for the various Military Examinations.

During the past few years over 120 gentlemen have passed into the Service direct from this establishment, taking first places for Cooper's Hill College, Woolwich, and the Line respectively.

Of Militia candidates 12 have been successful out of 13 sent up for examination.

June 7th, 1877.

MILITARY EDUCATION in GERMANY.—For Candidates for Woolwich, Sandhurst, and commissions through the Militia. Colonel Berdoe A. Wilkinson (retired full-pay), Royal Engineers, receives pupils to prepare for the Army at his residence in Hesse Darmstadt. They have the advantage of preparing for the competitive examinations under the superintendence of an officer of long service, assisted by a staff of competent masters, and, at the same time, of acquiring a colloquial knowledge of German and French. Address Colonel B. A. Wilkinson, late R.E., care of Messrs. Cox and Co., Craig's Court, London, S.W., or Heinrichs Strasse, 108, Darmstadt.

EDUCATION.—There are a few Vacancies in the ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY for PUPILS on payment of £80 per annum, which includes all professors' fees and extras. Any further information may be obtained of Mr. G. W. Forster, 22, Cockspur Street, London.

A MARRIED CLERGYMAN (formerly travelling tutor to a nobleman, and some time Assistant Master in a Public School), who has had ten years' experience in preparing Army and University Candidates, receives three RESIDENT PUPILS into his house at Oxford. Address H. C. L., Union Society, Oxford.

THE SCHOOL BOARD for LONDON are prepared to APPOINT a CAPTAIN-SUPERINTENDENT for the Training Ship they are about to establish. The selection will be restricted to executive commissioned officers in the Royal Navy not under the rank of Lieutenant.

Full particulars will be forwarded in reply to a letter addressed to the Clerk of the Board, School Board for London, Thames Embankment, London, and marked outside "Industrial School Ship." Applications must be forwarded so as to reach the office on or before the 7th July, 1877.

William Smellie Grahame, Esq.
Edward Brodie Hoare, Esq.
John Morrison, Esq.
Bankers — Bank of England; Messrs. Barnetts, Hoares, and Co.; The Royal Bank of Scotland.

The Directors receive deposits of £50 and upwards for periods of One, Two, and Three years at a fixed rate of 5 per cent. per annum, grant drafts on the Branches throughout New Zealand, negotiate and collect bills, act as agents for constituents, opening current accounts for their convenience, undertake the purchase, sale, and custody of securities, and the collection of interest or dividends thereon, and conduct every description of banking business between London and the Colony.

W. J. STEELE, Manager.
37, Lombard-street, London.

THE AGRA BANK (LIMITED)

Estblished in 1833.—Capital £1,000,000.
HEAD OFFICE.
Nicholas-lane Lombard-street, London.
Branches in Edinburgh, Calcutta, Bombay, Madras Kurrachee, Agra, Lahore, Shanghai, Hong Kong.

CURRENT ACCOUNTS are kept at the Head Office on the terms customary with London bankers, and interest allowed when the credit balance does not fall below £100.

DEPOSITS received for fixed periods on the following terms, viz.:—

At 5 per cent. per annum, subject to 12 month's notice of withdrawal.

For shorter periods Deposits will be received on terms to be agreed upon.

BILLS issued at the current exchange of the day on any of the Branches of the Bank free of extra charge; and approved Bills purchased or sent for collection.

SALES and PURCHASES effected in British and Foreign Securities, in East India Stock and Loans and the safe custody of the same undertaken.

Interest drawn, and Army, Navy, and Civil Pay and Pensions realised.

Every other description of Banking Business and Money Agency, British and Indian, transacted.

J. THOMSON, Chairman.

CIVILIANS and MILITARY OFFICERS proceeding abroad can effect Assurances and Loans in connection therewith, on moderate Terms, with the

STANDARD LIFE ASSURANCE COMPANY,

by applying at the Offices of the Company in London, Edinburgh, and Dublin.

H. J. WILLIAMS, Gen. Sec. for England, 82, King William Street.
JOHN O'HAGAN, Res. Sec., 3, Pall Mall East.

SUPPLEMENT.

ARMY NAVY
JOURNAL OF THE MILITIA
GAZETTE
AND VOLUNTEER FORCES.

SATURDAY, JUNE 23, 1877.

THERE is an interesting article in the *Spectateur Militaire* of this month on the defence of States by entrenched camps, or rather a review of General Brialmont's work on that subject. We are told that "Napoleon, whose principle it was to carry war into the enemy's country, trusting in his genius, thought himself secure from invasion, and so completely neglected the defence of the interior of France. He bitterly regretted that he had not carried out the plan of the far-seeing Vauban, and he paid dearly for the fault of not having fortified Paris. If the capital, with the aid of a few field works, had been able to arrest the allies for a few days, the modern Cæsar would have cut the communications and have renewed his splendid exploits of 1796." We are then reminded that in 1819 General Sainte Suzanne published a remarkable work on the defence of the kingdom, and among other things recommended "the creation in the centre of the country a grand fortified position—Orleans." We all remember the immense advantage such a position would have been to the French during the last war. Had the Army of the Loire been able to hold Orleans, the Germans would have been forced to raise the siege of Paris. As regards the allusion made to the neglect of Napoleon, and compliments paid to General Sainte Suzanne, we would beg to point out one little fact which appears to have escaped the attention of General Brialmont and the reviewer in the *Spectateur Militaire*. On January 13, 1810, Napoleon sent some "instructions and observations on the keeping in order of strong places" to General Clarke, Duc de Feltre, Minister of War. In this remarkable document he spoke about Ham, where his nephew was afterwards confined, being kept as a prison, and said that the works at Sedan, with the exception of the citadel, should be demolished. Further on he wrote:—"Here the principle must be laid down that all places are good. I should like to have one at Orleans as a central point, to contain all the depôts of France." But the State, he added, had only £100,000 to spend on fortifications, and he considered it better to keep the first line in good order. The policy of spending vast sums in France on fortifications and entrenched camps has been much discussed, many officers holding that these "baits for shelter" are fatal to the initiative and highest qualities of generalship. The *Spectateur* writes:—"To surprise frontier places is to condemn oneself to the defensive" (but Napoleon was offensive because he neglected fortified places); "it is to hand over to the enemy all the riches in the frontier departments, and if one is conqueror it is to deprive oneself of a basis of operations for an invasion of the enemy's territory." Colonel Vandevelde says:—"If we had Metz, and if the Army of the East foolishly lost five or six days under the walls of Besançon, it was the fault of strong places." General Brialmont says:—"No! It was the fault of incapable Generals, who did not know how to take advantage of strong places." The *Spectateur* adds:—"What General Brialmont cannot deny is that strong places lead Generals of moderate talent—and they are the most numerous—to commit irreparable errors, into which they could never have fallen had they not counted upon finding refuge. If Bazaine had not possessed Metz, he would have been forced to fight in the open field, he would have assured his line of retreat, and would have operated his junction with MacMahon. If Bourbaki had not possessed Besançon he would not have lost six days in circular marches round that town, thus allowing Manteuffel to surround him. He would have fallen back behind the Ognon, and have offered battle in a formidable position. Where General Brialmont is right is that strong places are far from being dangerous to good Generals." The *Spectateur* would like to see a law passed expressly forbidding Generals to take refuge in a fortress, and making it a crime of high treason for the General to demand admission and for the Commandant to accord it. The writer declares that after Sedan it was an inexcusable fault to have shut up "a part of our forces in Paris. It was a great misfortune to have imprisoned in the capital the 13th and 14th Army Corps and 100,000 Mobiles;" and he argues that if these men had been sent to join the Army of the Loire, General d'Aurelles de Paladine would have been able to raise the siege. But when General Vinoy retreated on Paris after Sedan he knew nothing of the Army of the Loire, and but for the Regulars and Mobiles in Paris the Revolutionary Party would have taken possession of the city, and there would have been no defence. What Prince Bismarck counted upon would have happened, and Paris in the hands of the "Reds" would have "seethed in its own gravy." Perhaps the most interesting portion of the article before us is that which alludes to the present position of France. The *Spectateur* says:—"The Territorial Army, whose value is not understood because it has not been seen at work, has nothing in common with the Mobiles. Whilst the Mobile regiments contained young men between 20 and 30 years of age who had never served, the Territorial regiments, on the contrary, are composed of well-trained men, most of whom have passed nearly five years in the Active Army, and took part in the war of 1870. If it be considered that the Territorial Army contains all the non-commissioned officers, which, according to Colonel Stoffel, Prussia envies us, and that in this respect it is superior to the Active Army, its real value will be understood. Here is a fact communicated by a friend in command of a battalion of the Territorial Army. Each of the companies in his battalion is 250 strong, counting eighty-five or ninety soldiers who served in Mexico or at Metz, and three times more non-commissioned officers than there is room for. Now this is not an isolated fact, but one common to the whole Territorial Army, and gives one an idea of the solidity of that force. No doubt the *cadres* of officers are not what they should be, but the Government will be able to develop their instruction." We may remind our readers that this question of strong places is all the more important to France in consequence of the disasters which befel her in 1870 and 1871. She saw not only Metz, Strasburg, and Sedan fall, but Peronne, Laon, Longwi, Mezières, Rocroi, Phalsburg, Soissons, Neuf Brisach, and Schlestadt, and Paris was bombarded over the detached forts. Several lines of defence have since then been constructed, and the capital has been surrounded with a new girdle of forts at such a distance from the walls as to include such places as Versailles and St. Germain. In fact, the new forts are considerably further from the enceinte than the lines occupied by the Germans during the investment.

We see that the Committee on the French Budget, which is presided over by M. Gambetta, has just voted 225,000,000 francs for completing certain naval and military works, going on with shipbuilding, fortification, and replenishing magazines. On the termination of the war with Germany it was calculated that no less a sum than £40,000,000 would be required for new material and stores of all kinds, and year by year Parliament has been called upon to vote sums for this purpose outside the ordinary military estimates. It is hardly to be wondered that French economists shudder over the expenses occasioned by the reorganization of the Army and the creation of monster forces with their costly permanent administration. Such an economist points out the difference which exists between the French and German administrations, and complains of lavish expenditure in his own country. Thus the French War Minister has a special Staff, a Cabinet, a General Staff, divided in five bureaux. For these bureaux there are 443 functionaries, who draw between them about £85,000 a-year. The numerous Staff officers of Engineers, &c., are not included in the above list. Presidents and members of a variety of committees, Colonels, Majors, Staff Captains, &c., draw close upon £40,000 a-year; and, in fact, the total cost of the War Office is set down at £160,000 per annum. Our economist remarks that the German War Office manages to get on pretty well on half that sum, and he gives a detailed statement of the differences between the two Services. Thus, for the direction of the *personnel*, Germany has one Colonel, two Majors, two Captains, and one First Lieutenant, four of these officers being simply detached from their regiments, whereas France has a General of Brigade and four civil Chefs de Bureau. For the general direction of the *personnel* and *matériel* a German General of Brigade gets on with one orderly officer, whilst a French General of Division acting in a similar capacity has two Aides-de-Camp, one with the rank of Colonel. It is only where one item is concerned that the German spends more than the French War Office. In 1875 Germany spent 1,200,000 francs and France 269,000 on maps.

As a good deal of interest now attaches to the raids which the Turks are making in the Caucasus and in the direction of the road which runs from Poti to Tiflis, a few extracts from the letter of a French correspondent will prove acceptable. The correspondent writes from the foot of an exceeding high mountain which he does not find in Murray's Guide, and whose glaciers have never been violated by the boot of the ascensionist:—"Those who say that the Caucasus is on fire," says the writer, "employ a phrase which is not correct. The Caucasus is not on fire. There has never been a general conflagration in the Caucasus, not even when the Russians were engaged in subduing the country. There have never been, and there never will be in the Caucasus anything but local risings, more or less difficult to extinguish, but easily kept within bounds. And this because the inhabitants are divided into numerous tribes, which have no sympathy for each other, and no common bond of unity. Schamyl once made a desperate effort to get the Karbada to revolt, so that he might give a hand to the Tcherkesses, but he failed. We hear of 1,000 Tcherkesses being landed at Soukhoum Kaléh, and commencing operations by setting fire to the property of the renegade Prince Chirvachidsé, who has accepted Russian rule. But 1,000 men are not sufficient to create a serious embarrassment for the Russians in a country which is almost a desert, and where numerous bodies of troops are distributed about in forts. If any insurrections take place in that quarter they will not be serious." The writer in the *Temps*, after passing in review the troops raised by Russia in the Caucasus—Caucasian squadron in the Imperial Guard, &c., &c., Irregular Daghestan Horse, and permanent local Militias—adds:—"In time of war the Militia regiments are reinforced. This has just been done. Four regiments of Cavalry have been formed with such elements as were disposable.

This operation was accomplished without difficulty, and the regiments started for Tiflis *en route* for the Armenian frontier. But when it became a question of raising new squadrons obstacles were encountered. Imagine what would happen if we were at war with the Turks and attempted to make extraordinary levies amongst our Mahommedan subjects in Africa! The Russians saw two advantages to take these measures. If everything went well they would have more Cavalry to oppose to the Turks, and provinces, the fidelity of which cannot be explicitly depended upon, would be deprived of disturbing elements. If the attempt failed a prompt repression would at once stifle any idea of revolt." The French correspondent, who writes very coolly about stifling an idea, goes on to say that it was determined to raise eight or ten regiments, the officers of which were to be handsomely paid from the Imperial Treasury; but, in spite of alluring conditions, force had to be resorted to in some places, and he saw numbers of prisoners being marched off in chains. The correspondent in question, whose sympathies are evidently Russian, has, of course, been obliged to rely a good deal on such information as has been confided to him by the authorities, who naturally place matters in the most cheery light. The military correspondent of the *Times*, who was in the Indian Army, and has seen a good deal of service, takes an unfavourable view of Turkish rule in Asia Minor, and after his late run from the Cossacks, in company with Sir A. Kemball and Captain Trotter, he will probably not be inclined to estimate the courage of the Turks very highly.

THE BRAZILIAN NAVY.

From the latest official documents we take the following information regarding the Navy of Brazil:—The Naval Council of the Minister of Marine is organized on the French system; it is a purely advising board. The Adjutant-General of the Navy acts as delegate of the Minister in everything that relates to discipline and carrying out of given orders. In case of war he acts also as Inspector-General of the ships commissioned for active service. The naval officers comprise one Admiral, two Vice-Admirals, three Chiefs of Squadrons, seven Commodores (Chefs de Division), fifteen Capitaines de Vaisseau, twenty-nine Capitaines de Frigate, sixty Captain-Lieutenants, 160 First and and fifty-six Second-Lieutenants—333 in all; there are, besides, 187 Second-Lieutenancies vacant. The Corps of Imperial sailors consists of thirty companies with an effective of 3,000 men, and furnishes the crews to ships in commission. It may be increased from a reserve constituted by seventeen apprentice companies in the seventeen principal ports of the empire, which actually muster 1,122 men, but may be increased to 3,400. Nearly all the sailors are coloured men, many of them full-blooded or half-bred Indians from the Amezonas, a strong and useful race in tropical seas. The sailors are drilled as Infantry soldiers; the Marine Battalion, which is more than 1,000 head strong, receives the training of Infantry and Artillery soldiers; it serves, in fact, as Marine Artillery and police on board ship. Its head-quarters are at Rio, where it garrisons the harbour forts and Marine barracks. There are 101 administrative and seventy-nine sanitary officers, and 133 military mechanics. For the Engineer service the Brazilian Navy is still greatly dependent on foreigners. There are, however, 350 apprentices in the arsenals and dockyards of the Navy. The Fleet comprises seventy-six vessels with, together, sixty-five smooth-bore and seventy-two rifled pieces. There are five steam-corvettes and several gunboats in commission, five monitors at harbour service, and a reserve of thirty-one steamers of very miscellaneous descriptions, besides ten ironclad corvettes with light armour, which were mostly built during the Paraguayan war. The rest are sailing vessels of various sizes. The steam-power of the Fleet is given at only 11,187-horse power. As a port of construction Rio de Janeiro has many advantages. There are two fine dry docks cut into the solid rock, and admitting ships of very large size. A staff of 300 trained civilian workmen and engineers is permanent, so that repairs may be effected readily. By the law of 1875 the Government is authorized to reorganize the Marine School, so that it may become a real naval college in two divisions, one for the education of naval cadets, the other for the higher instruction of naval officers. The Navy of Brazil marches still slowly, but it marches at least in step with the general progress of that country.

An Admiralty Order has directed that all ships now fitting out are to be supplied with a steam cutter, not only for the purpose of relieving the crew from laborious work when on foreign stations, but, should occasion require, to act as a guard against torpedo attacks.

The names of the British steamers boarded by her Majesty's ship Rifleman, in the Red Sea, and found to have slaves on board, are the Koina and Rokeby. Com. Clayton, of the Rifleman, ordered the immediate liberation of the slaves, and has reported the full particulars of the case to the Admiralty. —*Standard.*

THE NAVY AND THE BATH.

Capt. Henry Frederick M'Killop, C.B., entered the Navy in 1839, and was midshipman of the Belleisle, and in charge of a boat at the capture of Tchin-kiang-foo in 1842. He was voted the silver medal of the Royal Humane Society in 1843. He was midshipman of the Calliope during her service in New Zealand, commanding a gunboat in Cook's Straits, and was honourably mentioned in the military despatches, 1845-46. On Dec. 4, 1847, he was appointed to the Hydra, Com. Grey Skipworth, fitting at Chatham for the South-East Coast of America, and on March 12, 1849, was appointed to the Coastguard station at Seaford, and afterwards to Bletchington. On July 7, 1852, he obtained command of the Royal Charlotte, revenue vessel, which he held until Sept., 1854, when he was appointed to the command of the Snake, 4, fitting for the Mediterranean, and on May 24, 1855, was promoted to commander. On the 10th of the following September he was appointed agent afloat in charge of a division in the transport service, and on the 30th of the following November obtained command of the Recruit, 6, gunvessel, in the Mediterranean, which he retained until 1859. On July 15 of the last-named year he was appointed inspecting officer in the Coastguard service at Clifden, county Galway, and on Dec. 3, 1860, obtained command of the Bulldog, 6, fitting at Portsmouth for North America and the West Indies, and returned with her to England, and was paid off in Aug., 1862, and on the 24th of the following November was posted. Capt. M'Killop was not again employed until May, 1868, when he was selected by the Viceroy of Egypt to reorganize his Highness's Navy, with the concurrence and approbation of the Admiralty. The salary of Capt. M'Killop to be £800 per annum, besides his half pay of 12s. 6d. per diem in the British Navy. Capt. M'Killop, who retired April 1, 1870, has received three medals and two clasps, is a Knight of the Legion of Honour, and the Order of the Medjidie of the 5th Class.

Capt. Hubert Campion, C.B., entered the Navy in 1842, passed his examination in 1848, and was made lieut. in 1849. On Oct. 11, 1850, he was appointed to the Geyser, 6, Com. Edward Tatham, and served on the South-East Coast of America until 1852, when she returned to England, and was recommissioned May 11, 1852, by Com. G. S. Hand, and Lieut. Campion was reappointed to her, and served on the Galway Station. On June 22, 1853, he was appointed to the Vesuvius, 6, Coms. Thomas Wilson and Richard A. Powell, and served in the Mediterranean, where, on Aug. 20, 1855, he was transferred to the command of the Ardent, 5, and on the 7th of the following December was promoted to commander. On May 10, 1856, he obtained command of the Falcon, 17, on the North America and West India Station, and brought her to England, and was paid off in the summer of 1857. On March 1, 1858, he was appointed to the command of the Elk, 12, sloop, and proceeded to China, and after serving on that station, and in Australia and New Zealand, brought her to England and was paid off in Aug., 1860. His next appointment was on April 21, 1852, to the Boscawen, training-ship, Southampton, which he commanded until posted, Sept. 19, 1863. Capt. Campion, who retired in 1870, has received a medal and two clasps, has the Order of the Medjidie of the 5th Class, and is a Knight of the Legion of Honour.

Capt. Edward Hardinge entered the Navy in 1843, and was mate of the Prince Regent, 92, in the Mediterranean from Sept. 14, 1849, until Jan. 9, 1851, when he removed into the Cumberland, 70, and served on the North American and West India Station. On Jan. 10, 1852, he was appointed lieut. of the Express, 6, on the South-East Coast of America, and on June 6, 1853, to the Tribune, 31, in the Mediterranean. He was promoted to commander May 10, 1856, and from Jan. 27, 1859, until the close of 1860 commanded the Persian, 12, at the Cape of Good Hope. In November of the last-named year he was voted the silver medal of the Royal Humane Society for saving a boy of his ship who accidentally fell overboard while on passage from the Cape to the Mauritius. On the evening of July 20 the ship experienced a severe gale of wind, during which the little boy fell overboard. Capt. Hardinge directed the first-lieut. to heave the ship to, and, running to the life-buoy, tried to let it go, but the buoy hung. A rope was then thrown to the child, who caught it, but the headway of the vessel dragged him under water, and he let go the rope. The gallant captain at once jumped into the sea and succeeded in reaching the boy, and ultimately saved him. He commissioned the Dragon, 6, on June 5, 1861, but on the 9th of the following month was transferred to the command of the Cameleon, 17, and was employed in the Pacific until promoted to post rank, Dec. 12, 1863. He was captain of the Juno, 6, screw corvette, from Dec. 29, 1868, until March 8, 1870, when he was transferred to the command of the Valorous, 12, paddle frigate, in supersession to Capt. Tremlett, in which ship he remained until Feb. 22, 1872, when he was superseded by Capt. A. T. Thrupp. He commanded the Topaze, 28, with the Detached Squadron, from Oct. 15, 1872, until July 18, 1874, and since Jan. 1, 1875, has commanded the Penelope, 11, Coastguard and drill ship of Naval Reserve at Harwich. He is a naval aide-de-camp to her Majesty, a Knight of the Legion of Honour, and the 5th Class Order of the Medjidie.

Capt. William Graham, C.B., entered the Navy in 1842, and was mate of the Hydra, 6, and commanded her boats at the attack and capture by boarding of the armed slave brig Unias, having a crew of thirty-nine men, and for which he was specially promoted to lieutenant, March 2, 1849. On May 9, 1850, he was appointed to the Prometheus, 5, fitting at Deptford for the West Coast of Africa, and on Oct. 14, 1851, was transferred to the Tortoise, 12, guardship at Ascension, and remained until the close of 1853, when he was appointed to the Blenheim, 60, guardship at Portsmouth. On Jan. 30, 1854, he was appointed to the Leopard, 18, Capt. George Giffard, fitting at Portsmouth for the flag in the Baltic of Rear-Admiral J. H. Plumridge, and while attached to that gallant admiral's flying squadron was ordered by Capt. Giffard, in company with Naval Cadet Doben, to the Island of Ulkonargaick, and on arriving off the north-east point boarded a large barque, which on examination proved to be scuttled, and otherwise unseaworthy. He next proceeded on shore and searched several store-houses and workshops, together with two vessels on the stocks, &c., the whole of which he burnt, and then searched the village on the adjacent island, but finding no stores contraband of war, re-embarked and proceeded in search of three schooners to the south of the town, but heard that the vessel he was in search of had been destroyed. He continued attached to the Leopard until the close of the Russian war. From March 12, 1857, until July, 1858, he commanded the Lee gunboat, his second promotal commission being dated back to Feb. 26 of the last-named year. On Oct. 31, 1859, he obtained command of the Mutine, 17, fitting at Woolwich for the Pacific, and left England March 17 following, and in that vessel, after visiting Panama, Valparaiso, Callao, the Sandwich Islands, Mazatlan, San Blas, &c., for the protection of British interests in Mexico, again proceeded to Panama with treasure for transmission to England. She was at Guaymas April 11, 1862, shortly after which she got on a shoal at the entrance to the harbour of Manzanilla, on the coast of Mexico, but was soon after extricated, and arrived at Panama June 13 with 420,000 dols. in freight, and remained on the 23rd. She arrived at San Francisco July 26 to be docked, and, having been repaired, she sailed again, Aug. 28, for Vancouver's Island, and was on the coast of Mexico about the middle of October. She returned to Panama Aug. 11, 1863, with a freight of 130,000 dols. for transmission to England, and sailed on the 15th for Valparaiso and England, and was paid off at Woolwich Jan. 5, 1864. Capt. Graham, whose commission as post-captain is dated Dec. 12, 1863, commanded the Danae, 6, on the West Coast of Africa and on the North America and West India Station, from Oct. 22, 1868, to May 26, 1871; and the Immortalité, 28, with the Flying Squadron, from Oct. 27, 1871, until paid off, Oct. 11, 1872. On July 9, 1873, he was appointed to the command of the Resistance, 16, at Lisbon, from which ship, on March 17, 1874, he was transferred to the Black Prince, 28, Coastguard-ship at Greenock, and in May turned over into the Aurora, and in August following removed into the Britannia, training-ship for naval cadets at Dartmouth, where he is still employed.

Capt. Anthony Hiley Hoskins, C.B., entered the Navy in 1842, passed his examination in 1848, and obtained his commission as lieut. March 26, 1849. After serving three years in the Castor, 36, at the Cape Good of Hope, he was appointed in Sept., 1853, to the Philomel, 8, on the West Coast of Africa, and in March, 1855, removed into the Britomart, 8. He continued in the Britomart until 1856, and on April 12, 1857, was appointed to the Slaney, gunboat, and commanded her on the China Station until promoted to commander, Feb. 26, 1858. On May 15, 1860, he obtained command of the Hecate, 6, fitting at Woolwich for the Pacific; and on Jan. 1, 1861, was transferred to the command of the Plumper, 12, surveying vessel, also in the Pacific, and brought her to England, and was paid off in the following June. He was appointed to the command of the Zebra, 17, fitting at Sheerness for the West Coast of Africa, April 3, 1862, and was promoted from that ship to post rank Dec. 12, 1863. His next appointment was Aug. 11, 1869, to the command of the Eclipse, 6, which he commanded on the North America and West India Station until the close of 1872, when he brought her to England and was paid off. He commanded the Sultan, 12, attached to the Channel Squadron, from July 30, 1873, until April 26, 1875, when he was appointed to the Hector, from which, on Sept. 7 following, he was appointed commodore and senior officer in Australia, in succession to the late Commodore J. G. Goodenough, C.B., C.M.G., which post he has since held with his broad pendant successively in the Pearl, 17, and Wolverene, 17.

Capt. Henry Hamilton Beamish, C.B., entered the Navy in 1845, and was mate in the Fox, 42, Commodore G. R. Lambert, in the East Indies, from Sept. 7, 1851, until promoted lieut. in 1853, and from Dec. 20 in the last-named year until appointed to the Exmouth, 90 (Dec. 16, 1854), was employed in the Excellent. In the Exmouth he served in the Baltic until the close of the Russian war, and from March 3, 1856, until promoted to commander (Feb. 26, 1858) was employed in the Calcutta, 84, flagship of Sir Michael Seymour, K.C.B., on the East India and China Station. He commanded the Wrangler, 4, gun-vessel, on the West Coast of Africa from May 15, 1860, until Sept., 1863. He was posted Feb. 16, 1864; on Feb. 22, 1870, obtained command of the Agincourt; and in Aug., 1871, was reprimanded by a naval court for running her on the Pearl Rock. He has held command of the Pallas in the Mediterranean since July 26, 1875.

Capt. R. C. Allen, C.B., entered the Navy in 1827 as second-class volunteer, and was promoted to master in 1841; acting master of the Plumper, gun-brig on the West Coast of Africa, in 1830-31, and in command of her boats captured the Spanish slave schooner Maria, of nine guns and forty men, after a spirited chase of several hours; master of Vixen 1841-43, and present at the storming and capture of Tchin-kiang-foo and subsequent operations in the Yang-tse-kiang; master of Dido 1843-45 (served in her boats against the Malay pirates in Borneo, and present in all the skirmishes which took place); master of the Terrible 1845-47 (obtained the first-class extra certificate for proficiency in navigation and nautical astronomy at the Trinity House); master of the Resolute 1850-51 (had charge of magnetic observations, led a travelling party to search Lowther and Garrett Islands; away eighteen days, and travelled 137 miles; mentioned by the senior officer in his dispatch reporting the return of the expedition, also received a highly complimentary letter from their Lordships' hydrographer for several important additions made to the chart of Baffin's Bay); master of the Hogue, 1852-55. Served the two campaigns in the Baltic, present at the siege and capture of Bomarsund, employed at various times in sounding the channels at night (mentioned with other masters on one occasion in a despatch by the Commander-in-Chief for said service), assisted in extricating the Penelope during the two or three hours she was ashore under the batteries of Bomarsund and under a heavy fire, and made surveys of Bomarsund and Renskav Harbours, the latter of which was added to the charts; Master Attendant and Queen's Harbourmaster at Malta from Jan., 1864, to Sept., 1867, and at Deptford from 1867 to Oct., 1870. Served on full pay forty-one and a-half years, viz., eight years as a subordinate officer, and thirty-three and a-half years as commissioned officer.

Insptr.-Gen. of Hopitals and Fleets William T. Domville, M.D., C.B., honorary surgeon to the Queen, served as acting assistant-surgeon in the Royal Hospital at Plymouth from May 3, 1842, until June 29, 1843, when he was appointed to the Eurydice, 26, Capt. George Elliot, fitting for North America and the West Indies, where he remained until 1846. On Sept. 7, 1847, he was appointed to the Royal Hospital at Greenwich, from which post he was promoted to surgeon Feb. 7, 1852. On the 16th of the same month he was appointed to the Resolute, discovery ship, Capt. Henry Kellett, C.B., for service with the Arctic Expedition, from which ship, on Oct. 25, 1854, he was transferred to the Royal Marine Infirmary at Woolwich, and on July 4, 1855, was appointed to the Agamemnon, 91, Capt. Sir T. Pasley, Bart., in the Mediterranean. On Nov. 26, 1856, he was appointed staff-surgeon of the Indus, flagship on the North American Station of the late Sir Houston Stewart, K.C.B., and on May 4, 1860, removed into the Nile, 78, flagship of the present Sir Alexander Milne, Bart., G.C.B., and remained until Feb. 16, 1864, when he was transferred to the Fisgard, at Woolwich. He continued attached to the Fisgard until appointed, July 6, 1866, deputy inspector-general at Malta, where he remained until 1871. From Sept. 12, 1872, until 1875 he was employed at the Royal Hospital at Plymouth.

STEAM TRIALS.

The Admiralty, being desirous that no doubts shall exist as to the nature of the responsibility of officers conducting trials of machinery of her Majesty's ships, has issued the following regulations on the subjects:—When ships, which have engines not yet received from the contractor, are under trial, the engines and boilers during the trial are to be under the charge of the contractor or his agent, who is to have the whole responsibility and management, but it is to be clearly understood that the trials are to be conducted in strict accordance with the regulations laid down for such trials, and the engineer officer from the dockyard attending the trial, and the chief inspector of machinery of the Reserve will each, at all times, be responsible to the captain of the Reserve that those regulations are never deviated from. On the trial of ships after repair by the dockyard, preliminary to being turned over to the Reserve, the engines and boilers are, during the trial, to be under the charge and management of the chief engineer of the dockyard, or an engineer officer of the yard deputed by the superintendent to attend the trial. On the trials of ships, after they have been transferred as complete to the charge of the captain of the Reserve, or of ships in commission (except on the full-power trial, for six hours, by the ship's own complement), the engines and boilers, during the trial, are to be under the charge of the chief inspector of machinery, or a chief engineer from the Reserve, deputed by the captain of the Reserve, and the chief inspector of machinery, or chief engineer so deputed, is to have the responsibility and management. Before each of the trials, preliminary or official, the contractors, as soon as they are ready for the trial, are to send in an application to the superintendent of the yard in the following terms:—"Having completed the necessary fittings to the machinery of her Majesty's ship ——, and being thoroughly satisfied, after careful examination of the various parts of the engines and boilers that the machinery is in a fit state for (here insert the nature of the trial), I am willing to undertake the responsibility and management of such trial, and request that a date may be fixed for it." This application is to be signed by the contractor or the agent who takes charge of the machinery at the trial. On the day of trial before the ship is got under way a request and certificate to the following effect, and signed by the contractor, or the agent in charge of the trial, are to be given to the captain of the Reserve:—"Request.—The engines and boilers of her Majesty ship —— being in all respects ready, we request that she may be taken out for trial." "Certificate.—Steam gauges of all boilers under which fires are lighted are in good working order. Stop-valves of all boilers under which fires are lighted are open and in good order. Safety-valves and sentinel-valves of all boilers under which fires are lighted are in good order, and have been tried since steam was up." The stop-valves are to be opened, and the safety-valves worked, in the presence of the chief engineer of the ship. Shortly before the official trials the whole of the safety-valves are to be taken out by the contractors in the presence of the inspector of machinery of the Reserve, the chief engineer of the ship, and an officer from the engineer branch of the dockyard for measurement and examination. The weights are to be weighed or the springs tested in order that the exact load may be entered, and it is to be seen that they are in good order and sufficiently free on their seats. A record of these examinations, and of the results, is to be kept in the office of the chief engineer of the dockyard. The chief engineer of the ship is to be present to see that the safety-valves are put in place and the gear reconnected properly, and is to make a record to this effect in a book kept for this purpose in the office of the chief inspector of machinery, in addition to his own notation in the engine-room register. On the day of trial, before fires are lighted in the boilers for the contractors' trial or any other trial of machinery, the chief engineer or engineer in charge belonging to the ship must be fully satisfied that all the necessary communication valves are open, and before steam is up to working pressure the safety valves are to be lifted from their seats and tested in such a manner as to satisfy him that they are in good working order. A certificate to this effect is to be given by him to the chief inspector of machinery immediately on his arrival on board. In the case of ships which are to be tried after repair by the dockyards, the regulations as to the contractors in contractors' trials are to apply to the engineer offices of the dockyards. An application for trial, request, and certificate are to be signed by the engineer officer from the dockyard, who is to have charge of machinery on the trial. The application for trial is always to be signed by the chief constructor and the chief engineer of the dockyard. When stokers from the Steam Reserve or ships in commission are employed on contractors' trials engineer officers are to be placed in charge of them who have sufficient knowledge of the positions and construction of the stop and communication valves and the various boiler fittings, to act effectively in case of an emergency. These officers are to see that the stokers carry out the wishes of the contractors as to the working of the fires, and they are also to observe the pressure of steam and height of water in the boilers from time to time. They are to see that the stop valves are open before the fires are lit, and are to assure themselves by visiting them occasionally that they remain so afterwards. Should these officers observe anything to indicate danger in any boiler, they are to take immediate steps to check the generation of steam in that boiler, calling the attention of the contractor's agent to it, and reporting it at once to the chief engineer of the ship. In the case of trials under dockyard management, engineer officers are to be employed under similar conditions. If on any trials (contractors' or other trials) stokers other than stokers from the Reserve or ships in commission are employed, engineer officers are still to be told off for duty, as in the preceding paragraphs. But they are neither to interfere with the men nor with the working of the machinery; they are, however, to note such points as have reference to the safety of the boilers, reporting promptly to the chief engineer of the ship, or any of the inspecting officers, the fact of anything going wrong. It must, however, be understood that the presence of these officers and of other officers appointed by or on behalf of the Admiralty to observe the result of the trials does not in any way relieve the contractors or the persons who have charge at the trials from any responsibility in the care and management of the machinery and boilers. All ships from the Reserve which have not been under steam for more than six months are to have the boilers and pipes, as far as the engines, tested by the Reserve officers by hydraulic pressure to twice the working pressure before getting up steam. Immediately before getting up steam in any ship lying in reserve the following parts and the gear attached to them are to be examined, and, if movable, worked to see that they are in good order, viz.:—Main and auxiliary stop valves; safety and sentinel valves; brine and blow-out cocks or valves, pipes and Kingston's; steam-gauges and water-gauge cocks; feed-cocks, valves, and pipes; all other boiler mountings; steam pipes, expansion and other joints; communication, throttle, expansion, and slide valves; auxiliary, slide, or blow-through valves and starting gear; cylinder escape valves; jacket steam and relief cocks; sea suction and discharge valves and cocks, in connection with the surface condensers, main engine pumps, and auxiliary engines; shaft couplings, nuts, cotters, and keys, connecting the working parts, and all other important fastenings of the machinery are to be sounded and overhauled. In the report of this examination, which is to be given by the chief engineer of the ship to the chief inspector of machinery on the day before the engines are required to be worked, the parts examined are to be given in detail, with the signature of the officers who have had charge of the examination of any parts placed against such parts. These officers are to state in this report if any of the parts are not in good and safe condition. This report is to be signed by the chief engineer of the ship. After this examination, and before getting up steam, the chief engineer, when he is thoroughly satisfied that the machinery and boilers are in good and safe condition and fit for service, is to give a certificate to this effect to the chief inspector of machinery. On getting up steam for any purpose all the precautions ordered for the trials of ships are to be strictly observed.

ARTILLERY REORGANIZATION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—I trust that "One on the Shelf"* will not be taken as representing the feeling of the officers of the Royal Artillery, many of whom, at any rate, would deny any loss of *esprit de corps* arising from the number of officers on the roll of the regiment. Were there any lack of smartness in the Artillery, the experiment of breaking up the present list of officers into regiments might perhaps be worth trying as a remedy. But is there any lack of smartness? I am sufficiently proud of the regiment as it is to hold that in smartness, in its truest sense, the regiment compares very favourably with that of Cavalry regiments whose *esprit de corps* he brings into question. Foreign officers have, at all events, been as much struck with the great efficiency of the Royal Artillery as with any other branch of our Service, and I believe that the high standard which has been attained is mainly due to the *esprit de corps* fostered by the old traditions and customs of the regiment. The custom of causing officers to move from one branch of the regiment to another, in a Service so complicated as the Artillery, though unpalatable to the officers at the time, has a tendency to increased efficiency. Garrison brigades incline naturally to scientific gunnery, while mounted brigades are apt to lose sight of gunnery in the more showy smartness of Cavalry. Now, though an officer may dislike leaving the mounted branches for a time and undertaking different duties in Garrison Artillery, yet, if he is a good man, he cannot fail to pick up much from the scientific branch that will make him a better Artillery officer all round, while the tone of smartness he brings with him is of use to the Garrison Artillery he serves with. Again, if, as your correspondent remarks, the Horse Artillery jacket is the object of ambition to Artillery officers, is it not better for the Horse Artillery that its officer ranks should be recruited from many candidates struggling for the prize, and therefore doing their best to be picked out for smartness, rather than, as he insinuates, composed of officers who, once in the Horse Artillery always in the Horse Artillery, have little left to attain, and who obtain the prize, in the first instance, by the test of family patronage? I think, however, your correspondent is in error in supposing a Horse Artillery jacket is the prize which is looked to by Artillery officers. Many field battery officers are quite as proud of the turn-out and efficiency of their batteries as any Horse Artillery officer could be. Their *tout ensemble* may not be so showy to the outside world, but it may be smart to a degree. Other Artillery officers pride themselves on scientific attainments, and on the appointments they obtain in consequence; and it is the great elasticity of the regiment in its present form which prominently puts forward so many objects of ambition. Were the regiment broken up into smaller regiments, I feel convinced that the battery-unit system would suffer. The cry of thinking Artillery officers has for a long time past been the abolition of the brigade system and the adoption of the battery-unit system—the old form, in fact. Their cry has been heard, and, practically, the battery is the unit. The fault of the system is that lieutenant-colonels have but little place in it, and that on the promotion of a major his glory departs, while in the Cavalry and Infantry promotion from the rank of major means the attainment of a great command. There is no reason to diminish the efficiency of Artillery merely to give better employment to one particular rank of its officers; and though I shall suffer in common with many others when my time comes, I trust that the breaking up of the Artillery into regiments will never be attempted.—I am, &c.,

ONE SERVING.

* Letter referred to appeared in our issue of May 19.

SIR,—In my letter which you kindly published on May 19 it may appear invidious to the authorities, who have taken so much pains in reorganizing the Royal Regiment of Artillery, to complain of the first salient mistake of keeping as many as fourteen hundred officers scattered all over the world in one regiment—those serving in the Horse Artillery, rather more than two hundred, having during their service to vacate that branch on every step of promotion. This will occur no less than five times, and then five other times to return to it, divided over the thirty years of service, keeps this more petted part of the Service in a constant fever of expectation and removal, of going on leave and joining somewhere else—a life of unrest not at all to the benefit of the Service. The remaining twelve hundred officers are nearly arranged as badly. In the first place, we will take a field brigade. It has two colonel-commandants; one at home, one in India. For the part in India both these commandants are general officers. How will their patronage clash? For the same field brigade we have four colonels, two for home, two for the part in India; and to these there are eight lieutenant-colonels, four for home and four for the Indian service of this same field brigade. Six colonels have only one adjutant and one quartermaster between them for the home service, and the other six colonels and lieutenant-colonels serving in India have positively neither an adjutant or a quartermaster. If two general officers and twelve colonels are necessary, how, in the name of common sense, can one adjutant and one quartermaster be enough for the home and Indian portion of the field brigade? Then a ridingmaster is allowed at home for 660 horses and about one thousand men, but for the 770 horses and men serving in India. There is no ridingmaster, positively, for the 1,100 men and 770 horses to be fed and foraged for in India. This half field brigade, provided with seven colonels of all grades, and seven majors, and twenty-eight captains and subalterns, cannot afford either an adjutant, or a quartermaster, or a ridingmaster, and is obliged to depend on the services of a single officer of these grades living in Woolwich or Sheffield, or on officers to act as such in India, to carry out the most important duties of regimental life. I should like to know if it be a fact that the officers of the Royal Artillery are so jealous of the possibility of a man from the ranks of the regiment ever rising to the social position of being able to associate with them as an officer, that they prefer having neither a quartermaster or a ridingmaster to accompany them on board ship, or partake with them the hospitality offered to officers on arrival at the different stations in India. If this be the reason, it must have been suppressed, or the War Office would never have sanctioned the cutting off the services of these officers, and substituting effective officers to act these duties. But the whole arrangement of the Royal Regiment of Artillery is so unwieldy that the present system can never be carried out except by a wear and tear and expense to body and purse which will sooner or later bring its own remedy. The slowness of promotion among the officers of the Artillery has been such, that they have brought to bear on the authorities from time to time such a pressure to remedy this, that they now have for each thousand of all ranks, say a half brigade, no less than two colonels, four lieutenant-colonels, and seven majors to seven captains and twenty lieutenants; so that one-third of all the officers are field officers, whereas in the Cavalry and the Line regiments there are not more than three in thirty, or one-tenth of the whole are field officers. Notwithstanding this, through the Cavalry and Infantry promotion being confined to single regiments or battalions, they work up to the higher grades and command of a regiment just as soon as the Artillery.—I am, &c.,

ONE ON THE SHELF.

SIR,—Permit me to draw attention to the contemplated redistribution of the Royal Artillery, as shown in the latest list published by the Royal Artillery Institution. The Horse Artillery consists of three brigades of eleven batteries and a riding troop, total thirty-four batteries; of these the head-quarters of a brigade and six batteries (including riding troop) are at Woolwich. The Field Artillery consists of six brigades, with a total of ninety-one batteries; of these the head-quarters of two brigades and twelve batteries are at Woolwich. The Garrison Artillery consists of five brigades, with a total of ninety-six batteries; of these no head-quarters and only two and a-half batteries are at Woolwich. So the authorities who have devised this scheme of reorganization of the Artillery have practically excluded the Garrison Artillery from being ever stationed at Woolwich. This alone shews the bias which exists now and ever has existed at the Horse Guards against the garrison branch of the Service. The Woolwich mess and the Woolwich band (for it is ridiculous to style them the Royal Artillery mess and the Royal Artillery band) are, to all intents and purposes, denied to the garrison branch of the Service for the future. No scheme of reorganization will succeed until the mounted and dismounted services are separated entirely. There should be two corps, viz., Light Artillery, horse and field batteries, and Heavy Artillery, garrison and siege. The manufacturing departments, &c., should be officered by a Staff corps drawn from the above corps, but it should be a *sine quâ non* that each battery should really have its full complement of officers effective, which at present is the exception instead of the rule. I have been a great number of years in the Service and never yet served in a battery complete in its complement of officers. The fact is, that our nation relies so entirely upon its fleets and command of the sea that the garrison gunners and the defence of our land fortifications are lost sight of; but I predict a day when our heavy ordnance will need all our effective officers and men, and it will be difficult to replace experienced Artillerymen by new hands, as gunnery is a science which cannot be taught in a few weeks. How often you see a captain of Horse or Field Artillery promoted major of a garrison battery, and actually pride himself on knowing nothing of heavy gun drill, stores, &c. At this moment I know more than one officer who has served mostly in the mounted batteries who does not know the names, much less the uses, of the stores and equipment of the heavy ordnance under their charge.—I am, &c.,

WAR MATERIEL.

SIR,—I have just seen the scheme for the reorganization of the Royal Artillery. It reaches us a long time after publication at thestation where I am now; but I wish to make afew remarks upon it, late though they may be at home, and, as I have served a long time in the Garrison Artillery, I hope I may be allowed to speak a word for it. The mail of March 5 says there is hardly any *esprit de corps* in the Artillery. This I utterly deny. How is it that an officer who has served in the A or B Brigs. R.H.A. not only longs to get back into the R.H.A., but into his old brigade? Is not this *esprit de corps?* If it is not, I do not know the meaning of the term, and the same thing holds good in perhaps a less degree in the Field Artillery. There are some officers in the regiment who are not rich enough to serve in the Horse Artillery, but who love the mounted branch, and very right they are. When a man has been in the Field Artillery for twelve or thirteen years as a subaltern, he does not care to go to school again as a captain, to learn all the details of Garrison Artillery work, and this service, too, becomes more complicated every day, with improvements in working gear for heavy guns. If Government intends to alter the organization of the regiment, the first change should be in the direction of separating the present regiment into two or three totally distinct regiments—a regiment of Horse, one of Field, and one of Garrison Artillery—and make an officer exchanging from one to the other go to the bottom of the list of his rank. This, perhaps, is a very great change to make suddenly, but it is a change that must come in time. Now, in the Horse and Field Artillery one sees the major drilling his battery and all his officers present, but how often does one see an officer of Garrison Artillery drilling his men? It is almost always a case of the officers looking on whilst the sergeant-major or sergeant is instructing the men at heavy gun drill, the officers are having a quiet chat somewhere away from the men. Frequently during the time a garrison battery is at home its officers change and change again, few stopping more than two or three years in one battery. Perhaps a subaltern R.H.A. is promoted into it. He has never been in a garrison battery in his life. Of course, the first thing that recurs to him is a wish to exchange. Who is most likely to exchange with him? The answer is, an officer near his promotion, or an officer who has been five years on the Staff, and who thinks he will soon be employed away from the battery again. The first joins, is soon promoted, and so the game goes on. What is the result? The subalterns, who are almost the only officers in the battery who know their work, having been in it for, perhaps, several years, have entire control over the gun drill, and, seeing their seniors do not care much about it, they tell the sergeant-major to go on while they walk about and do nothing. Perhaps some officers may object to this, but I only tell you what I have seen. Now, this new scheme, as far as I understand it, specially lays down that promotion is to go on the same as before. That is the very root of the evil. If an officer knew that his service was to be spent as a garrison gunner, and nothing else, he would take more interest in the Service, and know more about it. What we want is not so much a reorganization of brigades as a reorganization of the regiment; only give us that and see how long a paper can say that *esprit de corps* is unknown in the Artillery. At present every subaltern on first joining goes to Shoeburyness and Woolwich, where he learns to despise his brigade if he belongs to a garrison brigade; and, if he cannot get out of it, joins in disgust at his bad luck. This system is the worst that ever was invented. Let a subaltern join his brigade at once. There he will learn his work quite as well, and, most likely, be far happier than he is now, thinking whether he is likely to be ordered abroad to join or not. The sytem is bad for everyone. In a garrison battery there are only two subalterns, all told, and by means of this system a battery often remains for years with only one subaltern doing duty, the second continually getting out of it when he has finished his course at Shoeburyness, and this is especially hard on those batteries abroad. Those at home generally manage to keep up their strength tolerably well. In addition to this evil we have another. Horse and field batteries, being constantly under the eye of their own commanding officers, cannot afford to have their officers employed away from their batteries, so that all employed officers who are not seconded are posted to garrison batteries, and this still further reduces the strength of the latter, though, if complete, they only muster four officers in place of five, allowed to Field and Horse Artillery. Take, for instance, the School of Gunnery in Jan., 1877. The whole of the instructors holding appointments for five years belong to garrison batteries. I now take the R.A. List for Jan., 1877, and will show the proportion of officers to different brigades abroad. Royal Horse Artillery: B, C, and F Brigs. have seventy officers serving with fifteen batteries, a proportion of 4·66 per battery. Field Artillery: 4th, 8th, 9th, 11th, 19th, and 20th Brigs. have 191 officers to forty-three batteries, a proportion of 4·44 officers per battery. Garrison brigades in India, allowed five officers per battery, have 104 officers to twenty-eight batteries of 3·71 per battery. Garrison brigades, elsewhere allowed four officers, have only fifty-seven officers to twenty-one batteries, or 2·71 per battery. Now, it happens that garrison brigades are just those which have to furnish so many detachments, so that it is rarely that under the present system a garrison battery officer can get any leave at all until sickness obliges him to go home, and his battery is still further reduced. I have not taken into consideration garrison batteries at home, for they are generally pretty well off for officers, unless within a year of foreign service. Then there is always a great exodus through exchanges, &c. I assure you, Mr. Editor, I am not exaggerating the state of things at all. You have only to consult an "Army List," and you will find what I say quite correct. Now what does the new scheme propose for us? We garrison gunners, who have often to live in the worst climates in the world, without a chance of getting away from them on leave, are, as a reward, by the new scheme, to have a shorter term of home service than anyone else. We are to have, say, seven years at home and eleven abroad, while our more fortunate brethren of the Line, R.H.A., and Field Artillery, R.A., are to have equal terms of home and foreign service. In each of the latter branches there is rarely any difficulty about leave. I ask you, is this fair on Garrison Artillery. I have heard men speak of it with the greatest dislike as a Service. Will this tend to make it more popular? Returning to the scheme once more, I see that a colonel at home is to command not only a brigade of fourteen or eighteen batteries, as the case may be, but also to command any Artillery in his district. This is an utter impossibility without a large staff; but setting that on one side, the greatest disadvantage of the system will be the enormous amount of correspondence it entails, as well as expense to the Government in the way of postage, especially if a battery has, as well, to correspond with its own acting head-quarters. The new system seems to me, as far as I can understand it, to be cumbersome, no advantage over the old, and going back instead of progressing in systems under which Artillery has hitherto been worked. What we want is a general head-quarters for returns, such as records of service, muster rolls, &c., which might be done just as well at the Horse Guards as anywhere else, but let the battery be the only real unit. A battery now at an out-station, where there is no colonel or lieutenant-colonel, is commanded by its own major, who has full powers over his men in the way of punishment—that is, he can give seven days' cells or twenty-eight days' confinement to barracks. If the battery moves to head-quarters, the major has no power at all over his own men unless the colonel chooses to give it him, and this never exceeds seven days' confinement to barracks. The colonel has so many men to command that it is quite impossible he can know any of them personally, which leads to a frequent miscarriage of justice. Everybody who has anything to do with them knows that recruits—such as we get now-a-days—are very frequently insubordinate. I have seen a man get seven days' confinement to barracks, fourteen days' confinement to barracks, and seven days' cells, one after another, and when the next time he is brought before the colonel he will let him off, at the same time tearing up the crime. Of course, if the major goes away, the command devolves upon a captain or a subaltern, but they belong to the battery, and attend at the orderly-room while prisoners are weighed off, and would never be guilty of such a miscarriage of justice as the above. As it was, the man went away, and, not being checked in time, became a thorough bad character. This constant moving under different systems of punishment is one, and a very bad one, of the evils of the brigade system. Men soon learn who is lenient and who is severe, and can generally manage to commit their offences when they know the lenient officer will be there to weigh them off. Another evil of the brigade system is the promotion of non-commissioned officers. A non-commissioned officer may be an acting bombardier in one battery, a bombardier in a second, a corporal in a third, a sergeant in a fourth, and a sergeant-major in a fifth. With what result? He has learnt the ways of one commanding officer as an acting bombardier. In his second battery he finds he must unlearn a great deal of what he has learnt; in his third, he must unlearn the whole of it, or he very soon reverts to gunner. After this he wants to go to his original battery, and is not allowed to; the man, then, most likely becomes a bad character, or, at any rate, will not take the stripe again. Now, what are we about to do in all this? Increase the number of batteries in a brigade already too large. In this, I am afraid, very long letter I have tried to point out the following:—1st. That the new system for Garrison Artillery, if it becomes law, is most unfair, and that the brigade system is bad. 2nd. That Garrison Artillery should be made a separate corps by itself, the batteries, numbered consecutively, and reliefs carried out by batteries, not by brigades. 3rd. A colonel or lieutenant-colonel should be appointed to a district for five years, the colonel to command the nearest four or six batteries at the time, the lieutenant-colonel the nearest two or three, two lieutenant-colonels to one colonel. 4th. That the whole of the discipline of a battery be left to the officer actually in command at the time. 5th. That all subalterns join their batteries on appointment, that they may learn their duties at the best school. Until Artillery is divided into at least two regiments it will never be what it should be, and, above all, we want more officers for the Garrison Artillery.—I am, &c.,

DOMESTICS FOR THE NAVY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

SIR,—Having noticed in your issue of Feb. 3 a short paragraph concerning the above, will you kindly permit me to mention a few facts as to the cause of this. No matter how long and how faithfully a steward serves in the Navy, the rating is always the same. The boy or ordinary seaman joined but yesterday pass him in a single commission, and obtain higher rating, and, consequently, better pensions. A steward has under his charge some hundreds of pounds of wine and mess stock for which he is responsible, and expenditure, of which he has to keep a correct amount. He has to control and direct the mess servants, and yet he has to muster with the younger hands, or with those who, through misconduct or inability, cannot get on. They are also on their ship paying off, not allowed the privilege of remaining in a guard-ship until they can get another, but have to remain on their own resources, perhaps, for months before they get a ship, unless they take a gunboat, with a quarter the pay they had last commission. In my humble opinion, the mess steward ought to rise according to the number of years he serves until he gets chief rate, say in twelve years. And let him be kept more for the duties for which he joins than he is at present. The only thing that should take him from mess duties is general quarters, and then only to attend the doctors. Sir, unless something be done, in a few years there will not be a steward left, and, if the officers want a comfortable and good mess, they must treat the steward with confidence, and uphold him in his duties.—I am, &c.,

Hong Kong, April 12. LEFT AT OWN REQUEST.

THE TURKISH ARMY.

The *Russki Invalid* lately published the following, which at this moment possesses considerable interest:—

The organization of the Turkish Army has been framed on models adapted from other countries. The Infantry and Cavalry are organized after a French pattern, the Artillery on a German one. It is necessary, however, to remark that while adapting these Continental systems little regard has been paid to their tactical applications. Camps of exercise, which have of late found favour in Turkey, have done little to improve the tactical acquirements of the Army, more especially in the matter of the combined action of the three arms. We may conclude, therefore, that the tactical training of the Turkish Army is at a very low ebb, and, by reason of this and from various other causes, its capacity for defence far exceeds its capacity for offence. We add a short summary of the organization of the different arms and their formations in the field.

INFANTRY.—The company is formed in two ranks; it is divided into two half companies; each half company is divided into two sections. The company is formed in line, in column of half companies, in column of sections, in fours, or in files. Firing is either in skirmishing order, file firing, or volleys. When skirmishing a company usually sends out one section. The other section follows close behind. The remaining half company follows at a distance of 150 paces from the skirmishers. Skirmishers are moved by signals. The company attacks either with its front deployed or in column of half companies, and prepares its attack with the fire of skirmishers. When the closed portion of the company advances to attack, the skirmishers push on to within 80 or 100 paces of the enemy, and await the arrival of the rest of the company. All then advance with a rush and a shout of "Allah!" The battalion is formed (*a*)—in deployed order; all the eight companies in line divided into two half battalions, each under command of a major; (*b*), in column of companies, half companies, or sections; (*c*), in fours or files. Volleys are fired either by companies or battalions. Not more than one-fourth of a battalion are extended as skirmishers. The Turkish Infantry fire, as a rule, in closed order, and their quick firing leads to indifferent shooting. Companies rarely act independently. Battalions generally keep together, form in deployed order, and commence firing volleys or file firing. The Turkish soldier has little idea of taking advantage of ground, but he is a good workman, and entrenches a position rapidly. Behind cover he defends himself obstinately. For manœuvring in the field with large forces the Turkish Army is by no means fitted, as no attention is paid to the joint action of the three arms and their mutual support. On guard and outpost duty the Turks are always slovenly and careless. They trust to their commanders to look out for the enemy. Of ordinary military precautions they have no idea, and they will have to pay often and dearly for their carelessness.

CAVALRY.—In the European sense of the word, the Turkish Cavalry is not trained at all. The horses are badly broken, and the men are not taught to ride on any systematic plan. They are drilled very little. Regiments are usually formed in columns of squadrons. These columns rarely form line on the move, the front squadron halts, and the others range themselves on it. Words of command are manifold, and are repeated by squadron and troop leaders. In outpost duty the training of the Cavalry is confined to the barrack-square. A mere line of vedettes without supports or reserves is not, however, to be relied on to guard an army from surprise. The Turkish authorities themselves admit the inferiority of their Regular Cavalry, and rely on it but little. On the other hand, they place great reliance on the Bashi-Bazouks, who, indeed, in the minor operations of war may do excellent service.

ARTILLERY.—Although undoubtedly the best arm the Turks possess, it is not by any means so good as is supposed. Its training is inferior. In peace time little attention is paid either to drill or practice in firing. It is consequently unfitted to manœuvre in the field. Most of its movements are done at a walk, rarely at a trot, and generally in column, without intervals between the guns. In deployments and changes of front the batteries are slow to a degree. The Turkish Artillerymen fire by no means badly, and they have good material to work with. Having once taken up a position (which they always intrench, if possible) the Turkish Artillery will stick to it stubbornly; but in moving from one position to another they easily become disordered by reason of their want of practice in manœuvring. Having given this short and by no means favourable account of the Turkish Army, we would point out that the weakness of the Army is to be found mainly in the upper ranks—*i.e.*, the officers. The Turk is by no means bad material for a soldier, and has the makings of an excellent soldier in him. The Turkish soldier is of middle height, free and active in his movements; he is strong and hardy and well fitted to undergo the hardships and privations of war. Like all Mahometans, he is temperate and satisfied with little. He is, moreover, patient and obedient. In a word, in good hands and properly trained, Turkish troops might be capable of great achievements, which has been proved more than once when they have been led by good foreign officers. The military education of the Turkish officers of the present day is at a very low level. Among the officers there are two sharply-defined groups, viz., officers who have passed through the military school and those who have risen from the ranks. Among the latter, notwithstanding their utter want of education, are found men who, at all events, are well acquainted with the details of a soldier's life, and have seen service in the field. The majority of the former class are youths who have passed through the military school and have got pushed on by interest. Occasionally from among these emerges a man of decent military acquirements. There is also in the Turkish Army a sprinkling of "European renegades"—foreign officers who have adopted the creed of Islam and taken service with the Porte. Among these are men with fair military attainments. The ranks in the Turkish Army are as follows:—Sirdar Ekvem, corresponding to the rank of field-marshal, mushir to general, ferik to lieut.-general, liva to major-general (all persons of the above ranks have the title of pacha), mir ali to colonel, kaimakan to lieut.-colonel, alai amin to major, bim bashi to major commanding a battalion (all persons of these ranks have the title of bey), uz bashi to captain, mulagim to subaltern, sira chavish to sergeant, on bashi to corporal, and nafar to private.

Extracts from an article in the *Russki Invalid* of Feb. 25 (March 6), 1877:—

The Turkish Army is at present armed with rifles of various patterns. The Martini-Henry rifle has, however, been decided on for the whole Army; 600,000 of these weapons and 400,000,000 cartridges have been ordered in America. The first portion of this order arrived in Turkey in October last, and were served out to the troops, but, practically, it was only after the armistice that the Turkish Army began to be acquainted with this weapon. Until this time the Redifs were mostly armed with Enfield rifles converted into breech-loaders on the Snider principle—some of the Infantry being armed with Remington rifles. The Turkish Martini-Henry rifle is similar to the English one with the following exceptions: the bayonet is a four-grooved weapon instead of a three-grooved one, its weight the same as the English bayonet, but $2\frac{1}{2}$ inches longer. The Turks have not adopted a metallic cartridge. For their Cavalry the Turks have adopted a repeating carbine of the Henry-Winchester pattern. In Dragoon regiments all the troopers are armed with carbines. In Lancer regiments the flank squadrons of each regiment carry carbines and swords; the other four squadrons are armed with lance, sword, and pistol. When its magazine is filled the Henry-Winchester carbine contains fifteen cartridges. Its weight, when loaded, is $10\frac{2}{3}$ pounds—full heavy, one would think, for Light Cavalry.

WE observe it stated in several papers that Colonel Bateson will command the 1st Life Guards during the summer drills at Aldershot. That, however, is not the case, as he is on Commander-in-Chief's leave, and the regiment is under the command of Colonel Keith Fraser at Aldershot, whilst Colonel Bateson is in London, and was, we observe, at the concert at Buckingham Palace on Wednesday night in his capacity as Colonel of the 1st Life Guards. The date of the gallant officer's commission as Lieutenant-Colonel of the regiment is May 29, 1872. This is June 30, 1877, so that the War Office has allowed, as we see with pleasure, a relaxation in or departure from the five years' rule. What Lieutenant-Colonel Keith Fraser thinks on the subject we do not know, but some curious questions suggest themselves. Suppose that before the drills were over it was necessary to send the Household Cavalry abroad, would it be very fair to Colonel Bateson, or would it be possible, with any regard to decency and feeling, to deprive him of his regiment? If Colonel Bateson is allowed to hold on till the Treasury is ready, what is to be done with Colonel Holden Steward, of the Queen's Bays, who became Lieutenant-Colonel June 26, 1872? with Colonel Nugent, of the Scots Greys, who became Lieutenant-Colonel February 3, 1869? with Colonel Montgomery Moore, of the Queen's Own Hussars, who became Lieutenant-Colonel December 23, 1868? with Colonel Massy, of the Royal Irish Lancers, who became Lieutenant-Colonel October 31, 1871? with Colonel Thesiger, of the Inniskillings, who became Lieutenant-Colonel December 2, 1868? with Colonel Hale, of the Queen's Own (No. 2) Hussars, who became Lieutenant-Colonel February 22, 1871? with Colonel Wilkinson, of the Queen's Lancers, who became Lieutenant-Colonel July 3, 1872? with Colonel Drury-Lowe, of the Duke of Cambridge's Own Lancers, who became Lieutenant-Colonel June 15, 1866? with Colonel Jenkins, of the 19th Hussars, who became Lieutenant-Colonel May 6, 1872? with Colonel Cotton, 20th Hussars, who became Lieutenant-Colonel April 30, 1873? with Colonel MacLeod, 21st Hussars, who became Lieutenant-Colonel March 4, 1868? We should like to know, you know! And, moreover, we should like to know what the actuarial estimate of the comparative advantages and disadvantages to these officers would be if a Royal Warrant were to be issued depriving them all of their regiments on the same date under a supposed five years' rule. Omitting the Guards from the list, we find that Colonel MccGwire (a wonderfully spelt name, by the way, and not at all like that of a Royal Scot), March 27, 1871; Colonels Rose, October 20, 1869, and Thompson, March 26, 1873 (Queen's Royal); Colonel Pearson, August 14, 1867; and Colonel Cox, July 12, 1871 (the Buffs); Colonel Cameron, April 1, 1873 (King's Own Royal); Colonel Roberts, March 30, 1866; and Colonel Carden, October 5, 1872 (the Northumberland Fusiliers); Colonel Bell, April 1, 1873 (the Royal First Warwickshire); Colonel Waller, October 28, 1871; Colonel Herbert, September 6, 1873 (Royal Fusiliers); Colonel Woods, June 15, 1866 (the King's); Colonel Hawes, May 8, 1872; and Colonel Buchanan, January 1, 1873 (East Norfolk); Colonel Roe, May 31, 1871 (North Devon); Colonel M'Kay, May 1, 1871; and Lieutenant-Colonel Foster, April 1, 1873 (East Suffolk); Lieutenant-Colonel Montgomery, April 1, 1873 (Prince Albert's Light Infantry); Colonel Hawley, May 8, 1872; and Colonel Thomson, April 30, 1873 (Prince of Wales's Own); Colonel Wilkinson, April 13, 1872 (15th York); Colonel Bancroft August 14, 1867 (Bedfordshire); Colonel Cobbe, July 31, 1869; and Colonel Brice, January 14, 1871 (Leicestershire); Lieutenant-Colonel Dillon, August 27, 1873 (Royal Irish); Colonel Chippindall, March 7, 1870 (19th, 1st York); Lieutenant-Colonel Meares, October 5, 1872; and Colonel Davis, January 1, 1873 (East Devonshire); Colonel Dalzell, April 17, 1867 (Royal Scots Fusiliers); Colonel Armstrong, December 4, 1872; and Lieutenant-Colonel Tyacke, April 23, 1873 (Cheshire); Colonel Mostyn, September 1, 1869; and Colonel Prevost, September 3, 1870 (Royal Welsh Fusiliers); Colonel Glyn, February 13, 1867 (2nd Warwickshire); Colonel Ruddell, June 21, 1871 (King's Own Borderers); Colonel Freer, June 23, 1869 (Inniskilling); Colonel Wilkie, October 31, 1871 (Worcestershire); Colonel Fanshawe, September 24, 1873 (Duke of Wellington's); and Colonel Hunter, April 3, 1870 (Herefordshire); Colonel Henning, May 31, 1871 (1st Staffordshire); Colonel Currie, December 19, 1865 (Dorsetshire); Colonel Blyth, June 8, 1867 (2nd Somersetshire); Colonel M'Leod, March 26, 1868; (the Black Watch); Colonel Travers, November 12, 1870 (Northamptonshire); Colonel Madden, July 24, 1869 (King's Own Light Infantry); Colonel Curzon, February 19, 1870 (Oxfordshire Light Infantry); Colonel Gordon, August 9, 1871 (King's Royal Rifle Corps); Colonel Pigott, August 14, 1872 (Surrey); Colonel Macdonell, November 27, 1867 (Highland Light Infantry); Lieutenant-Colonel Beresford, June 14, 1872 (Duke of Albany's Own Highlanders); Colonel Wiseman Clarke, July 2, 1870 (Perthshire); Colonel M'Leod, September 9, 1864 (74th Highlanders); Lieutenant-Colonel Kent, June 13, 1868 (77th East Middlesex); Colonel Mackenzie, July 13, 1867 (Ross-shire Buffs); Colonel Chichester, December 24, 1870 (Royal Lincoln Volunteers); Colonel Hardy, May 5, 1869 (York and Lancaster); Colonel Appleyard, March 6, 1867 (Bucks Volunteers); Colonel Stevenson, June 28, 1871 (Royal Irish Fusiliers); Colonel Lord Taylour, June 29, 1870 (94th Regiment); Colonel Bray, September 14, 1870 (96th Regiment); Colonel Dunne, November 25, 1865 (Duke of Edinburgh's); Colonel Addington, July 12, 1871 (Prince of Wales's Royal Canadians); Colonel Williams, August 15, 1869 (Madras Infantry); and Colonel Browne, August 21, 1867 (Bombay Infantry), are all officers who have held commands of regiments for more than five years, some for nearly twice that period.

When an array of speakers such as Admiral Egerton, Sir George Balfour, Sir John Hay, Mr. Sampson Lloyd, Captain Bedford Pim, Mr. Anderson, and others, rise in the House to advocate the cause of the officers of the Royal Marine corps, it is evident there must be an acknowledged evil to be remedied. Various schemes for facilitating promotion in the corps have from time to time been proposed, only to be set aside and replaced by others with little more to recommend them to the interests of those more nearly concerned on the one hand, or to the Treasury on the other. Where promotion and money have both to be provided, there is nothing so difficult as to arrange a system that will please both those who have to furnish the cash and those who yearn for advancement. No scheme that could ever be devised would produce the desired effect if the acceptance of its terms was left wholly optional; there must necessarily be compulsory clauses, and this compulsion must, as a matter of course, injuriously affect a certain number of individuals. The age system, under Mr. Childers' Order in Council of February, 1870, retires Lieutenant-Colonels at fifty-four, and Captains at forty-eight years of age; and every officer who has been affected by it has quitted the Service in a spirit of discontent, and with an impression of hardships. Thus, to make room for others whose turn may also come to feel equally discontented, the prospects of many good officers, some of whom may be of more value to the Service than those who succeed them, are permanently blighted. An officer who enters the Service to make it his profession and looks forward to reach the higher ranks in his corps, must naturally feel his prospects blighted if retired as a Captain at the age of forty-eight, with promotion within his grasp, and when he is looked upon as too old to seek any civil occupation. It is true that the numbers so affected under the Order in Council already quoted are comparatively few, but the hardship is no less great to the individual; and if the recommendations of the Army Commission are approved and made applicable to the Marines the numbers will be considerably greater, for all officers who have served twenty-two or twenty-three years, and have not risen above the rank of captain, will at once be retired. And what does this mean? Why, that a clean sweep of about forty will at once be made from the list of Captains, the juniors of that number retiring on a limited pension, and averaging only forty years of age. This will immediately create a redundant Retired List which will vastly increase year by year before any perceptible reduction can take place by death from age or other causes; and it becomes a serious matter for consideration whether it would not be wiser to spend the same money by increasing the pay of each rank, thus rendering them more contented to await promotion which must arrive in due course, instead of urging for schemes of retirement which will bear heavily upon the seniors, and eventually upon themselves. Within the last twenty years the Admiralty has been enabled to raise the pay of all ranks of naval officers, but they find a difficulty in dealing with that of officers of Marines, inasmuch as they are in every respect assimilated to the Army; and to raise the pay of the Marine corps would afford an apparent grievance to the Line. That the pay of the officers of the military Service is too small there can be no question, being much the same as at the beginning of the present century, since which date the emoluments of every other profession or trade have considerably advanced. But as pointed out by Admiral Egerton in the House, the Line have the advantage of extensive Staff employ, of commands, and of Indian pay and allowances, which the Marines have not; and there can be no valid grounds of objection to an Admiralty corps being dealt with either as to pay, promotion, or retirement entirely by the Admiralty, and without reference to any branch of her Majesty's Forces serving under the Horse Guards. At present the pay of the junior ranks is not equal to the daily earnings of a respectable artificer. The amount of pay should not depend entirely upon the rank held, but should rise by increments according to length of service. It would not be too much to ask that a Lieutenant of fifteen years' service and upwards should receive ten shillings per diem, and a Captain on promotion twelve and sixpence, rising to fourteen or fifteen shillings after twenty years' service; but this would be an after calculation, to be worked out whenever so fair and just an idea should be entertained.

A few days ago the French Radicals presumed to celebrate the Hoche anniversary at Versailles, on which occasion M. Gambetta pronounced a speech on the present crisis. It is needless to say that little or nothing was said of the gallant soldier whose career furnished the pretext for the Radical banquet and orations. It may be asked upon what authority the Ultras proceed to this annual exhumation, and what there is in common between M. Gambetta and his friends and General Hoche? The only justification for this yearly symposium lies in the fact that General Hoche served the first Republic. But how was he requited? The Republic was in danger, the command of the Army of the Moselle and that under Pichegru were confided to Hoche, who immediately broke through the lines of Weissembourg, defeated the Austrians and the Prussians, raised the siege of Landau, and saved France. He had hardly accomplished this splendid feat of arms when the Convention, afraid of arresting him in the midst of his victorious troops, transferred him to the Army of the Alps. On his arrival at Nice he was stopped and sent to Paris, where, with his hands bound like a vile criminal, he was flung into the Conciergerie. There he languished for five months on prison fare, and was even obliged to sell his charger in order not to starve. He owed his release to the fall of Robespierre and St. Just, whose death put an end to the Reign of Terror, and he thus escaped the fate of Custine, de Biron, Houchard, Chancel, and Beauharnais, who perished on the scaffold. It is a question whether Hoche would have remained a Republican had he not been poisoned, either accidentally or purposely, at the early age of 29. The brilliant soldiers produced by the French Revolution went different roads. Marceau and Desaix fell on the field of battle, and Kleber was assassinated at Cairo during the Republic, and they died true to the immortal principles of '93. Dumouriez deserted in order to avoid the guillotine. Pichegru was thrown into prison on a charge of conspiracy, and was found strangled in his cell. Moreau, the rival of Bonaparte, was sentenced to ten years' transportation, and fell in the Prussian ranks fighting against the Emperor Napoleon. Bernadotte accepted the throne of Charles XII., and joined the alliance against France. The great bulk of the Republican Generals accepted the ascendancy of Bonaparte, and putting their political principles in their pockets became Marshals (*which made them cousins of the* Emperor), Princes, and Dukes. The probability is that Hoche would have followed the example of Ney, Murat, Lannes, Massena, Soult, Marmont, Macdonald, Victor, Suchet, Junot, Davoust, Kellermann, and other comrades who threw over the Republic. Considering the manner in which M. Gambetta, during his brief Dictatorship, treated Generals like Bourbaki and d'Aurelles de Paladine, we can imagine the French Army not being over pleased with this Hoche manifestation. During the campaign in France a well-known Republican writer of great talent wrote a strong letter condemning the policy of M. Gambetta, who would persist in carrying on the war on his own authority. "Every day," wrote M. Lanfrey, "our dangers increase, and, far from being able to march upon Paris, our army has been forced back behind the Loire and cut in two. Its gallant and honourable General, who was a hero yesterday, is denounced as a traitor to-day for not having fulfilled promises made without his knowledge." General d'Aurelles de Paladine was removed from his command after beating the Bavarians at Coulmiers; and Bourbaki, driven to despair by insolent and incapable instructions, attempted suicide. If the statue of Lazare Hoche could speak, it would certainly say: "Save me from my friends!"

It is impossible to say what the words "Turkish military quarters" mean, but the announcement sent from Shumla to Reuter's office, that the crossing of the Danube between Sistova and Nicopolis by the Russians causes no uneasiness there, argues the possession of "a divine calm" and utter indifference to the fact that the Turkish line is cut in two, which is very Turkish and almost superhuman as a specimen of apathy. There is so much "pulver dampf" about that it is difficult to discern the truth of the case, but it appears to be certain that the Grank Duke Nicolas has established himself solidly on the right bank opposite Simnitza, and there is reason to believe that 50,000 Russians are across the river at that point. That force would thus cut the communications by the right bank between the Turkish left at Widdin and Rahova, and the Turkish centre and right at Rustchuk—Turtukai—Silistria, and if the Russians have possession of Rassova the Turks defending Trajan's Wall must fall back. The Grand Duke, however, can not move forward till his flanks are covered, and so far the Russian attempts to cross above and below him appear to have been frustrated. The road to Adrianople by the Kazanlik Pass over the Balkans, to which the shortest route from Sistova is by Ternova, is now open, as far as we can see, and the Turkish quadrilateral, unprovided with an offensive army, and left to its own resources in passive defence, is in a bad way.

On the representation of Captain Bowden-Smith that he is not at present in a fit state of health to take up his appointment as Flag Captain to the Commander-in-Chief in the East Indies, the Admiralty has informed him that he may postpone his departure for that station until he is ready to make the voyage out.

Captain W. E. Triscott, who has been awarded the Greenwich Hospital Pension of £65 per annum, entered the Navy in 1821, and obtained his first commission in 1837, and served for some years on the Mediterranean and Lisbon Stations. He was promoted to the rank of Commander in March, 1846, and to that of Captain on the Retired List in December, 1865.

We regret to hear that Lieutenant-Commander Hotham of the Pioneer has been compelled to temporarily resign his command in order to proceed to Madeira on sick leave. The trying nature of the service upon which the Pioneer is engaged is only too well known, and unfortunately the ship is by no means well ventilated or adapted for such service. The invaliding rate has been very heavy, and deaths have been many for so small a complement, and as the rains are beginning to set in and the trade rivers are about to be visited by the Pioneer, it was thought advisable that Lieutenant Hotham should not proceed in the ship. The command is now in the hands of Lieutenant Galloway, of the Sirius.

The Alexandria correspondent of the *Standard* telegraphs that the Government are preparing plans to defeat the intentions of those concerned in a plot to destroy the Suez Canal with dynamite. Stations are being formed along the banks of the canal, and these will be occupied by a force which will be placed in charge of Morice Bey. Should Commander Morice, R.N.—the Bey in question—take this command, it will necessitate his removal from the list of officers of the Royal Navy.

Commander Price, M.P., is desirous of impressing on the Government his opinion that the education of young gentlemen intended for the naval Service (as distinguished from special training in professional subjects) should be conducted at the expense of their parents or friends, and not at the cost of the State. If Parliament should fully concur in this view, let us hope that it will sanction the daily pay of a Midshipman being raised to something more than the present one shilling and ninepence.

The Channel and Reserve Squadron has been cruising off Kinsale during the past week and will call at Bantry Bay to-morrow, and returns to Queenstown on July 5. Two other ships of the First Reserve will then join the flag of Sir Beauchamp Seymour.

A meeting of the Goodenough Memorial Fund Committee and subscribers will be held in the Royal United Service Institution on Monday next at three o'clock.

Admiral George Dobson, whose death is reported, entered the Navy December 14, 1807, as first-class volunteer on board the Trident, bearing the flag at Malta of Sir Alexander Ball. In 1808 he removed to the Saracen, and became a Midshipman October, 1810. He further served in the Mediterranean in the Queen, bearing the flag of Sir Francis Laforey. During the six years immediately subsequent to the peace, we find him employed chiefly as Master's Mate in the Vengeur and Northumberland. He then, towards the close of 1821, proceeded to the Cape of Good Hope in the Andromache, to a Lieutenancy in which ship he was confirmed January 14, 1824. He was promoted to the rank of Commander May 9, 1832, and was employed in the Java and Southampton. For his subsequent services in the Coastguard, to which he was appointed July 13, 1838, this officer was advanced to post-rank January 5, 1844. He obtained flag-rank in 1863, became Vice-Admiral 1869, and Admiral in 1875.

A large party of persons attached to the French Embassy will visit Chatham Yard to-day, and will "assist" at the launch of the composite corvette Garnet.

Captain Cleveland, who has been studying at the Royal Naval College, has been permitted to join the torpedo class at Portsmouth—the second of the season—as a special case, but their Lordships have stipulated that he shall not be granted the usual accommodation at the Portsmouth College. The loss is not great; but why this slight hospitality should be refused an officer who is perfecting himself in his profession and thereby becoming a more efficient servant to the State, it is difficult to conceive, unless the whole of the College is appropriated from basement to roof.

The sick leave granted to Captain Buckle of the Lord Warden has expired, but we believe the Admiralty do not require him to rejoin his ship until she arrives at Portsmouth. Should Captain Buckle's health then admit of his return to duty, he will relieve Captain the Hon. E. R. Fremantle of his temporary command.

The removal of the name of Captain the Hon. A. Hobart from the list of officers of her Majesty's Navy was, we believe, rather hastened by the question as to the course he had chosen being put in the House, the final scratch of the pen being made just before the official answer was given. Should this not meet the views of Hobart Pasha, he cannot blame the Admiralty, for he was given full time to have answered the communication addressed to him, but he seems to have preferred to treat these last orders to quit with silent contempt.

Mr. Charles Iceley, Inspector of Machinery at Portsmouth, was ordered by the Admiralty to proceed to Kingstown on the news of the breakdown of the Orontes' machinery being received, and to accompany the ship to Queenstown and to report on the state of the engines and cause of their defective state. On the passage to Queenstown all worked satisfactorily, and there was thought to be no good reason for countermanding her orders for the Cape, but she will not now go to Mauritius.

The following gentlemen having passed the competitive examination at the Royal Naval College at Greenwich have been appointed to Assistant Clerkships in the Navy:—A. E. Cubitt, S. E. Elliott, F. W. J. Airey, F. B. Hill, M. Stephens, H. F. Tracey, E. D. Hadley, O. F. Tuck, J. Riches, E. Row, E. L. J. Bridgman, H. W. Braddon, and F. W. Osburn.

Staff-Commander Carr and Navigating-Lieutenant Langdon, who are engaged on the survey of Milford Haven, have returned to that place from Foynes, where they had been to complete the survey of that harbour.

We rather fear that Sub-Lieutenant Ledgard and Navigating Sub-Lieutenant May of the Research, who have both been dismissed their ship, by sentence of court-martial, owing to irregularities in the gun-room wine accounts, may be, partially, at least, the victims of a bad system. The extra burthen of keeping accounts which is thrown upon young officers, and the temptation to doctor the wine books so that they may apparently not exceed the limit, is the cause of these irregularities.

The retirement of Staff-Surgeon Kipling, which was gazetted last week, was, we regret to hear, necessitated by the health of that officer rendering him physically unfit for further service afloat.

Mr. Primrose, who has for some years past held the appointment of Private Secretary to a Lord of the Admiralty, has resigned his post in that capacity to Rear-Admiral Hood, C.B., and has succeeded to the vacancy caused by the advancement to the first class of Mr. Darell Jeffreys.

Commander James Brown, who obtained his promotion out of the Excellent after serving his term as senior Staff officer, has been selected for service at Whitehall, and took up his appointment in the Department of the Director of Naval Ordnance on Tuesday.

Commander Peter Belches has been selected by the Admiralty to fill the vacancy on the "1816" List caused by the death of Commander Meheux. Commander Belches entered the Service in 1812, and while serving as Master's Mate on board the Primrose was severely wounded in an engagement which occurred by mistaking a British packet for the enemy. In 1827 he obtained his promotion to the rank of Lieutenant and for many years held the post of Harbour Master at Albany, Western Australia. He became a Retired Commander under Order in Council of July, 1864.

Mr. Wilmot B. Mainprise, R.N., Paymaster of the Malabar, has, we understand, been selected for the charge of the naval depôt at Sydney, N.S.W.

The illness of the First Lord of the Admiralty is, we regret to hear, sufficiently serious to cause much uneasiness to his friends. Mr. Hunt, acting upon medical advice, embarked in the Vivid on Wednesday, *en route* for Homburg, to try the waters of that place, and it is to be hoped that the change and rest from official cares may go far to restore him to health.

The following is a list, in the order of merit, of the successful candidates at the recent examination for Naval Cadetships:—Angel H. Freeman, Lord F. G. Osborne, C. H. Askwith, W. J. W. Steward, F. J. Patteson, J. H. Robertson, L. E. Power, B. A. Cator, A. R. C. Warren, C. R. A. C. Foot, E. S. Fitzherbert, R. E. R. Benson, D. F. Robinson, C. L. Cust, R. J. S. Home, C. J, T. Dormer, S. G. Maxwell, R. E.

Wemyss, G. W. Hillyard, Mark E. F. Kerr, C. F. Lambert, A. P. James, W. L. Grant, F. J. Boord, A. T. Taylor, R. J. Prendergast, Hon. G. A. Hardinge, R. B. B. England, H. Thompson, Ralph Hudlestone, A. C. Lowry, F. J. H. Booth, Morgan Singer, T. S. Gooch, J. R. Hargreaves, S. C. Weigall, H. S. Grant, W. G. C. Walter, E. N. Hale, R. G. L. Tottenham, W. C. Beston, R. K. Arbuthnot, J. W. C. Stracey, P. M. Stewart, A. H. Ozzard, and R. A. Maude. The following young gentlemen are entitled to another trial:—H. G. Smith, Hon. A. F. Bingham, E. B. Hewett, and E. C. Biscoe. It was to Mr. A. H. Freeman the Council of the Royal Naval School, Newcross, awarded the Admiralty Prize Naval Cadetship.

In confusing the Assistance with the Alexandra, in some remarks upon the recent disturbance on board Admiral Hornby's flagship, the *Whitehall Review* has made an error which will not be appreciated by the former ship. Those who know Captain Prattent, however, will not be misled or believe it likely that his men have been led into irregularities such as have been committed by those under Captain FitzRoy's command.

There was once on a time an Anglo-French force encamped with hostile intent on the territory of the Czar of all the Russias, for whose destruction that much deceived and greatly suffering Potentate relied on the appearance in the field of his Generals "Janvier" and "Fevrier," and they certainly did their share of the work when they came, but could not do all. The Russians are now in the Dobrudscha, and will soon be swarming in Bulgaria, and the Turks will receive, in all likelihood, immense assistance from Cucumber Pasha and Melon Bey, who are awaiting them in force. For it is a leguminous land, and Turk and Christian revel in the abundance of all the pumpkin tribe and in vegetable wealth of all sorts. Fruit abound, and grapes are not unknown, and cabbage and pig, dear to the Muscovite, are all in the Christian quarters. In other words, there is plenty of food for dysentery and cholera about, and we have yet to see whether the comforting assurances of the *Times* will be justified, or whether the Russians will suffer as they did in 1828-9 in Roumelia, and in 1849 in Transylvania and Hungary, and even in 1855 in their own country. Cucumber Pasha and Melon Bey—these may be potent for evil to the legions of the Czar. It is all very well to write about parallels of latitude, but there are men living by the hundred who can well recollect how the men of our army encamped in Bulgaria in July and August suffered from the heat, and how midday drills were forbidden, and how the Guards were two days marching eighteen miles, though their knapsacks were carried, and how we left full churchyards at Gallipoli and Varna ere a shot was fired.

Deputy-Commissary J. S. Young, whose departure for the seat of war in the East we referred to last week, proceeds as Chief Commissioner of the Red Cross Society during the present war, and takes out with him five Surgeons for employment in alleviating the sufferings of the wounded and sick of both belligerents as he may deem most practicable. Mr. Young's career has been one of almost uninterrupted special service, as he has been specially employed in China, Abyssinian Expedition, Franco-German war, and on many occasions at the War Office; while, as member of the War Office Ambulance and Field Hospital Equipment Committees, his special knowledge of military hospital requirements and organization has been availed of. It is surely time that such special services obtained official recognition.

Under what Royal Warrant is it that field officers are every now and then allowed to sell out of the Army, and are in the same *Gazette* accorded a step of higher honorary rank? The question has repeatedly been put to us, and nobody seems to be aware of the appearance of any Warrant granting the privilege. If it is only done by the Horse Guards, as is supposed, in order to encourage officers to retire, it is a pity that steps are not taken for letting the Army know what rules are observed, as, were the Service enlightened, there are many who would gladly avail themselves of a favourable opportunity of quitting a profession in which, judging by the slow rate of promotion lately, their prospects are anything but bright.

Is there no Warrant by which the vacant pension for non-combatants, lately drawn by Lieutenant-Colonel E. Feneran, could be given to one of the many Ridingmasters whose services merit some such special recognition? It is difficult to understand on what principle these Good Service Pensions are bestowed, for Paymasters, Quartermasters, Doctors, and even Chaplains are qualified for them; but, by an extraordinary ruling, Commissariat and Ordnance officers, and even Ridingmasters and Veterinary-Surgeons, are not. If the Chaplain and Paymaster have the pension, it can on no reasonable ground be denied to the other ranks and departments, and the distinction which is made cannot be viewed otherwise than as a most unjust one.

Aldershot is a large station, and the regiments forming the division are necessarily much scattered; yet, strange to say, it possesses but one gymnasium, to which troops occupying quarters in the North Camp have to be marched for instruction in a hot sun or rainy weather, a distance there and back of something like four or five miles. The Curragh gymnasium is nearly double the size of that at Aldershot, though there are never a quarter of the number of men there.

Lieutenant A. N. Hayne, 57th Regiment, has received the appointment for which he was recommended, that of Aide-de-Camp and Private Secretary to Sir James R. Longden, K.C.M.G., the new Governor of Ceylon. He entered the 84th Regiment as Ensign, from the Royal Military College, August 18, 1869; became Lieutenant, September 27, 1871; exchanged to the 57th Regiment, November 15, 1871; was appointed Musketry Instructor, November 1, 1873, and held the appointment until 1875. He has been temporarily on the Staff, previously having acted as Aide-de-Camp to Colonel Logan, C.B., during one set of manœuvres at the Curragh.

Captain the Hon. G. P. H. Villiers, Grenadier Guards, at present employed as Aide-de-Camp to Lord Lytton in India, has accepted the offer, which we stated some time since was to be made to him, of the Military Attachéship at Berlin. Captain Villiers entered the Army March 6, 1867, and became Captain February 19, 1870, and passed from the Staff College in December last.

Captain A. B. Tulloch, 69th Regiment, has been appointed to succeed Brevet Major Lascelles, Rifle Brigade, as Deputy Assistant-Adjutant and Quartermaster-General at Portsmouth. Captain Tulloch, who passed from the Staff College in December, 1869, joined the Army May 25, 1855, and became Captain March 29, 1864. He has lately been employed as an Instructor in Military Surveying at the Royal Military College, having previously been Garrison Instructor at Halifax, N.S.

The Oxford Military College will signalize its second year of existence by the erection of a handsome new building, affording accommodation for eighty more students. We learn with great pleasure that Mr. Secretary Hardy has consented to lay the foundation-stone on July 21. Our readers will remember that this institution has for its object to give a University education to sons of officers and others, prepare them for the Army examinations, and give them a military training at a moderate expense.

REVIEWS.

Handbook of the Seat of War. By Rev. A. Mackay.
(Simpkin, Marshall, and Co.)

This War Handbook cannot but prove an interesting and useful guide to those who wish to follow the operations of the contending Powers in the East. It is replete with valuable information.

The Illustrated Guide to the War.

Messrs. Ward, Lock, and Tyler have also published a guide to the war, which has evidently been prepared with considerable care, and takes a more comprehensive view of the subject than Mr. Mackay's. Its fantastic cover alone is certainly worth a shilling.

A Voyage Round the World.

In August next the screw steamship Sumatra, of 2,400 tonnage, is to start from London and make a voyage round the world—it is to be hoped successfully. All the necessary information is contained in a handbook recently published. Messrs. Grindlay, of Parliament-street, are the bankers and agents to the expedition, and Messrs. Hide and Thompson, of Cullum-street, its honorary secretaries.

The Arctic Expedition. By R. Johnston, F.R.G.S.
(Frederick Warne and Co.)

Mr. Johnston has very opportunely published a record of the Arctic Expedition clothed in a suitable garb. He has had the advantage of access to the official reports, journals, charts, and drawings of all the officers of the Expedition. It is altogether a highly interesting pamphlet, carefully illustrated, and written in a fair spirit.

Messrs. Blackwood continue the publication of Mr. Kinglake's "Crimea" in its new and cheap form; but Vol. 5, which recently appeared, does not contain any fresh matter, and has no prefatory remarks such as lent such attraction to former volumes, brief as they were. The only objection we can make to the reissue is, that it began before the original work was completed, and that the latter is still unfinished.

Lieut.-Gen. W. A. Le Mesurier died on the 20th inst. at Summerlands, Exeter, aged ninety years. He obtained his first commission as ensign in July, 1804, and was promoted to lieut. in May, 1805. He served in the 24th Regt. at the capture of the Cape of Good Hope in 1806. In 1811 he joined the 2nd Batn. of his regiment in the Peninsula, where he served until the end of that war in 1814, and was present at the sieges of Ciudad Rodrigo and Badajoz, the battles of Salamanca, Vittoria, Pyrenees, Echalar, Nivelle, and Orthes (severely contused); and in the several affairs on the banks of the Dordogne in front of Bordeaux, being on continual advance-guard when that part of the army was moving forward on Angoulême. He had received the war medal with four clasps for his services in the Peninsula. He was gazetted capt. March 15, 1810; major, July 22, 1830; lieut.-col., Nov. 9, 1846; col., June 20, 1854; major-gen., May 1, 1861; and lieut.-gen., Nov. 9, 1870.

The Army.

1st Life Guards. The regiment will proceed from Aldershot to Windsor on the conclusion of the summer drills.

6th Dragoons The C, F, and G Troops, under the respective commands of Lieut. Thackeray and Capts. Bennett and Mills, left Dublin on Thursday for Edinburgh. Brevet Major Curtis, in command of the D, and Capt. O'Neall, in command of E Troop, will embark on Tuesday next for Hamilton, Capt. Stewart and B Troop leaving on the same date for Edinburgh. The head-quarters and remaining troops will embark on Saturday. The young horse party, &c., will leave on the following Thursday.

7th Hussars. The regiment will embark in H.M.S. Assistance at Greenock, for conveyance to Dublin, as follows:—The first division to-day—will land at the North Wall, Dublin, on Monday—the second on the 5th, arriving on the 7th; and the third on the 11th, arriving on the 13th. The regiment returns to Ireland after an absence of twenty-five years. It was stationed in Dublin during the winter of 1852-53, moving thence to Edinburgh.

8th Hussars. Head-quarters and six troops will proceed to Hounslow, and two troops to Hilsea, after the summer drills at Aldershot.

10th Hussars. Lieut. Inman, a probationer for the Indian S.C., has been transferred from the 3rd Bengal Cavalry to the 2nd Punjab Cavalry.

17th Lancers. Head-quarters and five troops will leave Aldershot for Leeds, and three troops for Preston, about the end of next month.

21st Hussars. The *Irish Times* says:—"There is no truth whatever in the report that the regiment has been detailed for service in Egypt with an expeditionary force. If an expedition were ordered to the East, it is doubtful whether the 21st would form part."

Royal Artillery.

Capt. F. C. Nicolas, 1st Brig., has been appointed station Staff officer at Kirkee, vice Capt. P. H. Greig (late Bombay), promoted.

Major E. V. Boyle has been posted to No. 18 Bat. 10th Brig. at Malta, on vacating his appointment as brigade-major of Artillery at Aldershot.

Capt. G. A. Noyes has taken up duty at Dublin on appointment as district captain under the new organization.

Major E. Ward-Ashton is to continue in command of the Riding Establishment at Woolwich, on the reorganization of the regiment.

At the termination of the summer drills the following batteries will leave Aldershot, viz.:—16th Brig. B Bat., for Newcastle-on-Tyne; C and D Bats., for Hilsea; and F Bat. for Woolwich.

The will and codicil, dated Nov. 18, 1873, and Oct. 31, 1876, of Lieut.-Gen. J. W. Croggan, late of Balmoral House, Tregunter-road, South Kensington, who died on the 2nd ult., were proved on the 31st ult. by John Allen, Thomas John Croggan, and William Croggan, the nephew, the executors, the personal estate being sworn under £35,000.

The proposal of the Commander-in-Chief in India has been approved, that when officers of the Royal Artillery are removed from their batteries to officiate in the Ordnance Department, and it is known that their services will be required in that department for more than one year, they should be placed on the Supernumerary List. When, however, they are required for shorter periods, they are to be retained on the establishment of their batteries. In each case of an officer being made supernumerary under this arrangement, a separate report is to be made to the India Office.

The following appointments have been made in the Bombay Presidency:—Brevet Col. J. Spurway, 1st Brig., to command the Artillery in the Mhow Division, Col. J. C. Hales officiating until his return from leave; Col. G. A. Renny, V.C., B Brig. R.H.A. (late Bengal), to command the batteries in the Scinde District, and Col. A. W. Twiss, 8th Brig., those at Aden.

Royal Engineers.

The following announcement has been sent round to the dailies:—"The Queen has approved the following appointments:—Col. Sir W. F. D. Jervois, R.E., K.C.M.G., C.B., Governor of the Straits Settlements, to be Governor of South Australia; Sir W. C. F. Robinson, K.C.M.G., Governor of Western Australia, to be Governor of the Straits Settlements; Major-General Sir Harry St. George Ord, R.E., K.C.M.G., C.B., to be Governor of Western Australia."

Grenadier Guards. The 3rd Batn., at the Tower, have much enlivened the neighbourhood, and the carriages of visitors from the West-end have been waking up the streets leading to Tower-hill.

Coldstream Guards. The *Times* correspondent, writing from Bucharest, on the 21st inst., says:—"The Military Attachés of France, Austria, and Germany have gone to the front with sealed orders, but Col. Wellesley, the English Military Attaché, is still at Bucharest. What should have been kept quiet has unfortunately become commonly known at head-quarters—namely, that Col. Wellesley was so received by the Grand Duke on first arriving as to render his presence during the campaign very doubtful. It would be strange if the Russian military authorities could permit themselves to believe that any English officer could hold other than independent views regarding the Russian Army." A telegram to the *Morning Post*, dated Bucharest, June 26, informs us that "Col. Wellesley is awaiting the receipt of an apology from the Russian authorities. It is said that the Emperor disapproves of the conduct of his brother the Grand Duke Nicholas."

1st or Royal Scots. Lieut.-Col. Stuart, 2nd Batn., has arrived from India on leave.

8th King's. Lieut.-Col. Drew, 2nd Batn., has introduced a new mode of carrying the mess tin. It is placed on the top of the valise, and fits nicely between the lower edge of the great-coat. Both as regards looks and convenience, this new method is a very great improvement upon the old system. The men can work with more freedom, and the horrid tin-kettle like noise is avoided when doubling. The Duke approves of it.

9th Regiment. Capt. Kane, 1st Batn., has sent in his papers to retire.

17th Regiment. Lieut. Moores, who has been adjt. of the 108th during the past two years, and arrived home with his regiment a few months ago, has completed a course of musketry at Hythe, and been posted to the 2nd Batn. of this regiment for service in India.

19th Regiment. The 1st Batn. will be moved from Aldershot to Portsmouth on the conclusion of the summer drills.

20th Regiment. The 2nd Batn. is ordered to proceed from Aldershot to Portland after the summer drills.

22nd Regiment. Capt. Hamersley, adjt. of the 24th Lancashire Regiment, has been transferred to the 2nd Administrative Batn. Cheshire Rifles, vice Capt. Tollemache, 108th Regt., resigned.

25th Regiment. Capt. Higgins, 2nd Batn., is appointed to the adjutancy of the 40th Middlesex R.V.

41st Regiment. Lieut. Barnes is expected to obtain the company vacant in consequence Capt. Anley's appointment to the Royal Glamorgan Militia as adjt.

42nd Highlanders. The death is recorded, at Wells, of Capt. T. G. M. Raynes, late of the regiment. The deceased was present at the battles of Badajos, Toulouse, and Orthes, and although not actually engaged at Waterloo, was on the field on the day of that terrible encounter in command of his company.

43rd Light Infantry. A Madras paper says:—"Under orders from the Commander-in-Chief, telegraphed from Ootacamund, Capt. Pearson, at Bellary, who was lately tried by court-martial, has been released from arrest, and has resumed the command of his company."

Royal Marines.

The *Irish Times* says:—"All evidence of the malady from which Col. Sir Francis Festing lately suffered has disappeared, and he is now busily engaged again in the Royal Marine Office at Head-quarters, Spring-gardens. The illness was, we understand, the result of a weakened constitution, the effects of service on the West Coast of Africa during the Ashantee campaign."

The Admiralty have awarded medals for long service and good conduct to the following sergeants of the Plymouth Division of the Royal Marine L.I.:—12th Comp., Richard Wright, and 48th Comp., J. E. Wiloughby.

The Royal Marine School, at Stonehouse, will close for the midsummer holidays on Friday next, and reopen on Monday, the 23rd prox.

56th Regiment. Capt. Braine is arranging an exchange.

58th Regiment. The regiment will move from Aldershot to Shorncliffe at the end of the ensuing month.

60th Rifles. Lieut.-Col. Hinxman, 4th Batn., has arrived from India, on leave.

61st Regiment. The regiment will leave Aldershot for Dover after the drills.

64th Regiment. The regiment will be moved from Aldershot to Colchester for the winter.

71st Highlanders. Capt. de Lancey has left England for Malta, to rejoin the Staff of Major-Gen. Airey, C.B., as aide-de-camp.

73rd Regiment. Lieut. Thackwell has arrived home with Sir William Gregory, K.C.M.G., to whom he has acted as private secretary in Ceylon.

74th Highlanders. Capt. Simpson has been appointed adjt. of the 3rd Lanarkshire R.V. The Tanjong Pagar Dock Company, we are glad to say, have rewarded the men of the regiment in a handsome manner for their services during the first night of the fire at the Singapore wharf. In addition to granting them a sum of money to cover all the expenses to which they had been put to repair the damage done to their clothing, each sergeant engaged at the fire has been awarded a gratuity of 5 dols., and each private 1 dol.

76th Regiment. Capt. Pearse is to be placed on the Supy. List on being confirmed in his appointment as capt. instr. at Hythe, having passed six months on the Staff of the institution professionally, Lieut. and Adjt. Brett being promoted.

79th Highlanders. Capt. Miers has been appointed to the adjutancy of the 3rd Glamorganshire R.V.

88th Connaught Rangers. Capt. Owen has been recommended for the majority vacant by the retirement of Major Hall.

93rd Highlanders. Lieut. Fetherstonhaugh has been selected to act as instr. of musketry to the Antrim Rifles during their training.

96th Regiment. On the conclusion of the drills at Aldershot head-quarters and three companies will proceed to Chester, one company to the Isle of Man, two companies to Weedon, and two companies to Liverpool.

98th Regiment. The depôt will proceed with the 64th Regt. from Aldershot to Colchester next month.

106th Light Infantry. The command is falling vacant by the retirement of Lieut.-Col. Gillespie.

Rifle Brigade. Lieuts. Bathurst, Bowles, Burn, Wegg-Prosser and Russell, 1st Batn., have been noted as professionally qualified for promotion.

Medical Department. The death is announced from Singapore of Surg.-Major H. L. Randell, surg.-gen. to the Government of the Straits Settlements. The deceased entered the Army Jan. 5, 1855, and became surg.-major, Oct. 20, 1869. He served with the 62nd Regt. in the Crimea from July 4, 1855, including the siege and fall of Sebastopol and assault of the Redan on Sept. 18 (medal with clasp and Turkish medal).

THE AUXILIARY FORCES.

MILITIA.

Royal Berks assembled at Reading on Monday, and proceeded to Aldershot the same day, where it is encamped.

2nd Devon has completed its training at Plymouth. The officers who did duty were—Col. Stevenson; Hon. Lieut.-Cols. Trood, and Hayne; Capts. Pitts, Evans, Toms, Howorth, Deane, Mountsteven, de Schmid, Muntz, and Chapman; Lieuts. Scarborough and Edgar; Sub-Lieuts. Stevens, La Terriere, Keate, and the Hon. W. Y. Buller; Capt. and Adjt. Letts, and Surg.-Major Whipple. Col. F. E. Drewe, 34th Brigade Depôt, inspected the regiment previous to its dismissal, and expressed himself most pleased with its appearance.

3rd Royal Middlesex. The regiment assembled on Monday last at Turnham-green, proceeded to Aldershot the same afternoon, and is encamped on Rushmoor.

4th Royal Middlesex underwent its inspection at Aldershot on Thursday by Col. Rich, commanding 49th and 50th Brigade Depôts, who, at the conclusion, expressed himself highly satisfied at the efficiency displayed by the men, and at their smart and soldierlike appearance, which, he said, reflected great credit on officers and non-commissioned officers.

Norfolk Artillery. The regimental dinner took place on Tuesday at the Ship, Greenwich, Col. H.R.H. the Prince of Wales, presided, attended by Major Russell, and the following were present:—Lieut.-Cols. Lord Suffield, K.C.B., and Bedingfield; Majors Hon. H. Harbord, Penrice, and Count de Weyde; Capts. Mott, Alderson, Bagge, More-Lane, Partridge, and Metcalfe; Lord Hastings, Sir F. Boileau, Bart., Sir R. W. Proctor-Beauchamp, Bart.; Messrs. Keppel, Seal, Buxton, Holmes, Newcome, Pratt, Kerrison, Hare, and Preston; and Surg.-Major Aldred and Surg. Stafford. The band was in attendance.

2nd Tower Hamlets was inspected on Thursday by Col. Lord Abinger, Scots Guards, on the general parade-ground, South Camp, Aldershot. The drill and battalion movements, manual, platoon firing, and musketry exercises alike elicited praise from the inspecting officer, who highly complimented Col. Halkett, the officers, non-commissioned officers, and men on the efficiency they had displayed.

Galway assembled for training at Loughrea, musters on parade 2 field officers, 8 capts., 5 subalterns, the adjt., qrmr., surg., 27 sergts., 9 drummers, and 578 rank and file.

Kilkenny Fusiliers complete their training to-day at Kilkenny. The regiment was inspected on the 23rd by Col. Dunne, 99th Regt., who expressed himself highly pleased with the appearance of the men, also with their conduct, &c., as during the training, whilst quartered with his regiment, they had, he said, behaved very well, and he was glad such a good feeling existed between both corps, which he hoped would continue. Lieut.-Col. Daniel, commanding 2nd Batn. 18th Royal Irish, the linked battalion, was present during the parade.

Leitrim. The second majority, vacant by the retirement of Major Wyse, will not be filled up.

Wicklow Artillery, assembled for training at Wicklow, under command of Col. Cuninghame, musters on parade 2 field officers, 4 capts., 2 sub-lieuts., the adjt., surg., and 258 gunners.

The following regiments assemble for training on Monday next, viz.:—The Durham Fusiliers, at Barnard Castle; 2nd Durham, at Durham; Durham Artillery, at Hartlepool; 1st (South) Gloucester, at Gloucester; 1st Royal Lancashire, at Lancaster; 2nd Batn. 1st Stafford, at Lichfield; North York, at Richmond; Fife Artillery, at Dunbar; Scottish Borderers, at Dumfries; North Cork, at Mallow; Longford, at Longford; Louth, at Dundalk; South Mayo, at Westport; Meath, at Navan; Tipperary Artillery, at Clonmel.

The following regiments assembled for training on Monday last, viz.:—Royal Berks, at Reading (for Aldershot); 3rd Royal Middlesex, at Turnham-green (for Aldershot); East York, at Beverley; 1st West York, at Pontefract; Forfar Artillery, at Montrose; 2nd Royal Lanark, at Lanark; Donegal Artillery, at Letterkenny; Roscommon, at Boyle.

The following regiments complete their training, and will be dismissed to-day, viz.:—1st Devon, at Exeter; 2nd Royal Middlesex, at Barnet (from Aldershot); 4th Royal Middlesex, at Hounslow (from Aldershot); 1st Somerset, at Taunton; 2nd Tower Hamlets, at Victoria Park-square (from Aldershot); 3rd West York, at Doncaster; Royal Aberdeenshire, at Aberdeen; Edinburgh, at Dalkeith; Haddington Artillery, at Dunbar; Cavan, at Cavan; Clare, at Ennis; Donegal, at Lifford; Royal North Down, at Newtonards; Royal South Down, at Downpatrick; Kilkenny, at Kilkenny; Royal Limerick, at Limerick; North Mayo, at Balling; Sligo, at Sligo; Mid-Ulster Artillery, at Dungannon; and Wexford, at Wexford.

The annual dinner of the officers of the Artillery Militia took place on the 21st inst. at Willis's Rooms, Col. Lord Waveney, A.D.C., Suffolk, in the chair. Among those present were Cols. Sir R. Wallace, Bart., Antrim; the Hon. C. S. Vereker, Limerick City; Bourne, M.P., Royal Lancashire; and Turner, C.B., R.A., commanding Southern Artillery District; Lieut.-Cols. Renny, R.A., commanding Eastern Artillery District; and Reed, Northumberland; Majors Robson, Durham, and Hamilton, Northumberland; Capts. Watson, Isle of Wight; Sir Claude de Crespigny, Bart., Limerick City; Little, R.A., Royal Glamorgan; Edwards, Northumberland; Cowell, Hampshire; and Richardson, Northumberland; Lieuts. Adamson, 105th Foot (late Northumberland); Walker, Royal Lancashire; Raitt, Forfar and Kincardine; and Bill, Royal Glamorgan; Sub-Lieuts. Dobree, Suffolk; and Mr. P. G. Selby (late Northumberland), &c.

There will be no Infantry School at Aldershot next month.

YEOMANRY.

The following officers have been ordered to join an advanced class at the School of Instruction for Auxiliary Cavalry at Aldershot on Monday:—Capts. Troyte, Acland, and Sir J. Shelley, Bart., 1st Devon; and Sir G. W. H. Codrington, Bart., Gloucester Hussars; Lieut. Lord Lyttleton, Worcester; and Capt. C. G. Edwards, 2nd West York. There will not be an ordinary class in July.

VOLUNTEERS.

2nd Adm. Batn. Cheshire Rifles. Capt. Hamersley, 22nd Foot, from the 24th Lancashire Rifles, has been transferred to the battalion as adjt.

3rd Glamorgan Rifles. Capt. Miers, 79th Foot, has obtained the adjutancy.

1st Adm. Batn. Hampshire Rifles. The battalion has obtained permission to go into scarlet, with black facings, the same as its county Militia regiment.

3rd Lanarkshire Rifles. The adjutancy is filled by Capt. Simpson, 74th Foot.

19th Middlesex Rifles. Permission has been granted for the regiment to substitute a scarlet uniform for the present one of grey.

40th Middlesex Rifles. Capt. Higgins, 25th Foot, has been appointed adjt.

2nd Royal Middlesex. The appearance of the regiment at the review at Aldershot on Tuesday was most creditable to its officers and Staff, especially to Capt. Adair, whose exertions as adjt. are simply unceasing. The regiment leaves Aldershot to-day for Barnes, to be dismissed.

The selected competition for places in the English Eight this year was concluded at Cambridge on the 21st and 22nd inst., the following gentlemen being members of the team, and qualified to shoot against Scotland and Ireland for the Elcho Challenge Shield at Wimbledon next mouth:—Private Humphry, Inn's of Court; Sir H. Halford, Leicester; Major Scriven, late 25th King's Own Borderers; Col. Fenton, 2nd Lancashire; Lieut. Toller, 5th Leicester; Lieut. Piggott, Cambridge University; Martin Smith, Wimbledon; Major Walrond, 1st Devon, in waiting; and Capt. Phillipps, 26th Cameronians. The two latter tied for eighth place, but Major Walrond won on shooting off. The same gentleman tied for eighth place last year with Col. Bertram, but lost on that occasion.

A Chaplain of Twenty-two Years' Standing" writes:—"'Volunteer' has changed front. His first contention was for permission to wear 'the' chaplain's uniform, meaning, as I imagined, the uniform of the commissioned chaplains to the forces; but now he pleads for a distinctive volunteer chaplains' uniform. No one can take exception to this if, to use his own words, 'it is necessary for him to attend a certain number of parades to make himself efficient.' In fact, I suggested it in my last communication, as he will see if he will do me the honour of reading it again."

THE INDIAN ARMY.

1st Bengal Cavalry. Surg.-Major A. J. Dale, in medical charge, has been appointed depty. surg.-gen., vice Depty. Surg.-Gen. G. H. Ray, M.D.

20th Bengal N.I. Lieut. L. B. Irwin, wing subaltern, is about to be promoted capt.

37th Bengal N.I. Lieut. J. Case-Scott, qrmr., having qualified, is about to be promoted capt.

42nd Bengal N.I. Capt. A. K. Abbott, wing officer, has been granted two years' furlough to England on private affairs.

2nd Punjab Cavalry. Lieut. E. M. L. Inman, 10th Hussars, doing duty with the 3rd Bengal Cavalry, on probation, is transferred to the regiment as officiating squadron officer.

4th Punjab Cavalry. Lieut. C. G. Mansel, Bengal S.C., has been appointed second squadron officer.

2nd Punjab Infantry. Lieut. C. B. Brownlow, 17th Foot, on probation, has been transferred to the regiment as officiating wing officer from the 31st Bengal N.I.

11th Madras N.I. Surg. C. A. Harvey, in medical charge, has been granted two years' furlough to Europe.

12th Madras N.I. Col. C. Nicholls, Madras S.C., commandant, died of remittent fever on the 21st ult. Col. Nicholls commanded a detachment of one hundred men in the expedition against the rebel Nursima, served during the second Burmese war, and was present at the attack and capture of Pegu, Nov. 21, 1852; also constantly engaged with the enemy during the ascent of the Pegu River in the leading steamer; was also present with the picket which repulsed a night attack on the steamer, Nov. 12, 1852; served in the Sumbulpore district during the disturbances in 1857-58. He entered the Army Aug. 12, 1872; and became col., Aug. 12, 1873.

7th Bombay N.I. The *Times of India* believes that Lieut.-Col. L. M. Davies, second in command, has a strong claim for the command of the next vacant regiment. Although an old 26th man, in which regiment he served as adjt. and qrmr., he is likely to obtain the 28th Regt. at Rajkote.

The Army Gazette.

WAR OFFICE, PALL-MALL, June 29, 1877.

THE SUMMER DRILLS AT ALDERSHOT.

The following Order was issued on Saturday last:—

ORGANIZATION FOR SUMMER DRILLS.

The troops concentrated at Aldershot for drill and instruction will be formed into an army corps, divisions, and brigades, with Staff, from the 25th inst. inclusive. The Aldershot Divisional Standing Orders will form the basis for the orders issued by divisional commanders, and all officers are expected to make themselves acquainted with them.

Lieut.-Gen. Sir T. M. Steele, K.C.B., commanding; Capt. A. Maclean, 1st Dragoons, Capt. R. L. H. Curteis, 16th Foot, and Lieut. C. E. Swaine, 17th Lancers (extra), aides-de-camp; Col. G. B. Harman, assist. adjt.-gen.; Capt. C. F. Clery, 32nd Foot, depty.-assist. adjt.-gen.; Col. H. E. Wood, V.C., C.B., 90th Foot, assist. qrmr.-gen.; Capt. F. Cardew, 82nd Foot, depty.-assist. qrmr.-gen.; Col. C. S. Henry, C.B., R.A., commanding officer R.A.; Capt. H. Knollys, R.A., brigade-major; Col. A. C. Cooke, C.B., R.E., commanding officer R.E.; Capt. W. H. Patten, R.E., brigade-major; Depty. Commy.-Gen. A. W. Downes, C.B., depty. commy.-gen., Commissariat; Assist. Commy.-Gen. H. A. Russell, depty. commy.-gen., Ordnance; Surg.-Gen. J. McG. Grant, M.D., P.M.O.; Vet.-Surg. T. P. Gudgin, P.V.S.; T. Trout, provost-marshal; Major Durnford, R.E., director of military telegraphs.

Corps Artillery and Engineers.—Col. W. E. M. Reilly, C.B., commanding Corps Artillery. E Bat. E Brig. R.H.A., Depôt Bat. R.H.A., Army Corps Ammunition Reserve, A Troop R.E. Train, C Troop R.E. Train, Companies R.E., and Field Park.

Cavalry Brigade (Head-quarters, Cavalry Brigade Office, South Cavalry Barracks).—Col. D. C. Drury-Lowe, 17th Lancers, commanding; Lieut. M. G. Neeld, 17th Lancers, A.D.C.; Capt. R. T. Maillard, 16th Lancers, brigade-major; Depty.-Commy. F. H. Bridgman, commy., Commissariat. 1st Life Guards, 1st Dragoons, 18th Hussars, C Bat. E Brig. R.H.A.

1ST INFANTRY DIVISION.—(Head-quarters, Cove Hill Enclosure).

Major-Gen. F. C. A. Stephenson, C.B., commanding; Lieut. A. C. Knollys, Scots Guards, and the Hon. N. Dalrymple (extra), aides-de-camp; Lieut.-Col. H. B. H. Blundell, Grenadier Guards, assist. adjt.-gen.; Lieut.-Col. Lord W. F. E. Seymour, Coldstream Guards, assist. qrmr.-gen.; Capt. C. E. Phipps, 18th Foot, depty. assist.-adjt. and qrmr.-gen.; Col. T. E. Byrne, R.A., lieut.-col. R.A., Capt. A. E. Ollivant, R.A., adjt.; Col. E. C. A. Gordon, R.E., lieut.-col. R.E.; Lieut. F. Wood, R.E., adjt.; Assist.-Comy. R. H. Dundee, assist. comy.-gen., Commissariat; Depty. Surg.-Gen. Auchinleck, P.M.O.

Divisional Troops—20th Hussars, B, C, and D Bats. 16th Brig. R.A., R.E., 3rd Batn. 60th Rifles.

1st Infantry Brigade (Head-quarters, The Enclosure).—Col. the Hon. P. Feilding, Coldstream Guards, commanding; Lieut. the Hon. H. Legge, Coldstream Guards, A.D.C.; Capt. the Hon. E. H. Primrose, Grenadier Guards, brigade-major; Depty. Comy. T. S. Smith, comy., Commissariat. 3rd Batn. Grenadier Guards, 1st Batn. Coldstream Guards, 90th Regt.

2nd Infantry Brigade (Head-quarters, Brigade Office, North Camp).—Major-Gen. D. Anderson, commanding; Lieut. T. E. G. Molyneux, 22nd Foot, A.D.C.; Brevet Major R. W. T. Gordon, 93rd Foot, brigade-major; Assist.-Comy. A. B. Allen, comy., Commissariat. 1st Batn. 19th Regt., 61st Regt., 100th Regt.

2nd Infantry Division.—(Head-quarters, Prince Consort's Library Enclosure.)

Major-Gen. R. Wardlaw, C.B., commanding; Lieut. J. St. J. Frederick, 6th Dragoons, and Capt. P. E. Pope, 4th Dragoon Guards (extra), A.D.C.'s; Col. C. F. T. Daniell, assist. adjt.-gen.; Col. the Hon. J. C. Dormer, assist. qrmr.-gen.; Capt. T. Kelly-Kenny, 2nd Foot, depty. assist.-adjt. and qrmr.-gen.; Lieut.-Col. W. A. F. Strangways, R.A., lieut.-col. R.A.; Capt. F. B. Knox, adjt.; Lieut.-Col. Sir H. Elphinstone, V.C., K.C.B., C.M.G., R.E., lieut.-col. R.E.; Lieut. R. H. Jelf, R.E., adjt.; Commy. E. C. Saunder, assist. commy.-gen., Commissariat; Depty. Surg.-Gen. J. Small, P.M.O.

Divisional Troops.—8th Hussars, B and C Bats. 1st Brig. and F Bat. 16th Brig. R.A., R.E., 96th Regt.

1st Infantry Brigade (Head-quarters, Brigade Office, South Camp).—Major-Gen. the Hon. F. A. Thesiger, C.B., commanding; Lieut. W. C. F. Molyneux, 22nd Foot, A.D.C.; Capt. W. C. Hood, 2nd Foot, brigade-major; Depty.-Commy. W. H. Cristie, commy., Commissariat. 2nd Batn. 20th Regt., 58th Regt., 64th Regt.

2nd Infantry Brigade (Head-quarters, Prince Consort's Library Enclosure).—Col. J. Davis, 20th Foot, commanding; Lieut. G. F. Webster, 20th Foot, A.D.C.; Capt. C. S. Hunt, 19th Foot, brigade-major; Assist.-Commy. J. Spencely, commy., Commissariat. 29th Regt., 86th Regt., 3rd Middlesex Militia.

3rd Infantry Division (Head-quarters, Prince Consort's Library Enclosure).

Major-Gen. the Hon. L. Smyth, C.B., commanding; Lieut. the Hon. C. D. Home, Rifle Brigade, and Brevet Major F. S. Russell, 14th Hussars (extra), A.D.C.'s; Col. the Hon. E. G. Curzon, 52nd Foot, assist. adjt.-gen.; Major P. D. Vigors, 19th Foot, assist. qrmr.-gen.; Capt. G. E. Boyle, Rifle Brigade, depty. assist.-adjt. and qrmr.-gen.; Lieut.-Col. J. M. C. Vibart, R.A., lieut.-col. R.A.; Capt. J. H. Stratton, R.A., adjt.; Col. G. Graham, V.C., C.B., R.E., lieut.-col. R.E.; Lieut. S. Smith, R.E., adjt.; Depty. Surg.-Gen. McKinnon, C.B., P.M.O.

Divisional Troops—17th Lancers, D, F, and G Bat. 1st Brig. R.A., Royal Engineers, 76th Regt.

1st Infantry Brigade (Head-quarters, Brigade Office, Infantry Barracks).—Major-Gen. R. Y. Shipley, C.B., commanding; Capt. G. Barton, 7th Foot, A.D.C.; Capt. A. F. Hart, 31st Foot, brigade-major. 2nd Batn. 2nd Regt., 2nd Batn. 8th Regt. 2nd Batn. 13th Regt.

2nd Infantry Brigade (Round Hill, Rushmoor).—Col. G. F. C. Bray, 96th Foot, commanding; Capt. W. Newbigging, 96th Foot, A.D.C.; Capt. A. G. Huyshe, 49th Foot, brigade-major. 2nd Batn. 25th Regt., 49th Regt., Berks Militia.

The Royal Engineers will be considered as army corps Engineers. When divisional commanders require troops or companies, application to be made to the assistant adjutant-general. A supply of stationery will be furnished to the newly-formed offices on application to the assistant adjutant-general of the army corps. All unexpended stationery will be returned to the assistant adjutant-general at the termination of the drills.

SUMMER DRILLS.

Arrangements for first and second weeks of summer drills, commencing on Monday next, the 25th inst.:—

1st Week.—Monday.—Troops to be exercised at discretion of commanders of divisions. *Tuesday.—Corps review.* During the four following days one Infantry brigade of each division will be exercised at outpost duty, the other at "drill attack," on ground indicated in memo. of A.Q.M.G. The whole of the Cavalry will be exercised under the direction of Major-Gen. Wardlaw, C.B., and the whole of the Artillery under the direction of Col. Henry, C.B., both having reference to A.Q.M.G's memo. relative to ground.

2nd Week.—Monday.—Drill. Cavalry in division. Artillery under C.R.A. Infantry in division. Tuesday.—Parade of army corps. Thursday.—1st and 2nd Divisions manœuvre against skeleton enemy, under divisional generals. 3rd Division, Cavalry brigade, and detachment R.E. troops and companies, will march as if retiring in the presence of an enemy to a position to be indicated by the A.Q.M.G., and there bivouac, throwing out outposts. Friday.—Manœuvre of 2nd Division, with divisional Cavalry of 1st Division, corps Artillery, and detachment R.E. troops and companies, opposed to force bivouacked. Saturday.—1st Division manœuvre against opposing forces.

REVIEW.

The army corps and Militia regiments (except 3rd Middlesex and Berks) now at Aldershot will parade as strong as possible, in "marching order," at 10.30 a.m. on Tuesday next, the 26th inst., in the Long Valley. The A.A.G.'s of divisions, with markers, and officers under Staff College regulations attached to corps, will meet the A.A.G. near the flag-staff in the Long Valley at 9.30 a.m. Field states, on special form 1,222, to be sent to the A.A.G. army corps by 10 a.m. on Monday next. Attention is called to memorandum issued this day.

By order,

G. B. Harman, Col. A.A.G.

H.R.H. the Field-Marshal Commanding-in-Chief visited the Camp on Tuesday and reviewed the troops composing the army corps formed for the summer drills. The force assembled in the Long Valley comprised two batteries Horse Artillery, nine field batteries, six regiments of Cavalry, two troops Royal Engineer Train, two companies Engineers, nineteen battalions of Infantry, and four regiments of Militia, formed into three divisions. The Duke with Lieut.-Gen. Sir C. Ellice, Major-Gen. Sir D. Lysons, Col. Radcliffe, R.A., and Col. Baker, C.B., arrived at Farnborough about 9.30. On his arrival in the Long Valley, the troops gave a Royal salute. After an inspection of the lines, the divisions marched past, the Cavalry and Artillery by squadrons and batteries, the Infantry in double companies. The Cavalry and Artillery afterwards trotted and cantered past. The Duke appeared highly pleased. Some of the Infantry battalions, although nearly 1,000 strong on parade, went past with good dressing. At the conclusion of the march past the army corps was exercised for about an hour under the immediate direction of his Royal Highness. The field state showed the strength of the force to be 16,680 officers and men, 2,955 horses, and 70 guns.

It is reported at the Cape that if a colonial reserve force is organized, the command will be offered to Col. Dean Pitt, C.B., half pay, late 80th Foot, who has just vacated his appointment as depty. adjt.-gen. in South Africa.

INDIA.

Lieut.-Gen. Sir Neville Chamberlain was reported to be far from well. He had not recovered entirely from the attack of cholera he had early in the year, and he is said not always to take sufficient care about avoiding exposure on raw mornings at Ootacamund.

It has been ruled that officers commanding stations only should address the civil district officers direct, while general officers commanding divisions, districts, or brigades should themselves address commissioners of divisions and similar high civil authorities, but in addressing a civil officer in charge of a district they may do so through their Staff officers.

Lieut.-Col. G. M. Payne, Madras S.C., is about to retire on an ordinary pension of £292 per annum, with extra annuity of £205 10s.

Depty. Surg.-Gen. J. R. Miller, M.D., Bombay Medical Establishment, retires on a pension of £550 per annum for length of service, together with additional pension of £250 per annum for five years' service in grade of depty. surg.-gen., with effect from May 24.

Most people, the *Pioneer* thinks, will probably be of opinion that the Native Army organization question has been settled for the best; and all will agree that, at any rate, it is to be regarded as settled finally, whether for the best or worst. There is no more chance of the establishment of officers of a native regiment being increased to sixteen or twenty than there is of the pay of a subaltern being fixed at a thousand rupees a month. With the promised addition of an eighth officer for the musketry instruction, that part of the much-vexed question may be considered as closed. The finality of the Staff Corps may also be apparently regarded as settled; but possibly with by no means the same unanimity of concurrence. Both questions have practically been disposed of by the might of authority; but the arguments which Lord Napier and Sir Henry Norman advance in support of their opinions will probably be deemed to be of very different degrees of might. It was an easy thing to dispose of the crude proposals made in other quarters for restoring the old state of inefficiency under which the Army fell to pieces; but a more difficult one to convince the world that the Staff Corps was the best possible machinery for supplying the new reduced establishment. The strongest, and in the opinion of a good many persons, the only argument in favour of maintaining the Staff Corps, appears to be that we have got it, and that it would require some ingenuity and considerable strength of will to get rid of it.

The following officers are about to be promoted brevet colonels:—Lieut.-Cols. W. B. Girdlestone, J. F. MacAndrew, W. M. Lees, W. T. MacGregor, R. Barter, A. A. Munro, Bengal S.C.; D. Scott, A. F. Williams, W. J. Vizard, T. S. Hawks, G. R. A. Bardin, H. L. Grove, J. H. Warden, Madras S.C.; and W. R. Alexander, W. Bannerman, A. P. Chesshyre, and S. J. Thorp, Bombay S.C.

The trial of the Martini-Henry rifle was, the *Civil and Military Gazette* hears, most satisfactory. Forty rounds were fired by a company of eighty men in a body; thirty rounds were fired independently, and ten in volleys at a range of 400 yards, the target being forty-eight feet broad by six feet high. Out of 3,200 rounds fired 2,096 were hits. The men, never having fired with the rifle before, were naturally not so confident as they will be in future; and, being unaccustomed to the breech action, some of them did not manipulate the levers very expertly, but not a single rifle failed to extract the cartridge, and there was not a miss-fire. The much-talked-of "excessive recoil" proved to be the myth that all those acquainted with the subject knew it to be, not a man complaining of the "kick," though probably few of them had ever previously fired above half the number of rounds in one day with any rifle.

The vacancy in the Assam Commission caused by the retirement of Col. Bivar will, the *Englishman* understands, be given to a Bengal officer, Col. Campbell, Deputy Commissioner of Sibsagar, being promoted from the third to the second grade. During the absence of Mr. Johnson on furlough, Capt. Boyd will act as Deputy Commissioner of Kachar. Mr. Damant becomes Deputy Commissioner of the Garo Hills, in the place of Capt. W. J. Williamson, who officiates as Inspector-General of Police and Gaols.

The remains of Admiral Hon. Henry John Rous were at noon on Saturday consigned to their last resting-place in Kensal-green Cemetery. The funeral procession left Berkeley-square shortly after 11 o'clock, the mournful *cortége* consisting of a hearse and six and four mourning coaches and four, containing the mourners, namely, the Earl of Stradbroke (brother), Viscount Dunwich, Lieut.-Col. Rous, Mr. Beaumont Hotham, and Col. de Horsey, nephews of the deceased, Viscount Torrington, Mr. George Payne, Capt. H. Bonham, Mr. Micklethwait, the Right Hon. Sir Robert Peel and Mr. Young, the last mourning coach being occupied by the deceased admiral's butler and valet. In the rear followed the private carriages of the late Admiral, the Earl of Stradbroke, the Countess of Cardigan, Col. Rous, Col. Bramston, the Right Hon. Mr. Birch, the Right Hon. Sir Robert Peel, Mr. W. G. Craven, Viscount Falmouth, Viscount Torrington, &c. On reaching the cemetry the funeral *cortége* was joined by their Royal Highnesses the Prince of Wales, the Duke of Cambridge, Prince Christian of Schleswig-Holstein, and a number of the veteran sportsman's intimate friends, who had congregated to pay the last tribute of respect to the memory of the lamented officer. Among the friends present were:—Earl Granville, the Marquis of Hartington, the Earl of Hardwicke, the Earl of Rosebery, Viscount Falmouth, Lord Vivian, Lord Dorchester, Lord H. Gordon-Lennox, Hon. Col. Forester, Hon. Mr. Gerard, Hon. Fulke Greville, Sir John Astley, Sir Frederick Johnston, Sir Henry Hawkins, General Mark Wood, Mr. Henry Chaplin, Mr. Savile, Mr. W. G. Craven, &c. A wreath, composed of lilies and white flowers, and other immortelles, was placed upon the lid of the coffin after it had been lowered into the grave. The coffin was of plain polished oak. On the upper part of the lid was a shield of the deceased Admiral's arms, and a brass plate bearing the following inscription:—"Admiral the Hon. Henry John Rous, born Jan. 23, 1795, died June 19, 1877," beneath the monogram of the deceased. At a meeting of the Victoria Turf Club it was agreed that a subscription should be opened for a memorial to the late Admiral Rous, and in a very short time upwards of £300 was subscribed. This sum it is intended to devote to the purchase of a lifeboat to be stationed on the coast of Suffolk, the county in which the late admiral was born.

PARLIAMENT.

HOUSE OF COMMONS—Monday.

Artillery Majors in India.

Col. Jervis called attention to the case of the officers of the Royal Artillery and Royal Engineers in India who complain that the Indian pay and allowances of their rank were unjustly withheld, and moved that the papers relating thereto be referred to a Select Committee. The motion was supported by Col. North, Sir G. Balfour, Capt. Nolan, Sir H. Havelock, and Sir W. Barttelot, but was warmly opposed on behalf of the Indian Government by Lord G. Hamilton, who maintained that the India Office had absolute control over the pay and allowances of the Army in India, and that to allow a Royal Warrant passed in this country to carry pay and allowances in India without the assent of the Indian Secretary would be destructive of all sound principles of finance. Mr. Hardy and Mr. Campbell-Bannerman also spoke against the motion, asserting that when the Royal Warrant was drawn special precautions were taken to bar this particular claim. The motion was carried against the Government by 145 to 93. Sir G. Campbell forced a second division, which confirmed the first by 104 to 56.

Army Organization.

Mr. Holms criticised the *personnel* of the Army and our military organization, contending that, while the Estimates had increased more than a million since 1874, the Army had decreased by 4,000 odd, and that deserters and prisoners had increased. A large proportion of the recruits entered last year ought never to have been received at all. He condemned in sweeping terms Lord Cardwell's Army Reserve Scheme and the organization of the Army, and concluded by a resolution allowing at least 5,000 men now in barracks who are over thirty years of age and have had ten years' service to retire into the Reserve.

Col. Alexander characterized the resolution as feeble, and one which would have no effect but to force into the Reserve men who, having served ten years, had entered for another eleven years under the old system. The only way in which we could get a Reserve was by persevering with our present system, and he saw no reason to be down-hearted because it had not filled our ranks in the short space of seven years.

Gen. Shute said we had enlisted many "young soldiers." Sir H. Havelock urged the War Office to pass into the Reserve as many men who have served more than three and less than six years as can be spared.

Mr. Hardy remarked that the figures and information relied on by Mr. Holms had been over and over again refuted, and gave an emphatic contradiction to his representations of the condition of recruiting and the increase of desertion. He protested strongly against aspersions on the character of the Army, which operated as a strong discouragement to recruiting. No doubt our present system was a slow one, but it was only by short service that we could obtain a Reserve. This was really the first year in which the men had begun to pass into the Reserve in any numbers, and he hoped that hereafter the process would be accelerated. Including the Militia Reserve, which with a short training would be fit to take its place in the first line of defence, we had a reserve of 35,000 men, besides the 170,000 Volunteers. More than half a million of men had received a military education by passing through the ranks of the Volunteers, and the movement had evoked a military spirit in the country which would bring thousands to the front in case of need.

Major-Gen. Sir A. Kemball.

Mr. Laing asked the Under Secretary of State for Foreign Affairs whether he could give the House any information as to a statement made by the correspondent of the *Daily Telegraph* at Erzeroum, to the effect that in a recent battle near Delibaba Sir A. Kemball was in such a prominent position in the Turkish army as to have been mistaken for a general acting with their forces, and to have only escaped the pursuit of Cossacks by the fleetness of his horse. Mr. Bourke.—No report has been received by her Majesty's Government of the action near Delibaba reported in the *Daily Telegraph*, and nothing is known of the position of Sir A. Kemball during the battle. The instructions given by Mr. Layard to Sir A. Kemball when he left to join the army in Asia were that he was to report fully the course and progress of the operations undertaken by the Ottoman forces and the issues resulting therefrom. He was to exercise his own discretion in following the movements of the army in the field and in discharging generally the office of delegate from a neutral Government to a belligerent camp. He was authorized, in case of any excesses on the part of the Turkish soldiery against the civil population coming to his knowledge, to bring them to the notice of the Turkish military authorities and to use his influence to put a stop to them. Similar instructions have been given to the other British officers accompanying the Turkish armies.

Promotion and Retirement in the Army.

In answer to Major O'Gorman, Mr. Hardy said it would not have been in accordance with military discipline for officers to present to the House of Commons petitions in favour of the publication, prior to the expiration of the present Session, of the long-expected Warrant regarding promotion and retirement. If officers wished to express their opinions on the subject to the authorities, those opinions would be received.

Retirement on Full Pay.

In reply to Col. Alexander, Mr. Hardy said officers in the Army had no right to retire on full pay unless sufficient funds were available. A limited sum was granted for the purpose, and unless vacancies occurred it was impossible for officers to retire on full pay. Two majors had been reported as medically unfit for further service. One of these officers had just received full pay from the fund in consequence of a vacancy, and the other would also receive it when a vacancy occurred. (Hear, hear).

The Militia Committee Report.

Col. Naghten moved that it was inexpedient to adopt the recommendations of the Militia Committee as far as numerical titles of regiments were concerned. A wide-spread feeling existed on the subject of the territorial designation. One regiment would be termed the Tower Hamlets Regiment and another the Seven Dials Regiment. He begged to express his concurrence in the opinion of an illustrious authority, that in those things it was better to leave well alone—that where change would not be attended with obvious advantage it ought not to be had recourse to.

Mr. Stanley observed that when the Report was under discussion there was no manifestation of feeling against the change, but he was bound to admit that it gave rise to considerable discussion in the Press, and that many regiments protested against being linked with other regiments. As had already been remarked, the double-battalion system was one of the points upon which Lord Cardwell laid stress in bringing the localization scheme before Parliament. There were few countries which clung to the single battalion system so long as ourselves. The plural battalion system had previously been adopted with evident advantage by other countries, and it was when the changed conditions of service rendered it necessary to have battalions of low strength at home and of high strength abroad that Lord Cardwell resolved upon the change. It was not usual to appeal to the *personnel* of a committee, but he could do so with confidence in the present case, and he denied most positively that they were men who were insensible to the importance of preserving the *esprit de corps* of regiments or the advantages of territorial associations. They felt, however, that the double battalion system had become a necessity. The question they had to ask themselves was whether we had so many men that we could dispense with the means of making the most of them? Almost everything had to be sacrificed to organization, and grave and serious as were the changes recommended, the committee felt that they would not be performing their duty if they did not make the recommendations specified in their report. It was proposed to do away with the sub-district numbers, and to enlist for the sub-district brigade.

The Pay of Majors of the Royal Artillery.

Earl Percy called attention to the pay and allowances of majors of the Royal Artillery, who had been promised that they should be placed on an equality with majors of the Line, and were still paid only 14s. 6d. a-day instead of 16s. A major in the Line received forage allowance always, but a major in the Royal Artillery received it only at certain times. In one case, of which he had the details, an officer of the Royal Artillery had, in the course of five years and ten months, nine changes from duty in which he received that allowance to duty in which he did not receive it. He trusted that the right hon. gentleman would be able to hold out some hope that a promise which had been given by a Secretary of State and sanctioned by Parliament should be adhered to in its entirety.

Mr. Hardy remarked that the House had taken the pay question into its own hands.

Militia Quartermasters.

Mr. Price called attention to the case of Militia quartermasters with reference to their retiring allowances. His object was to ask the right hon. gentleman to take into consideration whether it was not desirable to get rid of the old and worn-out quartermasters who were still serving, and who could not be expected to retire on the present allowances. There was only a limited number of them. As matters at present stood, those old quartermasters could retire on only 4s. a-day, and be would ask whether some special allowance might not be given them as an inducement to them to leave the Service. Col. Kingscote urged the same view, adding that it would be a great advantage to the Service if those officers could retire.

Mr. Hardy said an arrangement had been practically made by which an improvement would be effected.

Forage Allowances.

Capt. O'Beirne then called attention to the injustice of compelling officers to buy and forage at their own expense horses they were compelled to keep for the public services.

Lord E. Cecil believed that in the English Service the pay of Cavalry officers was greater than that given in other countries, and that no good reason had been shown for an increase of allowance for forage or for buying horses. Since the year 1810 the forage had been almost entirely supplied by the Commissariat, and it had always been customary for officers to buy their own horses.

In Committee of Supply, on the vote of £48,600 for Divine worship, Capt. Nolan, Mr. Smyth, and Col. Alexander urged the hardship of the position of senior chaplains, who were obliged to retire at sixty years of age without full pensions.

Mr. Hardy said that though many persons who had to retire at the age of sixty felt that they were still fit for work, the thing should not be looked upon in that way only; it should be looked upon with reference to those below. Unless that was done there could be no flow of promotion.

Slavery Under the British Flag.

On Monday Mr. Anderson asked the Attorney-General, with reference to the statement that H.M.S. Rifleman had seized twenty slaves on board two British ships in the Red Sea, whether British or international law enables the Government to punish officers or owners of British ships guilty of such offences in foreign waters, and if Government is prepared to put in force such powers as they have.

The Attorney-General, in answer to the question of the hon. gentleman, stated that the Act for the Abolition of the Slave Trade provides ample means for preventing owners or masters of British ships from aiding in any way the Slave Trade, and the provisions of that statute contain very severe penalties, and remarked that should the case be brought to his attention officially, that officers or owners of British ships were guilty of violating the provisions of the statute he should recommend the Government to institute proceedings against them. (Hear, hear.)

The Inflexible.

In reply to Mr. Ashbury, Mr. A. Egerton said the Admiralty could not consent to the appointment of a Select Committee to inquire into the stability of the Inflexible. They considered that there was no doubt as to her stability, and they were prepared to accept to the fullest extent the responsibility for the ship.

In answer to Capt. Pim, Mr. Egerton said the Admiralty could not consent to the appointment of a Select Committee to inquire as to the best type of vessels for the Naval Service and the system of obtaining the most efficient designs.

In reply to a subsequent question by Mr. E. J. Reed, Mr. Egerton said he proposed to lay upon the table the report of the Director of Naval Construction, dated July 4, 1873, which was quoted by Mr. Goschen in the recent debate on the Navy Estimates, together with other correspondence and reports bearing upon the question of the stability and efficiency of the Inflexible, and the Admiralty minute stating the opinion of the Board thereon. He might take that opportunity of stating that there was a floating model of this ship at the Admiralty, and any hon. member might have the opportunity of inspecting it and obtaining such explanations as he might think necessary.

Mr. Reed said he had himself inspected that model, and it distinctly was a model in which certain stuffing was placed, which could not be removed, and one which did not represent the dangerous conditions of the ship. On the contrary, it represented a very different ship.

HOUSE OF COMMONS—Thursday.

Colonel Dawkins.

Lord C. Hamilton asked the Secretary of State for War if his attention had been called to a pamphlet circulated by Lieut.-Col. Dawkins, late Coldstream Guards, on the Half-Pay List, entitled "The Duke of Cambridge," and containing charges of the gravest character against his Royal Highness, as well as against other distinguished officers, his military superiors; and whether, having regard to the whole circumstances of Lieut.-Col. Dawkins' case, he was prepared to recommend her Majesty to dispense with that officer's further services.

Mr. Hardy: In reply to my noble friend, I may state that the pamphlet circulated by Col. Dawkins, entitled "The Duke of Cambridge," which is of a very extraordinary character, has been sent to me in common with other hon. members. On becoming acquainted with its contents I directed that a letter should be written to Col. Dawkins to ask him if he was really the author of it, because, of course, without proof of the authorship it would be impossible to proceed in the matter. To that letter no answer has yet been received. It was written three or four days ago. I am not quite aware of the fact, but I believe that Col. Dawkins is not in town. I think until I have received some communication from the person responsible for the publication of a pamphlet of such a character I ought not to take any steps.

Sir A. Gordon said he happened to know that Col. Dawkins was abroad.

Lord C. Hamilton stated that in the interests of the public service he would repeat his question on a future day.

The Volunteers in the Parks.

Mr. Coope asked the Secretary of State for War whether he was aware of the inconvenience arising from the crowds of spectators in the parks on the occasion of the drills of the Volunteers, and whether he was prepared to adopt measures to check the evil.

Mr. Hardy: I must inform my hon. friend that the parks are under the jurisdiction in some cases of their Rangers, and in others of the Board of Works. The Secretary of State for War has no jurisdiction, but in consequence of similar complaints I applied to the Home Office in 1875, and they undertook that extra police should attend on the occasions of the Volunteer summer drills if proper notice were given.

Dual Commissions.

In answer to Mr Price,

Mr. Hardy stated that there were a very few instances of officers holding commissions in two branches of the Auxiliary Forces; but in those cases special permission had been given, and the rule had not been relaxed except to the mutual advantage of the respective corps.

Designs of Ships of War.

On Tuesday Capt. Pim asked whether the First Lord of the Admiralty would now consent to the appointment of the promised Committee of Inquiry into the designs of ships of war of her Majesty's Navy without further postponement.

Mr. A. Egerton replied that, on a reconsideration of the reasons for and against it, the First Lord of the Admiralty had come to the conclusion that he would not consent to the appointment of the Committee.

Her Majesty's Ship Repulse.

On Thursday Mr. P. A. Taylor asked whether there was any objection to produce the papers detailing the circumstances which led to the command of the Repulse having been taken from Capt. F. W. Wilson by his inferior officer, Commander Vander-Meulen.

Mr. A. Egerton said the facts of the case were briefly these:—The captain of the Repulse during a passage home showed symptoms of aberration of mind, and was, therefore, invalided, and sent home in charge of the doctor, the command of the ship being taken over by the commander. It did not appear to the Admiralty that any public object would be gained by producing the papers, and, therefore, he did not propose to lay them on the table.

Gunnery Lieutenants.

Captain Price asked whether it was the case that several gunnery lieutenants were now on half pay; and, if that was so, whether, considering the expense to the State at which these officers had been trained, he would consider the propriety of appointing them as supernumeraries to the gunnery ships or elsewhere where their special knowledge might be of service.

Mr. A. Egerton, in reply, was understood to say that there were at present eight gunnery lieutenants on half pay, and that as soon as vacancies occurred they would receive appointments. It was not thought desirable to appoint them as supernumeraries to the gunnery ships.

Her Majesty's Ship Alexandra.

Capt. Pim asked the Secretary to the Admiralty whether any report had been received as to the late disturbances on board this ship.

Mr. A. Egerton, in reply, said that no further report than the one to which he had referred to some days ago had been received in connection with the late disturbance on board her Majesty's ship Alexandra. A private letter received from the Commander-in-Chief stated that he had transmitted all the information he had on the subject in his first communication.

HOUSE OF LORDS—Friday.

Colonel Wellesley and the Russian Army.

Lord Stanley of Alderley asked the noble Earl the Secretary of State for Foreign Affairs if instructions had been given to Col. Wellesley or to other British officers holding similar appointments to report any excesses committed by the Russian Army.

The Earl of Derby said no special instructions had been given to Col. Wellesley or to any other British officer holding similar appointments to report any cases of outrage or violence committed by the Russians. No special instructions as to the nature of the reports he should send had been addressed to Col. Wellesley, but it was well understood that the duty of a Military *Attaché* employed with a foreign army was to send such reports of any operations of war or such circumstances connected with the campaign as he considered would be important or interesting to his own Government. If any cases of the kind referred to came under the notice of a British officer, no doubt he would feel it his duty to report it. With regard to the instructions to Sir Arnold Kemball, no doubt the object was that he would report anything in the nature of a civil war that might break out in the country where he was employed.

HOUSE OF COMMONS.—Friday.

Colonel Wellesley and the Grand Duke Nicolas.

Sir Trevor Lawrence had the following question on the paper:—"Whether the attention of the Under Secretary for Foreign Affairs had been directed to a letter in the *Daily News*, of June 28, signed 'Veritas,' in which the writer justified the marked discourtesy shown to Col. Wellesley by the Grand Duke Nicolas by stating as follows:—'A report was laid before the Emperor of Russia, to the effect that Col. Wellesley had been in the habit of using strong and (in his diplomatic position) improper language, not only respecting the Russians, but respecting individual Russian officers, with whom he was by way of being on friendly terms. The Emperor caused Lord Augustus Loftus to be informed that, under these circumstances, he could not invite Col. Wellesley to accompany him as his guest to Kischeneff; but that if any other English officer were accredited, instead of Col. Wellesley, as Military *Attaché*, he should be most happy to extend to him every hospitality.' And whether there was any foundation whatever for the statements of 'Veritas.'" When, however, the time came for putting the question arrived, the hon. gentleman said he did not propose to trouble the Under Secretary for Foreign Affairs to answer it, as the *Daily News* had contradicted its own statement, and from which it appeared that the facts so circumstantially stated by "Veritas," turned out to be a pure fiction. (Hear, hear).

The Thetis.

On the motion of Captain Pim, copies of the log of H.M.S. 'Thetis,' from the time of her leaving Port Said until her arrival at Malta, and any report made to the Admiralty respecting the break-down of the ship, were ordered.

Officers' Remounts.

Captain O'Beirne moved for an address for returns of all horses in Cavalry and Horse Artillery that had been selected from the remounts for chargers by officers of these corps since the 1st day of January, 1870, stating the regimental rank of each officer.

The 12th Lancers dined at Willis's Rooms on Saturday last Present: Lieut.-Col. Paley, Majors Whittingstall, Idry, and Orred; Capts. Barry, Buttanshaw, Fox-Dowdeswell, Gower, Hodge, Hamilton, L. Martin, Pronger, Stephens, Bond-Shelton, and Allen; Messrs. Beck, Cox, Thompson, Williams, Lagart, and Chichester; D. White, Mr. Steele, &c.

The following officers were present at the annual Staff College Dinner, at the Pall-Mall Restaurant, on Thursday night; H.R.H. the Field-Marshal Commanding-in-Chief presided:—Lieut.-Gen. W. C. E. Napier; Major-Gen. Sir P. L. M'Dougal, K.C.M.G.; Col. Hamley, C.B., R.A.; Col. Middleton; Col. the Hon. W. H. A. Feilding, Coldstream Guards; Col. Evelyn Wood, V.C.; Col. Clive, Grenadier Guards; Col. T. D. Baker, 18th Foot; Lieut.-Col. Home, R.E.; Lieut.-Col. Goodenough, R.A.; Lieut.-Col. Lynch, 10th Foot; Lieut.-Col. Barker, 64th; Lieut.-Col. Schaw, R.E.; Major Maxwell, Major Crealock, 95th; Major Duncan, R.A.; Major Lloyd, 16th; Major Elles, 38th; Major Butler, 13th Hussars; Major Montgomerie, 20th Hussars; Capt. Gosset, 54th; Capt. J. W. Hozier, 2nd Dragoons; Capt. C. K. Brooke, 15th; Capt. Clayton, R.A.; Capt. Collen; Capt. Kelly-Kenny, 2nd; Capt. Grover, R.E.; Capt. Lloyd, 82nd; Capt. Clarke, R.A.; Capt. Hitchcock, 53rd; Capt. Hamilton; Capt. Ardagh, R.E.; Capt. Moorsom, R.A.; Capt. Knollys, R.A.; Major Boyle, R.A.; Capt. Cooper King, R.M.A.; Capt. Flower, 86th; Lieut. Hare, R.E.; Lieut. Buxton, 87th; Lieut. Brunker, 26th; Lieut. James; Lieut. Courtenay, 35th; Hon. W. FitzWilliam Elliot; Dr. Atkinson; and Lieut.-Col. Acton, 51st.

Count Adlerburg, Aide-de-camp General to the Emperor of Russia, has, at the Czar's desire, addressed the following telegram to Field-Marshal Count von Moltke in his capacity as colonel of the 69th Rjazan Regiment:—"Plojesti, June 24.—By order of his Imperial Majesty, I have the honour to report to your Excellency that the duty of crossing the Danube near Galatz, on June 22, was assigned to your Rjazan Infantry Regiment, which was the first detachment of the Russian Army to tread hostile soil, and after a glorious fight to obtain the first decorations of the Order of St. George for officers as well as men."

We (*Globe*) are assured that the telegram transmitted from Vienna to a contemporary, to the effect that six Russian men-of-war are shortly to be launched at Cronstadt, is entirely devoid of foundation. The report probably arose from the fact that at the present moment there are in Cronstadt Mole six ironclads awaiting orders to proceed to the Mediterranean. No men-of-war are at present under construction at Cronstadt nor yet any other vessels of importance, except a few steam launches for the Black Sea. The dockyards at St. Petersburg have likewise no steamer of importance on the stocks. Plans are being prepared at the Admiralty for an ironclad superior in strength to the Inflexible, but with the fact before us that Peter the Great, after seven years' unremitting exertion, is still unready for sea, no fears need be entertained of the future rival of that vessel. Owing to the empty condition of the exchequer, the Russian Government is unwilling to seek an extension of the Fleet until the conclusion of the war. In the meantime the whole energies of the naval authorities are being concentrated upon the refitment of those vessels already afloat, and upon the preparation of stores for the Black Sea ports. A naval brigade, consisting of several hundred men, has already reached the Danube, and further detachments are to be sent from Cronstadt as soon as they are wanted.

Original Sketches in Pen and Ink of Life and Scenery in the Colonies. "Down the Murray; from its Sources to the Sea." Such is the title of the Illustrated Supplement which will be published in the number of *The Colonies and India* to appear on July 7.

NEW HUSSAR BOOT.—Officers of Hussars should not give their orders before seeing the Boot now making by STOKES, 28 and 29, Coventry Street, Haymarket, the only recognised Cavalry Boot-maker in the Kingdom. Jack Boot maker to the 1st Life Guards, 4th, 7th, 11th, 13th, 14th, and 18th Hussars, 3rd Dragoons, 9th, 12th, and 16th Lancers, and Royal Artillery. Contracts taken for men's boots at Government rate, or regimental boot-makers supplied with legs.

OUTFITS FOR INDIA AND THE COLONIES.

DETAILED LISTS of the necessary Outfit, with prices, &c., for every Climate and Appointment will be forwarded on application to

ESTABLISHED 1786.

COLT'S NEW GOVERNMENT ARMY REVOLVER.

After a severe competitive trial by the U. S. Ordnance Department in 1873 and 1876, has been exclusively adopted by the United States Government, and the whole of the United States Cavalry is now armed with them. It is made to take the 45-cal. regulation Service cartridge, and AMMUNITION FOR THEM MAY BE OBTAINED FROM THE STORES OF AN ARMY IN THE FIELD.—See General Orders, May, 1877.

Length of barrel 5½ inches and 7½ inches.

In the competitive trial at the Royal Arsenal, Woolwich, in 1869, advertised by another maker, the Colt's pistol used was a muzzle-loader adapted to the use of metallic cartridges, which pistol has not been made or sold after that year.

COLT'S 41-CAL. DERINGER REVOLVER
COLT'S DERINGER FOR THE VEST POCKET.

Army & Navy Gazette.

◆

LONDON, SATURDAY, JUNE 30, 1877.

Whilst the Corps of Special or General Correspondents which follows the fortunes of the Russian Army was enjoying the pleasures of Bucharest—described in Murray thus: "It is the most dissipated city in Europe and the residence of a British Consul-General"—and was under surveillance, we could not get much news from the left bank of the Danube; but, once the passage is accomplished, there will be full details forthcoming, as long as the results are favourable to the Russians. They can hardly be otherwise than favourable. No doubt, in such an operation, there may be reverses, and even serious losses, at some points, but we dismissed as fables the report that the Russian military authorities were prepared for a loss of 30,000 men in crossing the river. Such a loss would be more than the decimation of their Army, and the story was, no doubt, set afloat to impress the world in general, and the Turks in particular, with the notion that the Russians are in such force as to regard a sacrifice of 30,000 men as a bagatelle in comparison with the magnitude of the object to be accomplished. The "unquiet man" at the head of the Staff, who, as far as we know, represents profound repose, must be a master of the arts of dissimulation and of simulation, and he must have had some moments of placid enjoyment at the manœuvres of the Corps of Correspondents, who, *numerotès* like a certain class of the other sex in Paris, and badged as if they were shoeblacks, were allowed to record that there had been raids across the river, and that one battery had fired on another across the fast falling and anything but blue Donau, which hitherto barred the march of the Muscovite into and through Bulgaria. The position of these gentlemen hitherto was certainly unenviable. In Asia Minor Sir Arnold Kemball has been hunted by Cossacks, and has, with his Staff, narrowly escaped, so that the apprehension we expressed on the score of his safety was somewhat justified. Shell and shot are no respecters of persons, and in a Cavalry pursuit sabre and lance are apt to lose powers of discrimination. Under all the circumstances, it would be better for the Government, in our opinion, to order British officers over whom they have control to retire from the head-quarters of the belligerents. From the outset it was plain that in Asia Minor the Turks had small chance of ultimate success. The Armenian population are hostile to them. Their subject races are against them. Even their co-religionists are unfaithful. Their troops are badly armed and composed of bad materials, and the fall of Kars and the loss of Erzeroum are, we believe, only questions of time. Mukhtar Pasha's dispositions, as recorded by the military correspondent of the *Times*, reveal the most stupendous incapacity and ignorance of the military art, and the accounts we receive of the manner in which Ardahan was captured, whilst doing full justice to the gallant Prussian renegade who defended the advanced works, show that even the personal courage of the Turks in Asia Minor has been low. It seems to us that Erzeroum is likely to fall before Kars surrenders, and that both places will be in the hands of the Russians shortly. With them the whole of Armenia passes into the possession of the Muscovites, and there will only be Batoum and Trebizond left to the Turks as posts of escape. It will depend on the progress of the campaign in other quarters if the Russians pursue their enemy further south, and we fail to see how the Turks can take up the new line of defence suggested to them, and how they can make Samsoon and Sivas the bases of operations.

It is just possible that the ordinary rule of seniority may be broken through in the case of one of the Colonels coming forward for promotion to the establishment of General officers. There is no need for us to particularise; suffice it to say that the case is being fully discussed.

Although there is an open work of some strength called Fort Paul, about seven miles below Hull, the defences of the Humber are in a very poor way, and may be described mostly as "natural." We learn that the attention of the authorities has been directed to this state of defencelessness, and that Major-General de Bathe was engaged last week in selecting ground for the site of a regular work near Spurn Head, and that he examined the river in the steam launch of H.M.S. Endymion for the purpose.

They say that when Lord Odo Russell was asked by Prince Bismarck why England had annexed the territories of the Transvaal Republic, he replied that he supposed it was to secure our communications with India—which was as good an answer as another.

The excellent idea of Colonel Burnaby, to entertain the Guardsmen who served in the Crimea in the Tower the week before last, caused great satisfaction to the officers of the brigade, and we hope it will not be lost sight of, and that others will follow the precedent, so that such annual gatherings will be the rule. Those who have seen the Guards under arms recently are of opinion that they have recovered the high standard which distinguished the splendid battalions which set out for Malta in 1854, and which was lowered by the terrible and glorious trials of the Alma, Inkerman, and the winter to such a pitch that it was many years before they could approach near it again, we were glad to see that there are so many officers left in the prime of life still to the fore to lead their men as in times gone by. We understand that the Prince of Wales and the Duke of Cambridge highly approved of the gathering, and that the entertainment was in every way a success.

The establishments at Woolwich do not exhibit unusual activity; but the gun factory, under the intelligent direction of Colonel Younghusband, is steadily at work turning out *matériel* for all branches of the Ordnance. We are glad to hear that Brigadier-General Campbell is utilizing the fine stores of large Armstrong breech-loaders by employing them in coast defences and batteries. There are five of the 80-ton guns complete, and others are advanced, and the stores of 35-ton and 25-ton guns are considerable, notwithstanding the dispatch of many of these powerful weapons to Gibraltar and Malta, in addition to those which have been mounted nearer home.

We cannot place credence in the report prevailing with respect to the Promotion and Retirement Warrant, *i.e.*, that the Secretary of State for War is fearful of laying the document before the House of Commons. It is easy to understand this timorous diffidence in humble positions of State. The advice of the Irish farmer to the timorous fox-hunter halted on the wrong side of the five-barred gate, "Throw your heart over, sir, that's all ye need do," has been found before now to act with bracing effect on shattered nerves. Should the exhausting breezes of Pall-Mall have produced a demoralizing effect on its present chief, we strongly recommend the above advice to his most serious consideration, and would counsel him to throw his heart over, and make a "lep" of it. Pluck and energy find favour all the world over, and the horse "Good Cause," on which the right honourable gentleman is mounted, is a mighty general favourite; it rarely refuses.

It would almost seem as if the gentleman who prepared Mr. Hardy's reply to Captain Nolan's question last Monday was ignorant of the working of the system of promotion in the Chaplains' Department, for it is certain that it misled many in the House. The right hon. gentleman is reported to have said that unless there was retirement among the senior Chaplains there could be no promotion for juniors. It so happens that promotion takes place in the Chaplains' Department on the same principle as it does in the Indian Staff Corps, by length of service, and the different classes and extra pay are succeeded to whether there are retirements or not.

The roughs who congregate in the parks are no respecters of persons. Last Saturday evening, after inspecting the London Rifle Brigade, H.R.H. the Field-Marshal Commanding-in-Chief attempted to address the corps. But after endeavouring for some time to make himself heard, he was obliged to give up, for the crowd which had congregated prevented his doing so, and his Royal Highness had to close his speech abruptly and ride off the ground. It is very disgraceful that this should be so. What are the police doing to allow such things? Our remarks last week upon the subject have led to notice being called to the subject in the House. Mr. Hardy's reply, however, cannot be considered quite satisfactory. It seems that when Volunteer commanding officers apply for police assistance an inspector and eight mounted policemen are told off to keep the ground. But what are eight men against as many thousands? No wonder the mob gets the upperhand.

His Royal Highness the Duke of Connaught's name has to be included in the list of military inventors. His Royal Highness has submitted more than one of his ideas for the consideration of the Horse Guards, but has not yet succeeded in getting his articles put upon trial. His intentions are none the less commendable, for it shows how great his interest is in his profession.

Two Militia regiments—the Royal Berks and 3rd Royal Middlesex—are, it will be seen, included in the organization of the army corps concentrated at Aldershot for the summer drills. We have often expressed our opinion that it is a mistake to employ Militia regiments out for training in this way; and considering there are many Line battalions stationed within easy distance of Aldershot which the month's work would have benefitted, it is a pity these two Militia corps have been selected in preference. They must either be struck off field duties altogether or else time will be occupied in carrying out movements in brigade which ought properly to be devoted to the practice of squad, company, and battalion drill. They are, in fact, expected to run before they can walk, and the month's training is calculated to do them even more harm than good.

There are two field kits for sick-bearers and medical attendants being tried by the Army Service Corps at Aldershot—one the invention of Surgeon-Major Oliver, M.D., and the other of an officer doing duty with the corps.

It is now definitely arranged that the following regiments shall form the winter garrison at Aldershot, viz.:—Cavalry Brigade, 1st Dragoons, 16th Lancers, 18th Hussars; 1st Infantry Brigade (South Camp), 2nd Battalion 25th Foot, 31st Foot, 49th Foot, and 76th Foot; 2nd Infantry Brigade (Infantry Barracks), 2nd Battalion 4th Foot, 41st Foot, and 86th Foot; 3rd Infantry Brigade (North Camp), 26th Foot, 29th Foot, 3rd Battalion 60th Rifles, and 90th Foot. The regiments to leave the station after the drills will be the 1st Life Guards, 17th Lancers, and 20th Hussars, 3rd Battalion Grenadier Guards, 1st Battalion Coldstream Guards, 2nd Battalion 2nd Foot, 2nd Battalion 8th Foot, 2nd Battalion 13th Foot, 1st Battalion 19th Foot, 2nd Battalion 20th Foot, 58th Foot, 61st Foot, 64th Foot, 96th Foot, and 100th Foot.

Report says that the idea of a sweeping reform—as at first proposed—finds no favour with the members of the Committee now sitting at the War Office to inquire into the organization of the Administrative Departments of the Army. A return to the very practical system which was the result of our somewhat dearly purchased Crimean experience would seem to be the more probable expectation must not, however, be high in the air. An expression of the late Emperor Napoleon III. is, perhaps, the most applicable, "All may yet be well."

A pattern helmet for use in the United Kingdom has, as we lately stated, been approved. It will be issued in the first instance to two battalions of Infantry and one battery of Royal Artillery, and if reported favourably upon will be generally adopted.

The new patrol jacket, issued to the 17th Lancers for trial, is spoken so highly of that its adoption may be regarded as certain. Its inventor is a young officer of Hussars whose name has previously been before the authorities in consequence of his labours in the same direction, and whose zeal is deserving of recognition.

The Volunteers are showing a disposition to accede to the wishes of the War Office as regards uniform, and a number of applications have been made lately for permission to discontinue the grey and the green tunics in favour of others of the national colour. Among other regiments now in a "transition state" may be mentioned the 1st Administrative Battalion Hants, 1st Administrative Battalion Leicester, 19th Middlesex, 3rd Norfolk, 1st Administrative Battalion Somerset, 1st Administrative Battalion East York, 1st East York, and 4th Administrative Battalion West York. All these have notified their intention to issue no more uniforms of the former colour.

The promotions in the Commissariat and Transport Department, made in direct contravention to the terms of the Warrant, and which we said a fortnight ago the War Office had had its attention drawn to, are causing that department some little uneasiness, as it does not quite see how to get over the difficulty, for rank once conferred cannot well be taken away again.

It was suggested by the Royal Commission on Promotion and Retirement that General officers should be placed on the Retired List on attaining the age of sixty-five. The War Office Committee to which the subject was referred has considered it desirable to extend the limit for five years.

The Navy.

GAZETTE.

Admiralty, June 22, 1877.

In accordance with the provisions of her Majesty's Order in Council of Feb. 22, 1870, and April 30, 1877, Chief Engineer William Pitt has been placed on the Retired List, and has been permitted to assume the rank and title of Inspector of Machinery.

Royal Marines—The undermentioned promotion, dated June 16, 1877, has taken place in the Royal Marine Artillery, viz.:—Lieut. John Le Cocq Robilliard to be Captain, vice Lillicrap, placed on half pay.

June 23.

Royal Marines—The following promotion has taken place in the Royal Marine Artillery, viz.:—Lieut. Evelyn James Wheelock Noble to be Capt., vice B. G. Hall, made Supy. on appointment as Instructor in Tactics, &c., at the Royal Military College, Sandhurst; June 21, 1877.

June 26.

Staff Surg. William Harris Lloyd, M.D., has been promoted to the rank of Fleet Surg. in her Majesty's Fleet, with seniority of May 31, 1877.

June 28.

In accordance with the provisions of her Majesty's Order in Council of July 21, 1876, the undermentioned Commanders on the Retired List have been allowed to assume the rank and title of Retired Capt. from the 24th inst.:—Commanders Richard Henry Roe, Hon. George FitzClarence, Henry Charles Burleigh.

In accordance with the provisions of her Majesty's Orders in Council of Feb. 22, 1870, and April 30, 1877, Chief Engineer Joseph J. Greathead has this day been placed on the Retired List of his rank.

APPOINTMENTS.

Captain—Richard Carter, to the Volage, vice Fairfax.

Commanders—Walter Stewart, to the Ganges, vice Byng, invalided; Robert S. Hunt, to the Thistle, vice Pusey, invalided.

Lieutenants—Edward R. B. Stephens, to the Rifleman; Thomas Hadley, to the Raleigh; Herbert Swire, to the Flamingo.

Sub-Lieutenants—Charles H. Coke, Charles E. Kingsmill, and Paul W. Bush, to the Victoria and Albert; H. E. Rooper, to the Thunderer; A. E. Rawnsley, to the Black Prince; Edward Hunt, to the Active; F. W. Gunn, to the Squirrel; T. R. Grant, to the Diamond; A. H. Ravenhill, to the Flamingo; R. A. Gwynn, to the Bellerophon; W. H. Gale, to the Defence; Cortland H. Simpson, to the Ruby; Frederick J. Fegen, to the Research.

Navigating Sub-Lieutenant—Arthur Roughton, to the Research.

Midshipmen—Percy J. Elliott, Frederick J. C. Norman, Alfred E. Tizard, and Logan S. Stanfeld, to the Ruby; Frederick H. Eagles, Edward H. Martin, William B. May, and Edward B. T. Hall, to the Minotaur; Edward L. Lowdell, Richard G. Fraser, Julian A. C. Wilkinson, Roderick L. Mayne, Robert L. H. Armstrong, and Henry W. V. Elliott, to the Achilles: Charles J. Briggs and Henry G. Porter, to the Defence; Charles E. Rushworth and Thomas F. C. Dundas, to the Black Prince; Stuart D. Gordon, to the Swiftsure; William V. Howard and Arthur E. Harford, to the Research; Richard H. Story, to the Pallas; Hugh F. Daubeny, to the Alexandra; James De C. Hamilton, to the Ruby.

Surgeon—Richard G. Brown, to the Excellent.

Assistant-Paymasters—Colin C. Wilson, to the Lord Warden, to join on her return from Queen's Ferry; Alfred W. Askham, to the Penelope; George H. Bradley, to the Hart (in charge), the appointment of Mr. Daunt having been cancelled.

Chief Engineer—John Bruce, to the Urgent.

Engineer—Thomas Bramley, to the Bellerophon; John Kimber, to the Excellent, additional; Hugh Burstow and John M'Carthy, to the Flamingo.

Achilles, Capt. Sir W. N. W. Hewett, K.C.B., V.C., is expected to return to Queenstown on July 5. She will call at Bantry Bay to-morrow for letters.

Albatross, Com. E. Rice, was at Panama when the mail left.

Alexandra, Capt. R. O'B. FitzRoy, flagship of Vice-Admiral G. T. P. Hornby, was at Phalerum Bay on June 17. The Admiral put to sea on the 18th in the Alexandra, with the Swiftsure, Pallas, Sultan, Raleigh, and Devastation, and cruised to Nauplia, and has reported by telegram that the squadron returned on June 23.

Ariel is undergoing repairs at Chatham, and opportunity will be taken to effect some improvement in the ventilation of the decks, her late crew having been put to much suffering on account of excessive heat. A portion of the planking on her sides will be removed, and perforated plates substituted, which will enable the hot and foul air to be carried direct into the funnel.

Assistance, Capt. Prattent, left Portsmouth for Kingstown on the 25th inst. She arrived at North Wall, Dublin, on the 27th inst. at 2 p.m., and left on the 28th for Greenock.

Aurora, Capt. H. D. Grant, Coastguard ship at Greenock, arrived at Plymouth on Monday. Her officers and crew are to be turned over to the Agincourt. She will be ready to pay off on July 14, and the Agincourt can be commissioned on the following day.

Avon, Com. C. Keppel, was at St. Helena by last accounts, and will be sent to Ascension and Accra.

Bellerophon, Capt. J. A. Fisher, flagship of Vice-Admiral Sir A. C. Key, was at Halifax on June 11, having left Bermuda on the 6th, with the Argus in company, and arrived at Halifax on the 11th inst.

Bittern, Com. G. J. Anstruther, arrived at Piræus on June 21.

Black Prince, Capt. E. H. Howard, flagship of Rear-Admiral W. M. Dowell, C.B., is expected to return to Queenstown on July 5. She will call at Bantry Bay to-morrow for letters.

Boxer, Com. A. H. Alington, is to be sent to the South Coast Division of her station.

Bullfinch, Com. R. M. Lloyd, arrived at Nassau on May 9.

Charybdis, Capt. T. E. Smith, after recommissioning and refit, will be sent to relieve the Juno, at Singapore, and send her to Shanghai.

Contest, Lieut.-Com. G. W. Allen, was at St. Helena by last accounts, but orders have been sent to her to proceed to Bermuda.

Cygnet, Lieut.-Com. R. F. Hammick, after staying three weeks at St. Helena, is to proceed to Ascension, unless orders to the contrary are received from England.

Danae, Capt. J. C. Purvis, is to remain on the West Coast as senior officer, the Sirius having left for Devonport.

Daring, Com. Hanmer, arrived at San Francisco on April 12, and was to leave on the 15th for Esquimalt.

Defence, Capt. R. P. Cator, is expected to return to Queenstown on July 5. She will call at Bantry Bay to-morrow for letters.

Dryad, Com. J. E. Stokes, left Bermuda for Jamaica on June 4.

Eclipse, Capt. G. E. Erskine, was at St. John's on June 8. She will visit the south-east coast of Newfoundland, and arrive at Sydney, Cape Breton, about July 25.

Egeria, Com. A. L. Douglas, left Yokohama on April 13 for Petropaulovski; she would be back at Hakodati by the beginning of June.

Elk, Com. A. Tupman, left Madeira on June 20 for Brazils.

Encounter, Capt. R. Bradshaw, has been ordered to Jamaica. After the arrival of the Urgent she will join the flag at Halifax.

Eurydice, Capt. Marcus A. S. Hare, arrived at Madeira on June 20, and was to leave for Queenstown on the 22nd.

Fantome, Com. T. M. Maquay, was at the Sandwich Islands by last accounts.

Flamingo was commissioned at Devonport on Tuesday by Com. W. H. Hall, for service in the Mediterranean.

Foam, Lieut.-Com. R. W. Hope, arrived at Port Madryn, in the Gulf of Nuavo, Patagonia, on May 9. On the banks of the Chupat, which runs into the Gulf, there is a Welsh colony, containing a population of 700, and which is only visited occasionally. When the Foam arrived the colony was found to be greatly embarrassed in consequence of a failure in the crops. The colonists are also much harassed by the Indians. The Foam arrived at Monte Video on May 15, having sailed nearly the whole distance under a stiff breeze, the vessel making 8½ knots. She was expected to remain at Monte Video until May 20, and would then proceed on a cruise to Buenos Ayres, Colonia, Paysandu, and Rosario.

Helicon, Lieut.-Com. R. W. Stopford, was at Constantinople by last accounts.

Himalaya, Capt. E. White. The following telegram has been sent to Messrs. Clay Inman by the Admiralty:—"Defects having appeared in crank shaft supplied by you for the Himalaya, troopship, the Devonport engineer officers have stopped the completion of the same, and wish you to see it before anything more is done. Communicate with the Admiral Superintendent at Devonport on the subject." The old shaft having been taken out, this will probably have the effect of detaining the ship for several months. When brought in for repair, she was ordered to be completed and ready for sea by Tuesday.—*Western Daily Mercury*,

Impregnable, Capt. W. H. Edye, was inspected by the Commander-in-Chief at Devonport, Admiral Sir T. M. C. Symonds, K.C.B., on Saturday.

Iris, steel dispatch-vessel, is being rapidly completed, and, it is expected, will be ready to leave for completion at another yard in September.

Jackal, Lieut.-Com. H. A. Digby, was to leave Oban on the 26th inst. for Granton, where she should arrive on July 2. Letters should be addressed to Granton till further notice.

Kestrel, Com. C. B. Theobald, was at Hankow by last accounts.

Lord Warden, Capt. the Hon. E. R. Fremantle, C.B. From the following information which the *Western Morning News* has had communicated to it, it would appear that the escape of the ship from collision with the Resistance was due to the readiness with which she was handled. A letter from the ship says:—"A thick fog dropped upon our fleet, which was steaming at the time in two lines abreast, the leading ship of the weather line being, of course, the Minotaur, and that of the lee the Black Prince. The Lord Warden was the fourth ship in the lee line, having immediately a-head of her the Resistance. Once in the fog we lost sight of everything, but guns and fog whistles were kept pretty constantly going. All went well until a quarter to 10 p.m., when the Lord Warden suddenly found herself bearing rapidly down on lights which had sprung out of the gloom on the port bow. The look-out immediately reported 'Lights on the port bow,' and in another minute 'Lights on the starboard bow,' and then 'Lights right a-head' were called, followed by a shrill cry of 'They're getting closer, sir.' Those on board the Lord Warden then saw the full outline of the Resistance scarcely fifty yards off, on the starboard bow. Meantime, from the first sighting of the light a-head, the Lord Warden had been going full speed astern, to which only may be attributed the prevention of another ironclad catastrophe equal, if not surpassing, that of the Vanguard." The Lord Warden will call at Berehaven to-morrow for orders, and will shortly proceed to Portsmouth for docking.

Mallard, Lieut.-Com. Warry, was to go about June 14 to St. Helena to give leave, thence to Ascension and Accra.

Modeste, Capt. A. Buller, C.B., when ready, will return to Japan from Hong Kong.

Monarch, Capt. M. Culme-Seymour, is paying off at Chatham. Capt. Culme-Seymour has been selected for the command of the Temeraire, and has arrived at Chatham to superintend the fitting of the vessel. She will be ready to pay off on July 7.

Minotaur, Capt. Lord W. T. Kerr, flagship of Vice-Admiral Sir Beauchamp Seymour, K.C.B., is expected to return to Queenstown on July 5. She will call at Bantry Bay to-morrow for letters.

Orontes, Capt. Edward H. Seymour. According to a correspondent who writes respecting the break-down, the machinery did not work satisfactorily from the first, and there was a considerable amount of thumping and noise. The hydraulic starting gear broke down completely, and the engines were, consequently, useless. On opening out the cylinders it was discovered that the metallic rings and springs of the high-pressure piston were broken to pieces. The cracked crank-pin still remains, and although an outer thrust bearing was placed at Portsmouth it has not relieved the old thrust, indeed the thumping of the screw was worse on the passage round from Portsmouth than it has ever been. She arrived at Queenstown on the 24th, and left the same day for the Cape, her machinery working well.

Osprey, Com. the Hon. Henry Holmes A'Court, arrived at Madeira on the 12th, and was to sail when filled up with coal. She left on June 14.

Pallas, Capt. H. H. Beamish, was expected at Phalerum Bay on June 18, having been relieved by the Torch at Salonica.

Pert, Com. H. C. Aitchison, will visit the coast of Labrador, &c., and return to St. John's by Aug. 4.

Plover, Com. H. B. Stewart, has been employed in taking sounding, for the telegraph cable between Jamaica and Cuba, but has returned to Jamaica, having lost her sounding gear.

Raleigh, Capt. Jago, joined Admiral Hornby's flag on the 2nd inst.

Research, Capt. H. Earle, after refit at Malta, will relieve the Hotspur at Port Said.

Resistance, Capt. S. Douglas, is expected to return to Queenstown on July 5. She will call at Bantry Bay to-morrow for letters.

Rocket, Lieut.-Com. C. R. Harris, was at Esquimalt by last accounts.

Rover, Capt. T. Barnardiston, has been ordered from Jamaica to Barbados as senior officer. She was on the coast of Cuba on June 9, but expected at Jamaica within a week.

Rupert, Capt. W. E. Gordon, C.B., will join the flag of Admiral Hornby at once if her trials are satisfactory.

Salamis, Com. F. W. Egerton, arrived in the Piræus on June 11, from the Greek Islands, having on board Lieut.-Col. Bevan Edwards, C.B., R.E., where she is reported to have been on a special mission. Col. Edwards left for England. The Salamis has gone to Malta for repairs.

Seagull, Com. Maxwell Heron, had orders to bring the treaty with Dahomey to Lagos when signed.

Shah, Capt. F. G. D. Bedford, flagship of Rear-Admiral de Horsey, was at Arica on May 22.

Sirius, Capt. G. L. Sulivan, left Lagos for Devonport on May 24, on arrival of the Danäe from Sierra Leone.

Spiteful, Com. A. T. Powlett, now paying off at Portsmouth, was commissioned at that port on July 31, 1873. She first served on the coast of Spain during the Spanish insurrection, and next proceeded to the West Coast of Africa, where she chiefly remained until ordered home. Whilst there she was actively employed in the suppression of piracy at Congo, taking part in the destruction of the piratical villages, and subsequently she commenced the blockade of Dahomey. She left Whydah on her return passage on April 24, reached Sierra Leone on May 6, and started again on the 9th. Strong head-winds afterwards prevented the Spiteful visiting St. Vincent, and call was therefore made at Dakar, in the province of Senegal, where coal was taken in, and a stay of three days made. Afterwards the winds proved unfavourable and the north-east winds failed, at the same time that there were several break-downs of the machinery, the Lizard was only sighted on the 18th inst.; at 4 o'clock on the following morning the Spiteful anchored off Yarmouth, being unable to make headway against the tide, her boilers giving way. At half-past 10 steam was got up, but the boilers became perfectly useless, water leaking from them freely. The fires were drawn, and the ship had to come up under sail with flood tide. Throughout the commission the crew have enjoyed unusually good health, and only three deaths have occurred. All were cases of drowning, one at Natal, and the other two in the river Congo, after the 1875 expedition.

Swallow, Com. John B. Warren, left Madeira on June 12.

Temeraire. The preliminary trial was most successful. Two runs were made, one at full-boiler power, and the other at half-power. On both occasions the engines worked smoothly, and gave every satisfaction, the vessel making over fourteen knots at full power. Altogether the engines gave great satisfaction. The officials on board included Capt. Soady, in command of the Medway Steam Reserve; Thomas L. Eames, Chief Inspector of Machinery Afloat at Chatham; Thomas S. Murray, Chief Inspector of Machinery in the Reserve. There are one or two new features in the vessel which were fully tested at the trial, and which are worth mentioning. The chief of these is the steam steering apparatus. It worked well for some time, but when the vessel was at full speed the apparatus had not sufficient power over the rudder. This will be remedied before the vessel proceeds to sea. The paragraph published by several daily papers that the steering apparatus had broken down, the trial brought to an abrupt termination, and that it would take a fortnight to make good defects, is incorrect. The Teméraire made her official trial on Wednesday at the measured mile off the Maplin Sands, amongst the officers on board being the Controller of the Navy, the Director of Naval Construction at the Admiralty, the Admiral Superintendent of Chatham Dockyard, the Engineer in Chief at the Admiralty, the Inspecting Officer in the Department of the Controller of the Navy, Capt. J. C. Soady (of the Medway Steam Reserve), the Chief Constructor at Chatham. The contractors were represented by Mr. R. Humphrys. The result of the trial exceeded all expectations. From first to last everything passed off most smoothly, and, as upon the preliminary trial, there was an entire absence of hot bearings. The average speed made amounted to nearly fifteen knots per hour. She has twin-screw engines, each supposed to work up to 3,500 horse-power, but at the trial they registered nearly 4,000 each.

Thunderer, Capt. J. C. Wilson, arrived at Queenstown on the 28th inst. at 7.15 a.m., having left the Channel Squadron on the 27th fifteen miles from Cape Clear; all well.

Tourmaline, Commodore F. W. Sullivan, C.B., was at Lagos on May 24. She left Whydah on May 15 with the Sirius, Boxer, Mallard, and Cygnet. The Commodore would leave in the Tourmaline about June 8 for St. Vincent, Cape de Verde, where he would arrive about July 8, to turn over to the Active on her arrival.

Urgent, Com. R. H. Boyle, arrived at Madeira on the 11th, and left on June 20 for Jamaica.

Valiant, Capt. W. S. Brown, will call at Berehaven to-morrow, and will proceed to Rathmullen, to remain for some weeks.

Vigilant, Lieut.-Com. Ryder, flying the flag of Vice-Admiral Ryder, was at Yokohama up to April 24.

Vivid, Staff-Com. E. Wise, was suddenly ordered from Devonport to Woolwich on Sunday afternoon, a telegram having been received by the Admiral for her to leave. She was immediately coaled and provisioned, and proceeded at eight p.m. to the eastward.

Wizard, Lieut.-Com. Doxat, proceeded on the 13th for Candia, Cyprus, and Rhodes.

Zephyr, Lieut.-Com. W. G. Le Cocq, arrived at St. John's on June 10; she will be sent to the West Coast, and return to St. John's by Aug. 4.

THE SHAH AND HUASCAR.

From the *Panama Star* we learn that, upon the seizure of the Huascar by the rebels, President Prado issued the following proclamation:—"Considering that the disloyalty of a few of the officers of the monitor Huascar, aided by other bad citizens, has led to the taking of said vessel from her obedience to the national Government, therefore I decree—1st. That the authors and their accomplices in the crime committed on board the monitor Huascar on the night of the 6th inst. be subjected to due process of law. 2nd. That the Government denies all responsibility for whatever acts the said insurgents may commit. 3rd. The Government authorises the capture of the Huascar, and offers to satisfactorily recompense any person or persons not belonging to the crews of the vessels composing the 'Squadron of Operations' who may submit to the authority of the Government or contribute towards it." This declaration, says the Lima correspondent of the *Panama Star and Herald*, was received by the diplomatic corps with some reserve, and answer was given that their several Governments should be made acquainted with the position assumed by Peru. The insurgents on board the Huascar had, meanwhile, boarded two mail steamers and demanded the official correspondence coming from Chili, a demand that was decidedly refused. Alarmed at this, the English merchants in Lima addressed an application to their Minister that a man-of-war should be sent south to look after the marauder, as her presence might prove damaging to British interests, especially since Government disclaimed all responsibility for her acts. The Minister replied that he would consult with Admiral de Horsey, commanding the Shah, then lying in Callao bay. Whilst the consultation was being held, news arrived from the South that the Huascar had taken by force from an English vessel (the Edmonston) in Pisagua a quantity of coal, the captain protesting before his consul, and, moreover, had extracted from on board a Royal Mail steamer two Peruvian officers proceeding south on duty. These acts were considered sufficient to warrant the immediate despatch of the Shah to southern waters, to overhaul the Huascar, and put a stop to such outrages. Consequently the Shah sailed for Iquique on the 18th, it was stated, with the positive intention of capturing the Huascar. This created tremendous excitement in Lima. People regarded the interference of the English as unwarrantable, although they admitted that the Government by its decree put the Huascar out of the pale of the law; but, nevertheless, they insisted that all police duty must be performed in Peru by Peru itself, and not by any foreign Power. The Huascar is a turreted ironclad with four-inch plates, carrying two 300-pound Blakelys, and built on the Thames."

By request of the officers, Commander Cyprian Bridge, R.N., on Thursday delivered a lecture at the Royal Engineer Institute, Chatham, on "The Naval Attack of a Fortress." After noticing the great strides made by artillery of late, and also the great addition to the powers of defence due to the introduction of submarine torpedoes, the lecturer showed that the history of the Crimean and Franco-German wars proved that in a war between two maritime Powers the weaker Navy would find asylum behind fortifications. Unfortunately, not only was the study of naval tactics much neglected in modern times, but even those who claimed to teach others that important subject had not noticed at all the question of an attack by ships upon a fortified place. There had been great changes in warfare in recent years, and a complete revolution in maritime warfare, but we could still discover in naval history old strategic laws continuing in force, and could derive much instruction from the record of modern experiments carried out in peace. As an instance of the former, he adduced an occurrence within his own personal experience during our war with Russia. The lecturer proceeded to give a statement of the various classes of maritime fortresses and the rules to be observed in attacking them, and examined the arguments for and against the superiority of the attack and of the defence, adducing the authorities generally recognised. After giving an account of some very recently reported experiments with submarine countermines and inventions for protecting ships against night attacks, he concluded by showing that to attempt the reduction of a powerful maritime fortress an immense fleet and vast quantities of *matériel* would be required, the inadequacy of both at our disposal having been—as we now see—the real cause of our want of important success during the Crimean war.

It is understood that the India Office contemplates putting in commission the turret-ships Abyssinia and Magdala, which were built for the defence of Bombay harbour, instead of leaving them unprovided with crews, as has hitherto been the case. It has been customary to exercise men of the Royal Artillery at working the guns in the turrets; but as they are constantly being moved to other stations the chances under such a system of being able to put efficient guns' crews on board at short notice are few.—*Standard.*

The Admiralty recently requested the steam branch department of Keyham Factory to forward an estimate of the cost of repairing the engines of the Merlin, gunboat, and the department sent an estimate of £3,170, a sum which, their Lordships intimate, is excessive, inasmuch as in 1871, when the vessel was constructed, the contractors supplied these engines for £3,780. The vessel has done only one commission, and no serious troubles with her machinery were reported to the Admiralty up to the time of her being paid off, and under these circumstances it appears somewhat inexplicable that the original cost and the estimate of repairing should be within £610 of each other. A correspondent suggests that instances of this kind may account for so much of the work of the steam branch being given to contractors.—*Western Morning News.*

ROYAL MARINES.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—In an article of your issue, dated 2nd inst., in reference to retaining the services of the Royal Marines any longer, I crave, for the first time, a small space for a few truthful remarks respecting this old and used to be much respected corps, and I think when those who still have a spark of respect left for the Marines read my remarks, they will think as I think, that the sooner *per mare* is erased from their motto the better it will be for them, and, when entirely under the control of the War Office, they will get the same treatment as their brethren in the Army, but at present they are a go-between sailor and soldier. Those at the head of the former have enough to do to look to the welfare of the sailor, and those at the head of the latter have enough also to do to look after the soldier; and the Marine Office has very little authority to be of much service to the Marines. For instance, a sergeant of Marine Artillery has 4d. or 2d. per diem less pay than a sergeant of the Royal Artillery; also a sergeant of Marines or Marine Artillery has 4d. or 2d. less pay than a sergeant of any Line regiment, and no one has explained to the Marines why they do not get it; only, as usual, the Marines know they are first for hard work, hardships, and the forefront of all battles or squabbles, and the last to get any benefit that is likely to do them good. When those in authority granted extra pay to the sergeants of the Army, why did not those in authority grant the same boon to the Marine forces, or are they considered worth so much less? Better to disband a corps than degrade them in the eyes of their fellow soldiers. Mr. Editor, you will, I know, agree with me the Marines are always considered necessary, when required to go to foreign countries, to test the climate or have a brush in the bush, and to just put it all right; but if they are not equal to their enemies, they must wait until the climate will suit English constitutions, and then reinforcements will be sent out to them, and a general engagement will ensue, and then, Marines, you will be rewarded with a medal. But who ever heard of a Marine getting a commission except to quartermaster? And when once they are secured, nothing but death seems able to sever them and it. But soldiers in the Regular Army get commissions from the ranks to all grades of officers; but I think I read some time ago that amongst 14,000 Marines there were eleven commissions, and some of them had been in possession over nineteen years, so where is the chance for others? Again, the Royal Artillery has a grade between sergeant-major and commission, viz., master gunner, 1st, 2nd, and 3rd Class; but the sergeants Royal Marine Artillery have no such chance of promotion, and the master gunners can serve as long as they please, and retire on a sergeant-major's pension, viz., 3s. per diem; but in the Royal Marine Artillery, during the past eighteen years, only about six sergeant-majors have been discharged with full pensions, viz., 2s. 6d. per diem, and the advanced scale of pensions has not yet been extended to the Royal Marines, and if a sergeant-major Royal Artillery and sergeant-major Royal Marine Artillery were discharged to-morrow, the former would go away with 3s. per diem, and the latter—poor Joe, the Marine—would get 2s. 6d., and his comrade would have the laugh at him and say, "Well, why didn't you join the Army proper?" The very same reference could be made to the Navy. Every ship with 300 or 400 men takes five or six chief petty officers, and three or four warrant officers. All chief petty officers rank with a sergeant-major for pay and pension. The petty officers have all those grades to look forward to, but poor Joe, the Marine, has, in each division of 3,000 men, two sergeant-majors and three quartermaster-sergeants to look forward to. The former only rank with chiefs for medal and pension. The quartermaster-sergeant is a first-class Staff, only, on special occasions, he does not rank with a chief petty officer for gratuity or pension, as he will get only 2s. 3d. per diem, while an Army quartermaster-sergeant will get 2s. 6d. The warrant officer of the Navy is a very lofty rank. And look at the number there are of them! If the Admiralty can see their position, and continue to better it, I say, in the name of common sense, why not better the non-commissioned grade of the Marines, who are also under their care? A warrant officer can retire on from £80 to £150 per annum, and the sergeant who first drilled them when they joined—some of them from the merchant service as novices—retires on £36 per annum, and poor Joe was as faithful to his colours as his comrade, only a different colour. In olden times, before the sailors got so much enlightened, the Marine sergeant had a shilling a-day extra when on board for drilling them, but that chance is gone and none come in return. But to sum up the total, it must be admitted that the Marine is at present nobody's child, and even the M.P.'s are very reluctant to take up their cause. Stagnation amongst the officers being the order of the day (and some who were sergeants when the officer got his commission are sergeants still, and they are captains), I say, from my heart of hearts, either get them turned over to those who know their value—for, as it is, between two stools they come to grief—or disband them as being no longer required to grace the dear old wooden walls of old England, and you will have the prayers of a class who feel the reflection of either neglect or carelessness.—I am, &c., **Turko-Atrocity.**

June 7, 1877.

Admiral de Lamare, Chamberlain to her Majesty the Empress of Brazil, has been granted Admiralty authority to pay a visit of inspection to the dockyards and ships in course of construction at Chatham and Portsmouth.—*Standard.*

The Malta correspondent of the *Morning Post* writes:—"His Excellency the Governor of Malta and Lady Van Straubenzee will, in all probability, leave on Friday next by the Italian packet for Naples, *en route* to England, remaining absent about three months, during which time the government will be administered by Major-Gen. Sir James Talbot Airey, K.C.B."

Epps's Cocoa — Grateful and Comforting. — "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made Simply with Boiling Water or Milk.—Sold only in Packets labelled—"James Epps & Co., Homœopathic Chemists, London.'

CATACLYSM AND EARTHQUAKE.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—The remarkable phenomena connected with the convulsions of nature which have recently devastated the seaboard of Bolivia and Peru will possess a special interest for the savant of science, while the destruction they have entailed on life and property will enlist the sympathy of the general reader. At the hour of 2.30 a.m. on the 10th inst., as her Majesty's ship Shah, flying the flag of Rear-Admiral de Horsey, was lying at anchor in the harbour of Callao (over the site of the ancient and submerged city of the same name), a sensation was experienced by the officers and men as if the engines had suddenly commenced moving at full speed. The vibration was momentary, and was felt with equal distinctness fore, aft, and amidships. Had the vessel been under weigh, and had we not previously met with a similar visitation at Coquimbo, the idea would have suggested itself that we had impinged upon a rock; the shock was attributed at the time, however, to the convulsion of an earthquake—either subaqueous or submarine—and this surmise was proved by subsequent information to be correct. On the succeeding morning we received intelligence from the shore that shortly after midnight an unusually agitated condition of the waters of the bay had been observed by the inhabitants. There was no violent perturbation. It was essentially a vertical upheaval of the sea and a conflict of opposing currents, extensive damage being occasioned to the docks, offices, and shipping by the influx of the tidal wave. The fact that danger impended was speedily communicated to the slumbering inhabitants by the whistle of the watchman and the pealing of the bells of the cathedral and other churches; and but little difficulty was encountered in tracing the connection between cause and effect, as the streets rapidly filled with men laden with some of the more portable of their household goods, while women rushed wildly to and fro with children in their arms pallid with terror and aghast with fear. In addition to this, very distressing tidings reached us from the rising town of Iquique. At 8.15, on the night of the melancholy May 10, a low rumbling noise, accompanied by a heaving motion of the earth, announced the approach of the dreaded visitant, and initiated a general stampede of the inhabitants to the adjacent hills. The terrified cry, "El mar! El mar sale!" could not fail to produce a singular impression on the insular mind, accustomed to regard the sea as the bulwark of his island home and the scene of the proudest exploits in his island's story. But, unfortunately, there existed only too valid foundations for their fears, and the fate was an exceptionally hard one to be compelled to stand passively by with eyes of tearless agony—of a sorrow too deep for tears—and witness the ruthless destruction of their homes and property by the incursions of the relentless wave. Heavy losses were sustained by the nitrate of soda interest, a vast number of boats and launches disappeared, and a large part of the commercial portion of the city was destroyed by the advancing and receding of the sea. In Iquique alone the destruction of property is computed in the currency of the country at two million and a half of "soles," which represents a sum of two hundred and fifty thousand pounds of our English money. Happily, the loss of life was in the inverse ratio, as the latest advices only estimate the number of deaths at ten. In the interior town of Arequipa the shock of earthquake was alarmingly violent. By the in-falling of a mine in Punta Blanca, four miles south of Tocopilla, forty English miners were inhumed alive. The town of Pabellon de Pica is completely extinct, many vessels are missing from their moorings, and the loss of life is reported to be two hundred souls. Arica has also suffered heavily. All the moles and water distilleries were swept away; the Custom House was flooded, and the goods in store materially deteriorated in value; and the railway terminus, engines, carriages, and plant were either damaged or destroyed. Two men were carried from the beach by the swoop of the refluent wave. They succeeded, however, in grasping a door as it drifted past, and on this narrow raft were borne five miles out to sea. After floating for several hours on the weltering waters they fortunately found an empty launch, in which they took refuge from their perilous position, and ultimately regained the shore. Only seven deaths are reported in Arica. Larapica, a city situated about seventy miles from Iquique, in the interior of the country, has been entombed by the earthquake which preceded the tidal wave, and from this the inference has been drawn that the disturbance, in the first instance, was subterranean, and not submarine, and its centre is referred to the volcano Ilga, which marks the southern boundary-line that divides Bolivia from Peru. At Cobija the shock was so violent that pedestrians were prostrated to the ground; and at Mejillones and the tidal wave attained the altitude of five sixty feet. Fear continued brooding over Callao and the port of Lima during the 11th, 12th, and 13th instant, and the feeling of alarm was not diminished by the thrilling cablegrams which frequently arrived reporting appalling loss of life and destruction of property in the seaports of the south. Suspense, however, reached its climax on the night of the 14th, when two distinct shocks of earthquake shook the terror-stricken town. A panic now seized the city. An exodus of its inhabitants succeeded. Special trains were run up to an advanced hour of the night conveying the affrighted citizens to Lima, the capital of the Republic, seven miles in the interior of Peru, and on the following day Callao presented the appearance of a deserted city with its empty stores and silent thoroughfares. The statement has been made that an arrest of magnetic forces in the atmosphere is a usual precursor of these phenomena, and that, with the aid of a loadstone in suspension to which a piece of iron has become attracted and attached, the inhabitants may approximately ascertain their advent. In districts obnoxious to such convulsions the residents are aware of this phenomenon, and it is reported that at an early hour of this memorable night in Callao the magnet parted with the steel. An unenviable distinction has been attained by this region of the earth as being a favourite abode of these convulsions; and grand as were the appearances evoked on the occasions we have faintly adumbrated, and vast as are the results involved in their issue, similar phenomena more stupendous in extent and more disastrous in their sequences are unhappily recorded in the archives of Bolivia and Peru.—I am, &c., **Marcus Allen**, Surgeon, R.N.

H.M.S. Shah, Arica, May 22, 1877.

STATIONS OF HER MAJESTY'S SHIPS IN COMMISSION.

With the Dates and Ports of Commission.

(Corrected to the same date as the official "Navy List," which will be published July 1.)

ABOUKIR, 23, screw receiving-ship, Commodore Algernon McLennan Lyons, Jamaica. Recommissioned at Jamaica July 1, 1870. (To be relieved by Urgent.)

Achilles, 16, screw armour-plated ship, Capt. Sir W. N. Hewett, K.C.B., Channel Squadron. Recommissioned at Devonport May 17, 1877.

Active, 10, iron screw-corvette, Capt. Charles R. F. Boxer, Portsmouth. Commissioned at Portsmouth April 13, 1877.

Alacrity, schooner, tender to Pearl, Lieut.-Com. W. U. Moore, Australia. Recommissioned at Sydney Jan. 1. 1877.

Albatross, 4, composite screw-sloop, Com. Ernest Rice, Pacific. Commissioned at Chatham Feb. 14, 1874.

Alberta, paddle yacht, Staff-Capt. David N. Welch, tender to Royal Yacht, Portsmouth.

Alexandra, 12, double-screw armour-plated ship, Capt. R. O'B. FitzRoy, Mediterranean. Commissioned at Chatham Jan. 2, 1877.

Amethyst, 14, screw-corvette, Capt. A. J. Chatfield, Pacific. Temporary flagship of Rear-Admiral De Horsey. Commissioned at Devonport July 1, 1873.

Antelope, 2, iron paddle-vessel, Lieut.-Com. E. Wingfield, Mediterranean. Recommissioned at Malta March 17, 1877.

Arab, 4, composite screw gunvessel, Com. F. S. Broughton, East Indies. Commissioned at Devonport July 2, 1875.

Argus, 5, paddle-sloop, Com. Robert H. Harris, North America and West Indies. Recommissioned at Bermuda May 18, 1877.

Asia, 4, guardship of Reserve, Capt. Geo. N. Parkin, flagship of Rear-Admiral the Hon. F. A. C. Foley, Portsmouth. Recommissioned at Portsmouth April 1, 1876.

Assistance, 2, iron screw troop-ship, Capt. Prattent, particular service. Commissioned at Portsmouth Dec. 1, 1875.

Audacious, 14, double screw. armour-plated ship, Capt. Colomb, flagship of Vice-Admiral A. P. Ryder, China. Commissioned at Chatham Sept. 1, 1874.

Aurora, 28, screw-frigate, Capt. H. D. Grant, C.B., Coast-guard ship, Greenock. Commissioned at Devonport May 8, 1874.

Avon, 4, double-screw composite gunvessel, Com. L. C. Keppel, West Coast of Africa. Commissioned at Portsmouth June 1, 1876.

Beacon, 4, double-screw composite gun-vessel, Com. H. Dunlop, South-East Coast of America. Commissioned at Chatham July 8, 1873.

Beagle, schooner, Lieut.-Com. C. Caffin, Australia. Recommissioned at Sydney Jan. 11, 1876.

Bellerophon, 15, armour-plated screw-ship, Capt. J. A. Fisher, flagship of Vice-Admiral Sir A. Cooper Key, K.C.B., North America and West Indies. Recommissioned at Halifax Sept. 27, 1876.

Bittern, 3, double-screw gun-vessel, Com. G. J. Anstruther, Mediterranean. Commissioned at Devonport July 4, 1871.

Black Prince, 28, armour-plated iron screw-ship, Capt. E. H. Howard, flagship of Rear-Admiral W. M. Dowell, C.B., Second in Command, Channel Squadron. Commissioned at Devonport July 29, 1875.

Boscawen, 16, training-ship, Com. R. G. Kinahan, Portland. Recommissioned at Portsmouth Jan. 1, 1873.

Boxer, 4, double-screw composite gun-vessel, Com. Arthur Alington, Cape and West Coast of Africa. Commissioned at Chatham Dec. 11, 1876.

Brilliant, 8, Naval Reserve drill-ship, Lieut.-Com. G. W. Eliot, Inverness.

Britannia, training-ship for Naval Cadets, Capt. W. Graham, C.B., Dartmouth. Recommissioned April 1, 1876.

Britomart, 2, gunboat, Lieut.-Com. J. Sulivan, tender to Hector, Southampton.

Bullfinch, 3, double-screw gunvessel, Com. R. M. Lloyd, North America and West Indies. Commissioned at Sheerness July 13, 1874.

Cambridge, 29, gunnery-ship, Capt. the Hon. W. J. Ward, Devonport. Recommissioned April 1, 1876.

Castor, 13, Naval Reserve drill-ship, Com. E. Pilkington, North Shields. Recommissioned Jan. 1, 1873.

Challenger, 8, screw-corvette, Capt. E. Hardinge, C.B., A.D.C., temporary flag-ship of Rear-Admiral Augustus Phillimore, Coastguard ship, Harwich. (Will be relieved by Penelope.)

Charybdis, 17, screw-corvette, Capt. T. E. Smith, China. To be recommissioned at Hong Kong.

Cherub, 2, screw gunboat, Lieut.-Com. F. R. Kemp, tender to Coastguard ship, Harwich.

Clyde, 15, Naval Reserve drill-ship, Com. H. C. Best, Aberdeen. Recommissioned Jan. 1, 1873.

Cockatrice, 1, screw-gunboat, Com. A. J. W. Musgrave, Mediterranean. Recommissioned at Malta March 14, 1876.

Conflict, schooner, Lieut.-Com. J. G. Musters, Australia. Recommissioned at Sydney Feb. 13, 1877.

Contest, 4, composite gunboat, Lieut.-Com. G. W. Allen, North America and West Indies. Commissioned at Devonport April 22, 1875.

Coquette, 4, screw composite gunboat, Lieut.-Com. E. G. Festing, Mediterranean Recommissioned at Malta Feb. 1, 1875.

Cracker, 4, double-screw composite gun-vessel, Commander C. H. Hawkins, South-East Coast of America. Commissioned at Portsmouth June 10, 1873. (Ordered home)

Crocodile, 3, Indian troopship, Capt. P. R. Sharpe, Portsmouth. Recommissioned at Portsmouth Aug. 5, 1876.

Cromer, 2, screw-gunboat, Lieut. V. E. Von Donop, tender to Achilles, Birkenhead.

Cruiser, 4, sailing-sloop, Com. John Hext, Mediterranean. Recommissioned at Malta March 14, 1876.

Curlew, 3, double-screw gun-vessel, Com. E. J. Church, China. Recommissioned at Hong Kong Dec. 1, 1874.

Cygnet, 4, screw composite gunboat, Lieut.-Com. R. F. Hammick, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport July 8, 1875. (Ordered to Gibraltar.)

Dædalus, 13, Naval Reserve drill-ship, Com. W. H. St. Clair, Bristol. Recommissioned Jan. 1, 1873.

Danae, 12, screw-corvette, Capt. J. C. Purvis. West Coast of Africa. Commissioned at Portsmouth Sept. 20, 1876.

Daphne, 5, screw-sloop, Com. G. B. Evans. Recommissioned at Zanzibar April 1, 1875.

Dapper, 2, screw-gunboat, Lieut.-Com. T. E. Miller, tender to Britannia, Dartmouth.

Daring, 4, composite screw-sloop, Com. J. G. J. Hanmer, Pacific. Commissioned at Chatham Sept. 29, 1874.

Dasher, 2, paddle-vessel, Com. A. F. FitzGeorge, Channel Islands. Recommissioned at Portsmouth April 1, 1876.

Defence, 16, iron screw-ship, armour-plated, Capt. R. P. Cator, Channel Squadron. Commissioned at Devonport Feb. 25, 1876.

Devastation, 4, armour-plated turret-ship, Capt. W. Hunt Grubbe, C.B., Mediterranean. Commissioned at Portsmouth Jan. 9, 1873.

Diamond, 14, screw-corvette, Capt. G. S. Bosanquet, East Indies. Commissioned at Sheerness July 13, 1875.

Dryad, 9, screw-sloop, Com. J. E. Stokes, North America and West Indies. Commissioned at Devonport Aug. 13, 1874.

Duke of Wellington, 25, screw-ship, Capt. Hon. W. C. Carpenter, flagship of Admiral Sir George Elliot, K.C.B., Portsmouth. Recommissioned Jan. 1, 1874.

Duncan, 31, screw-ship, Captain St. G. D'Arcy-Irvine, flagship of Vice-Admiral Henry Chads, Sheerness. Recommissioned at Sheerness April 1, 1877.

Durham, 17, Naval Reserve drill-ship, Commander W. Howorth, Sunderland. Recommissioned Jan. 1, 1873.

Eagle, 12, Naval Reserve drill-ship, Com. A. F. M. Meyer, Liverpool. Recommissioned Jan. 1, 1873.

Eclipse, 12, screw-corvette, Capt. J. E. Erskine, North America and West Indies. Commissioned at Sheerness Nov. 19, 1873.

Egeria, 4, composite screw-sloop, Com. A. L. Douglas, China. Commissioned at Devonport Nov. 2, 1874.

Elfin, paddle yacht, tender to Victoria and Albert, Staff-Com. A. Balliston, Portsmouth.

Elk, 4, screw composite gun-vessel, Com. Alex. Tupman, South-East Coast of America. Commissioned at Portsmouth April 18, 1877.

Enchantress, 1, paddle yacht, Staff-Com. E. H. Hills. Commissioned at Portsmouth April 1, 1877.

Encounter, 14, screw-corvette, Capt. R. Bradshaw, North America and West Indies. Commissioned at Sheerness Aug. 21, 1873.

Endymion, 22, screw-frigate, Captain J. Moresby, Coast guard, Hull. Commissioned at Sheerness Oct. 1, 1875.

Euphrates, 3, Indian troopship, Capt. W. H. Cuming, Portsmouth. Recommissioned at Portsmouth July 1, 1876.

Eurydice, training-ship for seamen, Capt. M. Hare, particular service. Commissioned at Portsmouth Feb. 7, 1877.

Excellent, 13, gunnery-ship, Capt. F. A. Herbert, Portsmouth. Recommissioned April 1, 1876.

Express, 4, screw composite gunboat, Lieut.-Com. Hon. A. C. Littleton, Gibraltar. Commissioned at Devonport Aug. 10, 1875.

Fantôme, 4, composite screw-sloop, Com. T. M. Maquay, Pacific. Commissioned at Devonport Dec. 5, 1873.

Fawn, 4, screw-sloop, Com. W. J. L. Wharton, surveying vessel, East Coast of Africa. Commissioned at Chatham June 1, 1876.

Fervent, 2, screw-gunboat, Lieut. A. Fullerton, tender to Dædalus, Bristol.

Fire Queen, iron paddle-vessel, Staff-Com. T. Pounds, tender to Duke of Wellington, Portsmouth.

Fisgard, 22, stationary ship, Staff-Com. W. H. Sharp, Greenwich. Recommissioned Nov. 2, 1869.

Flamingo, 3, composite gun-vessel, Com. W. H. Hall. Commissioned at Devonport June 26, 1877, for service in the Mediterranean.

Flirt, 4, double-screw composite gun-vessel, Lieut. A. O'Rorke, tender to Aurora, Greenock.

Flora, 12, store ship, Com. H. J. F. Campbell, Cape of Good Hope. Recommissioned at the Cape Oct. 22, 1872.

Fly, 4, double-screw composite gun-vessel, Com. John Bruce, China. Commissioned at Devonport June 25, 1874.

Flying Fish, 4, composite screw-sloop, Com. H. F. Crohan, East Indies. Commissioned at Chatham June 18, 1874.

Foam, 4 screw composite gunboat, Lieut.-Com. R. W. Hope, South-East Coast of America. Commissioned at Sheerness May 20, 1874.

Fox, 2 screw store-ship, Staff-Com. J. G. Dathan, particular service. Recommissioned at Devonport April 1, 1876.

Frolic, 4, double-screw composite gun-vessel, Com. A. E. Dupuis, China. Recommissioned at Hong Kong April 20, 1876.

Ganges, 19, training-ship, Com. Walter Stewart, Falmouth. Recommissioned April 1, 1876.

Goshawk, 4, composite gunboat, Lieut. A. T. Bagge, tender to Revenge, Queenstown.

Growler, 4, double-screw composite gun-vessel, Com. Chas. E. Wilcox. Recommissioned at Hong Kong Feb. 18, 1877.

Hart, 4, double-screw composite gun-vessel, Com. Hon. H. N. Hood, China. Recommissioned at Malta Feb. 12, 1874.

Hector, 18, screw armour-plated ship, Capt. C. H. Simpson, Coastguard, Southampton Water. Commissioned at Portsmouth June 4, 1875.

Helicon, 2, paddle despatch-vessel, Lieut.-Com. R. W. Stopford, Mediterranean. Recommissioned at Malta March 20, 1877.

Hibernia, 12, receiving-ship, Com. H. E. Stephens, flagship of Rear-Admiral Rice, Malta. Recommissioned at Malta April 1, 1877.

Himalaya, 3, iron-screw troop-ship, Capt. E. White, particular service. Commissioned at Devonport Oct. 22, 1874.

Hornet, 4, double screw gun-vessel, Com. H. N. Hippisley, China Recommissioned at Hong Kong Feb. 18, 1877.

Hotspur, 3, iron armour-plated ram, Capt. T. M. Jones, Mediterranean. Commissioned at Devonport June 3, 1876.

Implacable, 16, training-ship, Com. C. S. Cardale, Devonport. Recommissioned at Devonport Jan. 1, 1873.

Impregnable, 22, training-ship, Capt. W. H. Edye, Devonport. Recommissioned April 1, 1876.

Indus, guardship of Reserve, Capt. C. Curme, flagship of Rear-Admiral Willes, C.B., Devonport. Commissioned April 1, 1876.

Industry, 2, screw iron store-vessel, Staff Com. Richard C. Dyer, West Coast of Africa. Commissioned at Devonport March 14, 1877.

Iron Duke, 14, armour-plated, double-screw ship, Capt. Rowley, Coastguard ship, Kingstown. Commissioned at Devonport, Oct. 1, 1875.

Jackal, 2, iron paddle vessel, Lieut.-Com. H. A. Digby, West Coast of Scotland. Commissioned at Devonport May 23, 1876.

Juno, 8, screw-corvette, Capt. Poland, China. Commissioned at Sheerness Nov. 4, 1875.

Jumna, 3, iron-screw troop-ship, Capt. John D'Arcy, Portsmouth. Recommissioned at Portsmouth July 1, 1876.

Kestrel, 4, double-screw composite gun-vessel, Com. C. B. Theobald, China. Recommissioned at Hong Kong April 20, 1876.

Lapwing, 3, double-screw gun-vessel, Com. Sir W. Wiseman, China. Commissioned at Devonport Sept. 15, 1874.

Liberty, 8, sailing-brig, Lieut. Reginald A. Brock, Devonport. Commissioned at Devonport Oct. 13, 1875.

Lily, 3, composite screw gun-vessel, Com. B. E. Cochrane, China. Commissioned at Devonport Aug 3, 1875.

Lion, 12, screw-ship, Lieut. E. H. Clarke, tender to Implacable, Devonport.

London, 2, screw-ship, Capt. T. B. M. Sullivan, Zanzibar. Recommissioned April 25, 1876.

Lord Warden, 18, screw armour-plated ship, Capt. the Hon. E. R. Fremantle, C.B., Coast-guard ship, Queensferry. Commissioned at Portsmouth Dec. 21, 1876.

Lynx, 4, composite gun-vessel, Com. F. M. Ommanney, East Indies Commissioned at Devonport June 9, 1875.

Magpie, 3, double-screw gun-vessel, Com. W. M. Lang, China. Commissioned at Devonport July 3, 1876.

Malabar, 3, Indian troopship, Capt. E. Kelly, Portsmouth. Recommissioned at Portsmouth July 1, 1876.

Mallard, 4, screw composite gunboat, Lieut.-Com. A. W. Warry, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport March 7, 1873.

Martin, 10, sloop, Lieut. E. Hicks, Portsmouth. Commissioned at Portsmouth Oct. 13, 1875.

Midge, 4, double-screw composite gun-vessel, Com. H. Salmond, China. Recommissioned at Hong Kong Feb. 18, 1877.

Minotaur, 17, armour-plated iron screw-ship, Capt. Lord Walter Kerr, flagship of Vice-Admiral Sir F. B. Seymour, K.C.B., Channel Squadron. Commissioned at Portsmouth Aug. 6, 1875.

Modeste, 14, screw-corvette, Capt. A. Buller, C.B., China. To be recommissioned at Hong Kong.

Monarch, 7, armour-plated screw turret-ship, Capt. M. Culme-Seymour. Commissioned at Portsmouth June 10, 1874. (Paying off at Chatham.)

Moorhen, 4, screw composite gunboat, Lieut.-Com. J. Hope, China. Commissioned at Devonport Feb. 10, 1876.

Mosquito, 4, composite screw gunboat, Lieut.-Com. R. H. Paul, China. Recommissioned at Hong Kong April 20, 1876.

Nankin, 28, stationary ship, Capt. R. V. Hamilton, Pembroke. Recommissioned April 1, 1876.

Nassau, 4, screw surveying-vessel, Com. R. H. Napier, China. To be re-commissioned.

Nereus, 2, store ship, Staff-Com. J. R. Petch, Coquimbo. Recommissioned at Valparaiso April 1, 1868.

Nymphe, 9, screw-sloop, Capt. S. P. Townsend, Australia. Commissioned at Sheerness Jan. 5, 1875.

Opal, 14, screw-corvette, Capt. F. C Robinson, Pacific. Commissioned at Sheerness Jan. 10, 1876.

Orontes, 2, iron screw troopship, Capt. E. H. Seymour, particular service. Commissioned at Portsmouth Feb. 7, 1876.

Orwell, 2, gunboat, Lieut.-Com. R. H. L. Cornwall, Coast of Ireland. Recommissioned at Devonport Feb. 23, 1876.

Osborne, Royal paddle-yacht, Com. H. L. Pearson, Portsmouth. Commissioned at Portsmouth June 12, 1874.

Osprey, 6, screw composite sloop, Com. Hon. H. A'Court, Pacific. Commissioned at Sheerness April 19, 1877.

Pallas, 8, screw-corvette, Capt. H. H. Beamish, C.B., Mediterranean. Recommissioned at Malta Dec. 8, 1875.

Pembroke, 1, screw block-ship, Capt. J. C. Soady, flagship of Rear-Admiral Fellowes, C.B., Chatham. Recommissioned at Sheerness April 1, 1877.

Pert, 4, double-screw composite gun-vessel, Com. H. C. Aitchison, North America and West Indies. Commissioned at Devonport July 1, 1875.

Pheasant, 2, screw gunboat, Lieut. T. Suckling, tender to Endymion, Hull.

Philomel, 3, double-screw gun-vessel, Com. H. H. Boys, East Indies Commissioned at Sheerness Aug. 22, 1873. (Ordered home.)

Pioneer, 6, composite paddle-vessel, Lieut.-Com. E. Hotham, Cape of Good Hope and West Coast of Africa. Commissioned at Sheerness July 3, 1876.

Plover, 3, double-screw gun-vessel, Com. H. B. Stewart, North America and West Indies. Commissioned at Portsmouth June 1, 1876.

Porcupine, 1, paddle surveying-vessel, Staff-Capt. J. Parsons, tender to Fisgard.

President, 10, Naval Reserve drill-ship, Com. L. B. Solly, West India Docks. Recommissioned Jan. 1, 1873.

Raleigh, 22, iron screw-frigate, Capt. C. T. Jago, Mediterranean. Commissioned at Chatham Jan. 13, 1874.

Rapid, 3, screw-sloop, Com. E. C. Drummond, Mediterranean. Recommissioned at Malta Feb. 1, 1875.

Renard, schooner, Lieut.-Com. H. J. Pugh, Australia. Recommissioned at Sydney Sept. 11, 1875.

Research, 4, armoured screw-sloop, Capt. Earle, Mediterranean. Recommissioned at Malta Aug. 17, 1875.

Resistance, 16, screw armour-plated ship, Capt. Sholto Douglas, Channel Squadron. Recommissioned at Devonport May 17, 1877.

Revenge, 28, screw-ship, Capt. H. R. Wratislaw, flagship of Rear Admiral Hillyar, C.B., Queenstown. Recommissioned July 1, 1876.

Rifleman, 4, double-screw composite gun-vessel, Com. F. S. Clayton, East Indies. Recommissioned at Bombay April 14, 1876.

Rocket, 4, composite screw gun-vessel, Lieut. Com. C. R. Harris, Pacific. Commissioned at Sheerness Sept. 9, 1874.

Rover, 18, iron screw-corvette, Capt. T. Barnardiston, North America and West Indies. Commissioned at Chatham Dec. 14, 1875.

Royal Adelaide, 13, Capt. J. O. Hopkins, flagship of Admiral Sir T. Symonds, K.C.B., Devonport. Recommissioned Jan. 1, 1877.

Ruby, 12, composite screw sloop, Capt. R. H. Molyneux. Commissioned at Sheerness June 14, 1877.

Rupert, 4, double-screw iron-clad ram, Capt. W. E. Gordon, C.B., Mediterranean. Commissioned at Chatham May 25, 1876.

Salamis, 2, paddle despatch-vessel, Com. F. W. Egerton, Mediterranean. Commissioned at Devonport Aug. 29, 1876.

Sandfly, schooner, Lieut.-Com. J. J. Bell, Australia. Recommissioned at Sydney Jan, 11, 1876.

Sapphire, 14, screw-corvette, Capt. E. H. Murray, Australia. Commissioned at Devonport Aug. 9, 1875.

Sappho, 4, composite screw-sloop, Com. N. S. F. Digby, Australia. Commissioned at Chatham Aug. 26, 1874.

Seaflower, 8, brig, Lieut. R. H. Eyre, Portsmouth. Commissioned at Portsmouth Oct. 13, 1875.

Seagull, 3, double-screw gun-vessel, Com. M. Heron, Cape. and West Coast of Africa. Commissioned Jan. 9, 1877.

Sealark, 8, brig, Lieut. F. H. Haygarth, Devonport. Commissioned at Devonport Oct. 13, 1875.

Serapis, 3, Indian troopship, Capt. G. D. Davidson, Portsmouth. Commissioned at Portsmouth Oct. 2, 1876.

Shah, 26, iron screw-frigate, Capt. F. G. D. Bedford, Pacific. Commissioned at Portsmouth Aug. 14, 1876.

Sheldrake, 4, screw composite gunboat, Lieut.-Com. J. B. Haye, China. Commissioned at Devonport Dec. 16, 1875.

Simoom, 2, iron-screw troopship, Capt. R. G. S. Pasley, particular service. Commissioned at Devonport May 5, 1873.

Sirius, 12, screw-corvette, Capt. G. L. Sulivan, Cape of Good Hope and West Coast of Africa. Commissioned at Devonport Sept. 6, 1875. (Ordered home.)

Spartan, 12, screw-corvette, Capt. R. E. Tracey, East Indies. Commissioned at Sheerness June 15, 1876.

Spiteful, 6, paddle-sloop, Com. A. T Powlett. Commissioned at Portsmouth July 31, 1873. (Paying off at Portsmouth.)

Sprightly, paddle-vessel, Nav.-Lieut. W. J. Tregidgo, tender to Duke of Wellington, Portsmouth.

Squirrel, 8, sloop, Lieut. R. N. Hamond, Devonport. Commissioned at Devonport Oct. 13, 1875.

St. Vincent, 22, training-ship for boys, Commander A. T. Brooke, Portsmouth. Recommissioned April 1, 1876.

Sultan, 12, iron screw armour-plated ship, Captain H.R.H. the Duke of Edinburgh, K.G., Mediterranean. Recommissioned Feb. 25, 1876.

Supply, 2, iron screw-storeship, Staff-Com. Frank Inglis, Cape of Good Hope and West Coast of Africa. Commissioned at Chatham Dec. 16, 1873. (Ordered home.)

Swallow, 3, double-screw gun-vessel, Com. John B. Warren, Cape of Good Hope and West Coast of Africa. Commissioned at Portsmouth April 18, 1877.

Swiftsure, 14, armour-plated screw-ship, Capt. J. K. E. Baird, Mediterranean. Recommissioned at Devonport April 18, 1875.

Swinger, 4, composite gunboat, Lieut.-Com. O. P. Tudor, China. Recommissioned at Hong Kong Feb. 18, 1877.

Sylvia, 3, screw surveying-vessel, Capt. B. W. Bax, China. To be recommissioned.

Tamar, 2, iron screw troopship, Capt. W. H. Liddell, particular service. Commissioned at Devonport Oct. 3, 1876.

Teazer, 4, double-screw composite gun-vessel, Com. C. Wodehouse, East Indies. Commissioned at Sheerness Oct. 7, 1875.

Terror, 8, screw armour-plated floating battery, Captain L. E. H. Somerset, Bermuda. Recommissioned Jan. 1, 1877.

Thistle, 4, double-screw composite gun-vessel, Com. Robt. B. Hunt, China. Recommissioned at Hong Kong Dec. 1, 1874.

Thunderer, 4, iron armour-plated turret-ship, Capt. J. C. Wilson, particular service. Commissioned at Portsmouth May 1, 1877.

Torch, 5, screw gun-vessel, Com. R. H. Hamond, Mediterranean. Commissioned at Sheerness Jan. 5, 1871.

Tourmaline, 12, screw-corvette, Commodore F. W. Sullivan, C.B., Cape of Good Hope and West Coast of Africa. Commissioned at Sheerness Oct. 25, 1876.

Trincomalee, 15, Naval Reserve drill-ship, Com. A. J. V. Collins, Southampton. Recommissioned Jan. 1, 1873.

Tyrian, screw-gunboat, Lieut. H. T. Robilliard, tender to Favorite, Queensferry.

Undaunted, 31, screw frigate, Capt. N. Bowden-Smith, flagship of Rear-Admiral John Corbett, C.B., East Indies. Commissioned at Sheerness March 2, 1875.

Unicorn, 10, drill-ship for the Naval Reserve, Com. Herbert Dolphin, Dundee. Recommissioned Jan. 1, 1874.

Urgent, screw depot ship, Com. R. H. Boyle, Port Royal, Jamaica. Commissioned at Portsmouth May 1, 1877.

Valiant, 18, screw armour-plated ship, Captain W. S. Brown, Coast-guard, River Shannon. Recommissioned April 1, 1876.

Valorous, 6, paddle-frigate, Capt. L. F. Jones, particular service. Commissioned at Devonport Feb. 26, 1875.

Vernon, torpedo school-ship, Capt. W. Arthur, Portsmouth. Commissioned April 26, 1876.

Vestal, 9, screw-sloop, Com. W. H. Selby, East Indies. Commissioned at Portsmouth July 14, 1875.

Vesuvius, double-screw torpedo-vessel, Capt. Singer, Portsmouth, tender to Vernon.

Victoria and Albert, 2, Royal paddle-yacht, Capt. Frank J. Thomson, Portsmouth. Recommissioned Jan. 1, 1870.

Victory, 26, tender to Duke of Wellington, Portsmouth.

Victor Emanuel, 2, screw receiving-ship, Commodore G. Watson, Hong Kong. Recommissioned Dec. 1, 1874.

Vigilant, 2, paddle despatch-vessel, Lieut.-Com. H. C. Ryder, China. Commissioned at Portsmouth Sept. 1, 1874.

Vivid, paddle-vessel, Staff-Com. Edwin Wise, tender to Royal Adelaide, Devonport.

Volage, 18, screw-corvette, Capt. Henry Fairfax, South-East Coast of America. Commissioned at Portsmouth July 6, 1874.

Vulture, 3, double-screw gun-vessel, Com. H. Washington, East Indies. Commissioned at Sheerness Dec. 28, 1876.

Warrior, 32, armour-plated iron screw-ship, Captain W. H. Whyte Coast-guard service, Portland. Commissioned at Portsmouth April 1, 1875.

Waterwitch, 4, hydraulic gunboat, Staff Com. Hewlett, tender to the Duke of Wellington, Portsmouth.

Wildfire, paddle-vessel, Staff-Com. R. L. Cleveland, tender to Duncan, Sheerness.

Wizard, 2, screw-gunboat, Lieut.-Com. C. Doxat, Mediterranean. Recommissioned Malta Feb. 1, 1875.

Wolverene, 17, screw-corvette, Commodore Hoskins, C.B., Australia. Commissioned at Sheerness Aug. 1, 1876.

Wye, iron screw storeship, Staff-Com. W. W. Vine, particular service, Commissioned at Chatham April 15, 1875.

Zephyr, 4, composite gunboat, Lieut.-Com. W. G. Le Cocq, North America and West Indies. Recommissioned at Halifax Sept. 27, 1876.

THEATRES.

Gaiety.—The programme here has been entirely changed and considerably improved from last week, when the worst features of Madame Chaumont were presented. The clever little lady, it is true, continues to sing her favourite songs, but all the dramatic items have been swept away, and in their place we have had *Le Tunnel*, an amusing trifle in which M. Didier makes a welcome reappearance. Chaumont gives a taste of her quality in *Le Wagon des Dames*, and in *Madame Attend Monsieur*. The last is a remarkable bit of character acting, and, though to the full as suggestive, it lacks the repulsiveness of *Toto*, being merely the speculations of a jealous wife as to the charms which make her husband prefer his mistress to herself. The actress pays all the attention to detail for which she is famous, and succeeds in delighting a great number of admirers.

Globe.—A special performance here last Saturday morning for the benefit of Mr. Odell was the means of introducing to the boards a new author in the person of Mr. Gerald Dixon. The aspirant has not flown at very risky game for the present, having contented himself with adapting Molière's *Medécin Malgré Lui*, under the title of *A Doctor in Spite of Himself.* The adaptation is very fairly done, the dialogue being easy and terse, and the story being indicated with commendable clearness. It might have been well had the action been a little brisker, but probably the appearance of "dragging" will vanish in a future representation. Mr. Odell played Sganarelle with perfect appreciation of the requirements of the part. He was well supported by Mr. Vollaire, Mr. Lin Rayne, and Miss Ella Dietz. Mr. Odell also played the hero in John Poole's famous travestie of *Hamlet*, and convulsed the house by his imitation of Mr. Irving. Mr. Lionel Brough was exceedingly funny as a Claudius who was not quite letter-perfect, Mr. George Barrett was irresistible as the Ghost, and Miss Rachael Sanger was a most humorous and attractive Ophelia.

Folly.—Just at the close of the season, and as Miss Lydia Thompson is about to desert her native shores in search of the proffered dollars of our American cousins, a new programme has been put forward at the pretty little theatre in King Killiam-street. *Miriam's Crime* forms the first important item, and is very well represented. The vagaries of Mr. Lionel Brough as the drunken attorney's clerk, Biles, are of the most mirth-provoking character, and yet do not come within the bounds of burlesque, to recall the pet accusation against the funniest of low comedians. Mr. Philip Day, as Scumley, is entitled to praise, as is also Mr. Forester for his manly reading of the hero. Miss Rachel Sanger is an admirable representative of Miriam West, and nothing could be better than the Mrs. Raby of Miss Harriet Coveney. Following Mr. Craven's drama comes a revival of the ever-popular and welcome piece of absurdity *Robinson Crusoe.* Of this nothing need be said beyond that it is as laughable as ever, thanks to the exertions of all concerned, notably Miss Thompson, Mr. W. Edouin, and Mr. Lionel Brough. On Miss Thompson's departure the theatre will be occupied for a time by a troupe of marionettes.

LIME-JUICE IN POLAR EXPEDITIONS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Numerous letters have been written to prove that the present system of supplying lime-juice to ships going to the North Pole in heavy bottles, similar to those supplied for the tropics, is too cumbersome for sledging parties, but no remedy has been suggested to obviate the very manifest defect. As far as the past is concerned, it is unnecessary to say a word more; but it *is not* for a moment to be supposed that the public will rest satisfied with the results of the expedition of 1876. The English public, with their characteristic energy and love of enterprise, will, in due time, urge on further exploration; and, in view of this, I beg permission to suggest through the medium of The Army and Navy Gazette that the objection on the score of weight could in great measure be obviated by supplying the lime-juice for sledging parties in small skins instead of bottles.—I am, &c.,

A Physician.

PROMOTION AND RETIREMENT.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Is the War Office created for the Army, or is the Army made *for* the War Office? The latter alternative seems to be the fixed idea of Mr. Hardy and his civilian subordinates. Officers are sick at heart at the reiterated excuses about the Treasury. We were led to believe that Mr. Welby was appointed one of the commissioners in order to obviate delay, and to represent the Treasury, and we know that his influence was used against our liberality; yet, ten months have elapsed since the promulgation of the Commission Report. We are told that their recommendations are to be adopted, yet Mr. Hardy seems to take more interest in looking after the Universities Bill than in forwarding the long and anxiously-expected Warrant, which is so pregnant with vital consequence to the officers of the Army, who are weary with

Hope Deferred.

ARTILLERY OFFICERS' PAY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Allow me to continue the list, which only yesterday came to my notice, of "Gunner's" grievances in your paper of the 19th inst.:—The cost of command of officers per man in the Infantry (generally) is £11 17s 5d, whereas in the Artillery it is but £13 14s. 5d. The annual retired full-pay grant for Guards and Line officers (about 6,000) is £62,000, while Royal Artillery officers (possibly 1,300) are provided for at a cost to the country (see Vol. 2, page 84, "The Military Forces of the Crown") of only £42,400 a year. The daily half pay is as follows:—Artillery major 10s., captain 7s. 4d.; Infantry major 9s. 6d., captain 7s.—I am, &c.,

May 29. Infantry Captain.

ARMY PROMOTION.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—It would gratify very many of your readers to be informed when the long-promised scheme for promotion in the Army is to be carried into effect. The late Government undertook that the abolition of purchase should not check the flow of promotion. The present Government undertook that the recommendations of the Purchase and Promotion Commission should be made public last Whitsuntide. Are promises to Parliament thus to be broken? It would be worth knowing how many lieutenants in the Army are, during this month of June, drawing the extra shilling a day granted after seven years' service in that rank, as compared with the number in receipt of said additional pay in the month of June previous to the abolition of purchase. A question in the House to the Secretary of State for War might elicit this information.—I am, &c., A. L. D.

Bristol, June 18.

A QUERY.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—In the list of general officers of Cavalry who have seen service in the field, and who do not hold higher place in the Order of the Bath than C.B., I find one dozen who stand in the following order, each having served the number of years specified opposite his name, viz.:—Gen. R. Robertson, 57; Gen. Lawrenson, 49; Parlby, 61; Lieut.-Gens. Pole, 51; Doherty, 44; Smith, 47; Jones, 52; Hagart, 45; Griffith, 49; Yorke, 45; Wilkie, 39; and White, 30. You will observe I have only given the Cavalry branch. Now for my question. How does it come to pass that not only the junior of this list, but also the junior lieut.-gen. in the Army, is the sole one promoted to the rank of K.C.B.?—I am, &c.,

Inquirer.

NEW INFANTRY HELMET.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—Having noticed in the *Whitehall Review* in a letter under the head of "New Infantry Helmet," that the Fusilier regiments will be allowed to retain the handsome busby they now wear, I would ask why the Light Infantry regiments should not be allowed to add to the new helmet a plume, say of green feathers for the officers and horsehair for the men? This would only be giving us back the plume of which we have been lately deprived, and the effect on the new helmet would be very soldier-like. Surely Light Infantry regiments, which were made so for their gallantry in the field, have some right to ask for this, considering that every other detail of their former handsome dress has been swept away. In these days of reform are the deeds of the "Old Light Division" forgotten? Nothing contributes more to retain *esprit de corps* in regiments than these distinctive marks, and surely it cannot be the wish of the authorities to ignore the claims of the Light Division to the distinctive marks which were gained in most cases in many a hard-fought field.—I am, &c.,

Light Infantry.

Sir,—In the description of the new helmet for Infantry there seems to be a mistake. It is stated that it is to be of felt, covered with blue cloth, &c., whereas the helmet we have seen, and which was approved of when submitted to the military authorities by Sir J. E. Alexander, and made for him by the Messrs. Jones, of 6, Regent-street, is made of cork, is well ventilated, light, and sun and sabre proof. —I am, &c., X.

NAVIGATING OFFICERS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—I have just read the last Admiralty Circular entitled "Navigating and Pilotage Duties of the Fleet," and I find that by Article 14 of that Circular I am liable to have an officer now three years my junior my senior officer in four years time. Can this be an oversight on the part of their Lordships, or is it one more injustice piled on to our neglected line? Why should I not be allowed to join the executive list at once with my seniority as navigating sub-lieutenant? My complaint is either natural, or their Lordships should explain that navigating sub-lieutenants are to be promoted after four years' service in that rank, as is the case with sub-lieutenants, thus letting us have a glimpse into our future, and a chance of at once commencing our gunnery education. There are dozens of navigating sub-lieutenants who, if they thought they were to be promoted after four years' service, would make up their minds to join the main line, and at once commence qualifying themselves for gunnery duties. Trusting you will insert this letter in your valuable paper— I am, &c.,

A Navigating Sub-Lieut. of Three Years' Standing.

MILITARY PRISONERS.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—A recent order instructs that soldiers discharged from the Army as "bad characters" shall be sent away in a slop suit of plain clothes—at a cost of 12s. 6d.—and their regimental clothing returned to the Service. This is good as far as it goes, and saves a certain amount of disgrace to the cloth; but to do good, it should be extended to cover all soldiers in civil custody. When once the police are able to withdraw a man from his regiment, and commit him, on conviction by a magistrate or otherwise, to gaol, and whilst the military have no control over him, the prisoner ought not to have military clothing, but be supplied with this "slop suit," and when they return to the regiment, then only resume the uniform of the Service. The publication of my former letter, showing the way the soldier in civil custody was fastened to the tag-rag and bobtail of the sweepings from the police cells on removal to Winchester, has been the cause of an attempt to improve it, in this wise—the prisoners were the last two weeks handcuffed to each other in rows of five and four, a soldier here and there sprinkled amongst them. Whilst at the station awaiting the arrival of the train I noticed that when any of the prisoners required to put his hand to his face for any purpose, or to make his hat straight, he had to pull up with his own the manacled hand of his next fellow in misfortune. As some of these prisoners were only committed for terms of a fortnight or three weeks for slight offences, it is questionable if the infliction of this manaclad disgrace is necessary.—I am, &c.,

Indignant.

Aldershot, June 12, 1877.

THE BRIGADE DEPOT SYSTEM.

TO THE EDITOR OF THE ARMY AND NAVY GAZETTE.

Sir,—G. O. of May 1, 1877—"Command of Brigade Depots"—says:—"In absence of the officer commanding a brigade depot, the regimental duties of the depot will be carried on by the senior officer present." This being so, would it not now be desirable to place each of the captains and subalterns of the brigade depot in the "Army List" by their regimental seniority, and not, as at present, according to the numerical seniority of their respective regiments—an arrangement that has led at least some officers to order that each depot of the brigade shall be kept perfectly distinct, on the ground that if the authorities desired to amalgamate the two depots into one battalion, they would place the officers of the brigade depot in the "Army List" by their seniority, as regimental lists?—I am, &c.,

A Centurion.

"Justitia" desires to contradict the statement of "Ordnance" that the Purveyors' Department was an offshoot of the old Commissariat Department. He says it was distinct from the Commissariat, and that its duties comprised all that were performed by "Control" except those relating to warlike stores and transport (see Purveyors' Regulations of 1860). Of course it is well known that the old Commissariat Department clamoured for "Control," and got it, the result being that for eight years the officers of the Purveyors' Department have been crushed and treated with the greatest injustice, as length of service was made to give way to the higher relative rank of the Commissariat officers, and the new department, instead of improving, has made the position of the purveying officers worse. "Control" has now collapsed; Military Store officers have been separated and made a distinct department, designated "Ordnance Store Department;" the "Pay," which in former years made the old Commissariat Department so powerful, is also a separate department—so, in fact, the old Commissariat are now obliged to fall back upon the duties quite foreign to them, performed by the Purveyors' and Barrack Departments, to find any employment in times of peace. [We cannot help thinking and saying that these squabbles and the squabbling spirit manifested by those who represent, or pretend to represent, the several departments of the civil service connected with the commissariat of the Army are very little likely to gain for them support or sympathy.]

BIRTH.

Suckling.—June 22, the wife of Thomas Suckling, R.N., Lieutenant Commanding H.M.S. Pheasant, of a son.

MARRIAGES.

Bruce—Wodehouse.—June 27, at St. Thomas's, Portman Square, by the Rev. P. C. Wodehouse, James Bruce, Esq., Commander R.N., younger son of Sir Henry Hervey Bruce, Bart., to Catherine Mary Philippa, elder daughter of the late Colonel Edwin Wodehouse, C.B., Royal Artillery.

Henn—Bartholomew.—June 27, at St. Paul's Church, Rothesay, by the Right Rev. the Bishop of Argyll and the Isles, assisted by the Very Rev. the Dean of Argyll and the Isles, William, Lieutenant, R.N., eldest son of Thomas Rice Henn, Esq., D.L., of Paradise Hill, in the County of Clare, to Susan Matilda Cunninghame Graham, daughter of the late Robert Bartholomew, Esq., of Broom-hill.

Jones.—Beverhoudt.—June 25, at Charles Church, Plymouth, Captain Howard S. Jones, Royal Marines Light Infantry, to Katherine, youngest daughter of the late Major A. von Beverhoudt, 58th Regiment.

Oldknow—Brigstocke.—June 28, at St. George's, Hanover Square, by the Rev. Robert Gregory, Canon of St. Paul's, cousin of the bridegroom, Reginald Oldknow, Chief Engineer, Royal Navy, elder son of the late Rev. J. Oldknow, D.D., Vicar of Holy Trinity, Birmingham, to Henrietta Mary, widow of Captain Augustus Brigstocke, 51st (King's Own) Light Infantry. No cards.

DEATHS.

Barry.—May 21, at Rondebosch, Cape Town, Harold Theodore, only and loved son of Dirk G. Barry, late 11th Regiment, at the tender age of 5 years and 5 months.

Stirling.—June 23, at The Priory, Waterloo, Charlotte Dorothea, infant daughter of Captain Francis Stirling, R.N.

Advertisements.

ROYAL ITALIAN OPERA, COVENT GARDEN.

This evening (Saturday), will be produced H.R.H. the Duke of Saxe-Coburg Gotha's grand opera seria, SANTA CHIARA. Carlotta, Mdlle. D'Angeri; Alessio, Signor Cotogni; and Vittorio, M. Capoul. La Napolitaine will be danced by Mdlle. Girod and Mdlle. H. Reuters. Scenery by Messrs. Dayes and Caney. The mise-en-scène by Signor Tagliafico.

LAST WEEK but TWO of the SEASON.

NEXT WEEK THERE WILL BE SIX PERFORMANCES.

Madame Adelina Patti.—Monday, July 2 (last time), IL BARBIERE DI SIVIGLIA. Rosina, Madame Adelina Patti; Figaro, Signor Cotogni; Bartolo, Signor Ciampi; and Almaviva, Signor Nicolini.

Letters of application, stating age and present occupation, and accompanied by testimonials of recent date, to be forwarded to the Clerk by Thursday, 5th July next.

Personal canvassing is strictly prohibited.

By order,
JOSHEPH BEDFORD, Clerk.

Guardians' Offices, Northumberland Street,
Marylebone Road, W., 25th June, 1877.

REQUIRED, early in August, for an Officers' Catering Mess (regiment serving in Ireland), a MAN COOK, single preferred. Liberal wages will be given for one thoroughly qualified, skilful, and sober. Applications, with testimonials and terms, to be sent to S. L. E., The Barracks, Kilkenny.

MESSMAN WANTED by the Officers 64th Regiment. Apply to Mess President, Aldershot.

BREWERY TO LET near London in working order, suited for any one or two gentlemen with small capital. Prior knowledge not necessary, as the owner will teach anyone the business, and also the art of brewing. James Beal, Esq., 20, Regent Street, Waterloo Place, London, S.W.

TENBY, SOUTH WALES.—A very desirable MARINE RESIDENCE and ESTATE, called WATERWYNCH, within a mile of the town of TENBY. FOR SALE, by Mr. HENRY DAVIES, by Public Auction, at the Royal Lion Hotel, Tenby, on WEDNESDAY, the 18th day of July, 1877, at One o'clock precisely. The property comprises an excellent FAMILY RESIDENCE (approached by a drive from the high road), a neat Green House and Summer House, fowl houses, three-stalled and one stalled stable, coach-house, ornamental walks, ponds, fernery, orchard, kitchen garden, waterfalls, and cascades well grown; trees consisting of oak, chestnut, beech, ash, elm, lime, arbutus, willow, wellingtonea-gigantea, and others of large size, together with thirty-eight acres of very superior meadow and pasture land. The house is built on rock, and is perfectly dry, and contains drawing, dining, and bed-rooms of large dimensions, commodious kitchen, and out-offices. It is sheltered from the east winds, and is admirably suited for people who have lived in India and invalids, and has delightful panoramic views of Carmarthen Bay, Tenby Gower, Caldy, and a great part of the Devonshire coast. The bay in front of the house, called Waterwynch Bay, affords excellent shelter for a yacht, and abounds with salmon, lewin, mackerel, lobsters, crabs, prawns, and shrimps. There is good shooting and fox-hunting in the neighbourhood. The geological formations near the house are interesting, and have been fully described by Murchison, De la Bech, &c. The whole or part of the furniture, which is quite modern and in an excellent state of preservation, may be taken at a valuation. The property has always been occupied as a private residence, but it may be made to yield a very considerable return as an hotel, for which (from its many advantages, such as a good private beach for bathing, ornamental grounds, and its contiguity to Tenby) it is admirably adapted. The estate has a never-failing supply of mineral and other waters, and is held under the Corporation of Tenby for a term, about forty years of which are unexpired, at the annual ground rent of £25. Further particulars and cards to view may be obtained of the Auctioneer at his offices, Haverfordwest; M. Mathias Thomas, Esq., Solicitor, Tenby; Messrs. Davies and Co., Solicitors, Haverfordwest; and Messrs. Smith, Davies and Co., Solicitors, of No. 1A, Frederick's Place, Old Jewry, London, E.C.

STAFFORD HOUSE COMMITTEE for the RELIEF OF SUFFERING AMONG the TURKISH SOLDIERS.—Chairman, the Duke of SUTHERLAND, K.G.—In consequence of the recent battles, further funds are urgently needed. Subscriptions should be sent to *Major-General* Sir Henry Green, Stafford House, or to Messrs. Drummond, Charing Cross.

ROYAL UNITED SERVICE INSTITUTION, Whitehall Yard. 1877.

LECTURE at Three o'clock, Friday, July 6th.
Admiral of the Fleet Sir HENRY J. CODRINGTON, K.C.B., in the Chair.
Commander JOSHUA COLE, R.N.,
On "An improved War Rocket, for use in both Military and Naval operations." To be followed by a discussion.

By order,
B. BURGESS, Capt., Secretary.

HIRE SYSTEM.
Elegant and useful FURNITURE, CARPETS and BEDDING, and FURNISHING REQUISITES of every kind on this convenient system, displayed in numerous extensive and the most beautiful show-rooms in the kingdom. Prices fixed from an Illustrated Catalogue representing the stock, and all the advantages offered by numerous wholesale houses are combined and to be found in this establishment, and at one profit only.—Prospectus and priced Illustrated Catalogue on application to the Manager, Hire Department, 81, Brompton Road. Established 60 years

DROITWICH BRINE BATHS, Worcestershire, consisting of hot and cold baths, sprays, douches, Turkish and swimming baths, and containing the most powerful water yet discovered. These Baths are crowded with sufferers of all classes, from the nobility to the poorest peasant. They relieve gout, rheumatism, neuralgia, all cases of general derangement, and extreme cases of debility, by restoring the tone of the digestive functions without the necessity of specific medicine. Private residence of the medical proprietor adjoining the Baths for first-class invalids, and all descriptions of lodgings can be obtained. For further information apply to Mr. Roe, Secretary.

CAUTION.—WAR IN THE EAST.

Military Officers and others proceeding to the Seat of War are respectfully cautioned against useless imitations of the well-known ELLWOOD HELMET, the only effectual protection against sun-stroke.

MIDSUMMER HOLIDAY Trip to France *for* Sons of Gentlemen, under the care of a French gentleman, a Paris University Graduate, Senior Master in one of the London Public Schools, and of his wife, an English lady. For particulars, apply by letter to Monsieur M., 2, Victoria Terrace, Clapham Junction.

INCREASE OF INCOME.—Gentlemen having extensive connections may add considerably (£100 to £500 per annum) to their incomes, without publicity or obligation, by introducing business to a professional firm. For interview write to A. G., Kelly's Library, 2, Vigo Street. W.

TO OFFICERS RETIRING from the SERVICE.—A Gentleman, whose practical acquaintance with agriculture extends over 20 years, offers an unusual opportunity for acquiring an insight into the profits to be made on land by a new method, which renders mistake impossible. A very small capital required, interest on which would commence at once, and with perfect security. Address "Varsity," Fredk. L. May and Co., Advertising Agents, 160, Piccadilly.

HOLLOWAY'S PILLS.—The Great Need.—The blood is the life, and on its purity depends our health, if not *our* existence. These Pills thoroughly cleanse this vital fluid from all contaminations, and by that power strengthen and invigorate the whole system, healthily stimulate sluggish organs, repress over-excited action, and establish order of circulation and secretion throughout every part of the body. The balsamic nature of Holloway's Pills commends them to the favour of debilitated and nervous constitutions, which they soon resuscitate. They dislodge all obstructions, both in the bowels and elsewhere, and are, on that account, much sought after for promoting regularity of action in young females and delicate persons who are naturally weak, or who, from some cause, have become so.

THOMAS WHITE'S CELEBRATED CAMPAIGNING KIT,

CONSISTING OF
BEDSTEAD, BEDDING, BLANKET, PILLOW, BATH, WASHSTAND, BASIN, CAMP-STOOL, BUCKET, LANTERN, POLE-STRAP, LOOKING-GLASS, PYJAMAS, AND SLEEPING CAP.
ALL OF WHICH ARE CONTAINED IN HIS
LOCK-UP WATERPROOF BAG.

Which, when packed with the above articles, supplies room for clothing and other necessaries. The chief feature in this Kit is T. White's FOLDING BEDSTEAD (recently improved), weighing 16lbs., price 30s.; or his larger sized ditto, 18lbs., price 35s., intended for officers entitled to carry extra weight. Also his CANTEENS for company messing, to cook for and dine three or more officers, as supplied and thoroughly tested during the Manœuvres of 1871, 1872, 1873, 1874, and 1875. This Canteen was used by Sir Garnet Wolseley, G.C.M.G., K.C.B., his Staff, and the 42nd Highlanders (the Black Watch), and other regiments during the Gold Coast campaign, and is recommended and patronized by the highest military authorities.

The above Campaigning Kit, or Canteens, and in most instances both, have been supplied to his Majesty the Emperor of Germany; H.R.H. the Duke of Cambridge, K.G., &c.; H.R.H. the Duke of Connaught, K.G., &c.; H.S.H. Prince Edward of Saxe-Weimar, C.B.; the late General Sir Hope Grant, G.C.B.; Generals the Right Hon. Sir John Michel, G.C.B.; Sir R. Walpole, K.C.B; Sir Charles Ellice, K.C.B.; Major-Generals Sir Charles Staveley, K.C.B.; Sir Alfred Horsford, G.C.B., Military Secretary; J. S. Brownrigg, C.B.; Henry Smyth, C.B.; Lord Mark Kerr, C.B.; D. Lysons, C.B., Q.M.G.; Sir Thomas MacMahon, Bart., C.B.; Sir E. Greathed, K.C.B.; G. V. Maxwell, C.B.; Hon. A. Hardinge, C.B.; C. Shute, C.B.; W. Parke, C.B.; A. J. Herbert, C.B.; and Sir Garnet J. Wolseley, G.C.M.G., K.C.B., besides some thousands of officers of nearly every branch of and regiment in the Service.

THOMAS WHITE,

CAMP AND BARRACK FURNISHER,
Begs leave to inform Commandants of Corps, Presidents of Messes, and Officers generally, that he
IS PREPARED TO SUPPLY ON HIRE
EVERYTHING NECESSARY FOR OFFICERS' MESSES,
Including
MARQUEES, FURNITURE, BOARDED FLOORS,
PORTABLE KITCHENS,
WHITE'S CELEBRATED FIELD RANGE,
Cooking Utensils, Cutlery, Electro-Plate, Crockery, China, Glass, &c.

The same will be securely packed and forwarded, accompanied by an experienced assistant, if desired, to any part of the United Kingdom.

THOMAS WHITE'S

STANDING CAMP TENT KIT,

As supplied by him for 12 years to the National Rifle Association at Wimbledon, and to Officers at Aldershot when under canvas, consisting of the following articles:—

Wood Folding Camp Bedstead
Hair Mattress
,, Pillow
Folding Chair
Sponge Bath
Water Can
Tent Pole Strap
Strip of Matting
Tripod Washstand.
Looking Glass
Basin
Lantern

Can be had on hire, in any number, to meet the requirements of regiments or County Rifle Meetings. The weight of each Kit complete is about 80lbs. The Kit includes everything necessary for camping out, and is looked upon by the large number of officers who have used it in England Ireland, and Scotland as a great convenience, saving them the trouble and annoyance of looking out, packing, and conveying their own goods (which are often unfitted for the purpose) to the camping ground.

P.S.—The Campaigning Kit is for Sale, and not for Hire; the Standing Camp Tent Kit is for Hire only.
Full details, Illustrated Price Lists, and Estimates for Officers' Messes, may be had post free on application to

THOMAS WHITE, CAMP FURNISHER, ALDERSHOT.

JAY'S

SIX-AND-A-HALF GUINEA

RUPTURES (BY ROYAL LETTERS PATENT)
WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 medical gentlemen to be the most effective invention for the curative treatment of hernia. The use of a steel spring, so often hurtful in its effects, is here avoided, a soft bandage being worn round the body, while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body, two inches below the hips, being sent to the manufacturer.

MR. WHITE, 228, PICCADILLY, LONDON.

Price of a single truss, 16s., 21s., 26s. 6d., and 31s. 6d.; post free. Double ditto, 31s. 6d., 42s., and 52s. 6d.; post free. An umbilical ditto, 42s. and 52s. 6d.; post free. Post-Office Orders to be made payable to JOHN WHITE, Post Office, Piccadilly. Every description of RIDING BELTS, ELASTIC STOCKINGS to draw on, and ELASTIC SILK SUSPENDERS, on new and improved principles.

JOHN WHITE, Manufacturer, 228, Piccadilly London,

BAUMGARTEN'S INVIGORATIVE NERVINE ESSENCE. A most powerful nutritive cordial, which restores to their normal condition all the secretions on the integrity of which perfect health depends.

Report by Dr. Hassall.—"Having analysed the preparation to which Messrs. Baumgarten and Co. have given the name of 'Invigorative Nervine Essence,' I am of opinion that it is a combination well calculated, from its containing, among other ingredients, Pepsine and Phosphate of Soda, to prove most serviceable to the debilitated, the nervous, and the dyspeptic."

Price 8s. per bottle, or four quantities in one, 22s. Carriage free on receipt of remittance. Sole agents, BRANT and CO. 283 Strand, London, W.C.

ST. LAWRENCE-ON-SEA, NEAR RAMSGATE.

THE "GRANVILLE" HOTEL.

THE "GRANVILLE" PRIVATE SPECIAL EXPRESS TRAINS to ST. LAWRENCE-ON SEA, near Ramsgate, in 1 hour and 45 minutes. Departures every Friday, from Charing Cross at 3.45, and Cannon Street at 3.55 p.m. (See bills.)

THE "GRANVILLE."
"The situation of the palatial establishment on a cliff somewhat removed from the town, though conveniently proximate thereto, is an advantage greatly augmented by its superb suite of ozone and various other health-giving baths, its well-constructed rink, its excellent and cheerfully appointed table d'hôte, and all other liberal additions of comfort, luxury, and amusement since the hotel has come into the present enterprising hands."—"Daily Telegraph," March 29.

THE "GRANVILLE" HOTEL.
The "Saturday Review" says:—"The scenery, the air, the accommodation for visitors were described as of the most perfect kind; and we could not help wondering how it was that this place, which had been in existence in a quiet way for several years, had suddenly, like Byron, gone to bed and awoke famous."

THE "GRANVILLE" HOTEL.
"Mayfair" says:—"The proprietor of the hotel, which has carried the name of St. Lawrence-on-Sea to the utmost ends of the earth, has energetically and judiciously lavished a fortune, first in making the 'Granville' Hotel one of the most charming seaside residences in the Kingdom, and next in bringing the fact under the notice of the public."

Address the Manager, Granville Hotel, St. Lawrence-on-Sea, Ramsgate.

CHLORODYNE.—FREEMAN'S is the original and only true.—Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish decided in favour of R. Freeman and against J. C. Browne and J. T. Davenport; see "Times" of July 24, 1873. Thousands of medical practitioners testify that there is no substitute for it in the treatment and cure of asthma, bronchitis, coughs, and other chest affections, neuralgia, fevers, cholera, dysentery, spasms, and all nerve pains. Bottles 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 20s. Sold by patent medicine dealers in all parts of the world. See that "Freeman's Original Chlorodyne" is engraved on the Government stamp.

MANUFACTORY—NEWHALL STREET, BIRMINGHAM.

SOVEREIGN LIFE ASSURANCE COMPANY.

EXTRACT FROM REPORT OF THE DIRECTORS, MAY, 1877:—

The Directors have again the pleasure of reporting a material advance in the amount of new business effected by the Company during the past year.

The Policies issued were 474 in number, assuring £249,060, or nearly £50,000 in excess of the preceding year. The average amount of each Policy was £525, and the new premium income represented was £8,295 3s. 10d., or £2,100 more than in 1875. The increase on the Total Revenue from Premiums and Interest was £4,995.

The sum paid for claims by death during the year was not in excess of the amount anticipated; but the aggregate disbursements on account of policies falling due exceeded that of any former statement, owing to an increased number of Endowment Assurances having arrived at maturity. Nevertheless, £23,000 were added to the Funds of the Company.

H. D. DAVENPORT, Secretary.

ESTIMATES ON APPLICATION.

NAVAL CADETSHIPS, &c.

"EASTMAN'S" ROYAL NAVAL ACADEMY, BURGOYNE HOUSE, SOUTHSEA.

Principal, since 1860, G. EASTCOTT SPICKERNELL.

At the last two Naval Cadet Examinations pupils took the *First* Place. More than 1,000 pupils have entered her Majesty's Service.

The House is situated close to and directly facing the sea. Pupils have good Bathing and Boating, under careful superintendence.

Pupils are received from Nine years of age and upwards. To make the School specially adapted for Junior Pupils intended for the Royal Navy and the Public Schools, Senior Pupils are not now received.

NAVAL CADETS, ASSISTANT CLERKS, HOPE HOUSE, SOMERSET-PLACE, SOUTHSEA.

Principal—Mr. T. H. VICKERY.

In addition to the general course of study pursued at this long-established School, pupils are specially prepared for the examination required for the above.

At the competitive examination in November, 1875, and at the recent examination in June, of candidates for Assistant Clerkships, all the pupils sent up from this Establishment were successful.

ARMY EXAMINATIONS.

MR. MULCASTER'S MILITARY SCHOOL, 36 and 37, Woolwich Common, S.E.

Candidates prepared for the various Military Examinations.

During the past few years over 120 gentlemen have passed into the Service direct from this establishment, taking first places for Cooper's Hill College, Woolwich, and the Line respectively.

Of Militia candidates 12 have been successful out of 13 sent up for examination.

June 7th, 1877.

MILITARY EDUCATION in GERMANY.—For Candidates for Woolwich, Sandhurst, and commissions through the Militia. Colonel Berdoe A. Wilkinson (retired full-pay), Royal Engineers, receives pupils to prepare for the Army at his residence in Hesse Darmstadt. They have the advantage of preparing for the competitive examinations under the superintendence of an officer of long service, assisted by a staff of competent masters, and, at the same time, of acquiring a colloquial knowledge of German and French. Address Colonel B. A. Wilkinson, late R.E., care of Messrs. Cox and Co., Craig's Court, London, S.W., or Heinrichs Strasse, 108, Darmstadt.

EDUCATION.—There are a few Vacancies in the ROYAL SCHOOL for DAUGHTERS of OFFICERS of the ARMY for PUPILS on payment of £80 per annum, which includes all professors' fees and extras. Any further information may be obtained of Mr. G. W. Forster, 22, Cockspur Street, London.

A MARRIED CLERGYMAN (formerly travelling tutor to a nobleman, and some time Assistant Master in a Public School), who has had ten years' experience in preparing Army and University Candidates, receives three RESIDENT PUPILS into his house at Oxford. Address H. C. L., Union Society, Oxford.

THE SCHOOL BOARD for LONDON are prepared to APPOINT a CAPTAIN-SUPERINTENDENT for the Training Ship they are about to establish. The selection will be restricted to executive commissioned officers in the Royal Navy not under the rank of Lieutenant.

Full particulars will be forwarded in reply to a letter addressed to the Clerk of the Board, School Board for London, Thames Embankment, London, and marked outside "Industrial School Ship." Applications must be forwarded so as to reach the office on or before the 7th July, 1877.

SWITZERLAND.—FRENCH, GERMAN, MATHEMATICS, &c., for Army, Navy, and Mercantile life. Gentlemen are received into the family of an Oxford Graduate on very moderate terms. Excellent boating. Mountain excursions. Address "D. C. L.," care of Rev. G. Cavill, St. Pancras Rectory, Chichester.

NAVAL CADETS EXAMINATIONS.—A Retired Naval Instructor can prepare young gentlemen for the above. Address, T. S. Crockford, 37, Cranfield Road, Brockley, S.E.

ARMY AND NAVY CO-OPERATIVE SOCIETY, LIMITED.

Established for the advantageous supply of PROVISIONS AND GOODS OF ALL KINDS TO ITS MEMBERS,
